Experimental Graduate Course:

CHEM661X  Topics in Environmental Chemistry for Teacher Preparation and Enhancement  3 Credit Hours

Course Description: This is a special topics course for advanced teacher preparation and for in-service teacher enhancement. An emphasis is placed on basic concepts and problem-solving techniques needed for teaching chemistry using environmental concepts in high school. The course focuses on new advances in knowledge, the interface of scientific knowledge with topics of daily life and environmental concern, or ethical issues raised by new advances in chemistry. The impact of chemistry on the environment is emphasized as well as attempts to solve various environmental problems. Subject matter may vary from semester to semester when the course is offered.

Prerequisite: Consent of Instructor.
Implementation Date: Summer II, 2004.
