

Explore USI Summer Series

For High School Students

Is your high schooler interested in STEM but short on opportunities to explore it? Back for its second year, the Explore USI Summer Series is designed with busy families in mind! The Pott College of Science, Engineering, and Education at the University of Southern Indiana invites students in grades 9–12 to join our two-day STEM mini-camps offered throughout June and July 2026.

These hands-on sessions give participants a chance to experience collegiate-level STEM coursework, explore majors within our college, connect with USI faculty and industry partners, and gain confidence as they prepare for their future academic journey.

Registration opens April 1, 2026. Mini-camps are filled first-come, first-served basis. Reserve your student's spot in one or more camps to help them make informed choices about their college major and career path!

Explore Chemistry & Biochemistry @ USI

June 2-3, 2026; 9 a.m. - 3 p.m.

Explore the STEM Disciplines for 9th Graders @ USI

June 4-5, 2026; 9 a.m. - 3 p.m.

Explore Statistics @USI
