As a biracial, bicultural, and bilingual citizen of the world, Dr. Betances inspires willing learners to aim high, reject rejection and embrace themselves and each other as powerful team members working toward a more prosperous future. Out of the bowels of inner city poverty, stigma of minority group status, violence, welfare, and illiteracy in two languages, he arose. As America's foremost communicator on the challenge of casting away barriers to success, he delivers his powerful message with conviction: "It matters less where we are from – what really matters is where we are going. Accept your diversity. Embrace it. Make it work for you. Harness the rainbow."
