

Explore Engineering!

Join us this July 15 - 19, 2024 for an exciting journey into the world of engineering at the University of Southern Indiana's "Explore Engineering" camp. Designed exclusively for high school students, this program offers a glimpse into civil, mechanical, electrical, and applied engineering. Through hands-on activities and utilization of USI's cutting-edge engineering labs, participants will gain practical insights into the daily realities of engineering careers, fostering a deeper understanding of each discipline's nuances. Whether your interests lie in construction, machinery, circuits, or innovative problem-solving, this camp offers a comprehensive introduction to the diverse world of engineering.

DATE: July 15 - 19, 2024
