The University, through the appropriate processes, reserves the right to add, amend, or repeal programs, policies, procedures, regulations, fees and/or announcements, in whole or part contained in this bulletin.

It is the policy of the University of Southern Indiana to be in full compliance with all federal and state non-discrimination and equal opportunity laws, orders and regulations relating to race, sex, religion, disability, age, national origin, sexual orientation, or status as a disabled veteran or veteran of the Vietnam era.

Questions or concerns should be directed to the director of Affirmative Action, USI Human Resources Department, Room FWA 166, University of Southern Indiana, 8600 University Boulevard, Evansville, Indiana 47712-3596 (Telephone: 812/464-1815). Office hours are 8 a.m. to 4:30 p.m. Monday – Friday.

The University maintains a smoke-free environment.

Contact Information:

This catalog is designed to answer most of the questions which may be asked about the University of Southern Indiana. If further information is needed, inquiries may be addressed to the appropriate member of the faculty or officers of the University. Prospective students should write or telephone:

The University of Southern Indiana, established in 1965, is a comprehensive public university with a Board of Trustees appointed by the Governor of Indiana. The University offers more than 70 majors through the colleges of Business, Education and Human Services, Liberal Arts, Nursing and Health Professions, and Science and Engineering and is authorized to confer degrees through the master's level.

The University serves over 10,000 students annually in credit programs and an equal number of students in non-credit and community service programs. There are over 21,000 degree recipients.

The University has been developed according to a master plan and is located on a 300-acre campus near Evansville, Indiana, a metropolitan area of 280,000, which serves as the fine arts, cultural, commercial, and health care center for the Indiana, Kentucky, and Illinois tri-state area. The University strives to be accessible and responsive to regional and state educational needs.

The University Mission
American education assumes a link between the truth of an idea and the good it promotes for individuals and society. An educated person can be expected not only to be knowledgeable and more financially secure, but also a better citizen, among whose virtues are tolerance, judgment, and belief in freedom for self and others. These values develop in an atmosphere of open inquiry and pursuit of truth. Therefore, as the University of Southern Indiana seeks to support education, social and economic growth, and civic and cultural awareness in southwestern Indiana, it will be devoted primarily to preparing students to live wisely.

The University of Southern Indiana is a broad-based institution offering instruction, research, and service. A liberal arts and science curriculum serves as the foundation of knowledge for all programs and complements undergraduate programs leading to careers in business, engineering, government, health professions, education, and related fields. Selected master's degrees serve persons in professional and technical studies. As a public institution, the University of Southern Indiana counsels and assists business and industry as well as social, educational, governmental, and health agencies to higher levels of efficiency and improved services.

The University was established in 1965 as a branch campus of Indiana State University with a regional mission, in response to a need for public higher education in southwestern Indiana. In 1985, the legislature created the University of Southern Indiana as a separate statewide public university. This change in structure and mission was best delineated by then-Governor Robert D. Orr in his charge to the Board of Trustees at its first meeting.

“You have a statutory mission that is laid out in the bill passed by the legislature, and it is going to take a lot of effort on the part of everyone to live up to those requirements as they have been spelled out by the Indiana General Assembly. This is now a statewide institution, and it is important that this point be emphasized. Heretofore, this has been a branch campus of Indiana State University, and it has been understood to be regional in nature. It was created to accomplish a regional mission... just as other branch campuses around the state. Now this is a state institution in the fullest sense of the word.”

Community leaders have supported the University in providing a solid base for its present success and future growth. The University is expected to grow moderately in the years ahead as it seeks to positively affect postsecondary attainment levels in Indiana. To this end, the University emphasizes programs and services for traditional college-age students as well as for part-time, commuting, and older students. It has developed partnerships with high schools and has expanded opportunities for individuals in the workplace. The University is an institution which students choose for the strength of its academic programs and the quality of its student life.

A board of nine trustees, appointed by the Governor, governs the University. This board must include one alumnus of the University, one current student, and one resident of Vanderburgh County. Trustee terms are four years, except the student term, which is two years. The board has powers and duties common to other public postsecondary institutions in the State of Indiana.

The 1989 Indiana General Assembly authorized the trustees of the University to construct, acquire, operate, and manage student housing facilities and to issue revenue obligations for this purpose. The Commission for Higher Education approved the transfer of ownership of student housing from a nonprofit foundation to the University of Southern Indiana in February 1994. The addition of housing facilities enables students to take full advantage of the educational, cultural, and recreational benefits that a residential campus offers.
Excellence in teaching will continue to be the most important criterion in faculty recruitment. At the same time, the ability to do research, to engage in continuous scholarly and creative work, and to provide service, primarily to the region and the state, will be important additional qualifications.

A major emphasis of the University of Southern Indiana is the delivery of credit programs. The primary curricular offerings include liberal arts, pre-professional, professional, technical, and occupational programs at the associate, baccalaureate, and master's levels. The University provides comprehensive outreach and public service programs of short duration including workshops, conferences, seminars, and instructional courses. These programs will increase as the University continues to address economic, social, and cultural needs in Region 13 as well as in the state. The University’s location in Evansville, the center of a predominantly rural region dotted with smaller population centers, gives it opportunities to increase educational access by both traditional means as well as through innovative instructional delivery systems, including active participation in the Indiana Higher Education Telecommunications Systems networks and other technology-based instruction.

The University welcomes appropriate partnerships for providing services to its constituency and cooperates with public and private universities, hospitals, and libraries to achieve this objective. The University participates with area business, industry, social and governmental agencies for research and development related to the problems and concerns of business development, labor-management relations, tourism and recreation, healthcare delivery, gerontology, energy development, and environmental-quality analysis. Community groups often use campus facilities for meetings, programs, services, and instruction.

The University works in cooperation with the Indiana Department of Natural Resources to manage historic properties and tourism programs in New Harmony, Indiana, a community with a rich intellectual and cultural inheritance. The community provides opportunities for research and laboratory learning experiences which benefit both the town and the University.

The University provides a comprehensive range of support services for students. These include academic skills development, child care, counseling, financial aid, placement, housing, health services, student activities, and both recreational and intercollegiate athletics. The University of Southern Indiana participates in NCAA Division II intercollegiate athletics and is a member of the Great Lakes Valley Conference.

The University admits graduates of commissioned high schools in the State of Indiana who successfully complete college preparatory courses in English, mathematics, science, and social studies with at least a C average. Other students will be considered for admission to the University based on past academic performance and promise for future success.

The University is accredited at the baccalaureate and master's levels by the North Central Association of Colleges and Schools. Programs in business, education, engineering, social work, and the health professions are accredited by the appropriate professional organizations and state agencies.

**Accreditation and Memberships**
The University of Southern Indiana is accredited by The Higher Learning Commission of the North Central Association of Colleges and Schools, 30 North LaSalle Street, Suite 2400, Chicago, Illinois 60602-2504, Telephone: 312/263-0456.

It also holds the following accreditations:

- AACSΒ – The Association to Advance Collegiate Schools of Business
- Accreditation Council for Occupational Therapy Education
- Accrediting Council for Education in Journalism and Mass Communication
- American Chemical Society
- American Medical Association Committee on Allied Health Education and Accreditation
- Association of Graduate and Liberal Studies Programs
- Commission on Collegiate Nursing Education
- Commission on Dental Accreditation; American Dental Association
- Committee on Accreditation for Respiratory Therapy
- Council on Social Work Education
- Indiana Professional Standards Board
- Indiana State Board of Nursing
- Joint Review Committee on Education in Radiologic Technology
- National Council for Accreditation of Teacher Education
- Technology Accreditation Commission of the Accreditation Board for Engineering and Technology (Baccalaureate degree programs in engineering technology)
The University holds membership in the American Association of Colleges for Teacher Education, the American Association of State Colleges and Universities, and the American Council on Education. It also is on the approved list of the American Association of University Professors.

Information on how to contact any of these agencies is available in the office of the Provost and Vice President for Academic Affairs.

University Board of Trustees
The University is governed by the Board of Trustees, composed of nine citizens appointed by the Governor of the State of Indiana. The trustees meet every other month.

Trustees
Bruce H. Baker Newburgh
Louise S. Bruce Tell City
Mark A. Day Indianapolis
G. Patrick Hoehn Jeffersonville
J. David Huber Cannelton
Frank F. McDonald II ’73 Evansville
Harolyn G. Torain ’71 Indianapolis
Samuel J. Tucker ’05 Evansville
James L. Will Sr. Evansville

Officers of the University
H. Ray Hoops, President
Linda L. M. Bennett, Provost and Vice President for Academic Affairs
Cynthia S. Brinker, Vice President for Governmental Relations
Robert W. Parrent, Vice President for Student Affairs
Mark Rozewski, Vice President for Business Affairs and Treasurer
Sherrianne M. Standley, Vice President for Advancement

Academic Programs
Baccalaureate degrees normally may be completed in four years by a student attending classes on a full-time (15 or more hours/semester) basis. Associate degrees normally may be completed in two years by students attending classes on a full-time basis. Some programs lead to certificates rather than diplomas, and the length of these programs varies.

All associate and baccalaureate degree programs include two major components: 1) University Core Curriculum and 2) specialization. Specific requirements for each program are described in this bulletin.

Requirements for graduate programs may be found in the graduate studies section. Master’s degree programs are designed primarily for working professionals. Courses frequently are scheduled in the late afternoon or evening hours to accommodate students who hold full-time employment. Master’s degree programs are designed to be completed in three to four years of part-time study.

Public and Professional Services
In addition to its academic programs for students, the University offers many cultural, recreational, and social programs to students and the general public. Continuing education classes, musical productions, guest lectures, athletic events, and theatrical performances are open to the public.

Many faculty members perform research services and are consultants to schools, business, industry, and governmental agencies. Information is available in the Office of News and Information Services.

University Facilities
Eleven major buildings, plus apartments and suite-style residence halls housing about 3,000 students, are on the 300-acre campus, located west of downtown Evansville on State Highway 62. More than 1,000 adjoining acres are held in trust by a nonprofit foundation for future educational development.

The Administrative Services Annex (North and South), located west of the Technology Center, houses offices for Procurement and Distribution Services, Telephone Maintenance, the Regional Office of the Indiana Department of Commerce, and other administrative departments.

The Health Professions Center is a classroom and office building housing the College of Nursing and Health Professions and the Department of Social Work. The Indiana University School of Medicine, Evansville Center, is located on the third floor of the facility. Features of the Health Professions Center include the 450-seat Mitchell Auditorium, the Charles E. Day Learning Resource Center, a dental hygiene clinic and dental laboratory, lecture rooms, classrooms, instructional laboratories, seminar rooms, and faculty offices. Space in the lower level includes laboratories for science and social work, classrooms for health services, a human performance laboratory, and a Student Health Center.
The Liberal Arts Center offers state-of-the-art instructional areas and offices for the College of Liberal Arts. Included are the Helen Mallette Studio Theatre, Clifford and Ruth Kleymeyer Lecture Hall, Anna Lee Hamilton Music Studio, Scripps-Howard Center for Media Studies (which includes the William R. Burleigh Media Resources Center, the Scripps-Howard Digital Arts Laboratory, and the Scripps-Howard Video Production Complex), Cynderella McDowell Miller Foreign Language Laboratory, a distance learning classroom, WSWI Radio Station, and several classrooms equipped with instructional technology to enhance learning.

The Robert D. Orr Center is a classroom and office building housing many of the student services departments. The Offices of Admission, Student Financial Assistance, Registrar, Counseling, Career Counseling, Career Services and Placement, and the Division of Extended Services, including Continuing Education, the Organizational and Professional Development group, Southwestern Indiana Regional Development Commission, and Historic Southern Indiana are located on the main floor. The College of Business is located on the third floor, and the second floor is dedicated to classroom space. The Computer Center and Business Affairs offices, including the Cashier, are located on the lower level. Students may pay fees and cash checks at the cashier's window.

The Physical Activities Center (PAC) provides instructional space for physical education and recreation programs as well as offices for the Athletics Department and Physical Education Department. Included in the building are the aquatics area, specialized physical education and service facilities, classrooms, locker rooms and team rooms, and multi-purpose activity areas. The PAC has a seating capacity of 3,000 and serves as the home court for indoor sports programs.

The Recreation and Fitness Center is dedicated to providing a wide variety of programs and services supportive of a wellness lifestyle. With something for everyone, the Recreation and Fitness Center features a state-of-the-art exercise and weight-training area; two wooden courts for basketball, volleyball, and badminton; an elevated four-lane jogging track; an activity room for group exercise classes; and lockers and showers. Students, faculty, and staff can enjoy leisure time on their own or with friends.

The Science Center adjoins the Wright Administration Building. In addition to laboratories and classrooms, the Science Center houses offices for the Pott College of Science and Engineering. The Torrington Science Research Laboratory and the Black Beauty Coal Chemistry Laboratory provide state-of-the-art instructional areas for chemistry. The Torrington Wing of the Science Center has classrooms, labs, and offices.

The Science Center is connected to the Education Center where classrooms, laboratories, and offices for the Bower-Suhreinrich College of Education and Human Services are located. The University Division offices are also located here. The Couch-Renner Lecture Hall is located in the Education Center, and a greenhouse is located on the floor above the lecture hall.

The Technology Center houses the Engineering Department, offices for the Art faculty, and provides classrooms and laboratories for programs of those departments. The Ceramics Center and the Art Studio are located adjacent to the Technology Center.

The University Center is located conveniently in the center of campus where students and faculty may convene for informal meetings, meals, study, social activities, recreation, open discussions, or formal campus occasions. The University Center provides space for student organization offices, conference rooms, lounge facilities, food services, and the University Bookstore. Offices for the Dean of Students, Conference and Meeting Planning (including the Student Reservations Office), International Student Services, Multicultural Center, Student Development, and Student Publications are located here.

Carter Hall and the University Conference Center are located on the upper level of the University Center. Both are large multipurpose rooms that accommodate groups for seminars, workshops, meetings, luncheons, dinners, or dances. The Renner, Couch, and NBD Bank meeting rooms are located on the upper level.

The USI Theatre and Rehearsal Studio are located three miles east of campus, off Barker Avenue at 3001 Igleheart Avenue. Classes in theatre are conducted and productions by students are staged at the theatre.

The David L. Rice Library offers many resources and services to support a student's academic career. The main level contains computers for accessing the online catalog and subject databases, separate computers for e-mail, and a lab for instruction in the use of library resources. Also on the main level are the government document, micro-
form, periodical, and reference collections, along with copiers and printers. The upper level is primarily devoted to the book collection and study space, while the lower level includes the Learning Resource Center and the University Archives and Special Collections. In 2006, the library will move to a new $29.1 million facility.

The Byron C. Wright Administration Building houses administrative offices including those of the President, Vice Presidents for Academic Affairs, Advancement, Business Affairs, Governmental Relations, and Student Affairs. Also located here are offices for Alumni and Volunteer Services, Budgeting and Foundation Accounting, Graduate Studies, Grants and Sponsored Research, Institutional Research, Internal Auditing, and Special Events and Scheduling Services. The Forum Wing of the Wright Administration Building houses offices for Human Resources and Instructional Technology Services. Three lecture halls are located on the lower level and there are also classrooms and conference rooms in this building.

The Publishing Services Center provides space for News and Information Services, including news bureau and photography; and for Printing Services, which includes graphic design, photocopying, printing, and bindery. A staff centralized copy center with enhanced copying and bindery services is located in this building.

The O’Daniel and McDonald Apartments provide apartment-style housing for students. Four residence halls – Fred C. Newman Hall, Frank O’Bannon Hall, Henry and Betty Jane Ruston Hall, and Governors Hall – offer enclosed suite-style housing with computer labs and meeting rooms. The Robert J. Fair Residence Life Center, located in the McDonald complex, contains Residence Life staff offices and a computer laboratory. Additional facilities in the apartment complex are the McDonald Recreational Building, which offers a laundromat, computer laboratory, and offices for the Student Housing Association; and the O’Daniel Student Service Center, which has a laundromat, convenience store, and offices for the Center for Judicial Affairs.
Undergraduate Admission Requirements and Procedures

Beginning Freshmen
To qualify for regular admission to the University of Southern Indiana, new freshmen are expected to graduate in the upper 50 percent of their class and fulfill Indiana Core 40 requirements. Students not meeting these requirements may be considered for acceptance based on their high school GPA and curriculum, standardized test scores, and other evidence of the applicant’s potential for academic success. Students receiving a GED will be evaluated for admission based on their examination scores and academic record.

Freshman admission classifications include:

- **Admission with distinction.** Students must graduate in the top 10 percent of their class or achieve a minimum SAT score of 1200 or ACT of 26 and graduate in the top 20 percent of their class. Indiana students also must complete Core 40 requirements.
- **Admission in good standing.** Students must rank in the upper 50 percent of their high school class. Indiana students also must complete Core 40 requirements.
- **Admission conditionally.** The University may offer conditional admission to a limited number of students who must agree to follow a prescribed course of study and advisements. Basic requirements are as follows:
  - Academic advising in the University Division
  - Enrollment in no more than four three-credit or four-credit classes
  - Successful completion of GENS 101 (Freshman Seminar, one credit hour) during student’s first or second semester. The advisor and student may substitute GENS 105 (College Study Strategies), if appropriate.

Students remain on conditional status until they complete at least 24 hours at USI (quality hours, GENS hours, or a combination) with a 2.0 GPA and all P (passing) grades in GENS courses. At this point, students can declare a major. A conditionally admitted student may be allowed to declare a major before meeting all the above conditions, providing first semester grades demonstrate good academic progress in full-credit classes.

In order to assure them full benefit of the academic advisement system, conditionally admitted students register with their assigned academic advisor in University Division, rather than over the phone or via the Web. Also, their academic advisor must approve all changes to their schedule of classes. These advising guidelines seek to provide maximum support and guidance to conditionally admitted students during their critical first year.

Admission to the University does not guarantee acceptance into a specified area of study, department, or school. Further information about the requirements of major programs and/or schools may be obtained from the Office of Admission.

Homeschooled Students
The University of Southern Indiana welcomes applications for University admission from homeschooled students. Homeschooled students have been part of the academic community for many years and the University recognizes the important contributions that these students make both in the classroom and as a part of student life on the campus. The University makes a deliberate effort to accommodate the special circumstances and unique needs of homeschoolers in the admissions process.

Applicants for admission who have not fulfilled the Indiana Core 40 requirements are considered individually based upon the same criteria used in the evaluation of students from public or private high schools. Grade point average, curriculum, standardized test scores (SAT, ACT) and other evidence of the applicant’s potential for academic success are considered in the admission decision.

Qualified homeschooled students are also eligible for consideration of departmental scholarships. Homeschooled students applying for academic scholarship are evaluated on the same basis as all other students. Grade point average and standardized test scores (SAT, ACT) serve as the primary criteria.

Standardized Test Scores
All students applying for admission to the University of Southern Indiana are required to take either the Scholastic Aptitude Test (SAT) or the American College Test (ACT). These tests should be taken prior to application to the University.

Transcripts
The University understands that the academic transcripts of homeschooled students may differ from those of public and private high school students. Homeschooled transcripts are required for admission to the University and they should include:

- An assessment of academic performance (letter grades, percentages), including an explanation of any applicable grading scale or class ranking
• A list of all high school equivalent courses taken, and the time frame in which the courses were completed (year and semester)

If you have completed course work concurrently at a college or university, please include official transcript(s) from the institution(s) with your application for admission.

Admission of homeschooled students to the University of Southern Indiana does not guarantee acceptance into a specific program of study, department, or College. Further information concerning the academic requirements of major programs and/or Colleges may be obtained from the Office of Admission.

Out-of-State High School Graduates
Out-of-state students are encouraged to apply and will be considered for admission based on the same criteria as an Indiana student except for the Indiana Core 40 requirement.

Required Test
A beginning freshman entering the University is required to take either the American College Test (ACT) or Scholastic Aptitude Test (SAT). Beginning freshmen should take one of these examinations in the latter part of the junior year or early in the senior year in high school. Each applicant should consult his or her high school principal or guidance counselor for detailed information on test dates, test centers, registration forms, registration periods, and deadlines. This information also may be obtained by writing to either: ACT Program, Box 414, Iowa City, Iowa 52240 or SAT Program, Box 592, Princeton, New Jersey 08540. If a student already has taken one of the required tests and the University of Southern Indiana was not designated to receive the results, he or she should do one of the following: (1) write to the National Testing Center and request the scores be sent to the University, or (2) request that the high school send the test scores to the USI Office of Admission. A student who did not take the SAT/ACT while in high school should contact the Office of Admission for test registration information. Students transferring from another university are not required to take either test.

NOTE: A beginning freshman who has been out of high school for three or more years is not required to take either the ACT or SAT.

Transfer Students
In evaluating applications for transfer admission, factors which will be considered are: (1) academic performance at each college attended; (2) academic performance from high school; and (3) personal qualifications and citizenship. The applicant also may be asked to: (1) have an interview with a member of the Admission staff; and (2) provide scores obtained on either the ACT or SAT exam.

A student desiring to transfer from another accredited college will need to submit an application for admission, high school transcript, and one official transcript from each college attended. A transfer student should have a minimum cumulative average of C and be in good standing at the institution from which he or she is transferring. An applicant with less than C cumulative average will be reviewed on an individual basis. Under no circumstances will the applicant’s previous college work be disregarded.

Transfer Credit Policy
Course credits earned from regionally accredited colleges and universities will be accepted as transfer credit subject to the following guidelines:
1. Only courses with grades of C or better will transfer (minus grades from other colleges and universities will be upgraded to the standard letter grade (ex. B- to B). Grade point averages do not transfer.
2. Orientation courses will not be accepted as transfer credit, nor will coursework from academic departments which have no counterpart in the USI curriculum.
3. Non-credit courses earned at previous colleges or universities will not transfer.
4. Even though credit hours are transferable, the transferred hours may not necessarily apply toward a particular degree program. The applicability of credits toward a particular degree, as well as the University Core Curriculum, can be determined in counsel with the appropriate departmental advisor.
5. A maximum of 64 credit hours may be transferred from regionally accredited community and/or junior colleges.

A student’s overall transfer grade point average will not be recorded on the student’s transcript. Consequently, a transfer student will establish a grade point average from the University of Southern Indiana based only on courses taken at this University. A transfer student must, however, meet the requirements for continued enrollment which correspond to the sum of the total transfer hours accepted and total hours attempted at this University. Also, all hours attempted at previous universities will be summed with courses taken at this University in computing graduation honors.
Credit for Associate and Occupational Degree Programs
There are several programs at USI for which articulation agreements, allowing transfer of specific courses or blocks of credit, have been developed with other institutions in the area. The Bachelor of General Studies program offers graduates with Associate in Applied Science degree programs (such as those offered at Ivy Tech) the opportunity to receive recognition of their studies in the form of a block of credit hours. Students in regionally-accredited associate or occupational degree programs who are interested in obtaining a baccalaureate degree at USI are encouraged to obtain specific information about credit-transfer options as early in their college careers as possible. Other procedures for the recognition of educational experience include credit by examination, departmental examination, advanced placement, and CLEP. Additional details about all of these methods for obtaining credit for prior educational experience are available from the Office of the Registrar.

Special Student
A student applying under this category must be 18 years of age or older, and must have graduated from a Department of Education-commissioned high school. The pursuit of a degree may not be an immediate objective for the special student. The applicant should complete the regular application for admission. Normally, the special student is not required to submit any test scores or transcripts. However, if the student later decides to pursue a degree, all pertinent academic documents must then be submitted to the Office of the Registrar for consideration as a degree-seeking student.

Notice of Admission
An application will be acted on promptly upon receipt of all requested materials. Applicants will be notified immediately of their admission status.

Step-by-Step Admission Procedure
The student desiring admission should proceed as follows:
1. Secure an application for admission. The application and other pertinent information are available in the guidance office of most Indiana high schools or they can be requested from the Office of Admission, University of Southern Indiana, 8600 University Boulevard, Evansville, Indiana 47712. Students also can apply online by accessing the Web site at www.usi.edu.

2. Complete section one of the application and take it to the guidance counselor or principal of the high school from which the applicant expects to be graduated (or has graduated). The high school transcript will be attached and the completed application will be forwarded by the high school official.
NOTE: A transfer or guest student should send the application directly to the Office of Admission after completing section one. If a high school transcript is required, the student will be notified by the Office of Admission.

3. Submit SAT or ACT scores. If the student has not taken the Scholastic Aptitude Test, or the American College Test, the student should attempt to do so prior to admission. It is recommended that the SAT or ACT be taken during the spring term of the junior year in high school; however, test scores will be accepted any time prior to the orientation and registration program. If a freshman applicant has not taken the SAT or ACT prior to his or her first registration, the director of Admission may grant permission for the student to sit for the examination during the first term of enrollment. A transfer or guest student is not required to submit test results. In addition, a beginning freshman who has been out of high school for three or more years is not required to take either test.

4. When all steps listed above are completed, the applicant's admission will be complete and the applicant will be notified of the decision on admission to the University. Prior to the beginning of the semester, detailed information relating to orientation, academic advisement, and registration for classes will be mailed. This information will provide specific dates, times, and places for the orientation, advisement, and registration activities.

GED Test Admission
An individual 18 years of age or over who is not a high school graduate may be admitted on the basis of an achievement test certificate and score report. This certificate may be granted as a result of satisfactory scores on the General Educational Development (GED) test. An individual who desires to secure the test certificate should contact the school superintendent's office in the individual's community for information on the GED test.
NOTE: Applicants who have been schooled in settings other than a commissioned high school and who are less than 18 years of age will be reviewed individually by the director of Admission. Scores from the SAT or ACT are required, and completion of the GED test or other high school equivalency test is strongly recommended.
Early Admission
A high school junior or senior who is approaching graduation may be admitted to the freshman class upon approval from the high school principal or guidance counselor, the student’s parents, and the director of Admission.

A superior high school student may be admitted for the summer sessions between the junior and senior years of high school. Approval must be obtained from the parents, high school counselor or principal, and the director of Admission.

Required application materials include (1) the regular application for admission; (2) the high school transcript; and (3) the high school agreement form. Applicants who have been schooled in settings other than a commissioned high school and who apply for early admission also must submit scores from either the SAT or ACT nationally standardized testing programs. The final decision on all early admissions will be made by the director of Admission.

Admission to the Nursing and Health Professions Programs
A person seeking admission to dental assisting, dental hygiene, nursing, nutrition, occupational therapy, occupational therapy assistant, respiratory therapy, and radiologic technology must first be admitted to the University and then to the program. An application must be submitted to the Office of Admission prior to submitting a departmental application to the particular health professions program. For additional information on the health professions programs go to our website: health.usi.edu or contact the College of Nursing and Health Professions, University of Southern Indiana, 8600 University Boulevard, Evansville, Indiana 47712.

Admission of International Students
International applications are accepted on a rolling basis throughout the year. An international student who will enter the U.S. on a nonresident student visa (F-1 or J-1) should apply well in advance of the semester in which the student plans to commence studies. In order to receive consideration for admission the student must submit:
• A completed international application for admission with application fee (application materials are also accessible at www.usi.edu/admissn/intnl/index.asp);
• Official results from the Test of English as a Foreign Language (TOEFL), APIEL, or IELTS exams. If English is the native language, in lieu of TOEFL send official results of either the Scholastic Aptitude Test (SAT) or American College Test (ACT);
• Complete and attested copies of academic records (in English) from EACH high school (with graduation date), college, or university attended;
• Statement of Finances with supporting documentation in U.S. dollars;
• If transferring to USI from another U.S. school or university, submit an International Student Status Form.

Advanced credit may be given for International Baccalaureate higher examinations, British GCE Advanced Levels, Advanced Placement examinations, or CLEP tests.

Exchange students participating in an established exchange program between their home institution and USI should contact the international office at their institution to apply to the program.

For additional assistance with the application process and information specific to your country, contact your local U.S. Embassy, U.S. Consulate, or U.S. Information Service for referral to the closest educational adviser. Information on educational advising centers is also available from the U.S. Department of State Web site at www.educationusa.state.gov/centers.htm.

Intensive English
A full-time program in intensive English is available on the USI campus through ESLI International (www.esli-intl.com). Upon successful completion of the ESLI Advanced Level and submission of all required documents, students will be admitted to a degree program without submitting a TOEFL score.

Study Abroad Opportunities
The University offers study abroad opportunities in 50 countries through the International Student Exchange Program (ISEP) and cooperative agreements with several other institutions, including the University of Evansville’s Harlaxton College in England. With advance planning, it is possible for students in virtually any major to participate in an overseas program. Programs offer a variety of experiences, from specialized courses taught entirely in English to direct enrollment in the foreign university. Students receive USI credit for the coursework completed during the summer, semester, or academic year.

The University is committed to making study abroad affordable as well as accessible to all students. The costs of many study abroad programs are based on tuition and
room and board at USI. Because participants pay USI tuition, they can continue to apply their scholarship and other financial aid toward those fees. Additional information is available from the Office of International Programs and Services at 812/465-1248.

Servicemembers Opportunity College
The University is a member of Servicemembers Opportunity Colleges (SOC), a consortium of national higher education associations. As such, it cooperates with the Department of Defense, the Military Services, the National Guard Bureau, and the Coast Guard to help meet the higher education needs of Service members.

Programs for Spouses and Retirees
Special reduced-fee programs are available for spouses of full-time students and for retired people. See the Financial Assistance section for details.

Application Deadlines
An application for admission should be submitted well in advance of the term in which the student plans to enroll. A beginning freshman should complete the admission procedures early in the senior year of high school. The following deadlines have been established for students in order that maximum consideration and assistance can be given to each applicant.

Fall Semester August 15
Spring Semester January 1
Summer Session 1 May 1
Summer Session 2 June 1
Summer Session 3 July 1

Exception to these deadlines can be made only with special approval of the director of Admission.

Tentative Acceptance for Admission
The Office of Admission may offer tentative acceptance for admission to transfer students who have not completed the full requirements for admission by the beginning of the first term of attendance. Transfer students who enter the University without complete credentials for admission will be required to submit the appropriate credentials as a prerequisite to their continued enrollment. Required credentials must be submitted to the Office of Admission within the semester of initial enrollment. Continued enrollment is conditional upon compliance with the admission requirements which were in effect at the time of the student’s initial enrollment in the University.

Credit by Examination
The University credit by examination program is designed to recognize superior learning experiences and translate that experience into college credit. It helps a student gain recognition for what the student knows and can do irrespective of how, where, and when the knowledge was obtained. Candidates for credit by examination need to contact the department of the specific exam subject.

Advanced Placement Program (AP)
The Advanced Placement program is a testing program of the College Entrance Examination Board (CEEB). It is a special college-level learning experience of the high school student which can take the form of an honors class, a strong regular course, tutorial, or independent study.

Any high school sophomore, junior, or senior who has participated in the Advanced Placement program (AP) during high school, or has developed an equivalent background through the student’s own initiative, may make arrangements to be tested in any or all of the following eight areas:

Biology English
Calculus History
Chemistry Psychology
Economics

Tests are given once a year during the third week in May. Participating high schools with Advanced Placement programs may administer their own tests. A student attending a non-participating school may take the qualifying exams at any participating school. The minimum score one must attain to receive credit is three; with five being the highest possible score.

For assistance in making test arrangements, write to:

Program Director
College Board Advanced Placement Program
Box 977
Princeton, New Jersey 08540
College Entrance Examination Board

SAT II

A student is not required to take the SAT II, but is encouraged to do so while in the junior or senior year of high school. These tests should be taken especially if the student has gained a high degree of proficiency in certain areas. A high school student should contact the high school counselor for registration materials and further information.

College Level Examination Program (CLEP)

1. General Exams measure achievement in five basic areas of general education: English composition, humanities, mathematics, natural sciences, and social sciences. Credit for successful completion of the general examinations is granted for general education courses. NOTE: A student who has earned 24 credit hours of college credit is not eligible to receive credit for general exams; however, may take subject exams for up to 94 hours of credit. In addition, a student must take the mathematics general exam prior to the official mid-term date of the student’s first college-level mathematics course.

2. Subject Examinations of CLEP

To supplement the general examinations of CLEP, the subject examinations cover specific academic areas. The subject examinations which are eligible for credit at the present time are:

- American Government
- American History II (1865-Present)
- American History I (Beginning-1877)
- Analysis and Interpretation of Literature
- Biology, General
- Business Law, Introductory
- Calculus with Elementary Functions
- Chemistry, General
- College Algebra
- Freshman College Composition
- Macroeconomics, Introductory
- Management, Introductory
- Marketing, Introductory
- Microeconomics, Introductory
- Principles of Accounting
- Psychology, General
- Sociology, Introductory
- Trigonometry
- Western Civilization II (1648-Present)
- Western Civilization I (Ancient-1648)

Registration for the CLEP examinations may be made through the Workforce Certification Center at Ivy Tech at 812/429-9852.

Departmental Examinations

There are several departmental exams through which students can be awarded credit, provided the student demonstrates a level of proficiency satisfactory to the department involved. In order to be eligible for a departmental exam, the student must be in good standing and regularly enrolled at the University as a degree candidate.

A department may adopt either a standardized examination available to the department from outside the University or may develop the appropriate exam for the subject area. Departmental exams may be written, oral, or both. To earn foreign language credit by examination for high school course work, students must obtain a grade of B or better in the USI foreign language course into which they have been placed by an advisor. A fee of $10 is required for processing. For further information about departmental examinations, contact the department involved.

Additional Policies Concerning Credit by Examination

1. Anyone may take examinations for credit; however, only a currently or previously enrolled student of USI may apply granted credit toward a degree.

2. A student may not establish credit for auditing purposes; similarly, the student may not take a course for credit if the student has established credit by examination for that course.

3. A student may not establish credit by examination for any course in which the student is currently enrolled.

4. The Credit by Examination program is designed expressly for the student who intends to earn a degree at USI. The decision on whether the exam credit is transferable remains with the institution to which the student may intend to transfer.

5. Upon successful completion of any examination, the student will be offered credit for the equivalent course(s). A letter grade will not be assigned; therefore, the credit will not affect the student's grade point average.

6. After credit is granted to a student through any one of the Credit by Examination programs, there is no additional charge to the student. Earned credit (if accepted by the student) is recorded automatically on the student’s transcript.

7. A request for an exception to the current policy may be made to the department chair responsible for the discipline covered by the exam. Such a request will be reviewed by a committee consisting of the dean, the director of Admission, and the provost and vice president for Academic Affairs.
8. A maximum of 94 credit hours earned by examination may apply toward a student's baccalaureate degree, and a maximum of 46 semester hours earned by examination may apply toward the student's associate degree. For detailed information concerning the Credit by Examination program, contact the department appropriate to the exam.

Placement Testing Program
Academic Skills administers math and foreign language placement tests by appointment, and any required placement testing must be completed prior to advising and registration. Photo identification is required to test. Appointments can be scheduled by contacting Academic Skills (812/464-1743) between the hours of 8 a.m. and 4:30 p.m. Central Time, Monday through Friday.

Students with disabilities requesting special accommodations must be registered with the Counseling Center (812/464-1867) at least two weeks prior to scheduling an appointment for placement testing.

Math—The Department of Mathematics has mandatory placement for all entry-level mathematics courses. Placement into an appropriate course is determined by a mathematics placement test; therefore it is extremely important that one's best effort be given in taking this test. Some students may be exempt from taking the math placement test, based on the following:

- Math SAT score of at least 640 or Math ACT score of at least 29
- High school GPA of at least 3.0 (on a 4.0 scale) and Math SAT score of at least 600 or Math ACT score of at least 26

A student exempt from placement testing may select the math course, with the assistance of an advisor, which best meets the requirements of his or her program of study.

Nontraditional Students—Because students who enter courses at the proper level are more successful in college than students who take a course that is too easy or one that is too difficult, the Department of Mathematics requires all nontraditional students to take placement tests. Placement tests do not affect admission to the University; the results of the placement tests are used only to assist students in selecting the appropriate entry-level math course. Starting in the right course will help you succeed academically, which ultimately will save you time and money.

Transfer Students—The Department of Mathematics will exempt transfer students from placement testing who provide evidence of successful completion of prerequisite courses or the appropriate Math SAT or ACT score.

Foreign Language—Placement testing is recommended for students who studied French, German, Spanish, Japanese, or Latin in high school. The foreign language placement test allows students who studied a foreign language in high school to enroll in a course ranging from the second to the fifth semester of language study. Achieving a grade of B or better in the course in which they are placed earns credit for all preceding courses. Students requesting Japanese or Latin placement should contact the Department of Foreign Languages (812/461-5203); French, German, and Spanish placement tests are given by Academic Skills (812/464-1743).

English—The Department of English has mandatory placement for all introductory writing courses (GENS 098, ENG 100 and 101). Placement into an appropriate writing course is determined by a student’s high school GPA and Verbal SAT/ACT score. International students and students whose high school graduation is more than four years past will be automatically placed into English 100. Transfer students’ English placement also will be based upon their transfer credit evaluation.

Orientation
All new students (freshmen and transfers) will participate in new student orientation, both the advising and registration program and the welcome week program. Both programs are designed to assist new students in making the transition to the University. The advising and registration program focuses on introducing new students to the academic policies and support services at USI, facilitating the academic advising and registration process for their first semester, and preparing students for the first day on campus. During this program, new students will meet with a faculty member in the student’s intended major to select courses. The fall welcome week program provides further orientation to programs and services offered by the institution; education on developing skills needed to succeed in college; and opportunities to become connected with other students, faculty, and staff at the institution. Additional orientation opportunities exist through the First Year Initiatives Program, which is designed to help freshmen achieve success in college and provide further transition assistance. Newly admitted students will receive a mailing from the Office of Student Development Programs several months prior to their first semester, outlining dates and instructions for participation in new student orientation. Students attending new student orientation will receive a packet
of materials to assist them, including their copy of the USI bulletin. Further information may be obtained at www.usi.edu/orientation.

**Evening Student Services**

To accommodate evening students, the offices of Admission, Student Development Programs, Student Financial Assistance, Registrar, and Career Services and Placement offer evening hours when classes are in session during fall and spring semesters. Contact the individual office for hours of operation. Students who need to see specific faculty or staff members during evening hours should make appointments to do so.
Application for Financial Assistance
To be considered for all types of assistance, students must file the Free Application for Federal Student Aid (FAFSA) by March 1 preceding the academic year for which aid is being requested. All required documentation such as the USI Financial Aid Data Form and any additional financial documents requested by the University must be submitted to the Student Financial Assistance Office by May 1. Signed photocopies of prior year federal tax returns will be required only from applicants who are selected for verification. Applications and files completed after prescribed deadlines (while the student is still enrolled in the required number of credit hours) will be considered on a funds-available basis throughout the academic year.

The Free Application for Federal Student Aid (FAFSA) is available in high school guidance counselor offices and in the USI Student Financial Assistance Office. Write or call for more information. The FAFSA is online at www.fafsa.ed.gov.

Student Financial Assistance Office
University of Southern Indiana
8600 University Boulevard
Evansville, IN 47712-3597
812/464-1767
800/467-1965
E-mail: finaid@usi.edu
Web: www.usi.edu/finaid/

New Freshmen
To be eligible for federal student aid, all new freshmen must submit an eighth-semester high school transcript or General Education Development (GED) certificate to the USI Admission Office.

Transfer Students
Transfer students must have their academic transcripts from prior colleges evaluated by the USI Registrar's Office before student loans can be processed. Transfer students with less than 30 credit hours of acceptable transfer credit also must submit an official high school transcript or GED certificate to the USI Admission Office.

Name, Social Security Number, and Date of Birth
Financial aid applicants must use the same name, Social Security number, and date of birth in all official government records. Name changes must be on file with the Social Security Administration before financial aid applications can be processed. Applicants must use their full legal name, correct Social Security number, and date of birth on the FAFSA and the University's Financial Aid Data Form. Note that other agencies such as Selective Service and Immigration will be checked to see if the student is in compliance with all federal regulations. Proof of draft registration compliance with Selective Service may be required for male students who have reached age 18. The U.S. Citizenship Immigration Service must verify the alien registration number of all immigrants who are not naturalized citizens. An incorrect name, Social Security number, date of birth, or alien registration number will cause significant delays in aid processing.

Enrollment Status/Credit Level
For undergraduate financial aid purposes, the following minimums apply in determining eligibility for assistance.

<table>
<thead>
<tr>
<th>Undergraduate</th>
<th>Credit Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>Full time</td>
<td>12</td>
</tr>
<tr>
<td>3/4 time</td>
<td>9</td>
</tr>
<tr>
<td>1/2 time</td>
<td>6</td>
</tr>
</tbody>
</table>

NOTE: Assistance may be reduced or withdrawn for less than full-time enrollment. Only credits that are required for successful completion of the student's degree program may be counted in the determination of enrollment status. Students who receive aid for courses not required for graduation will be directed to repay all or a portion of such aid. Some financial aid programs require continuous full-time enrollment. Scholarship recipients are responsible for knowing and complying with the rules specific to each scholarship program.

Financial Responsibility
Students who do not receive a Financial Aid Notification letter prior to tuition billing must pay their tuition and fees by the due date in order to retain the classes for which they are pre-registered. The Bursar's Office offers an installment payment plan that utilizes multiple payments during an extended time period. An additional processing fee is assessed.

Most types of aid will appear as a credit against tuition and fees on the bill sent prior to the start of classes. Some aid types, such as Work Study, require special procedures and will not appear on the tuition bill. Estimated aid that appears on the bill, such as student loans, may be deducted from total tuition and fees. If no payment is required, students must sign and return their bills by the due date to ensure that classes will be reserved and not
canceled. Students should contact their Student Financial Assistance counselor if they have questions about these procedures.

General Eligibility Requirements for Federal Student Aid
To receive Pell Grants, Supplemental Educational Opportunity Grants, Federal Work Study, Stafford Loans, and PLUS Loans, a student must meet the following general requirements and additional program-specific requirements.

A federal aid recipient must:
• be a U.S. citizen or eligible non-citizen;
• be registered for the draft with Selective Service if required by current law;
• have a high school diploma or GED;
• have financial need;
• attend a school (such as USI) that is eligible to participate in one or more federal aid programs;
• be enrolled at least half-time (except for Federal Work Study and Federal Supplemental Grants);
• be working toward a degree, certificate, or other recognized educational credential (teacher’s certification requires special procedures to document);
• be making reasonable academic progress, not be in default on a Title IV or HEA student loan, or owe a repayment of a Title IV or HEA grant received for attendance at any institution;
• and, if requested to do so, sign a statement of updated information (the Verification Worksheet) and provide all required financial documents.

Federal Financial Aid Programs
Federal Pell Grant. This is the largest federal student aid program for undergraduate students. It provides grants to the neediest students. These grants are gift aid and therefore do not have to be repaid. Pell Grants provide a foundation of financial aid to which other types of assistance may be added.

Students apply for Pell Grants by completing the FAFSA. As a result of applying for the Pell Grant, the student will receive a Student Aid Report (SAR). The SAR must be checked by the student for correctness and any errors reported to the Student Financial Assistance Office.

Federal Supplemental Educational Opportunity Grant. As with Pell Grants, the SEOG program is limited to undergraduate students. Students who have met requirements for a bachelor’s degree are not eligible for either program.

Supplemental Grants are available to exceptionally needy students who complete the FAFSA and submit all required documentation before the published deadline.

Federal Work Study. This program provides jobs for undergraduate and graduate students who need financial aid. Students are paid at least minimum wage and work between five and 20 hours per week when school is in session. During periods of non-enrollment, eligible students may work full time. A portion of the earnings from non-enrollment periods is used to meet the student’s academic year expenses and, therefore, may reduce a student’s need for other assistance.

Students may apply for the FWS program by completing the FAFSA and indicating Work Study as a type of aid requested. Preferred filing deadlines should be observed to ensure consideration of the student for these limited funds.

Stafford Loan. These are low-interest loans made to students through the William D. Ford Direct Loan Program. Stafford Loans are available to both undergraduate and graduate students. Repayment begins six months after the borrower graduates, withdraws from USI, or drops below half-time status.

Students may apply for a loan using the USI Stafford Loan Request Form. All students must complete the FAFSA before the Stafford Loan is certified by the University. The loan request form and required documentation should be submitted to the Student Financial Assistance Office at least two months prior to the start of the term for which the loan is being requested. The preferred filing date is on or before June 1 each year for academic-year loans.

PLUS Loan. PLUS Loans to parents of dependent students are available as no-need financial aid. Interest is capped and varies annually. Repayment begins within 60 days of the second disbursement. For a full-year loan, repayment will begin in early February. USI PLUS Loan Request Forms are available from the USI Student Financial Assistance Office. PLUS Loans are through the William D. Ford Direct Loan Program.

State of Indiana Student Aid Eligibility
An eligible student must be:
• an Indiana resident domiciled within the State of Indiana on December 31 prior to the first day of the academic year for which the award is made;
• a high school graduate of an approved secondary institution;
- a qualified Indiana resident who has not been convicted of a felony, illegal use of force or violence during a public demonstration, or a crime involving narcotics or dangerous drugs;
- a full-time student (12 or more credit hours) through the end of the tuition-refund period, earning credits toward the first undergraduate degree.

**Note:** Most Indiana programs require that the FAFSA be filed by March 10 each year.

**State of Indiana Financial Aid Programs**

**Hoosier Scholar Award.** These awards are unrestricted grants made to select freshman applicants who are nominated by their high school using guidelines established by the State Student Assistance Commission of Indiana (SSACI). Financial need is not a consideration and the awards are not renewable. Hoosier Scholar Awards may be used at eligible Indiana institutions such as USI in the academic year following high school graduation.

**Higher Education Award.** Part of the Frank O’Bannon Grant Program, HEAs are awarded on the basis of need and are restricted to payment of academic year tuition. Application is made on the FAFSA by releasing FAFSA data to an eligible Indiana institution such as USI. The preferred filing deadline is March 1 prior to the academic year for which the aid is being requested. Note: The FAFSA also can be filed online using FAFSA on the Web. Whether mailed or filed online, the FAFSA must be received by the processor on or before March 10 each year.

**Minority Teacher Scholarship.** State-funded and administered by the University, Minority Teacher Scholarships are awarded to outstanding black or Hispanic students majoring in education. Recipients must be Indiana residents who are enrolled or will enroll full-time. Applications are available in the USI Teacher Education Department and in the Student Financial Assistance Office. The application deadline is May 1.

**Nursing Scholarship Fund Program.** Tuition-only scholarships are available to Indiana residents who are or will be enrolled in the first- or second-year nursing program. Recipients must be enrolled at least half-time (six credit hours) and demonstrate financial need by completing the FAFSA. Applications are available in the College of Nursing and Health Professions and the Student Financial Assistance office. The application deadline is May 1.

**Vocational Rehabilitation Education Assistance.** Indiana Rehabilitation Services provide educational assistance to eligible Indiana residents through the Vocational Rehabilitation Division. The Student Financial Assistance office will coordinate this assistance with other types of aid that may be available.

Students should contact the Vocational Rehabilitation Division Office in their region if they think they might qualify for rehabilitative services. Vocational Rehabilitation is listed under Family and Social Services in the State Offices section of the phone directory.

**Child of Disabled or Deceased Veteran (CDV).** State universities and colleges in Indiana waive tuition and certain fees for the natural or adopted children of service-connected disabled or deceased veterans. The veteran must have received an honorable discharge and must be considered to be an Indiana resident by the Indiana Department of Veterans Affairs. Waivers of tuition and instructional fees are available for a total of four years of study (124 credit hours) under the CDV program, including study at other state universities. This benefit is available for both undergraduate and graduate study. Other tuition-specific aid from non-University sources will be applied first.

Applications are available in the Student Financial Assistance Office and must be certified by the Indiana Department of Veterans Affairs in Indianapolis. Student applicants must provide a copy of their birth certificate if the veteran’s surname is different from their own.

**Child of POW/MIA.** State universities and colleges in Indiana waive tuition and certain fees for the child of any person who was a resident of Indiana at the time of entry into the U.S. Armed Forces and was classified as a prisoner of war or missing in action after January 1, 1960. Eligible children must have been born before or during the time parent served as a POW or was declared MIA. Contact your Student Financial Assistance counselor for applications and information.

**Child of Indiana Police Officer or Firefighter Killed in the Line of Duty.** State universities and colleges in Indiana waive tuition and certain fees for the children of Indiana police officers or firefighters killed in the line of duty. USI waives the contingent fee for a maximum of 124 credit hours of study through age 23. This benefit may be used for undergraduate or graduate study. Full-time enrollment is required. Contact your Student Financial Assistance counselor for more information.
University Scholarships, Grants, and Employment

New students are encouraged to apply for admission no later than March 1 prior to their initial fall semester to ensure consideration for all scholarships. Many scholarships also require completion of the FAFSA by March 1 each year. Some scholarships require a separate application. They are noted in the following listing.

Departmental Scholarship. The Departmental Scholarship is intended to promote academic and creative excellence. The following is a summary of the rules for this award. A complete and detailed description of the Departmental Scholarship rules is available from the Student Financial Assistance Office.

• This award offer is valid only during the next regular semester of the year in which the award is made and will not be offered a second time.
• The award amount will be divided between the fall and spring semesters. (For students beginning their University studies in the spring, the award will be one-half the annual amount.)
• The award can be applied only to tuition and will be coordinated with other tuition-specific awards so that the total of all such awards does not exceed tuition. There are no cash refunds from this award.
• The award requires full-time official enrollment and successful completion of at least 27 credit hours each academic year (fall and spring combined).
• Certain minimum cumulative grade point average requirements also apply.

For students receiving annual awards in excess of $1,000:

a. after earning 0 to 61 hours, a cumulative GPA of 2.50/4.0;
b. after earning 62 to 92 hours, a cumulative GPA of 2.75/4.0;
c. and after earning 93 or more hours, a cumulative GPA of 3.00/4.0.

For all other students receiving Departmental Scholarship awards:

a. after earning 0 to 61 hours, a cumulative GPA of 2.00/4.0;
b. after earning 62 to 92 hours, a cumulative GPA of 2.25/4.0; and

c. after earning 93 or more hours, a cumulative GPA of 2.50/4.0.

Students receiving this award as freshmen may participate in the program for no more than four consecutive calendar years from the date of initial enrollment or until a total of 136 credit hours have been earned, whichever comes first. Students receiving this award as community college transfers entering USI with junior class standing may participate in the program for no more than two consecutive calendar years from the date of initial enrollment or until a total of 68 credit hours have been earned, whichever comes first. Students may change majors/minors without affecting the terms of their award, with the exception of students whose awards are based on talent in theatre or art. Students who decline USI’s offer of a Departmental Scholarship forfeit all future entitlement to this award. Departmental Scholarships awarded on the basis of talent require participation in programs and activities of the Theatre Department for theatre award recipients. In addition, theatre award recipients must major in theatre. Students who receive talent awards for art must major or minor in art. Students who receive a talent-based Creative Writing Departmental Scholarship may change majors without being required to forfeit this scholarship.

Deans Scholarship. For selected Indiana scholars, the University provides awards that pay full in-state tuition when combined with the Departmental Scholarship. For selected non-resident scholars, the University pays a maximum of $2,000 per academic year to be applied to tuition. These awards are coordinated with other tuition-specific aid (if applicable) to ensure that the total of such aid does not exceed actual tuition charges.

Initially matriculating freshmen who meet the following requirements will be considered for this award on a competitive basis. Earn a minimum SAT score of 1100 or an ACT score of 25 on one test.

Award recipients must enroll as full-time students during the fall and each successive regular semester following award notification. Exceptions are made to permit fall graduates to begin University enrollment in the spring. A full-time student is defined as one who enrolls in at least 12 official credit hours each fall and spring. Official enrollment is determined on census day (fifth day of fall and spring). Failure to comply with these requirements nullifies the award and all future entitlement. Exceptions to the minimum enrollment requirement will be made only for bona fide medical or academic reasons.

Deans Scholarship recipients may participate in the program for no more than four consecutive calendar years from the date of initial enrollment or until a total of 136 semester hours have been earned, whichever comes first.
Under exceptional circumstances, a student may petition the director of Student Financial Assistance for a leave of absence for one semester and an extension of calendar year limits.

The Deans Scholarship offer is valid only during the fall semester (spring semester for fall graduates) of the year in which the award is made and will not be offered a second time. The award may be renewed automatically if the student earns a minimum of 27 credit hours each academic year (fall and spring) and maintains the required minimum cumulative grade point average. Any deficit in earned hours may be made up in the summer at the student’s expense.

The required minimum cumulative GPA is 2.5/4.0 up through 61 credit hours earned, 2.75 after earning 62 to 92 hours, and 3.0 thereafter. Students who fail to earn the required minimum cumulative GPA will be placed on probation for one semester. Failure to comply with the cumulative GPA requirement after one probationary semester will result in cancellation of the Deans Scholarship and forfeiture of all future entitlement.

The Office of Student Financial Assistance will evaluate earned hours after the spring semester. A written request for review of Deans Scholarship eligibility must be sent to the director of Student Financial Assistance after summer grades are officially recorded on the student’s transcript.

Baccalaureate/Doctor of Medicine Scholarship. For selected Indiana scholars, the University provides full in-state tuition. Initially matriculating freshmen who are provisionally accepted into the Indiana University Medical School through a competitive interview process receive a maximum of four years of tuition assistance when renewal criteria are met. Qualifications include a minimum 3.5 high school grade point average (4.0 scale) and either a minimum 1200 SAT or 27 ACT test score.

Non- Resident Top Scholar Award. Initially matriculating non-resident freshmen meeting the following requirements will be considered for this award on a competitive basis. Candidates must earn a minimum SAT score of 1100, or an ACT score of 25, on one test and rank first or second in the high school graduating class at the end of the seventh semester. For selected scholars, the University provides awards that pay the difference between non-resident and Indiana resident tuition for a maximum of four years when renewal criteria are met.

Presidential Scholarship. Students ranked first or second in their senior class at the end of the fall semester at high schools commissioned by the Indiana State Department of Public Instruction who meet the following requirements are eligible to apply for the USI Presidential Scholarship. Applicants must have earned a combined score of 1100 or more on a single nationally-administered Scholastic Aptitude Test (SAT). (Note: An ACT composite test score of at least 25 earned under the same conditions is also acceptable.) The applicant must submit a USI Presidential Scholarship application, the USI application for admission, an official high school transcript, and SAT or ACT scores by January 15 of the student’s senior year. In addition, applicants must submit the FAFSA by March 1. This USI Foundation scholarship covers tuition and housing. It includes an allowance for food and books, and is valued at $9,000 per academic year. Ten students are selected for these competitive scholarships each year.

Academic Excellence Award. USI offers a number of Academic Excellence Awards (AEA) to attract and retain students who meet all requirements for the Presidential Scholarship but are not selected to receive the highly competitive Presidential Scholarship. The AEA covers 100 percent of the student’s instructional fees (tuition) and is renewable while maintaining academic excellence. To be considered for this award, scholars must complete all steps listed for the Presidential Scholarship application according to published deadlines.

Indiana-Kentucky Reciprocal Tuition Program. Permanent legal residents of Henderson, Daviess, Hancock, and Union counties in Kentucky may pursue an undergraduate or graduate degree at USI and pay Indiana tuition rates. Students who begin their education under this program will be permitted to complete their degree with full program benefits as long they remain continually enrolled in all regular (fall/spring) terms.

Music Performance Scholarship. Music performance scholarships are available for members of USI Chamber Singers. Contact the director of USI Chamber Singers in the College of Liberal Arts at 812/464-1736 for audition information.

Theatre/Drama Scholarship. Individuals interested in assisting with the production of theatrical events may contact the director of theatre in the Department of Art, Music, and Theatre at 812/465-1130 for information concerning theatre/drama scholarships.
**Athletic Scholarship.** Women's sports include basketball, softball, volleyball, soccer, cross country, golf, and tennis. Men's sports include basketball, baseball, soccer, golf, tennis, and cross country. Student athletes desiring information on athletic grant-in-aid scholarships may contact the director of Athletics at 812/464-1846.

**USI Non-Resident Grant.** Fee waivers are automatically awarded to initially matriculating eligible students pursuing an undergraduate degree who are either permanent residents of, or transfer students from, certain Illinois or Kentucky counties. Freshman awards are limited to permanent residents of Alexander, Clay, Clinton, Crawford, Edwards, Franklin, Gallatin, Hamilton, Hardin, Jackson, Jefferson, Johnson, Lawrence, Marion, Massac, Perry, Pope, Pulaski, Richland, Saline, Union, Wabash, Washington, Wayne, White, and Williamson counties in Illinois. In Kentucky, freshman awards are limited to permanent residents of Ballard, Caldwell, Crittenden, Hopkins, Livingston, McCracken, McLean, Ohio, and Webster counties. Transfer students who are permanent residents of the above counties and students transferring from colleges located in the above counties also are eligible.

Credit hour grants will be made upon confirmation of eligibility. A minimum of 66 percent of attempted credit hours must be completed successfully each term. A minimum 2.0 USI cumulative grade point average also is required. Contact the USI Admission Office for the amount of the current credit hour grant.

**One-Course Plan.** Persons eligible for the One-Course Plan include retired individuals and spouses of eligible full-time USI students. Retired persons include anyone over the age of 60.

Students who fit into one of the above categories and are new to the University may enroll in their first USI course for total instructional fees of $25 plus applicable incidental fees. Incidental fees may include lab fees, refundable breakage deposits, distance education material charges, and parking fees. Course enrollment must be completed during late registration on a space-available basis.

Spouses of full-time students are eligible if the full-time student has a 2.0 minimum cumulative USI grade point average. When the One-Course Plan is used in the fall or spring, the full-time student must be enrolled in 12 or more credit hours in the same term. For any summer session, the full-time student must have been enrolled in 12 or more credit hours in the preceding spring term or be pre-registered for 12 or more credit hours in the following fall term. An exception is made for graduate students who are defined as full-time when enrolled in nine or more credit hours.

Students enrolled in the One-Course Plan are limited to one course in the semester or summer session in which they participate in this plan. The plan may be used only once and may not be repeated.

**Limitation on Participation.** When institutional and/or state programs provide for payment of the same fees (e.g. tuition), such aid will be coordinated to ensure that the aid does not exceed actual charges. There are no cash refunds of tuition-specific aid.

**Student Employment.** In addition to Federal Work Study, the University employs some students as part-time employees. Contact the Career Services and Placement Office in the Orr Center for information about non-Work Study student employment both on and off campus.

**USI Foundation Scholarships**

Students who apply for admission to USI by March 1 of their senior year of high school and complete the FAFSA by March 1 are automatically considered for one of nearly 40 merit-based USI Foundation Scholarships awarded each year. Awards range from $400 to $2,000 per academic year. Scholarship recipients are notified in mid-April.

It is recommended that students attach a list of extracurricular activities and community service to their USI admission application. These scholarships, except as noted, are renewable based upon continued enrollment and maintenance of specific grade point minimums.

**Henry and Hazel Bennighof Scholarship.** Indiana residency is required with preference given to Vanderburgh County residents; no specific major is required; minimum high school cumulative grade point average of 3.5 on a 4.0 scale; must show financial need by filing the FAFSA each year prior to March 1; value $800 per academic year.

**Charles H. and Margaret A. Braun Scholarship.** No residency requirement; must be entering freshman with a minimum high school cumulative grade point average of 3.0 on a 4.0 scale; high school class rank in top 50 percent; SAT minimum of 1000 or ACT minimum of 22; preference is given to children of Industrial Contractors and affiliates’ employees; value $500 per year.
Sol and Arlene Bronstein Art Scholarship. No residency requirement; must be entering freshman with a major in art; selection by art department using student’s portfolio; value $1,000 per year.

Hubert R. and Louise S. Bruce Scholarship. Indiana residency required; must be entering freshman; graduate of a Perry County high school admitted to USI in good standing; must demonstrate financial need by filing the FAFSA by March 1; value $1,000 per year.

Thompson H. Burckhartt Memorial Scholarship. Posey County, Indiana, residency is required as well as graduation from a Posey County high school; a major in business is required; minimum high school cumulative grade point average of 3.5 on a 4.0 scale; must be able to demonstrate record of community and extracurricular involvement; value $400 per academic year.

Robert W. Carithers Scholarship for Arts and Humanities. No residency requirement; must be entering freshman with a major in art, theatre, history, philosophy, English, or foreign language; minimum high school cumulative grade point average of 3.0 on a 4.0 scale; must demonstrate financial need by filing the FAFSA; selection by Liberal Arts faculty using student’s work and/or performance; value $2,000 per year.

Frances H. and Guy Q. Cornell Sr. Memorial Scholarship. Indiana residency required; must be Warrick County resident; commendable high school cumulative grade point average; preference to students who are active in swimming, minor sports, dance team, cheerleading, or choir (in that order); must demonstrate financial need by filing the FAFSA; value $1,000 per year.

Barbara Corrigan Memorial Scholarship. Indiana residency is required; a major in business or science is required; minimum high school cumulative grade point average of 3.5 on a 4.0 scale; must be able to demonstrate record of community and extracurricular involvement; value $500 per academic year.

William E. and Rebecca N. Couch Endowment Scholarship. Indiana, Kentucky, or Illinois residency is required; a business or education major is required; must rank in top 15 percent of graduating class; value $500 per academic year.

Rolland M. Eckels Scholarship. Indiana residency required; must be entering African-American freshman; graduate of a high school in Vanderburgh, Gibson, Posey, or Warrick counties; admitted to USI in good standing; must demonstrate leadership through a record of involvement in school and community activities; must demonstrate financial need by filing the FAFSA by March 1; value $500 per year.

Dr. John A. and Grace Eisterhold Scholarship. Merit scholarship for entering freshman who has a minimum cumulative high school grade point average of 3.5 on a 4.0 scale; preference to Evansville Mater Dei High School graduate; value $1,000 per year.

E. Donald and Mary Jane Elliott Scholarship. No residency requirement; must be entering freshman; minimum high school cumulative grade point average of 2.5 on a 4.0 scale; must demonstrate financial need by filing the FAFSA by March 1; value $400 per year.

Doris and Al Grabhorn Scholarship. Indiana residency required; must be entering freshman; first preference to graduates of Bosse High School; second preference to graduates of any Vanderburgh County and Warrick County high schools; minimum high school cumulative grade point average of 3.5 on a 4.0 scale; high school class rank in top 10 percent; SAT minimum of 1100 or ACT minimum of 24; value $500 per year.

Paul Grimes Memorial Scholarship. Indiana residency is required; a major in engineering or science is required; minimum high school cumulative grade point average of 3.0 on a 4.0 scale; must be able to demonstrate record of community and extracurricular involvement; value $500 per academic year.

Elmo Holder Memorial Scholarship. Indiana residency is required; no specific major is required; minimum high school cumulative grade point average of 3.5 on a 4.0 scale; must be able to demonstrate record of community and extracurricular involvement; value $400 per academic year.

Clifford A. Kleymeyer Memorial Scholarship. Vanderburgh County or Posey County, Indiana, residency is required; no specific major is required; minimum high school cumulative grade point average of 3.0 on a 4.0 scale; must be able to demonstrate interest in community, church, and extracurricular activities; must file the FAFSA by March 1 each year; value $500 per academic year.

Roy G. Long Memorial Scholarship. Indiana residency required; must be entering freshman; graduate of Bosse High School; math or math teaching major required; minimum high school cumulative grade point average of
3.0 on a 4.0 scale; high school class rank in top 25 percent; SAT minimum of 1100 or ACT minimum of 24; value $500 per year.

**John E. McCutchan Memorial Scholarship.** Indiana residency is required; a major in business is required; minimum high school cumulative grade point average of 3.5 on a 4.0 scale; must be able to demonstrate record of community and extracurricular involvement; value $500 per academic year.

**Frank E. McDonald Scholarship.** Indiana residency is required; no specific major is required; minimum high school cumulative grade point average of 3.5 on a 4.0 scale; must be able to demonstrate record of community and extracurricular involvement; value $500 per academic year.

**Mead Johnson Foundation Scholarship.** Indiana residency is required; no specific major is required; minimum high school cumulative grade point average of 3.5 on a 4.0 scale; minimum SAT score of 1100 or a minimum ACT score of 25; value $1,000 per year.

**Richard E. Meier Memorial Scholarship.** Indiana residency is required; a major in business is required; minimum high school cumulative grade point average of 3.5 on a 4.0 scale; must be able to demonstrate record of community and extracurricular involvement; value $500 per academic year.

**Midwest Ironworkers Advancement Program Scholarship.** No residency requirement; must be entering freshman with a minimum high school cumulative grade point average of 2.0 on a 4.0 scale; preference to majors related to construction industry; preference is given to children of ironworker families; value $1,250 per year.

**Lucile A. Moutoux Scholarship.** Indiana residency required; must be entering freshman; minimum high school cumulative grade point average of 3.0 on a 4.0 scale; high school class rank in top 25 percent; SAT minimum of 1000 or ACT minimum of 22; must demonstrate financial need by filing the FAFSA by March 1; value $500 per year.

**William J. and Alda E. Moutoux Scholarship.** Indiana residency required; must be entering freshman; minimum high school cumulative grade point average of 3.0 on a 4.0 scale; high school class rank in top 25 percent; SAT minimum of 1000 or ACT minimum of 22; must demonstrate financial need by filing the FAFSA by March 1; value $500 per year.

**Char-Ron Newman Scholarship.** Tri-State residency required; must be entering freshman with a minimum high school cumulative grade point average of 3.0 on a 4.0 scale; high school class rank in top 50 percent; SAT minimum of 1000 or ACT minimum of 22; preference is given to children of Old National Bank non-supervisory employees; must demonstrate financial need by filing the FAFSA by March 1; value $750 per year.

**Optimist Club of Eastside (Evansville).** Indiana residency is preferred but not required; entering freshman in any major; minimum high school cumulative grade point average of 3.25 on 4.0 scale; SAT minimum of 1100 or ACT minimum of 25; must be able to demonstrate record of extracurricular activities; must file the FAFSA by March 1 each year; value $1,000 per year.

**Palladino Family Scholarship.** Indiana residency required; must be entering freshman; graduate of F. J. Reitz High School; evidence of involvement in Reitz instrumental music program in the senior year with preference to students involved for four years; value $1,000 for freshman year; non-renewable.

**F. Leo Peyronnin Memorial Scholarship.** Indiana residency is preferred but not required; a major in business, engineering, nursing, or geology is required; must be entering freshman and rank in the top 15 percent of the high school graduating class; must file the FAFSA by March 1 each year; value $500 per academic year.

**Pott Engineering Scholarship.** Indiana residency is preferred but not required; a major in engineering is required; minimum high school cumulative grade point average of 3.5 on a 4.0 scale; 1200 SAT or 27 ACT composite or higher; transfer students also must have a minimum 3.0 on a 4.0 scale college grade point average; value $1,500 per academic year.

**Bernard and Lena Powers Scholarship.** Indiana residency is preferred but not required; must be an entering freshman majoring in accounting; minimum high school cumulative grade point average of 3.5 on a 4.0 scale; SAT minimum of 1100 or ACT minimum of 25; value $1,000 per year.

**Dr. Z. Olen and Inez G. Pumphrey Foundation Scholarship.** Indiana residency is required; must be entering freshman; minimum high school cumulative grade point average of 3.5 on a 4.0 scale; high school class rank in top 10 percent; SAT minimum of 1100 or ACT minimum of 24; value $1,000 per year.
Alan C. Rankin Distinguished Leadership Award. Indiana residency is required; no specific major is required; minimum high school cumulative grade point average of 3.0 on a 4.0 scale; must be able to demonstrate record of community and extracurricular involvement; value $500 per academic year.

Aline Nunn Renner Scholarship. Tri-State (Evansville area) residency required; must be entering freshman with major in business; minimum high school cumulative grade point average of 3.0 on a 4.0 scale; high school class rank in top 15 percent required; value $1,000 per year.

Betty Fordice Rice Scholarship. Indiana residency required; must be entering freshman; preference to graduates of a high schools in Parke, Putnam, and Montgomery counties; minimum high school cumulative grade point average of 3.0 on a 4.0 scale; must demonstrate interest and involvement in school, church, or community activities; must demonstrate financial need by filing the FAFSA by March 1; value $500 per year.

David L. Rice Deans Scholarship. For selected Indiana scholars, this award pays full in-state tuition (total of contingent fee, academic facilities fee, and student services fee at the Indiana resident rate) when combined with the Departmental Scholarship. For selected non-resident scholars, this award pays a maximum of $2,000 per academic year to be applied to tuition. This award is coordinated with other tuition-specific aid (if applicable) to ensure that total of such aid does not exceed actual tuition charges.

Initially matriculating freshmen who meet the following requirements will be considered for this award on a competitive basis: earn a minimum SAT score of 1100 or an ACT score of 25 on one test.

Women's Rotary Club Scholarship. No residency requirement; must be entering female freshman; commendable high school cumulative grade point average; must demonstrate financial need by filing the FAFSA; value $1,000 per year.

Bob and Mary Lou Russler Scholarship. Indiana residency required; must be entering freshman; preference to graduate of Mater Dei High School; high school rank in top 15 percent of class; must demonstrate interest and involvement in school, church, and community activities; must demonstrate financial need by filing the FAFSA by March 1; value $800 per year.

Georgiana T. Schoeny Endowed Scholarship. Indiana residency required; must be entering freshman; first preference to residents of Hillcrest Home; second preference to students with difficult family circumstances such as abandonment; minimum high school cumulative grade point average of 2.5 on a 4.0 scale; must demonstrate financial need by filing the FAFSA by March 1; value $1,000 per year.

E. Harvey and Shirley Seaman Merit Scholarship in Business. No residency requirement; must be entering freshman with a major in College of Business; minimum high school cumulative grade point average of 3.75 on a 4.0 scale; high school class rank in top five percent; SAT minimum of 1200 or ACT minimum of 28; value $1,000 per year.

Robert W. Wallace Scholarship. No residency requirement; must be entering freshman with a major in College of Liberal Arts; minimum high school grade point average of 3.0 on a 4.0 scale; must file the FAFSA by March 1 each year to document that student is from a middle income family with two or more children in college simultaneously; value $750 per year.

Wallace C. and Kathleen Wardner Memorial Scholarship. Indiana residency is required; a major in social science, education, or human services is required; minimum high school cumulative grade point average of 3.5 on a 4.0 scale; must be able to demonstrate record of community and extracurricular involvement; value $600 per academic year.

Sharon D. Working Memorial Scholarship. Indiana residency requirement; must be junior or senior; commendable USI cumulative grade point average; required major is business; must demonstrate financial need by filing the FAFSA; value $500 per year.

USI Alumni Association Scholarships. The Alumni Association provides 22 scholarships each year to currently enrolled students. Applications are mailed to candidates who meet the minimum requirements. Selections are made by the Alumni Association Executive Board. These scholarships are not renewable.

Reasonable Academic Progress Policy
Students who receive federal or state financial assistance (including student and/or parent loans) are required to make reasonable progress toward the completion of their degree or certificate program. Reasonable progress is measured by the number of credits successfully completed...
each year and student’s cumulative grade point average after each semester. In addition, students are limited to 150 percent of the published timeframe for their degree/certificate objective. This policy sets the minimum standards for evaluating reasonable academic progress for federal and state financial assistance.

Institutional scholarship programs also require reasonable academic progress. Requirements are program specific. Information on each institutional program is available in the Student Financial Assistance Office.

Enrollment in Degree or Certificate Program. Financial aid recipients must take only courses that apply to their degree/certificate program. An exception is made for non-credit developmental courses that are recommended or required by USI. Courses that are audited and credits that are earned through CLEP testing do not count toward student’s enrollment status for financial assistance. After earning 63 or more cumulative hours (including transfer credits), students must have a declared major and be admitted to the appropriate college at USI.

Academic Progress. Academic progress for financial assistance is based on two measures: cumulative grade point average and completion rate. With some exceptions, completion rate is measured on both an annual basis and in terms of a maximum timeframe for each degree/certificate program (the 150 percent requirement). State grant programs are an exception to the 150 percent rule and programs such as the Higher Education Award and 21st Century Scholars Program are limited to four years.

Cumulative Grade Point Average. Financial aid recipients are required to maintain a minimum cumulative grade point average as they progress toward achievement of their degree or certificate. The cumulative GPA is calculated on the basis of all credits attempted at USI in which a letter grade of A through F is earned. These are called “quality hours attempted.” To determine academic good standing, transfer credits accepted by USI are added to quality hours attempted.

<table>
<thead>
<tr>
<th>Quality Attempted Hours</th>
<th>1</th>

</tr>
<tr>
<td>Required Cumulative GPA</td>
<td>1.60</td>
<td>1.80</td>
<td>2.00</td>
</tr>
</tbody>
</table>

Cumulative grade point average will be evaluated by the Office of the Registrar at the end of fall, spring, and summer terms. Students who do not meet the above standards will be placed on probation. Failure to meet the cumulative GPA standard by the end of the probationary term will result in academic dismissal. Students who are dismissed are ineligible for financial assistance until they make up the cumulative GPA deficit or successfully appeal to the Student Financial Assistance Committee for a waiver of this policy. (See Financial Assistance Appeals information in this section of the bulletin.)

Transfer Credit. Credit accepted by USI from other institutions will be used in determining total credit hours attempted and earned. Students may request their academic advisors send a copy of the evaluation of transfer credit to the Student Financial Assistance Office in cases where transfer hours accepted by USI do not all apply to students’ programs. The cumulative GPA will be determined by the Registrar using only credit hours attempted at USI. Therefore, cumulative GPA deficits can only be made up by taking USI course work. Transfer course work accepted into a student’s USI program may be used to make up completion rate deficits. The minimum transfer grade acceptable for this purpose is a C.

Incomplete and Course Repeats. Incomplete grades must be converted to a passing grade by the end of the next regular semester (fall or spring). Incompletes should not be requested for the purpose of permitting a student to repeat a course. Incompletes which remain on student’s transcripts beyond one semester will be considered failing grades for financial aid purposes. Exceptions will be made when the instructor requests an extension and certifies that the student is not repeating the course in its entirety. Courses in which a grade of D, F, or NP was earned may be repeated once for financial aid purposes. Course repeats in which the original grade was C or higher (or P) will not be counted in the student’s enrollment status for financial aid. Such repeats will not be used in determining completion rate for financial aid and aid received for such classes will be repaid in full.

Required Minimum Completion Rate. Note that financial assistance attempted hours (based on first-day hours) are used in determining the student’s enrollment status for financial aid (scholarships, grants, loans, and work study awards). First-day hours are used for all terms even if the student did not receive financial assistance in a particular term. At the end of the spring term any student who has received financial assistance in the prior year (summer, fall, and spring) will be evaluated according to one of the following completion rate tests:

a) Less than 24 total hours attempted in summer, fall, and spring combined. Total financial assistance
attempted hours (summer, fall, and spring) multiplied by 66 percent equals required minimum number of earned hours for the 12-month period.

b) 24 to 27 total hours attempted in summer, fall, and spring combined. Required minimum is 21 earned hours for the 12-month period.

c) 28 to 31 total hours attempted in summer, fall, and spring combined. Required minimum is 24 earned hours for the 12-month period.

d) 32 or more total hours attempted in summer, fall, and spring combined. Required minimum is 27 earned hours for the 12-month period.

Students who fall below the required completion rate will be ineligible for financial assistance after the spring term. Students may make up a deficiency in earned hours at their own expense and submit a written request for review of eligibility.

Exceptions to the Completion Rate Rule. A student who fails to earn academic credit in a term will have aid eligibility suspended at the end of that term. Programs of a year or less in length require an evaluation of completion rate at the end of each term.

Maximum Time Frame for Completion of Degree or Certificate Requirements. Indiana State grant programs are limited to four years or eight semesters of full-time enrollment. Federal grant, loan, and work study programs are limited to six years or 12 semesters of full-time enrollment, the equivalent part-time enrollment, or any equivalent combination of part-time and full-time enrollment for students pursuing the first baccalaureate degree.

Students enrolled in associate degree and certificate programs are limited to 150 percent of the standard program length for financial assistance purposes. All prior enrollment periods are considered including those in which students did not receive federal or state financial assistance. To ensure compliance with the above limitations, students enrolled in their first baccalaureate program are limited to 155 earned credits. Associate degree students are limited to 83 earned credits. Exceptions for associate degree programs include: Dental Assisting - 96 hours; Dental Hygiene - 114 hours; Respiratory Therapy - 94 hours; Radiologic Technology - 106 hours; Occupational Therapy Assistant - 111; and Nursing - 121 hours. Students enrolled in the Dental Assisting Certificate program are limited to 55 earned credits. Students working on their second undergraduate degree/certificate or teacher certification are limited to 178 earned hours including all previously earned credit hours. Students who reach the maximum earned hour limit for their particular degree or certificate may request a determination of the number of terms of full-time equivalent attendance. If the maximum term limit has not been reached, the student will be permitted to continue receiving financial assistance until the term limit is reached.

Additional Information. Students who have lost their eligibility for financial assistance should continue the annual application process for student financial assistance and observe all deadlines. Eligibility may be reinstated when students comply with this policy or receive a waiver as a result of a successful appeal. After students have lost eligibility, they are responsible for submitting an appeal request form that triggers a review of their compliance with this policy. It is not automatic. Students may not bank earned hours for future terms. Students may make up deficits at their own expense and may then request a review of financial aid eligibility. Students are responsible for notifying the Student Financial Assistance Office of any change in academic standing including make up of incompletes, grade changes, and acceptance of transfer credit. Students pursuing second degrees may not receive financial assistance unless the second degree is substantially different from the first. The second degree must require a minimum of 30 credit hours in specified major-related course that are not considered electives or general education (University Core Curriculum). Determination of eligibility will be made by the dean of the college.

Students enrolling in the Fresh Start Program have been academically dismissed from the University and are therefore not eligible for financial assistance while participating in the program. After successfully completing the Fresh Start Program, students may appeal to have their aid eligibility reinstated.

Students have the right at any time during normal office hours to request the Student Financial Assistance Office or the Registrar to review their academic records for errors.

Financial Assistance Appeals. The Student Financial Assistance Office must be notified in writing when students make up deficiencies in either cumulative GPA or earned hours. An appeal form is available for this purpose and is sent to students at the time aid eligibility is suspended. Additional Financial Assistance Appeal Forms are available in the Student Financial Assistance Office located in the Orr Center or by phoning 812/464-1767.
If student's failure to maintain reasonable academic progress is a result of illness, family circumstances, or other conditions beyond student's control, student may appeal to the Financial Assistance Appeals Committee for a waiver of this policy. For proper handling, all such appeals must be submitted within 60 days after receiving notice of financial aid ineligibility and documentation by a third party (e.g. doctor, counselor, or attorney) will be required when applicable. Appeals should be sent to the following address:

Student Financial Assistance Appeals Committee
Office of Student Financial Assistance
University of Southern Indiana
8600 University Boulevard
Evansville, IN 47712

Students will receive a written response to their appeal within 45 days. Appeals submitted less than 30 days before the start of a term for which assistance is desired will not be processed before tuition and fees are due. In such cases, students must be prepared to pay their tuition and fees while awaiting the outcome of their appeal. Students may request at the time of appeal that their full class schedule (in term following suspension of aid eligibility) be canceled at the 100 percent refund rate in the event their appeal is not approved. Contact the bursar (Cashier's Office) for information on tuition/fee payment by calling 812/464-1842. Appeals for reinstatement of aid for a specific term will not be accepted after sixty percent (60 percent) of the term has elapsed. In fall and spring, the end of the ninth week marks the 60 percent point of the semester. Such appeals will apply to subsequent terms.

Guidelines for Appeal Letters. Appeal letters are required for explanation of mitigating circumstances and should be typed. Letters must be signed by the student submitting the appeal. Appeals must be based on specific mitigating circumstances that relate to the period of time in which the student lost eligibility for student financial assistance. Letters should be one page or less in length and should include the student's Social Security number and current mailing address. Documentation should be stapled to the appeal letter and not sent separately.

Institutional Refund Policy for Financial Aid Recipients
This policy applies to students who withdraw from the semester, either officially or unofficially, or who are administratively dismissed. Tuition and fee refunds for these students are determined according to the following policy.

The term “Title IV Funds” refers to the federal financial aid programs authorized under the Higher Education Act of 1965 (as amended) and at USI includes the following programs: unsubsidized FFEL Stafford loans, subsidized FFEL Stafford loans, FFEL PLUS loans, Federal Pell Grants, and Federal (SEOG) Supplemental Educational Opportunity Grants.

Withdrawal Date. A student’s withdrawal date is the earlier of:
- the date the student began the institution’s withdrawal process (as described in the University bulletin) or officially notified the University's registrar of intent to withdraw; or
- the midpoint of the period for a student who leaves without notifying the institution; or
- the student's last date of attendance at a documented academically-related activity.

Note: Medical Withdrawals and the Return of Title IV Funds - Students who are granted medical withdrawal are treated in the same manner as students who withdraw from the University for other purposes.

Refunds and the Return of Federal Funds.
- Refunds for tuition, fees, room, and meal plans are based on the following scale: 90 percent in week one; 80 percent in week two; 70 percent in week three; and 60 percent in week four. There are no refunds of tuition and fees to students or to non-federal entities after the fourth week of fall and spring or the eighth day of each summer session.
- Refunds of tuition, campus service fees, parking fees, and special fees will be on a weekly basis through the fourth week of the semester in the fall and spring and through the eighth day of any summer session. There are no refunds of tuition and fees to students or to non-federal entities after that point in time.
- Refunds of room charges will be on a weekly basis through the fourth week of the fall and spring semester or the eighth day of any summer session. There are no refunds of room and board charges to students or to non-federal entities after that point in time. Note: Residence Life may assess penalties and damage charges that could reduce the amount of the refund (see “Contract Cancellation Fee” section in the Housing and Food Service contract).
- Refunds of Red, White, and Blue Meal Plans will be on a weekly basis through the fourth week of the fall and spring semester or the eighth day of any summer session. There are no refunds of these meal plan charges to students or to non-federal entities after that point in time.
point in time. Notes: Food Service may assess penalty charges that could reduce the amount of the refund (see “Meals Plan Cancellation Fee” section in the Housing and Food Service Contract). Declining balance food plans, such as the Titanium, Platinum, and Gold Meal Plans, are nonrefundable unless the refund is requested within four weeks of purchase. “Munch Money” also is nonrefundable.

- Title IV federal aid is earned in a prorated manner on a per diem basis based on the semester calendar up to the 60 percent point in the semester or summer enrollment period as a whole. Title IV federal aid is viewed as 100 percent earned after that point in time. A copy of the worksheet used for this calculation can be requested from the Office of Student Financial Assistance located on the first floor in the Orr Center.

- Students withdrawing before the first official day of classes for a given term will receive a 100 percent refund minus the housing deposit.

- Refunds and adjusted bills will be sent to the student’s permanent address following withdrawal. Note: If the bill is not paid in full at the time of withdrawal, fees may still be owed to USI after all refunds are applied.

- There are no refunds for incomplete independent study or distance education courses.

- Room and board charges will be adjusted for students enrolled in approved academic off-campus activities such as study abroad, internships, co-op placement, and field placement.

In accordance with federal regulations, when federal financial aid is involved, refunds are allocated in the following order: unsubsidized FFEL Stafford Loans, subsidized FFEL Stafford Loans, FFEL PLUS loans, Federal Pell Grants, Federal SEOG, other Title IV federal assistance, other federal sources of aid, other state, private, and institutional aid, and finally, the student. Note: Generally, all semester charges must have been paid in full at the time of withdrawal for a student to receive a refund.

**University’s Responsibilities.** The University’s responsibilities in regard to the return of Title IV funds include:

- providing each federal financial aid recipient with the information given in this policy;
- identifying students who are affected by this policy and completing the Return of Title IV Federal Funds calculation for those students; and
- making required returns of Title IV federal funds that are due the Title IV programs.

**Student’s Responsibilities.** The student’s responsibilities in regard to the return of Title IV funds include:

- notifying the University’s registrar of intent to withdraw (must provide proof of identity);
- following the University’s prescribed procedures for officially withdrawing from the semester; and
- returning to the Title IV federal programs any funds that were disbursed directly to the student for which the student was determined to be ineligible.

**Schedule Changes.** Cash refunds of tuition and instructional fees resulting from a change in enrollment status (for example, from full-time to half-time) will be returned to the financial aid program(s) which originally paid the tuition/fees. Other refunds will be made to the student or other payee through the fourth week of the fall and spring semesters or eighth day of any summer session.

**Excluded Charges.** Charges that are excluded from refund calculations under this policy include:

- unpaid charges for the current semester or summer session;
- institutional charges for prior terms;
- housing deposits;
- proprietary (Sodexo) declining balance food plans;
- lab breakage fees (and other refundable deposits);
- admission fees;
- matriculation (orientation) fees;
- textbooks;
- charges for non-returnable supplies and equipment;
- penalty charges such as parking, library, and video fines;
- late registration fees; and
- schedule change fees.

**Non-Attendance Procedure.** Students who receive financial aid and do not attend classes will be required to promptly repay all funds received. Recipients of student loans will have their lenders notified and all disbursed loan amounts will be due and payable in full within 30 days. Stafford Loans not repaid within 30 days will be declared in default. This default will be reported on the student’s credit history and eligibility for further financial aid will be revoked.

**Other Cash Refunds.** The University reserves the right to apply any refund due a student to the repayment of institutional loans.

**Notifications.** Any notification of a withdrawal or cancellation of class schedule should be in writing and addressed to the University’s registrar. Cancellation of admission applications (prior to enrollment in classes)
should be in writing and addressed to the University's director of Admission. Request for a refund should be in writing and addressed to the University's bursar.

**Appeals.** If a student believes that individual circumstances warrant that charges or refund should be determined in a manner other than the published policy, the student may contact the Bursar's Office, located in the lower level of the Orr Center. Copies of the institutional refund policy are available in the Bursar's Office. Decisions made under this policy may be appealed to the University's Administrative Appeals Committee.

**Disclaimer.** The fees, procedures, and policies listed above supersede those published previously and are subject to change at any time when required by changes in federal regulations. This policy reflects the University's good faith effort to interpret federal regulations that have a bearing on such matters.
FEES AND EXPENSES

Instructional Fees (Contingent, Student Services, and Academic Facilities Fees)

During 2004-2005, Indiana residents who are undergraduate students pay a combined contingent, student services, academic facilities fee, and technology fee of $133.91 per semester hour. In-state graduate students pay a total of $194.52 per semester hour.

The combined contingent and academic facilities fees are used to help meet the cost of instruction, construction and maintenance of buildings, and library and laboratory resources. The student services fee provides student programs and other selected personal and cultural development activities.

Non-Resident Fees
Undergraduate students who are not residents of the State of Indiana for fee purposes must pay an additional non-resident fee of $185.50 per semester hour. Non-resident graduate students pay an additional $189.70 per semester hour.

Schedule of Instructional Fees
(Effective Fall Semester 2004)
Per Semester Credit Hour

NOTE: Fees are set annually and students should expect fees to increase slightly.

Special Fees

**Audit Fee.** An audit fee of $35 plus applicable lab fees are charged to qualified students who desire to attend a class open for auditing. The audit student attends the class without participating in the recitation and without credit.

**Application Fee.** Students submitting an application for Graduate and Undergraduate Studies must remit a $25 non-refundable application fee.

**Breakage Deposit.** A breakage deposit is charged in various laboratories for laboratory equipment which is either non-returnable or which is not returned in good condition.

**Change of Schedule Fee.** A student who initiates a change of schedule will pay a fee of $15.

**Distance Education Delivery Fee.** A fee of $10 per credit hour is assessed to students who are enrolled in distance education courses. Distance education courses also may have additional fees that are course-specific.

**Health Professions Insurance.** A $15 fee is assessed to students enrolled in courses that involve course work with direct patient care.

**Health Services Fee.** The USI Student Health Center provides students with services typically offered in a primary-care setting. The enrollment fee of $40 per semester covers office visits and certain basic services.

**Laboratory Fees.** Charges ranging from $35 to $100 are made to all students who enroll in selected laboratory and studio courses. These charges and courses are identified at each registration period.

**Late Registration Fee.** A fee of $25 will be assessed to a student who fails to complete registration, including payment of fees before the first day of classes for any semester or summer term.

**Matriculation Fee.** First-time registrants will be assessed a matriculation fee. This fee will be used to fund expenditures in the areas of student orientation and various other student development programs. A student who enrolls in seven or more credit hours per semester will be charged $62. A student who enrolls in fewer than seven credit hours per semester will be charged $31.

**Parking Fine.** The Office of Security may assess fines for parking and traffic violations in accordance with University of Southern Indiana traffic regulations.

**Replacement of Student Eagle Access Card Fee.** A fee of $10 will be charged to students who apply for a replacement Eagle Access card.

**Special Course Fee.** Charges not exceeding $200 are assessed to students enrolled in courses involving extensive use of consumable supplies. The amount of this fee will vary by course.

**Student Activity Fee.** All students will be assessed a non-mandatory $25 per semester student activity fee. This fee is used to support the University Fitness Center, Intramural Recreational Services, and various student programs.

**Transportation and Parking Fee.** All students who attend classes on campus will be assessed a transportation and parking fee. Students who register for three or fewer hours per semester will be charged $21. Students who register for more than three and fewer than eight credit hours per semester will be charged $28. Students who register for eight or more credit hours per semester will be charged $35. The fee per summer session will be $14.

**University Services Fee.** The University Services Fee funds expenditures in the areas of student publications, the O’Daniel Leadership Academy, and other student development programs. Students who register for eight or more credit hours per fall or spring semester will be charged a $30 University Services Fee. Students who register for more than three and fewer than eight credit hours per fall and spring semester will be charged $22.75. Students who register for three or fewer hours per fall or spring semester will be charged a University Services Fee of $10. The fee for summer will be $10.

**Refund Policy**

Fall and spring semesters: Students who drop one or more courses during the first week of a semester will receive a 90 percent refund of fees; during the second week of a semester, an 80 percent refund; during the third week of a semester a 70 percent refund; and during the fourth week of a semester a 60 percent refund. No refund will be made for courses dropped thereafter. This policy is applicable to both class schedule changes and withdrawals from the University.
Summer sessions: Students who drop a course or withdraw from the University on the first or second day of summer session classes will receive a 90 percent refund; on the third or fourth day of classes, an 80 percent refund; on the fifth or sixth day of classes, a 70 percent refund; and on the seventh or eighth day of classes, a 60 percent refund. No refund will be given for dropped courses or withdrawals after the eighth day of summer session classes.

Payment
Registered students must remit payment or enter into the University’s payment plan by the due date on the billing statement. Fees may be paid by using MasterCard, VISA, Discover card, cash, personal check, or money order.

Increases
The fee rates cited here are for the 2004-05 academic year. The Board of Trustees sets fee rates annually, and fee rates for 2005-06 and beyond are expected to increase.

*While these charges are typical, some students will pay additional course-specific laboratory and special course fees as described on the previous pages.
It is important that a student be knowledgeable about academic information affecting continued enrollment status. Such information includes knowledge of the basis for assigning grades as an indication of academic achievement, the conditions of class attendance, and the class identification. Other information valuable to the student includes procedures for changing either semester class schedules or curriculum choice and special academic opportunities available to the student.

**Academic Year**
The University's academic year includes two semesters and three five-week summer sessions. The academic calendar is published for each term in the Schedule of Classes.

**Class Load**
The normal class load is 15 or 16 hours per semester. In a summer five-week session, the normal load should generally not exceed seven credit hours.

An average of 31 credit hours earned each academic year will allow a student to meet the University's minimum requirements of 124 credit hours for graduation at the end of four years or eight semesters.

A student is considered full time if enrolled for 12 or more hours of prepared course work each semester, and four or more hours in a five-week summer session.

**Student Overload**
Students who for any reason find it desirable to carry more than seven hours in a summer session or more than 18 hours during a semester may request this privilege through their academic advisor.

**Procedure.** There are two ways students may initiate the request for an overload: 1) obtain a Student Overload Form from the Office of the Registrar, secure their advisor’s signature, and return the completed form to the Office of the Registrar or 2) request their academic advisor authorize the overload online via MyUSI.

**Course Numbers**
Undergraduate courses are numbered in the sequence of 000, 100, 200, 300, and 400. Generally, developmental courses are in the 000-099 series and do not count toward graduation. Freshman courses are in the 100 series, sophomore courses are in the 200 series, junior courses are in the 300 series, and senior courses are in the 400 series.

**Class Attendance**
A student is expected to attend all classes. It is the responsibility of an instructor to inform the student of the consequences of absence from class. It is the responsibility of the student to keep instructors informed regarding absences from classes.

A student who knows of necessary class absences should consult instructors prior to the absence. A student who misses classes is not excused from the obligations to instructors. Instructors are expected to provide the student with an opportunity to meet class commitments when absences are for good and proper reasons. Further, instructors are expected to maintain attendance records and to report excessive absences to the Office of the Registrar.

*Developmental Classes Mandatory Attendance Policy, page 41.

**Administrative Withdrawal for Non-Attendance**
Students who are absent one-half or more of the class meetings of a full semester-length class without excuse during weeks two through four will be notified by letter to their local address of the possibility of their being administratively withdrawn from their class. The students so notified will be given until the end of the seventh week (mid-term) to meet with their instructors to resolve the situation. The instructor of the class may complete the process of an administrative withdrawal of a student (at mid-term) if the situation is not resolved.

**NOTE:** Merely not attending a course does not automatically remove the course from a student’s record. Students who do not accept the responsibility of completing a Change of Class Schedule or Withdrawal From the Semester/Term form jeopardize their record with the possibility of incurring an F in a course not properly dropped.

**General Student Policies**
Policies on student behavior, plagiarism, falsification of records, and other policies may be found in the Student Life section.

**Classification**
A student is usually identified as a freshman, sophomore, junior, or senior. Such a classification is applicable to the four years of full-time college attendance. However, an increase in hours earned during one or more semesters or enrollment in summer sessions may result in an accelerated program; conversely, a smaller than normal class load may result in a prolonged program. Thus, it is more accurate to designate class standing in accordance with credit hours earned.
The following schedule of hours earned is used to establish class standing:

- 0 - 31 hours: Freshman
- 32 - 62 hours: Sophomore
- 63 - 93 hours: Junior
- 94 + hours: Senior

This schedule has no necessary relationship to the cumulative hours and required grade point average necessary for continuing enrollment.

**Grading System**

Letter grades indicating the quality of course work completed, and for which the credit hours credit earned can be applied toward graduation requirements, generally can be interpreted as follows:

- A, excellent; B+ and B, good; C+ and C, average; D+ and D, poor; S for satisfactory; P for pass.

The letter grades assigned for unsatisfactory course work are F, failure; U, for unsatisfactory; NP for no pass. No credit toward graduation is granted for these grades.

The designation IN (incomplete) also may be used in special circumstances.

An incomplete grade (IN) may be given only at the end of a term to a student whose work is passing, but who has left unfinished a small amount of work (for example, a final examination, a paper, or a term project) which may be completed without further class attendance.

The student must act to remove the IN grade within one calendar year. If action is not taken, the IN grade will revert to a tentative final grade (the final grade becomes an F if no tentative grade was assigned). In the event the instructor from whom a student receives an incomplete is not available, the disposition of a case involving an incomplete grade resides with the appropriate dean.

An In Progress (IP) final grade is given in Advanced Senior Project classes which require enrollment in the same class in successive semesters. An IP grade means the student cannot receive credit for the course under any circumstances without re-enrollment in the course.

A withdrawal (W) is given when a student officially withdraws from a course during the automatic W period (see Schedule Changes and/or Withdrawal from the Semester/Term sections). A W also is given if the student is passing at the time of a drop/withdrawal after the automatic W period has ended. A W means the student cannot receive credit for the course under any circumstances without re-enrollment in the course.

**Grade Point Average (GPA)**

The grade point average is a numerical value which is obtained by dividing the number of quality grade points earned by the number of quality hours attempted. This average is computed at the end of each term, both for the term and on a cumulative basis. The grade of A represents four points for each hour of credit; B+ three and one-half points; B three points; C+ two and one-half points; C two points; D+ one and one-half points; and D one point. No points are recorded for an F, although the hours attempted are included in the computations. No points are recorded for a P or NP, S or U, and the hours attempted are not included in the computations.

Suppose that a student has earned the following grades:

- 6 hours of A (equals 24 points)
- 3 hours of B+ (equals 10.5 points)
- 3 hours of C+ (equals 7.5 points)
- 3 hours of C (equals 6.0 points)

Then the semester average would be 3.2, which is the quotient obtained by dividing 48 (the number of quality points) by 15 (the number of quality hours attempted).

A minimum cumulative GPA of 2.0 is required for graduation.

**Transcripts (academic)**

Academic transcripts are maintained by the Office of the Registrar. Official transcripts include student name, Social Security number, date of birth, permanent address, secondary school attended, all officially enrolled and dropped courses, grades received, academic standing, majors, minors, degrees awarded, graduation honors earned, attainment of honors list, transfer institutions, number of transfer hours accepted, cumulative and semester statistics, attempted hours, quality hours, quality points, earned hours, and GPA.

**How to view an unofficial transcript**

Students may view their unofficial transcript online via MyUSI.

The transcript will not be viewable if a student has unmet financial obligations to the University or for Stafford Loan recipients who have failed to complete an
exit counseling session with the Student Financial Assistance Office.

How to request an official transcript
Students may request an official academic transcript by:
1) visiting www.usi.edu/reg (requires electronic signature — the student’s MyUSI password);
2) completing a Transcript Request form and returning it to the Office of the Registrar; or
3) mailing or faxing a letter including current name, name(s) while attending USI (if different from current name), Social Security number, address to send transcript, return address (in case of questions/problems with request), and the student’s signature.

Transcripts may be picked up the next business day following receipt of the request. Transcripts to be mailed may take up to two business days to process.

The University can release only official USI transcripts. Transcripts from other universities or high schools attended must be requested directly from those institutions.

A transcript is not released when a student has unmet financial obligations to the University. Transcripts also will be withheld for Stafford Loan recipients who have failed to complete an exit counseling session with the Student Financial Assistance Office.

Enrollment Certification
An Enrollment Certification is a printed document which includes requested information such as enrollment status in one or more terms, degrees awarded, and GPA. Expected date of graduation also may be verified for purposes such as student loan deferment, good student insurance discounts, coverage on parents’ insurance, potential employment, etc.

How to Request an Enrollment Certification
Students request a certification by:
1) visiting www.usi.edu/reg (requires electronic signature — MyUSI password);
2) completing the Enrollment Certification form and returning it to the Office of the Registrar; or
3) mailing or faxing a letter including name(s) while attending USI (if different than current name), Social Security number, address to send Enrollment Certification, return address (in case of questions/problems with request), and the student’s signature. Enrollment Certifications are mailed or may be picked up the next business day following receipt of the request.

Readmission Procedures
Once enrolled at the University, an undergraduate student who for any reason does not re-enroll in a subsequent fall and/or spring semester must initiate an Application for Readmission in the Office of the Registrar prior to returning to campus for the next enrollment. Students can complete an Application for Readmission by:
1) visiting www.usi.edu/reg (requires electronic signature — the student’s MyUSI password); or
2) completing the application and returning it to the Office of the Registrar. Degree-seeking readmission students are required to submit an official grade transcript from each institution attended since last attending USI. If a student discontinues enrollment for more than one calendar year, the student must then re-enroll under the current program requirements. A student may petition the department chair for permission to grandfather back to the original program requirements.

Fresh Start Program
The Fresh Start program is designed to benefit former USI undergraduate students who are returning to the University after an extended absence and whose previous academic record was unsatisfactory (student was academically dismissed).

Eligibility
A student will be eligible to apply for the Fresh Start program under the following conditions:

• The student must not have been enrolled at the University of Southern Indiana for a minimum of four calendar years (48 months). Credit earned from other institutions is not eligible for the provisions of the Fresh Start program and will be evaluated based on the transfer policies in effect at the time of readmission.
• A student must apply for the Fresh Start program when they readmit. If the student achieves a minimum 2.0 grade point average on the first 12 quality hours/graded hours taken after readmission and remains in good standing while completing the hours, he/she will then be accepted to the program.
• Applications for Fresh Start may be obtained at the Office of the Registrar and will be evaluated on a case-by-case basis. The Fresh Start program provisions can be applied only once to any individual student’s academic record.

Program Provisions
Fresh Start acceptance subjects a student to the following provisions:
• University of Southern Indiana grades received and courses taken prior to application to the Fresh Start
program will be excluded from cumulative grade point calculation.

- USI credits from course work with a grade of C or above earned prior to application to the Fresh Start program will be maintained as earned hours. All other credits will be forfeited.
- Grades from all course work taken at USI (before and after Fresh Start) will be used in calculating eligibility for membership in honor societies and for calculating commencement and graduation honors.
- Students accepted to the Fresh Start program are subject to the academic requirements and regulations in effect at the time of their readmission. The Fresh Start student must re-declare a major and complete all current academic requirements.
- Students must complete a minimum of 30 credit hours at USI for graduation, required for their degree program, after being accepted to the Fresh Start program. The Fresh Start program status will be recorded on the student's academic record.

Standards of Progress

Graduation. A student must earn a minimum cumulative 2.0 GPA to graduate. Minimum acceptable progress toward this requirement is indicated by the standards for good standing.

Academic Progress

Beginning with the spring 2003 early registration period, any undergraduate degree-seeking student with a cumulative USI grade point average less than 2.0 will have a registration hold placed on his/her record. A student receiving this registration hold must consult with an academic advisor to formulate a plan for improving academic performance prior to registering for the following semester.

Good Standing. A student whose cumulative GPA meets or exceeds the following standards is in good academic standing:

- GPA 1.6 for 0-31 quality hours attempted
- GPA 1.8 for 32-62 quality hours attempted
- GPA 2.0 for 63+ quality hours attempted

NOTE: Transfer students must meet the standard which corresponds to the sum of the total transfer hours accepted and the total quality hours attempted at the University.

Academic Probation. Students who fail to meet the preceding minimum standards will be placed on academic probation for one semester. During that semester, the student should make use of available University resources to improve academic skills and performance. Failure to meet the preceding required GPA levels at the end of the probationary semester will result in academic dismissal from the University.

At the discretion of departments, students on academic probation may be subject to some or all of the following requirements:

- changes to the schedule of classes chosen during early registration, to ensure prerequisites and necessary skill levels are in place
- approval by academic advisor of all changes to the schedule of classes
- walk-through registration with the academic advisor rather than online registration
- limitation to 12 credit hours
- repetition of certain classes
- use of campus resources for academic support

These advising guidelines seek to provide maximum support and guidance during the critical period of establishing renewed academic good standing.

Dismissal. A student academically dismissed may not register for credit classes at the University for a minimum of one semester, unless readmitted provisionally. Such readmission is not automatic.

Provisional Readmission. A student academically dismissed may apply for provisional readmission for one semester, according to terms of a provisional readmission contract agreed upon by the student and the readmitting school. At the discretion of departments, students provisionally readmitted may be subject to some or all of the following requirements:

- limitation to 12 or fewer credit hours
- repetition of courses with grades of D or F
- attendance at mentoring appointments
- approval by academic advisor of all changes to the schedule of classes
- walk-through registration with the academic advisor rather than online registration
- use of campus resources for academic support

These advising guidelines seek to provide maximum support and guidance during the critical period of establishing renewed academic good standing. A provisionally readmitted student is not in good standing with the University.

Academic Grievance

If a student has a possible grievance with a faculty member, the procedures for filing a grievance are outlined in
the student code of conduct in the Student Rights and Responsibilities: A Code of Student Behavior section of this Bulletin.

Class Schedules
A schedule of University class offerings is prepared for student use for each semester and the summer sessions. The class identification number, time, day, title, course number, credit hours, instructor, and room are listed. General information concerning admission, registration, and graduation also is provided.

The Schedule of Classes is available at the Office of the Registrar and online at www.usi.edu/schedules.asp prior to each semester or summer session.

Academic Advisement
Faculty Academic Advising. Until a student chooses a major, he/she is assigned to a University Division advisor, a faculty member who will help him/her choose a major, usually during the first four semesters. When a student has chosen an area of specialization, the student is referred to a faculty member who serves as the academic advisor for the student. Data including the student's personal biography, high school rank, and rating on achievement examinations is supplied to the advisor. The advisor assists the student in planning the use of time in acquiring good study methods, in referring the student to special services on campus as need arises, and in serving as a personal counselor to the student. The advisor, in cooperation with various University resources, assists the student in selecting successive programs of study. At such times as counseling sessions are needed, the academic advisor will confer with the student regarding progress in relationship to personal levels of learning and to the academic standards of the University.

Degree Audit Reporting System (DARS). DARS was developed to assist in the advising function. A degree audit outlines a student's specific degree requirements and tracks his/her progress toward the fulfillment of those requirements. Both USI and transfer credits are included, and the audit indicates whether categories are satisfied or unsatisfied. Unsatisfied categories list the acceptable courses from which to select. Audits are routinely refreshed to reflect record changes (drops/adds, change of major, early registration, etc.). Students can view their audit via MyUSI. Academic advisors also can access their advisee's degree audit and can recommend the most appropriate courses.

Student Participation in Program Planning. A student enrolled in the University is expected to read carefully and to understand the contents of this bulletin. This includes awareness of the University's general policies and regulations for academic achievement necessary for continued enrollment, as well as social and campus conduct.

A student also is responsible for knowing the requirements special to the academic discipline of the student's choice, enabling the student to qualify for graduation.

A student should assume the initiative for preparing a semester schedule of classes. The academic advisor is available to offer suggestions and to verify the accuracy of course choice in meeting curricular patterns, but the primary responsibility for knowing the requirements of the academic program and proceeding to satisfy those requirements in an orderly and sequential manner remains with the student.

Schedule Changes
Students who wish to alter their original schedule, whether by personal incentive or by school directive, must do so officially by the procedure outlined below.

Students who do not assume this responsibility may jeopardize their record with the possibility of incurring an F in a course not properly dropped and/or not receiving credit in a course improperly added. Merely not attending a course does not automatically remove the course from the student's record.

Schedule Changes-Academic Year
1. Prior to the start of the term (100 percent credit):
   a.) After early registration and through the published bill due date, a student may add or drop courses in person at the Office of the Registrar by submitting a Change to Early Registration Schedule form. Only the student's signature is required. Students also may add or drop courses online via MyUSI. Refer to the Schedule of Classes for processing information.
   b.) A student who completes the early registration and fee payment process will have an additional opportunity to make schedule changes. Refer to the Schedule of Classes for available dates. Only the student's signature is required.

2. During the first week of the term (90 percent credit*):
   a.) A student may add or drop full term courses online via MyUSI. Each time a schedule revision to add a class is initiated, a $15 fee is charged.* Refer to the Schedule of Classes for processing information.
b.) A student may add or drop courses in person at the Office of the Registrar by submitting a Schedule Adjustment form. Only the student's signature is required. Each time a Schedule Adjustment form to add a class is initiated, a $15 fee is charged.*

3. Beginning the second week of the term, through the end of the week before final exams (80 percent credit or less*): Online schedule changes via MyUSI are not available beyond the first week of the term. A student may add or drop courses in person by submitting a Change of Class Schedule form to the Office of the Registrar. The form requires the signatures of the instructor of each course being dropped or added, the student's academic advisor, and the student.

NOTE: Only in exceptional circumstances will students be allowed to add a course after the first week of the term. Each time a Change of Class Schedule form to add a class is initiated, a $15 fee is charged.*

Grading: No grade is recorded for classes dropped prior to the second week of the term. A student who completes a Change of Class Schedule procedure beginning the second week of the term through the ninth week of the term will receive a W for all courses dropped. A student who completes a Change of Class Schedule procedure during the 10th week of the term through the last day of classes before final exam week will receive the grade W if passing at the time the course is dropped. However, if failing at the time the course is dropped, the student will receive a grade of F. Note: courses meeting less than a complete term have different dates. Contact the Office of the Registrar for these dates.

*Fees/Refunds: The fees and expenses section of this bulletin details refunds for dropped courses. Fees for added courses or refunds for dropped courses will be billed/refunded by the Cashier's Office. Courses which meet less than a complete term have different refund dates. Contact the Office of the Registrar for these dates.

Schedule Changes-Summer Sessions
1. Prior to the start of the term (100 percent credit):
   After early registration and through the published bill due date, a student may add or drop courses in person at the Office of the Registrar by submitting a Change to Early Registration Schedule form. Only the student's signature is required. Students may also add or drop courses online via MyUSI. Refer to the Schedule of Classes for processing information.

2. During the first two days of the term (90 percent credit*):
   a.) A student may add or drop full term (five week) courses online via MyUSI. Each time a schedule revision to add a class is initiated, a $15 fee is charged.* Refer to the Schedule of Classes for processing information.
   b.) A student may add or drop courses in person at the Office of the Registrar by submitting a Schedule Adjustment form. Only the student's signature is required. Each time a Schedule Adjustment form to add a class is initiated, a $15 fee is charged.*

3. Beginning the third day of the term, through the last day of class before the final exam (80 percent credit or less*): Online schedule changes via MyUSI are not available beyond the first two days of the term. A student may add or drop courses in person by submitting a Change of Class Schedule form to the Office of the Registrar. The form requires the signatures of the instructor of each course being dropped or added, the student's academic advisor, and the student.

NOTE: Only in exceptional circumstances will students be allowed to add a course after the first two days of the term. Each time a Change of Class Schedule form to add a class is initiated, a $15 fee is charged.*

Grading: No grade is recorded for classes dropped prior to the third day of the term. A student who completes a Change of Class Schedule procedure beginning the third day of the term through the third week of the term will receive a W for all courses dropped. A student who completes a Change of Class Schedule procedure during the fourth week of the term through the last day of classes before the final exam will receive the grade W if passing at the time the course is dropped. However, if failing at the time the course is dropped, the student will receive a grade of F. Note: cross-term courses and courses which meet less than a complete term have different dates. Contact the Office of the Registrar for these dates.

*Fees/Refunds: The fees and expenses section of this bulletin details refunds for dropped courses. Fees for added courses or refunds for dropped courses will be billed/refunded by the Cashier's Office. Cross-term courses and courses which meet less than a complete term have different refund dates. Contact the Office of the Registrar for these dates.
Withdrawal from the Semester/Term

Students who must withdraw from the semester/term, must do so officially by the procedure outlined below. If they do not assume this responsibility, they may jeopardize their record with the possibility of incurring an F in a course not properly dropped. Merely not attending a course does not automatically remove the course from a student’s record.

Withdrawal from the Semester/Term-Academic Year

1. Prior to the start of the term (100 percent credit):
   After early registration and prior to the start of the term, a student may withdraw from all classes in person by submitting a Change to Early Registration Schedule form. Only the student’s signature is required. Until the form is processed by the Office of the Registrar, the student is still registered in the courses. Students also may withdraw online via MyUSI. Refer to the Schedule of Classes for processing information.

2. Beginning the first day of the term, through the end of the week before final exams (90 percent credit or less*):
   Students may withdraw from the term using a Withdrawal From All Classes form. Only the student’s signature is required. The completed form must be returned to the Office of the Registrar for processing. Until all steps in the procedure have been completed, a student is still enrolled in the courses. During the first week of the term only, students may also withdraw online via MyUSI. Online withdrawals are not available beyond the first week of the term. Refer to the Schedule of Classes for processing information.

Grade Determination. A student who completes a Withdrawal From the Semester/term procedure beginning the first day of the term through the ninth week of the term will receive the grade of W for all courses dropped. Students who complete the Withdrawal From the Semester/Term procedure during the 10th week of the term through the last day of classes preceding final exam week will receive the grade of W if passing at the time of withdrawal. However, if failing at the time of withdrawal, the student will receive a grade of F. Note: courses meeting less than a complete term have different dates. Contact the Office of the Registrar for these dates.

Financial Aid: If a student receives financial aid but is unsure of the impact a Withdrawal From the Semester/Term will have on that financial aid, it is recommended that the student contact the Student Financial Assistance Office. Students with a Stafford Loan must complete an exit counseling session with the Student Financial Assistance Office (www.usi.edu/finaid). Failure to complete the exit counseling session will prevent the release of the student’s academic transcript.

*Fees/Refunds: The fees and expenses section of this bulletin details refunds made upon withdrawal from the semester/term. Refunds for dropped courses will be made by the Cashier’s Office. Courses which meet less than a complete term have different refund dates. Contact the Office of the Registrar for these dates.

Withdrawal from the Semester/Term-Summer Sessions

1. Prior to the start of the term (100 percent credit):
   After early registration and prior to the start of the term, a student may withdraw from all classes in person by submitting a Change to Early Registration Schedule form. Only the student’s signature is required. Until the form is processed by the Office of the Registrar, the student is still registered in the courses. Students also may withdraw online via MyUSI. Refer to the Schedule of Classes for processing information.

2. Beginning the first day of the term, through the last day of classes before the final exam (90 percent credit or less*):
   Students may withdraw from the term using a Withdrawal From All Classes form. Only the student’s signature is required. The completed form must be returned to the Office of the Registrar for processing. Until all steps in the procedure have been completed, a student is still enrolled in the courses. During the first two days of the term only, students may also withdraw online via MyUSI. Online withdrawals are not available beyond the first two days of the term. Refer to the Schedule of Classes for processing information.

Grade Determination. A student who completes a Withdrawal From the Semester/term procedure beginning the first day of the term through the third week of the term will receive the grade of W for all courses dropped. Students who complete the Withdrawal From the Semester/Term procedure during the fourth week of the term through the last day of classes before the final exam will receive the grade of W if passing at the time of withdrawal. However, if failing at the time of withdrawal, the student will receive a grade of F. Note: cross-term courses and courses which meet less than a complete term have different dates. Contact the Office of the Registrar for these dates.
Financial Aid: If a student receives financial aid but is unsure of the impact a Withdrawal From the Semester/Term will have on that financial aid, it is recommended that the student contact the Student Financial Assistance Office. Students with a Stafford Loan must complete an exit counseling session with the Student Financial Assistance Office (www.usi.edu/finaid). Failure to complete the exit counseling session will prevent the release of the student’s academic transcript.

*Fees/Refunds: The fees and expenses section of this bulletin details refunds made upon withdrawal from the semester/term. Refunds for dropped courses will be made by the Cashier's Office. Cross-term courses and courses which meet less than a complete term have different refund dates. Contact the Office of the Registrar for these dates.

Course Repeat Policy
Any undergraduate course taken at the University may be repeated only once for possible grade point average (GPA) improvement. The second grade earned at USI will become the grade for the course (even if it is lower) and be used for GPA computation. The first grade received will remain on the transcript but will not be used for GPA computation.

The semester the course was first taken determines processing. If first taken prior to the 1998 fall semester, the student must submit a Course Repeat form to the Office of the Registrar to initiate the policy to affect the GPA change. If first taken in 1998 fall or later, the policy will be automatically initiated: the student does not need to submit any paperwork. Refer questions to the Office of the Registrar.

Student Records
The Office of the Registrar maintains the permanent student academic record. Forms for registration - changing a course, repeating a course, changing major, and taking a course as pass/no pass - are submitted to and processed by this office. Students may request a copy of their academic record (transcript) from the Registrar. This office also maintains all student demographic data and keeps names and addresses current. According to section 2.16.4 of the Student Rights and Responsibilities: A Code of Student Behavior, students must report in writing any name or address changes to the Office of the Registrar. The office is located on the main level of the Orr Center. Students may also update their address(es) online via MyUSI.

Pass/No Pass Option
The Pass/No Pass system of course evaluation encourages students to enroll in courses they normally would not take, but which will contribute to their overall enrichment.

Limitations
1. Students must have a cumulative grade point average of 2.0 or above to exercise the pass/no pass option. Students whose cumulative grade point average falls below 2.0 may not take a course pass/no pass.
2. Students may take only one course a semester on the pass/no pass option.
3. Students may take a maximum of four courses on the pass/no pass option.
4. No course required for the student’s major or minor may be taken pass/no pass, nor may the student take as pass/no pass any prerequisite courses or supportive courses required for his major or minor.
5. No courses taken pass/no pass may apply to pre-1995 General Education requirements or University Core Curriculum requirements.
6. Any course taken under the pass/no pass option which may become a major or minor requirement because of a change of major, minor, or school may be counted at the discretion of the dean toward requirements for the academic major and/or minor. Limitations 1, 2, 3, and 5 may not be waived.
7. Under the pass/no pass option, a grade of P (Pass) is equivalent to a letter grade of D or above; a grade of NP (No Pass) is equivalent to an F.
8. A grade of P gives credit for the course, but does not affect the current or cumulative grade point average. A grade of NP gives no credit for the course and does not affect the current or cumulative grade point average.

Procedures
During the second week (first week during summer sessions) of the semester, students may secure an application for the pass/no pass option from the Office of the Registrar. Then the student should obtain the signature of his or her academic advisor and the instructor of the class in which he or she is exercising this option. The student must return the completed application to the Office of the Registrar during the same week. After the second week (first week during summer sessions) a student may not change his or her registration in any course to or from the pass/no pass option.

NOTE: Only the student can initiate the pass/no pass option, and it is the student’s responsibility to meet criteria of the option. Any course taken pass/no pass which fails to meet all criteria of the option must be repeated.
Change of Academic Program (Major/Minor)
A student who wishes to change majors/minors should initiate the request in the Office of the Registrar. A student must initiate the request prior to the beginning of the 12th week of classes if the change is to be made within the current semester. Unless granted a waiver by the chair of the department of the new major, the student must meet all current program requirements for graduation.

Procedure. The student obtains a Change of Academic Program form from the Office of the Registrar and secures the signature of the dean of the new program. The student returns the form to the Office of the Registrar.

Final Exam Schedule
The final examination schedule is published in the class schedule for each semester. In the summer sessions, final examinations are held the last scheduled class day.

Grade Report
At the end of each semester and summer session for which a student is enrolled, an online grade report is made available via MyUSI. The online grade report is a record of courses enrolled, letter grades earned, semester grade point average, and cumulative grade point average. Information concerning the student's enrollment status for the subsequent term also is indicated.

The Honors List
At the end of each semester, the Office of the Vice President for Academic Affairs publishes a list of students recognized for achievement in semester/term grade point average. A student receiving letter grades of computable point value (S/U and P/N graded courses do not apply) in 12 or more credit hours with a semester grade point average between 3.50 to 4.00 appears on the Honors List. A special notation of "Honors List" is printed on the academic transcript following each semester/term this honor is achieved.

Audit Students
A student who wishes to audit an undergraduate course without credit must obtain permission from the instructor of the course and department chairperson. Permission may be denied if the classroom is crowded, or if the course is not appropriate for auditing. A student who audits a course will not appear on class rosters or grade reports, and no notation of the audit will be made on the student's permanent record. A student may not transfer from audit to credit status. The fee for auditing a course is $35 plus any applicable lab fees and University services fees.

Procedure. A student who wishes to audit a course may pick up an Audit Application form from the Office of the Registrar during the published dates of late registration. After securing the instructor's and department chairperson's signature, the form and fee(s) should be submitted to the Cashier's Office.

Student Assessment
In order for the University to evaluate and improve its academic programs, periodic measures of student intellectual growth and student perception must be obtained. As a requirement for graduation from the University, every student shall be required to participate in periodic evaluative procedures, which may include examinations in general education and the major field of study. These examinations may include, but are not limited to, the ETS Academic Profile, Core Curriculum Assessment instruments, and the ETS or ACAT Major Field Test. The information obtained from these measures will be one of the means by which the University improves the quality of the USI educational experience for all students, and, where appropriate, may be used in academic advising. Students will be given the opportunity to receive their exam results.

Current Status of Student
Right-to-Know Act
The University of Southern Indiana is required by the federal government to make available to current and prospective students reports containing the completion or graduation rate and, separately, the transfer-out rate (for the transfers-out that are known to the institution) for full-time, first-time, degree- or certificate-seeking undergraduates. The report, containing information for students who entered the institution in the 2004-05 academic year, must be available by January 1, 2011, for institutions. Students are counted as graduates or as transfers-out if they completed or graduated or if they transferred-out within 150 percent of the normal time for completion or graduation from their programs by August 20, 2010.

Graduation
Undergraduate degrees offered
The University grants the undergraduate degrees of Bachelor of Arts, Bachelor of Science, Bachelor of Science in Engineering, Bachelor of Social Work, Bachelor of General Studies, Bachelor of Science in
Nursing, Associate of Arts, Associate of Science, and Associate of Science in Nursing. Commencement is held in May of each year.

Bachelor of Arts or Associate of Arts Foreign Language Requirement
Foreign language is a requirement for the Bachelor of Arts or Associate of Arts degree. The foreign language requirement recognizes the desirability of attaining basic mastery of a language other than one’s own. A student must complete 12 hours of college-level foreign language study, or the equivalent. Equivalency must include proficiency through the appropriate 200-level course in a single foreign language. A student may demonstrate a level of proficiency in a language by taking a college placement examination which may partially fulfill the foreign language requirements for the Bachelor of Arts or Associate of Arts degree.

Students whose native or first language is not English may request a waiver from the foreign language requirement. A student who requests a waiver must (1) certify English competency by achievement of a minimum of 500 on the written Test of English as a Foreign Language (TOEFL) or 173 on the computer-based version, and (2) demonstrate proficiency in the student’s native language.

Students who receive an exemption from the foreign language requirement are responsible for completing the humanities requirements set forth in the University Core Curriculum (C4 Western Culture) as well as all other credit hour requirements for the degree.

General Requirements for Graduation. Meeting graduation requirements is each student’s responsibility. A candidate for a baccalaureate or associate degree must meet the general requirements of the University. The following requirements apply to each student:

- A student must have a minimum of 124 credit hours of credit for a baccalaureate degree. Some curricula or combination of fields require more. If all specified requirements are completed with fewer than 124 credit hours, a student must elect sufficient work to total at least 124 hours.
- A student must have a minimum of 64 credit hours of credit for an associate degree. Some curricula or combination of fields require more. If all specified requirements are completed with fewer than 64 credit hours, a student must elect sufficient work to total at least 64 hours.
- All students who began seeking a degree in the 1996 fall semester or after must complete a minimum of 39 credit hours at the 300-level or above to complete a baccalaureate degree.
- A student must complete the minimum University Core Curriculum program. Specific requirements for the University Core Curriculum component of each degree program are noted in the sections of this bulletin describing each of the academic programs.
- A student must have a 2.0 minimum grade point average on all University courses counted for graduation requirements. Some curricula, such as teacher education programs, require a higher grade point average.
- Incomplete grades should be removed at least six weeks before the term of graduation if the courses are to be counted toward graduation requirements.
- Course requirements for graduation in the student’s degree program(s) may be those in effect at the time of matriculation into the program or at graduation, but not a combination of both. NOTE: students who re-enter the University after an absence of one calendar year or more must follow the program requirements in effect at the time of their readmission.
- A student must earn a minimum of 30 credit hours of credit toward a baccalaureate, and 18 credit hours of credit toward an associate degree from the University.
- The last five credit hours immediately preceding graduation must be completed in residence.

Application for Graduation. Candidates for graduation must file with the Office of the Registrar a Formal Application for Graduation and a Diploma Form. If degree requirements will be completed in a spring or summer term, the forms should be submitted no later than the third week of the preceding fall term. If degree requirements will be completed in the fall term, the forms should be submitted no later than the third week of the preceding spring term. The Application for Graduation may be obtained at the office of the Dean of the candidate’s major. The Diploma Form may be obtained at the office of the Dean of the candidate’s major or submitted on-line by visiting www.usi.edu/reg/diploma.asp.

Honors. An undergraduate, baccalaureate degree-seeking student who completes all University requirements for graduation and meets the requirements for graduation honors, with a cumulative grade point average of between 3.6 and 3.8 will be graduated with the honor Cum Laude. Students with a cumulative grade point average of 3.8 or higher will be graduated Magna Cum Laude. The student(s) with the highest cumulative grade point average will be graduated Summa Cum Laude. A student receiving graduation honors will have the appropriate notation printed on both the transcript and diploma.
Commencement honors (for purposes of printing the commencement program) are determined by using the cumulative grade point average at the end of the fall semester preceding each May commencement.

Graduation honors are determined by using the cumulative grade point average of the final term when graduation requirements are completed and therefore may differ from commencement honors for those students completing degree requirements in the spring or summer terms.

University Requirements for Graduation Honors. A student who is to receive a baccalaureate degree and meets each of the following requirements is eligible for graduation honors.

- Complete a minimum of 30 credit hours at the University in which letter grades of computable point value were received.
- Have a minimum cumulative grade point average of 3.6 on all courses attempted at the University.
- Have a minimum cumulative grade point average of 3.6 on all academic work attempted from all institutions attended.

Associate and Master degree candidates are not eligible for honors.

Second Baccalaureate Degree
A student who desires a second baccalaureate degree must complete a minimum of 30 credit hours in addition to those required for their first degree and must fulfill all requirements for the second degree. With the exception of the Teacher Education Programs, a student completing a second baccalaureate degree does not have to meet the University Core Curriculum (General Education Program). If a student received the first baccalaureate degree from another accredited university, 30 hours in residence are required to fulfill the requirement for the second baccalaureate degree. Two baccalaureate degrees may be granted simultaneously, providing all requirements for both degrees have been completed and a minimum of 154 hours has been earned.

Posthumous Recognition of Students

Posthumous degree
The University may award a degree posthumously to a student who was enrolled at the time of death and had substantially completed the work for a degree, upon recommendation of the appropriate faculty and dean. A special, posthumous diploma will be presented to the student’s family.

The University of Southern Indiana has established the following guidelines for awarding a posthumous degree:

Undergraduate
The posthumous degree can justifiably be awarded when a student had substantially completed the work for the undergraduate degree. This determination rests with the dean of the school, in consultation with the undergraduate faculty of the department of the student’s major.

Graduate
A graduate degree may be awarded posthumously when the student has substantially completed the work for the graduate degree. This determination shall be the responsibility of the dean of the school, in consultation with the graduate faculty of the student’s program.

Certification of Recognition
The University may award a Certificate of Recognition posthumously to a student who was enrolled at the time of death but who did not qualify for a posthumous degree. A special, posthumous certificate will be presented to the student’s family.

Office of Veterans’ Affairs
The Office of Veterans’ Affairs is located in the Registrar’s Office and provides assistance to all prospective and enrolled students who are veterans, service members, dependents, survivors of veterans, and other eligible persons. Students applying for benefits may obtain the necessary application forms and program information from this office. A student receiving veteran benefits must have attendance certified with the Veterans Administration for each term of enrollment.

*Developmental Classes Mandatory Attendance Policy
The following developmental courses (GENS095, GENS097, GENS098, MATH100, MATH101) have a mandatory course attendance policy. Students who have more absences than the number of times the course meets per week will be administratively withdrawn from the course. Administrative withdrawal can occur at any point during the academic semester. Students should be aware that enrollment of less than full-time (12 hrs.) status could have ramifications for such items as financial aid, health insurance eligibility, etc. Students who are required to miss class for official University events must acquire instructor approval before the scheduled absence.

During the course withdraw / evaluation period, students who are failing the course at the time of the administrative withdrawal will receive the grade of F or NP.

Students retain the right of appeal for decisions that result in their administrative withdrawal from the course. Students are entitled to remain enrolled in the course during the appeal process until a decision has been made.
Emphasis at the University is on learning, including the learning which continues beyond the classroom and laboratory. A wide variety of organizations and activities, plus numerous cultural opportunities, contribute to the total education of a student. More than 90 student organizations provide co-curricular and extra-curricular activities and represent a wide range of interests, including academic/professional organizations, programming, political, religious, multicultural, special interest, service, Greek letter organizations (sororities and fraternities), honor societies, student government, and music and drama groups.

Counseling Center
The Counseling Center offers personal counseling, substance abuse services, and academic/career counseling. The goal of counseling services is to help students function more effectively in the educational environment by assisting in overall personal development. Aspects of this development include facilitation of emotional growth, improvement of interpersonal skills, adjustment to college life, and exploration of options to aid in the resolution of personal issues. Interventions range from personal counseling, peer counseling, and assessment services, to referral to community support groups and agencies and periodic presentations and workshops.

Students may call the Counseling Center at 812/464-1867 or stop by the office in the Orr Center Room 1051 to make an appointment. All counseling relationships are confidential.

Dining Facilities
The University dining facilities are operated by Sodexho Services. Dining options are offered in Burger King, Pete's Arena, and Sub Connection on the main floor of the University Center and The Loft, on the upper level of the University Center. In addition, Sodexho operates a convenience store, Eagle Express, located near the O'Daniel Apartments. Catering services are available for meetings, programs, and events. For additional information on meal plans, catering services, or employment opportunities, contact the food service office, UC 019, or call 812/464-1859.

Disability Resources
Disability resources are offered through the Counseling Center to help students overcome or compensate for obstacles related to a physical, emotional, or learning disability. Some of the resources available to students include reader/taping service, test accommodations, referral to the Academic Skills Center/peer tutoring labs, sign language interpreter services, note-taker supplies, resource literature, and referral to community agencies. Staff assist faculty by distributing information through group educational presentations and individual consultations, and by coordinating with other offices to ensure provision of reasonable and appropriate accommodations to students with disabilities.

For example, the University ensures that sign language interpreter services will be provided at no cost to hearing-impaired students who require this service in order to benefit from and participate in their educational program.

To facilitate the availability of staff and funds, students must register to use the disability resources in the Counseling Center, Orr Center Room 1051, at least 60 days prior to date needed, and must provide professional documentation of need. TTY/TTD 812/465-7072.

Evening Student Services
To accommodate evening students, the offices of Admission, Student Development Programs, Student Financial Assistance, Registrar, and Career Services and Placement offer evening hours when classes are in session during fall and spring semesters. Contact the individual office for hours of operation. Students who need to see specific faculty or staff members during evening hours should make appointments to do so.

International Programs and Services
The primary mission of the Office of International Programs and Services is to enhance the international dimensions of the University and to facilitate opportunities for all students to acquire skills necessary to succeed in a global society. The IPS Office is responsible for international recruitment and retention and the delivery of information, services, and programs designed to meet the unique needs of international students and scholars. The IPS Office also is responsible for the development and administration of USI study abroad programs in 50 countries. International Programs and Services organizes weekly events for the Global Community Program in Ruston Hall and works closely with the International Club and other organizations on campus to provide activities and programs designed to increase international awareness, acceptance, and understanding of peoples and cultures from all corners of the globe.

Intramural Recreational Sports Program
The Intramural Recreational Sports program complements the academic goals of the University by encouraging the physical, emotional, and social growth of students. The staff offers more than 50 programs that include intramurals, special events, and outdoor adventure activities.
which are suitable for all students regardless of physical capabilities. The Intramural Recreational Sports staff can be reached in room 204 in the Recreation and Fitness Center or by calling 812/464-1904.

The University of Southern Indiana’s Multicultural Center enhances the personal and academic success of students by preparing them to be responsible citizens in a multicultural society.

The goals of the center are to:
• foster and provide a warm, welcoming, supportive, and inclusive environment for diverse populations at USI.
• encourage, promote, and assist the academic and social integration of underrepresented students into the University through programs and services offered by the Center and through partnerships with other campus entities.
• create opportunities for cultural interaction between students, the campus and the community at large to promote cultural awareness and sensitivity.
• provide outreach opportunities to underrepresented groups and underserved communities to seek higher education.

Recreation and Fitness Center
The USI Recreation and Fitness Center is available to all currently enrolled students and full- and part-time employees. The Recreation and Fitness Center offers a variety of programs to meet student and employee needs through fitness consultations, personal training, facility orientations, group exercise classes, various health screenings and seminars, incentive programs, and other activities leading to a healthy lifestyle. For hours of operation or more information call 812/461-5268.

Religious Life
Religious Life offers a variety of services for students, faculty, and staff. Individual advising and guidance, religious direction, and worship opportunities are offered throughout the year. The Religious Life staff serves as a resource for information and offers opportunities for commuter and residential students to be actively involved in the life of the University community. There are many student religious groups on campus, and students are encouraged to join a group that can assist them in their personal growth. In addition, the staff assists in connecting students with local faith communities while they are away from their home faith families. Contact Religious Life by phone at 812/464-1871 or 812/465-7095, by e-mail at choehn@usi.edu, or visit the Religious Life Web site at www.usi.edu/ministry/index.asp. Religious Life is located at 8115A O’Daniel Lane.

Residence Life
The Department of Residence Life is proud to house approximately 3,200 students who live, study, and work in this dynamic community. Residence Life is committed to supporting and enhancing the educational mission of USI by providing programs, services, staffing, and facilities that support academic success. Students live in quality facilities, including one- and two-bedroom furnished apartments with full-size kitchens, as well as two-bedroom, two-bath residence hall suites. Apartments for students 21 years of age or older, married students, and single-parent families are available at the Golden Tower Apartments located approximately four miles east of the main campus.

Residence Life facilities also provide several amenities, including
• full-size kitchens or kitchenettes
• basic expanded cable service
• local phone service
• Internet access
• computer labs
• fully-furnished apartments and suites
• shuttle service
• air conditioning
• laundry facilities
• a convenience store
• all utilities
• on-site security
• 24 hour on-site staff supervision.

Living Learning Community programs also are available in Residence Life. Currently, Residence Life co-coordinates seven Living Learning communities, all of which are housed in Ruston Hall. Each Living-Learning community is developed around a common academic discipline or interest area. The seven Living-Learning communities require a separate application, and are as follows:
• Honors House
• Global Community House
• Business House
• First Year Initiatives House
• Nursing and Health Professions House
• Science and Engineering House
• Elementary Education House

Contact the Residence Life Office via telephone at 812/468-2000 for details, via e-mail at living@usi.edu, or visit the Residence Life Web site at www.usi.edu/res.
Student Development Programs
(Student Organizations, O’Daniel Leadership Academy, Panhellenic Council, Inter-fraternity Council, Inter-Greek Programming Council, Activities Programming Board and First Year Initiatives)
The Office of Student Development Programs fosters an active and comprehensive campus life experience through the coordination and advisement of over 90 student organizations in the areas of program planning and organizational development. Staff members assist students in getting involved in campus events and organizations and provide support and guidance to the Greek governing organizations, individual Greek chapters, and affiliated organizations through advising, leadership development, program planning and organizational development.

Student Development provides opportunities for students through the O’Daniel Leadership Academy, a comprehensive leadership program. The academy includes Executive Board Retreat, Leadership USI, and Corporate Leadership Conference.

In addition, this department assists students in making the transition to the University through the development and coordination of new, transfer, and nontraditional student orientation programs, including the spring and summer advising and registration program, the fall welcome weekend, and the First Year Initiatives Program. First Year Initiatives is a set of programs and services available to all new students. This program was designed to assist freshmen achieve success in college.

Student Development is located in the lower level of the University Center and can be reached at 812/465-7167 or visit the Web site at www.usi.edu/sdv.

The O’Daniel Leadership Academy helps develop tomorrow’s leaders—today! Based on the philosophy that people will be called upon to be leaders at some point in their life, USI created the Joseph E. O’Daniel Leadership Academy. It is designed to enhance the personal and professional skills long associated with leaders: initiative and motivation, goal setting, communication, critical thinking, problem solving, self-confidence, teamwork, conflict management, and self-assessment.

Ultimately, a student will develop and refine a personal leadership philosophy which can be a guide long after college. The Leadership Academy challenges and empowers students to become aware of their leadership skills and helps them feel confident in their ability to lead and make changes. For more information about academy programs or to register for programs, visit the Web site at www.usi.edu/leadership.

The First Year Initiatives program helps students become successfully integrated into the USI culture and student body, develop the skills and drive necessary to excel in their college courses, recognize their responsibility and potential to give something of value to their community, know that they are a valued member of the campus community, and achieve a greater sense of their potential. In order to achieve these goals, staff members provide a variety of services and programs, including calling new students during their first semester, serving as the point of contact for new students and their parents, sponsoring a living-learning community, and providing educational programs.

The Panhellenic Council is the local governing body of women’s social fraternities at USI. It oversees recruitment, scholarship, service, and philanthropic activities.

The Inter-fraternity Council is the governing body of men’s social fraternities. It oversees rush, scholarship, service, and philanthropic activities.

The Inter-Greek Programming Council (IGPC) organizes all Greek and campus-wide programming events, such as Presentation Ball, Greek Week, and educational programs.

The Activities Programming Board (APB), composed of six major committees, is responsible for programming student activities for the campus community. Coffee houses, films, lectures, concerts, fall formal, Chill Out, and Homecoming are just a few events coordinated by APB. For more information on APB’s activities or how to become a member, visit the Web site at www.usi.edu/apb.asp.

The Student Government Association (SGA) is committed to continuous improvement of higher education within the University by protecting student rights and providing a forum for the expression of student views and interests. The organization maintains relationships between students, the University, and the community. SGA is made up of three branches—executive, legislative, and judicial. The executive officers and legislators are elected annually by the students through a general election as determined by the SGA bylaws. University Court justices are appointed by the SGA president as determined by available seats through graduation, resignation, impeachment, or attrition. The General Assembly
is the formal business meeting of the USI Student Government Association, where all three branches of the organization meet. All students, by virtue of their registration at the University of Southern Indiana, are members of SGA and are encouraged to attend General Assembly meetings. For more information, call the SGA office at 464-1873 or see the Web site at www.usi.edu/sga.

Student Health Center
The USI Student Health Center, in cooperation with Deaconess Hospital, serves the USI student population. Health care services are available on a per-visit charge, which can be patient due or billed to insurance. The Office Visit Plan (OVP) also is available. For an enrollment fee each semester, students are entitled to unlimited office visits. Services include, but are not limited to, acute care, minor care, immunizations, injections (including flu and allergy shots), prescriptions, laboratory testing, contraception counseling and referral, and STD diagnosis and treatment. Students may enroll in the plan at any time during the academic year. For enrollment information, contact the Student Health Center at 812/465-1250. Students who voluntarily enroll in the Office Visit Plan are automatically re-enrolled and billed each semester they are continuously enrolled at USI.

Students who live in University housing are automatically enrolled in the plan. The enrollment fee is included in the bill for tuition and fees each semester the student is continually enrolled at USI.

Students who have voluntarily enrolled in the OVP may request to be removed from the plan by submitting a request in writing to the Student Health Center by the end of the fourth week of fall or spring semester classes. Deadline dates for requests to drop the OVP can be found online at www.usi.edu/stl/health/ovp.asp. The Student Health Center is located in HP091 in the lower level of the Health Professions Building.

Student Wellness
The Student Wellness Office offers a variety of programs and services in an effort to inform, support, and train the student body on issues related to health and wellness, promoting a framework for informed decisions related to disease prevention, quality of life, and lifestyles. Student Wellness information racks and pamphlets on health-related topics are conveniently located on campus. The racks have slots for suggestions and questions. The office oversees Archibald Eagle’s Food Closet, an emergency food supply for the USI community. The food closet is located in the lower level of the University Center and can be accessed by calling 812/464-1862. The Student Wellness Office is located in the Recreation and Fitness Center, room 204. The telephone number is 812/464-1807.

WSWI, a non-commercial radio station, is owned and operated by the University. Found at 820 on the AM dial, its format is college rock, as well as news and sports. Students from all disciplines are welcome to be a part of WSWI’s programming. Positions are available for disc jockey, news writing and reporting, sports broadcasting, marketing, promotion, and underwriting. The station’s signal is carried on channel 12 in student housing and on the Internet at www.usi.edu/wswi/.

Student Publications provide opportunities for students who wish to become involved in some phase of campus publications as writers, designers, photographers, and sales staff. The student newspaper, The Shield, is published weekly. Interested students are encouraged to contribute to the success of The Shield. Students from all disciplines are welcome.
Family Educational Rights and Privacy Act

Notice of student rights
The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student’s education records within 45 days of the day the University receives a request for access.
   — Students should submit to the registrar, dean, head of the academic department, or other appropriate official written requests that identify the record(s) they wish to inspect. The University official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes are inaccurate or misleading.
   — Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.
   — One exception which permits disclosure without consent is disclosure to school officials with legitimate educational interests. A school official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the University to comply with the requirements of FERPA.

Directory Information
The following information may be made available to the public unless a student restricts its release by written notice. Information restriction request forms are available in the Office of the Registrar.

Annual University telephone directory—The following information may be published by the University: name, local address, telephone number, and e-mail address – unless a USI Telephone Directory Restriction Request form is filed with the Office of the Registrar during the first three weeks of each fall semester.

General requests for student information—When appropriate, the following information also may be made public by the University through printed programs, news releases of awards, etc.: date and place of birth, home address, marital status, majors and minors, degrees, awards received, dates of attendance, most recent educational institution attended, names of parents, participation in officially-recognized activities or sports, weight and height of members of athletic teams, classification, and enrollment status. An Information Release Restriction Request form can be submitted 1) to be effective for only the single term specified; or 2) to remain in place until requested in writing that the restriction be lifted.

The submission of a student’s Social Security number is voluntary. The University will not use the number, if supplied, for purposes other than routine record-keeping and institutional statistics, without a student’s written permission.

General Behavior of Students
The University of Southern Indiana is charged by the State of Indiana with the responsibility for the development and administration of institutional policies and rules governing the role of students and their behavior. Student Rights and Responsibilities: A Code of Student Behavior contains statements of those University regulations and policies relevant to the academic and co-curricular experience.
The University community is not a sanctuary from the law, and all students of the University are subject to federal, state, and local law. Student Rights and Responsibilities: A Code of Student Behavior, published in this bulletin, forms the basis for student behavioral expectations in the USI community and the greater community at large. The standards of conduct apply to students while on University-owned or -controlled property, when attending University-sponsored events off campus, or when such conduct involves the security or integrity of the University community.

In addition, the University is a forum for the free expression of ideas. The development and enforcement of these standards of behavior is designed to foster students’ personal, social, and ethical development. These standards serve to promote the protection of the rights, responsibilities, and health and safety of the USI community, so that its members may pursue educational goals. See Section 1.0 Purpose and Application of Student Rights and Responsibilities: A Code of Student Behavior.

**Falsification or Misuse of Records**
Falsification or misuse of records and/or misrepresentation of facts on University forms and documents – application forms, data sheets, ID cards, fee receipts – may result in disciplinary action and/or cancellation of registration. See Section 2.16 of Student Rights and Responsibilities: A Code of Student Behavior.

**Student Academic Honesty**
Academic dishonesty, including plagiarism, cheating, submitting another person’s material as one’s own, or doing work for which another person will receive credit will subject a student to disciplinary action which may include dismissal from the University.

The benchmarks of any great university are high academic standards for both faculty and students. For this reason, truth and honesty are necessary to a university community. The University expects both students and faculty to adhere to these principles and to foster them daily. Put simply, this expectation requires each student to do his or her academic work without recourse to unauthorized means of any kind. Both students and faculty are expected to report instances of academic dishonesty. Faculty should explain the special hazards regarding academic honesty in their discipline. Faculty also should plan and supervise academic work carefully so honest effort will be encouraged.

Definitions of academic dishonesty also apply to the use of electronic, photographic, Internet-based, and other media for intellectual and artistic expression. See Section 3.0 of Student Rights and Responsibilities: A Code of Student Behavior for academic dishonesty definitions and sanctions.

**Policy on Alcoholic Beverages and Illegal Drugs**
The University of Southern Indiana prohibits the illegal manufacture, possession, use, and/or distribution of drugs and alcohol by students, employees, and visitors on University-owned or leased property or as a part of any University activity as that term is defined by the University.

The University expects the cooperation and commitment of all students and employees in maintaining an environment free of illicit drugs and illegal use of alcohol. Students and other campus constituents are deemed to be adults responsible for their own behavior and are expected to obey the law and University rules regarding drugs and alcohol. For more information on University alcohol policies, see Section 2.1 of Student Rights and Responsibilities: A Code of Student Behavior.

The dean of students is charged with the development and administration of the University of Southern Indiana student judicial process. Under the supervision of the dean of students, the following individuals will be charged with the execution of judicial proceedings:

- Assistant Director for Judicial Affairs – Residence Life
- Director of Residence Life
- Director of Student Development Programs
- Additional staff members in the University community as deemed appropriate and as trained by the dean of students

The aforementioned individuals may conduct meetings and hearings with students who may have violated any University policy, including those found in Student Rights and Responsibilities: A Code of Student Behavior, USI University housing community standards (Appendix B of Student Rights and Responsibilities: A Code of Student Behavior), and USI student organization policies (Appendix C of Student Rights and Responsibilities: A Code of Student Behavior).

Campus policy on drug and alcohol abuse is monitored by the Substance Abuse Advisory Committee comprised of administrators, faculty, staff, and students who recommend policy changes as needed.
Explosives, Weapons, and Fireworks
The President of the United States in October of 1970 signed into law a crime control bill which makes campus bombings a federal crime. The law allows “the full force of the FBI” to move in to investigate bombing attacks instead of waiting for a request from University authorities. The law also makes it a federal offense to transmit false bomb threats and restricts the sale and possession of explosives. Possession, use, or sale of explosives, fireworks, and firearms (or other lethal weapons) by a student on any University property is prohibited. A student who violates regulations regarding explosives, weapons, and fireworks is subject to disciplinary action by the University. This action may be taken in addition to any civil action. (See Section 2.11 of Student Rights and Responsibilities: A Code of Student Behavior.)

Policy on Sales and Solicitations
No canvassing, peddling, soliciting, distributing, or posting of any written or printed material by non-University individuals or organizations is permitted on the grounds or in the buildings or on equipment or networks owned/operated by the University without the written permission of the president. Such solicitations that are prohibited include the use of electronic mail and Web page solicitations. Any activity in violation of this policy should be reported to the Office of the President.

Students and employees are not permitted to solicit, canvass, or peddle any items, distribute or post any unauthorized material within the buildings or through equipment or networks owned/operated by the University or on the grounds of the University without the written permission of the president or designate. Such solicitations that are prohibited include the use of electronic mail and Web page solicitations. Any activity that violates this policy should be reported to the Office of the President.

Approved solicitations include the annual United Way campaign and various Foundation and University solicitations. Other activities may be approved for projects and/or programs that are of direct interest and value to the University. Students and employees may donate as generously as they wish, as the University does not imply any obligation on the part of the individual to contribute. Contributions to charitable and welfare programs and activities are entirely matters of individual discretion.

Sales and solicitations are permitted by officially-registered campus organizations only if they are for the general benefit of the University and/or the community and have received authorization of the president or a designate. Application for approval for sales and solicitations events (including athletic events and events held in Residence Life areas) may be initiated with the Student Scheduler. Generally, sales and solicitations are limited to three days in a 30-day period and not more than twice a semester. Authorization to sell on campus does not constitute an endorsement by the University of either the product sold or the service rendered. The University of Southern Indiana and the USI Foundation do not recognize fund-raising efforts using games of chance, such as raffles, door prizes, half-pots, or bingos as methods for raising charitable funds. Neither the University nor the USI Foundation is a qualified organization licensed by the Indiana Department of Revenue, Charity Gaming Division, to conduct such activities. Student groups and University support groups are encouraged to solicit funds in other ways. For information, contact the director of Development.

Sales and soliciting groups or individuals are expected to adhere to the following regulations:

- The use of sound equipment (tv, stereo, amplifiers, public address system) is restricted; permission to use such must be obtained from Scheduling Services.
- Groups must display a printed sign no smaller than 18" x 24" signifying the name of the organization hosting the sale or solicitation.
- For-profit entities must have a retail sales permit available at the scheduled activity.
- A currently-enrolled student representing the sponsoring group or organization must be present at all times.
- Groups or individuals must have written confirmation for the scheduled event available at the scheduled event.

Space in the University Center may be reserved by a registered student organization. The University Center may be used by registered student organizations for conducting campus-wide elections, distributing literature relating to student organizations, recruiting membership for student organizations, and activities, sales, and solicitations.

Failure to comply with the above policy will result in referral to the appropriate disciplinary process and could result in the loss of solicitation privileges. (See Section 2.25 and Appendix C of Student Rights and Responsibilities: A Code of Student Behavior for more information on student organization policies.)
Motor Vehicle Policy
Commuter students and residents of Newman, Governors, Ruston, and O’Bannon residence halls have non-restricted parking in USI’s campus lots on a first-come, first-served basis. Campus lots have few restrictions, and those areas with restrictions have them posted.

Commuter students are requested to register their vehicle with the University Safety and Security Department. You may register your vehicle at the Safety and Security Office located north of the Liberal Arts Center, or online at www.usi.edu/security/vehiclereg.

Campus Apartments Residents: Residents of O’Daniel North, O’Daniel South, McDonald East, McDonald West, and Golden Tower Apartments must register with the University Safety and Security Department any vehicle that will be parked in University apartment parking areas. A color-coded decal will be issued for each vehicle and must be properly displayed. Vehicles without parking decals are required to park in designated visitor parking areas only. With the exception of Golden Tower residents, University apartment residents are not allowed to park in campus lots between 6 a.m. and 3 p.m. on days when classes are in session.

Disabled persons may use designated parking spaces by displaying a state-issued disabled license plate/placard or a USI disabled parking hangtag. Student applications for USI temporary disabled parking hang-tags are available at the Counseling Center in the Orr Center.

Lost or stolen parking decals should be reported immediately to the Safety and Security Department at 812/464-1845. There is a $10 replacement fee.

Identification Card for Students
A student identification card (called the Eagle Access Card) is provided to each student. Cards can be obtained from the Eagle Access Card Office located in the University Center. A fee of $10 will be charged a student who makes application to replace an Eagle Access Card.

It is against University regulations for any person to alter in any way the information contained on the Eagle Access Card, or to allow the card to be used by another person (whether a student or not). This card must be carried with the student at all times and must be shown upon request. An Eagle Access Card is required for admission to athletic events, participation in intramurals, admission to the USI Recreation and Fitness Center, and to check out materials from Rice Library.

A student who misuses and/or alters an Eagle Access Card, or who fails to present the card at the request of a University official, is subject to disciplinary action. (See Section 2.15 of Student Rights and Responsibilities: A Code of Student Behavior.) More information on the Eagle Access Card can be found at http://www.usi.edu/book/-studevel/eaccess.asp.

IMMUNIZATION NOTICE
All students entering the University and/or living in Residence Life must meet the immunization requirements of the University and Indiana Code 20-12-71 enacted by the 2002 Indiana General Assembly.

To comply with requirements, you must provide current documentation of the following immunizations:

- two measles, one mumps, and one rubella (2 MMR vaccines acceptable; first MMR must be given after 1967 and not before first birthday), or a physician’s written statement of immunity to measles and mumps due to having had the infection. You may submit a blood titer as documentation of MMR immunity. The titer must show immunity to rubeola, rubella, and mumps. It must be signed by a physician and must show the name of the medical laboratory performing the titer. Students born before January 1, 1957, are exempt from the MMR requirement;
- tetanus/diphtheria (Td booster) within past 10 years – tetanus toxoid NOT ACCEPTABLE;
- tuberculin skin test (Mantoux only) prior to the start of the first semester at USI, no earlier than six months for American citizens and six weeks prior for international students. Must be administered and read in the United States by a registered nurse or physician within 48-72 hours. Must have the signature of the registered nurse or physician reading the results to be valid.

Beginning January 1, 2003, all students MUST read and sign the Meningococcal and Hepatitis B Risk Acknowledgement Form and return it with the Immunization Form in order to complete the file.

For further information contact the Student Immunization Office at 812/461-5285. The documentation must be mailed, delivered, or faxed to the USI Student Immunization Office prior to the start of the student’s first semester at USI. The office is located in the lower level of the Health Professions Center, room 0102. The Student Immunization Office fax number is 812/461-5284. More information and a downloadable immunization form can be found online at www.usi.edu/stl/imz/imm.asp.
Health Insurance Requirements for International Students

All international students (F-1 or J-1 visa holders and J-1 dependents) are required to have adequate health insurance while enrolled at the University of Southern Indiana. The University health insurance program offers comprehensive coverage designed for international students who will be billed approximately $900 for the cost of this program at the beginning of the academic year for coverage from August 1 to July 31.

The USI health insurance coverage may be waived if the student already has adequate health insurance. Students must provide an insurance certificate or other documentation in English, showing that health insurance meets the minimum requirements.

Minimum coverage must provide:
- medical benefits of at least $50,000 per accident or illness
- repatriation of remains in the amount of $7,500
- expenses associated with medical evacuation to student’s home country in the amount of $10,000
- a deductible (the amount you pay) not to exceed $500 per accident or illness
- coverage for August-July (for students beginning in fall) or January-July (for students beginning in spring)
- the insurance policy must be underwritten by an insurance corporation having an A.M. Best rating of A+ or above, or the endorsement of the student’s government.

Contact the director of International Programs and Services if you have any questions regarding this requirement.
The mission of the Honors Program at the University of Southern Indiana is to support the University’s continuing effort to improve the scholastic standing and educational opportunities for all University students and to encourage highly motivated students to reach their full potential in the classroom, the larger campus, and the wider community. The University recognizes and nurtures the unique and diverse talents and abilities of all of its students as they attempt to realize their full potential. The Honors Program is designed to offer expanded opportunities for those students who show promise of outstanding academic achievement. Participation in the program exposes students to a wider range of intellectual and academic experience, provides enriching extracurricular activities, promotes rewarding interaction between students and Honors faculty, and gives students the opportunity to form lasting friendships with other students committed to academic excellence. As a result of their special college experience, Honors students have a distinct advantage in their future pursuits, whether they go on to graduate or professional school or go directly into their chosen professions. The designation of University Honors Scholar is awarded to those students who successfully complete the Honors curriculum, a distinction which is noted on both the diploma and the official transcript.

The Honors curriculum serves to supplement and enrich the student’s overall experience within any of the University’s major fields of study. To this end, students in the program grow through special classes that stress the interrelatedness of knowledge; skill in oral and written communication of ideas; and methods and techniques for the analysis, synthesis, and evaluation of information. Typically, Honors students will enroll in specially designated sections of courses taken either from the University Core Curriculum or from the student’s major, course work which allows students from any major to participate in the program. Students generally take one or two Honors courses in a given semester as part of their normal progress toward the baccalaureate degree. In addition, Honors classes are generally smaller in size, facilitating increased class participation and discussion.

Students who have earned an SAT score of at least 1200 or an ACT composite of at least 27 are eligible for automatic acceptance into the Honors Program. Other interested students are encouraged to apply. Evaluations of these students are made on the basis of cumulative grade point average, class rank, academic background, and extracurricular activities. Students who have completed a minimum of 15 credit hours at USI or elsewhere with a cumulative 3.25 grade-point average may apply as space permits.

To be recognized as a University Honors Scholar, students must complete their undergraduate work with a cumulative 3.25 grade point average or above and complete a minimum of 21 hours of Honors credit with grades of A or B – including a one-hour freshman Honors seminar and an Honors component to their University Core senior-level synthesis course, or an approved substitute.

Honors students have the added opportunity of living in the Honors living-learning community in the residence halls. Research shows that students participating in living-learning communities graduate with greater frequency, maintain higher GPAs, and report greater satisfaction with their college experience than do students as a whole. Residing in Honors housing, especially during the freshman year, also facilitates mentoring sponsored by the Honors Student Council.

The Honors Program provides students with assistance in identifying and applying for scholarships and awards. All students who become involved in the scholarship process benefit and significantly broaden their overall achievement, and those who do win one of these scholarships find it to be a rewarding and life-changing experience. Students also are encouraged to participate in international studies, field study, sponsored undergraduate research, and in the National Collegiate Honors Council (NCHC) Honors Semesters.
The University of Southern Indiana subscribes to the precepts and fundamental policies of the National Collegiate Athletic Association (NCAA). The University believes a well-conducted intercollegiate athletic program, based on sound educational principles and practices, is a proper part of its mission, and the educational welfare of participating student athletes is of primary concern.

The University of Southern Indiana is a member of the NCAA Division II and the Great Lakes Valley Conference (GLVC). Thirteen intercollegiate athletic teams participate in competition at the NCAA Division II level. There are seven women’s teams (basketball, cross country/track, golf, soccer, softball, tennis, and volleyball) and six men’s teams (baseball, basketball, cross country/track, golf, soccer, and tennis). The intercollegiate athletic program gives student athletes an opportunity to use their talents while pursuing their studies. Scholarships are available to student athletes in all 13 sports offered at USI.

Currently 13 other schools compete in the Great Lakes Valley Conference along with the University of Southern Indiana: Bellarmine University, Drury University, Kentucky Wesleyan College, Lewis University, Northern Kentucky University, Quincy University, Rockhurst University, Saint Joseph’s College, Southern Illinois University-Edwardsville, University of Indianapolis, University of Missouri-Rolla, University of Missouri-St. Louis, and University of Wisconsin-Parkside.

In 1995 the University of Southern Indiana won the NCAA Division II Men’s Basketball National Championship and was the national finalist in 1994 and 2004. The women’s team was the national finalist in 1997. Elly Rono won the 1997 NCAA II Cross Country National Championship, the 1998 5,000m indoor national title, and the 1998 10,000m outdoor national crown, while Heather Cooksey won the 2004 3,000m outdoor national championship.

In the conference, USI consistently challenges for the GLVC title, winning the 2003-04 All-Sports Trophy and Commissioner’s Cup. All 13 varsity sports sponsored at USI also have won the conference championship and/or made an NCAA Tournament appearance since 1990.

In addition to its excellence on the field and playing court, USI has excelled in the classroom. Since 1993, USI student athletes have earned 16 Academic All-America awards and have an overall average GPA of 3.0.

The University abides by the guidelines of Title IX regulations, thus providing equity in men’s and women’s sports. Financial support for athletics is derived from admission fees, student fees, advertising, and contributions from the Varsity Club, business and industry, and individuals.
The University Core Curriculum is that portion of academic work required of all degree-seeking students, regardless of academic major or minor. Students pursuing bachelor's degrees must complete the entire program. Students pursuing associate degrees must complete approximately half of the program; specific requirements will be determined in conjunction with the departments offering the degrees.

Through the University Core Curriculum, USI seeks to encourage in all students the desire and ability to achieve personal growth and contribute meaningfully to society. The University Core Curriculum involves non-specialized, non-vocational learning that views students first as human beings, equipping them to harness their full intellectual, aesthetic, emotional, and physical resources to improve their lives and the lives of those around them. The program is based on the premise that students must know themselves and their world before they can become responsive and responsible leaders. It assumes that students need to think clearly, speak and write well, live according to consistent ideals, understand public issues, and use knowledge wisely.

To fulfill these needs, the University Core Curriculum exposes students to various ways of knowing and invites them to analyze the great ideas and achievements of humanity. Students can acquire an appreciation of their place in the continuum of life by studying not only their own world, but also that of the past, of other cultures, and of nature. They can escape from narrow perspectives and values, and actively participate in shaping their lives, society, and environment.

A student's major area of specialized study and the University Core Curriculum complement each other. The former provides knowledge that distinguishes us from one another in our diverse walks of life; the latter provides knowledge and abilities that all educated people share. By joining the two, the University can accomplish its primary mission of preparing students to live wisely.

Since the University Core Curriculum has a diversity of aims, no single course addresses all of them. But two goals that do pervade the entire program are critical thinking and information processing.

Critical thinking is defined as “the ability to analyze and critically evaluate information.” Students who complete the University Core should learn to analyze information presented in numerical, written, spoken, and visual formats. They should develop higher-order cognitive skills such as interpreting, synthesizing, applying, illustrating, inferring, comparing-contrasting, distinguishing the central from the peripheral, and predicting. They should learn to differentiate opinion, theory, and fact, and should be able to define problems and identify solutions.

Information processing is defined as “the ability to locate, gather, and process information.” Students who complete the Core should also know how to perform basic research tasks involving primary and secondary sources, including laboratory and field experiences. They should learn to retrieve and organize information stored in diverse formats, and use the computer to extend their ability to process information.

A. The Mind:
   Enhancement of Cognitive Abilities (12-13 hours)

A1. Composition/Speech  9 hours
   Eng 101
   Eng 201
   Spch 101 or 107

A2. Mathematics  3-4 hours
   Proficiency exam administered by Math Department
   or Math 108, 111, 115, 118, 122, 204, 215, 230

B. The Self:
   Enhancement of Individual Development (8 hours)

B1. Ethics  3 hours
   Eng 222
   HP 456
   Phil 200, 201, 363

B2. The Arts  3 hours
   Art 201, 353, 354, Eng 105, 255, 265, 285, 286, 302,
   330, 382, 383, Mus 202, Spch 203, Thtr 101

B3. Health/Fitness  2 hours (see Note 1)
   Ped 186 or 281 or Biol 176 or Nutr376 or Ot310
   AND One Ped Activities Course (100-level) or Ped 295

C. The World:
   Enhancement of Cultural and Natural Awareness (26-27 hours)

C1. History  3 hours
   Hist 101, 102, 111, 112, 130, 140

C2. Individual Development/  6 hours
Social Behavior
Anth 101, 261
Econ 175, 208, 209
Educ 302
Eng 330
Gndr 111
Pols 101, 102
Psy 201
Soc 121, 221, 225, 231, 235, 251, 261

C3. Science (L = lab course) 8-9 hours (at least one lab)
Astr 201(L)
Bio 105(L), 111 or 112(L), 121 AND 122(L), 141 (L),
151(L), 152(L), 176, 208(L), 251, 282, 285
Chem 103 OR 107(L), 141(L), 175 (L), 261(L), 262(L)
Geog 112, 215
Geol 101, 115, 131, 132, 161(L), 162(L), 234
Met 321
Phys 101, 175(L), 176(L), 205(L), 206(L), 207, 208

C4. Western Culture 6 hours
One Humanities course from each row following:
Hum 211, 221, 231, 241
Hum 212, 222, 232, 242
OR
German, French, Latin, or Spanish 203 AND 204

C5. Global Communities 3 hours
Anth 251, 255, 262, Art 253, Biol 251, Econ 241,
Eng 231, 386, Foreign Language 102, Geog 330, Hist
365, HP 435, 492, Inst 213, Pols 271, Spch 317

D. The Synthesis: Integration and Application of Knowledge (3 hours)
Biol 481, Chem seminar/research sequence, CS 483,
Dthy 401, Educ 433, 438, 448, 458, Gens 498, Geol
481, HP 498, Liba 497, Mngt 452, Math 492, Nurs

491

TOTAL MINIMUM REQUIRED HOURS: 50

NOTES:
1. Some courses may carry more credit hours than those required for a given category.
2. Students may use up to six hours of applicable course work from their major disciplines for appropriate University Core credit, provided the courses in question appear on the University Core list.
3. Students may use the same course to fulfill more than one University Core requirement as long as their total UCC program adds up to at least 50 hours. Additional courses to meet the 50-hour minimum may be selected from any University Core category.
4. Associate degree programs include approximately one half of the 50-hour University Core requirement for the baccalaureate degree. Specific requirements for the associate degree programs appear under the description for each program in this bulletin.
Graduate Degree Programs
The University has authorization to confer the following graduate degrees: Master of Arts in Liberal Studies, Master of Business Administration, Master of Health Administration, Master of Public Administration, Master of Science in Education, Master of Science in Industrial Management, Master of Science in Accountancy, Master of Science in Nursing, Master of Science in Occupational Therapy, and Master of Social Work.

Graduate Academic Fields

College of Business
- Accountancy • Business Administration

Bower-Suhreinrich College of Education and Human Services
- Elementary Education • Secondary Education
- Social Work

College of Liberal Arts
- Liberal Studies • Public Administration

College of Nursing and Health Professions
- Acute Care Nurse Practitioner • Clinical Nurse Specialist • Family Nurse Practitioner • Geriatrics Nurse Practitioner/Clinical Nurse Specialist • Health Administration • Nursing Education • Nursing Management and Leadership • Occupational Therapy

Pott College of Science and Engineering
- Industrial Management

Post-Baccalaureate Certificate Programs

College of Business
- Computer Information Systems • Professional Accountancy

College of Nursing and Health Professions
- Health Professions Education • Health Professions Management

Undergraduate Degree Programs
The University has authorization to confer these undergraduate degrees: Bachelor of Arts, Bachelor of General Studies, Bachelor of Science, Bachelor of Science in Engineering, Bachelor of Science in Nursing, Bachelor of Social Work, Associate of Arts, Associate of Science, and Associate of Science in Nursing.

Baccalaureate Majors

College of Business
- Accounting • Applied Computer Science • Business Administration (students may concentrate in the following areas of interest: Accounting, Computer Information Systems, Entrepreneurship/Small Business, Finance/Economics, Management, Marketing, or Office Information Systems) • Business Education
- Computer Information Systems • Economics
- Finance • Management • Marketing

Bower-Suhreinrich College of Education and Human Services
- Early Childhood Education • Elementary Education (includes Coaching, Computers, Junior High/Middle School, and Kindergarten endorsements) • Exercise Science • Physical Education • Senior High/Junior High/Middle School Education (grades 5-12) - certification is available for most majors • Social Work • Special Education

Division of Extended Services
- General Studies

  Social Work
  Theatre

Associate Degrees

College of Business
  • Business • Computer Information Systems

Bower-Suhreinrich College of Education and Human Services
  • Early Childhood Education

College of Liberal Arts
  • Social Science

College of Nursing and Health Professions
  • Dental Assisting • Dental Hygiene • Nursing
  • Occupational Therapy Assistant • Radiologic Technology • Respiratory Therapy

Pre-Professional Curricula
  • Pre-Chiropractic • Pre-Dentistry • Pre-Forestry
  • Pre-Law • Pre-Medical Technology • Pre-Medicine
  • Pre-Optometry • Pre-Osteopathy • Pre-Pharmacy • Pre-Physician Assistant • Pre-Physical Therapy • Pre-Podiatry • Pre-Veterinary

Additional information concerning the various academic programs may be obtained from the Office of Admission or from each of the academic schools.
The College of Business offers bachelor degree programs in the following business majors: accounting and professional services, business administration, business education, computer information systems, finance, management, and marketing. The major in economics leading to the Bachelor of Arts degree or Bachelor of Science degree is conferred by the College of Liberal Arts. However, faculty and staff in the Department of Economics in the College of Business handle all student advising and administrative matters. The major in applied computer science is not a business program, but is administered by the College of Business, which confers this Bachelor of Science degree.

The College of Business undergraduate academic programs are designed to assist students in understanding and developing leadership qualities required by an environment where workforce and market diversity, innovation through technology, ethical behavior, and understanding global issues have become increasingly important. Each program provides the student with the background to participate effectively in business and other organizations, which require a high degree of leadership, communication, and decision-making skills. The programs also provide the undergraduate education required for admission to graduate study in professional fields such as business, economics, law, public administration, urban planning, hospital administration, and business teacher education.

The undergraduate business programs offered by the College of Business include four interrelated phases of course work: (1) University Core Curriculum requirements designed to provide learning which should be the common experience of all educated men and women and which builds communication and critical thinking skills necessary for success; (2) Business Core requirements to provide an understanding of all business disciplines in the context of the society in which businesses operate; (3) Business major requirements which provide for a degree of specialization in the student’s area of interest; and (4) elective courses chosen from either business or other academic areas to broaden the student's perspective and educational background. Business and economics courses are open to all students in the University who have the required prerequisites. However, students who are not business majors are limited to no more than 31 hours of business courses, excluding economics.

The economics major establishes a core of knowledge in intermediate economic theory and statistics. The student then may specialize by selecting course work in such areas as money and banking, taxation and government finance, international economics, labor economics, economic development, or government policies toward business.

The applied computer science program is designed to prepare graduates for software engineering and system development positions in businesses and scientific organizations. The program is offered with two options: a business option, designed to meet the software development needs of businesses, and a technical option, designed to meet the needs for scientific programmers and civil service requirements for computer scientists.

College of Business Advisement and Graduation Requirements
Meeting graduation requirements is each student’s responsibility. Each student who is a candidate for a degree must meet the general requirements of the University (see General Requirements for Graduation). In addition, students pursuing a major or minor offered by the College of Business must fulfill the specific program requirements as stated in the following sections.
Upon entry into a business or economics major program, each student is assigned to a faculty advisor who approves the student’s proposed program of courses each semester. Assigned faculty advisors are changed when a student changes the major program of study. Other advisory changes may be made with consent of the student, the faculty advisor, and the dean of the College of Business.

The College of Business major and minor program requirements are revised periodically. The revised requirements are published on updated Business Program check sheets available from the College of Business office. Students may choose to meet all of the stated requirements of a later revised program in effect at the date of graduation.

Students who change their major program of study to another major within the school must meet all the requirements of the new major. The dean of the College of Business must approve petitions for permission for exceptions to any program requirement. After entry into a College of Business major or minor program, courses for transfer of credits may be taken at other institutions or campuses only upon prior approval of the dean.

Transfer-Credit Policy
Courses in advanced business and economics subjects, not open to freshmen and sophomores, which have been taken in other institutions in the freshman and sophomore years will not be accepted as equivalents of the courses offered at the University unless the student passes College of Business special examinations in such subjects. Credit from non-collegiate organizations is not acceptable for application to meet business or economics course requirements of the College of Business programs. In some cases the experience from these programs may provide the basis for applying for a special credit examination (see Credit Examinations).

Business Degree Requirements
All bachelor candidates must successfully complete a minimum total of 124 credit hours. A minimum of 50 percent (62 hours) must be taken in courses offered outside the College of Business; however, Economics 208, 209, and 241 are applied toward meeting this 62-hour minimum requirement. All students majoring in accounting and professional services, business administration, computer information systems, finance, management, marketing, and business education enroll in from 55 to 62 hours of business courses which are divided into three segments, 31 credit hours in core requirements taken by all business majors, major field requirements totaling 24 to 33 hours, and elective courses. Business majors wishing to complete a second major must complete a minimum of 12 additional hours in the second major. Transfer students must complete at least one-half of business course work required for graduation in residence.

Business students must achieve a grade point average of at least 2.2 in the first 62 hours of course work to enroll in upper division business courses. Business students must achieve a grade point average of at least 2.0 in all required business course work to be eligible for graduation.

University Core Curriculum Requirements
50 credit hours

All majors must complete a minimum of 50 credit hours in the University Core Curriculum.

Required University Core Curriculum Courses
Composition/Speech 9 hours
English 101
English 201
Speech 101
Mathematics 3-4 hours
Mathematics 111 or higher level math course
Individual Development and Social Behavior 6 hours
Economics 208 and 209
Global Communities 3 hours
Economics 241
Synthesis 3 hours
Management 452
Ethics 3 hours
Arts 3 hours
Health and Fitness 2 hours
History 3 hours
Science 8-9 hours
Western Culture 6 hours

Critical thinking and information processing are overall goals, which pervade the entire UCC. (For specific courses to satisfy these requirements, refer to the University Core Curriculum.)
College of Business majors must complete specific courses in mathematics, social behavior, global communities, and synthesis to provide the necessary background in analytical tools and behavioral sciences upon which the advanced study of management is based.

The following courses should be completed during the freshman and sophomore years:

<table>
<thead>
<tr>
<th>Course</th>
<th>Hours</th>
</tr>
</thead>
<tbody>
<tr>
<td>MATH 215</td>
<td>3</td>
</tr>
<tr>
<td>ECON 208</td>
<td>3</td>

<tr>
<td>ECON 209</td>
<td>3</td>
</tr>
<tr>
<td>ECON 241</td>
<td>3</td>
</tr>
<tr>
<td>PSY 201</td>
<td>3</td>
</tr>
</tbody>
</table>

Psychology 201 is not required of majors in Business Education. These courses also satisfy University Core requirements.

**Core Requirements for all Business Majors**

**31 credit hours**

The following required core courses provide breadth in a college education for business and a foundation for specialization in a major:

- CIS 151 Computer Applications in Business 3 (1)
- CIS 261 Advanced Microcomputer Applications 3 (2)
- ACCT 201 Accounting Principles I 3
- ACCT 202 Accounting Principles II 3
- ASBE 231 Business Communications 3
- BLAW 263 Legal Environment of Business 3
- ECON 265 Elementary Statistics 3
- FIN 305 Business Finance 3
- MNGT 305 Principles of Management 3
- MKTG 305 Principles of Marketing 3
- ASBE 401 Business Career Planning and Professional Development 1
- MNGT 452 Policy Formulation and Implementation 3

(MNGT 452 satisfies the University Core requirement for synthesis.)

**Core Total** 31

(1) Required of Business Administration, Management, and Marketing majors

(2) Required of Accounting and Professional Services, Business Education, Computer Information Systems, and Finance majors

**Business Major Requirements**

**24-33 credit hours**

Specific upper-division course requirements for the various business major programs are listed in the following sections. These upper-level major course requirements should be completed during the junior and senior years.

**Accounting and Professional Services**

Career opportunities in accounting include public accounting (certified public accounting firm), industry (industrial and commercial enterprise), not-for-profit organizations, government, and, after graduate education, college or university faculties.

Accountants in public practice provide audit, tax, or management advisory services. Success in passing the Certified Public Accountant (CPA) examination is necessary for advancement in public accounting. A variety of services are performed by public accountants including (1) auditing (attesting to the fairness of financial statements), (2) computer consulting, (3) tax return preparation, (4) tax and financial planning, and (5) carrying out financial investigations in cases of fraud, insolvency, or disputes.

Accountants in industry make up a substantial portion of the profession. They perform a variety of services for making financial and managerial decisions by businesses such as manufacturers, retailers, service companies, and financial institutions. Governmental and not-for-profit accounting, a growth accounting field, includes positions with federal, state and local governments, hospitals, universities, and charitable organizations. Government agencies employ a large number of accountants, some of whom audit records of private businesses, not-for-profit organizations, or individuals subject to government regulation. Accountants in industry may also be certified as Certified Management Accountants (CMA).

Accounting graduates often continue their formal education by pursuing advanced technical or professional degrees such as a master's degree in accountancy, a master's degree in business administration, or a law degree. A doctorate in accounting usually leads to a university faculty career.

CPA candidates must earn a minimum of 150 credit hours of college/university course work to sit for the CPA exam in Indiana. Graduates with an undergraduate accounting major may satisfy this requirement through the Master of Science in Accountancy (MSA) degree program at USI. Graduates with an undergraduate degree in a non-accounting field may satisfy the CPA exam requirement through the Post-Baccalaureate Certificate in Professional Accountancy (PBCPA) program at USI.

Those who wish to engage in public accounting practice in Indiana as certified public accountants should familiarize themselves with the rules and regulations issued by the Indiana State Board of Public Accountancy.
State Office Building, Indianapolis, Indiana 46204. Students planning to practice outside of Indiana should consult the CPA board of the appropriate state.

**Major**

59 credit hours (28 hours accounting and business plus 31 hours of business core)

**Total hours: 28**

Electives, 12 hours. At least six hours of electives must be in non-business courses.

**Business Administration**

The business administration major is designed to prepare students for careers in business management. The major provides broad coverage of the technical, interpersonal, conceptual, and analytical skills necessary to specialize in a particular area of interest such as accounting, computer information systems, E-Business, entrepreneurship/small business, finance and economics, international business, management, or marketing.

The USI undergraduate program is designed to prepare students for first-line supervisory positions in profit or not-for-profit organizations, private sector or public sector. Graduates typically will take positions in financial management, marketing management, operations management, or general management. The business world is constantly changing; the business program prepares students with the knowledge and skills necessary to succeed in the face of this challenge.

Business Education Teacher Certification
Students desiring to prepare for a career in teaching business subjects in grades 6–12 may complete a business education major program offered by the College of Business in cooperation with the Bower-Suhrheinrich College of Education and Human Services. The business education major is accredited by the Indiana Professional Standards Board and the National Council for the Accreditation of Teacher Education, www.in.gov/psb.

The graduate of the business education major degree program is eligible to teach the following courses according to the law of the State of Indiana:

Accounting
Business and Personal Law
Business Foundations
Business Management
Business Mathematics/Personal Finance

In addition to completion of the course requirements for the business teacher concentration, all students must (1) comply with the procedures and regulations of the Bower-Suhrheinrich College of Education and Human Services related to admission; (2) take and pass all three sections of the PRAXIS I as either a freshman or first-semester sophomore; (3) complete 55 class credit hours by the end of their sophomore year or the first semester of their junior year; (4) have a grade point average (GPA) of 2.75 overall and a GPA of 2.75 within the College of Business; (5) Pass the PRAXIS II – Business Education (10100) test during the senior year; and (6) participate in student teaching. (See the Bower-Suhrheinrich College of Education and Human Services section of the bulletin for further information.)

University Core Requirements for All Business Education Majors
50 credit hours
All students must complete a minimum of 50 credit hours in the University Core Curriculum program. Students enrolled in the business education certification program must work closely with the assigned faculty advisor when selecting required courses to ensure meeting admission requirements of the Bower-Suhrheinrich College of Education and Human Services.

Professional Education Courses Required for All Business Education Majors
36 credit hours
See the Bower-Suhrheinrich College of Education and Human Services section of the bulletin for listing of required professional education courses.

NOTE: Administrative Systems/Business Education (ASBE) 397, Methods of Teaching Business Education, 3 hours, and ASBE 393, Methods of Teaching Computer Courses, 3 hours, must be completed; these courses are offered every other semester. Students must consult with the coordinator of the Business Education Program in order to determine when they must take these courses.
Business Education Major Concentration

Vocational Business Education
(Career/Technical Education) Endorsement - 9 hours

The candidate for the vocational business education (CTE) endorsement must hold the business education license and complete the following course work.

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ASBE 471/571</td>
<td>Principles and Philosophy of Vocational Education 3 hours</td>

<td>In-School Laboratory Programs in Vocational Education 3 hours</td>
</tr>
<tr>
<td>ASBE 498/598</td>
<td>Techniques of Coordinating Cooperative Education Programs 3 hours</td>
</tr>
</tbody>
</table>

In addition to the preceding course work, the candidate for this endorsement must have completed two (2) years of full-time teaching experience and 1,500 clock hours of successful business/office-related employment. Students may begin to work on the course requirements as an undergraduate in the Business Teacher Education Program; however, those students will not receive this endorsement to their license until all legal requirements established by the State Licensure Board have been met. Coverage: The holder of the vocational business endorsement is eligible to teach state-approved vocational subjects in business education, organize and manage an intensive office laboratory and/or in-school business laboratory, coordinate a cooperative program with students from all office occupational areas, and coordinate an interdisciplinary cooperative education program.

Computer Information Systems

The computer information systems (CIS) major is designed to prepare individuals to develop and support information systems using computers in a business or organizational environment. The Association for Information Technology Professionals (AITP) model curriculum is used as the primary curriculum guide for this program.

The primary objective of the computer information systems major is to provide graduates with knowledge, abilities, and attitudes to function effectively as applications programmer/analysts, and with the educational background and desire to pursue lifelong professional development.

Major

64 credit hours (33 hours of computer information systems and computer science plus 31 hours of business core)

One semester of a programming language

Electives, seven hours. At least six hours of electives must be in non-business courses.

Finance

Finance is the study of wealth creation and money management. Topics include fund raising, resource allocation, liquidity concerns, and risk assessment. Finance majors are furnished with a curriculum that provides a solid understanding of financial markets and institutions. They also are schooled in quantitative techniques and decision-making skills. Graduates with a major in finance will be equipped to solve a wide range of financial problems and possess the ability to understand and evaluate financial matters.

The finance major is designed to prepare graduates for careers in a variety of financial fields including banking, consumer finance, insurance, investments, and real estate.
Major

55 credit hours (24 hours of major courses and 31 hours of business core)

Required Courses 12
FIN 343 International Finance 3
FIN 361 Financial Institutions 3
or
ECON 361 Money and Banking 3
FIN 433 Principles of Investments 3
FIN 461 Financial Management 3

Elective Courses (12 hours, six hours of which must be FIN courses, to be selected in consultation with advisor):
FIN 335 Entrepreneurial Finance 3
FIN 341 Risk and Insurance 3
FIN 345 Real Estate Principles 3
FIN 355 E-Business Security, Controls 3
FIN 481 Seminar in Finance 3
MKTG 313 Services Marketing 3
ACCT 303 Intermediate Accounting 3
ACCT 311 Introduction to Federal Income Taxation 3
ECON 308 Intermediate Microeconomic Theory 3
ECON 309 Intermediate Macroeconomic Theory 3
ECON 331 Public Finance 3
ECON 365 Intermediate Statistics 3
CIS 315 Management Information Systems 3
DSCI 351 Introduction to Operations Research 3

Electives, 16 hours. At least six hours must be in non-business courses.

Management

The management major is designed to prepare students for careers as managers in for-profit or not-for-profit organizations, private sector or public sector. Managers set the goals of their organizations and decide how best to achieve them. They direct activities and allocate financial, physical, and information resources. They lead members of the organization to work together, and they monitor progress toward achieving the organization's goals. The management major provides broad coverage of the technical, interpersonal, conceptual, and analytical skills necessary to specialize in a particular concentration such as human resource management or change/innovation management.

Major

55 credit hours (24 hours of major courses and 31 hours of business core)

Required Courses 15
CIS 315 Management Information Systems 3
MNGT 315 Management of Organizational Behavior 3
DSCI 351 Introduction to Operations Research 3
MNGT 443 International Business 3
MNGT 445 Operations Management 3

Concentrations (9 hours) Selected from one of the following:

Human Resource Management
MNGT 341 Human Resource Management 3
MNGT 408 Collective Bargaining and Industrial Relations 3
MNGT 441 Wage and Salary Administration 3

Management Change and Innovation
MNGT 361 Business Environmental Factors 3
MNGT 443 Organization Theory and Design 3
MNGT 446 Principles of Quality Management 3

Electives, 16 hours. At least six hours must be in non-business courses.

Marketing

The marketing major is designed to provide students with sufficient knowledge and skills to work in a variety of areas. Employment opportunities for marketing majors include, but are not limited to, sales, retailing, customer service, and marketing research.

Major

55 credit hours (24 hours of major courses and 31 hours of business core)

Required Courses 12
MKTG 332 Consumer Behavior 3
MKTG 438 Marketing Research 3
MKTG 448 Marketing Management 3
MKTG 471 International Marketing 3

Elective Courses (12 hours)
MKTG 313 Services Marketing 3
MKTG 334 Promotional Strategy 3
MKTG 342 Business and Industrial Marketing 3
MKTG 344 Professional Selling and Sales Management 3
MKTG 444 Sales Management 3
MKTG 355 Interactive Marketing 3
MKTG 447 Retailing Policy and Management 3
MKTG 475 Seminar in Contemporary Marketing Problems 3

Electives, 16 hours. At least six hours must be in non-business courses.

Non-business majors: Economics and applied computer science are offered in the College of Business but are not business majors. Students enrolled in these programs do not take the business core.

Economics

The study of economics prepares students to use the tools of analytical reasoning in the discussion of the basic problems of modern societies. Issues such as business cycles, affluence, poverty, inflation, unemployment, efficiency, equity, and growth, are presented and discussed within the framework of existing institutions of the advanced and underdeveloped worlds. Major and minor programs in economics are designed to prepare students for careers in law, private business, and government and
to provide a solid foundation for graduate work in business and the social sciences. The curriculum offers a balanced blending of analytical reasoning, critical discussion of current problems, and quantitative methods.

Students interested in economics may elect a major program leading to the Bachelor of Arts or Bachelor of Science degree or options combining teaching certification and a Bachelor of Science degree. Students majoring in economics receive their degrees from the College of Liberal Arts. The minor in economics is an excellent complement to a major in business, humanities, and the physical and social sciences. Students majoring in business need only three additional economics courses to get a minor in economics.

Economics majors must complete Mathematics 215, Survey of Calculus, or a higher-level mathematics course as a part of their University Core Curriculum requirements. However, they do not have to meet the Business Core requirements. MATH 111 must be successfully completed before enrolling in ECON 208 or ECON 209.

### Major

33-34 credit hours

<table>

</tbody>
</table>

Electives: 15 hours of upper-level economics courses as directed by advisor.

### Applied Computer Science

The applied computer science program is designed to prepare graduates for software engineering and program and system development positions in businesses and scientific organizations. It will also prepare students for graduate study in computer science. The program will develop in the graduates an understanding of algorithms, data structures, artificial intelligence, computer organization and architecture, numerical computation, operating systems, programming language theory, and software engineering. The program is offered with two options: a business option, designed to meet the software development needs of businesses, and a technical option, designed to meet the needs for scientific programmers and civil service requirements for computer scientists.

### Major

65-66 credit hours

General Electives (11 hours) 39 hours of 300/400 level courses are required for graduation.

### College of Business Minors

Academic minor programs may be completed in accounting, business administration (the business administration minor is available for non-business majors only), computer information systems, computer science, economics, finance, and marketing. College of Business majors who elect to complete minors will typically have to take more than the 124 hours required for a degree to complete requirements for a major and a minor. All prerequisite
courses must be completed before enrollment in any upper-level business or economics course; any exceptions must receive prior approval from the dean of the College of Business.

Minor – Accounting
22 credit hours
Courses required of accounting minor:

Minor – Business Administration
For Non-College of Business Majors Only
18 credit hours
Courses required of business administration minor:

Minor – Computer Information Systems
18 credit hours
Courses required of computer information systems minor:

Minor – Finance
18 credit hours
Courses required of the finance minor are FIN 305 Business Finance, 3 hrs.; FIN 361 Financial Institutions or ECON 361 Money and Banking, 3 hrs.; and FIN 433 Principles of Investment.

Minor – Management
18 credit hours
Courses required for a Management Minor are ECON 175, Fundamentals of Economics (or ECON 208 or 209), 3 hrs.; MNGT 201, Introduction to Management (or MNGT 305), 3 hrs.; MNGT 201, Introduction to Marketing (or MKTG 305), 3 hrs.

Minor – Marketing
18 credit hours
Courses required of the marketing minor are ECON 175 Fundamentals of Economics (or ECON 208 or ECON 209), 3 hrs.; MKTG 201 Introduction to Marketing (or MKTG 305), 3 hrs.; and MNGT 201 Survey of Management (or MNGT 305), 3 hrs.

Three additional courses must be chosen from MKTG 313 Services Marketing, 3 hrs.; MKTG 332 Consumer Behavior, 3 hrs.; MKTG 334 Promotional Strategy, 3 hrs.; MKTG 342 Business and Industrial Marketing, 3 hrs.; MKTG 344 Professional Selling and Sales Management, 3 hrs.; MKTG 355 Interactive Marketing, 3 hrs.; MKTG 447 Retailing Policy and Management, 3 hrs.; MKTG 461 Seminar in Integrated Marketing Communications, 3 hrs.; or MKTG 471 International Marketing, 3 hrs.

Minor – Applied Computer Science
18 credit hours
The minor in applied computer science is designed to complement majors in science, mathematics, and technology areas but is open to majors in any area. Courses in computer science do not satisfy University Core Curriculum requirements.
Required courses: CS 121 Introduction to Computer Systems, 3 hrs.; CS 201 Computer Science I, 3 hrs.; CS 301 Computer Science II 3 hrs.; and CS 379 Programming Languages, 3 hrs.

Elective courses (choose six hours from the following): Any CS 300-or 400-level course or any of: Math 437 Numerical Methods, 3 hrs.; CIS 375 Systems Analysis and Design, 3 hrs.; CIS 377 Introduction to Database Concepts, 3 hrs.; CIS 476 Introduction to Fourth Generation Languages, 3 hrs.; ENGR 241 Digital Logic, 3 hrs.; and ENGR 347 Microcomputer Engineering, 3 hrs.

Minor – Economics
18 credit hours
Business majors can earn a minor in economics with only three additional courses in economics, one of which must be an intermediate theory course.

Required Courses: ECON 208 Principles of Microeconomics, 3 hrs.; ECON 209 Principles of Macroeconomics, 3 hrs.; ECON 265 Elementary Statistics, 3 hrs.; ECON 308 Intermediate Microeconomic Theory, 3 hrs.; or ECON 309 Intermediate Macroeconomic Theory, 3 hrs. Electives: Six hours of upper-level (300-or 400-level) economics courses as directed by advisor.

Associate Degree Programs in Business
The College of Business offers two associate degree programs providing an opportunity for students to prepare themselves for productive employment in business occupations requiring less preparation and time than a traditional bachelor's degree program. The Associate of Science degrees in business or computer information systems may be completed in approximately one half the time required for achievement of a bachelor's degree.

Classes are available during both day and evening hours. Some of the credits earned in an associate degree program may be applied toward meeting bachelor's degree requirements in other programs offered by the College of Business.

Associate of Science in Business
64 credit hours
The Associate of Science degree program in business is an opportunity to gain an understanding of the functions of business as well as introductory courses in specific occupational areas in the following disciplines: accounting, administrative systems, business administration, data processing, finance, management, marketing, and administrative support systems. Course requirements are flexible enough to allow the design of a program of study tailored to fit the needs or job interests of each individual.

Required University Core Curriculum Courses
28 credit hours
English 101, 3 hrs.; English 201, 3 hrs.; Speech 101, 3 hrs.; Ethics or Western Culture electives, 6 hrs.; Arts or History elective, 3 hrs.; Mathematics 111, 4 hrs.; Science elective, 3 hrs.; Psychology 201, 3 hrs.

Required Business and Economics Courses
21 credit hours
ACCT 201 Accounting Principles I, 3 hrs.; ACCT 202 Accounting Principles II, 3 hrs.; ASBE 231 Business Communications (or English 210), 3 hrs.; BLAW 263 Legal Environment of Business, 3 hrs., CIS 151 Computer Applications in Business, 3 hrs.; ECON 208 Microeconomics, 3 hrs.; ECON 209 Macroeconomics, 3 hrs.

Required electives
Nine hours must be chosen from the following:
ASBE 123 Word Processing/Advanced Keyboarding, 3 hrs.; ASBE 261 Advanced Microcomputer Applications, 3 hrs.; *MNGT 141 Introduction to Business, 3 hrs.; ECON 265 Business Statistics (or MATH 241), 3 hrs.; CS 111 Introduction to Programming Logic, 3 hrs.; FIN 201 Fundamentals of Finance, 3 hrs. or FIN 305 Business Finance, 3 hrs.; * FIN 208 Personal Finance, 3 hrs.; ECON 241 Global Economic Issues, 3 hrs.; MNGT 201 Survey of Management, 3 hrs. or MNGT 305 Management of Organizational Behavior, 3 hrs.**; MKTG 201 Introduction to Marketing, 3 hrs. or MKTG 305 Principles of Marketing, 3 hrs.**

Free electives: Additional hours to meet minimum 64-hour associate degree requirement; selected by student in consultation with assigned faculty advisor.

*MNGT 141 is not open to students who have completed or are currently enrolled in three or more courses from the business and economics areas.

** Students must meet the prerequisites for these courses.

Associate of Science in Computer Information Systems
64 credit hours
The Associate of Science degree in computer information systems prepares students for the operation of information systems to support and reinforce the planning, controlling, reporting, and decision-making responsibilities of business firms and other organizations. The pro-
gram provides a sufficient degree of technical preparation to enable the graduate to function effectively in liaison within a sophisticated data processing center.

Graduates will be prepared for entry-level positions in either large or small firms. The graduates entering large firms most likely will begin as entry-level programmers or computer operators. The entry-level positions in small firms would be programmer/analyst/operator.

Course requirements will provide (1) an understanding of computer operating concepts with emphasis on a user's point of view; (2) a significant level of computer programming skill; (3) an understanding of the techniques for analysis of information needs and the design of information sub-systems; and (4) exposure to practical applications of the computer in providing useful information to management.

Required University Core Curriculum Courses
28 credit hours
English 101, 3 hrs.; English 201, 3 hrs.; Speech 101, 3 hrs.;
Ethics or Western Culture electives, 6 hrs.; Mathematics
III, 4 hrs.; Science elective, 3 hrs.; Economics 208 or
Economics 209, 3 hrs.; Psychology 201, 3 hrs.

Required Business and Computer Information Courses
30 credit hours
CS 111 Introduction to Programming Logic, 3 hrs.; CIS
151 Computer Applications in Business, 3 hrs.; ACCT
201 Accounting Principles I, 3 hrs.; ACCT 202
Accounting Principles II, 3 hrs.; ASBE 231 Business
Communications (or English 210), 3 hrs.; BLAW 263
Legal Environment of Business, 3 hrs.; ECON 265
Business Statistics (or MATH 241), 3 hrs.; CS 257
Introduction to RPG Programming, 3 hrs.; CIS 261
Advanced Microcomputer Applications, 3 hrs.; CS 276
COBOL Programming I, 3 hrs.

Required Computer Information Systems Electives
3 credit hours
One course must be chosen from the following:
CIS 315 Management Information Systems, 3 hrs.; CS
357 Advanced RPG Programming, 3 hrs.; CIS 367 Data
Communications, 3 hrs.; CIS 375 Systems Analysis and
Design, 3 hrs.; CS 376 COBOL Programming II, 3 hrs.;
CIS 377 Database Concepts, 3 hrs.

Free electives: Additional hours to meet minimum 64-
hour associate degree requirement; selected by student in
consultation with assigned faculty advisor.

Post-Baccalaureate Certificate in Professional Accountancy
49 credit hours
This program is designed for individuals who have earned a baccalaureate degree in a discipline other than accounting and who are seeking functional competency in the accounting field. The program is specifically related to the professional accounting area and should not, therefore, be considered as equivalent to the comprehensive business degree programs offered by USI. In combination with a previously earned baccalaureate degree, this program meets the academic eligibility criteria for admission to take the Indiana Certified Public Accounting examination.

The University of Southern Indiana has attained a reputation for excellence in accounting; its accounting graduates have achieved a competitive rate of success in passing the CPA examination. Local and national accounting firms, private industry, and governmental agencies recruit USI accounting graduates. The Certificate in Professional Accountancy program is a logical extension of that area of strength for individuals seeking a career transition into the field of accounting.

Admission Requirements - Candidates must apply to the University and gain regular admission as a special student and be accepted as a candidate for the Certificate Program by the College of Business Accounting Department.

Program Requirement - Certification candidates must fulfill the following specific requirements:

1. Forty-nine credit hours in business courses with a minimum of 24 credit hours in accounting courses plus 24 credit hours in business courses other than accounting courses. (Previously earned courses may be applied; however, not less than 24 credit hours must be completed in residence at USI)
2. Certificate students must maintain a minimum 3.0 GPA; a course grade below C is not applicable toward meeting certification requirements.
3. Under direction of an assigned program advisor, candidates will complete an individually approved curriculum based on the following outline:

ACCT 201, 202 Principles of Accounting 6
ACCT 203 Financial Accounting Laboratory 1
ACCT 303 Intermediate Accounting 3
ACCT 311 Intro. to Federal Income Taxation 3
ACCT 315 Cost Accounting I 3
ACCT 401 Advanced Accounting 3
ACCT 415 Auditing Theory and Practice 3
ACCT 602  Seminar in Financial Accounting  3
Business (non-accounting) Electives  24

TOTAL HOURS  49

4. Upon completion of the preceding program requirements, the candidate should apply for the certificate at the College of Business office.
5. Individuals who meet requirements of the State Board of Public Accountancy of Indiana are eligible to sit for the Uniform CPA Examination of Indiana. Those who wish to engage in public accounting should familiarize themselves with the rules and regulations issued by the Indiana State Board of Accountancy, 912 State Office Building, Indianapolis, Indiana 46204. Students planning to practice outside of Indiana should consult the CPA board of their state of residence.

Post-Baccalaureate Certification in Computer Information Systems
The post-baccalaureate certification programs in computer information systems will enable persons with a degree in another academic discipline to achieve a working competency in computer information systems. The advanced programs are appropriate for students who wish to gain a conceptual knowledge of information systems and the skills needed to become a programmer, systems analyst, or information manager. Successful achievement of the course work in the core program and an advanced program will prepare students to sit for the Certified Computer Professional Examination sponsored by the Institute for the Certification of Computer Professionals.

CS 111  Introduction to Programming Logic  3
CS 315  Management Information Systems  3
CS 367  Data Communications  3

Total Advanced Certificate Hours  9

Course Descriptions
Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

Accounting (ACCT prefix)
201 Accounting Principles I (3) A study of the principles of financial accounting and reporting as they relate to today's business environment. Both the procedures used and the concepts upon which they are based will be studied. Prereq: CIS 151 or CIS 261, MATH 111, and must have completed at least 24 credit hours. F, Sp, Su

202 Accounting Principles II (3) A study of managerial accounting information as it is used by managers in various types of business organizations. The emphasis is on the development, interpretation, and application of managerial accounting for planning activities, controlling operations, and making decisions. Prereq: ACCT 201. F, Sp, Su

315 Cost Accounting (3) The theory and practice of cost accounting with emphasis on its use for planning and control. Introduces the concepts of budgeting, standards, and profitability analysis. Prereq: ACCT 202 and 203 and junior standing. F, Sp, Su

355 E-Business Security, Controls (3) This course is designed to provide students with an understanding of the technical, managerial, legal, and ethical issues involved in the design, development, and use of e-business solutions, and the role of accounting in today's business environment. Students will learn the effects of control features built into software systems and understand the role of controls in enforcing company policy. Topics covered in the course will include Web server and client security, secure transactions and payments, system audits and “seals of approval,” information security, digital certificates, and practices, civil and criminal legal issues, digital signatures, and moral and ethical issues and standards. Appropriate cases will be used to illustrate the concepts and emphasize various topics. Prereq: ACCT 201 and 202, BLAW 263, CIS 315. Sp
401 Advanced Accounting (3) Provides theory and application of accounting principles to special accounting problems. Includes consolidations, segment and interim reporting, international accounting, fund accounting, and other special accounting problems. Prereq: ACCT 303 and senior standing. F, Sp

413 Accounting Information Systems (3) A study of computer-based accounting information systems and their role in contemporary business organizations. This includes accounting data flows, the tools of designing accounting information systems, the use of computer technology in processing accounting transactions, and knowledge of internal control structures in effective accounting information systems. Prereq: ACCT 303 and senior standing. F, Sp

415 Auditing Theory and Practice (3) The fundamental principles of auditing. Emphasis is placed on the scope of the audit, audit practices and procedures, and audit reports. Prereq: ACCT 303 and senior standing; F, Sp

416 Advanced Cost Accounting (3) A continuation of ACCT 315, the emphasis in this course is on cost allocation, joint products, transfer pricing, segment performance evaluation, accounting decision models using uncertainty, regression analysis, mix variances, linear programming and managerial accounting problems in the CPA and CMA examinations. Prereq: ACCT 315. F

490 Individual Study in Accounting (1-3) Repeatable for up to three hours. Research and reading in the student’s major area of interest. May be taken on an arranged basis upon approval of the College of Business dean and the instructor.

499 Accounting Professional Practice (1-3) A cooperative work-study program designed to: (1) provide undergraduate accounting students realistic work experience to improve the depth of understanding of the nature of American and international business; (2) develop student maturity and confidence to determine in which areas of business they should seek their professional careers; and (3) create a work situation where advanced business courses are made more meaningful as a result of the perspective that comes from such a professional experience. From one to three hours may be earned in an academic term, repeatable to a maximum of six credit hours applied as electives in a business bachelor’s degree program. Grades assigned as Satisfactory or Unsatisfactory only. Prereq: Students must be have completed or be enrolled in 63 credit hours of credit including the following courses: CIS 151, ACCT 201 and 202, ECON 265, ECON 208 and 209, ENG 201, and SPCH 101. Students must have a minimum overall GPA of 2.75 and minimum GPA of 2.75 in all business courses. Consent of the dean, director of Professional Practice Program, and appropriate department chairperson.

Administrative Systems/Business Education (ASBE prefix)

231 Business Communications (3) A detailed study of business communications. Includes analysis and practice in writing a variety of messages used to communicate in business and industry. Emphasizes the psycho-semantic aspects of effective organizational communication. Prereq: SPCH 101, CIS 151, ENG 201. F, Sp, Su

263 Legal Environment of Business (3) A study of business organizations and the legal system within which business organizations operate, as well as ethical considerations and social and political influences that affect such organizations. Prereq: sophmore standing. F, Sp, Su

291 Desktop Publishing and Web Design (3) Designed to acquaint students with the preparation and design of materials for desktop publishing and Web page, combining text processing with graphics. A hands-on instructional approach along with experience in processing and presentation graphics. Prereq: ASBE/CIS 261. Sp

393 Methods of Teaching Computer Courses (3) Objectives, planning, methods, materials, and devices for teaching computer applications. A hands-on approach to the use of the microcomputer in business education classes; use of business software; and analysis and design of programs for business education courses. Prereq: ASBE/CIS 261. Sp

397 Methods of Teaching Business Education (3) Emphasis on instructional methods and materials used in teaching business education subjects. Also includes class organization, equipment needs, standards and evaluation. Prereq: EDUC 214, ACCT 201, ACCT 202, ECON 208, ECON 209, and ECON 265 and junior standing. F

401 Business Career Planning and Professional Development (1) A lecture-discussion practicum class emphasizing identification of goals and processes of professional development through career planning. Related job-market issues of concern to senior business students also are addressed. Prereq: ASBE 231 and senior standing. F, Sp, Su

471 Principles and Philosophy of Vocational Education (3) Fundamental philosophy, principles, and objectives of vocational education related to the needs of the beginning vocational instructor. Consideration of the various service areas, including wage-earning and non-wage-earning vocational areas, as a foundation for career decisions for further study. Prereq: consent of instructor. Su

481 In-School Laboratory Programs in Vocational Education (3) Special techniques and knowledge needed to teach and manage in-school laboratory programs in vocational education. Consideration for the beginning or advanced vocational instructor as he/she operates within the LEA and business community. Prereq: on demand, ASBE 397 or equivalent.

490 Individual Study in Administrative Systems or Business Education (1-3) Repeatable for up to three hours. Research and reading in the student’s major area. May be taken on an arranged basis with approval of the College of Business dean and the instructor.

498 Techniques of Coordinating Cooperative Education (3) The coordination responsibilities of a cooperative vocational education coordinator in his/her relationships to the school, parents, students, advisory committees, business, industry, and government will be discussed. Practical operative techniques will be identified and applied. Prereq: consent of the instructor. Sp

Business Law (BLAW prefix)

263 Legal Environment of Business (3) An introduction to the legal system within which business organizations operate, as well as ethical considerations and social and political influences that affect such organizations by changing the legal system. Prereq: sophmore standing. F, Sp, Su

363 Law for the Entrepreneur (3) A study of those areas of the law having the greatest impact on a newly formed business enterprise. The course will introduce the legal issues involving the employment relationship, choice of business entity, government regulation, property law, and debtor/creditor law. Prereq: BLAW 263. F
Computer Information Systems (CIS prefix)

151 Computer Applications in Business (3) Survey of business computer applications emphasizing microcomputers and applications software packages to business. Included are applications with word processing, spreadsheets, file and database management systems, and other software packages used in business. F, Sp, Su

255 Introduction to E-Business (3) This introductory course in electronic business explores how the Internet has revolutionized the buying and selling of goods and services in the marketplace. Topics covered include: business-to-business and business-to-consumer electronic business, electronic business infrastructure, designing and managing online storefronts, payment acceptance and security issues, and the legal and ethical challenges of electronic business. Students will also gain hands-on experience in creating, editing, and enhancing a Web page using an HTML editor. Prereq: CIS 151 or CIS 261. F

261 Advanced Microcomputer Applications (3) A continuation of the development of microcomputer applications and problem-solving skills. Provides a basic review of the Windows interface and file management features; explores advanced spreadsheet and database concepts; and provides an introduction to presentation software, the Internet, and integration across word processing, spreadsheet, and database applications. Cross-listed as ASBE 261. Prereq: CIS 151 or equivalent. F, Sp, Su

315 Management Information Systems (3) An introduction to management information systems. Fundamental concepts of information are explained and integrated into organizational structures. Basic system modeling tools and techniques are introduced. The importance of the computer and information are emphasized. The use of information as an organizational resource is studied. The strategic use of information technology in an organization to gain a competitive advantage will be emphasized throughout the course. Prereq: CIS 151, ACCT 201 and 202*, ECON 208 and 209*, and junior standing. (Courses marked * may be taken concurrently with CIS 315.) F, Sp, Su

325 Markup Language Programming (3) A study of the code and tags necessary to prepare a file for viewing in a portable and mobile environment such as the Internet. It includes an in-depth study of a markup language such as XML. The markup language will be used to study the framework for creating a portable document or equivalent. Course includes hands-on exercise. Prereq: ASBE/CIS 261. Sp

367 Data Communications (3) This course is designed to give the student a thorough understanding of the existing use of data communication networks as well as future developments in the area of telecommunications. The course topics will include the basic hardware needed for a functioning network; basic technical concepts of data communications, the various types of network configurations, and circuits. Also needed will be network design techniques, protocols, software, network architecture, local area networks, network management, and security and control issues related to networks. Prereq: CIS 315 or for accounting majors, ACCT 203 and junior standing. F

375 Systems Analysis and Design (3) This course is an in-depth study of the business information system development life cycle, emphasizing the investigation, systems analysis, and logical design phases. Analysis and design techniques are presented which are used to develop computer-based systems. Analysis and design of a variety of business information systems are covered and CASE technology is introduced. Prereq: ACCT 201, CIS 315, junior standing. Accounting majors may substitute ACCT 203 for CIS 315. (A programming language is recommended.) Sp

377 Introduction to Database Concepts (3) Introduction to database theory. Discussion of data structures, indexed and direct file organizations, models of data including hierarchical, network, and relational. Discussion of data analysis, design, implementation, and database administrator functions. Application of database, data definition languages, data manipulation languages, and/or data manipulation through a host language. Cross-listed as CS 377. Prereq: a program language, e.g. COBOL, RPG, FORTRAN, etc. F

451 Organizational Support Systems (3) The objective of this course is to provide the student with an understanding of the concepts of decision support systems (DSS), group decision support systems (GDSS), executive information systems (EIS), and expert systems (ES). Emphasis will be placed on the integration of these technologies for the support of management decision-making. The student will study development and testing of DSS, GDSS, EIS, and ES as well as using applications software packages. The course work also includes analysis of real-world applications of these new technologies through case studies of specific organizations. Prereq: CIS 315. Sp

454 Managing Information Technology (3) An introduction to the financial, technical, and strategic information systems planning process. Emphasis is on the relationship of the information systems planning process to overall business goals, policies, plans, management style, and industry conditions. The selection of large system projects, assessment of a currently installed system, determining approaches to staffing, software, hardware, processing, and financing an information system are studied. Prereq: CIS 315. F

461 End-User Computing (3) This course emphasizes the growing importance of end-user computing in the workplace. The use of information systems as a catalyst for innovative problem-solving, the need for effective planning, and the use and management of information technologies at all levels of an organization are studied. Prereq: CIS 261. Sp

476 Introduction to Programming with Fourth Generation Languages (3) An introduction to programming with fourth generation languages, HTML, PERL, and JAVA. Information needs of the typical business will be examined, and ways of providing this information through the use of fourth generation languages will be explored. Selected fourth generation languages will be used to illustrate the necessary programming techniques to provide the desired information. Lab assignments will be used to master language and problem-solving skills. Prereq: CS 111. F

477 Applied Software Development Project (3) Application of computer programming and system development concepts, principles, and practices to a comprehensive system development project. A team approach is used to analyze, design, document, and implement realistic systems of moderate complexity. Use of project management methods, project scheduling and control techniques, formal presentations, and group dynamics in the solution of informal systems problems. Prereq: CIS 315, CIS 375, CIS 377, and an advanced programming language. Senior standing. Sp

487 Special Topics in CIS (3) Analysis and study of special topics in computer information systems. Focus is on new developments in information management, hardware and software, ethical issues, and other selected topics. Prereq: CIS 315 and senior standing. F

490 Individual Study in Computer Information Systems (1-3) Repeatable for up to three hours. Research and reading in the student's major area of interest. May be taken on an arranged basis upon approval of the College of Business dean and the instructor.
499 Computer Information Systems Professional Practice (3) A cooperative work-study program designed to: (1) provide undergraduate business students realistic work experience to improve the depth of understanding of the nature of American and international business; (2) develop student maturity and confidence to determine in which areas of business they should seek their professional careers; and (3) create a work situation where advanced business courses are made more meaningful as a result of the perspective that comes from such a professional experience. From one to three hours may be earned in an academic term, repeatable to a maximum of six credit hours applied as electives in a business bachelor's degree program. Grades assigned as Satisfactory or Unsatisfactory only. Prereq: students must have completed or be enrolled in 63 credit hours of credit including the following courses: CIS 151, ACCT 201 and 202, ECON 265, ECON 208 and 209, ENG 201, and SPCH 101. Students must have a minimum overall GPA of 2.75 and minimum GPA of 2.75 in all business courses. Consent of the dean, director of Professional Practice Program, and department chairperson.

Computer Science (CS prefix)

111 Introduction to Programming Logic (3) Introduction to structured data processing logic and fundamentals of computer programming. Topics include data processing terminology, flow charting, structured techniques, single and multiple input files, editing, sorting, one- and two-dimensional tables, interactive processing, and sequential and non-sequential files. F, Sp, Su

121 Introduction to Computer Systems (3) The course provides background in computer science. It includes topics in computing history, the social context of computing, past achievements, and current issues and challenges. Discussions include risks, liabilities, intellectual property, privacy, free speech and fair use, computer crime, professional and ethical responsibility, and social and economic impacts. The course presents the methods and tools of analysis and fundamental terminology and concepts, including, but not limited to, computer architecture, tools, logic, programming, networks, and data and database. F

201 Computer Science I (3) This course looks at computing as a human enterprise covering problem-solving techniques. Major emphasis is placed on structured and object-oriented programming techniques: data abstraction, selection, looping, and functions as well as elements of simple data structures: lists, arrays, and records. An overview of computer hardware, software, and applications will be covered. F, Sp

257 Introduction to RPG Programming (3) An introduction to the COBOL programming language as it applies to business data processing. A structured approach is used to demonstrate the use of the RPG language in generating management reports. The primary focus is on learning the basic RPG commands as they apply to the batch environment. The unique characteristics of RPG as a non-procedural computer programming language area are also examined. Prereq: CS 111 or equivalent. Sp

276 COBOL Programming I (3) An introduction to the COBOL programming language. A structured approach is used to demonstrate the use of COBOL language in managing corporate information. Includes structured design of programs, control break processing, debugging techniques, table processing, and sequential file processing. Prereq: CS 111 or equivalent. F

288 Microcomputer-Based Programming (Visual Basic) (3) An introduction to programming in the microcomputer environment. Online interactive techniques will be emphasized in the solution of common business problems. Visual Basic will be used to illustrate structured programming techniques. Lab assignments will be used to master syntax error correction as well as problem-solving skills. Prereq: CS 111 or equivalent. F

301 Computer Science II (3) Topics include principles of software engineering (programming concepts, debugging, and testing), string processing, internal searching and sorting, simple data structures, recursion, and object-oriented programming. Prereq: CS 201 F, Sp

321 Architecture of Digital Computers (3) An introduction to the internal structure of digital computers. The design of gates, flip-flops, registers, and memories to perform operations on numerical and other data represented in binary form. Sp

357 Advanced RPG Programming (3) An advanced study of the RPG language as it applies to business data processing. A structured approach is used to demonstrate the use of RPG language to update data files and manipulate display screens. Primary focus is on learning advanced RPG commands as they apply to the online environment. Use of the RPG language to manage the corporate database in the mini-computer environment is emphasized. Prereq: CS 257. Su

365 Operating Systems (3) The course includes the fundamental principles of operating systems, resource allocation and use by applications, device organization, interrupts, concurrency, user/system state, and protection. It develops each of these areas in greater depth: scheduling and dispatch, preemptive and non-preemptive scheduling, processes and threads, file systems, buffering, encryption, virtual memory, paging, swapping, security, protection, and related topics. Both Microsoft and Unix systems will be covered. Prereq: CS 201, CS 301, and CIS 315. F

376 COBOL Programming II (3) Sequential and random file processing, table handling, sorting, merging, sub-program, and error handling. Prereq: CS 276 or consent of instructor. Sp

377 Introduction to Database Concepts (3) Introduction to database theory. Discussion of data structures, indexed and direct file organizations, models of data including hierarchical, network, and relational. Discussion of data analysis, design, implementation, and database administrator functions. Application of database, data definition languages, data manipulation languages, and/or data manipulation through a host language. Cross-listed as CIS 377. Prereq: a program language, e.g. COBOL, RPG, FORTRAN, etc. F

379 Programming Languages (3) Introduction to formal study of syntax semantics and the logic of programming languages. Features of prominent languages will be examined. Prereq: CS 201 and CS 301. F

388 Advanced Microcomputer-Based Programming (Visual Basic) (3) Advanced programming techniques in the microcomputer environment. Windows, networking, and remote communications techniques will be explored. Visual Basic will be used to illustrate the necessary programming techniques to solve these problems. Lab assignments will be used to master language and problem-solving skills. Prereq: CS 288. Sp

411 Network Management and Security (3) This course provides an overview of network management and security. It covers topics in communication technologies, communication design, communication protocols, and communication system planning and development. It includes distributed computing, encryption technology, and collaboration technology. It will introduce security sites representing the state of the art in security. It will cover major security concerns of IP security, network security, security in distributed object systems, security in distributed systems, Web security, e-mail security, viruses, trojans and worms, firewalls, and denial of service. Hands-on assignments with system and firewall configuration. Prereq: CS 201, CS 301, CS 365, and CIS 375. F

437 Numerical Analysis (3) A survey of current methods in numerical analysis. Topics will include: polynomial approximation and inter-
483 Senior Software Development Project (3) This course applies computer programming and software engineering concepts, principles, and practices to a comprehensive system development project. A team approach is used to analyze the problem, and then specify, design, implement, test, validate, and deliver a software package that solves the problem. Teams will use software engineering techniques, project management techniques including milestones and formal presentations to create and test the package solution to the system problem. Prereq: CS 201, CS 301, CIS 315, CS 365, CIS 367, CIS 375, and CIS/CIS 377, Senior Standing. F

499 Projects in Computer Science (3) Advanced project in mathematics, business, or other area, done under supervision of instructor in area. Prereq: six hours upper-division computer science courses. Sp

Decision Sciences (DSCI prefix)

351 Introduction to Operations Research (3) This course introduces the student to the discipline of Operations Research/Management Science (OR/MS) so that he/she may appreciate, understand, and utilize the principal techniques of OR/MS in his/her organizational as well as personal decision-making. The course stresses the use of the scientific methodology in decision-making and problem-solving. Specific topics include decision theory, linear programming, the transportation problem, the assignment problem, network models, and queuing theory. Excel and other computer software are used throughout the course. Prereq: ECON 265, CIS 151, and MATH 215. F, Sp, Su

445 Operations Management (3) This course presents the basic fundamentals of managing operations. It covers issues in selecting, operating, controlling, and updating systems so that goods or services are produced on time, at minimum cost, and according to customer specifications. Topics include forecasting, capacity planning, facility location, inventory management, material requirements planning, Just-in-Time, and total quality management. Prereq: MNGT 305. F, Sp

490 Individual Study in Decision Sciences (1-3) Repeatable for up to three hours. Research and reading in the student's major area of interest. May be taken on an arranged basis upon approval of the College of Business dean and the instructor.

Economics (ECON prefix)

175 Fundamentals of Economics (3) An introduction to basic economic terms and concepts, such as scarcity, opportunity cost, trade, markets, prices, competition, unemployment, inflation, business cycles, and growth. Special emphasis is given to the application of these terms and concepts to choices which individuals face everyday and to current social problems. F, Sp

208 Principles of Microeconomics (3) An introductory analysis of individual decision-making in a market system. Topics include market price determination, the influence of prices and costs on consumer and producer behavior, and the importance of seller competition. Prereq: MATH 111 or its equivalent. F, Sp, Su

209 Principles of Macroeconomics (3) An introductory analysis of overall economic activity, including income, production, employment, and prices. Alternative theories of, and policies toward, economic stabilization and growth are examined. Prereq: MATH 111 or its equivalent. F, Sp, Su

241 Global Economic Issues (3) An introduction to the causes and consequences of the growing economic interdependence of nations. Emphasis is placed on how different people, cultures, institutions, and economies are affected by, and respond to, current global issues. Prereq: ECON 175 or 208 or 209 or consent of instructor. F, Sp, Su

265 Elementary Statistics (3) Presents mathematical, tabular, and graphical techniques for describing sets of data and for making inferences from the data. Uses business problems as a vehicle of presentation. Prereq: MATH 111 and CIS 151, F, Sp, Su

308 Intermediate Microeconomic Theory (3) Theory of price determination under various categories of competition. The function of prices with respect to resource allocation and income distribution. Prereq: ECON 208 and 209.

311 Government and Business (3) Socio-economic philosophy of regulation and control. Economic and legal issues and problems arising from non-competitive market conditions. Prereq: ECON 208 and 209.

331 Public Finance (3) Introduction to government finance. Study of public expenditures; debt management; various types of revenue including public domain, fees, special assessments, and taxes. Theories and principles of taxation. Prereq: ECON 208 and 209.

341 International Trade (3) The study of international trade theories, commercial policies, the movement of physical capital and labor between nations, and the economic effects of trade blocs. The course develops the theories in each of these areas and applies them to existing international economic relations. Prereq: ECON 208 and 209.

343 International Finance (3) The study of foreign exchange markets, exchange rate determination, balance of payments, international flow and management of financial assets and various risk exposures, and the operation and effectiveness of economic policy in an open economy. Cross-listed as FIN 343. Prereq: ECON 208, 209, and FIN 305, or consent of instructor.

346 Development Economics (3) Discussion of factors and theories related to the development of the Third World. Problems involved in the measurement and control of economic development. Case studies of Third World countries in the process of development. Prereq: ECON 208 and 209.

351 Labor Economics (3) An introductory course dealing with the economic problems of the wage earner in modern society; the structure, policies, and problems of labor organization and management; the process of collective bargaining; industrial relations law; wage theory and policy. Prereq: ECON 208 and 209.

353 Economics of Sports (3) An examination of the industry of sports using the tools and concepts of economic analysis. The topics to be addressed in professional and amateur sports include new stadiums and franchises, salary caps, unions, free agency, the NCAA, the existence of amateur status, and the impacts of monopoly and cartel behavior. Prereq: ECON 208.

361 Money and Banking (3) The nature and function of credit in the American economy; operation of commercial banks; purposes and functions of the Federal Reserve System, and the introduction to monetary theory. Prereq: ECON 208 and 209.
365 Intermediate Statistics for Business Decisions (3) Continued exploration of statistical techniques and methods at an upper level in areas of business applications. The analysis of large and complex data sets will be emphasized. Topical coverage includes multiple regression, ANOVA, time-series analysis, some multi-variate techniques, and non-parametric methods. Some computer analysis packages will be discussed and used. Prereq: ECON 265 or equivalent. Sp

453 The Economics of Health Care (3) The purpose of this course is to provide students with a basic understanding of economics as it applies to consumer, producer, and government behavior in health care markets. Emphasis will be placed on using these tools to analyze issues currently affecting the U.S. health care market and subsequently to make appropriate policy recommendations based on these analyses. Sp

461 History of Economic Thought (3) The development of economic thought into the present century. Emphasis on Smith, Malthus, Ricardo, Mill, Marx, Marshall, and Veblen. The literature is examined in relation to the social, political, and economic events of each period. Prereq: ECON 208 and 209. Sp

472 Econometrics (3) An introduction to econometric methods and their application to economic research; regression analysis, simple and multiple; correlation; least-square estimators, problems of error in variables, autocorrelation, multicolinearity, lagged and dummy variables; simultaneous equation, identification problems. Prereq: ECON 208, 209, and 265. F

480 The Digital Economy (3) This course will introduce students to economic principles relevant to the new digital economy brought about by the use of information technologies. The course will survey alternate views and new ideas of economists and other new economy experts. Concepts from micro and macroeconomics such as production, supply and demand, opportunity cost, returns to scale, elasticity, pricing, GDP, exports and imports, and comparative advantage will be important to understanding concepts such as the "weightless" economy, zero cost pricing, and differential pricing. The course also will use materials from the literature on entrepreneurship and international economics and development economics. Prereq: ECON 208 and 209. F

490 Individual Study in Economics (1-3) Repeatable for up to three hours. Research and reading in the student’s major area of interest. May be taken on an arranged basis upon approval of the College of Business dean and the instructor.

495 Special Topics in Economics (1-3) This course offers students the opportunity to study selected topics of current interest and importance in economics. These topics will vary according to the interests of students and faculty. Students may repeat the course up to three times, as the topic changes. Prereq: ECON 208 and 209 and consent of instructor. Sp

499 Senior Seminar in Economics (3) A seminar and research course in selected topics of current interest. Prereq: Senior standing, ECON 308 and 309.

Finance (FIN prefix)

201 Fundamentals of Finance (3) This course is designed to serve as an introduction to the field of business and personal finance. The course is geared to the specific interests of the associate degree candidates and non-business majors. Emphasis upon the source and use of funds in the area of finance. (Not open to College of Business majors in baccalaureate programs.) F

208 Personal Financial Management (3) The various business problems which arise in the life of the individual. Includes a study of such topics as money and credit, banking services, insurance, taxes, home ownership, and consumer protective agencies.

305 Business Finance (3) The methods utilized by corporations in securing and utilizing capital. Major topics of interest include capital budgeting, cost of capital, capital structure, and characteristics of alternative forms of capital. Prereq: ACCT 201, 202, ECON 265, ECON 208, 209, and MATH 215. F, Sp, Su

335 Entrepreneurial Finance (3) A course designed to provide critical financial knowledge and skills to those students who are interested in starting and running their own businesses. The course deals with such topics as fund-raising, cash management, budgeting, risk management, initial public offerings, and factoring. Prereq: FIN 305. Sp

341 Risk and Insurance (3) An introduction to the basic principles of, and the relationship between, risk and insurance. Emphasis is placed on the fundamentals of insurance as the major formal method for treating non-speculative risks. Prereq: FIN 305. F

343 International Finance (3) The study of foreign exchange markets, exchange rate determination, balance of payments, international flow and management of financial assets and various risk exposures, and the operation and effectiveness of economic policy in an open economy. Cross-listed as ECON 343. Prereq: ECON 208, 209, and FIN 305, or consent of instructor. Sp

345 Real Estate Principles (3) Principles of real estate. Emphasis is on location factors, market analysis, and basic problems in buying and selling real estate. Prereq: FIN 305. Sp

355 E-Business Security, Controls (3) This course will provide students with an overview of e-business finance and banking topics such as electronic payment technology, digital cash, electronic checks, online credit-card-based systems, electronic fund transfers, payment gateways, electronic purses, negotiable electronic instruments, mimipay, micropayments, provability of transactions, electronic bills of lading and letters of credit, point-of-sale transactions, secure electronic transactions (SET), data encryption techniques and standards, digital signatures, secure hypertext transport protocol (SHTTP), secure socket layer (SSL), allocation of risk among buyer/seller/bank/intermediaries, EDI, and other emerging electronic financial instruments. Prereq: CIS 255 and FIN 305. F

361 Financial Institutions (3) The institutional structure of the financial systems. Surveys both the public and private sectors of our money and credit economy. Emphasis is placed on understanding the impact of the commercial banking system, financial intermediaries, and public finance needs upon the conduct of business finance. Prereq: FIN 305. F

433 Principles of Investments (3) The essential qualities of good investments, the exchanges, and methods of trading stocks and bonds. Prereq: FIN 305. Sp

461 Financial Management (3) A comprehensive course that gives consideration to developing sound financial policies in the firm. The course will use cases to develop concepts in such areas as capital budgeting and capital structure. Class discussion and lectures are designed to introduce decision-making techniques relevant to financial management problem-solving. Prereq: FIN 305. F

481 Seminar in Finance (3) Investigation of significant topics in practice and theory in the areas of corporate financial management, money markets, investments, commercial banking, and financial institutions. Prereq: FIN 305. Sp
490 Individual Study in Finance (1-3) Repeatable for up to three hours. Research and reading in the student's major area of interest. May be taken on an arranged basis upon approval of the College of Business dean and the instructor.

Management (MNGT prefix)

141 Introduction to Business (3) A survey course to acquaint students with functions performed by business and the part business activities play in our economy as a whole. Designed to give familiarity with common business practices and terminology. This course is not open to students who have completed or are currently enrolled in three or more courses in business or economics. F, Sp

201 Survey of Management (3) A survey of the management process; emphasis upon management techniques and factors basic to various fields of business, industrial, and public organizations. This course is designed to apply the management process to the specific interests of all associate degree candidates and four-year non-business majors. (Not open to College of Business majors in baccalaureate programs.) Prereq: sophomore standing, PSY 201, or consent of instructor. F, Sp

305 Principles of Management (3) New Course Description: A study of the principles of management theory and practice in organizations, with emphasis placed on the challenges of management in a diverse and complex environment. Prereq: ACCT 201, 202*, ECON 208, 209*, PSY 201, and junior standing (Courses marked * may be taken concurrently with MNGT 305.) F, Sp, Su

315 Management of Organizational Behavior (3) New Course Description: A study of behavior of individuals and groups within organizations and of the organization itself. Intended to develop in managers a greater awareness of the problems and opportunities in managing human resources in organizations. Specific emphasis is placed on the development of managerial skills. Prereq: MNGT 201 or 305. F, Sp

341 Human Resource Management (3) The staff work required in planning and controlling the personnel functions in businesses and the personnel responsibilities of line executives. Emphasis is placed upon principles and procedures relative to selection, placement, training of employees, employees' services, morale, wages, and hours. Prereq: MNGT 201 or 305. F

354 Small Business and Entrepreneurship (3) This course involves an in-depth analysis of the new venture creation process. Development of a business plan will serve as the focal point of the course. Prereq: consent of instructor. F

355 Supply Chain Management (3) This course integrates two powerful trends that are critical management imperatives for the new millennium, supply chain management and electronic business. Students will learn how the principles of supply chain management integrate into the “real time” environment of electronic business and examine case studies of such implementations. Latest software and technology will be discussed and examples demonstrated on enterprise resource planning (ERP) systems. Prereq: CIS 255 and MNGT 305. Sp

361 Business Environmental Factors (3) An inquiry into the purposes, methods, institutions, results and philosophy of business and its relationship to the environment in which it functions. Prereq: MNGT 201 or 305 and MKTG 201 or 305. F

408 Collective Bargaining and Industrial Relations (3) A study of employer-union relationships, management and union organizations for collective bargaining, trade union structure and government, the government and collective agreements and the collective bargaining process. Prereq: MNGT 201 or 305. F

441 Wage and Salary Administration (3) A comprehensive study of wage and salary policies and techniques, including wage and salary level determination, job evaluation, employee evaluation, merit rating, methods of wage payments, fringe benefits, and controls. Prereq: MNGT 201 or 305. Sp

443 Organizational Theory and Design (3) This course involves the management challenge of designing organizational structure to facilitate effective performance and achieve competitive advantage given the evolving nature of organizational environments. Issues will include organizational innovation and change; technological change and organizational restructuring; global competition; organizational culture; employee involvement; participative management and team systems; total quality management; organizational control; communication; and conflict. Prereq: MNGT 305. MNGT 315 recommended. Sp

444 Managing Diversity in Organizations (3) A study of cultural perspectives and processes reflecting individual, work group, and organizational diversity in the workplace. Prereq: MNGT 201 or 305. Sp

446 Principles of Quality Management (3) This course will present those concepts of process management necessary for service and manufacturing organizations to establish a competitive advantage through quality improvement. Quality programs based on the Malcolm Baldridge Award and ISO 9000 are discussed. Case studies, tours, and guest speakers are employed in this course. Prereq: ECON 265 or equivalent and MNGT 305. F

452 Policy Formulation and Implementation (3) The capstone course utilizing all the major fields in business administration to allow the senior student to apply skills learned in these fields to situations dealing with the firm as a whole. The case study approach is used to encourage development of executive skills and to bridge the gap between the abstractions of college courses and the complexities of the business world. Prereq: MNGT 305, FIN 305, MKTG 305, and senior standing. F, Sp, Su

455 Small Business Consulting (3) Application of business principles to the operation of small business firms; includes emphasis on management functions, elements of the marketing mix, business practices, and problem solving. Students in teams of two to five are assigned as a counseling unit to a small business firm requesting management counseling. Prereq: MNGT 305, FIN 305, MKTG 305, senior standing, and consent of instructor. Sp

490 Individual Study in Management (1-3) Repeatable for up to three hours. Research and reading in the student’s major area of interest. May be taken on an arranged basis upon approval of the College of Business dean and the instructor.

499 Business Professional Practice (3) A cooperative work-study program designed to: (1) provide undergraduate business students realistic work experience to improve their understanding of the nature of American and international business; (2) develop student maturity and confidence to decide in which areas of business they should seek their professional careers; and (3) create a work situation where advanced business courses are made more meaningful as a result of the perspective gained from professional experience. From one to three hours may be earned in an
Marketing (MKTG prefix)

201 Introduction to Marketing (3) An introductory course designed to apply the marketing process to the specific interests of associate degree candidates and non-business majors. Emphasis upon retailing, personal selling, advertising, and marketing strategy. (Not open to College of Business majors in baccalaureate programs.) Prereq: PSY 201 and sophomore standing. F, Sp

305 Principles of Marketing (3) A general survey of the entire field of marketing. Attention is given to the management of the marketing efforts of the individual firm. Emphasis is on the role of the marketing environment, understanding markets and customers, and decision-making regarding products, pricing, distribution, and promotion. Prereq: ACCT 201 and 202*, ECON 208 and 209*, PSY 201, and junior standing. (Courses marked * may be taken concurrently with MKTG 305.) F, Sp, Su

313 Services Marketing (3) Emphasis is placed on the role of services in today's economy. The differences in marketing goods and the marketing of services is stressed. Strategy development for a wide variety of services including financial, medical, and entertainment is highlighted. Prereq: MKTG 201 or MKTG 305. F

332 Consumer Behavior (3) An interdisciplinary approach to the analysis and interpretation of consumer buying habits and motives, and the resultant purchase of goods and services. The purchaser's psychological, economic, and sociocultural actions and reactions are stressed. Prereq: MKTG 201 or MKTG 305. Sp

334 Promotional Strategy (3) An examination of the promotional techniques available to marketing management. Emphasis is given to market analysis and to the communication process providing the means by which products can be effectively promoted. The specific tools of personal selling, advertising, sales promotion, and publicity are examined as components of overall marketing strategy. Prereq: MKTG 201 or MKTG 305. F

342 Business and Industrial Marketing (3) An examination of the marketing function within organizations marketing goods and/or services to other organizations (rather than final consumers). Major emphasis on business buyer behavior and the business marketing environment as key factors shaping business marketing strategy development, planning, implementation, and control. Prereq: MKTG 201 or MKTG 305. Sp

344 Professional Selling and Sales Management (3) Study of the sales function in a marketing organization, development of techniques for making an effective sales presentation, and developing and maintaining account relationships. The course also will review major sales management functions including organization, allocation, recruitment, selection, training, motivation, compensation, and sales force evaluation and control. Prereq: MKTG 201 or MKTG 305. Sp

355 Interactive Marketing (3) This course focuses on the integration of state-of-the-art interactive technologies into the design and implementation of marketing programs for the new millennium. The functions of market identification through customer analysis, and the planning and implementation of conception, pricing, promotion and distribution of ideas, goods, and services to satisfy the market benefit immensely from the capabilities of the rapidly developing information technology (IT) infrastructure. The course also includes introduction into different techniques for differentiating products and services and developing systems to focus on the market niche, establishing interactive links to customers, retrieving online information from customers, and using data mining for market research. Prereq: MKTG 201 or 305. F

438 Marketing Research (3) The systematic, objective, and exhaustive search for and analysis of data relevant to problems in the field of marketing. Attention is given to marketing research procedures such as project design, sampling, data collection, data analysis, and reporting. Management's treatment of and reliance upon this important marketing tool are considered. Prereq: ECON 265, MKTG 305 and senior standing. F

444 Sales Management (3) The course is designed to help students prepare to face the changing sales environment of many organizations, brought by fierce global competition. Students are introduced to sales management concepts, terms, and the management of field sales force. The course will highlight the broad domain of sales management, skills to handle increasing demands of buyers, and career opportunities in sales management. The course will provide students with an appreciation of the ethical issues involved with sales management. Prereq: MKTG 201 or MKTG 305. Sp

447 Retailing Policy and Management (3) Policies, practices, and problems of efficiently operated retail stores, including the study of such areas as store location, layout, organizations, merchandise planning and control, pricing, buying, and sales promotion. Prereq: MKTG 201 or MKTG 305. F

448 Marketing Management (3) Application of problem-solving in the area of marketing management, emphasizing planning the marketing effort, management of the marketing organization, and control of marketing operations. Prereq: completion of at least nine hours in marketing and senior standing. Sp

461 Seminar in Integrated Marketing Communications (3) Approaching organizations' communication issues through the integration of advertising, marketing, and public relations strategies and techniques. Team project required. Cross-listed as PRL 461 and ADV 441. Prereq: senior standing and six hours from ADV 241 or PRL 261 and MKTG 201 or 305. Sp

471 International Marketing (3) The whole of enterprise, comparative marketing, and transport institutions and systems in selected foreign countries and the United States. The managerial and operational problems of world enterprise, with emphasis on the role of ethnic and cultural differences in influencing marketing strategy. Case studies will be used. Prereq: MKTG 201 or MKTG 305. F

475 Seminar in Contemporary Marketing Problems (3) Individual investigation of selected marketing problems of contemporary significance will be analyzed and related to assigned readings and current periodical literature. Case studies and field trips also will be used to acquaint the student with actual practices currently employed in marketing. Prereq: MKTG 305. Sp

490 Individual Study in Marketing (1-3) Repeatable for up to three hours. Research and reading in the student's major area of interest. May be taken on an arranged basis upon approval of the College of Business dean and the instructor.
The Bower-Suhrheinrich College of Education and Human Services offers undergraduate majors in early childhood education, elementary education, exercise science, physical education, special education, and social work; master of science degree programs in elementary and secondary education; the Master of Social Work degree; and the Associate of Science degree program in Early Childhood Education. In addition, the college offers the required professional education component of all teacher education programs — elementary, secondary, and all grade.

Students are provided an opportunity to promote their general physical well being as well as develop new recreational skills. A laboratory fee, towel, lock, and locker fee may be assessed when students enroll in some classes. Students not able to participate in the physical activity courses because of medical reasons, physical handicaps, or other personal reasons may substitute PED 281-3 hours, or PED 282-2 hours, when approval has been granted by the dean of the Bower-Suhrheinrich College of Education and Human Services or a designee. The student must provide a physician's statement prohibiting participation in physical activity.

NOTE: FOR THE FOLLOWING PROGRAMS, BIOL 121 AND 122 ARE PREREQUISITES FOR PED 383, 387, 391, 481, 483, 484, and 486.

**Exercise Science**

The major in exercise science is designed to prepare people for entry-level positions in corporate, commercial, and community settings that offer exercise programs of a preventative nature. It also is designed to prepare people to test for the American College of Sports Medicine's Health/Fitness Instructor, the American Council on Exercise certification, and the Aerobics and Fitness Association of America certification. This major is also designed to prepare students to continue their education at the graduate level.

**Major – Exercise Science**

37-39 credit hours

Required courses: PED 143-Aquatic Exercise, 1 hr.; 182-Weight Training, 1 hr.; 183-Aerobic Dance, 1 hr.; 185-Step Aerobics, 1 hr.; 282-First Aid, 2 hrs.; 283-Field Experience in Exercise Science, 1 hr.; 298-Foundations of Physical Education, Sport and Exercise Science, 3 hrs.; 383-Kinesiology, 3 hrs.; 385-Exercise Leadership, 3 hrs.; 387-Principles and Applications in Fitness Training, 3 hrs.; 391-Biomechanics, 3 hrs.; 394-Measurement and Evaluation in Physical Education, 3 hrs.; 481-Physiology of Exercise I, 3 hrs.; 483-Physiology of Exercise II, 3 hrs.; 484-Excercise Testing and Prescription, 3 hrs.; 499-Practicum, 3-5 hrs.

Other required courses: (29 credit hours)

MATH 111-College Algebra, 4 hrs.; 112-Trigonometry, 2 hrs.; CHEM 107-General Chemistry for Non-Science Major, 4 hrs.; PHYS 175-General Physics, 4 hrs.; BIOL 121-Anatomy and Physiology I, 3 hrs.; 122-Anatomy and Physiology II, 3 hrs.; BIOL 176-Nutrition, 3 hrs.; or NUTR 376-Nutrition for Fitness and Sport, 3 hrs.; or NUTR 378-Nutrition for Fitness and Sport, 3 hrs.; PED 493-Emotional Health
of Children in Sport, 3 hrs.; EDUC 214-Instructional Technology in Education, 3 hrs. or EDUC 465-Computers in the Curriculum, 3 hrs.

**General Physical Education**
The general physical education major is designed to meet the needs of students preparing for careers in professional-vocational areas. This major is designed to provide a strong knowledge base in kinesiology. The 12 hour specialty area is designed to enhance the knowledge base in an area of personal interest.

**Major – General Physical Education**
52-54 credit hours
Select five (5) courses from PED 111 through 199-5 hrs.

**Specialty Areas: 12 hrs. Choose one area.**

**Business**
MKTG 201-Intro to Marketing, 3 hrs.; MKTG 313-Services to Marketing, 3 hrs.; MNGT 201-Survey of Management, 3 hrs.; FIN 201-Fundamentals of Finance, 3 hrs.; OR FIN 208-Personal Finance, 3 hrs.

**Nutrition**
NUTR 376-Principles and Applications in Nutrition, 3 hrs.; NUTR 378-Nutrition for Fitness and Sport, 3 hrs.; NUTR 415-Dietary Supplements, 3 hrs.; NUTR 396-Life Cycle, 3 hrs.

**Psychology/Sociology**
PED 493-Emotional Health of Children in Sport, 3 hrs.; SOC 231-Social Problems, 3 hrs.; SOC 361-Gender and Society, 3 hrs.; PSY 355-Learning and Memory, 3 hrs.

**Gerontology**
SOCW 223-Intro to Gerontology, 3 hrs.; OR GERO 315-Intro to Gerontology, 3 hrs.; GERO 316-Illness and Disease, 3 hrs.; GERO 318-Healthy Aging, 3 hrs.; Elective, 3 hrs.

**Fitness**

**Teacher Certification (Physical Education)**
The following programs are available for students who desire to prepare for the teaching profession: physical education all grade major (K–12); physical education major (5–12); physical education minor; health and safety education minor.

**All Grade Major – Physical Education**
All Grade K–12 - 52 credit hours

Electives: 8 credit hours. Selection of physical education courses to serve as electives will be left to the discretion of the student and advisor.

**Major – Physical Education**
Grades 5–12 - 40 credit hours
Required courses: PED 155-Dance Activities, 1 hr.; 162-Hiking and Outdoor Education, 1 hr.; 281-Personal Health Science, 3 hrs.; 282-First Aid, 2 hrs.; 291-Motor Behavior, 2 hrs.; 294-Teaching Team Sports, 2 hrs.; 297-Teaching Individual/Dual Sports, 2 hrs.; 298-Foundations of Physical Education Sport & Exercise Science, 3 hrs.; 301-Field Experience at Middle/Secondary School

Electives: 2 credit hours. Selection of physical education courses to serve as electives will be left to the discretion of the student and advisor.

**Minor – Physical Education** (Elementary or middle/secondary school emphasis)

Grades 5–12 - 30 credit hours

Elementary school emphasis-8 hrs.

PED 296-Movement Fundamentals, 1 hr.; 292-Rhythms, 2 hrs.; 293-Teaching Developmental Activities, 2 hrs.; 387-Principles and Applications in Fitness Training, 3 hrs.

Middle/secondary school emphasis- 8 hrs.

PED 155-Dance Activities, 1 hr.; 294-Teaching Team Sports, 2 hrs.; 297-Teaching Individual–Dual Sports, 2 hrs.; 387-Principles and Applications in Fitness Training, 3 hrs.

**Minor – Health and Safety Education**

24 credit hours

**Endorsement – Coaching**

16 credit hours

Activity Classification: The second digit indicates the type of activity.

111-118 – Individual and Dual Sports
121-128 – Individual and Dual Sports
131-138 – Team Sports, Coaching
141-148 – Aquatics
151-158 – Combatives, Gymnastics, Dance
161-168 – Recreation
171-178 – Program Expansion
181-188 – Health, Fitness, Wellness
191-198 – Professional Preparation
199 – Courses offered through Extended Services that meet physical education specifications but will not be included in the physical education program permanently.

Course Descriptions
Except for PED 191 and PED 186, one of the courses below may be used to satisfy the one hour physical activity requirement for the University Core Curriculum.

Students will demonstrate sports skills with an understanding of rules, terminology, strategy, and etiquette necessary for participation in physical activity. The student and his/her advisor will select 100-level activity classes appropriately.

111 Archery (1)
112 Badminton (1)
113 Billiards (1)
114 Golf (1)
115 Handball (1)
116 Paddleball (1)
117 Racquetball (1)
118 Table Tennis (1)
121 Skating (1)
122 Bowling (1)
123 Tennis (1)
131 Field Hockey (1)
132 Softball (1)
134 Volleyball (1)
136 Touch Football (1)
137 Basketball (1)
138 Soccer (1)
139 Speedball (1)
141 Beginning Swimming (1)
142 Advanced Swimming (1)
143 Aquatic Exercise (1)
151 Introduction to Karate (1)
152 Beginning Tumbling (1)
153 Intermediate Tumbling and Apparatus for Men (1)
154 Intermediate Tumbling and Apparatus for Women (1)
155 Dance Activities (1)
161 Fishing (1)
162 Hiking and Outdoor Education (1)
163 Sailing (1)
164 Equestrianship (1)
181 Aerobics I (1)
182 Weight Training (1)
183 Aerobic Dance I (1)
184 Dynamic Floor Exercise (1)
185 Step Aerobics (1)
186 Wellness/Fitness Appraisal (1) Students will assess present level of physical fitness and wellness and establish behavior modification strategies to address areas which need improvement. Topics of discussion include nutrition, weight control, components of physical fitness, stress management, tobacco use and addictive behaviors, sexually transmitted diseases.
187 Aerobicise (1)
191 Orientation to Health, Physical Education, and Recreation (1)
199 Special Activities (1)

Physical Education
NOTE: The following description applies to the officiating courses PED 232, 234, 236, 237, 238, and 285.

An in-depth look at the mechanics, rules, and officiating techniques for each sport with emphasis on high school interscholastic participation. The IHSAA or appropriate licensing examination may be taken at the completion of each course. An additional fee will be charged for administration of exam.

232 Officiating of Baseball (1)
234 Officiating of Volleyball (1)
236 Officiating of Football (1)
237 Officiating of Basketball (1)
244 Lifeguard Training (2) ARC certification in lifeguarding. Prereq: Swim 200 yards of front crawl, 100 yards breaststroke, 200 yards either front crawl or breaststroke, surface dive 7-10 feet retrieve a 10-pound object, return to surface and swim back to starting point.

281 Personal Health Science (3) Examination of attitudes, research facts, and misconceptions pertaining to personal health needs and practices. Topics include but not limited to nutrition, family living, sexuality, drug use and abuse, disease prevention, safety, first aid, and public health resources.

282 First Aid (2) Course includes first aid measures recommended by the American Red Cross. Skill training provided for certification in Standard First Aid and CPR.

283 Field Experience in Exercise Science (1) The field experience will provide students with practical experience in a fitness facility. The students will learn the basic operation of a facility and have the opportunity to observe professionals at work. Prereq: 32 or more credit hours and declared physical education, exercise science, or health professions major.

284 Stress Management (2) A study of the elements which manifest stress, its impact, and strategies to minimize its effect on daily life.

285 Officiating of Track and Field (1)

286 Safety Education (2) This course is designed to examine the hazards present in all aspects of modern life as applied to school-aged children that may produce property damage, injury, and/or illness. The activities of transportation, recreation, education, and home living are assessed for safety. Intervention strategies are presented. A field experience at a local safety agency may be required.

289 Motor Behavior (2) A study of the motor development of children through adolescence, their motor learning capabilities, and the factors which influence skill acquisition, retention, and transfer.

292 Rhythms (2) Exposure to movement set to music or some structured sounds. Emphasis placed on the use of movement, small equipment, and music. Materials are developed for teacher use in elementary school grades 1-6.

293 Teaching Developmental Activities (2) An applied theory course in physical education curricula that is developmentally appropriate for elementary school children. Students will participate in and learn to teach fundamental motor, manipulative, fitness and elementary gymnastic activities.

294 Teaching Team Sports (2) Students will learn how to teach team sports. Students will learn proper skill progressions, and transition techniques that are used to link fundamental movement with sport skills, and how to evolve simple strategies into more complex offenses and defenses.

295 Physical Education for the Classroom Teacher (3) Provides students with basic information about teaching elementary school physical education. Participation in activities for children in grades 1-6. Elementary education majors only or consent of instructor. Sp, Su, F

296 Self-Testing and Movement Fundamentals (1) Skill acquisition and the study of the mechanics of locomotor, non-locomotor, and manipulative skills. F

297 Teaching Individual-Dual Sports (2) Students will learn how to teach individual and dual sports. Students will learn proper skill progressions, transition techniques that are used to link fundamental movement with sports skills, and how to evolve simple strategies into more complex offenses and defenses.

298 Foundations of Physical Education, Sport and Exercise Science (3) Orientation to career opportunities in physical education, exercise science, and sport-related fields. Examination of sociological, historical, and philosophical foundations, current issues and trends. Field experiences may be required.

299 Field Experience in Elementary School Physical Education (1) Guided laboratory experience including exposure to the nature of teaching physical education in a local elementary school. Prereq: PED 200 level course(s), or consent of instructor.

301 Field Experience in Middle/Secondary School Physical Education (1) Guided laboratory experience in teaching physical education at the middle/secondary school level. Prereq: PED 200 level course(s) or consent of instructor and sophomore status.

342 Water Safety Instructor (2) Students will receive preparation for certification as an American Red Cross water safety instructor. Prereq: 16 years old, possess a Fundamentals of Instructor Training (FIT) Certificate, completed a precourse session.

381 Care and Prevention of Athletic Injuries (3) The basic fundamentals used by the athletic trainer. Major emphasis recognition, initial care, and prevention of athletic injuries. Suggested prereq: BIOL 121 and 122. Sp

382 Community Health (3) A comprehensive understanding of community health is constructed. The problems of community health are investigated. Prevention and intervention programs are examined as applied to school-aged children. A field experience at a local health service agency may be required.

383 Kinesiology (3) The study of mechanics of human body movements including the interrelationships of bones, joints, and muscles. Prereq: BIOL 121 and 122.

385 Exercise Leadership (3) Students will learn to teach exercise routines for a group setting. The course will serve to assist students in preparing for group exercise certification. Prereq: PED 143 or PED 182 or PED 183 or PED 185.

387 Principles and Applications in Fitness Training (3) Students will examine traditional and contemporary training methods. They will develop training programs based on exercise principles suitable for clients with diverse needs/requirements. The course will serve to assist students in preparing for personal training certification. Prereq: BIOL 121 and BIOL 122.

388 School Health (3) This course seeks to present the background, content, and strategies necessary for teaching health education as part of a comprehensive school health program. Students may be required to fulfill field experiences at a local school.

390 Special Topics in Physical Education (1-3) The purpose of the course is to provide students with an opportunity to do personal research in a specialized area in physical education. A maximum of three hours can count towards elective requirements.
391 Biomechanics (3) An analysis of movement tasks and their relationship to each other. To apply the kinematic (velocity and acceleration) and kinetic (force) concepts for the mechanical analysis of human movement. Prereq: BIOL 121 and 122.

392 Adapted Physical Education (3) A study of dysfunctions and characteristics of people with atypical performances. Basic concepts and techniques of modifying physical activity for people with special needs. Prereq: PED 200-level classes.

394 Measurement and Evaluation in Physical Education (3) This course describes the development and implementation of physical and cognitive tests in physical education and exercise science. Included in this course are techniques for data analysis and student assessment through the use of current, basic testing, and statistical procedures. Upon successful course completion, students demonstrate the ability to collect, analyze, and present data in a scientific manner. Students organize data on Excel spreadsheets, analyze data manually and through computer programs, and develop a PowerPoint presentation through which project results are presented. Prereq: PED 200-level classes.

395 Curriculum Construction in Physical Education (3) Planning programs, units, and lessons in physical education to achieve long- and short-term curriculum goals. Prereq: PED 200-level classes, pass PRAXIS I, 2.75 cum GPA. Note: Student must provide evidence of passing PRAXIS I.

396 Teaching Physical Education (3) Examination of teaching styles as they relate to people of different ages and abilities, subject complexity, facility, and equipment availability. Students will plan, implement, and evaluate an activity program at the elementary, middle, or secondary school level. Prereq: PED 395, cum GPA 2.75, pass PRAXIS I. Note: Student must provide evidence of passing PRAXIS I.

402 Teaching Strategies for Socially Sensitive Health Issues (3) This course is designed to desensitize subject matter often considered taboo, sensitive, or controversial. Students will investigate current theory, pedagogy, and their own attitudes to the topics covered including AIDS, homosexuality, obesity, death and dying, eating disorders, and issues in sexuality. Unit plans for teaching will be developed. Prereq: PED 388.

431 Principles and Problems of Coaching (3) Examination of the basic philosophies and concepts of coaching. Attention will be focused on the background information of coaching in general rather than on specific sports. Topics and study will include nature of coaching background for athletics, program organization, conditioning, motivation, and public relations as they relate to the coaching position.

Course Descriptions for PED 432, 434, 436, 437, 438.

The components of coaching each sport will be analyzed from the perspective of the coach. Topics will include conditioning, fundamentals, team strategy, tournaments, meets and matches, rules and their application to game play. Practicum experiences will be arranged by the instructor.

432 Coaching Baseball (2)
434 Coaching Volleyball (2)
436 Coaching Football (2)
437 Coaching Basketball (2)
438 Coaching Soccer (2)

481 Physiology of Exercise I (3) Analysis of the factors and principles involved with the physiological function of the human body during exercise, as well as the adaptations associated with physical training and the acute and chronic responses to exercise. The course includes laboratory experiences demonstrating these principles. Prereq: BIOL 121 and 122 (3-1). Sp, F

483 Physiology of Exercise II (3) Interpretation and application of the factors and principles of physiological functions during exercise in differing populations and classifications of people and under varying environmental conditions. The course integrates current research and laboratory experiences as a major emphasis. Prereq: CHEM 107, PHYS 175, PED 481 (3-1). Sp

484 Exercise Testing and Prescription (3) A study and application of the principles, techniques, and tools used to assess levels of wellness, fitness, prescribe lifestyle modifications, and evaluate individual progress toward goals. Prereq: PED 481. F

486 Foundations in Cardiac Rehabilitation (3) This course provides the students with fundamental knowledge and skills related to cardiac rehabilitation with concentration on the design, implementation, and administration of the exercise component of cardiac rehabilitation programs. Prereq: BIOL 121, BIOL 122, and PED 481.

491 Organization and Administration of Physical Education and Related Programs (3) The basic problems in the organization and administration of physical education and related programs with an investigation of materials for their solutions. Prereq: Senior standing, Sp, F

492 Contemporary Issues in Sport and Exercise (3) This course will enable students to integrate information from their educational experiences to critically examine and analyze contemporary issues in sport and exercise from an interdisciplinary perspective. Current issues, trends, and challenges will be presented with the intent of provoking thought and stimulating debate, so that students may identify their role in the resolution of issues.

493 Emotional Health of Children in Sport (3) This course will review the concepts and principles associated with the emotional development of children and the influence of sports, coaches, parents, and organized games on that development. Prereq: PSY 201, must have completed 48 hours, or consent of instructor.

499 Practicum (3-5) Practical experience in an area of professional preparation. Prereq: Must have completed required courses in major. Sp, F

502 Teaching Strategies for Socially Sensitive Health Issues (3) This course is designed to desensitize subject matter often considered taboo, sensitive, or controversial. Students will investigate current theory, pedagogy, and their own attitudes to the topics covered including AIDS, homosexuality, obesity, death and dying, eating disorders, and issues in sexuality. Unit plans for teaching will be developed. Prereq: PED 388.

592 Contemporary Issues in Sport and Exercise (3) This course enables students to integrate information from their educational experiences to examine and analyze contemporary issues in sport and exercise from an interdisciplinary perspective. Current issues, controversies, and future trends in sport/exercise are to be critically discussed and debated through active class participation. Students will develop individual positions/opinions about issues being critiqued and identify their role in the resolution of those issues.
593 Emotional Health of Children in Sport (3) A study of emotional health, principles, and theory related to successful emotional development. Involves exploration of healthy sport participation and the role adult leaders play in youth development. Topics include fear, aggression, achievement, parental involvement, stress, drugs, and relationships.

601 Physical Training for Optimal Performance (3) This course will provide information regarding the methodologies and results of aerobic and anaerobic physical training in various internal and environmental physical conditions for young, middle-aged, and elderly men and women. The basis for training under certain nutritional, psychological, and physical regimens will be described and evaluated. Su

Department of Social Work
The Department of Social Work offers a Minor in Social Work, a Bachelor of Social Work (BSW), and a Master of Social Work (MSW).

Bachelor of Social Work
The Bachelor of Social Work program is designed for students who desire a professional degree in preparation for entry into social work positions within local, state, and federal social services agencies and programs. This program is fully accredited by the Council on Social Work Education. Students graduating from the program will possess a solid liberal arts foundation through the University Core Curriculum integrated with professional social work knowledge. The principal educational objective of the program is to prepare students for beginning social work practice. The focus of the program is to prepare generalist bachelor's-level practitioners with the knowledge, skills, and ethical principles needed for work with diverse populations. Students will be prepared to work with a variety of client systems including: individuals, families, groups, organizations, institutions, communities, and society in general.

Curriculum content is carefully constructed to expose the student to the following core knowledge areas:
- social welfare issues and policies
- human behavior in the social environment
- social systems theory
- knowledge and skills in conducting social work research
- problem-solving theory and methodology
- generalist intervention model
- knowledge of client populations
- knowledge of social service programs and agencies
- human diversity
- oppression and discrimination
- at-risk populations
- promotion of social and economic justice
- professional social work values and ethics
- practice/intervention skills and integrative field experience

Additionally, the program places great emphasis upon professional self-development and growth.

Admission
The philosophy of the program is geared toward preparing the highest quality professional for the social work field. Therefore, students interested in a major in social work must be admitted into the program. The student must satisfy the following requirements for admission:

1. Students are required to review and update their student academic file in the Social Work Department by the start of the application process. Included in the file should be a current copy of all college and university transcripts for each institution the student has attended.
2. A cumulative GPA of 2.6 on a 4.0 scale is required for admission to the social work program. The prerequisite courses must be completed by the beginning of the semester a student plans to enroll in courses identified for majors only.
3. Completion of the following 12 hours of social work prerequisite courses with a 2.75 GPA and a grade no lower than C in each class. (At least two of the courses must have an official grade at the time an application is submitted.)
   - SOCW 221 – Introduction to Social Work, 3 credit hours
   - SOCW 222 – Social Welfare: Emergence of the Social Services, 3 credit hours
   - SOCW 239 – Human Behavior and the Social Environment, 3 credit hours
   - SOCW 241 – Social Work Intervention, 3 credit hours
4. Completion of 36 hours of University Core Curriculum (UCC) courses with a minimum grade of C in each of the following courses:
   - Composition – one English Composition course
   - Western Culture – one Humanities course
   - Science – one Biology of Human Concern course
   - Individual Development/Social Behavior
   - PSY 201 – Introduction to Psychology
   - PSY 261 – Lifespan Development Psychology
   - SOC 121 – Principles of Sociology
   - SOC 231 – Social Problems
   - POLS 101 – Introduction to Political Science; or POLS 102 – Introduction to American Politics.
   Students who attend a junior college may take State and Local Government.
   (Only six hours from the above list may be applied to the UCC. Psychology 261 is not a UCC course.)
5. Math 100 – Intermediate Algebra or higher with a minimum grade of C.
6. Transfer students will be evaluated on an individual basis. They must meet the minimum course work requirement(s) or their equivalent(s) to be eligible for admission to the program.

7. Completion of the application is required. It is the applicant's responsibility to provide all materials to the Social Work Department by the application deadline. The application must be complete to be reviewed by the admission committee.

8. A personal interview and/or additional evaluative data may be required of applicants.

NOTE: The program does not grant academic credit for life or work experience in lieu of social work courses or field content. Students must complete all University Core Curriculum requirements including ECON 175 to complete the program.

The evaluation process will focus upon academic standards and additional criteria including evidence of a commitment to social work values, basic understanding of social work, professional attitude, stable mental/ emotional processes, and evidence of good writing and oral communication skills.

All eligible students are invited to apply. The program actively encourages minorities and students from disadvantaged groups to apply. The program does not discriminate on the basis of race, color, gender, sexual orientation, age, religion, national origin, marital status, political belief, or disability.

Upon completion of the application process, students will be notified in writing of the decision of the Admissions Committee. It should be noted there is a “cap” on admissions; only a limited number of qualified students are admitted each year. Students denied admission into the Bachelor of Social Work program shall have the right of appeal. Students who fail to progress in their course work for more than one semester will be required to reapply to the program. Students who are not enrolled for two semesters or longer will be required to graduate under the bulletin in effect at the time they re-enter.

Major – Social Work
51 credit hours

A student must be admitted to the social work program before enrolling in courses designated for majors only.

Social Work electives: The following courses are not part of the required core and are open to all students: 223-Introduction to Gerontology, 3 hrs.; 225-Child Welfare Services, 3 hrs.; 238-Disabilities in Contemporary Society, 3 hrs.; 323-Social Work Practice With the Aged, 3 hrs.; 390-Independent Study in Social Work, 1-3 hrs.; 400-Special Topics in Human Service Practice, 3 hrs.

Minor – Social Work
18 credit hours

Elective Courses: Six (6) hours selected from the following list of courses, three (3) of the hours must be at the 300-400 level): 223-Introduction to Gerontology, 3 hrs.; 225-Child Welfare Services, 3 hrs.; 238-Disabilities in Contemporary Society, 3 hrs.; 323-Social Work Practice With the Aged, 3 hrs.; 390-Independent Study in Social Work, 3 hrs.; 400-Special Topics in Human Service Practice, 3 hrs.

Course Descriptions
Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

221 Introduction to Social Work (3) This course is an introduction to the field of social work and is the prerequisite for all required social work courses. The class is designed to expose the student to the profession of social work, an overview of systems theory, and the relationship of the social worker to the overall social welfare system. The course will emphasize a core understanding of generalist social work practice, the NASW Code of Ethics, and the social work roles needed to impact sys-
tems to solve human problems. Special emphasis will be placed on helping the student to develop an understanding and appreciation for diverse cultures, social and economic justice, disabilities, and populations at risk. Open to all students. No prereq. F, Sp, Su

222 Social Welfare: Emergence of the Social Services (3) This course explores the philosophical and historical evolution of the American social welfare system. Course content will cover public and voluntary efforts to deal with poverty and other social problems. Theories of political influence on social change are addressed. Content on social justice, oppression, discrimination, spirituality, and diversity are included. Open to all students. Prereq: SOCW 221, F, Sp

223 Introduction to Gerontology (3) This is an introductory course to the field of gerontology with an emphasis on programs, resources, and services provided to older populations. Open to all students. No prereq. Sp

225 Child Welfare Services (3) This introductory course provides a survey of child welfare services in the human services field. Various services are examined including child abuse and neglect, adoption, foster care, and family support services. Open to all students. No prereq. F, Sp

238 Disabilities in Contemporary Society (3) This course explores important issues regarding disabilities in contemporary society. The history of treatment of people with disabilities will be explored with an emphasis on the implications of this history in current programs and services. Special emphasis will be placed on a critical analysis of the assumptions that support contemporary thinking about disabilities and the service delivery systems based on these assumptions. The range of disabilities addressed will include developmental, adventitious, hidden, and visible. Open to all students. No prereq. F, Sp

239 Human Behavior and the Social Environment (3) This course is designed as a focal point of integration for human behavior content already encountered in life span development, biology of human concern, and social work courses required of pre-majors. The overall goal of this course is to assist the student in understanding the “person-in-environment” and systems concepts when working with individuals, families, and groups. This course will also provide opportunities for the student to understand the biological, psychological, sociological, and spiritual aspects of individuals as well as other cultures and minority groups. As a result, students will be able to integrate these components of human behavior as a generalist social worker. Prereq: SOCW 221, SOCW 222, SOC 121, PSY 201, PSY 261, and BIOL 105. F, Sp, Su

241 Social Work Intervention (3) Basic introduction to generalist social work practice and its various modes of intervention. The course gives the student a frame of reference for analyzing various systems encountered in social work practice and an opportunity to experience some of the concepts, skills, value systems, and activities which are the foundation of the practice of social work. Prereq: SOCW 221, SOCW 222, PSY 201, PSY 261, SOC 121, and BIOL 105. F, Sp

323 Social Work Practice with the Aged (3) This course is designed to give the student an overview of the variety of social, psychological, physical, economical, and environmental issues that confront our aging population today. Students will be exposed to a number of social work generalist roles, primary prevention strategies, and relevant social work interventions which are based on major theoretical approaches in working with this population. Open to all students. No prereq. F

325 Introduction to Social Work Statistics (3) This basic statistics course is designed to expose students to descriptive and inferential statistical measurements. The course will overview various methods of data collection, analysis, and presentation. Research methodology and related issues will be examined as they pertain to the social work researcher and more specifically, the social work practitioner. Prereq: SOCW 221 and MATH 100. Open to social work majors and pre-majors or consent of instructor. F, Sp

326 Introduction to Social Work Research (3) The course is designed to expose the student to the fundamentals of social work research methodology. Students will gain basic skills and knowledge related to hypothesis development, sampling procedures, research methodology, measurement processes, and evaluative procedures. Careful attention will be paid to research methodology used by the social work professional to evaluate macro and micro practice situations and program development. Prereq: SOCW 325 and open to social work majors and pre-majors or consent of instructor. Sp, Su

340 Communications Skills (3) A laboratory experience that engages students in experiential learning situations which enhance interpersonal communication and professional interviewing skills essential to the helping professions. Variables including culture, race, gender, age, ethnic background, disability, and social and economic justice will be examined as they impact the professional communications process. Open to social work majors only. F

341 Social Welfare Policy-Program and Service Delivery Analysis (3) Social work is a policy-based profession and this course takes the student through the analysis of policy as it affects the practice of social work. The student will study the historical, social, political, and economic aspects of social welfare policy and engage in the analysis of a social welfare policy. The course also will be examining the impact of policy change on both diverse groups and populations at risk. Open to social work majors only. F

342 Social Work Practice with Micro Systems I (3) This course is designed to build knowledge and develop the skills needed to work with individuals in a variety of settings. The Generalist Intervention Model is used as a systems theory to help the student in understanding and completing assessments and in developing intervention plans among diverse populations and populations at risk. The student will also explore ethical and value issues that confront the social worker. Open to social work majors only. F

343 Social Work Practice with Micro Systems II (3) The purpose of this course is to train student social workers in group methods that will be utilized in generalist social work practice situations. The types of social group work are covered, the history of group work, and the skills needed to be an effective group leader are presented. Students also will be exposed to group work with both diverse groups and/or populations at risk. Open to social work majors only. Sp

344 Social Work Practice with Macro Systems (3) The macro course prepares social work students to facilitate planned changes in the community and within agencies. Social work macro practice theory and strategies will be presented to students in the course. The student will demonstrate learning by identifying a problem or need in the community, developing an implementation plan based on solid research, and carrying out the implementation plan and evaluating the results. Open to social work majors only. Sp

390 Independent Study in Social Work (1-3) This course is intended for the examination of special topics in social work on an individual basis. Topics will be developed and examined on an arranged basis in agreement with the student and the supervising faculty member. Research will culminate in a scholarly paper submitted by the student. Prereq: Social Work junior standing and consent of instructor. F, Sp, Su
400 Special Topics in Human Service Practice (3) This course provides students exposure to a variety of selected topics of current interest and importance in human service delivery. These topics will change with the interests of faculty and students. Prereq: sophomore standing, F, Sp, Su

401 Social Work Practicum I (3) An experiential, on-site supervised learning opportunity consisting of a minimum of 150 contact hours per semester or approximately 12 hours per week in a local social service agency approved by the director of field in the Social Work Department. The student will be exposed to the actual skills and behavior of the professionals in social work and will have the opportunity of testing newly formed values and knowledge. Open to social work majors only. Must be taken concurrently with SOCW 401. Prereq: senior standing and consent of the director of field. F

402 Social Work Practice I-Integration Seminar for Social Work Practicum I (3) The focus is on integrating classroom knowledge content as it relates to the issues of the field practicum. Open to social work majors only. Must be taken concurrently with SOCW 402. Prereq: senior standing and consent of the director of field. F

411 Social Work Practicum II (6) Course provides supervised experiential learning external to the classroom. A minimum of 300 contact hours per semester or approximately 20 hours per week are spent in a community social service agency or related organization to develop social work skills and gain supervised practice in performing the role of social worker. Open to social work majors only. Must be taken concurrently with SOCW 411. Prereq: senior standing, completion of all social work major courses except 412 and 413, and consent of the director of field. Sp

412 Social Work Practice II-Integration Seminar for Social Work Practicum II (3) Focus is on providing field students the opportunity of resolving issues encountered in the practicum by consulting with their peers. Under the direction of the faculty, the students participate in consultation/training and peer interaction to enhance the learning gained in the field practicum. Open to social work majors only. Must be taken concurrently with SOCW 412. Prereq: senior standing, completion of all social work major courses except 412 and 413, and consent of the director of field. Sp

413 BSW Project-Research Study (3) The student will choose from one of several "Project Options." With the guidance of the social work faculty, students are expected to carefully develop a project which culminates in a "Senior Level" project or research term paper. The paper will be developed in the final semester of the student's senior year. The student must have completed all social work requirements, with the exception of SOCW 411 and 412. Open to social work seniors only. Sp

• licensure in educational leadership-building level administrator

The teacher education programs have been approved by the Indiana Professional Standards Board, the National Council for the Accreditation of Teacher Education, and the North Central Association of Colleges and Secondary Schools. Graduates of the University who successfully complete teacher education programs, pass the licensure exams, and meet any other requirements specified by the Indiana Professional Standards Board are eligible for teaching licenses in Indiana and other states that recognize the completion of a program approved by the National Council for Accreditation of Teacher Education as a basis for licensure.

Undergraduate teacher education offerings include the following programs: (1) majors in early childhood education, elementary education, and special education; (2) professional education for elementary, secondary, and all grade majors; (3) minors in special education, reading, and language arts; (4) junior high/middle school and (5) computer education.

Current information regarding Indiana teaching licensure in various subject areas is available under Degrees on the University Web site at www.usi.edu.

Procedures and Regulations for Students in Teaching Programs

Procedures and regulations that govern students pursuing teacher education programs are described in this section. More detailed information may be obtained from the Department of Teacher Education.

After admission to the University the following procedures must be followed for all students who are preparing to teach in elementary or secondary schools:

1. Students who desire to work toward a baccalaureate degree in early childhood education, elementary education, or special education are assigned to the Department of Teacher Education in the Bower-Suhrheinrich College of Education and Human Services for purposes of advising, record keeping, and continuation in the University. Students in all other teaching programs are advised in the department within the University according to the student's major, until the professional semester. During early registration for the professional semester, all students are advised in the Bower-Suhrheinrich College of Education and Human Services by the director of Field Experiences in Education.
2. After being assigned to a program in education, students who desire to change their area of specialization must contact the Teacher Education Department.

3. Candidates for admission to teacher education are required to take a competency test designed for teachers. The Praxis I is currently being utilized. Students must meet the following test score requirements: Reading 176, Writing 172, and Math 175.

4. Candidates apply for admission to the teacher education program after the completion of basic University Core experiences and exploration phase teacher education courses. Applications must be submitted to the Teacher Education Department by the deadline for registration or enrollment in education classes numbered 350 and above.

Admission to teacher education requires a 2.75 grade point average in all coursework (and in each major or minor) as well as an admission packet. Note: Grades for transfer courses in teaching majors and minors are included in GPA calculations to determine eligibility for admission to teacher education. The packet must include the following items: Praxis I scores, disposition evaluations, grade verification for overall and specific course performances, speech and hearing evaluation, field experience reports, exploration phase artifacts, and a recommendation from the department. Candidates submit their applications to the Teacher Education Department. The pool of applications is distributed to faculty for review and then forwarded to the Teacher Education Admission and Retention Committee. This committee takes one of three actions: unconditional admission, conditional admission, or denial.

5. Students who transfer 55 or more hours may be provisionally accepted into the teacher education program if their past course of study so warrants, as determined by the dean. After one semester of study, transfer students must meet the same qualifications for admission to teacher education as all other students. Transfer students meeting the requirements after one semester will be fully accepted into the teacher education program. Transfer students not meeting the requirements after one semester will not be accepted into teacher education until such requirements are fulfilled.

6. Students must earn a grade of C or better in all required courses to satisfy degree and certification program requirements.

7. Students denied admission to the teacher education program and to student teaching have full right to a hearing before the Teacher Education Appeals Committee and the dean of the Bower-Suhreinrich College of Education and Human Services.

Current information regarding application procedures and downloadable forms are available under Teacher Education, Bower-Suhreinrich College of Education and Human Services on the University Web site at www.usi.edu.

Application for Student Teaching
At the beginning of spring semester of the year preceding the year in which a student plans to student teach, the student is required to file an application for student teaching. See the Student Teaching and Laboratory Experiences section below for details. Information is available under Teacher Education, Bower-Suhreinrich College of Education and Human Services, on the University Web site, www.usi.edu.

Diploma Form and Formal Application for Graduation
Early in the semester prior to the student teaching term, a diploma form and a formal application for graduation must be filed. Forms are available in the Teacher Education office. Elementary education, special education, physical education, and early childhood education majors are recommended for graduation by the dean of the Bower-Suhreinrich College of Education and Human Services. Candidates completing other teacher education programs will be recommended for graduation by the dean of the college in which the major is located.

Teacher Licensure
The Bower-Suhreinrich College of Education and Human Services has responsibility for recommending students for all teaching licenses. Students must complete all graduation and licensure requirements before being recommended for any teaching license.

Any student graduating from a baccalaureate degree teacher education program must have a GPA of at least 2.75 in all teaching majors and/or minors.

Applicants for the initial standard teaching license must pass the basic skills test (Praxis I) and specialty area examinations (Praxis II) in their major (primary) and minor (supporting) teaching fields, as required by the
Indiana Professional Standards Board. The University’s pass rate on required tests for Indiana teaching licensure for the year 2004 was 96 percent.

Students completing their teaching curricula at the end of the first semester of any given school year will normally file applications for initial practitioner licenses in Indiana after January 15 of the following year. All other students normally will file their applications after June 1 of the school year in which their work is being completed.

Applications for licensure may be obtained from the Bower-Suhreinrich College of Education and Human Services.

Each state may have specific additional requirements for teacher licensure. Students who desire to obtain a teaching license in a particular state may contact the state education agency for information on necessary requirements. Information for most states is available on the Web.

Student Teaching and Laboratory Experiences

Student teaching and laboratory experiences provide opportunities for students to obtain extended realistic experiences in public schools. The full-time program of student teaching makes possible meaningful contacts with all aspects of the teacher’s work.

The laboratory experiences program provides opportunities for prospective teachers to have field experiences in classroom settings during their entire teacher education program. These experiences are provided in conjunction with various classes.

Student teachers participate in classroom teaching, faculty planning, extra class activities, and school-community enterprises. The program is designed to help the prospective teacher develop a working philosophy of education and acquire the basic skills needed to enter the profession of teaching.

1. To enroll for student teaching, students must have an overall grade point average of 2.75 or above and a grade-point average of 2.75 or above in their teaching major(s) and/or minor(s). Note: Grades for transfer courses in teaching majors and minors are included in GPA calculations to determine eligibility for admission to teacher education.
2. A grade of C or better must be earned in all required courses before a student will be permitted to enroll for student teaching.
3. Students desiring to enroll for student teaching must be unconditionally admitted to the teacher education program.
4. Factors such as personality and character are given due consideration in determining whether a person with a GPA of 2.75 or above may enroll.
5. While enrolled in the professional semester, which includes supervised teaching, the student should not be employed or enrolled in additional courses.

Elementary Student Teaching

Elementary education students enroll for 15 credit hours during the professional or student teaching semester (senior year): EDUC 471-Supervised Teaching in the Elementary School, 9 hrs. and 472-Supplemental Supervised Teaching in the Elementary School, 3 hrs or a practicum, 3 hrs., yield 12 credit hours of credit; students return to campus regularly during the 15-week student teaching experience for EDUC 458-Synthesis Seminar in Elementary Teaching, which yields three credit hours credit. Students should complete all required courses prior to enrolling in the professional semester.

Students should assume no obligation that would interfere with all-day student teaching or with leaving the campus for the period assigned to student teaching in another city. Students should not take extra courses or work during the student teaching semester.

Secondary Student Teaching

Secondary education students enroll for 15 credit hours during the professional or student teaching semester (senior year): EDUC 473-Supervised Teaching in the Secondary School, 9 hrs. and EDUC 474-Supplemental Supervised Teaching in the Secondary School, 3 hrs. or EDUC 477-Junior High/Middle School Practicum, 3 hrs., yield 12 credit hours of credit; students return to campus regularly during the 15-week student teaching experience for EDUC 448-Synthesis Seminar in Secondary Teaching, which yields three credit hours credit. Students should complete all required courses prior to enrolling in the professional semester.

Students should assume no obligations that would interfere with all-day student teaching or with leaving the campus for the period assigned to student teaching in another city. Students should not take extra courses or work during the student teaching semester.

Students who are earning an area major license will teach in only one field. Those who have an additional teaching area may teach in both fields.
University Core Curriculum Requirements
For baccalaureate degree programs in Early Childhood Education, Elementary Education, and Special Education, students complete the University Core Curriculum requirements. Exceptions to these requirements include the following (contact the department office for further information):

Preschool/Primary
A2. MATH 106, 202 are required
B3. PED 281 and PED 295 are required
C2. EDUC 302 is required
D. EDUC 458 is required

Primary/Intermediate
A2. MATH 106, 206 and 226 are required
B3. PED 281 and PED 295 are required
C2. EDUC 302 is required
D. EDUC 458 is required

Intermediate/Middle
A2. MATH 106, 206 and 226 are required
B3. PED 281 and PED 295 are required
C2. EDUC 302 is required
D. EDUC 458 is required

Basic Courses for Education Programs
(Exploration Phase)
All baccalaureate degrees for teaching require basic courses, as follows (minimum of 12 credit hours):

EDUC 196 Foundations of Reflective Teaching
EDUC 201, 202, 242, or 304 Growth and Development
(one or more, according to licensure levels)
EDUC 214 Instructional Technology in Education
EDUC 302 Multicultural Education

Early Childhood Education
The University of Southern Indiana offers both bachelor's and associate's degree programs to prepare teachers of young children.

Associate of Science Degree – Early Childhood Education
64 credit hours
The Associate of Science degree in early childhood education is a program designed to give prospective preschool teachers and child care workers the understanding in child development and the practical experiences needed to work effectively with young children. Students who complete this program will be prepared for employment in public school child care facilities, and other child care facilities such as day care centers, day care homes, private and cooperative nursery schools, church-affiliated programs, and Head Start classrooms. Students completing the associate degree also would be eligible to apply many of the completed courses toward a bachelor's degree in early childhood education or elementary education.

Early Childhood Education – Associate Degree Requirements
64 credit hours

University Core Curriculum Courses 24-25 hours
A. The Mind: Enhancement of Cognitive Development 9 hours
A1. Composition and Speech 9 hours

B. The Self: Enhancement of Individual Development 5-6 hours
Select two B Categories
B1. Ethics 3 hours
B2. The Arts 3 hours
B3. Health/Fitness 2 hours

C. The World: Enhancement of Cultural and Natural Awareness 9-10 hours
Select three C Categories
C1. History 3 hours
C2. Individual Development/Social Behavior 3 hours
(EDUC 302 is included in professional education courses)
C3. Science 3-4 hours
C4. Western Culture 3 hours
C5. Global Communities 3 hours

Professional Education (Required Courses)

Specialty Electives (Optional)
EDUC 255-Growth and Development: Infants and Toddlers; 285-Early Childhood: Program Administration; 340-Special Topics in Early Childhood Education; 346-School-age Child Care; 359-Practicum Topics in Early Childhood Education
NOTE: No grade below C will count toward a degree in this program and a minimum cumulative grade point average of 2.5 must be maintained.

Admission to teacher education and education course prerequisite requirements do not apply to this degree.

Early Childhood Education Bachelor of Science/Bachelor of Arts Degree Requirements
The student who desires to become a licensed early childhood teacher will complete the following minimum course of study that leads to a Bachelor of Science degree and Indiana teaching license in the areas of 1) preschool and 2) elementary: primary (grades K-3). A Bachelor of Arts degree may be earned when the appropriate amount of credit in a foreign language is earned.

Early Childhood Education
University Core Curriculum Requirements
A. The Mind: Enhancement of Cognitive Development 12-13 hours
A1. Composition and Speech 9 hours
A2. Mathematics 3-4 hours
   Must include MATH 202 (MATH 106 prerequisite)

B. The Self: Enhancement of Individual Development 8 hours
B1. Ethics 3 hours
B2. The Arts 3 hours
B3. Health/Fitness 2 hours

C. The World: Enhancement of Cultural and Natural Awareness 26-27 hours
C1. History 3 hours
C2. Individual Development/Social Behavior 6 hours
   Must include EDUC 302 (3 hours)
C3. Science (at least one lab course) 8-9 hours
C4. Western Culture 6 hours
C5. Global Communities 3 hours

D. The Synthesis: Integration and Application of Knowledge 3 hours
   Must include EDUC 433

Early Childhood Professional Education (Required Courses)
In addition to the University Core Curriculum and the teacher education basic courses described earlier (a minimum of 12 credit hours), students should complete the following professional education courses and special subject courses:

Specialty Areas (Optional)
Infant/Toddler: EDUC 255, 257, 261, 359
School Age: EDUC 340, 348, 359

Elementary Education Bachelor of Science/Bachelor of Arts Degree Requirements
The student who desires to become an elementary school teacher will choose one of the following options: (a) Primary/Intermediate (for grades K-6), or (b) Intermediate/Middle (for grades 4-8, and requiring the addition of minor in a teaching field to be added to the requirements below). A Bachelor of Arts degree may be earned when the appropriate amount of credit in a foreign language is earned.

Elementary Education
University Core Curriculum Requirements
A. The Mind: Enhancement of Cognitive Development 12-13 hours
A1. Composition and Speech 9 hours
A2. Mathematics 3-4 hours
   Must include MATH 206 (MATH 106 prerequisite)

B. The Self: Enhancement of Individual Development 8 hours
B1. Ethics 3 hours
B2. The Arts 3 hours
B3. Health/Fitness 6 hours
   Must include PED 281 and PED 295

C. The World: Enhancement of Cultural and Natural Awareness 26-27 hours
C1. History 3 hours  
C2. Individual Development/  
   Social Behavior 6 hours  
   Must include EDUC 302 (3 hours)  
C3. Science (at least one lab course) 8-9 hours  
C4. Western Culture 6 hours  
C5. Global Communities 3 hours  

D. The Synthesis: Integration and Application of Knowledge 3 hours  
   Must include EDUC 458

Major – Elementary Education Requirements  
In addition to the University Core Curriculum and the  
teacher education basic courses described earlier (a minimum of 12 credit hours), students should complete the  
following professional education courses for licensure in primary (K-3) and intermediate (4-6).

Professional Education and Special Subject  
Requirements for Elementary: Primary and Intermediate (K-6)  
MUS 251-Music and Movement for Young Children,  
ART 395-Art Education, EDUC 306-Educating  
Exceptional Children, 343-Children’s Literature, 344 or  
423, Family, School, Community Partnerships or  
Collaborative Partnerships, 351-Music and Movement for  
Young Children, 356-Science and Math  
(Kindergarten/Primary), 357-Expressive Arts/Social  
Studies (Kindergarten/Primary), 366-Educational  
Assessment, 373-Teaching Science in the Elementary  
School, 378-Reading and Language Arts in the Elementary  
School, 388-Teaching Social Studies in the Elementary  
School, 398-Balanced Reading Strategies and Practices,  
MATH 392-The Teaching of Elementary School  
Mathematics. Student Teaching: 458-Synthesis Seminar  
in Elementary Teaching, 471-Supervised Teaching in the  
Elementary School (9 hrs), and one of the following courses: 472-Supplemental Supervised Teaching in the  
Elementary School, 476-Kindergarten Practicum, 477-  
Junior High/Middle School Practicum, 478-Practicum in  
Reading Instruction or one of the following (for special  
education minor) Supervised Teaching: Exceptional  
Needs–424 Elementary/Primary, 425-Elementary/  
Intermediate, 426-Middle School/Junior High.

Students majoring in elementary education and preparing to teach in the intermediate grades (4-6) and middle school (4-8) take all of the above-listed courses except EDUC 351, 356, 357, and must also add the following: EDUC 304-Growth & Development: Early Adolescence, 488-The Middle School Curriculum, and

Content Area Minor (hours vary) in Language Arts,  
Foreign Language, Science, Mathematics, Physical  
Education, Special Education, Reading, Social Studies,  
or Visual Arts.

Special Education – Bachelor of Science/  
Bachelor of Arts Degree Requirements  
The student who desires to become a special education teacher will complete the following minimum course of  
study that leads to a Bachelor of Science degree and initial practitioner Indiana license in exceptional needs: mild intervention. Candidates select a program option: (a) elementary/middle school for grades K-6, and (b) middle school/secondary school for grades 5-12. A Bachelor of Arts degree may be earned when the appropriate amount of credit in a foreign language is earned. Special education majors are encouraged to complete a teaching minor, also.

Information regarding course offerings, special program options such as partner school initiatives, and current news regarding teacher education is available at Degrees, Special Education on the University Web site at www.usi.edu.

Special Education  
University Core Curriculum Requirements  
A. The Mind: Enhancement of Cognitive  
   Development 12-13 hours  
   A1. Composition and Speech 9 hours  
   A2. Mathematics 3-4 hours  
   Must include MATH 206

B. The Self: Enhancement of  
   Individual Development 8 hours  
   B1. Ethics 3 hours  
   B2. The Arts 3 hours  
   B3. Health/Fitness 2 hours

C. The World: Enhancement of Cultural and  
   Natural Awareness 26-27 hours  
   C1. History 3 hours  
   C2. Individual Development/  
   Social Behavior 6 hours  
   Must include EDUC 302 (3 hours)  
   C3. Science (at least one lab course) 8-9 hours  
   C4. Western Culture 6 hours  
   C5. Global Communities 3 hours

D. The Synthesis: Integration and Application  
   of Knowledge 3 hours  
   Must include EDUC 438
Major – Special Education Requirements
In addition to the University Core Curriculum and the teacher education basic courses described earlier (a minimum of 12 credit hours), candidates must complete a) elementary/middle school emphasis or b) middle/secondary school emphasis.

General electives: Electives will be used to strengthen the student's program in relation to the individual needs or to provide for an auxiliary area or a minor.

Analysis Block: Evaluation and Learning Strategies:

Notes: EDUC 306-Educating Exceptional Children, 3 hrs. is a prerequisite for all special education courses.

Reading Minor – Teaching
21 credit hours
This program has been designed to prepare the student for professional work in the area of reading. The minor in reading is an excellent area of specialization for both prospective elementary and secondary teachers.

Required courses: EDUC 343-Children’s Literature, 3 hrs.; 378-Reading and Language Arts in the Elementary School, 3 hrs.; 398-Balanced Reading Strategies and Practices, 3 hrs.; 455-Diagnostic Teaching of Reading, 3 hrs.; 478-Practicum in Reading Instruction, 3 hrs.; 493-Content Area Reading: Differentiated Instruction, 3 hrs.

Elective courses: Three hours selected from the following: EDUC 440-Current Trends in Reading, 3 hrs.; 490-Special Topics in Education, 3 hrs.; or other related electives as directed by advisor.

Language Arts Minor – Teaching
21 credit hours
This program has been designed to prepare the student to teach language arts at the junior high/middle school level.

Elective courses: One course from ENG 205-Introduction to English Studies and Ways of Reading, 3 hrs.; 330-Ethnic Literature in America, 3 hrs.; EDUC 440-Current Trends in Reading, 3 hrs.; 455-Diagnostic Teaching of Reading, 3 hrs.; 493-Content Area Reading: Differentiated Instruction, 3 hrs.

Junior High/Middle School Licensure
Students completing the requirements for a teaching license in elementary education: intermediate setting, which includes grades four through six, also may qualify for the junior high/middle school teaching license when they successfully complete the following:

1) EDUC 304-Growth & Development: Early Adolescence and 488-The Middle School Curriculum;
2) EDUC 477-Junior High/Middle School Practicum; and
3) a minor in an approved teaching area from language arts, reading, physical education, science, social studies, mathematics, or any other subject area taught in the junior high/middle school. Requirements for these minors are listed elsewhere in this publication.

Students who complete the University’s secondary education program for high school teaching (grades 9-12) also may qualify for a junior high/middle school license (grades 5-8) by completing: 1) EDUC 304-Growth & Development: Early Adolescence and 488-The Middle School Curriculum and 2) EDUC 477-Junior High/Middle School Practicum. These students will be licensed in the area of the teaching major at both levels: junior high/middle school and high school.

Professional Preparation Program for Secondary Education
The student who desires to become a high school teacher must complete the following pattern that leads to a baccalaureate degree and teacher licensure in the State of Indiana. This program includes preparation for teaching in middle and junior high school as well as high school. Students interested only in high school teaching should see the University's teacher licensing advisor in the Education Center for program information.

Core Curriculum Requirements for Secondary Education
See the University Core Curriculum section in this bulletin or online at www.usi.edu.
Professional Education Requirements for Secondary Education

Required Education Courses:
- EDUC 196: Foundations of Reflective Teaching
- 202: Growth and Development: Adolescence and Young Adult
- 214: Instructional Technology in Education
- 302: Multicultural Education
- 304: Growth and Development: Early Adolescence
- 305: Teaching and Learning in the Senior High, Junior High, and Middle School
- 448: Synthesis Seminar in Secondary Teaching
- 477: Junior High/Middle School Practicum
- 488: The Middle School Curriculum
- 493: Content Area Reading: Differentiated Instruction

The special methods course in the major teaching field, listed below, 2-4 hrs., 473: Supervised Teaching in the Secondary School, 9 hrs.

Note: This program prepares students for teaching at two levels: junior high/middle school and high school.

Special Methods courses teaching in the secondary school (a minimum of one course is required)
- Mathematics Methods 391: Teaching Mathematics in the Senior High, Junior High and Middle School, 3 hrs.
- English Methods 395: Teaching English in the Senior High, Junior High and Middle School, 2 hrs.
- Social Studies Methods 394: Teaching Social Studies in the Senior High, Junior High and Middle School, 2 hrs.
- Science Methods 396: Teaching Science in the Senior High, Junior High and Middle School, 2 hrs.
- Foreign Language Methods 390: Teaching Foreign Languages in the Senior High, Junior High and Middle School, 2 hrs.
- Art Methods 391, 2 hrs.
- Art Education 395, 4 hrs.
- Physical Education 396: Teaching Physical Education, 3 hrs.

Teaching Areas
Students must select as a minimum one of the following patterns:
1. One teaching major (36 credit hours minimum)
2. One teaching major (36 credit hours minimum) and one or more teaching minors (24 credit hour minimum)
3. One all-grade major

Secondary Education Teaching Majors and Minors

Majors
- Business
- French
- German
- Language Arts or English (Language Arts)
- Mathematics

Physical Education
- Science
- Social Studies
- Spanish
- Visual Arts

1. Science—single- and dual-area licensure are available in chemistry, earth sciences, life sciences, and physics. Mathematics is available as a dual-area license with another science area.

2. Social Studies—candidates are licensed in historical perspectives and government/citizenship; and a third area—economics, psychology, or sociology.

Minors
- English
- French
- German
- Health and Safety Education
- Mathematics
- Physical Education
- Reading
- Spanish
- Special Education
- Visual Arts

For lists of course requirements for majors and minors, see either the appropriate sections in the bulletin or personnel in the respective departments. Program course checklists also are available in the Teacher Education Department of the Bower-Suhreinrich College of Education and Human Services.

Professional Preparation Program for All-Grade Education

The student who desires to become a teacher at all grade levels must complete requirements that lead to a baccalaureate degree and teacher licensure at four school settings:
1) elementary-primary (K-3);
2) elementary-intermediate (4-6);
3) junior high/middle school (5-8); and
4) high school (9-12).

Teaching Areas for All-Grade Education Majors
- Physical Education
- Visual Arts

University Core Curriculum for All-Grade Education
See the University Core Curriculum section in this bulletin.
Professional Education Requirements for All-Grade Education

Required courses: EDUC 196-Foundations of Reflective Teaching, 201-Growth and Development: Middle Childhood, 202-Growth and Development: Adolescence and Young Adult, 214-Instructional Technology in Education, 302-Multicultural Education, 305-Teaching and Learning in the Senior High, Junior High, and Middle School, 493- Content Area Reading: Differentiated Instruction.

Professional semester:

Course Descriptions

EDUC 196 is a prerequisite for all subsequent courses with the exception of EDUC 201 or 202 which may be taken concurrently.

196 Foundations of Reflective Teaching (3) The first course taken by all education students seeking the baccalaureate degree. This course is designed to introduce students to the profession of teaching and to the philosophical foundation for teacher education at USI—the Reflective Teaching Model. It introduces students to the program requirements for all teacher education programs. The course examines the nature and functions of schools, using philosophical, historical, and sociological perspectives. Students will explore the ways in which the preservice teacher’s beliefs (especially about knowledge, ethics, and human life) influence educational outcomes by helping to shape classroom life. Guided field experience required. Prereq: ENG 201 and minimum of FR2 status.

201 Growth and Development: Middle Childhood (3) Examines the early and current theories of child development in the areas of physical/motor, psychosocial (cultural influences), and cognitive/language/literacy development of students ages seven to 12 years. Foci on the integration of research findings and theories of growth and development in elementary school practice. Guided field experience required. Prereq: EDUC 196 or co-requisite, F, Sp

202 Growth and Development: Adolescence and Young Adult (3) Examines the early and current theories of adolescent/young adult development in the areas of physical, psychosocial (cultural influences), and cognitive/language/literacy development of adolescent/young adult students. Focuses on the integration of research findings and theories of growth and development in high school practice. Guided field experience required. Prereq: EDUC 196 or co-requisite, F, Sp

214 Instructional Technology in Education (3) Explores the use of the technology to enhance the teaching and learning process. Students will explore current research, issues and methodology related to the design, development and use of technology resources. Emphasis will be placed on the evaluation and selection of Internet resources, educational software, productivity tools, and other emerging technologies in the educational environment. Students will develop skills in the production and effective use of print, projected, and displayed communication using technology tools. Prereq: EDUC 196.

241 Early Childhood Education (3) Practical consideration of recent trends and techniques for the education of young children in nursery school, kindergarten, and primary grades. Observation and first-hand experiences with young children required.

242 Growth and Development: Early Childhood (3) Examines the early and current theories of child development in the areas of physical/motor, psychosocial (cultural influences), and cognitive/language/literacy development of students ages birth to eight years. Focuses on the integration of research findings and theories of growth and development in early childhood practice. Guided field experience required. F, Sp

243 Observation, Assessment, and Documentation (3) Examines the importance of observation and documentation to the assessment process. Techniques for each area will be considered. Field experience required. Prereq: concurrent enrollment in EDUC 242.

246 Language and Literacy in the Early Years (3) Examines the process of language and literacy development in young children. The course focuses on ways teachers of young children integrate research-based knowledge with early school and family literacy. Field experience required. Prereq: EDUC 242.

255 Growth and Development: Infants and Toddlers (3) Examines the growth and development of infants and toddlers. Emphasis will be on studying the uniqueness of the earliest years and the implications for care in group settings. Field experience required. Prereq: EDUC 242.

256 Guidance of Young Children (3) Studies various theories and practices related to the guidance of young children. Emphasis on self-awareness for teachers and parents leading to setting program goals and promoting prosocial behavior. Prereq: EDUC 242.

257 Programs for Infants and Toddlers (3) Examines theoretical approaches in infant/toddler care. Emphasis will be on developing programs and activities for infants and toddlers in group care. Field experience required. Prereq: EDUC 242 and 255.

272 Health, Safety, Nutrition for the Young Child (3) Studies the link between proper nutrition, health, and child development. Special health and safety needs of young children will be explored as they relate to program plans in early childhood settings. Information for teachers to share with families will be developed. Field experience required. Prereq: EDUC 242.

284 Early Childhood: Program Administration (3) Analyzes and evaluates current educational programs for young children with emphasis on the management aspects of child care programs including personnel matters (employment, training, and dismissal); policies and procedures related to health, safety, fire regulations and facility maintenance; financial planning and budgeting; supervision of program; and personnel relationships. Field experience required. Prereq: completion of 15 hours in early childhood education.
294 Foundations of Education (3) Examines the nature and functions of schools, using philosophical, historical, and sociological perspectives. Special attention will be given to the ways in which the pre-service teacher's beliefs (especially about knowledge, ethics, and human life) influence educational outcomes by helping to shape classroom life. F, Sp, Su

302 Multicultural Education (3) The purpose of this course is to explore the theory and knowledge base that supports multicultural education and an awareness of diversity within American society. Topics may include the critical study of issues as they relate to race and ethnicity, exceptionality, language and dialect, religion, gender, and age. Field experiences may be required. Prereq: EDUC 201 or EDUC 202 or EDUC 242. F, Sp, Su

304 Growth & Development: Early Adolescence (3) Examines the early and current theories of early adolescent development in the areas of physical, psychosocial (cultural influences), and cognitive/linguage/learning development of students ages 10 to 14 years. Focuses on the integration of research findings and theories of growth and development in middle school practice. Guided field experience required. F, Sp

305 Teaching and Learning in the Senior High, Junior High, and Middle School (3) The nature of teaching and learning, including psychological principles, instructional planning, instructional techniques, curriculum, and evaluation. Prereq: EDUC 202 and admission to teacher education. Guided field experience required. F, Sp

306 Educating Exceptional Children (3) Defines and examines the nature and needs of exceptional children. Teaching methods that address each area of exceptionality and the effectiveness of these techniques will be discussed. The role of teachers, parents, and other relevant personnel will be investigated in relation to current practices which include mainstreaming, inclusion, least restrictive environment, and individual education program. F, Sp, Su

340 Special Topics in Early Childhood Education (1-3) Explores contemporary topics or innovative developments in early childhood education. Subtitle and credit hours determined by faculty at each offering.

341 Children's Literature (3) Introduces children's literature and its uses in elementary schools. Students read fiction and non-fiction literature, construct understandings about literacy elements, create and microteach integrative lessons, and reflect on the teaching experience. F, Sp, Su

344 Family, School, Community Partnerships (3) Examines the diversity of families and factors that influence parenting in contemporary society. Focuses on strategies to develop working partnerships with parents, Addresses ways to design parent-teacher conferences, parent education, and parent involvement in P-6 settings. Guided field experience required. F, Sp

346 Early Childhood Curriculum I (3) Examines theoretical views of cognitive development with a focus on how children, ages three through five in preschool settings, acquire, organize, and apply knowledge. Integrated methods and developmentally appropriate activities in early childhood education for math, science, and social studies are emphasized. Foundations for Young Children to the Indiana Academic Standards are emphasized. Field experience required. Prereq: EDUC 242. F, Sp

347 Early Childhood Curriculum II (3) Examines theories and importance of creativity in children’s development. Integrated methods and developmentally appropriate activities for art, music, play, and movements curriculum for children ages three through five in preschool. Field experience required. Prereq: EDUC 242. F, Sp

348 School-Age Child Care (3) This course examines the needs of children in school age childcare, ages five to 12 years. Emphasis is placed on the study of the environment, curriculum, and schedule necessary for developmentally appropriate school-age programs in a variety of settings. Field experience required. Prereq: EDUC 242, 346, and 347 or consent of instructor.

NOTE: ENROLLMENT IN TEACHER EDUCATION PROGRAMS REQUIRES PROGRAM ADMISSION STATUS FOR MOST COURSES AT 350 LEVEL AND ABOVE. CHECK PROGRAM REQUIREMENTS.

351 Music and Movement for Young Children (3) Explores music, movement, and rhythms for young children with a focus on physical activity in developmentally appropriate activities in kindergarten and primary settings. Field experience required. Prereq: EDUC 201 or 242, admission to teacher education.

355 Practicum in Early Childhood Education (3) Relates theory to practice through supervised experiences in an early childhood setting. Students work under the general supervision of pre-school and University personnel. Su

356 Science and Math (Kindergarten/Primary) (3) Examines methods and materials in the areas of science and math that are developmentally appropriate for young children. Emphasis will be on planning active involvement related to science and math concepts for children in kindergarten and primary settings. Field experience required. Prereq: EDUC 201 or 242, admission to teacher education.

357 Expressive Arts/Social Studies (Kindergarten/Primary) (3) Examines the objectives, resources, curriculum development, methods of teaching social studies and expressive arts at kindergarten and primary levels. Emphasis on integrated curriculum and professional collaboration. Field experience required. Prereq: EDUC 201 or 242, admission to teacher education.

359 Practicum Topics in Early Childhood Education (1-3) Experience is designed to relate theory to practice through supervised experiences in an early childhood setting. Students work under the supervision of preschool and University personnel. Topic is specified for each offering. The course may be repeated up to a maximum of nine credit hours. No prereq.

366 Educational Assessment (3) Examines the impact of testing and assessment. Reviews accountability movements, standardized testing, and high stakes assessment systems as they affect the roles and power of teachers and administrators. Students will learn to construct normative and criterion referenced assessments, and learn their utility in aligning curriculum and activities with K-12 content standards. Field experiences may be required. Prereq: EDUC 302 and EDUC 306, admission to teacher education. F, Sp, Su

373 Teaching Science in the Elementary School (3) Designed to integrate, physical, biological, earth/science concepts and the teaching of science. Experiences in inquiry based problem solving using primary and integrated science process skills stressed. Age-appropriate science content and teaching methodologies are studied. The course also explores issues regarding safe science, evaluating student comprehension in science, and addressing state and national science standards. Field experiences with children in a school setting required. It is strongly recommended that students have completed 7 credit hours of science before enrolling in this course. Prereq: admission to teacher education. F, Sp, Su
378 Reading and Language Arts in the Elementary School (3)
Teaching techniques and materials for the developmental reading pro-
gram plus techniques for establishing oral and written expression with
emphasis on understanding how language learning takes place in the
elementary school. Guided field experience required. Prereq: admission
to teacher education and EDUC 343 or consent of instructor. F, Sp, Su

388 Teaching Social Studies in the Elementary School (3) Examines
and uses methods, strategies, and materials that promote the develop-
ment of social studies concepts and generalizations in the developing
learner with an emphasis on the learner in the integrated curriculum.
The course also provides an opportunity for critical self-reflection of
the individual’s teaching and within a social, supportive context offers
assistance for improving practice. Guided field experience required.
Prereq: admission to teacher education. F, Sp, Su

390 Teaching Foreign Languages in the Senior High, Junior High,
and Middle School (2) Aims and methods of procedure in teaching
foreign language. F, Sp

391 The Teaching of High School Mathematics (3) The materials,
devices, and methods of teaching mathematics. F, Sp

392 The Teaching of Elementary School Mathematics (3) The mate-
rials, devices, and methods of teaching mathematics in the elementary
school. Guided laboratory experiences in local schools may be required.
Prereq: MATH 104, 204, 205, and admission to teacher education.

394 Teaching Social Studies in the Senior High, Junior High, and
Middle School (2) Emphasis on methods and materials in social stud-
ies. Required of those who do student teaching in social studies. Prereq:
18 hours in social sciences. F, Sp

395 Teaching English in the Senior High, Junior High, and Middle
School (2) Aims and methods of procedure in teaching English with
emphasis on literature and composition, plus materials and organization
as preparation for student teaching. F, Sp

396 Teaching Science in the Senior High, Junior High, and Middle
School (2) Aims and methods of procedure in teaching science. F, Sp

398 Balanced Reading Strategies and Practices (3) Examines issues
related to reading instruction and assessment in the context of a bal-
anced approach that emphasizes teacher reflection and decision-mak-
ing. Reading strategies, informal assessments, and organizing a class-
room for reading instruction are stressed. Students implement strategies
and assessments in a guided field experience. Prereq: EDUC 343 and
397 or consent of instructor. F, Sp, Su

401 Teaching Communications in the Senior High, Junior High, and
Middle School (2) Application of communications principles to practi-
cal classroom use. F, Sp

405 Educational Psychology (3) A study of educational psychology in
the classroom, how techniques from this area can aid the teacher in
subject matter presentation and in dealing with school pupils.
Irregularly offered.

411 Legal and Contemporary Issues Related to Exceptional Needs (3)
Examines the fundamentals for provision of special education service
delivery including legal and societal aspects. Develops skills and dispo-
sitions for consultation and collaboration strategies and ability to design
inclusive educational experiences based on disability characteristics and
extent of handicap. Field experience required. Prereq: EDUC 306. F, Sp, Su

412 Evaluation and Exceptionality: Assessment, Interpretation and
Instructional Design (3) Explores the purpose(s) of assessment, selec-
tion of criteria, administration techniques, need for accuracy in scoring,
determination of validity of interpretation, and application of data for
instructional design and implementation. The development of assess-
ment skills, awareness of legal and ethical issues, and collaboration will
be emphasized. Concurrent registration in EDUC 413 and EDUC 421
required. F, Sp

413 Learning Strategies for Students with Exceptional Needs (3)
Examines teaching methods appropriate for students with exceptional
needs. Emphasis is placed on all phases of the instructional process
based on assessment of student needs, developmental plans, appropriate
implementation and evaluation of effective instruction. Concurrent
registration in EDUC 412 and EDUC 421 required. F, Sp

414 Inclusive Philosophy and Educational Practices (3) Emphasizes
individualized educational experiences for all students through adapta-
tions/accommodations in general, modified or alternative curriculum
appropriate to a student’s unique needs both academically and socially.
Concurrent registration in EDUC 415 and EDUC 422 required. F, Sp

415 Management and Exceptionality: Environmental, Social and
Behavioral Aspects (3) Examines strategies for teaching appropriate
social skills and behavioral intervention strategies including conflict
resolution and crisis intervention. Includes a study of learning theory,
experiential learning, role-playing and relationships to behavioral inter-
vention and assessment plans. Field experience required. F, Sp

416 Partnership: Family, School, Community and Exceptionality (2)
Studies the coordination of school, home, and community resource for
the educational, physical, and social growth of children with exception-
al needs. Communication strategies will be emphasized to create coop-
erative collaborative partnerships. Concurrent registration with super-
vised teaching and EDUC 428 required. F, Sp

417 Transition and Exceptionality (3) Examines student transition
between school settings and into community environments. Develops
skills in working with students and their parents to encourage advocacy
and self-determination.

421 Exceptional Needs: Practicum I (3) Introduces observation, instruc-
tion, and evaluation skills in effective assessment and implementation of
effective individualized education plans/programs for academic success.
Concurrent registration with EDUC 412 and EDUC 413 required. F, Sp

422 Exceptional Needs: Practicum II (3) Introduces observation,
instruction and evaluation skills in effective assessment and implemen-
tation of effective individualized education plans/programs for success
in academic and nonacademic environments. Concurrent registration
with EDUC 414 and EDUC 415 required. F, Sp

423 Collaborative Partnerships (3) The course defines, studies, and
applies the skills necessary for teaching collaboratively. It presents a
paradigm that adheres to the belief that close working relationships
between teachers serving the same students are an absolute necessity.
Emphasis will be placed on the need for close communication between
professionals, the challenges of scheduling and instructional coordina-
tion, and interpersonal problem solving. Field experience required.

424 Supervised Teaching: Exceptional Needs—Elementary-Primary
(3-6) Engages in the professional role of special educator, with qualified
supervision, in an appropriate program placement including students
with exceptional needs at elementary-primary level. F, Sp
425 Supervised Teaching: Exceptional Needs—Elementary-Intermediate (3-6) Engages in the professional role of special educator, with qualified supervision, in an appropriate program placement including students with exceptional needs at elementary-intermediate level. F, Sp

426 Supervised Teaching: Exceptional Needs—Middle School/Junior High (3-6) Engages in the professional role of special educator, with qualified supervision, in an appropriate program placement including students with exceptional needs at middle school/junior high level. F, Sp

427 Supervised Teaching: Exceptional Needs—Secondary School (3-6) Engages in the professional role of special educator, with qualified supervision, in an appropriate program placement including students with exceptional needs at secondary level. F, Sp

428 Synthesis Seminar: Professional Issues in Exceptional Needs (1) Utilizes reflective processing and mentoring during supervised teaching experiences to support successful professional performance. Concurrent registration with supervised teaching and EDUC 416 required. F, Sp

431 Supervised Teaching: Kindergarten (6) Examines the professional role of early childhood educator, with qualified supervision, in a kindergarten setting. Concurrent registration in EDUC 433 required.

432 Supervised Teaching: Elementary-Primary (6) Examines the professional role of early childhood educator, with qualified supervision, in an elementary-primary setting. Concurrent registration in EDUC 433 required.

433 Synthesis Seminar in Early Childhood Education (3) Capstone Seminar in early childhood teaching. A pre-professional course which provides a synthesis of interdisciplinary knowledge and pedagogical practices. Integrates knowledge gained from the University Core Curriculum, subject area coursework, and professional education core. The course also examines case studies which present issues faced by teaching professionals in early childhood settings. Prereq: Permission of director of field experiences in education.

438 Synthesis Seminar in Special Education (3) Capstone Seminar in Special Education. A preprofessional course which provides a synthesis of interdisciplinary knowledge and pedagogical practices. Integrates knowledge from the University Core Curriculum, subject area coursework, and professional education core. This course also examines case studies which present issues faced by teaching professionals in school settings. Prereq: Permission of director of field experiences in education.

440 Current Trends Reading (3) The teaching of reading undergoes a variety of changes based on the social and political climate. This course offers the opportunity for students to explore trends and issues that are currently impacting the teaching of reading. Topics that may be explored: new instructional programs, state mandates in reading instruction, changing state and national standards, and phonics instruction.

441 Young Adult Literature (3) Course provides an overview of literature for adolescents and young adults. Participants will critique these materials and design plans for incorporating all genres of young adult literature in middle school and high school classrooms.

442 Advanced Children’s Literature (3) Course provides an opportunity for classroom teachers and media specialists to explore recently published books and non-print materials for children in P-6. Participants will critique these materials and design plans for incorporating all genres of children's literature in their classrooms.

443 Production of Instructional Materials (3) Planning, preparing, and evaluating teacher-produced software. Units include such areas as production, planning, graphic, photographic, and audio media. Production within units is based upon the individual's purposes and interests. Practical experiences in preparing software are emphasized. Prereq: EDUC 214, or consent of instructor.

448 Synthesis Seminar in Secondary Teaching (3) Capstone Seminar in Secondary Teaching. A pre-professional course which provides a synthesis of interdisciplinary knowledge and pedagogical practices. Integrates knowledge gained from the University Core Curriculum, subject area coursework, and professional education core. The course also examines case studies which present issues faced by teaching professionals in secondary school settings. Prereq: permission of director of field placement. F, Sp

455 Diagnostic Teaching of Reading (3) Emphasizes diagnostic teaching in which teachers assess reading during instruction. A model of diagnostic decision-making is presented that encourages the teacher of reading to view assessment and instruction as interacting and continuous processes. A variety of formal and informal assessment measures are studied for their assessment and instructional value.

458 Synthesis Seminar in Elementary Teaching (3) Capstone Seminar in Elementary Teaching. A pre-professional course which provides a synthesis of interdisciplinary knowledge and pedagogical practices. Integrates knowledge gained from the University Core Curriculum, subject area coursework, and professional education core. The course also examines case studies which present issues faced by teaching professionals in elementary school settings. Prereq: permission of director of field placement. F, Sp

460 Seminar in Elementary Supervised Teaching (2) Designed to develop insight during laboratory experiences of student teachers. It is also open to advanced teachers.

461 Microcomputer Applications for Educators (3) Examines ways computers can be used as productivity and instructional tools in educational settings. Applications include word processing, spreadsheets, databases, and utility programs.

465 Computers in the Curriculum (3) Focuses on the integration of technology into the school curriculum. Explores educational and management software, productivity tools, emerging technologies (e.g., CD-ROM, laserdisc, multimedia/hypermedia, telecommunications), instructional strategies, key issues and trends related to computer technology in the teaching/learning environment. Prereq: EDUC 461 or equivalent strongly recommended, but not required. F, Sp, Su

466 Authoring Educational Multimedia Resources (3) Focuses on the systematic design and development of educational software and multimedia resources. Students plan instructional sequences, then apply computer programming and courseware design skills to the development of informational, instructional, and constructional resources. Internet, laserdiscs, CD-ROM, CD-audio, digitized audio, digitized still and motion video, and scanned images are incorporated into multimedia projects. Interdisciplinary multimedia thematic units also are developed. Prereq: EDUC 424, 465, or equivalent.

467 Teaching and Learning at a Distance (3) Focuses on the process of connecting learners with remote resources as primary or secondary means of learning. Examines the systematic design and development of distance learning environments (e.g., video, computer, and Internet-based delivery systems) with special consideration to learner needs and varied communication channels. Students plan and design instructional
sequences, then apply distance learning techniques that address issues such as the need for real-time vs. delayed interaction. The evolving roles of technology, faculty, and learners are discussed. The course will be taught using the technologies demonstrated in class. Prereq: EDUC 214, 465, or equivalent.

468 Advanced Instructional Technology (3) Focuses on technical and management skills needed to coordinate the technology program in a school. Technical topics include analyzing computer and networking environments (i.e., wiring, services, hardware, software), advanced instructional development, and conducting technology installation, maintenance, repair, and upgrades. Job and development and technical troubleshooting will be explored. Management topics include technology planning, implementation, and evaluation, staff development, facilities design, budgeting, and grant writing. Prereq: EDUC 214, 465, or equivalent.

469 Special Topics in Computer Education (1-3) Explores contemporary topics or innovative developments related to the integration of computers and other technology into educational settings. Credit hours available determined by faculty. Repeatable for maximum of five credit hours. Prereq: consent of instructor. F, Sp

471 Supervised Teaching in the Elementary School (9) Orientation, participation, and actual teaching in the elementary grades. Enrollment only by permission of director of field experiences in education. F, Sp

472 Supplemental Supervised Teaching in the Elementary School (3) Participation and actual teaching in the elementary grades. Enrollment only by permission of director of field experiences in education. F, Sp

473 Supervised Teaching in the Secondary School (9) Orientation, participation, and actual teaching in the secondary grades. Enrollment only by permission of director of field experiences in education. F, Sp

474 Supplemental Supervised Teaching in the Secondary School (3) Participation and actual teaching in the secondary grades. Enrollment only by permission of director of field experiences in education. F, Sp

476 Kindergarten Practicum (3) For students on the elementary curriculum who wish to be certified for teaching in kindergarten. Enrollment only by permission of director of field experiences in education. F, Sp

477 Junior High/Middle School Practicum (3) Responsible teaching, under supervision, at the junior high/middle school level. The student will design, teach, and evaluate specific learning experiences. Prereq: EDUC 304 or 488. Enrollment only by permission of director of field experiences in education. F, Sp

478 Practicum in Reading Instruction (3) Practicum includes actual experiences in a field reading situation, under the supervision of public school and college personnel. Enrollment only by permission of director of field experiences in education. F, Sp

488 The Middle School Curriculum (3) Designed to serve the needs of those concerned with the development and organization of the middle school program. It encompasses a consideration of the theory and processes of curriculum planning and evaluation. F, Sp

490 Special Topics in Education (1-3) Course is devoted at each offering to the study of a contemporary topic or innovative development in education. Credit hours available for each offering and course requirements are determined by the education faculty.

493 Content Area Reading: Differentiated Instruction (3) Teaching techniques and materials for using reading and writing across the curriculum in middle and senior high school. The role of teachers, parents, and other relevant personnel will be investigated in relation to best practices in differentiated instruction for all learners including exceptionalities.

494 Workshop in Reading (2) An analysis of instructional programs in content areas with emphasis on both developmental reading and remedial procedures.

498 Current Research in Education (1-3) A survey of current research in education. Designed to meet individual needs of students.

499 Individual Study in Educational Psychology (1-3) A survey of current research in learning. Designed to meet individual needs of students.

NOTE: Methods courses in secondary education do not count toward the major or minor.
COLLEGE OF LIBERAL ARTS

The College of Liberal Arts offers students the opportunities, first, to develop the fundamentals of a liberal education upon which to base a lifetime of learning and, second, to concentrate in studies that form the foundation for professional pursuits.

The College includes the departments of Art, Music, and Theatre; Communications; English; Foreign Languages; History; Philosophy; Political Science; Psychology; and Sociology. Through these departments, the College offers more than 30 majors and emphases and a similar number of minors. Students interested in teaching careers may seek secondary education licensing in art, communications, theatre, English, French, German, Spanish, and social studies.

The Liberal Arts and a Liberal Education
A liberal education, in the words of Martha Nussbaum, is the “cultivation of the whole human being for the functions of citizenry and life.” At USI this cultivation is the goal of the University Core Curriculum, many of the courses for which are offered in Liberal Arts. Complete details of the core are available at www.usi.edu/libarts/ucccore.htm/. Students should consult with their advisors in developing a specific plan for completing these requirements. Those students majoring in Liberal Arts disciplines, except those seeking teacher certification in secondary education, fulfill the Synthesis requirement of the University Core by taking LIBA 497: Capstone Studies. Students seeking a major or minor in Liberal Arts must have a 2.0 GPA or better in their major or minor coursework, unless otherwise stated.

Bachelor of Arts and Bachelor of Science Degrees
Four-year degree programs in the College of Liberal Arts lead to either a Bachelor of Arts or a Bachelor of Science degree. The Bachelor of Arts degree at USI requires a minimum of 12 hours of instruction in an individual foreign language or the demonstration of competence at the intermediate level through an appropriate language examination.

The Bachelor of Arts, with its emphasis upon the study of a foreign language and a broad knowledge base, is especially valuable for students who hope to go on to graduate studies. Those considering graduate school should consult with their advisors about the Bachelor of Arts option.

Teacher Licensing Policy
Many students majoring in disciplines in the College of Liberal Arts prepare themselves to teach in secondary schools (high schools, junior high schools, or middle schools). Although these candidates for licensing may take some education courses in their freshman and sophomore years, formal application for admission to the secondary education program (under the direction of the Bower-Suhrenreich College of Education and Human Services) does not occur until they have completed their 55th credit hour. The procedure for application and admission to professional education is:

A student normally applies for admission to the teacher education program in the semester in which he/she enrolls for the 55th credit hour, and successfully completes the Praxis I test. As part of the application process, the student will be interviewed by both the major and minor departments. A student should ask his or her advisor to arrange the interview.

When a student requests the interview, the advisor will establish a committee consisting of two to three faculty members who know the student from class. This committee will meet as soon as possible to interview the student, review his or her record, and decide on its recommendation.

The committee may decide as follows: (1) to admit the student unconditionally; (2) to admit with specific conditions; (3) to reject the student. The chair of the committee will record the committee’s decision on the student’s application form and return the form to the student. One copy of the recommendation will be placed in the student’s advising folder. The committee will send a copy of the recommendation to the Teacher Education Department and a copy to the student.

Among factors the committee will consider in making its decision are the student’s academic record, performance
in classes, course work completed, ability to organize and present material orally, and general promise. In particular, University regulations require that a student admitted unconditionally to the teacher education program must carry a grade point average of at least 2.75, in his/her major, any supporting area or minor, and overall.

A transfer student who applies for admission before completing a full semester at USI may be admitted conditionally, at the discretion of the advisor. After completing one semester, such a student must be interviewed as previously described so that a permanent decision can be made. The interview may be postponed until the student has completed courses with USI Liberal Arts faculty members.

A student may appeal the decision of the interview committee to the dean.

ART-MUSIC-THEATRE

The Art Program
The art program instructs students in the mastery of art skills and concepts, establishes a foundation for critical thinking, and develops each student’s creative potential. Four integrated academic units form the art program: studio art, graphic design, art education, and art history. Introductory courses in design and drawing prepare students for entry into areas of concentration within the major. These areas of concentration are designed to develop advanced technical and conceptual skills. In order to enhance their understanding of the visual arts, all art students complete a sequence of art history courses. Ultimately, the goal of the art program is to prepare each student to become a contributing member of the art profession, the community, and society as a whole.

Both the Bachelor of Arts and the Bachelor of Science degrees in art and in education are offered in the art program. Within the art degree, students choose an emphasis in studio art (ceramics, jewelry, painting, photography, printmaking, sculpture, or woodworking), art history, graphic design, illustration, or interactive media design. Students seeking an art education degree select either an all-grade (K-12) or high school certification. Minors in art, art history, and art education also are available.

The art program serves to define professional goals and to provide entry into career fields or graduate study. Upon the completion of their studies at USI, many art majors have been accepted into graduate programs at prestigious institutions throughout the country. The art faculty takes pride in the accomplishments of its graduates, who have achieved success as graphic designers, artists, elementary- to university-level teachers, museum and gallery personnel, and art historians.

The art program is affiliated with the New Harmony Gallery of Contemporary Art, which provides continuous art exhibitions during the academic year and hosts the Senior Seminar Exhibition in January. An internship program allows senior art students to work in professional settings at design firms, museums, and galleries in the area. The culmination of each year’s work is the student art exhibition held on campus each spring.

Major – Art, Studio Emphasis
45 credit hours
NOTE: HUM 221-Western Tradition in Art History I, and HUM 222-Western Tradition in Art History II, taught by art history faculty, are found under the listing for Humanities courses and count as part of the University Core Curriculum.

Required courses:
- ART 103-Color and Design, 3 hrs.; 104-Design in Materials, 3 hrs.; 105-Drawing, 3 hrs.; 106-Drawing and Composition, 3 hrs.; 205-Figure Drawing I, 3 hrs.; 206-Figure Drawing II, 3 hrs.; HUM 221-Western Tradition in Art History I, 3 hrs.; HUM 222-Western Tradition in Art History II, 3 hrs.; 493-Senior Art Seminar, 3 hrs.; and two 300 or 400 level art history courses (6 hrs.).

Elective courses: 12 credit hours selected from art course offerings as directed by advisor.

Major – Art, Art History Emphasis
39 credit hours
Required courses: HUM 221-Western Tradition in Art History I, 3 hrs.; HUM 222-Western Tradition in Art History II, 3 hrs.; Art 103-Color and Design, 3 hrs. OR 104-Design in Materials, 3 hrs. OR 273-Photography I, 3 hrs. (choose one); Art 323-Ancient Art, 3 hrs. OR 327-Medieval Art, 3 hrs. (choose one); Art 343-Renaissance Art, 3 hrs. OR 344-Baroque Art, 3 hrs. (choose one); Art 353-19th Century European and American Art, 3 hrs. OR 354-20th Century European and American Art, 3 hrs. (choose one); Art 355-Contemporary Art, 3 hrs. OR 374-Photography II, 3 hrs. (choose one); Art 490-Special Problems in Art History, 3 hrs.; one 300/400 level art history course.

Elective courses: 12 credit hours selected from: Art 253, 323, 327, 343, 344, 353, 354, 355, 359 (only one 3-credit tour counts for major), Art 490 (repeatable for a total of five times for major), one studio art elective (only 3 hours count towards elective total).
Major – Art, Graphic Design Emphasis
45 credit hours

Required courses: ART 103-Color and Design, 3 hrs.;
105-Drawing I, 3 hrs.; HUM 221-Western Tradition in
Art History I, 3 hrs.; HUM 222-Western Tradition in Art
History II, 3 hrs.; 231-Introduction to Graphic Design, 3 hrs.;
232-Typography, 3 hrs.; 275-Computer Graphic Arts, 3 hrs.;
331-Illustration I, 3 hrs.; 376-Graphic Design II, 3 hrs.;
475-Graphic Design III, 3 hrs.; 493-Senior Art Seminar,
3 hrs.; and two 300 or 400 level Art History courses (6 hrs.).

Directed electives: Six hours selected from the follow-
ing: ART 106-Drawing and Composition, 3 hrs.; 205-
Figure Drawing I, 3 hrs.; 273-Photography I, 3 hrs.; 374-
Photography II, 3 hrs.; 332-Illustration II, 3 hrs.; 431-
Illustration III, 3 hrs.; 361-Printmaking I, 3 hrs.; 362-
Printmaking II, 3 hrs.; 378-History of Graphic Design, 3
hrs.; 381-Interactive Media Design I, 3 hrs.; 382-
Interactive Media Design II, 3 hrs.; 476-Graphic Design
IV, 3 hrs.; 400-Special Problems in Art, 3 hrs. (repeatable
for 9 credit hours).

Major – Art, Illustration Emphasis
45 credit hours

Required courses: ART 103-Color and Design, 3 hrs.;
105-Drawing I, 3 hrs.; 106-Drawing and Composition, 3
hrs.; 205-Figure Drawing I, 3 hrs.; HUM 221-Western
Tradition in Art History I, 3 hrs.; HUM 222-Western
Tradition in Art History II, 3 hrs.; 275-Computer
Graphic Arts, 3 hrs.; 331-Illustration I, 3 hrs.; 332-
Illustration II, 3 hrs.; 361-Printmaking I, 3 hrs.;
362-Printmaking II, 3 hrs.; 378-History of Graphic Design,
3 hrs.; 400-Special Problems in Art, 3 hrs. (repeatable
for 9 credit hours).

Directed electives: Six hours selected from the follow-
ing: ART 432-Illustration IV, 3 hrs.; 231-Intro to Graphic
Design, 3 hrs.; 232-Typography, 3 hrs.; 273-Photography
I, 3 hrs.; 376-Graphic Design II, 3 hrs.; 381-Interactive
Media Design I, 3 hrs.; 382-Interactive Media Design II,
3 hrs.; 476-Graphic Design IV, 3 hrs.; 400-Special Problems
in Art, 3 hrs. (repeatable for 9 credit hours).

Major – Art, Interactive Media Design Emphasis
45 credit hours

Required courses: ART 103-Color and Design, 3 hrs.;
HUM 221-Western Tradition in Art History I, 3 hrs.;
HUM 222-Western Tradition in Art History II, 3 hrs.;
231-Introduction to Graphic Design, 3 hrs.; 232-
Typography, 3 hrs.; 273-Photography I, 3 hrs.; 275-
Computer Graphic Arts, 3 hrs.; 381-Interactive Media
Design I, 3 hrs.; 382-Interactive Media Design II, 3 hrs.;
481-Interactive Media Design III, 3 hrs.; 493-Senior Art
Seminar, 3 hrs.; and two 300 or 400 level Art History courses (6 hrs.).

Directed electives: Six hours selected from the follow-
ing: ART 482-Interactive Media Design IV, 3 hrs.; 374-
Photography II, 3 hrs.; 473-Photography III, 3 hrs.; 372-
Video Art, 3 hrs.; 376-Graphic Design II, 3 hrs.; 475-
Graphic Design III, 3 hrs.; 476-Graphic Design IV, 3 hrs.;
361-Printmaking I, 3 hrs.; 362-Printmaking II, 3 hrs.;
331-Illustration I, 3 hrs.; 332-Illustration II, 3 hrs.; 378-
History of Graphic Design, 3 hrs.; 400-Special Problems
in Art, 3 hrs. (repeatable for 9 credit hours).

Minor – Art
24 credit hours

Required courses: ART 103-Color and Design or 104-
Design in Materials, or an additional 300 or 400
level art history course, 3 hrs.;
105-Drawing I, 3 hrs.; 106-Drawing and Composition or
205-Figure Drawing I, 3 hrs.;
HUM 221-Western Tradition in Art History I, 3 hrs.;
HUM 222-Western Tradition in Art History II, 3 hrs.

Elective courses: Nine hours selected from art course
offerings in consultation with advisor; six of those hours
must be at the 300-400 level.

Minor – Art History
24 credit hours

Required courses: HUM 221-Western Tradition in Art
History I, 3 hrs.; HUM 222-Western Tradition in Art
History II, 3 hrs.; three 300-level art history courses, 9
hrs.; two 490-level courses on different topics, 6 hrs.;
one course from the following: ART 103-Color and Design, 3
hrs.; 104-Design in Materials, or an additional 300 or 400
level art history course, 3 hrs.

Teacher Certification (Art)
Note: Review the College of Liberal Arts Teacher
Certification Policy at the beginning of the College of
Liberal Arts section of this bulletin. Also, review the
procedures and regulations for students in teaching pro-
grams in the Bower-Surheirich College of Education and
Human Services bulletin information.

All Grade Major – K-12 Teaching (Art)
52 credit hours and 36 credit hours in Education

Required courses: ART 103-Color and Design, 3 hrs.;
104-Design in Materials, 3 hrs.; 105-Drawing I, 3 hrs.;
205-Figure Drawing I, 3 hrs.; HUM 221-Western
 Tradition in Art History I, 3 hrs.; HUM 222-Western Tradition in Art History II, 3 hrs.; 311-Painting I, 3 hrs.; 313-Ceramics I, 3 hrs.; 315-Jewelry I, 3 hrs.; 341-Sculpture I, 3 hrs.; 396-Materials/Methods Elem./Mid. Art Ed, 3 hrs.; 397-Materials/Methods Secondary Art Ed, 3 hrs.; 398-Workshop in Art Education, 1 hr.; one (1) 300-400 level Art History course, 3 hrs.

Elective courses: 12 hours selected from art course offerings as directed by advisor.

Major – Secondary Teaching (Art)
39 credit hours and 36 credit hours in Education

Required courses: ART 103-Color and Design, 3 hrs.; 104-Design in Materials, 3 hrs.; 105-Drawing, 3 hrs.; 205-Figure Drawing I, 3 hrs.; HUM 221-Western Tradition in Art History I, 3 hrs.; HUM 222-Western Tradition in Art History II, 3 hrs.; 311-Painting I, 3 hrs.; 313-Ceramics I, 3 hrs.; 315-Jewelry I, 3 hrs.; 341-Sculpture I, 3 hrs.; 353-19th Century Art; 354-20th Century Art, or 355-Contemporary Art, 3 hrs.; 397-Materials/Methods Secondary Art Ed, 3 hrs.

Elective courses: Three hours selected from art course offerings as directed by advisor.

Minor – Elementary or Secondary Teaching (Art)
24 credit hours

Required courses: ART 103-Color and Design, 3 hrs.; 104-Design in Materials, 3 hrs.; 105-Drawing, 3 hrs.; 205-Figure Drawing I, 3 hrs.; HUM 221-Western Tradition in Art History I, 3 hrs.; 315-Jewelry I, 3 hrs.; 341-Sculpture I, 3 hrs.; 396-Materials/Methods Elem./Mid. Art Ed, or 397-Materials/Methods Secondary Art Ed, 3 hrs.

Course Descriptions
Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

Art (ART prefix)

103 Color and Design (3) An introduction to the two dimensional arts through projects based on the fundamentals of design and study of color theory. A wide variety of art media and techniques are presented to prepare students for courses in painting, printmaking, and graphic design. No prereq. F, Sp

104 Design in Materials (3) An introduction to the process of developing three-dimensional concepts in visual art, using various media such as wood, metal, and clay. No prereq. F, Sp

105 Drawing (3) Investigation of basic drawing concepts, such as line quality, negative space, perspective, and use of value. Course will concentrate on techniques in black and white drawing media. No prereq. F, Sp

106 Drawing and Composition (3) Continuation of ART 105, concentrating on development of finished compositions in drawing. Course will explore techniques in color media. Prereq: ART 105 or consent of instructor. F, Sp

201 Introduction to the Visual Arts (3) A basic survey of the media, elements, and organization of painting, graphics, sculpture, and architecture. Art 201 is not acceptable for Art Majors in B2 The Arts. No prereq. F, Sp

205 Figure Drawing I (3) Drawing the human figure, stressing form, structure, and action of the human figure. Prereq: ART 105. F, Sp

206 Figure Drawing II (3) Drawing the human figure from the posed model with various props. Prereq: ART 205. F, Sp

231 Introduction to Graphic Design (3) An introduction to the creative principles and processes in visual communication. Emphasis is placed on thinking visually, exploring the relationship between words and images, and developing appropriate solutions to the problems assigned. An overview of the history of graphic design also is covered. Prereq: ART 103, 105 or consent of instructor. F, Sp

232 Typography (3) This course examines type as an element of design in visual communications. Type design, the study of letterforms, and the historical and modern development of the alphabet are covered. Students explore the creation of informative, experimental and expressive typographic forms by using traditional and computer-generated techniques. F, Sp

253 Art of Ancient Mexico (3) The art of Mesoamerica and the development of civilization in southern Mexico, Guatemala, Belize, and Honduras; examination of the Olmec, Maya, Aztec, and other groups, as well as the period of conquest and current conditions among the native peoples of the region. No prereq. Sp

273 Photography I (Basic Photography) (3) Development of basic skills in black and white photography, including film development, enlarging, printing, mixing chemicals, and mounting. Student must provide adjustable 35mm camera and photo supplies. No prereq. F, Sp, Su

275 Computer Graphic Arts (3) This course explores the computer as a creative tool for designers, artists, and persons in the media arts. It familiarizes students with the concepts used in creative software programs for graphics. The primary emphasis is on the creative uses of computers in the arts, design, and media. F, Sp

311 Painting I (3) Focuses on traditional techniques in oil/acrylic painting media. No prereq. F, Sp, Su

312 Painting II (3) A continuation of ART 311, with emphasis on experimental/non-traditional painting techniques. Prereq: ART 311. F, Sp, Su

313 Ceramics I (3) Introduction to basic methods of working with clay. Throwing, hand building, and a variety of techniques will be covered. No prereq. F, Sp

314 Ceramics II (3) A continuation of ART 313. Emphasis on more complex forms and glazes. Introduction to clay and glaze formulation and continued development of firing techniques. Prereq: ART 313. F, Sp

315 Jewelry I (3) The theory and practice of making jewelry and metal objects. Introduction to the fundamentals of fabrication and construction techniques. Prereq: ART 104 or consent of instructor. F, Sp

323 Ancient Art (3) A survey of major monuments and issues of art from the ancient Western tradition, focusing primarily on the work of the Greeks and Romans, from c. 1600 BC to c. AD 400. Prereq: HUM 221 and HUM 222 or consent of instructor. Sp

327 Medieval Art (3) A survey covering major art movements and monuments in Europe, dating from the 4th to the 14th century, but concentrating on the art and architecture of the 8th to the 13th centuries. Prereq: HUM 221 and HUM 222 or consent of instructor. F

331 Illustration I (Traditional Illustration Techniques) (3) This course introduces students to illustration principles, methods, and the use of materials. Students develop their perceptual abilities, sensitivity to color, and compositional ideas within the context of illustration. Students also explore the use of various materials and techniques to produce two dimensional illustrations that challenge their ability to conceive and communicate ideas visually. Prereq: ART 105 or consent of instructor. F, Sp

332 Illustration II (Digital Illustration Techniques) (3) An introduction to computer illustration using both object-oriented drawing software and bit-mapped painting software. This course allows students to explore their creative ideas in depth utilizing the computer. Students explore the synthesis of traditional illustration skills with digital skills and techniques. Prereq: ART 275 or consent of instructor. F

341 Sculpture I (3) Introduction to processes and materials essential to the creation of three-dimensional art, accompanied by concept development to create successful sculpture. Prereq: ART 104 or consent of instructor. F, Sp

342 Sculpture II (3) Continuing involvement with sculptural processes and materials with emphasis on concept development. Prereq: ART 341. F, Sp

343 Renaissance Art (3) A survey covering major movements, largely in Italy, in the period c. 1300-1600, including the Proto-Renaissance, Early Renaissance, High Renaissance, Mannerism, and Late Renaissance. Prereq: HUM 221 and HUM 222 or consent of instructor. Sp

344 Baroque Art (3) A survey covering major movements in Europe and the Americas in the period 1600 – 1800, including the art and architecture of the Early Baroque, High Baroque, and Rococo. Prereq: HUM 221 and HUM 222 or consent of instructor. F

351 Woodworking I (3) Introduction to fundamental woodworking techniques. Emphasis will be placed on developing an understanding of basic wood joinery, machinery operation, and the development of an original design. Prereq: ART 104 or consent of instructor. F, Sp

352 Woodworking II (3) Continued experience in woodworking. The emphasis will be placed on merging the utilitarian form with the sculptural aesthetic. Prereq: ART 351. F, Sp

353 Nineteenth Century European and U.S. American Art (3) Covers the major movements in the period c. 1870-1880, emphasizing Romanticism, Neo Classicism, Realism, and Impressionism. Prereq: HUM 221 and HUM 222 or consent of instructor. Sp

354 20th Century European and American Art (3) The continuation of ART 353 covering the major movements in the period c. 1880-1980, including Post Impressionism, Cubism, Fauvism, Expressionism, Dada, Surrealism, Abstract Expressionism, Pop, the Muralists, and non-objective art. Prereq: HUM 221 and HUM 222 or consent of instructor. F

355 Contemporary Art (3) The continuation of ART 354 covering the movements and artists in the period c. 1970-the present. Prereq: HUM 221 and HUM 222 or consent of instructor. Art 354 recommended. Sp

361 Printmaking I (3) Introduction to mono-printing, papermaking, black and white lithography, and woodcut techniques. No prereq. F, Sp

362 Printmaking II (3) Introduction to black and white intaglio printmaking as well as basic color techniques in lithography, woodcut, and monoprint techniques. Prereq: ART 361. F, Sp

372 Video Art (3) An introduction to the creative principles and processes of video art. Students explore the practical applications and limitations of video and sound production. Basic video editing and visual effects are explored. Elements of story telling, storyboard, and other pre-production methods are discussed and implemented. Prereq: ART 275 or consent of instructor. F

374 Photography II (Digital Photography) (3) Introduces the basic concepts and terminology of digital photography. Composition, color theory, lighting methods and equipment are covered in the context of planning and capturing images specifically for subsequent digital manipulation. Students will learn to plan, compose and optimize image captures destined for digital media and printed output. Prereq: ART 275 or consent of instructor. F, Sp

376 Graphic Design II (3) This course investigates the design and production issues of generating computer graphics for print or electronic media. It provides an understanding of the technical process of creating projects incorporating scanned and computer-generated images and text. Students will gain experience integrating various computer applications and input/output hardware. Prereq: ART 275 or consent of instructor. F, Sp

378 History of Graphic Design (3) This course covers the history of graphic design with an emphasis on developments in design during the 19th and 20th centuries. It will also include an examination of the social, political, and technological factors that have shaped graphic design. Prereq: HUM 221 and HUM 222 or consent of instructor. Sp

381 Interactive Media Design I (Web Page Design) (3) An introduction to the theory, tools and techniques for creating interactive Web pages. Introduces HTML coding as well as Web page layout software. Focuses on designing the look, structuring the information, sequencing the pages and integrating text and graphics as well as preparing and producing Web pages. Prereq: ART 275 or consent of instructor. F, Sp

382 Interactive Media Design II (Multimedia Authoring) (3) This course provides an introduction to the concepts, tools, and techniques for producing interactive multimedia. Topics covered include: interface design, flow charting, navigational structures, metaphor, props, visual layout and the integration of audio, video, and animated sequences. Prereq: ART 275 or consent of instructor. F

395 Introduction to Art Education (3) Part A: Content The course will involve a basic understanding of historical and philosophical premises of art education; different approaches in the teaching of art; development and practical application of basic art skills in the classroom; and understanding of developmental stages in children's art works. The course examines basic thematic understanding of lesson plans as they apply to the state of Indiana academic and the discipline-based art education (DBAE) standards in teaching art in elementary and middle school. Part B: Supervised Internal Clinical Use of written lesson plans from
Part A: Content The course will emphasize historical and philosophical premises of art education; different approaches in the teaching of art; development of basic art skills, and understanding of developmental stages in children’s art works. The course examines detail, thematic understanding of written lesson plans as they apply to the state of Indiana academic and the discipline-based art education (DBAE) standards in teaching art in elementary and middle schools. Part B: Supervised Internal Clinical: Use of written lesson plans from Part A in an approved clinical experience. Prereq: open to art education K-12 majors and minors.

396 Materials and Methods in Elementary and Middle School Art Education (3) Part A: Content The course will emphasize historical and philosophical premises of art education; different approaches in the teaching of art, understanding of high school children’s art works, and the development and use of discipline-based art education (DBAE) written lesson plans as they apply to the state of Indiana academic standards. Part B: Supervised Clinical: Use of written lesson plans from Part A in an approved clinical experience. Prereq: open to art education K-12 and secondary art education majors and minors.

397 Materials and Methods in Secondary Art Education (3) Part A: Content Teaching art at the public high school level with strong emphasis on the use of art materials and methods in art education. The course will involve historical and philosophical premises of art education, different approaches in the teaching of art, understanding of high school children’s art works, and the development and use of discipline-based art education (DBAE) written lesson plans as they apply to the state of Indiana academic standards. Part B: Supervised Clinical: Use of written lesson plans from Part A in an approved clinical experience. Prereq: open to art education K-12 and secondary art education majors and minors.

398 Workshop in Art Education (1) Workshop in writing objective statements and lesson plans. Introduction to a variety of art materials and technology, teaching methods and development of a final student teaching portfolio in art education. Prereq: open to art education majors and minors, permission of the instructor.

399 Select Topics in Studio Art (3) An intensive study of specialized topics in the visual arts. Repeatable with change in course content. Prereq: junior standing or consent of instructor.

405 Figure Drawing in Composition III (3) Composing with the human figure, using props, and experimenting with various media. Prereq: ART 206. F, Sp

406 Figure Drawing in Composition IV (3) An extension of 405, drawing the human figure from posed model in composition, using various media. Prereq: ART 405. F, Sp

411 Painting III (3) Development of a series of works which relate conceptually, stylistically, and/or technically. Prereq: ART 312. F, Sp, Su

412 Painting IV (3) Advanced work developing personal aesthetic vision in painting media. Prereq: ART 411. F, Sp

413 Ceramics III (3) Advanced methods of working with clay and glazes. More independent projects will be required. Demonstrated ability to load, fire, and operate kilns is required. Prereq: ART 314. F, Sp

414 Ceramics IV (3) A semester of intense ceramic work. Projects must indicate a comprehensive understanding of ceramic techniques. Prereq: ART 413. F, Sp

415 Jewelry III (3) Continuation of Jewelry 316 with emphasis on individual direction within the jewelry media. Prereq: ART 316. F, Sp

416 Jewelry IV (3) Continuation of Jewelry 415 with concentrated effort on personal development within the jewelry media. Prereq: ART 415. F, Sp

431 Illustration III (Narrative or Sequential Illustration) (3) Introduction to illustrating for narrative, sequence, or series. Students learn the tools and techniques of concept sketching and storyboards as a means of developing and communicating visual ideas. Working with selected texts, students develop a project from concept to completion. Students also explore the historical role of the illustrator as a visual storyteller. Prereq: ART 331 or consent of instructor.

432 Illustration IV (Conceptual Illustration) (3) Students refine their conceptual, aesthetic, and technical skills in a variety of advanced illustration assignments directed toward developing portfolio pieces and fine tuning their personal visual language. Assignments challenge the student to create a range of inventive and effective illustrative solutions in the appropriate media. Prereq: ART 331 or consent of instructor.

441 Sculpture III (3) Advanced experience in sculpture processes and materials with an emphasis on conceptualization and development of a personal aesthetic. Prereq: ART 342. F, Sp

442 Sculpture IV (3) Continuing advanced experience in sculptural processes and materials with emphasis on concept and personal aesthetic development. Prereq: ART 441. F, Sp

451 Woodworking III (3) Advanced experience in woodworking with emphasis on furniture design. Prereq: ART 352. F, Sp

452 Woodworking IV (3) Advanced experience in woodworking with emphasis on structural possibilities of wood. Prereq: ART 451. F, Sp

462 Printmaking IV (3) Advanced methods in intaglio, lithography, woodcut, and monoprint techniques. Prereq: ART 461. F, Sp

473 Photography III (Alternative Processes) (3) This course explores alternative photographic processes and special effects. It also presents a survey of these alternative processes within their historical context and examines their contemporary applications. Prereq: ART 273 or consent of instructor.

474 Photography IV (Advanced Digital Darkroom) (3) This course explores advanced digital darkroom tools and techniques. Students apply color correction processes as they relate to digital or printed output. Alternative imaging methods and printing effects are encouraged. Prereq: ART 374 or consent of instructor.

475 Graphic Design III (3) This course will emphasize the creation of innovative visual layouts by having students analyze the communication problem, define the most appropriate approach, and produce creative and aesthetic solutions using the computer. Various media will be used to implement these solutions including printing, advertising, packaging, exhibitions, and electronic media. Prereq: ART 376 or consent of instructor.

476 Graphic Design IV (3) This course offers advanced study in computer graphics allowing students to expand their computer knowledge and critically investigate the theoretical and practical issues of generating computer art. Students will propose, design, and produce individual and team projects suitable for their senior portfolio. Prereq: ART 475 or consent of instructor.

481 Interactive Media Design III (Advanced Network Authoring) (3) This course covers advanced tools and techniques for designing interactive digital media for network systems. Students are instructed in net-
work delivery methods for sound, video, animation, database, and interactive content. Scripting and vector animation are used to bring additional functionality to a network site. Using various software packages, the student will create fully functional sites with interactive multimedia content. Web site management, browser and platform issues, and the limitations involved in designing for networks are also covered. Prereq: ART 381 or consent of instructor. F

482 Interactive Media Design IV (Advanced Multimedia Authoring) (3) This course covers advanced issues in designing and producing interactive multimedia. Students are exposed to the complexities of multimedia authoring and production. Students, at times working in teams, will collaborate on developing the concept, layouts, storyboards, production schedule, and the user-interface. They will create and compile the content and produce the digital files for a fully functional multimedia presentation. Prereq: ART 382 or consent of instructor. Sp

489 Special Problems in Art (3) Course by appointment with any of the full-time art faculty. Problems related to specific training within a specific area of art. This course may be repeated three times for total of nine credits. Prereq: junior or senior standing, consent of instructor. F, Sp, Su

490 Special Problems in Art History (3) An intensive study of some selected problems, areas, and movements in the field of the visual arts. Repeatable with change in course content. Prereq: HUM 221 and HUM 222 or consent of instructor. F, Sp

493 Senior Art Seminar (3) A capstone course for art and art education majors combining discussion of current aesthetic issues in the visual arts with practical knowledge in career or graduate school preparation, as well as evaluation of student's artistic growth and potential. Prereq: senior status or consent of instructor. F

498 Internship in Art (3) A course to complement classroom and studio experience by providing professional work situations with an employer. The course requires a minimum of 150 hours of supervised professional work, two written evaluations by the supervisor, two on-site visits by a University official, maintenance of a portfolio of completed work, and periodic interviews with an art faculty member. Open to juniors and seniors. Prereq: approval of Art Department chairperson. Grades will be assigned as Satisfactory or Unsatisfactory only. F, Sp, Su

**The Music Program**

Courses are offered in vocal performance, the history and appreciation of music, and music education.

**Course Descriptions**

**Music (MUS prefix)**

200 USI Chamber Choir (2*) Ten hours weekly. A select touring choir devoted to performance of an eclectic repertory of choral literature for mixed voices (S.A.T.B.). This course will focus on the development of vocal technique, performance practices, and will culminate with several performances throughout the year. Prereq.: audition and consent of instructor.

201 Elements of Music (2) Open to all students but designed to aid the elementary major in the Bower-Saltheinrich College of Education and Human Services in learning the rudiments of music. No prereq.

202 Introduction to Music (3) A basic survey of the media elements and organizational patterns of the art of music. No prereq.

219 USI Women's Choir (1*) Three hours weekly. A select group devoted to the performance of standard choral repertory for women. This ensemble will focus on the development of vocal technique beginning with the simplest part-songs and progressing through more difficult choral works. This course will culminate in a choral performance near the end of the semester. Prereq: audition and consent of the instructor.

220 Class Voice (1) This course focuses on the proper methods of singing and vocal health through active assignments in singing, warm-up techniques, and breathing and vocal exercises. Students will prepare several musical selections for short in-class recital to be held at the end of each semester. No prereq.

290 USI Jazz Ensemble (2*) A select ensemble consisting of any combination of jazz players from a small combo up to a full jazz “big band.” The purpose of this course is to educate players in the area of jazz realization and improvisation through the study of standard repertoire, improvisation texts, listening assignments, and rehearsal. This ensemble will perform regularly throughout the year. Prereq: audition and consent of the instructor.

301 Elementary Music Education (2) Designed for elementary education majors to develop appreciation and skills in music as applied in voice and keyboard, in vocal, instrumental, and recorded musical materials. No prereq.

* A maximum of 12 hours of credit may be earned in choral ensembles.

**The Theatre Program**

The USI Theatre Program presents students with exciting experiences that carry the work of the classroom forward into the practical realm of the University's fully-produced season of plays, a season that ranges from such classic playwrights as Sophocles and Shakespeare to contemporary plays and musicals. There is, also, an extended connection between the academic program and the University’s professional summer theatre program, and students often receive their first professional experience through the summer programs. With dedicated mentoring and placement guidance from the faculty, many students begin to work in other professional summer theatres around the country during their study, so there are always opportunities to pursue, both in and out of the classroom.

As baccalaureate candidates, students prepare for a full range of possibilities following their college experience; while a strong professional focus is maintained throughout the program, the Theatre major has far-ranging applications, greatly increasing students’ sense of personal discipline, their critical thinking, and their communication skills. Graduates of the program are generally well-prepared for graduate study, specialized internships in the field, as well as for the professional world. Many will seek a career in teaching, combining their study with a secondary education field, such as English.

The USI Theatre Program believes strongly that theatre students, regardless of their area of focus, must have an
appreciation for the theatre as a whole. It, therefore, requires a balance between performance and technical subject areas. All students are required to take some history or survey classes, as well. Still, the program provides a great deal of flexibility, enabling performance students to choose acting, directing, and playwriting electives, while technology and design students may develop equally in the areas of lighting, scenery, and costume. Special Topics classes are periodically offered to address alternative interests and the needs of the students.

The Theatre Arts Program of Courses 2005–2008

The Theatre Major: 43 Total Hours

Required Courses: 28 Hours

THTR 101 (3) Intro to Theatre
THTR 102 (3) Intro to Theatrical Production
THTR 120 (1) Theatre Laboratory (2 semesters)
THTR 251 (3) Acting I
THTR 253 (3) Voice and Diction
THTR 320 (1) Theatre Laboratory (2 semesters)

One from the following:

THTR 224 Production Technology
THTR 234 Costume Technology
THTR 244 Lighting Technology

One from the following group:

THTR 327 Scene Design
THTR 337 Costume Design
THTR 347 Lighting Design
THTR 487 Introduction to Stage Directing

One from the following:

THTR 371 History of Theatre I
THTR 473 Western Drama I

One from the following:

THTR 372 History of Theatre II
THTR 474 Western Drama II

Major Electives: 15 Hours

(Note: Any of the courses in the groupings above not selected as a required class can be selected as an elective.)

THTR 150 Practicum in Dance
THTR 235 Make-up
THTR 236 Costume Crafts: Jewelry, Millinery, Fabric Modification
THTR 252 Acting II
THTR 253 Voice and Diction
THTR 351 Acting III

THTR 352 Acting IV
THTR 353 Musical Theatre I
THTR 354 Musical Theatre II
THTR 361 Playwriting
THTR 400 Independent Study in Theatre Arts
THTR 427 Advanced Scene Design
THTR 499 Special Topics in Theatre Arts

The Theatre Minor: 18 Hours

The theatre minor is offered in order to enable students with a decided passion for a particular area of the theatre study, but who wish to pursue other interests, as well, to realize a shorter, more specialized program of study.

Required Courses: 6 Hours

THTR 101 (3) Introduction to Theatre
THTR 120 (1) Theatre Laboratory (2 Semesters)
THTR 320 (1) Theatre Laboratory (1 Semester)

Electives: 12 hours

Students may take any combination of classes provided:

a. Prerequisites are observed
b. Six hours must be earned at the 300 level or above

Course Descriptions

THTR 101: Introduction to Theatre (3) Analysis of the nature of theatre, its origin and development from the standpoint of the play, the physical theatre, and its place in culture. Specific emphasis is placed on the study of styles and the various artistic components which "collaborate" to create theatre. No prereq. F, Sp

THTR 102: Intro to Theatrical Production (3) Introduction to the major elements and theory of theatrical production including, but not limited to, back of house administration and organization, the various design disciplines, basic collaboration, and overview of current trends and technologies. Course will place specific emphasis upon the "visual" component and the basic procedures involved with mounting a performing arts production. No prereq. F

THTR 150: Practicum in Dance (3) Provides a practical background in the fundamentals of three styles of dance. The techniques and discipline of dance will be explored and utilized, culminating in an examination that tests the comprehension, comportment, and flexibility of the student. Course may be repeated once. No prereq.

THTR 224: Production Technology (3) Fundamental study of scenery production and engineering, shop organization, and the various techniques and procedures utilized by production personnel. Course will include technical drawing, budgeting, instructional workshops, safety, task-oriented engineering solutions, and theatre program production lab work. Prereq: THTR 102.

THTR 234: Costume Technology (3) Employing lecture, demonstration and critique, the course is a study and practical application of beginning sewing techniques for theatrical application to include basic hand and machine sewing methods, reading patterns, and construction. Prereq: sophomore standing or consent of instructor.
THTR 235: Stage Make-up (3) Basic principles of the art and technique of make-up for the use in the design and execution of developing and projecting the stage character. Purchase of make-up kit required. No prereq.

THTR 236: Costume Crafts (3) Lecture, demonstration and critique. This course is the study and practical application of fabric modification techniques, beginning millinery, mask making, and jewelry making. Prereq: sophomore standing or consent of instructor.

THTR 244: Lighting Technology (3) Fundamental practice and theory of electrical applications in lighting a theatrical production and the collaborative process of basic theatrical lighting design. Course includes lighting terminology, electrical theory and practice, script analysis, the elements of design, and the design process. Projects include lighting observations, master electrician packets, and a lighting design project. Students will be required to participate in at least three outside lighting labs correlating to the USI Theatre productions season. Prereq: THTR 102 or concurrent enrollment.

THTR 251: Acting I (3) Study and practice in the fundamentals of the acting process. Class emphasizes physical and vocal work in conjunction with exercises geared toward the expansion of personal imaginative skills. Class work focuses on monologues and improvisational games. Open to all University students. No prereq. F, Sp

THTR 252: Acting II (3) Continued study and development of the fundamental acting processes taught in Acting I. Class work consists of scene study focusing on the active, objective, and subtext of the actor's characterizations. Prereq: THTR 251 or consent of instructor.

THTR 253: Voice and Diction (3) Concerned with the anatomy and function of the speech mechanism. Emphasis on articulation, phonation, and resonation. Study of voice characteristics, vocal quality, volume, rate, pitch, and force. This course requires that the students learn the International Phonetic Alphabet. Students evaluate their own speech characteristics. F, Sp

THTR 327: Scene Design (3) Study of the elements and principles of scenic design. Students will explore the application of design concepts based upon an analysis of script and production parameters in order to produce complete packages of speculative work (research, plans, models, drawings, etc.) Prereq: THTR 101, THTR 102, THTR 224.

THTR 337: Costume Design (3) Introduction To Costume Design, THTR 322, (3) A study of the elements and principles of costume design for the theatre. Students will develop skill in play analysis for costuming, basic rendering skills, and period research. The class will include an introduction to the various media used in communicating a costume design concept. Prereq: THTR 101. Sp

THTR 347: Lighting Design (3) Advanced study and application of lighting design for theatre, opera, dance, and other theatrical genres. May also explore basic elements of television and film. Students will complete design projects that improve upon script analysis, research, rendering, color theory, drafting, and presentation skills. Beginning computer drafting and supplemental paperback software applications to be introduced. Students will be required to participate in at least three outside lighting labs correlating to the USI Theatre productions season. Prereq: THTR 244. Sp

THTR 351: Acting III (3) Study and practice of the acting techniques and methods used to create a character for the stage. Emphasis placed on the application of these theories in the development of monologues and scenes from major American plays. Prereq: THTR 252 or consent of instructor.

THTR 352: Acting IV (3) Provides a background in period styles to the advanced student actor, examining the special considerations inherent in performing classical drama, beginning with Greek tragedies and continuing on through Elizabethan, Restoration, and other periods, including contemporary pieces of a special nature, such as epic, expressionist and absurdist drama. Prereq: THTR 351 or consent of instructor.

THTR 353: Musical Theatre Performance I (3) The student will explore and experience the nature of musical theatre and the unique performance demands required to create it at a proficient level. Emphasis will be placed on accessible vocal material from the standard musical theatre repertoire, including solos, duets, and company numbers. Students will present research on the genre's historical and stylistic eras. Prereq: THTR 251

THTR 354: Musical Theatre Performance II The student will further explore and experience the nature of musical theatre and the unique performance demands required to create it at a proficient level. Emphasis will be placed on more challenging vocal material from the standard musical theatre repertoire, including solos, duets and company numbers. Students will present research on the genre's historical and stylistic eras. Prereq: THTR 251, THTR 353.

THTR 361: Playwriting (3) Students will participate in an intense study of dramaturgy and will write dramas of their own. Prereq: ENG 302 and THTR 101 or consent of instructor. Dual listed with ENG 335.

THTR 371: History of Theatre I (3) History of the theatre from pre-Grecian through Elizabethan time periods. Also touching on the Asian theatre. Concentration on the physical theatre, conventions in acting, directing, design. Prereq: THTR 101 or consent of instructor.

THTR 372: History of Theatre II (3) History of the theatre from the French Renaissance through the present day. Concentration on the physical theatre, conventions in acting, directing, design. Prereq: THTR 101 or consent of instructor.

THTR 427: Advanced Scene Design (3) Individual development in scene design projects through intensive study of various styles. Detailed representation of design ideas in rendering and models required. Class includes practice and development in scene painting. Prereq: THTR 101, THTR 102, THTR 224, THTR 327.

THTR 473: History of Western Drama I (3) Survey of representative plays from the Classics through English Renaissance as a basis for theatrical and dramatic criticism. Cross Listed with Eng 421. Prereq: Eng 101 and ENG 201 or 301 or consent of instructor. F

THTR 474: History of Western Drama II Survey of representative plays from French Renaissance to modern period as a basis for theatrical and dramatic criticism. Cross listed with ENG 422. Prereq: ENG 101, Eng 201 or 301, or consent of instructor. Sp

THTR 487: Stage Directing (3) An introduction to the principles of play directing. Class emphasizes text analysis, interpretation, picturization, and the various aspects involved in the production process. Class will include direction of extended scenes from full-length plays. Prereq: THTR 101, THTR 102, THTR 251, or consent of instructor.

THTR 499: Special Topics in Theatre Arts (3) Topics will vary. Purpose of course is to cover topics which are not specific courses in the curriculum. Prereq: consent of instructor.
COMMUNICATIONS

Communications is one of the largest growth industries in the nation, employing more than a million people and providing hundreds of different career opportunities.

The Communications faculty has developed four different majors to assist students in selecting courses according to individual interests and career goals. Students may select a Bachelor of Arts or Bachelor of Science degree.

The Bachelor of Arts degree requires 12 credit hours in the same foreign language or demonstration of proficiency at that level of study.

In order to enroll for any communications internship, a student must have an overall grade point average of 2.5, a GPA of 3.0 in major coursework, have completed 84 hours, and have completed 24 hours in the major, including all 100-200 level courses.

Students must earn 1) a 2.25 overall GPA for major coursework and 2) a grade of C or better in any course applied toward any major or minor in the Department of Communications.

The mass communication majors of public relations and advertising, journalism, and radio and television adhere to the guidelines of the Accrediting Council for Education in Journalism and Mass Communication. Students in these three majors must take a minimum of 80 hours in courses outside of these majors, including no fewer than 65 hours in arts and sciences courses. Liberal arts courses include all courses offered in the areas of anthropology, art, communication studies, criminology, economics, English, engineering, foreign languages, history, humanities, liberal arts, music, philosophy, political science, psychology, sociology, and theatre. Science courses include all courses offered in the areas of astronomy, biology, chemistry, geography, geology, mathematics, and physics. No more than 16 credit hours of lower division mass communication coursework (100-200 level) may be counted in the major.

Students in the three mass communication majors are required to take six hours of cognates: a three-hour course in gender studies and a three-hour course in ethnic diversity; both are subject to approval by students’ academic advisors.

Because of the 80-hour rule, mass communication majors who select a mass communication minor may need additional credit hours to graduate. No more than 12 credit hours of mass communication courses taken at a two-year college may be transferred into a mass communication degree program. Mass communication transfer courses not accepted toward the major cannot be used as elective credit toward the 124 hours required for a bachelor’s degree. Students in the three mass communication majors must pass the department’s grammar, spelling, and punctuation examination prior to being admitted to junior- and senior-level classes in the major; however, the GSP test is waived if a student averages C+ for English 101 and 201.

Communications majors (B.A. or B.S.)
39-51 credit hours, depending upon major

Major in Communication Studies
39 credit hours
Communication Studies connects two important aspects of a USI education: the liberal arts and the professional preparation. By incorporating writing, speaking, and computer-mediated communications across the curriculum, the communication studies program explores communication in various contexts and forms.

Communication studies faculty work with students so that they can meet the current needs of business and industry leaders who demand that college graduates demonstrate effective communication skills, problem-solving abilities and leadership experience in addition to the ability to think critically and conceptually. Students emerge from the major in communication studies as proficient, critical consumers and producers of messages and interactions at the personal, social, civic, and professional levels.

Graduates pursue various careers. For example, many work in sales, retail management, non-profit organizations, human resources, corporate training programs, government agencies, and the health care industry, while others own their own businesses, attend graduate school, or enter the political arena.

Required courses – 18 hours: CMST 101-Introduction to Public Speaking, 3 hrs; CMST 107-Introduction to Interpersonal Communication, 3 hrs; CMST 204-Business and Professional Communication, 3 hrs; CMST 214-Group and Team Communication, 3 hrs; CMST 303-Introduction to Persuasion, 3 hrs; CMST 301-Communication Criticism and Analysis, 3 hrs. or COMM 495-Mass Communication Research, 3 hrs.
Communication Studies elective credit – 21 hours of any CMST coursework

At least 21 hours in the major must be at the 300 and 400 level. For directed electives, no more than six hours may be taken from a combination of CMST 400 & 498. For an internship, the student must seek permission of the Communications faculty and have second semester junior standing.

Major in Journalism
42-51 credit hours
This major prepares students for the world of news reporting, writing, new media publishing, and document design. Students learn the skills of the Information Age in labs equipped with modern electronic hardware and software that are linked to the Internet. Graduates succeed in any field where writing and a command of the language are needed. The journalism major has two emphases: print and online.

Journalism major requires diversity cognates: 6 hours
(See Communications information above.)

Students can choose one of two emphases within this major. Students must take a core of courses of 24 credit hours shared by both emphases, complete the required courses in each emphasis, and then choose additional hours of communication electives.

Journalism required core – 24 hours:

Print Journalism Emphasis – 42 hours
Journalism core (above) plus JRN 386-Editing and Layout, 3 hrs.
Required courses – 12 hours:
JRN 381-Advanced Reporting, 3 hrs.; JRN 388-Online Journalism, 3 hrs.; JRN 481-Public Affairs Reporting, 3 hrs.

Print Journalism electives – 9-12 hours:
JRN 180-Journalism Workshop, 1 hr./semester, up to 3 hours total; JRN 371-Advanced Photography, 3 hrs.; JRN 383-Editorial Writing, 3 hrs.; JRN 384-Feature Writing, 3 hrs.; JRN 400-Independent Study, 1-3 hrs.; JRN 473-Photojournalism, 3 hrs.; JRN 498-Internship, 1-3 hrs; JRN 499-Special Topics in Journalism, 3 hrs.

Journalism students may count no more than three hours from JRN 180, 400, and 498 as directed electives.

An internship in the print or electronic media and work on the campus newspaper, The Shield, is highly recommended.

Major in Public Relations and Advertising
39 credit hours
Students may choose either an emphasis in public relations or advertising, depending upon individual interests. By carefully selecting appropriate electives offered in the program, students may develop skills in both areas.

Required core – 12 hours:
Public Relations Emphasis
The public relations emphasis provides students with a background that includes the essential skills of writing and design to enter the rapidly growing public relations field. Students are prepared to advance in their careers through courses in research, strategy development, and integrated marketing campaigns. In addition to required courses, students may choose from a variety of directed communications electives to enhance their career objectives.

Required courses – 9 hours: PRL 362-Writing for Public Relations, 3 hrs.; PRL 463-Public Relations Administration, 3 hrs.; one course from the following: PRL 368-Strategic Writing, 3 hrs.; JRN 281-Basic Reporting, 3 hrs.; ADV 347-Advertising Copywriting, 3 hrs.; or RTV 354-Writing for Electronic Media.

Advertising Emphasis
The advertising emphasis prepares students for one of the fastest growing fields in communications. Students acquire the essential skills of writing, design, advertising graphics, research, market analysis, media planning, promotions, integrated marketing campaigns, and communications theory. In addition to required courses, students may choose from a variety of directed communications electives to enhance their career objectives.

Required courses – 12 hours: ADV 335-Advertising Strategy, 3 hrs.; ADV 343-Media planning, 3 hrs.; ADV 444-Strategic Campaigns, 3 hrs.; ADV 446-Seminar in Advertising, 3 hrs.

Public Relations and Advertising major requires diversity cognates: 6 hours (See Communications information above.)

Communications electives for the Public Relations and Advertising major Public Relations emphasis, 12 hours; Advertising emphasis, 9 hours:
ADV 342-Advertising Design, 3 hrs.; ADV 346-Special Events and Promotions, 3 hrs.; ADV 347-Advertising Copywriting, 3 hrs.; ADV 400 or PRL 400-Independent Study, 1-3 hrs.; ADV 440-PRL 461-Seminar in Integrated Marketing Communication, 3 hrs.; ADV 498 or PRL 498-Internship, 3 hrs.; ADV 499-Special Topics, 3 hrs.; COMM 190-Computer Basics, 1 hr.; COMM 192-Introduction to Mass Communication, 3 hrs. or RTV 151-Introduction to Broadcasting, Cable and Internet, 3 hrs.; JRN 281-Basic Reporting, 3 hrs.; JRN 384-Feature Writing, 3 hrs.; PRL 364-Publications

An internship in public relations or advertising is highly recommended. By interning with a public relations firm, advertising agency, or within corporate or not-for-profit departments, students network with professionals who help them polish their skills for entry into the fields.

Major in Radio and Television
39 credit hours
This major combines telecommunications history and theory with practical broadcast applications. Students acquire knowledge and understanding of the broadcast processes and on-air performing skills, utilizing facilities in both the campus radio station WSWI-AM and the Scripps Howard Television Production Center.

Radio and Television Major elective courses – 6-9 hours: RTV 451-Radio-Television Programming, 3 hrs.; RTV 452-Broadcast & Cable Sales, 3 hrs.; RTV 453-Broadcast & Cable Management, 3 hrs.

Radio and Television Major directed electives – 8-14 hrs.: ADV 241-Intro to Advertising, 3 hrs.; RTV 352-Advanced Television Production and Directing, 3 hrs.; RTV 353-Techniques of Video Field Production, 3 hrs.; RTV 356-Sportscasting, 3 hrs.; RTV 357-Advanced Broadcast Journalism, 3 hrs.; RTV 499-Special Topics in Radio-Television, 3 hrs.

Optional study opportunities: (Student may select up to six hours listed below as part of the 18 hours of the preceding directed electives list.) RTV 150-Practicum in Broadcasting, 1-3 hrs.; RTV 350-Radio-TV Workshop, 1-3 hrs.; RTV 400-Independent Study, 1-6 hrs.; RTV 498-Internship in Broadcasting, 3 hrs.
Radio and Television requires diversity cognates: 6 hours
(See Communications information above.)

An internship in the broadcast media, practicum work on the campus radio station and/or a broadcast workshop in TV are highly recommended for the junior or senior year.

Minor – Communication Studies
24 credit hours
(15 hours in the minor must be at the 300 and 400 level)

Required courses – 15 hours: CMST 101-Introduction to Public Speaking, 3 hrs.; CMST 107-Introduction to Interpersonal Communication, 3 hrs.; CMST 214-Group and Team Communication, 3 hrs.; CMST 301-Communication Criticism and Analysis, 3 hrs.; CMST 303-Introduction to Persuasion, 3 hrs.

Communication Studies electives – 9 hours: as directed by advisor.

Minor – Journalism
24 credit hours
Required courses – 21 hours: COMM 192-Introduction to Mass Communication, 3 hrs.; JRN 281-Basic Reporting, 3 hrs.; RTV 256-Broadcast Journalism, 3 hrs.; JRN 383-Editorial Writing, 3 hrs. or JRN 384-Feature Writing, 3 hrs.; JRN 386-Editing and Layout, 3 hrs.; COMM 494-Mass Communication Law and Ethics, 3 hrs.

Communications electives – 3 hours of upper level courses: as directed by advisor.

Minor – Public Relations and Advertising
24 credit hours

Communications electives for the Public Relations and Advertising minor – 12 hours of which 9 hours must be upper-level: ADV 342-Advertising Design, 3 hrs.; ADV 343-Media Planning, 3 hrs.; ADV 344-Strategic Campaigns, 3 hrs.; ADV 346-Special Events and Promotions, 3 hrs.; ADV 347-Advertising Copywriting, 3 hrs.; ADV 400 or PRL 400-Independent Study, 1-3 hrs.; ADV 440-Advanced Advertising Campaigns; PRL 461-Seminar in Integrated Marketing Communication (PRL only), 3 hrs.; ADV 446-Seminar in Advertising, 3 hrs.; ADV 498 or PRL 498-Internship, 3 hrs.; ADV 499-Special Topics, 3 hrs.; COMM 190-Computer Basics, 1 hr.; COMM 192-Introduction to Mass Communication, 3 hrs. or RTV 151-Introduction to Broadcasting, Cable and Internet, 3 hrs.; JRN 273-Digital Photography (ADV only), 3 hrs.; JRN 281-Basic Reporting (PRL only), 3 hrs.; JRN 384-Feature Writing, 3 hrs.; PRL 362-Writing for Public Relations, 3 hrs.; PRL 364-Publications Design, 3 hrs.; PRL 366-Seminar in Public Relations, 3 hrs.; PRL 367-Public Relations Campaigns, 3 hrs.; PRL 368-Strategic Writing, 3 hrs.; PRL 466-Seminar in Public Opinion, 3 hrs.; PRL 467-Crisis Communications, 3 hrs.; PRL 499-Special Topics, 3 hrs.; RTV 255-Media Production, 3 hrs.; RTV 354-Writing for Electronic Media, 3 hrs.; RTV 452-Broadcast/Cable Sales, 3 hrs.

Minor – Radio and Television
24 credit hours
Required courses-15 hours: RTV 151-Introduction to Broadcasting, Cable and Internet, 3 hrs.; RTV 255-Media Production, 3 hrs.; RTV 354-Writing for Electronic Media, 3 hrs.; COMM 494-Mass Communication Law and Ethics, 3 hrs.

Communications electives – 9 hours of upper level courses: as directed by advisor

Teacher Certification
NOTE: Please review the College of Liberal Arts teacher certification policy at the beginning of the Liberal Arts section of this bulletin. In addition to a teaching minor in journalism, in order to teach journalism in Indiana secondary schools, a student must have a teaching major in English – or a teaching major in another discipline with a teaching minor in English.

Minor – Journalism (teacher certification)
24 credit hours

Communications electives – 9 hours of upper level courses: as directed by advisor
Course Descriptions
Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students in planning their programs of study.

Advertising (ADV prefix)

241 Introduction to Advertising (3) Lecture materials and discussions will focus on all facets of advertising from the client's, the consumer's, and the creator's viewpoints. Methods and techniques used in print and audio/visual media will be studied. F, Sp

335 Advertising Strategy (3) Background in and understanding of the principles in advertising and using strategic reasoning to apply those principles to solve problems and make strategic advertising decisions. Prereq: ADV 241. F, Sp

342 Advertising Design (3) A study of the techniques of market analysis, product strategy, copy writing, layout and design, and concept development for advertising. Prereq: ADV 241. F, Sp

343 Media Planning (3) The course treats researching media options, developing a media plan, and learning how to implement the plan. It includes identifying target audiences, the media they use, the cost efficiency of the media, and determining the costs of the total plan. Prereq: ADV 241 and core math or consent of instructor. F, Sp

347 Advertising Copywriting (3) A study of the principles and practices of writing effective commercial messages for media such as magazines, newspapers, billboards, direct mail, directories, and other promotional copy. It includes studies of message elements; the role of research in developing message strategies; the creative process; and clear, effective, and persuasive copywriting. Prereq: ADV 241 and ENG 201 or core equivalent. F, Su

400 Independent Study in Advertising (3) Designed to provide an opportunity for upper division communications majors and minors to research subject areas in the field of advertising. A maximum of six hours of ADV 400 may be taken; only three may be taken in any one semester. Prereq: 21 hours of communications, upper division status, and written consent of instructor. Students wishing to take independent study courses in the advertising curriculum should be aware of the following points: 1) Only six hours of independent study may apply toward a major in communications. 2) No more than three hours of Advertising 400 may be directed by the same instructor. 3) Students wishing to enroll in independent study courses must receive written permission from their instructors prior to registration. F, Sp, Su

440 Advanced Advertising Campaigns (3) To refine campaign skills to be used as a competition class for the American Advertising Federation. May be taken twice. Prereq: consent of instructor. Sp

441 Seminar in Integrated Marketing Communication (3) Approaching organizations' communications issues through the integration of advertising, marketing, and public relations strategies and techniques. Cross listed with PRL 461 and MKTG 461; may be taken only once as one of these courses. Prereq: senior standing and PRL 261 or ADV 241, and MKTG 201 or 305. Sp

444 Strategic Campaigns (3) Advanced study in the creation and implementation of advertising campaigns. Students will study the evolution of ad campaigns, the various forms of advertising, and local and national ad campaigns. Students also will practice targeting the audience, creating the advertising concept, and selecting media buys and budgeting. Prereq: ADV 335 and nine hours of advertising. F

446 Seminar in Advertising (3) A study of the origins and effects of modern advertising and how advertising works on individuals and society. Students will conduct their own inquiries through individual projects designed to make them consider the nature of needs and how to design, advertise, and satisfy them. Prereq: ADV 342 or CPT 375 or PRL 364 and 15 hrs. in major completed. Sp

498 Internship in Advertising (3) Offers students job experience in advertising through a minimum of 150 hours of supervised professional work. Prereq: departmental approval. F, Sp, Su

499 Special Topics (3) Topics will vary. Purpose of course is to cover topics which are not specific courses in the curriculum. Course may be repeated once if the topic is different from the one previously taken. Prereq: junior standing.

Communications (COMM prefix)

190 Computer Basics (1) An introduction to basic computer usage and programs designed around common computer tasks and programs, such as QuarkXPress (document/page design), FrontPage (Web page design), Photoshop (graphics and photography manipulation), or PowerPoint (speech presentation). Course can be repeated three times when students take course with different tasks and programs. No prereq. F, Sp

192 Introduction to Mass Communication (3) Presentation, lectures, and assignments designed to introduce students to the basic concepts of mass communication; to foster an understanding of the roles and functions of communication media in our society; to present concepts and principles of journalism (oral and written); and to prepare students to be intelligent users of media. Students who take COMM 193, 194, or 195 cannot take COMM 192. No prereq. F, Sp, Su

299 Special Topics in Communications (3) Topics will vary. Purpose of course is to cover topics which are not specific courses in the curriculum. Course may be repeated once if the topic is different from the one previously taken. No prereq.

494 Mass Communication Law and Ethics (3) A study of the special laws of libel, First Amendment problems, free press vs. fair trial, copyright, the Internet, ethical issues, and regulatory provisions that pertain to mass media. Prereq: junior standing. F, Sp, Su

495 Mass Communication Research (3) Theories and applications of research methods for the mass media including survey design, basic statistical procedures, sampling, and the reporting of data. Prereq: junior or senior standing. F, Sp

Communication Studies (CMST prefix)

101 Introduction to Public Speaking (3) Principles and practices of oral communications with selected experiences in their use. F, Sp, Su

107 Introduction to Interpersonal Communication (3) Increases understanding of oneself, the many roles one plays in the communication process, and the interpersonal relationships of individuals in society. Course includes nonverbal communication, the role of language in
203 Introduction to Performance Studies (3) This course will serve two purposes. First, operating on the theory that literature is best understood and appreciated when performed, this course is designed to give students experience performing and analyzing literature. In addition, this course will introduce the many ways we experience performance in our everyday lives.

204 Business and Professional Communication (3) A study of the theory and principles involved in oral communication situations in the business and professional context. Students will present speeches, participate in interviews, and learn to work in teams. Special attention will be given to the use of computer-mediated communication in each of these units.

214 Group and Team Communication (3) Introduces students to the basics of group and team communication. Students learn about the dynamics of group interaction with emphasis on leadership, decision making, and group preparation. Students will be exposed to a variety of group types, including standing committees, ad hoc groups, task forces, special interest groups, and administrative groups.

301 Communication Criticism and Analysis (3) Familiarizes students with basic techniques of planning, conducting and reporting qualitative human communication research. Focusing on communication criticism as well as ethnographic study, the course will introduce students to methods and theories that can enhance the understanding of most types of communication, organization interaction, family conversation, cultural artifacts, or social interaction. Prereq: CMST 101.

303 Introduction to Persuasion (3) This course focuses on our dual roles as producers and consumers of persuasive messages. Students will examine persuasion in a variety of texts and contexts, as well as examine persuasive elements in human interaction and behavior. In addition to learning about the roles logic, credibility, emotion, and cultural tradition play in persuasion, students will learn strategies for constructing effective and ethical persuasive messages. Prereq: CMST 101, CMST 301, or consent of program coordinator.

307 Nonverbal Communication (3) This course provides a conceptual and theoretical understanding of how nonverbal communication influences perceptions of self, others, and culture. Emphasis is placed on the critical examination of research in areas such as haptics, proxemics, kinesics, chronemics, and paralanguage. Prereq: junior or senior standing.

309 Public Speaking in a Diverse Society (3) Students will produce and deliver effective rhetorical messages, actively applying both traditional and more modern rhetorical strategies. The course will begin by studying traditional (e.g., primarily male and Western) notions of rhetoric, argument, and evidence. The focus will then shift to more recent notions of what “rhetoric” can be, particularly by studying rhetorical strategies. Prereq: CMST 101 and junior or senior standing.

312 Interviewing: Principles & Practices (3) Emphasis on preparing and structuring interviews. Students will become familiar with various kinds of interviews, settings, styles of questions, successful techniques, and common mistakes. Role-playing opportunities will enable students to employ the principles studied in class. Prereq: CMST 101.

313 Advanced Performance Studies (3) Advanced topics in individual performance as a method of textual study, theory and practice in individual performance as an aesthetic event and rhetorical and social act. Prereq: CMST 203 or consent of instructor.

314 Organizational Communication (3) A review of the research and theoretical approaches to organizational communication. This course includes an examination of the process of selecting appropriate communication channels, a consideration of the ways in which meaning, both verbal and nonverbal, is conveyed, and an exploration of ways in which communication can help to alleviate typical interpersonal problems within organizations. Prereq: CMST 101, CMST 204.

315 Readers Theatre (3) This course will focus upon a variety of forms of Readers Theatre. Experiences will be provided in adapting selections for Readers Theatre and creating original scripts. Students will study techniques of both directing and performing Readers Theatre productions. Prereq: CMST 203 or consent of instructor.

317 Intercultural Communication (3) This exploration of cross-cultural communication surveys intercultural theories and problems in communication. It offers a general orientation to intercultural communication, theories intercultural transactions, and provides insight into cultural differences. Prereq: CMST 107 or consent of instructor; junior standing.

400 Independent Study in Communication Studies (1-3) This course is designed to provide an opportunity for upper division communications majors and minors to research subject areas in the discipline. A maximum of six hours may be taken; only three may be taken in any one semester. Prereq: 21 hours of Communications Studies courses, upper division status and written consent of instructor. Students who wish to take independent study courses in the Communication Studies curriculum should be aware of the following points: 1) Only six hours of independent study may apply toward a major in communications. 2) No more than three hours of CMST 400 may be directed by the same instructor. 3) Students wishing to enroll in independent study courses must receive written permission from their instructors prior to registration.

402 Gender, Communication and Culture (3) This course combines cognitive and experimental approaches to gender and culture as they relate to communication. Students will obtain a critical understanding of gender construction and behavior, as well as learn about gendered conflict, identity, relationships, and differences. Prereq: junior or senior standing.

410 Seminar in Interpersonal Communication (3) The special topics course will offer students the opportunity to examine more closely specialized topics in interpersonal communication. Topics may include areas such as family communication, health communication, relational maintenance, or dialogic communication. Students may repeat this course provided the topic is different. Only six hours may apply toward the communication studies major. Prereq: CMST 107.

414 Oral Traditions (3) This course examines the dynamics of orality, literacy, and tele-literacy to better understand the role oral literacy has played in personal and social expression. Students will examine topics including verbal performance, oral poetry, oral history, folk tales, folk songs, and urban legends. Prereq: junior or senior standing.

420 Seminar in Organizational Communication (3) This course will offer the students the opportunity to examine more closely specialized issues in organizational research, theory, and application. Topics will vary each semester and may include areas such as values and leadership, organizational advocacy, communication training and development, or organizational culture. Students may repeat this course provided the topic is different. Only six hours may apply toward the major in communication studies. Prereq: CMST 204, CMST 214, CMST 314, or consent of instructor.
427 Family Communication (3) This course is designed to enable students to think critically about the communication processes that comprise and define families. In this course, students will be exposed to the numerous methodological and theoretical perspectives taken by contemporary family communication scholars. Moreover, in this course, students will learn how to distinguish family communication research from other kinds of scholarship (i.e., family sociology or interpersonal communication) and how to better apply family communication theories and research to their own lives. Prereq: CMST 107 and 214. F

430 Seminar in Persuasion (3) This special topics course will offer students the opportunity to examine more closely specialized topics related to the psychological, sociological or cultural dimensions of persuasion and social influence. Students may repeat this course provided the topic is different. Only six hours may apply toward the communication studies major. Prereq: CMST 301, CMST 303, or consent of program coordinator. F

498 Internship in Communication Studies (3) Offers students job experience in the discipline through a minimum of 150 hours of supervised professional work. Prereq: departmental approval. F, Sp, Su

499 Special Topics in Communication Studies (3) Topics will vary. Purpose of course is to cover topics which are not specific courses in the curriculum. Course may be repeated once if the topic is different from the one previously taken. Prereq: junior standing.

**Journalism (JRN prefix)**

180 Journalism Workshop (3) Credit for adequate work toward final publication of The Shield newspaper, its Internet site, or for an approved CAP course, doing writing, editing, photography, layout, graphics, sales, and/or management. Students may earn up to three hours credit for this course, but may enroll for no more than one credit hour per semester. No more than three credit hours may be applied to a major or minor in Communications. No prereq. F, Sp

273 Digital Photography (3) Development in basic skills of mass media photography in a digital environment. Students will use a university camera to take color photographs and then crop, edit, and produce those photographs in a digital computer laboratory. Emphasis will be on the needs of professional photography as used in print and electronic media. Prereq: COMM 192 or consent of instructor. F, Sp

281 Basic Reporting (3) Basic fundamentals of how to gather and report news events for the mass media in such a way as to be meaningful to the public. Stress is on the need for developing writing skills, learning technical terms, writing feature stories, and other materials in a newspaper. Prereq: sophomore standing. F, Sp, Su

371 Advanced Photography (3) Students will develop advanced skills in news judgment, composition, composites, animation, and special effects photography. They will learn how to design Web pages that use interactive sites and 360 degree photo techniques and will produce a portfolio of digital images. Prereq: JRN 273 or consent of instructor. Sp

374 Internet Communications (3) History of Internet, how it works, how to do effective data searches, building Web sites and home pages, establishing links, importing graphics, effective layout and design, scanning photos, doing in-depth research, ethics, legal concerns, and specialty uses. Prereq: CPT 276 or consent of instructor. F, Sp

381 Advanced Reporting (3) An advancement of skills and knowledge gained in basic reporting. Students will concentrate on covering specific beats and generating their own news stories. They will be responsible for assigned beats, learn how to develop sources, and track down rumors as part of the beat reporting process. In addition, students will discuss journalistic issues such as libel, ethics, plagiarism, invasion of privacy, and investigative techniques. Prereq: COMM 192 and JRN 281. F

383 Editorial Writing (3) Instruction and practice in writing editorials. Lectures, readings, and reports directed toward discovering, gathering, organizing, and writing opinion page material. Prereq: junior standing or consent of instructor. F

384 Feature Writing (3) Instruction and practice in writing feature articles for newspapers and magazines. Students will be directed to submit articles for publication in magazines. Prereq: junior standing or consent of instructor. F, Sp, Su

385 Supervision of Student Publication (3) The problems generally faced in supervision of newspapers, magazines, yearbooks, and other publications. No prereq. F, Sp

386 Editing and Layout (3) Study of the entire print reproduction process from idea formulation to designer's drawing board to the printer's finished product. Stressed is the fitting of copy into specific layout spaces, headline writing, art and photo reduction, and overall publications make-up. Prereq: JRN 281 or CPT 275. F, Sp, Su

388 Online Journalism (3) As traditional media move to the Internet, the skills of journalism students must expand to meet the more intense demands of the Internet. The course will show how traditional newsrooms are merging with Web products. Prereq: JRN 381.

400 Independent Study in Journalism (1-3) This course is designed to provide an opportunity for upper division communications majors and minors to research subject areas in the field of journalism. A maximum of six hours may be taken; only three may be taken in any one semester. Prereq: 21 hours of communications, upper division status, and written consent of instructor. Students who wish to take independent study courses in the journalism curriculum should be aware of the following points: 1) Only six hours of independent study may apply toward a major in communications. 2) No more than three hours of Journalism 400 may be directed by the same instructor. 3) Students wishing to enroll in independent study courses must receive written permission from their instructors prior to registration. F, Sp, Su

473 Photojournalism (3) The course will focus on the role of photography in mass communication, particularly print and Internet products. Students will study the process of combining text, graphics, and photographs to produce messages. Students will expand on the skills in earlier classes and produce products including many photographs, such as the photograph essay in a journalism or mass media context. Students will process color digital photography products through computers and modern software. Prereq: ENG 104 and JRN 273 or consent of instructor. Sp

481 Reporting Public Affairs (3) An advanced journalism course designed to polish the reporting skills of journalism majors. Course work, writing assignments, and class lectures and discussions will focus on the covering of local and state government, the judicial system, the local and state legislative process, and regional agencies. Each student will produce an in-depth, current news series or package on an issue or topic of current interest. Prereq: COMM 192, JRN 281, and JRN 381. Sp

498 Internship in Journalism (3) Offers students job experience in journalism through a minimum of 150 hours of supervised professional work. Prereq: departmental approval. F, Sp, Su
499 Special Topics (3) Topics will vary. Purpose of course is to cover topics that are not specific courses in the curriculum. Course may be repeated once if the topic is different from the one previously taken. Prereq: junior standing. F, Sp, Su

581 Reporting Public Affairs (3) A graduate journalism course designed to polish the reporting skills of journalism majors. Course work, writing assignments, and class lectures and discussions will focus on the covering of local and state government, the judicial system, the local and state legislative process, and regional agencies. Each student will produce an in-depth project, package, or research paper on an issue or topic of current public affairs interest. Prereq: COMM 192 or consent of instructor. Sp

Public Relations (PRL prefix)

261 Introduction to Public Relations (3) Lecture, discussion, and practical application of basic public relations concepts and processes including public relations in corporations, government, and institutions, public opinion, communication media, ethics of public relations, and public relations campaigns. Prereq: sophomore standing. F, Sp, Su

362 Writing for Public Relations (3) Techniques of writing news releases, newsletters, brochures, public service announcements, speeches, and other print and broadcast messages that are a part of the public relations profession. Prereq: ENG 101, PRL 261, or consent of instructor. F, Sp

364 Publications Design (3) Writing, editing, and designing specialized publications for business and industry. Computer-generated design will include newsletters, brochures, and other publications typically used by organizations in communicating with their target publics. Prereq: junior standing and PRL 261 or consent of instructor. F, Sp, Su

366 Seminar in Public Relations (3) A rotating seminar that addresses various topics essential to the public relations practitioner. May be taken only once. Prereq: PRL 261 and junior standing.

367 Public Relations Campaigns (3) Using research techniques to identify problems and/or public relations opportunities, to monitor implementation of communications programs, and to evaluate those programs; using a planning process to develop public relations objectives, strategies, and tactics designed to meet client/employer needs. Students will work together in groups to develop a detailed public relations campaign plan for clients. Prereq: junior standing and PRL 261 or consent of instructor. F

368 Strategic Writing (3) An applied writing course that focuses on strategically planning and preparing goal-oriented messages, and the selection of appropriate delivery techniques to communicate with an organization’s target publics. Prereq: PRL 362 or consent of instructor. F, Sp

400 Independent Study in Public Relations (1-3) This course is designed to provide an opportunity for upper division communications majors and minors to research subject areas in the field of public relations. A maximum of six hours may be taken; only three may be taken in any one semester. Prereq: 21 hours of Communications, upper division status, and written consent of instructor. Students who wish to take independent study courses in the public relations curriculum should be aware of the following points: (1) Only six hours of independent study may apply toward a major in Communications. (2) No more than three hours of Public Relations 400 may be directed by the same instructor. (3) Students wishing to enroll in independent study courses must receive written permission from their instructors prior to registration. F, Sp, Su

461 Seminar in Integrated Marketing Communications (3) Approaching organizations’ communications issues through the integration of advertising, marketing, and public relations strategies and techniques. Cross listed with ADV 441 and MKTG 461; may be taken only once as one of these courses. Prereq: senior standing and PRL 261 or ADV 241, and MKTG 201 or 305. Sp

463 Public Relations Administration (3) Case studies and problems regarding the principles and application of effective two-way communications in a variety of situations affecting the practice of public relations. Prereq: junior standing and PRL 261. F, Sp

466 Seminar in Public Opinion (3) A study of the nature of public opinion and its influences on government, the role of mass media, poll-taking, propaganda techniques, relationship to voting habits, and a detailed examination of techniques developed and used by the press in influencing public opinion. Prereq: junior standing.

467 Crisis Communications (3) Development of strategic plans and execution of communications for events that have the potential to generate negative news coverage of unfavorable public opinion of an organization. Prereq: junior standing.

498 Internship in Public Relations (3) Offers students job experience in public relations through a minimum of 150 hours of supervised professional work. Prereq: departmental approval. F, Sp, Su

499 Special Topics (3) Topics will vary. The purpose of the course is to cover topics that are not specific courses in the curriculum. Course may be repeated once if the topic is different from the one previously taken. Prereq: junior standing.

Radio and Television (RTV prefix)

150 Practicum in Broadcasting (1) Assignment of electronic media duties with radio station WSWI-AM, the Scripps Howard Video Production Center, or in an approved CAP course. Students may earn up to eight hours credit for this course, but may enroll for no more than one credit hour per semester. No more than three credit hours may be applied to a major or minor in Communications. Prereq: consent of instructor. F, Sp, Su

151 Introduction to Broadcasting, Cable and Internet (3) A history and survey of broadcasting. This course traces the development of broadcasting to the present day, with emphasis on contemporary broadcasting with its social, cultural, and economic implications. No prereq. F, Sp, Su

255 Media Production (3) An introductory course covering the fundamentals of digital production techniques for radio, video, and audio and video streaming on the Internet. Prereq: sophomore standing. F, Sp

256 Broadcast Journalism (3) Techniques of gathering, writing, editing, and producing news for radio and television. Topics will include broadcast style, working with wire services, codes of ethics, legal considerations, and news applications of audio and video technology. Prereq: RTV 151 or COMM 192 and RTV 255 or consent of instructor. F, Sp, Su

350 Radio-Television Workshop (1-3) A workshop course involving the planning, production, and presentation of radio and/or television program materials. Prereq: A maximum of six hours credit may be taken in this course in the following manner: 1) no more than three hours may be earned in radio nor more than three hours in television; 2) RTV 255 is the prereq; 3) No more than three credit hours in radio and/or television may be taken in any one semester; 4) Enrollees must have written consent of the instructor. F, Sp, Su
351 Radio-Television Performance (3) Specific training in broadcast performance situations applicable to both radio and television, including commercial announcing, news reporting, interviewing, and ad-lib announcing. Attention is given to pronunciation, articulation, and diction. Prereq: RTV 255 or consent of instructor. F, Sp

352 Advanced Television Production and Directing (3) Study of the problems and techniques of preparing, producing, and directing actual television programs for on-the-air and CCTV applications. Prereq: RTV 255, Sp

353 Techniques of Video Field Production (3) An introduction to the theory and practice of single camera video production with emphasis on using the camera, lighting, special effects, and electronic editing. Prereq: RTV 255. F

354 Writing for Electronic Media (3) A study of the techniques and philosophy, along with actual writing and production of radio and television advertising, public service, continuity, and general program materials. Prereq: ENG 101 and either ENG 201, 301, 302, or consent of instructor. F, Sp, Su

356 Sportscasting (3) A study of radio and television sports casting, with an emphasis on radio. Emphasis will be placed upon play-by-play sports newscasts, interviewing, and features. Prereq: RTV 255. Sp

357 Advanced Broadcast Journalism (3) A study of the policies and practices of broadcast news programs, series, and documentaries. Students will learn the decision making processes of broadcast news managers, including agenda setting, gate keeping, ethical issues, and utilization of news research data in development of news format and personalities. Students will research, write, and produce a television news series or documentary. Prereq: RTV 255 and RTV 256. F

400 Independent Study in Radio-Television (1-3) This course is designed to provide an opportunity for upper division Communications majors and minors to research subject areas in the field of radio-television. A maximum of six hours may be taken; only three hours may be taken in any one semester. Prereq: 21 hours of communications, upper division status, and written consent of instructor. Students who wish to take independent study courses in the radio-television curriculum should be aware of the following points: 1) Only six hours of independent study may apply toward a major in communications. 2) No more than three hours of Radio-Television 400 may be directed by the same instructor. 3) Students wishing to enroll in independent study courses must receive written permission from their instructors prior to registration. F, Sp, Su

451 Radio-Television Programming (3) A study of current theories and practices of radio and television programming. The stimulation of creative thinking regarding media programming and its conversion into tangible and practical form. Special attention is given to important FCC regulations, managing “creative” personnel, serving the public interest, and other issues faced by radio, TV, and cable managers. Prereq: RTV 151 and RTV 255. Sp

452 Broadcast & Cable Sales (3) Techniques for selling time on radio, television and cable. Includes interpretation of ratings reports, working with advertising agencies, preparation of sales presentations, and marketing. Prereq: RTV 151 or ADV 241 or consent of instructor. F

453 Broadcast & Cable Management (3) The special problems encountered by managers of broadcast and cable operations. Emphasis on FCC regulations, managing “creative” personnel, serving the public interest, and other issues faced by radio, TV, and cable managers. Prereq: RTV 151 and RTV 255. Sp

457 Key Issues in Telecommunications (3) A capstone course examining contemporary issues confronting broadcasters, cable operators, and Internet content providers. Economic, regulatory, social, and ethical issues are explored. RTV 151, 255, and senior standing. F, Sp

498 Internship in Radio-Television (3) Offers students job experience in radio and television through a minimum of 150 hours of supervised professional work. Prereq: departmental approval. F, Sp, Su

499 Special Topics (3) Topics will vary. Purpose of course is to cover topics that are not specific courses in the curriculum. Course may be repeated once if the topic is different from the one previously taken. Prereq: junior standing. F, Sp, Su

ENGLISH

Students electing to pursue a major in English enter a course of study leading to either a Bachelor of Science or a Bachelor of Arts degree, the latter requiring study of a foreign language through the intermediate (200) level. Students pursuing either degree may choose a writing emphasis and may elect to fulfill the requirements for teacher certification.

The English Department also offers courses leading to an English Teaching Minor and to an English Minor with an emphasis in literature, creative writing, or rhetoric and writing. A student who is not an English major or minor may earn a writing concentration certificate by completing 15 hours of advanced writing courses.

All programs in English are intended to help students develop their knowledge of language — the most basic human tool — and literature. The programs also foster creativity, competence in the use of language, broad and specific knowledge, and self-understanding as preparation for professional schools (e.g., graduate school, medical school, law school), for teaching or business, or for any other life goals.

English in the University Core Curriculum

English courses meet several criteria in the University Core Curriculum, depending on the particular content of the course. English courses which meet the University Core Curriculum Goal A1—Composition/ Speech—are ENG 101 (Rhetoric and Composition I – Critical Thinking), 3 hrs.; and ENG 201 (Rhetoric and Composition II – Argumentation), 3 hrs.
English courses which meet the University Core Curriculum Goal B2—The Arts include the following:
ENG 105 (Introduction to Literature) 3 hrs.; ENG 255 (Introduction to British Literary History) 3 hrs.; ENG 265 (Introduction to American Literary History) 3 hrs.; ENG 282 (Bible as Literature I) 3 hrs.; ENG 283 (Bible as Literature II) 3 hrs.; ENG 285 (Introduction to Film) 3 hrs.; ENG 286 (Classical Mythology) 3 hrs.; ENG 302 (Creative Writing) 3 hrs.; ENG 330 (Ethnic Literature in America) 3 hrs.

English courses which meet other University Core Curriculum goals are: Goal B1—Ethics: ENG 222 (Evil in Literature) 3 hrs.; Goal C2—Individual Development/Social Behavior: ENG 330 (Ethnic Literature in America) 3 hrs.; and Goal C5—Global Communities: ENG 386 (World Mythology) 3 hrs.

Major – Bachelor of Arts or Bachelor of Science 42 credit hours

NOTES: (1) English majors are normally expected to use HUM 241-242 (The Western Tradition in Literature I-II) to fulfill Category C4: Western Culture in the University Core Curriculum. (2) ENG 101 and ENG 201 do not fulfill any requirements for any major or minor in English or English Teaching.

Shared Core: All English and English-Teaching Majors are required to complete a 12-hour Shared Core of courses, as follows: 3 hours English 205 (Introduction to English Studies and Ways of Reading), 3 hours English 255 (British Literary History), 3 hours English 265 (American Literary History), and 3 hours English 301 (Advanced Composition).

Shared Electives: All English and English-Teaching Majors also are required to complete 9 hours of Shared Electives at the 300 and 400 level, as follows: 3 hours in Language (selected from ENG 313, Introduction to Linguistics; ENG 314, Survey of English Grammar; and ENG 417, History of the English Language), 3 hours in Theory (selected from ENG 415, History of Rhetoric; ENG 448, Literary Criticism and Theory; ENG 446, Contemporary Issues in Rhetoric), and 3 hours in World and Multicultural Literature (selected from ENG 330, Ethnic Literature in America; ENG 375, Modern Canadian Literature; ENG 386, World Mythology; ENG 382, Literature of the Bible I; ENG 383, Literature of the Bible II).

Bachelor of Arts Degree in English (requires foreign language) with Literature Emphasis 42 credit hours

Shared Core: 12 hours (See above.)
Shared Electives: 9 hours (See above.)
Directed Electives: 12 hours (300-400 level) as follows:
- One literature course focusing on the 18th or 19th Century (3): ENG 427, ENG 431, ENG 434, ENG 435, and certain offerings within the ENG 449 (Major Author) designation
- One literature course focusing on the period before the 18th Century (3): ENG 382, ENG 383, ENG 424, ENG 426, ENG 433, ENG 451, and certain offerings within the ENG 449 (Major Author) designation
- Shakespeare or Major Author (3): ENG 424, ENG 425, ENG 451, and certain offerings within the ENG 449 (Major Author) designation
- Theory (literary and rhetorical) (3): ENG 387, ENG 415, ENG 416, ENG 448
Open Electives: 9 hours, at least 6 of these in literature (300-400 level, and excluding ENG 302)

Bachelor of Arts Degree in English (requires foreign language) with Creative Writing Emphasis 42 credit hours

Shared Core: 12 hours (See above.)
Shared Electives: 9 hours (See above.)
Specific Required Courses: 9 hours as follows:
- 3 hours in ENG 302 (Introduction to Creative Writing)
- 3 hours in ENG 402 (Advanced Creative Writing)
- 3 hours in ENG 491 (The Writer at Work)
Directed Electives: 12 hours at the 300 and 400 level as follows:
- 3 hours in *ENG 303 (Poetry Workshop) or *304 (Fiction Workshop)
- 3 hours in *ENG 305 (Non-Fiction Workshop) or *307 (Screenwriting Workshop) or 335 (Playwriting Workshop)
*May be repeated thrice for credit, but counts only once as directed elective requirement.
- 3 hours: ENG 431 (20th Century Poetry) or ENG 437 (Contemporary Fiction)
- 3 hours: ENG 451 (Shakespeare) or ENG 449 (Major Author)
Bachelor of Arts Degree in English (requires foreign language) with Rhetoric and Writing Emphasis
42 credit hours

Shared Core: 12 hours (See above.)
Shared Electives: 9 hours (See above.)
Electives: 21 hours at the 300 and 400 level as follows:
• Craft Courses: 12-15 hours selected from ENG 316 (Critical and Investigative Writing); ENG 412 (Writing for the Professions); ENG 411 (Writing in the Digital Age); ENG 491 (The Writer at Work); and other courses as designated by the English Department.
• Theory Courses: 3-6 hours selected from ENG 415 (History of Rhetoric); ENG 416 (Contemporary Issues in Rhetoric); ENG 448 (Literary Theory and Criticism)
• Open English Electives (3-6 hours if needed to total 21 hours of electives; ENG 302 may not be selected as an elective)

Bachelor of Arts Degree (requires foreign language), English Teaching Major
42 credit hours
Note: Students entering the English teaching program should review the School of Liberal Arts Teacher Certification Policy at the beginning of the Liberal Arts section of this bulletin.

Shared Core: 12 hours (See above.)
Shared Electives: 9 hours (See above.)
Shakespeare: 3 hours at the 300-400 level
Directed Electives: 9 hours at the 300-400 level as follows:
• 3 hours in a rhetoric or composition course (including but not limited to ENG 310)
• 6 hours in British and American Literature
Open Electives: 9 hours at the 300-400 level (May include theory, literature, rhetoric, writing, or ENG 444-Literature in the Secondary Schools.)

Bachelor of Science Degree in English, Rhetoric and Writing Emphasis
42 credit hours
This program is identical to the Bachelor of Arts Degree in English, Rhetoric, and Writing Emphasis, except that no foreign language is required.

Bachelor of Science Degree, English Teaching Major
42 credit hours
This program is identical to the Bachelor of Arts Degree in English, English Teaching Major, except that no foreign language is required.

English Teaching Minor
27 credit hours
Note: Students entering the English teaching program should review the School of Liberal Arts Teacher Certification Policy at the beginning of the Liberal Arts section of this bulletin.

Shared Core: 12 hours (See above.)
Shared Electives: 9 hours (See above.)
Directed Electives: 6 hours
• 3 hours in a rhetoric or composition theory-related course at the 300 or 400 level (ENG 310, ENG 415, or ENG 416)
• 3 hours in Shakespeare or another major author at the 300 or 400 level (including ENG 449 and ENG 451)

English Minor with Literature Emphasis
24 credit hours

Shared Core: 12 hours (See above.)
Directed Electives: 12 hours
• 3 hours in theory (selected from ENG 415, History of Rhetoric; ENG 448, Literary Criticism and Theory; ENG 416, Contemporary Issues in Rhetoric)
• 3 hours in world and multicultural literature (selected from ENG 330, Ethnic Literature in America; ENG 375, Modern Canadian Literature; ENG 386, World Mythology; ENG 382, Literature of the Bible I; ENG 383, Literature of the Bible II)
• 3 hours in Shakespeare or another major author (including ENG 424, 425, 449, and 451)
• 3 hours of literature at the 300-400 level

English Minor with Creative Writing Emphasis
24 credit hours

Core: 9 hours as follows:
• 3 hours ENG 205 (Introduction to English Studies and Ways of Reading)
• 3 hours ENG 255 (British Literary History) or ENG 265 (American Literary History)
• 3 hours upper level literature course
Limited Electives: 6 hours as follows:
• 3 hours in theory, selected from ENG 415 (History of Rhetoric), ENG 448 (Literary Criticism and Theory), ENG 416 (Contemporary Issues in Rhetoric)
• 3 hours in world and multicultural literature, selected from ENG 330 (Ethnic Literature in America), ENG 375 (Modern Canadian Literature), ENG 386 (World Mythology), ENG 382 (Literature of the Bible I), ENG 383 (Literature of the Bible II)
Specific Required Courses: 6 hours
• 3 hours in ENG 302 (Introduction to Creative Writing)
• 3 hours in ENG 402 (Advanced Creative Writing)

Directed Electives: 3 hours in an advanced workshop, selected from ENG 303 (Poetry Workshop), ENG 304 (Fiction Workshop), ENG 305 (Non-Fiction Workshop), ENG 307 (Screenwriting Workshop)

English Minor with Rhetoric and Writing Emphasis
24 credit hours

Core: 9 hours as follows:
• 3 hours ENG 205 (Introduction to English Studies and Ways of Reading)
• 3 hours ENG 255 (British Literary History) or ENG 265 (American Literary History)
• 3 hours English 301: Advanced Composition

Limited Electives: 6 hours at the 300 and 400 level
• 3 hours in literary theory, selected from ENG 387 (Women’s Literature and Gender Issues: 19th and 20th-Century Theory and Praxis), ENG 448 (Literary Criticism and Theory)
• 3 hours in rhetorical studies, selected from ENG 415 (History of Rhetoric), ENG 416 (Contemporary Issues in Rhetoric)

Directed Electives: 6-9 hours at the 300 and 400 level, selected from the following: ENG 316 (Critical and Investigative Writing), ENG 412 (Writing for the Professions), ENG 411 (Writing in the Digital Age), ENG 491 (The Writer at Work).

Open English Electives: 3 hours if needed to total 9 hours of electives; ENG 302 is excluded.)

Writing Concentration Certificates
15 credit hours
The English Department offers two writing concentration certificates: The Writing Concentration and The Creative Writing Concentration.

The Writing Concentration:
Required courses: ENG 301 (Advanced Composition) 3 hrs.; ENG 316 (Critical and Investigative Writing) 3 hrs.; ENG 412 (Writing for the Professions) 3 hrs. or ENG 411 (Writing in the Digital Age) 3 hrs.; ENG 415 (History of Rhetoric) 3 hrs. or ENG 416 (Contemporary Issues in Rhetoric) 3 hrs. or ENG 417 (History of the English Language) 3 hrs.; ENG 491 (The Writer at Work) 3 hrs.

The Creative Writing Concentration:
Required courses: ENG 302 (Creative Writing) 3 hrs.; ENG 305 (Non-Fiction Workshop) 3 hrs. or ENG 307 (Screenwriting Workshop) 3 hrs. or ENG 335 (Playwriting I Workshop) 3 hrs.; ENG 303 (Poetry Workshop) 3 hrs. or ENG 304 (Fiction Workshop) 3 hrs.; ENG 402 (Advanced Creative Writing) , 3 hrs.; ENG 491 (The Writer at Work), 3 hrs.

Course Descriptions
Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

100 Introduction to Rhetoric and Composition (3) A portfolio-based, preparatory course in reading, writing, reflection, and discussion, emphasizing rhetorical analysis and strategies for focusing, developing, and organizing writing. Special attention also is given to strategies for revising and editing writing. Course credits will apply as electives toward graduation. Prereq: GENS 098 or appropriate placement, based on high school GPA and standardized test scores (SAT or ACT). Basic keyboarding skills required. F, Sp, Su

101 Rhetoric and Composition I: Critical Thinking (3) A course in the critical arts of reading, writing, reflection, and discussion with an introduction to rhetoric and informal logic. Meets University Core Curriculum Goal A1: Composition/Speech and A3 Critical Thinking. Prereq: ENG 100 or appropriate placement based on such factors as the RCPE score, high school GPA, high school class rank, and DRP. Basic keyboarding skills required; see ASBE 121. F, Sp, Su

103 Fundamentals of Creative Writing (1) This course, designed specifically for incoming freshmen with creative writing scholarships, teaches the fundamentals of poetry and fiction writing. Students will read and write fiction and poetry. F

105 Introduction to Literature (3) An introduction to literature emphasizing the ability to read critically. Meets University Core Curriculum Goal B2: The Arts. No prereq. F, Sp, Su

201 Rhetoric and Composition II: Argumentation (3) A second course in the critical arts of reading, writing, reflection, and discussion emphasizing the responsibilities of written inquiry and structured reasoning. Meets University Core Curriculum Goal A1: Composition/Speech. Prereq: ENG 101 or approved equivalent. F, Sp, Su

205 Introduction to English Studies and Ways of Reading (3) ENG 205 introduces students to the major literary genres (lyric poetry, drama, and prose fiction), to significant theoretical orientations (such as formalism, reader-response, Marxism, and feminism) that establish particular ways of reading any text, and to the range of disciplines included within the study of English (including linguistics, rhetoric, writing, and the teaching of English). This course is intended to help students become more critical and informed readers, more comfortable with the terminology used across the broad spectrum of English courses, and more able to marshal technical information and apply theoretical concepts in their literary interpretations. Prereq: ENG 201 or equivalent. F, Sp

210 Technical Writing (3) The fundamentals of technical communication with emphasis on clear, precise, and orderly exposition. Prereq: ENG 101. F, Sp
<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
<th>Credits</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>222</td>
<td>Concepts of Evil in Literature</td>
<td>3</td>
<td>A study of literary works from different countries and eras that reflect on the causes, nature, and consequences of evil. Special focus on development of ethical principles and decision-making. Meets University Core Curriculum Goal B1: Ethics. No prereq.</td>
</tr>
<tr>
<td>231</td>
<td>African American Literature</td>
<td>3</td>
<td>A course which examines the African American literary tradition, covering representative works from the African pre-colonial and modern periods, nineteenth century American, the Harlem Renaissance to the present. Included are works by African and African American authors from the oral and written traditions of poetry, prose, and drama.</td>
</tr>
<tr>
<td>255</td>
<td>Introduction to British Literary History</td>
<td>3</td>
<td>ENG 255 examines the historical development of British literature, from the Anglo-Saxon invasions that catalyzed the birth of a British national identity and brought Beowulf into the literature of England, through the contentious development of this national identity into a global power, to Britain’s 20th century post-colonial status. By concentrating on representative or “canonical” works as well as those conventionally under-represented, the course will provide students with the background necessary to understand British literary works in their social, political, and cultural contexts. Prereq: English 101 or equivalent. Meets Core Curriculum Goal B2: The Arts. F, Sp</td>
</tr>
<tr>
<td>265</td>
<td>Introduction to American Literary History</td>
<td>3</td>
<td>ENG 265 provides an overview of the main currents in the development of American literature, from its beginnings in pre-colonial times, through its reliance on and then struggle against British and European themes and forms, to its 20th-century development into the many voices of an uneasily multi-ethnic world power. By historically situating representative works from within the canon as well as from voices traditionally excluded or under-represented, the course will provide students with the background necessary to understand literature as the product of and often as challenging this background. Prereq: English 101 or equivalent. Meets Core Curriculum Goal B2: The Arts. F, Sp</td>
</tr>
<tr>
<td>285</td>
<td>Introduction to Film</td>
<td>3</td>
<td>An introductory examination of motion pictures as an art form. Students attend a series of selected films and discuss and evaluate them with respect to theme and technique. Critical principles are examined, and basic dramatic, literary, and photographic principles of cinema are investigated. Meets University Core Curriculum Goal B2: The Arts. No prereq. F, Sp</td>
</tr>
<tr>
<td>288</td>
<td>Women in Literature Through the 18th Century</td>
<td>3</td>
<td>A study of representations of women in literature written by men and women. For the most part this course falls into these periods: Hebrew, Classical Greek, Roman, Medieval, Renaissance, Seventeenth, and Eighteenth Centuries. The course provides historical background for studying contemporary women’s literature, theory, and issues. No prereq.</td>
</tr>
<tr>
<td>299</td>
<td>Special Topics of Literature</td>
<td>3</td>
<td>Selected works grouped together because they all deal with the same type (e.g., “Science Fiction,” “Satire”) author(s) (“Hemingway and Fitzgerald,” “Virginia Woolf”), or concept (“Alienation in Literature,” “Psychology and Literature”). Each time this course is offered the particular topic is announced in the class schedule. A student may take this course only once for credit as part of the English requirements, but a student may take the course more than once for elective hours toward University requirements. No prereq.</td>
</tr>
<tr>
<td>301</td>
<td>Advanced Composition</td>
<td>3</td>
<td>A flexible course in advanced composition, sometimes, in a lecture-discussion format, stressing advanced techniques of analyzing a question, formulating answers, and organizing and elaborating the presentation; sometimes, in a seminar format, stressing special types of exposition such as technical and business reports, scholarly papers, and magazine articles; and sometimes, in whatever format, concentrating on the cultivation of an effective prose style. Prereq: ENG 201 or consent of instructor. F, Sp, Su</td>
</tr>
<tr>
<td>302</td>
<td>Creative Writing</td>
<td>3</td>
<td>Inquiry into the creative process. Students will write poems, short fiction, and dramatic scenes with critical analysis and discussion by the instructor and class. Meets the University Core Curriculum Goal B2: The Arts. Prereq: ENG 201 or consent of instructor. F, Sp</td>
</tr>
<tr>
<td>303</td>
<td>Poetry Workshop</td>
<td>3</td>
<td>An intense study of poetry, in which students examine poems of others and address in their own poems, issues of character, personality, image, nuance, tone, setting, and concision. Prereq: ENG 302. F</td>
</tr>
<tr>
<td>304</td>
<td>Fiction Workshop</td>
<td>3</td>
<td>An intense study of fiction in which students examine fiction of others and write fiction of their own. Prereq: ENG 302. Sp</td>
</tr>
<tr>
<td>305</td>
<td>Non-Fiction Workshop</td>
<td>3</td>
<td>A course in which students will hone critical skills and polish their prose in the literary essay. Prereq: ENG 302. F</td>
</tr>
<tr>
<td>307</td>
<td>Screenwriting Workshop</td>
<td>3</td>
<td>An intense study of screenwriting in which students examine screenplays of others and write a full length screenplay of their own. Prereq: ENG 302. Sp</td>
</tr>
<tr>
<td>310</td>
<td>Writing in the Secondary Schools</td>
<td>3</td>
<td>A course for prospective secondary school teachers on issues related to teaching writing in grades 5-12, including writing as a process, assigning and evaluating student writing, portfolio assessment, and research as writing to learn. Students also will practice writing in a variety of modes. Required for Teacher Certification in English. Prereq: ENG 301 or consent of instructor. F</td>
</tr>
<tr>
<td>313</td>
<td>Introduction to Linguistics</td>
<td>3</td>
<td>An introduction to the discipline of linguistics, with particular attention to the following fields: historical linguistics, comparative linguistics, descriptive linguistics, semantics, applied linguistics (with special reference to education), sociolinguistics, psycholinguistics, and assorted grammatical studies. Prereq: ENG 201 or permission of instructor. Sp</td>
</tr>
<tr>
<td>314</td>
<td>Survey of English Grammars</td>
<td>3</td>
<td>Survey of the tradition of English grammatical study, including scholarly and pedagogical grammars, from the eighteenth century to the present. Prereq: ENG 201 or consent of instructor. F</td>
</tr>
<tr>
<td>316</td>
<td>Critical and Investigative Writing</td>
<td>3</td>
<td>A course aimed at developing critical thinking and investigative skill—the latter involving greater sophistication not only in secondary research but also in primary research (e.g., questionnaires, interviews, etc.). These skills are applicable whether the writing is for government agencies, non-profit organizations, research foundations, business, industry, or education. No prereq. F</td>
</tr>
</tbody>
</table>
335 Playwriting I (3) An intense study of dramaturgy, in which students will write dramas of their own. Cross-listed with THTR 335. Prereq: ENG 302 and THTR 121.

336 Playwriting II (3) A formal study to help advanced creative writing students sharpen their awareness of contemporary trends in drama and critical theory. Cross-listed with THTR 336. Prereq: ENG 335 (THTR 335) or consent of instructor.

375 Modern Canadian Literature (3) A study of major trends and authors in modern Canadian prose fiction from about 1930 to the present, with some consideration of cultural backgrounds. Prereq: ENG 201 and junior standing.

386 World Mythology (3) An examination of the major cultural mythologies from around the world for cross-cultural comparisons and contrasts. Meets University Core Curriculum Goal C5: Global Communities. Prereq: ENG 201 and sophomore standing. Sp

387 Women's Literature and Gender Issues: 19th- and 20th-Century Theory and Praxis (3) A study of significant 19th- and 20th-century works of literature and literary theory by or about women, with special emphasis on the implications of gender for art and culture. Prereq: ENG 201 or consent of instructor.

402 Advanced Creative Writing (3) An advanced course designed for students committed to writing professional poetry, or fiction. Students will be admitted by consent of the instructor and will contract with the instructor to concentrate in one of the above areas. Prereq: ENG 302 and 303 or 304, or consent of instructor. F, Sp

411 Writing in the Digital Age (3) A course in the kinds of writing made possible by computer-based composing with attention to the impact of technology and computers upon the writer's process and product. The course will cover word processing, document design, desktop publishing, hypertext, e-mail, Internet information access, and multimedia presentation. Prereq: ENG 301.

412 Writing for the Professions (3) Study of practical ways to write the specialized documentation needed for today's industry, science, research, and technical management. Prereq: ENG 301.

415 History of Rhetoric (3) An understanding and comparison of various movements in the history of rhetoric, with particular emphasis on the relationship between rhetorical strategy and one's image of human beings and on historical events which influenced rhetoric. The course aims to increase the scope of students' understanding of rhetoric and help them apply this knowledge to their own communication and to their evaluation of the communications of others. Cross-listed with philosophy. Prereq: ENG 201 and junior standing. F

416 Contemporary Issues in Rhetoric (3) An intensive exploration of the 20th century's re-valuing of rhetoric as an interdisciplinary theory of language and meaning. This course complements ENG 415 (The History of Rhetoric). Prereq: ENG 205 and junior standing.

417 History of the English Language (3) A chronological study of the recorded history of the English language from the ninth century to the present. Detailed study of major changes in phonology, lexicon (morphology and semantics), and syntax. Attention to the notion and practice of Standard English and to the development and current state of dialects in the USA. Prereq: ENG 201 and junior standing. F

424 Chaucer (3) A study of the major works of Geoffrey Chaucer, particularly The Canterbury Tales, with attention to the language and times of Chaucer. Includes lecture and discussion. Prereq: 62 credit hours of credit or consent of instructor.

426 The Literature of the Renaissance (3) Non-dramatic literature of the Renaissance. Emphasis on major figures such as Spenser, Donne, and Milton. Prereq: either ENG 255 and ENG 301 or consent of instructor.

427 Neo-Classical and Eighteenth-Century Literature (3) From Dryden to the pre-Romantics. Emphasizes poetry and changing social thought in England and America, with continental backgrounds. Prereq: ENG 201 and junior standing.

431 Nineteenth-Century Literature (3) The writing of the English Romantics and Victorians and of American writers of the period, studied against the background of nineteenth-century continental writers. Prereq: ENG 201 and junior standing.

433 History of Western Drama I (3) Survey of representative plays from classic through the Renaissance as a basis for theatrical production and dramatic criticism. Cross-listed as THTR 433. Prereq: ENG 201 and junior standing. F

434 History of Western Drama II (3) Survey of representative plays from the Restoration to the modern periods as a basis for theatrical production and dramatic criticism. Cross-listed as THTR 434. Prereq: ENG 201 and junior standing. Sp

435 Fiction to 1875 (3) A study of English and American prose fiction (principally the novel) before the late 19th-century change to modern realism and naturalism. The course includes the great Victorians and Americans through Hawthorne and Melville with relevant continental backgrounds. Prereq: ENG 201 and junior standing.

436 Fiction from 1875 To 1930 (3) A study of English and American prose fiction of the realist, naturalist, and early modern periods. The course includes such writers as James, Twain, Crane, Conrad, Lawrence, Joyce, and others, with major continental figures as well. Prereq: ENG 201 and junior standing.

437 Contemporary Fiction (3) A study of English and American prose fiction from approximately 1930 to the present, with continental backgrounds. Prereq: ENG 201 and junior standing.

443 Twentieth-Century Southern Literature (3) A study of the literature produced by American Southern writers from ca. 1920 to the present. The course includes such writers as Faulkner, Wolfe, Warren, Welty, and O'Connor. Prereq: ENG 201 and junior standing.

444 Literature in the Secondary Schools (3) A course on issues related to the teaching of literature in grades 5 to 12, including censorship, literary theory, adolescent literature, multicultural literature, the ethics of reading, and the connections between reading and the other language arts: writing, speaking, and listening. Prereq: ENG 301.
448 Literary Criticism and Theory (3) A study of literary criticism and aesthetic theory. Consists of a survey of literary theories, and an introduction to current critical approaches to literature. Prereq: ENG 201 and junior standing. Sp

449 Major Author (3) An intensive study of the works of a major author in fiction, poetry, drama or non fiction. Course may be repeated for credit as long as the student has not previously studied the author in an ENG 449. Prereq: junior standing. Sp

451 Plays of Shakespeare (3) An intensive study of selected comedies, tragedies, histories, and romances. Required of English majors. Prereq: either ENG 255 and ENG 301, or consent of instructor. F

459 Special Studies in English (1-3) English studies in conjunction with special activities and events, such as seminars, conferences, and semester hours of credit awarded for each offering will be determined by the instructor and the department chairperson. Repeatable for up to three hours with change of topics. Prereq: consent of instructor.

480 Independent Study (3) Individualized study under the direction of a faculty member, leading to the production of a substantial written product. May be used to meet a requirement for the English major or minor with prior approval of the department chairperson. Prereq: ENG 205 and junior standing.

490 Practicum: Tutoring and Individualized Instruction in English (3) A course that enables a student to gain practical experience in teaching English on a one-to-one basis while staffing the University’s Writing Workshop. Tuition waiver possible. Hours do not apply to University Core Curriculum or the English major. Students attend a weekly seminar of approximately one and one-half hours and tutor in the workshop. Prereq: consent of instructor. F, Sp

491 The Writer at Work (3) An advanced seminar for students in the Writing Emphasis, the Writing Concentration, or the Creative Writing Concentration, involving all aspects of preparing a manuscript through actual publication. Students will complete a project demonstrating such professional competence. Prereq: senior standing and consent of instructor. F, Sp

498 Internship in English (3) A course granting credit for work experiences related complementing the English major. The course provides for a minimum of 150 hours of supervised professional work, two written evaluations by the supervisor, an on-site visit by a University representative, maintenance of a log or portfolio, and periodic interviews with a department faculty member. Open to juniors or seniors. Grades assigned as Satisfactory or Unsatisfactory only. Prereq: ENG 301 and consent of instructor. F, Sp, Su

499 Seminar in Literature and Language (3) An advanced topics course for majors, minors, and other qualified students. A maximum of six credit hours may be earned. Prereq: 62 credit hours and consent of instructor.

FOREIGN LANGUAGES
The study of languages acquaints students with cultures other than their own. It prepares students for a teaching career and for various careers in business, government, or other areas with an international focus. The department offers majors, minors, and teacher certification in French, German, and Spanish. Latin students may choose a minor in classical studies, and Japanese students may obtain a proficiency certificate by completing 18 credit hours in the language.

Concentration in Language and International Trade
Language majors may opt for a concentration in international trade and business. This concentration combines the study of a foreign language (French, German, or Spanish) with a business core, culminating with an internship in an international business or organization.

Concentration in Language and International Trade
Required business courses – 30 credit hours:
- Accounting 201-202-Accounting Principles, 6 hrs.;
- Computer Information Systems 151-Computer Applications, 3 hrs.;
- Finance 201-Business Finance, 3 hrs.;
- Management 305-Management of Organizational Behavior, 3 hrs.;
- Marketing 305-Principles of Marketing, 3 hrs.;
- Management 445-International Business, 3 hrs.;
- Economics 241-Global Economic Issues, 3 hrs.;
- Economics 265-Elementary Statistics, 3 hrs.; directed business elective, 3 hrs.

Required cognate courses outside the School of Business:
- Mathematics 111-College Algebra, 4 hrs.;
- Economics 208-Microeconomics, 3 hrs.;
- Economics 209-Macroeconomics, 3 hrs.;
- Psychology 201-General Psychology, 3 hrs.

Major – French
30 credit hours
Required courses:
- 203-Intermediate French I, 3 hrs.;
- 204-Intermediate French II, 3 hrs.;
- 214-Intermediate French Conversation, 3 hrs.;
- 303-Advanced Composition and Conversation, 3 hrs.;
- 309-Contemporary French Culture and Society, 3 hrs.;
- 311-Introduction to French Literature, 3 hrs.;
- 416-17th and 18th Centuries French Literature, 3 hrs.;
- 417-19th and 20th Centuries French Literature, 3 hrs.;
- 420-Seminar in 20th Century Literature and Culture, 3 hrs.;
- one elective (three hours) selected from 400-level special topics courses or individual study as directed by advisor.

Note: French 101 and 102 cannot be applied toward a French major or minor.

Minor – French
24 credit hours
Required courses:
- 203-Intermediate French I, 3 hrs.;
- 204 – Intermediate French II, 3 hrs.;
- 214-Intermediate French Conversation, 3 hrs.;
- 303-French Composition and Conversation, 3 hrs.;
- 309-Contemporary French
Culture and Society, 3 hrs.; 311-Introduction to French Literature, 3 hrs.; 416-17th and 18th Centuries French Literature, 3 hrs.; 417-19th and 20th Centuries French Literature, 3 hrs.

Major – German
30 credit hours
Required courses: 203-Intermediate German I, 3 hrs.; 204-Intermediate German II, 3 hrs.; 241-German Developmental Readings, 3 hrs.; 242-Advanced Developmental Reading, 3 hrs.; 301-German Composition and Conversation, 3 hrs.; 309-Contemporary German Culture and Society, 3 hrs.; 318-Survey of German Lyric, 3 hrs.; 333-The German Press, 3 hrs.; 334-Introduction to Modern German Drama, 3 hrs.; 418-The German Novelle, 3 hrs.

Note: German 101 and 102 cannot be applied toward a German major or minor.

Minor – German
24 credit hours
Required courses: 203-Intermediate German I, 3 hrs.; 204-Intermediate German II, 3 hrs.; 241-German Developmental Readings, 3 hrs.; 301-German Composition and Conversation, 3 hrs.; 309-Contemporary German Culture and Society, 3 hrs.; 318-Survey of German Lyric, 3 hrs.; 333-The German Press, 3 hrs.; 334-Introduction to Modern German Drama, 3 hrs.; 418-The German Novelle, 3 hrs.

Note: German 101 and 102 cannot be applied toward a German minor. Teaching minors must take 418-The German Novelle.

Major – Spanish
30 credit hours
Required courses: 203-Spanish Review, 3 hrs.; 204-Reading and Discussion of Contemporary Problems of the Spanish World, 3 hrs.; 301-Advanced Conversation, 3 hrs.; 302-Advanced Spanish Composition and Style, 3 hrs.; 406-Spanish Culture, 3 hrs.; 407-Spanish American Culture, 3 hrs.; 408-Survey of Spanish Literature, 3 hrs.; 409-Survey of Spanish-American Literature, 3 hrs.

Elective courses: 12 hours selected from Spanish course offerings as directed by advisor from 300- and 400-level courses or equivalents.

Note: Spanish 101 and 102 cannot be applied toward a Spanish major or minor.

Minor – Spanish
24 credit hours

Teacher Certification
Note: Please review the College of Liberal Arts Teacher Certification Policy at the beginning of the Liberal Arts section of this bulletin.

Major – French (teacher certification)
38 credit hours

Education requirements: EDUC 390-Teaching of Modern Foreign Languages in Secondary Schools, 2 hrs.

Elective courses: six to nine hours selected from French course offerings as directed by advisor from 400-level courses or equivalents.

Minor – French (teacher certification)
24 credit hours

Major – German (teacher certification)
38 credit hours
Required courses: 203-Intermediate German I, 3 hrs.; 204-Intermediate German II, 3 hrs.; 241-German Developmental Readings, 3 hrs.; 242-Advanced Developmental Reading, 3 hrs.; 301-German Composition and Conversation, 3 hrs.; 309-Contemporary German Culture and Society, 3 hrs.; 318-Survey of German Lyric, 3 hrs.; 333-The German Press, 3 hrs.; 334-Introduction to Modern German Drama, 3 hrs.; 418-The German Novelle, 3 hrs.

Note: German 101 and 102 cannot be applied toward a German major or minor.
Education requirements: EDUC 390-Teaching of Modern Foreign Languages in Secondary Schools, 2 hrs.

Elective courses: six hours selected from German 470 in the fields of advanced language study, teacher preparation, culture, and literature, as directed by advisor.

Minor – German (teacher certification)
24 credit hours
Required courses: 203-Intermediate German I, 3 hrs.; 204-Intermediate German II, 3 hrs.; 241-German Developmental Readings, 3 hrs.; 301-German Composition and Conversation, 3 hrs.; 309-Contemporary German Culture and Society, 3 hrs.; 318-Survey of German Lyric, 3 hrs.; 418-The German Novelle, 3 hrs.

Elective courses: three hours selected from German course offerings as directed by advisor.

Major – Spanish (teacher certification)
39 credit hours

Education requirements: EDUC 390-Teaching of Modern Foreign Languages in Secondary Schools, 2 hrs.

Elective courses: 15 hours selected from Spanish course offerings as directed by advisor.

Minor – Spanish (teacher certification)
24 credit hours

Minor – Classical Studies
24 credit hours

Elective Courses: nine hours of ancient Greek and/or Roman history course offerings (HIST 341, 342, 343, 344, 398, 410, and 499) and nine hours from course offerings on the Art and Culture of the Greek and Roman worlds (ENG 286, ENG 499: Greek Tragedy, PHIL 350, ART 345).

Course Descriptions
Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

French

101 Elementary French I (3) Fundamentals of the language taught through a multiple approach (understanding, speaking, writing, and reading). French is used extensively as a medium of communication in the classroom. No prereq. F

203 Intermediate French I (3) A thorough review of the French language system to include work in grammar, conversation, reading, and composition. Short readings and songs introduce the students to cultural and literary themes. Language of instruction: French. Prereq: French 102 or equivalent. F

204 Intermediate French II (3) Continuation of French 203. Grammar review will include those structures not covered in 203, with a greater emphasis on composition. Readings from several time periods and genres continue the study of cultural and literary themes. Language of instruction: French. Prereq: French 203 or equivalent. Sp

309 Contemporary French Culture and Society (3) An examination of the main social, political, and cultural trends that form present-day France. Materials include cultural readings, newspapers, maps, documents, and films. Language of instruction: French. Prereq: French 204 or consent of instructor. Sp

311 Introduction to French Literature (3) Critical reading and literary and cultural analysis of selected texts in the major literary genres. Language of instruction: French. Prereq: French 204 or consent of instructor. F

390 Teaching of Modern Foreign Languages in Secondary Schools (2) Aims and methods of procedure in teaching modern foreign languages in secondary schools: materials and organization as preparation for student teaching. (Same as Spanish 390 and German 390.) Prereq: consent of instructor.
400 Special Topics in French—Topics in the fields of advanced language study, teacher preparation, culture, and literature will be offered from time to time. This course may be taken as often as topics vary. Prereq: consent of instructor. Sp

416 17th and 18th Centuries French Literature (3) An examination of the major literary movements from French Classicism to the Enlightenment through the critical reading of representative texts. Language of instruction: French. Prereq: French 311 or consent of instructor. Sp

417 19th and 20th Centuries French Literature (3) An analysis of representative texts from Romanticism, Realism, Naturalism, Existentialism, and the Absurd. Language of instruction: French. Prereq: French 311 or consent of instructor. F

420 Seminar in Twentieth Century French Literature and Culture (3) Focus on a specific genre, literary movement, or cultural theme. Prereq: French 311 or consent of instructor. May be taken as often as subjects vary. F

499 Individual Study in French (1-3) Research in a specific area of Francophone literature, culture or education, culminating in an analytical paper. Elected upon approval of appropriate faculty advisor. Prereq: one French course on the 400 level (waived in special cases). May be taken twice. Prereq: consent of instructor.

German

101 Beginning German I (3) Fundamentals of the language taught on the principle of multiple approach (understanding, speaking, writing, and reading). German is used extensively as the medium of communication in the classroom. Three class hours a week plus assigned audio cassette review. No prereq. F

102 Beginning German II (3) Continuation of German 101. Continued development of German grammar and syntax, idiomatic expressions, vocabulary, reading, composition, and conversation skills. Language of instruction: German. Prereq: German 101 or equivalent. Sp

203 Intermediate German I (3) A thorough review of the German language system to include work in grammar, reading, composition, and conversation. Readings in the German short story and essay provide the student with interpretive skills and an introduction to major literary and cultural themes. Language of instruction: German. Prereq: German 102 or equivalent. F

204 Intermediate German II (3) A continuation of German 203. Grammar review will include those concepts not covered in 203. Class discussions on the short story and selected topics will increase the student's verbal ability in the language. Language of instruction: German. Prereq: German 203 or equivalent. Sp

231 German Readings in Chemistry (2) A course designed specifically for the student intent on graduate studies in the field of chemistry. Intensive readings in chemical texts and current chemical research, with an emphasis on translation methods. Language of instruction: English. Prereq: German 204 or concurrently.

241 German Developmental Readings (3) A study of six biographical readers series of prominent Germans begun in German 241. Continuing emphasis on vocabulary development. As a transition to German 301 (Composition and Conversation), students will learn to apply their developing vocabularies and knowledge of German life and letters through a series of short essays and oral presentations on German. Prereq: German 241 or consent of instructor. F

301 German Composition and Conversation (3) Two of the four language skills receive intensive practice. Frequent oral presentations in varied forms (prepared speeches, debates, impromptu, and panel discussions) aid the student wishing to develop fluency in German, while a series of original compositions develops the student's ability to write German correctly and acquire a literary style. More advanced grammatical and stylistic problems are addressed. Continued emphasis on idiomatic expression. Language of instruction: German. Prereq: German 204 or equivalent. Sp

305 German Culture Practicum (3) A two-part course culminating in a 10 week work experience in Germany. Through six two-hour seminars and outside readings on contemporary Germany the student is prepared for life and work in German society. Two papers—one written prior to departure and another upon returning—will be used to evaluate the student's evolving perspective of German life. Language of instruction: German. Prereq: consent of instructor. Sp

309 Contemporary German Culture (3) An investigation of the cultural psychology which has shaped the social, political, economic, and cultural conditions of today's Germany. Although emphasis is largely contemporary, the course explores the continuing influence of Bismarck's Germany, Weimar, and the two world wars on the Federal Republic. Resource materials are drawn from journals, newspapers, histories, recent films, contemporary essays, and fiction. Language of instruction: German. Prereq: German 203 or equivalent. Sp

318 Survey of German Lyric (3) A study of the most representative poets from the baroque to modern times offers an overview of the major movements in German literature. Language of instruction: German. Prereq: German 204 or equivalent. Sp

333 The German Press (3) Readings in politics, science, economics, art, and music from Germany's leading newspapers. The discussions in German are intended to improve oral proficiency and to make the student aware of current developments in German society. Prereq: German 204 or equivalent. F

334 Introduction to Modern German Drama (3) German drama from mid-19th century to the present time, emphasizing major literary movements and recent experiments in the theatre. Application of the acquired skills are demonstrated by the student in a dramatic presentation as well as through short papers and the final exam. Language of instruction: German. Prereq: German 204 or equivalent. F

390 Teaching of Modern Foreign Languages in Secondary Schools (2) Aims and methods of procedure in teaching modern foreign languages in secondary schools; materials and organization as preparation for student teaching. (Same as Spanish 390) Prereq: consent of instructor.

418 The German Novelle (3) A study of the novel from Romanticism to Thomas Mann, with comparisons to the German short story, provides an overview of principle themes and motifs. Application of the novelle and the short story to high school advanced German curriculum will be explored. Language of instruction: German. Prereq: German 204 or equivalent. Sp
470 Special Topics in German (3) Specialized topics to study in the fields of language study, teacher preparation, culture, and literature will be offered from time to time. This course may be taken as often as topics vary. Prereq: consent of instructor. F, Sp

Japanese

101 Elementary Japanese I (3) This course introduces the fundamentals of Japanese through a multiple approach: understanding, speaking, reading, and writing. Cross-cultural comparisons are made. Japanese is used extensively as the medium of communication in the classroom. Audio-cassette practice is required as homework. No prereq. F

203 Intermediate Japanese (3) This course provides a thorough review and continuation of the Japanese language system to include low-intermediate-level work in listening, speaking, reading, writing, and cross-cultural understanding. Audio-cassette practice is required as homework. Prereq: Japanese 102 or the equivalent. F

204 Intermediate Japanese (3) A continuation of Japanese 203. Emphasis given at the mid-intermediate level to listening, speaking, reading, writing, and cross-cultural awareness. Audio-cassette practice is required as homework. Prereq: Japanese 203 or the equivalent. Sp

301 Third Year Japanese I (3) This course provides a thorough review and continuation of the Japanese language system to include high-intermediate-level work in listening, speaking, reading, writing, and cross-cultural understanding. Audio-cassette practice is required as homework. Prereq: Japanese 204 or the equivalent. F

302 Third Year Japanese II (3) A continuation of Japanese 301. Emphasis given at the preliminary advanced level to listening, speaking, reading, writing, and cross-cultural awareness. Audio-cassette practice is required as homework. Prereq: Japanese 301 or the equivalent. Sp

351 Advanced Japanese I (3) A continuation of Japanese 302. Emphasis given at the preliminary advanced level to listening, speaking, and cross-cultural awareness. More advanced primary materials are used as the basis for reading and writing. The student is introduced to word processing in Japanese. Prereq: Japanese 302 or the equivalent. F

352 Advanced Japanese II (3) A continuation of Japanese 351. Emphasis continues at the preliminary advanced level to listening, speaking, and cross-cultural awareness. More advanced primary materials are used as the basis for reading and writing. The student is introduced to word processing in Japanese. Prereq: Japanese 351 or the equivalent. Sp

Latin

101 Elementary Latin I (3) Fundamentals of the language will be taught through a multiple approach (comprehension, reading, and composition). The class will be conducted in English with emphasis placed on acquiring the ability to read and comprehend written Latin. No prereq. F

102 Elementary Latin II (3) Continuation of LATN 101. Continued development of Latin grammar, syntax, vocabulary and reading skills. Introduction to major Roman literary figures and themes of Roman culture. Prereq: LATN 101 or equivalent. Sp

203 Intermediate Latin I (3) A thorough review of Latin grammar, syntax, vocabulary, and reading skills. Readings in Latin prose and poetry will provide students with an understanding of Roman culture and literature. Prereq: LATN 102 or equivalent. F

204 Intermediate Latin II (3) Continuation of LATN 203. Review of grammar and syntax will include concepts not covered in Latin 203. An emphasis on reading Latin prose and poetry to develop students' interpretative skills. Prereq: LATN 203 or equivalent. Sp

Spanish

101 Elementary Spanish I (3) This course, together with Spanish 102, is designed as a complete introduction to the Spanish language. The oral skills, speaking and listening, are emphasized, while reading and writing assume increasing importance at later stages. No prereq. F

102 Elementary Spanish II (3) Review of Spanish grammar and syntax, idiomatic expressions, vocabulary building, reading, composition, conversation, and an introduction to Spanish-Latin American civilization. Prereq: Spanish 101 or equivalent. Sp

203 Spanish Review (3) A review of Spanish grammar and syntax, idiomatic expressions, vocabulary building, reading, composition, conversation, and an introduction to Spanish-Latin American civilization. Prereq: Spanish 102 or equivalent. F

204 Readings and Discussion of Contemporary Problems of the Spanish World (3) A preliminary study of ideas of contemporary Spanish-speaking writers through their most important works in the social sciences, especially those related to the underdeveloped countries. Prereq: Spanish 203, its equivalent, or consent of instructor. Sp

241 Spanish Developmental Readings (3) A review of themes, styles, and writing strategies exemplified in models from Spanish and Spanish American literatures. Composition assignments are preceded by oral communicative tasks aimed at internalizing the relevant vocabulary and grammar. Prereq: Spanish 203 or equivalent. Sp

301 Advanced Conversation (3) A study of Spanish vowel and consonant sounds in their various positions with intensive oral practice and special emphasis on accent and intonation patterns. Prereq: Spanish 203 or 204 or equivalent. F

302 Advanced Spanish Composition and Style (3) Intensive practice of original composition with a review of the difficult points of Spanish grammar directed to promote the ability of the student to write Spanish correctly and to develop a literary style. Prereq: Spanish 203 or 204 or equivalent. Sp

331 Spanish for Business (3) A study of the correspondence and documents related to business in Latin American countries. Prereq: Spanish 204 or equivalent.

390 Teaching of Modern Foreign Languages in Secondary Schools (2) Aims and methods of procedure in teaching modern foreign languages in secondary schools: materials and organization as preparation for student teaching. Prereq: consent of instructor.

391 Spanish in the Elementary Schools (1) Preparation and teaching of Spanish in the grade schools. Prereq: Spanish 204 and consent of instructor.

392 Spanish in the Elementary Schools (1) A continuation of 391. Preparation and teaching of Spanish in the grade schools. Prereq: Spanish 391 and consent of instructor.

404 Spanish Diction (3) Interpretive reading in prose and poetry, emphasis on articulation and intonation. Prereq: Spanish 204.

406 Spanish Culture (3) A study of the fundamentals of Spanish thought, philosophy, art and history. Prereq: Spanish 204 or consent of instructor. F

407 Spanish American Culture (3) A comprehensive study of the history, literature, art, religion, and customs of the Spanish American countries. Prereq: Spanish 302 or consent of instructor. F

408 Survey of Spanish Literature (3) A comprehensive study of the landmarks of Spanish literature with emphasis on the literary movements and representative works of famous authors. Prereq: Spanish 302 or consent of instructor. Sp

409 Survey of Spanish American Literature (3) A comprehensive study of Spanish-American literature emphasizing its literary movements, authors, and representative works. Prereq: Spanish 302 or consent of instructor. Sp

416 Spanish American Novel (3) From the romantic to the psychological novel. Prereq: Spanish 302 or consent of instructor.

418 Spanish American Poetry (3) The major poets of Spanish America. Students develop an understanding of traditional poetic forms as manifested in the literature of Spanish America. Prereq: Spanish 302 or consent of instructor. Sp

420 Spanish American Thought (3) Historical and literary analysis of ideas of the principal thinkers of Spanish American countries through their most important works and their influence on the development of the culture in the area. Prereq: Spanish 302 or consent of instructor.

424 Spanish-American Drama (3) Drama of the twentieth century emphasizing the contributions of Argentina, Mexico, and Chile. Prereq: Spanish 302 or consent of instructor.

454 Golden Age Drama (3) The verse dramas which illustrate the dramatic techniques and themes prevalent in Spain (1600-1700). Prereq: Spanish 302 or consent of instructor.

456 Cervantes: Don Quixote (3) The works of Cervantes, with special emphasis on Don Quixote. Prereq: Spanish 302 or consent of instructor. F

474 Spanish Drama of the Nineteenth Century (3) Drama of the nineteenth century with emphasis on the neoclassic works of Moratin and romantic dramas of Duque de Rivas, Hartzenbusch, Garcia Gutierrez, and Zorrilla. Prereq: Spanish 302 or consent of instructor.

476 Spanish Novel of the Nineteenth Century (3) The major prose works of the century, with emphasis on the realistic novels of Alarcon, Valera, Pardo Bazan, Perez Caldos, and Blasco Ibanez. Prereq: Spanish 302 or consent of instructor.

481 Spanish Literature of the Twentieth Century (3) The main currents and representative writers of prose, poetry, and drama. Prereq: Spanish 302 or consent of instructor.

490 Topics in Spanish (3) Specialized topics to study in the fields of language study, teacher preparation, culture, and literature will be offered from time to time. This course may be taken as often as topics vary. Prereq: consent of instructor.

498 Internship in Language and International Trade (3 - 6) Prereq: consent of advisor. F, Sp

GENDER STUDIES

Gender Studies seeks to advance understanding of the meaning and role of gender in social life. Doing so requires looking at gender against the backdrop of cultural, political, historical, and social institutions, and in relation to other influences such as class, race, sexuality, and nationality. As such, Gender Studies is inherently interdisciplinary, with courses offered in numerous departments and schools.

Minor

18 credit hours

Required Courses: GNDR 111-Introduction to Gender Studies, 3 hrs.; GNDR 333-Theory of Gender Studies, 3 hrs.

Elective Courses: 12 hours selected from the following courses: ECON 351-Labor Economics; ENG 288-Women in Literature through the 18th Century; ENG 387-Women’s Literature and Gender Issues; GNDR 449-Special Topics in Gender Studies; HIST 311-Women and Gender in America; HIST 398-Readings in History: Medieval Women; HIST 398-Readings in History: Women in Antiquity; LIBA 497-Women, Art, and Society; LIBA 497-Parents and Children; MNGT 444-Managing Diversity in Organizations; PHIL 361-Special Problems in Philosophy: Sexual Ethics; PSY 281-Psychology of Women; PSY 298-Human Sexuality; SOC 261-Marriage and Family; SOC 361-Gender and Society; SOCW 400-Special Topics: Women and Social Work; SPCH 402-Gender, Communication and Culture

111 Intro to Gender Studies (3) This course is designed as an introduction to the field of gender studies and with the many ways gender is understood and examined. Lectures, offered in a team-teaching format, will be drawn from the humanities and social sciences as well as other disciplines within and beyond Liberal Arts. F

333 Gender Studies Theory (3) A survey of various theoretical perspectives on the study of sex, gender, and gender relations. In this course, students will be introduced to various perspectives on the subject of human gender. Prereq: junior standing and GNDR 111 or consent of instructor.

449 Special Topics: Gender Studies (3) A means of the study of selected topics of current interest and importance in gender studies. These topics will vary in accordance with the interest of the students and the faculty. Students may repeat the course with change in topic. Prereq: junior standing and GNDR 111 or consent of instructor.
HISTORY
History offers original and indispensable ways of looking at human experience because it distinguishes and evaluates continuity amid the forces of change. By means of historical inquiry, the modern world is seen as shaped by the past. History enriches the mind by enabling it to compare present and past events, ideas, and movements. As a humanistic discipline, history considers beliefs and values, individual personalities, religions, philosophies, literature, and the fine arts. As a social science, history endeavors to discern patterns over time by examining the development of groups and institutions, politics and economics, wars and the balance of power. History offers a public reservoir from which students can draw knowledge, wisdom, and personal strength.

As a discipline, history educates all students for citizenship and for a variety of careers. History majors and minors are prepared to pursue graduate and professional programs in history and related fields. In addition to teaching, they find careers in diverse areas that include law, public administration, library science, museum and historic site management, business, medicine, and the ministry.

The History Department offers Bachelor of Arts and Bachelor of Science degrees in history and a history minor. It also offers the Bachelor of Science degree for social science teaching majors. The B.A. in history requires completion of 36 hours in history and 12 hours in a foreign language (or demonstration of competence at the intermediate level through an appropriate language examination). The B.A. degree is recommended for students preparing for graduate study in history or for professional school. A minor in one of the humanities or social sciences is strongly recommended. The B.S. in history requires completion of 36 hours in history. A minor in one of the humanities or social sciences is also strongly recommended. The B.S. in history is recommended mostly for those not planning graduate study in history or in a professional program. The B.S. in social science teaching is offered to students preparing for teacher certification in middle and secondary schools; see the section in this bulletin “Social Science Secondary Education Major” for the requirements in this major.

Major
36 credit hours
Required courses:
- Six hours selected from the 100-level classes: 101-The United States to 1865, 3 hrs.; 102-The United States since 1865, 3 hrs.; 130-Issues in American History, 3 hrs. (130 may be taken twice); 111-World Civilizations I, 3 hrs.; 112-World Civilizations II, 3 hrs.; 140-Issues in World History, 3 hrs. (140 may be taken twice)
- 298-Historical Methods, 3 hrs.
- 398-Readings in History, 3 hrs.
- 498-Senior Seminar in American History, 3 hrs. or 499-Senior Seminar in World History, 3 hrs.

Elective courses: History majors must select nine hours from one of the elective areas of history listed below and six hours from each of the other two areas. Elective Area I: United States History, Elective Area II: European History, Elective Area III: African, Asian, Latin American, Middle Eastern, and Russian/Soviet History. History 398, 498, and/or 499 will be counted in the appropriate Elective Area if taken twice.

Minor
24 credit hours
Required courses:
- Six hours selected from the 100-level classes: 101-The United States to 1865, 3 hrs.; 102-The United States since 1865, 3 hrs.; 130-Issues in American History, 3 hrs. (130 may be taken twice); 111-World Civilizations I, 3 hrs.; 112-World Civilizations II, 3 hrs.; 140-Issues in World History, 3 hrs. (140 may be taken twice)
- 298-Historical Methods, 3 hrs.
- one course selected from 398-Readings in History, 3 hrs., 498-Senior Seminar in American History, 3 hrs., or 499-Senior Seminar in World History, 3 hrs.

Elective courses: History minors must select a minimum of 12 hours from the elective areas of history listed below. Not more than six hours may be from any one area. Elective Area I: United States History, Elective Area II: European History, Elective Area III: African, Asian, Latin American, Middle Eastern, and Russian/Soviet History. History 398, 498, and/or 499 will be counted in the appropriate Elective Area if not also counted as a required course above.

SOCIAL SCIENCE
SECONDARY EDUCATION

Social Studies Teaching
Students seeking a bachelor’s degree in social science teaching and licensure as a senior high/junior high/middle school (grades 5 through 12) social studies teacher will be advised by members of the History Department. Under the current program, which meets the State of Indiana requirements for licensure, all students will complete fields in history (which includes both US and world history) and government; they will also select an
additional teaching field from the following: economics, psychology, and sociology. Thus, all program completers will qualify for licensure in at least three areas: history, government, and one of the following – economics, psychology and sociology. Three components comprise each program leading to Indiana certification as a secondary teacher. These components are:

1. University Core Curriculum (51 hours). Please review requirements for the University Core Curriculum printed elsewhere in this bulletin.

2. Professional Education (courses taught by the Bower-Suhreinrich College of Education and Human Services necessary to meet state licensing requirements). Review appropriate sections elsewhere in this bulletin under the Bower-Suhreinrich College of Education and Human Services.

3. Academic content areas in history, government, and one of the following: economics, psychology, and sociology (60 credit hours).

Program Admission Requirements
The social science secondary education major does not provide comprehensive certification to teach social studies in Indiana. Licensing is based on teaching areas instead. After successful completion of 55 hours of course work, candidates for certification must submit an application for admission to the teacher education program. Application materials are available in the College of Education and Human Services office. The applications process includes an interview with faculty in teaching areas. Admission requirements also include 1) passing scores on Praxis I, a basic skills test of reading, writing and math, and 2) a cumulative GPA of 2.75 as well as a GPA of 2.75 in each teaching field. NOTE: These minimum GPA requirements apply to admission to student teaching and program completion. Please review the College of Liberal Arts Teacher Certification Policy at the beginning of the Liberal Arts section of this bulletin for further information.

Teaching Major
(60 credit hours)
Requirements for the Major: Hours

A. 21 credit hours
• HIST 101 or 102 3
• HIST 111 or 112 3
• HIST 298, 398, 498, or 499 3

B. 9 credit hours
• HIST 439 or POLS 305 or POLS 427 3
• HIST/POLS 433 OR 434 or POLS 271, 471, 473, HIST 307, 308 3
• HIST 271, 332, 349, 351, or POLS 281, 383, 384 3

Provisos: students must take one course from each of the three categories listed above; no more than three of these nine hours may be at the 200 level; no more than six of these nine hours may be in one discipline (History or Political Science).

C. 6 credit hours
POLS 309 3
POLS 314 or 407 3

• 36 credit hours in history and political science

D. 12 credit hours in economics, psychology, or sociology (Courses in this section may not count toward an additional teaching area).

E. 12 additional credit hours
Two of the following: 1) ECON 208 or 209; 2) PSY 201; or 3) SOC 121 6
GEOG 112 3
ANTH 251 or 255 3

F. Requirements for additional teaching area in economics, psychology, or sociology

• Economics: 1) ECON 208; 2) ECON 209; 3) ECON 308 or 309; 4) directed elective
• Psychology: 1) PSY 201; 2) PSY 322 or 273; 3) PSY 312, 357, or 385; 4) directed elective, such that at least two courses are at the 300-400 level. The following courses are excluded from the list of electives: 261, 362, 498, and 499.
• Sociology: 1) SOC 121; 2) SOC 235, 251, or 261; 3) SOC 361, 421, or 463; 4) Directed elective, 300-400 level preferred. The following courses are excluded from the list of electives: 200, 225, 391, 392, 489, and 499.
• 60 credit hours in the major
Core Curriculum

Required core courses for Social Science

Secondary Education Major:         Hours

A1. Composition and Speech – ENG 101 and 201; SPCH 101  9
A2. Mathematics 111  4
B1. Ethics  3
B2. The Arts  3
B3. Health and Fitness  2
C1. History – HIST 101 or 102 or HIST 111 or 112  3
C2. Individual Development and Social Behavior – PSY or SOC courses  6
C3. Science – GEOG 112 and two other courses, one of which must be a laboratory course  8-9
C4. Western Culture  6
C5. Global Communities – ANTH 251, or 255  3
D. Synthesis – EDUC 448  3

• 51 credit hours, University Core Curriculum
  (18 of which are included in the 60 semester hours major)
• 35 credit hours, Education component
• 128 total credit hours

Course Descriptions

Following certain course descriptions are the designations: F, Sp, Su, A. These indicate the semesters fall, spring, summer, alternating, in which the course is normally offered and are intended as an aid to students planning their programs of study.

101 The United States to 1865 (3) A survey of United States history from colonial times through the Civil War. Majors in elementary education must take History 101 or 102. No prereq. Sp, Su, F

102 The United States since 1865 (3) A survey of United States history from the end of the Civil War to the present. Majors in elementary education must take History 101 or 102. No prereq. Sp, Su, F

111 World Civilizations I, Beginnings to 1500 (3) The development of the major civilizations, Western and Non-Western, from their beginnings to 1500. The cultural achievements of these civilizations are studied in their historical contexts. Majors in elementary education must take History 111 or 112. No prereq. Sp, Su, F

112 World Civilizations II, 1500-Present (3) The development of the major civilizations, Western and Non-Western, from 1500 to the present. The cultural achievements of these civilizations are studied in their historical contexts. Majors in elementary education must take History 111 or 112. No prereq. Sp, Su, F

130 Issues in American History (3) A selection of issues which focus on understanding aspects of American history within a national and global framework. This course offers first and second-year students an alternative to History 101 and/or 102. May be taken twice for credit toward history major or minor. No prereq.

140 Issues in World History (3) A selection of issues which focus on understanding particular aspects of world history within a global framework. This course offers first and second-year students an alternative to History 111 or 112. May be taken twice for credit toward history major or minor. No prereq.

298 Historical Methods (3) An introduction to the fundamentals of historical research and writing. The course includes substantial analysis of the work of major historians and utilizes basic computerized tools for historical methodology. Required for history major and minor. Prereq: History 101 or 102, 111 or 112 or consent of instructor. Sp

398 Readings in History (3) Readings, discussions, and written assignments designed to acquaint the student with the major historical writings in selected topical and chronological sub-fields of history. The course assists students to broaden their historical knowledge while sharpening their analytical, critical, and writing abilities. Topics in American and World history are chosen by the instructor and the department. Required for history major and a choice among History 398, 498 and 499 for history minor. May be taken twice for credit toward history major or minor. If taken twice for major, it will count in the Elective Area appropriate to its topic. If taken twice for minor, or taken in addition to 498 and/or 499, it counts in the appropriate Elective Area. Prereq: History 101 or 102, 111 or 112, or consent of instructor. Sp, F

498 Senior Seminar in American History (3) A research course in selected fields of American history at the senior level. Students conduct historical research with close guidance from the instructor and write extensive, well-documented papers. History 498 or 499 is required for history major and History 398, 498 or 499 for history minor. May be taken twice for credit toward history major or minor. If taken twice for major, or in addition to History 499, it will count in Elective Area I. If taken twice for minor, or in addition to History 498, it will count in Elective Area I. Prereq: History 101 or 102, 298, or consent of instructor. Sp, F

499 Senior Seminar in World History (3) A research course in selected fields of World History at the senior level. Students conduct historical research with close guidance from the instructor and write extensive, well-documented papers. History 498 or 499 is required for history major and History 398, 498 or 499 for history minor. May be taken twice for credit toward history major or minor. If taken twice for major, or in addition to History 498, it will count in Elective Area I. If taken twice for minor, or in addition to 398 or 499, it will count in Elective Area I. Prereq: History 101 or 102, 298, or consent of instructor. Sp, F

Elective Area I: United States History

286 African-American History (3) An overview of African-European encounters beginning in the 1400s, the development of slavery in British America, the formation of ante- and post-bellum black communities, the strategies created to counter Jim Crow and more recent forms of white racism, the legacies of the African heritage and their modification by the American setting, the background and achievements of the civil rights movement, and the contributions of African Americans to the course of American history. No prereq.

301 Native American Civilizations (3) Historical survey of early American civilizations. Emphasis is on cultural, religious, social, governmental, and economic developments. Attention is given to the historical significance of the European intrusion and the interchange of American, European, and African ideas, resources, products, and peoples. Prereq: sophomore standing.
302 Colonial America to 1740 (3) Analysis of European discovery and colonization of the Americas, particularly North America. Attention is given to European exploration, interaction with Native American cultures, and the beginnings of colonial development. Prereq: sophomore standing.

303 The American Revolution, 1740-1787 (3) A detailed history of the last decades of the English colonies in America, the forces leading to the American Revolution, and the creation of the United States up to the writing of the Constitution. Prereq: sophomore standing.

304 The Early American Republic, 1787-1848 (3) History of the United States from the creation of the Constitution to the end of the war with Mexico, emphasizing economic growth, territorial expansion, and social change. Substantial attention is given to slavery and antebellum reform. Prereq: sophomore standing.

305 Civil War America, 1848-1877 (3) A study of the United States from the end of the war with Mexico to the end of Reconstruction with emphasis on the coming and course of the Civil War and the reunion of the nation at the war's end. Prereq: sophomore standing.

306 The Emergence of Modern America, 1877-1914 (3) An examination of the social, economic, political, religious, and intellectual developments and controversies that helped shape modern America. Special attention is given to issues raised by industrialization, urbanization, immigration, science, and technology. The Labor, Populist, and Progressive movements are studied closely. Prereq: sophomore standing.

307 The United States and World War, 1914-1945 (3) American history from involvement in World War I to the end of World War II. In addition to exploring America's impact on both world wars and their consequences for United States history, the course analyzes the social, economic, cultural, intellectual, political, and diplomatic history of the interwar period, 1919-1941. Prereq: sophomore standing.

308 United States since 1945 (3) An introduction to American history in the years of the beginning and collapse of the Cold War. The course examines the rise and weakening of the postwar economic and social order, especially during and after the Vietnam War, Watergate, and the Middle East crises of the 1970s. Prereq: sophomore standing.

309 Contemporary America (3) A review of the major events and themes of the late 20th century and of the growth, development, and transformation of the nation after 1975. Prereq: sophomore standing.

311 Women and Gender in America (3) Places the experiences of American women in an international context and considers the contribution of women to American history. Particular attention is given to gender relations, the importance of race and class, and the diverse nature of women's experiences from the colonial period to the present. Prereq: sophomore standing.

313 Immigration and Nationality in America (3) An exploration of the sources and patterns of immigration in American history from the early 1600s to the present. The course also treats the acculturation and assimilation of immigrants and the contributions of ethnic and racial groups to the course of American history. Prereq: sophomore standing.

315 American Environmental History (3) An examination of the interactions of humans and nature in North America from the sixteenth century to the present. Prereq: sophomore standing.

321 Introduction to Historic Preservation (3) A survey of built environment history and the historic preservation movement. Structures, sites, and collections are studied in the context of fund and museum
development and management. The relationship of historic sites to local, state, and national organizations and agencies is examined. Student projects include on-site experience. Prereq: History 101 or 102, or consent of instructor.

322 Introduction to Historical Administration (3) An introduction to the field of Historical Administration presenting both management and historic material. The course provides an overview of the not-for-profit manager and the basic functions of the historian in public service. Includes on-site visitation and emphasis upon work areas with a historical focus. Prereq: sophomore standing.

400 Topics in American History (3) An intensive examination of a theme or an era in American history. Substantial reading, class discussion, and a major writing assignment are required. The focus of each course offering is determined by the instructor and the history department. May be taken twice for credit toward history major and minor. Prereq: History 101 or 102, or consent of instructor.

411 Religion in America (3) An examination of the impact of religious values and institutions on American history. Special attention is given to the rise, decline, and legacy of mainstream Protestant culture, religious pluralism in the 20th century, the religious origins of social and cultural change, the continuing importance of civil religion, and the implications of the First Amendment for religious expression in America. Prereq: History 101 or 102, or consent of instructor.

419 Communal Utopias in America (3) A study of the utopian thought and historical development of religious and social movements that have employed communal methods of organization from colonial times to the present. Shakers, Harmonists, Owenites, Fourierists, Mormons, Oneidans, Hutterites and communal groups since the youth movement of the 1960s are emphasized. No prereq.

431 The American South (3) A study of the American South from its colonial beginnings to the present. Southern society, economy, culture, and politics are examined to assess their influence upon the growth of the nation from the time of slavery to the era of civil rights. Prereq: History 101 or 102, or consent of instructor.

432 The American West (3) The American experience as seen through the movement of people westward with major attention given to the trans-Mississippi west. Prereq: History 101 or 102, or consent of instructor.

433 American Foreign Relations to 1900 (3) The history of United States relations with foreign nations from the War of Independence to 1900. Emphasis is upon the diplomacy of the American Revolution, neutral rights, Monroe Doctrine, Manifest Destiny, territorial expansion, relations with native American tribes, Civil War, and Imperialism. Cross-listed as Political Science 433. Prereq: History 101 or 102, or consent of instructor.

434 American Foreign Relations Since 1900 (3) United States relations with other nations from 1900 to the present. Emphasis is upon the diplomacy of World Wars I and II, intergovernmental organizations, Latin America, the Cold War, Vietnam, China, collapse of the Soviet Union, and the Middle East. Cross-listed as Political Science 434. Prereq: History 102, or consent of instructor.

435 American Thought and Culture to 1865 (3) The impact of European and Native American ideas upon each other and upon the origins and development of the United States from colonial times to the Civil War. Emphasis is upon Puritanism, evangelicalism, the Enlightenment, republicanism, democracy, romanticism, and reform. Prereq: History 101, or consent of instructor.
436 American Thought and Culture Since 1865 (3) The influence of ideas upon United States history, culture, and institutions from the late 19th century to the present. Emphasis is on the interaction of American society with the unprecedented scientific, technological, religious, political and economic concepts and developments since the Civil War. Prereq: History 102, or consent of instructor.

437 Cities and Suburbs in America (3) An overview of the formation and development of communities in American history, with special emphasis on the urbanization process and the impact of cities. The course also examines the proliferation, character, and consequences of suburbs since the 1920s. Prereq: History 101 or 102, or consent of instructor.

439 History of Indiana (3) A survey of the history of Indiana from early to modern times. No prereq.

490 Internship/Special Studies in History (1-3) This course offers an internship in public and applied history through an assigned project at a historic site, museum, library, archive, or other approved institution. The course also may be used to gain credit for special studies in history associated with attending and/or participating in events such as seminars, conferences, and field work or doing honors research. Credit hours available for each offering is determined by the instructor and history department. Course may be repeated for up to 6 hours credit toward history major or minor. Prereq: History 101 or 102, and 298, or consent of instructor.

Elective Area II: European History

341 Ancient Greece to Alexander (3) A detailed survey of the origins and flowering of Greek culture against the backdrop of its archaeology and history, 2000-338 B.C. Prereq: sophomore standing. F, A

342 The Hellenistic Age, Alexander to the Roman Conquest, 338-31 B.C. (3) A political, economic, religious, social, and intellectual history of the Hellenistic world from 338 to 31 B.C. The course explores the massive change brought about by Alexander the Great's unification of the Near East and Greece. Prereq: sophomore standing. Sp, A

343 The Roman Republic (3) An intensive study of the Roman Republican experiment in orderly representative government by law until the revolution that brought on the Roman Empire in 31 B.C. Prereq: sophomore standing. F, A

344 The Roman Empire (3) This course studies the Roman Revolution under Augustus which transformed the Republic into the Empire, Rome's assimilation of the heterogeneous peoples of Europe and the Near East, the cultural and religious dimensions of Rome's Silver Age, and the fall of the Empire in 476 A.D. Prereq: sophomore standing. Sp, A

345 Medieval Europe, 500-1300 (3) The reconstruction of a new European civilization upon the ruins of the old Roman Empire through the alliance of the Greco-Roman cultural traditions, Christianity, and the vitality of the new Germanic peoples. Prereq: sophomore standing.

347 The Reformation, Wyclif to 1648 (3) The Protestant Reformation and the Catholic response as seen in the context of the political, social, and intellectual history of Europe. Prereq: sophomore standing.

348 Europe, 1648 through Napoleon (3) A study of Absolutism, Enlightenment, and Revolution in their political, economic, religious, social and artistic aspects, from Descartes and Newton through the French Revolution and Napoleon. Prereq: sophomore standing.

349 Europe, Napoleon to World War I (3) An analysis of the impact upon Europe of Conservatism, Liberalism, and Socialism under the impetus of the Industrial Revolution. Emphasis also is upon the relationship of Social Darwinism, Imperialism, and Nationalism to the beginning of the First World War. Prereq: sophomore standing.

351 Europe, World War I to the Present (3) A survey of European society, economy, and politics since 1914. Topics include World War I, Russian Revolution, rise of Fascism, World War II, Cold War, and end of the Soviet Union. Prereq: sophomore standing.

353 England to 1600 (3) English history from the Celtic period to 1600, with accent upon the political and cultural growth of the English nation. Prereq: sophomore standing.

354 England, 1600 to 1815 (3) English history from the beginning of the Stuart Age to the Battle of Waterloo, with particular emphasis on political and cultural change and the early growth of the British Empire. Prereq: sophomore standing.

355 England Since 1815 (3) Modern England and British imperial history, emphasizing the reforms of the 19th century, the Industrial Revolution, imperial relations, and Britain's role in the world wars of the 20th century. Prereq: sophomore standing.

362 Modern France, Napoleon to the Present (3) An examination of the legacies of the French Revolution in the nineteenth and twentieth centuries; developments in industry, art and foreign policy; and the several French political regimes since Napoleon. Prereq: sophomore standing.

364 Modern Germany Since 1815 (3) The rise and development of Germany from the end of the Napoleonic Wars to the present. Topics include Austrian Hapsburg and Prussian Hohenzollern influence, German unification under Bismarck and Kaiser Wilhelm, World War I, the Weimar Republic, Nazi Germany, World War II, the Holocaust and Germany during and since the Cold War. Prereq: sophomore standing.

365 Crusades (3) An intensive study of the holy wars between Western Europe and Islam that took place in the Holy Land and Europe from the late eleventh century to the late fifteenth century. Special emphasis is placed on an analysis of the crusading ideal, the motivations of the crusaders, the changes in crusade ideology as well as Muslim response to Christian military attacks. Cross-cultural exchanges between Christians, Muslims, and Jews in the territories affected by the crusades are also examined. Prereq: sophomore standing.

373 History of Eastern Europe (3) A survey of Slavic and other cultures in Eastern Europe from earliest times to the present. Topics include the influence of religion, the varieties of social and political systems in Eastern Europe, and relationships with nearby states. Prereq: sophomore standing.

381 Western Science and Medicine to 1800 (3) The origin and development of science and medicine in Mesopotamian, Egyptian, Greek, Roman, Islamic, and Western European civilizations through the Scientific Revolution of the 17th and 18th centuries. Prereq: sophomore standing.
382 Western Science and Medicine since 1800 (3) The phenomenal advances in and applications of science and medicine in Europe and the United States from the early 19th century. Prereq: History 111 or 112, or consent of instructor.

420 Topics in European History (3) An intensive examination of a theme or an era in World history. Substantial reading, class discussion, and a major writing assignment are required. The focus of each course offering is determined by the instructor and the history department. May be taken twice for credit toward history major or minor. Prereq: History 111 or 112, or consent of instructor.

441 Ideas in Europe, Descartes to Rousseau (3) An intensive investigation of the individuals whose ideas shaped the Scientific Revolution, Neoclassicism, the Age of Absolutism, the Enlightenment, and the French Revolution. Prereq: History 112, or consent of instructor.

442 Ideas in Europe, Mill to the Present (3) An intensive investigation of the individuals whose ideas contributed to Romanticism and Nationalism, Liberalism and Socialism, and other movements important for understanding the contemporary world. Attention is devoted to developments in the social sciences, humanities, and physical sciences and to the growth of mass culture. No prereq.

451 French Revolution and Napoleon (3) Seeks to understand how the French Revolution and Napoleon Bonaparte helped to usher in the modern world. Stresses the impact of the Enlightenment, development of political systems, and the military and diplomatic repercussions of the French Revolution and Napoleonic Empire. Prereq: History 112, or consent of instructor.

452 European Revolutions (3) A study of Europe’s extraordinary revolutionary history, emphasizing the French and Russian Revolutions and the Revolutions of 1848. Focuses on a comparison of patterns, along with gaining an understanding of the impact of industrialization and the role of ideas. Prereq: History 112, or consent of instructor.

453 Labor in Europe and America (3) A comparative survey of trends in the modern labor movement. Considers the growth of trade unions, political parties, and working-class culture in France, Russia, and the United States. Prereq: History 112, or consent of instructor.

490 Internship/Special Studies in History (1-3) This course offers an internship in public and applied history through an assigned project at a historic site, museum, library, archive, or other approved institution. The course also may be used to gain credit for special studies in history associated with attending and/or participating in events such as seminars, conferences, and field work or doing honors research. Credit hours available for each offering is determined by the instructor and history department. Course may be repeated for up to six hours credit toward history major or minor. Prereq: History 111 or 112, and 298, or consent of instructor. F, Sp

Elective Area III: African, Asian, Latin American, Middle Eastern, and Russian/Soviet History

271 History of the Middle East (3) A political and cultural survey of the history of the Islamic peoples, with emphasis on the Arab and Ottoman Empires, the emergence of independent modern states including Israel, and the new Arab nationalism. No prereq.

331 Colonial Latin American History (3) Assesses the Spanish and Portuguese conquest and rule of the Americas; focuses on interactions between Europeans, natives, and Africans in creating colonial societies. Prereq: sophomore standing.

332 Modern Latin American History (3) The main events in the history of Latin America from independence to the present, including issues of class, race, and gender. Prereq: sophomore standing.

333 Gender in Latin American History (3) Examines the construction of gender identities over the past 500 years in Latin America. Prereq: sophomore standing.

334 US-Latin American Relations (3) Examines the relations between the United States and its neighbors to the south from 1820 to the present, focusing on Latin American reactions to US policy and presence. Prereq: sophomore standing.

371 Tsarist Russia (3) The main currents of Russia’s history from earliest times to the Revolution of 1917, including the rise of autocracy and serfdom, foreign policy concerns, and the factors leading to the Revolution. Prereq: sophomore standing.

372 The Soviet Union (3) A study of the Russian Revolution, Marxism-Leninism, the creation of the Stalinist system, the Cold War, and the demise of the Soviet Union. Prereq: sophomore standing.

391 History of China (3) Chinese civilization from its beginnings to modern times. Emphasis is on the traditional Chinese value system, its permeation of society, and its modification under Communism and beyond. Prereq: sophomore standing.

392 History of Japan (3) A historical survey of Japan from the origins of the Japanese people through the post-World War II period. Prereq: sophomore standing.

420 Topics in World History (3) An intensive examination of a theme or topic in World History. Substantial reading, class discussion and a major writing assignment are required. The focus of each course offering is determined by the instructor and the History department. May be taken twice for credit toward history major or minor. Prereq: History 111 or 112 or consent of instructor.

490 Internship/Special Studies in History (1-3) This course offers an internship in public and applied history through an assigned project at a historic site, museum, library, archive, or other approved institution. The course also may be used to gain credit for special studies in history associated with attending and/or participating in events such as seminars, conferences, and field work or doing honors research. Credit hours available for each offering is determined by the instructor and history department. Course may be repeated for up to six hours credit toward history major or minor. Prereq: History 111 or 112, and 298, or consent of instructor. F, Sp

HUMANITIES

These courses, which all include interdisciplinary elements, may be used to satisfy the Western Culture component of the University Core Curriculum.

Course Descriptions

Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.
211 The Western Tradition in the Humanities I (3) A survey of the major thought and art of the Ancient and Medieval worlds as reflected in their literature, fine arts, and philosophy. Fulfills the first half of the Western Culture component of the University Core Curriculum. Prereq: ENG 101 and CMST 101 or 107. F, Sp

212 The Western Tradition in the Humanities II (3) A survey of the major thought and art of the Renaissance, Enlightenment, and Modern worlds as reflected in their literature, fine arts, and philosophy. Fulfills the second half of the Western Culture component of the University Core Curriculum. Prereq: ENG 101 and CMST 101 or 107. F, Sp

221 The Western Tradition in Art History I (3) An introduction to the major thought and art of Western culture through a study of its art and architecture. This course will focus on the Ancient and Medieval worlds. Fulfills the first half of the Western Culture component of the University Core Curriculum. Prereq: ENG 101 and CMST 101 or 107. F, Sp

222 The Western Tradition in Art History II (3) An introduction to the major thought and art of Western culture through a study of its art and architecture. This course will focus on the Renaissance, Enlightenment, and Modern worlds. Fulfills the second half of the Western Culture component of the University Core Curriculum. Prereq: ENG 101, CMST 101 or 107. F, Sp

231 The Western Tradition in Philosophy I (3) An introduction to the major thought and art of Western culture through a study of the great philosophers. This course will focus on the Ancient and Medieval worlds. Fulfills the first half of the Western Culture component of the University Core Curriculum. Prereq: ENG 101 and SPCH 101 or 107. Alternate years.

232 The Western Tradition in Philosophy II (3) An introduction to the major thought and art of Western culture through a study of the great philosophers. This course will focus on the Renaissance, Enlightenment, and Modern worlds. Fulfills the second half of the Western Culture component of the University Core Curriculum. Prereq: ENG 101 and CMST 101 or 107. Alternate years.

241 The Western Tradition in Literature I (3) An introduction to the major thought and art of Western culture through a study of its literature. This course will focus on the Ancient and Medieval worlds. Fulfills the first half of the Western Culture component of the University Core Curriculum. Prereq: ENG 101 and CMST 101 or 107. F, Sp

242 The Western Tradition in Literature II (3) An introduction to the major thought and art of Western culture through a study of its literature. This course will focus on the Renaissance, Enlightenment, and Modern worlds. Fulfills the second half of the Western Culture component of the University Core Curriculum. Prereq: ENG 101 and CMST 101 or 107. F, Sp

INTERNATIONAL STUDIES

MAJOR AND MINOR

The International Studies major is an interdisciplinary 124-hour course of study designed to prepare students to function in the multifaceted world in which we live. This includes a 39-hour major, a 50-hour University Core Curriculum requirement, and 35 or more hours of open electives. Students will also complete a minimum of two years (four semesters) or equivalent study in one foreign language. International study or work is strongly recommended.

The International Studies Bachelor of Arts degree consists of existing courses offered in the School of Liberal Arts, the School of Business and the Pott School of Science and Engineering. All students will complete a common core of six courses from five different disciplines. These courses are: Cultural Anthropology (ANTH 333); Global Economic Issues (ECON 241); International Politics (POLS 271); World Geography (GEOG 330), and World Civilizations (HIST 111 and 112). These are followed by seven courses in a choice of one of three tracks: a) Latin American Studies track; b) European Studies track; and c) International Relations track. The 21 hours of coursework required in each track include no more than two courses from any one discipline, ensuring that students are exposed to a minimum of four disciplines, making this a truly interdisciplinary major. Additional special topics courses may be approved for elective credit. Consult the International Studies advisor for approval. Course descriptions for the core courses and electives may be found under their specific disciplines.

International Studies Major Core Courses: 18 hours

ANTH 333 Cultural Anthropology (pre ANTH 101 or SOC 121)
ECON 241 Global Economic Issues (pre ECON 175, 208 or 209)
HIST 111 World Civilizations I, Beginnings to 1500
HIST 112 World Civilizations II, 1500 to Present
POLS 271 International Politics
GEOG 330 World Geography

European Track Electives (21 hours)

INST 499 International Field Experience

Foreign Language: (12 hours or equivalent required for bachelor of arts degree)

International Studies Minor Curriculum Summary
Required Courses (9 hours)
ECON 241 Global Economic Issues (pre. ECON 175, 208 or 209)
HIST 112 World Civilizations I, 1500 to present
POLS 271 International Politics

Area of Emphasis (9 hours)
Advisor approved 300-400 level electives including no more than one course any of the three International Studies tracks. (See above approved courses.)

Foreign Language: (12 hours or equivalent required for Bachelor of Arts degree)

Course Description
International Studies (INST prefix)
Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

213 Magic in Arts/Humanities (3) A survey of world magic, its origins and influence on literature, architecture, art, music, theatre, film, religion, and medicine from antiquity to present. No prereq.

302 International Travel (3) An in-depth study of travel writing, culture, and politics of Field Study, with original travel writing. Students will read essays written by travelers as well as postcolonial theory of travel writing, do directed research in the culture of choice and travel, and write, revise, and complete four essays associated with travel and study abroad. May be taken online during the semester of study abroad. Students taking the course studying abroad will use blackboard for peer review, editing, and exchange of research and original materials. Prereq: consent of instructor.

499 International Field Experience (3) Intensive field experience in a contractual activities involving research, education, or applied study focus. Prereq: consent of instructor.

LIBERAL ARTS
The following numbered courses in the liberal arts do not have departmental affiliation. LIBA 290 and 490 are for the use of students transferring credit from courses taken at Harlaxton College while studying in England. LIBA 497 is used by seniors majoring in Liberal Arts disciplines (except those whose majors involve secondary education) to fulfill the Synthesis category of the University Core Curriculum. Several sections, with differing topics taught by instructors selected from throughout the school, will be offered each semester.

Course Description
Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

LIBA 290: Special Topics in Liberal Arts (3-6) A course designed for introductory-level interdisciplinary special topics in the liberal arts. May be repeated for different topics. No prereq. F, Sp, Su

LIBA 490: Advanced Special Topics in Liberal Arts (3-6) A course designed for advanced-level interdisciplinary special topics in the liberal arts. May be repeated for different topics. Prereq: junior standing or consent of instructor. F, Sp, Su

LIBA 497: Capstone Studies (3) A senior-level seminar designed for the Synthesis category of the University Core Curriculum. Topics will change from semester to semester, but each offering will encourage students to draw on their educational experiences to develop interdisciplinary responses to a problem or issue in contemporary life. Open to students of any major or school. Prereq: senior standing or consent of instructor. F, Sp, Su
PHILOSOPHY
Philosophy provides an excellent field of study for students planning to seek advanced degrees in philosophy, law, and theology. The critical thinking and communications skills stressed in philosophy are a valuable complement to most any career or field of study. Students pursue a Bachelor of Science or Bachelor of Arts degree. The latter, requiring 12 hours of a foreign language, is preferable for those interested in more advanced degrees. Minors and a second major in philosophy also are offered.

Major
30 credit hours
Required courses: 15 hours
205-Intro. to Logic, 3 hrs. or 305-Intro to Symbolic Logic, 3 hrs.; 344-Contemporary Philosophy, 3 hrs. or 418-Metaphysics, 3hrs. or 420-Epistemology, 3 hrs. or 435-Philosophy of Science, 3 hrs.; 301-Theoretical Ethics, 3hrs. or 363-Bioethics, 3 hrs. or 441-Political and Legal Philosophy, 3 hrs.; 350-History of Philosophy I, 3 hrs.; 351-History of Philosophy II, 3 hrs.
Elective courses: 15 hours selected from philosophy course offerings as directed by advisor. (No more than six hours of 200-level courses may be counted.)

Minor
18 credit hours
Required courses: 9 hours
Required courses: 205-Intro. to Logic, 3 hrs. or 305-Intro to Symbolic Logic, 3 hrs.; 350-History of Philosophy I, 3 hrs.; 351-History of Philosophy II, 3 hrs.
Elective courses: Nine hours selected from philosophy course offerings as directed by advisor. (No more than six hours of 200-level courses may be counted.)

Course Descriptions
Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

(PHIL prefix)

200 Introduction to Philosophy (3) The nature of philosophy and its problems. No prereq. F, Sp, Su

201 Introduction to Ethics (3) An in-depth study of issues in practical or applied ethics. No prereq. F, Sp, Su

205 Introduction to Logic (3) Forms of inference in terms of the traditional logic. No prereq.

301 Theoretical Ethics (3) An in-depth study of traditional and contemporary meta-ethical and normative theories. Prereq: one philosophy course or consent of instructor.

304 Philosophy of Art (3) Representative theories of the nature and evaluation of art. Prereq: one philosophy course or consent of instructor.

305 Introduction to Symbolic Logic (3) An examination of the principles and methods of the several branches of symbolic logic. No prereq.

344 Contemporary Philosophy (3) A study of the philosophical thought of important 20th century figures, such as Russell, Wittgenstein, Quine, and Heidegger. Prereq: one philosophy course or consent of instructor.

350 History of Philosophy I (3) A study of the history and development of philosophical ideas from ancient Greece to the close of the Middle Ages. Prereq: one philosophy course or consent of instructor.

351 History of Philosophy II (3) A study of the history and development of philosophical ideas from the Renaissance to the end of the nineteenth century. Prereq: PHIL 350 or consent of instructor.

361 Special Problems in Philosophy (3) (Repeatable with a change in course content.) A study of some selected problem, movement, or philosopher in the field of philosophy. Prereq: one philosophy course or consent of instructor.

362 Interdisciplinary Problems (3) (Repeatable with a change in course content.) An interdisciplinary study of some problem or concept in which the perspective of philosophy is involved. No prereq.

363 Bioethics (3) A critical survey of the ethical issues generated by research and practice in the fields of biology and medicine. Prereq: one philosophy course or consent of instructor. F, Sp

364 Gender and Philosophy (3) A survey of concepts essential to feminist social and political philosophy, including sexism, oppression, discrimination, patriarchy, and equality, with critical application of these concepts to current gender-related issues and to students’ own experiences as men and as women. Prereq: one philosophy course or consent of instructor.

365 Sexual Ethics (3) An examination of various philosophical issues in sexual ethics, including the role of sexuality in human life, its relation to love and to marriage, the meaning and value of sexual freedom, the moral status of homosexuality, the meaning of sexual consent, and sexual objectification and co modification. Prereq: one philosophy course or consent of instructor.

413 Philosophy of Religion (3) Basic problems and philosophically significant theories of religion, including such problems as the relation of faith and reason, and the existence of God. Prereq: one philosophy course or consent of instructor.

415 History of Rhetoric (3) An understanding and comparison of various movements in the history of rhetoric, with particular emphasis on the relationship between rhetorical strategy and one’s image of men and on historical events which have influenced rhetoric. The course aims to increase the scope of students’ understanding of rhetoric and help them apply this knowledge to their own writing and their evaluation of the writing of others. Cross-listed with English. Prereq: ENG 201 and junior status.

418 Metaphysics (3) Alternative theories of the nature of ultimate reality and related questions about the nature, function, and possibility of such theories. Prereq: one philosophy course or consent of instructor.

420 Epistemology (3) Alternative theories of the origin, nature, and possibility of knowledge. Prereq: one philosophy course or consent of instructor.
425 Philosophy of Mind (3) Covers topics in the traditional philosophy of mind, e.g., the mind/body problem and more contemporary issues such as intentionality, mental representation, and folk psychology. Prereq: one course in philosophy or consent of instructor.

435 Philosophy of Science (3) An examination of the nature of scientific knowledge and the relation of science to culture. Prereq: one philosophy course or consent of instructor.

441 Political and Legal Philosophy (3) An examination of some central issues in political and legal philosophy, e.g., free speech, racial and sexual equality, constitutional interpretation and the relationship between law and morality. Prereq: one philosophy course or consent of instructor.

445 Philosophy of History (3) An examination of selected theories concerning the nature of the historical process and the nature of historical knowledge. Prereq: one philosophy course or consent of instructor.

Political Science courses that may be counted as philosophy electives.

POLS 445 Political Theory I (3) Political thinkers and their ideas from Plato and Aristotle to the sixteenth century. Prereq: one political science course or consent of instructor.

POLS 446 Political Theory II (3) Political thinkers and ideas from the seventeenth century to the present. Prereq: one political science course or consent of instructor.

POLITICAL SCIENCE

Political science is the study of government and politics or of public issues and the institutions and processes through which conflict over such issues is resolved. Study in political science offers a solid foundation for a liberal arts education regardless of career objectives. Majors have opportunities for practical experience working in political campaigns and serving as interns for local governments or the state legislature. Those interested in careers in teaching, government, business, journalism, and law will find political science an excellent preparation for such vocations. Students with majors in political science may earn a Bachelor of Arts degree, which has a two-year foreign language requirement, or a Bachelor of Science degree.

Major – Political Science

39 credit hours

Required courses: 24 hours

Required courses: 101-Introduction to Political Science, 3 hrs.; 102-Introduction to American Politics, 3 hrs.; 202-Introduction to Public Administration, 3 hrs.; or 203-Introduction to the Policy Process in the United States, 3 hrs.; 271-International Politics, 3 hrs.; 281-Comparative Politics, 3 hrs.; 331 Political Inquiry I, 3 hrs.; 332 Political Inquiry II, 3 hrs.; and one course selected from 309-American Political Theory, 3 hrs.; 345-Man vs. the State: Democracy, Fascism, and Communism, 3 hrs.; 445-Political Theory I, 3 hrs.; 446-Political Theory II, 3 hrs.

Electives: 15 hours selected from political science courses as directed by advisor.

Majors must also complete one course in one of these disciplines: economics, psychology, and sociology (a total of three credit hours).

Minor – Political Science

24 credit hours

Required courses: 18 hours

Required courses: 101-Introduction to Political Science, 3 hrs.; or 102-Introduction to American Politics, 3 hrs.; or 202-Introduction to Public Administration, 3 hrs.; or 203-Introduction to the Policy Process in the United States, 3 hrs.; or 271-International Politics, 3 hrs.; or 281-Comparative Politics, 3 hrs.; 331 Political Inquiry I, 3 hrs.; 332 Political Inquiry II, 3 hrs.; and one course selected from 309-American Political Theory, 3 hrs.; 345-Man vs. the State: Democracy, Fascism, and Communism, 3 hrs.; 445-Political Theory I, 3 hrs.; 446-Political Theory II, 3 hrs.

Electives: Six hours selected from political science courses as directed by advisor.

Course Descriptions

Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

(POLS Prefix)

101 Introduction to Political Science (3) Explores the basic principles, processes, and institutions of government and politics in the modern world. Provides a foundation for the study of political science. No prereq. F, Sp

102 Introduction to American Politics (3) Explores the basic elements of the American political process and the institutions of American national government. Provides a foundation for the study of American government and politics. No prereq. F, Sp, Su

202 Introduction to Public Administration (3) Examination of the organizational dynamics and external pressures that affect the administration of government institutions in the United States. Theories and concepts are discussed that pertain to a number of the administrative practices in national, state, and local government organizations: planning, budgeting, staffing, decision making, communicating, implementation, controlling, and evaluation. No prereq.

203 Introduction to the Policy Process in the United States (3) Examination of the major theoretical approaches to the study of public policy and policymaking at the federal, state and local levels in the United States. The course focuses on critical elements of the policy process such as the definition of public problems, agenda setting, policy formulation, policy implementation, oversight, and policy change. No prereq.

208 Law, Courts, and Justice (3) Sources, types, purposes, and sanctions of American law; functions of courts; problems of legal justice in the United States. This course is cross-listed as CRIM 208. No prereq. F, Sp
271 International Politics (3) An introduction to the study of interstate political relations, power, nationalism, and international organizations; discussion of current trends in international affairs. No prereq.

281 Comparative Politics (3) Introduction to the comparative study of government and politics. Includes case studies of the political systems of selected nations with particular emphasis on Western Europe. No prereq. F

299 Special Topics in Political Science (3) Provides intensive examination of current political problems and issues as selected by the instructor. Topic will vary each time the course is offered. May be taken twice for credit. No prereq.

305 State and Local Government (3) The framework of states and their local governments in the United States. Indiana government is compared with that of other states. The course stresses the most important contributions of local governments to the federal system. Prereq: one political science course or consent of instructor.

306 Political Parties (3) The structure and function of American political parties and their relationship to democratic government. Emphasis is placed upon party organization and strategy in the political process. Historical as well as current sources are utilized. Prereq: one political science course or consent of instructor.

307 Urban Government and Politics (3) Governmental organization, current problems, and the political process in urban America. Prereq: one political science course or consent of instructor.

309 American Political Theory (3) Political thought from Puritan America to the present. Particular emphasis upon the great figures in the evolution of American political ideas. Prereq: one political science course or consent of instructor.

314 The American Presidency (3) Office, role, and powers of the President in the American political system. Prereq: one political science course or consent of instructor.

331 Political Inquiry I (3) An examination of how the scientific method is applied to the study of political phenomena. Topics range from how to develop and test hypotheses to writing surveys and conducting interviews; from engaging in content analyses to conducting focus groups and collecting data. Students will become better consumers of the political science literature; will become well-versed in several data collection methods, and will become adept at writing research designs. Prereq: one political science course or consent of instructor; political science major or minor.

332 Political Inquiry II (3) An examination of statistical techniques and data analysis in political science. Specific techniques will include descriptive statistics, model specification, measures of correlation, point estimation, construction of confidence intervals, parametric and nonparametric hypothesis testing. Analysis of Variance (ANOVA), and regression analysis. Prereq: one political science course or consent of instructor; political science major or minor; completion of core curriculum math requirement.

345 Man vs. the State (3) Examination and analysis of important modern ideologies, with emphasis on communism, fascism, and democracy. Prereq: one political science course or consent of instructor.

351 Leadership in Bureaucratic Organizations in the United States (3) An examination of concepts, theories, and processes relating to leading and managing national, state, and local government bureaucracies in the United States. Particular attention is paid to how leadership and management styles are shaped by internal characteristics of government organizations and external political environments. Prereq: one political science course or consent of instructor.

361 Intergovernmental Relations in the United States (3) An examination of the institutional structure of the American federal system, the basic features of contemporary intergovernmental relationships, the changes that national, state, and local governments have undergone in an era of devolution, and the challenges intergovernmental relationships pose for policy makers. Prereq: one political science course or consent of instructor.

363 Organizational Theory and American Political Institutions (3) An examination of theories about American political organizations at the national, state, and local level. Theories are discussed that relate to government organizations' goals, structures, cultures, and leadership structures. Particular attention is paid to how organizational theories explain variations in government institutions' major functions: policy formulation, policy implementation, and policy revision. Prereq: one political science course or consent of instructor.

364 Environmental Politics (3) An examination of environmental politics: air and water pollution, hazardous materials, energy policy, and globalization. Prereq: one political science course or consent of instructor.

371 The United Nations (3) An examination of the UN as an organization, UN functions, regional perspectives, and current issues. Prereq: one political science course or consent of instructor.

382 Politics in Canada (3) Detailed study of the Canadian federal system, with emphasis on parliament, parties and elections, the provinces, the Ottawa bureaucracy, and foreign policy. Prereq: one political science course or consent of instructor.

383 Government and Politics of Latin America (3) Comparative analysis of Latin American political structures, political movements, and political thought with emphasis on constitutional structures; local, state, and national governments; the military; revolutions; organized labor; and contemporary affairs. Prereq: one political science course or consent of instructor.

384 The Middle East (3) Government and politics of nation-states in northern Africa and western Asia, with special attention to Israel, Iran, and members of the League of Arab States. Prereq: one political science course or consent of instructor.

399 Advanced Topics in Political Science (3) An intensive examination of specialized topics in political science. May be taken twice for credit provided the topic is different. Prereq: One political science course or consent of instructor.

404 Indiana Constitutional Law (3) An analysis of leading decisions of the Indiana Supreme Court, with special attention to how particular provisions of the Indiana Constitution have been interpreted. The course also examines issues relating to statutory interpretation and judicial review. Prereq: one political science course or consent of instructor.

405 Constitutional Law (3) The growth of the American constitutional system by analysis of leading Supreme Court decisions, the role of the Court decisions, the role of the Court in American politics, evolution of the federal system, civil rights, problems of statutory interpretation, and judicial review of administrative action and regulations. Supplementary reading includes judicial biography and commentaries on the court. This course is cross-listed as CRIM 405. Prereq: one political science course or consent of instructor. F
406 Constitutional Rights (3) Analysis and discussion of leading decisions of the U.S. Supreme Court, with special attention given to civil rights, including the rights of persons accused of crime; freedom of speech, press, assembly, religion, separation of church and state, equal protection of the laws, and property rights. This course is cross-listed as CRIM 406. Prereq: one political science course or consent of instructor. Sp

407 The Legislative Process (3) The lawmaking process in Congress and selected legislative bodies in the United States; organization, powers, and problems of American legislatures. Prereq: one political science course or consent of instructor.

410 Interest Groups and Public Policy (3) An intensive analysis of the major American interest groups and their impact upon the formation and implementation of public policy at the local, state, and national levels of government. Major emphasis is given to ethnic, business, labor, agricultural, veterans, and religious associations. Prereq: one political science course or consent of instructor.

412 The Politics of Education (3) Major political actions that relate to education, with emphasis on school boards, state legislatures, federal grants, and interest groups. Issues include community control, educational power, and financial decision-making. Prereq: one political science course or consent of instructor.

427 State and Urban Administration (3) A study and analysis of the major issue areas of state and urban administration such as finance, organization, public welfare, insurance regulation, parks and recreation, housing, and redevelopment. Prereq: one political science course or consent of instructor.

433 American Diplomacy to 1900 (3) The history of United States relations with foreign nations from the Revolution to 1900. Emphasis is upon the diplomacy of independence, neutral rights, the Monroe Doctrine, Manifest Destiny, the Civil War and Imperialism. This course is cross-listed as HIST 433. Prereq: one political science course or consent of instructor.

434 American Diplomacy Since 1900 (3) United States relations with other nation-states from 1900 to the present. Emphasis is on foreign policy relating to World Wars I and II, intergovernmental organizations, Latin America, the Cold War, Vietnam, and China. This course is cross-listed as HIST 434. Prereq: one political science course or consent of instructor.

445 Political Theory I (3) Political thinkers and their ideas from Plato and Aristotle to the sixteenth century. Prereq: one political science course or consent of instructor.

446 Political Theory II (3) Political thinkers and ideas from the seventeenth century to the present. Prereq: one political science course or consent of instructor.

471 International Organizations (3) An examination of the development and functioning of intergovernmental organizations with special emphasis on the United Nations, its specialized agencies, and regional arrangements. Prereq: one political science course or consent of instructor.

473 International Law (3) A systematic study of the origins, objects, sources, and theories of international law. Foremost in importance is the aim to enable students to analyze basic premises and principles of international law and to develop an awareness of the major international legal problems. Prereq: one political science course or consent of instructor.

481 Politics of the Developing Nations (3) Comparative study of problems of political change and modernization in the developing nations. Prereq: one political science course or consent of instructor.

487 Government and Politics of Communist States (3) Government and politics of selected Communist states. Prereq: one political science course or consent of instructor.

495 Judicial Internship (3) Internship in a court for a minimum of 150 hours of supervised, professional work required. The internship experience will provide students with the opportunity to master and critique social science concepts and theories pertaining to the operation of judicial bureaucracies. Prereq: junior or senior status and consent of instructor.

496 Legal Internship (3) Students work as interns in a law office or other law-related organizations for 150 hours. Students also must complete various academic requirements. Working in a law office or other law-related institution provides a pre-law student direct contact with the practical realities of the legal profession and the applications of law in society. This experience also helps a pre-law student decide whether to commit to law school. Thus, a legal internship is a valuable component of pre-law education. Prereq: junior or senior status and consent of instructor.

497 Legislative Internship (6) Students serve as interns in the Indiana State Legislature. Students must be selected by one of the party caucuses in the House or Senate. In addition to working for state legislators, students must attend a speaker series and complete various academic requirements. Serving a one-semester internship in the Indiana State legislature provides direct experience with the realities of practical politics. The internship provides students with concrete illustrations of the political concepts and processes presented in the classroom and thus is an integral part of a student’s political education. Prereq: junior or senior status and consent of instructor.

498 Research in Political Science (3) Independent investigation of selected political problems under supervision of instructor. May be taken twice. Prereq: one political science course and consent of instructor. F, Sp

499 Seminar in Political Science (3) Intensive examination of selected political problems. May be taken twice. Prereq: one political science course or consent of instructor.

Criminal justice courses that may be used as Political Science electives.

CRIM 301 Introduction to Criminal Justice Administration (3) Analysis of the public institutions which determine policy and practice in the administration of the criminal justice system. This will include the legislature, the police, the courts, and correctional systems. Prereq: POLS 101 or 102 and junior status. Sp

CRIM 302 Criminal Law (3) History and development of criminal law as a system of social control; the relationship among criminal laws; and the workings of courts and correctional systems. Prereq: POLS 101 or 102 and junior status. F

PSYCHOLOGY

The study of psychology provides students with a framework for understanding human behavior in its many facets. Grounded firmly within the liberal arts tradition, the USI psychology curriculum encourages the development of the capacity to think clearly, analyze problems, and communicate effectively. The departmental major emphasizes the application of quantitative methods to
the study of behavior, as well as the application of psychological principles to solving human problems. Psychology majors frequently develop careers in counseling, rehabilitation, and other helping professions, as well as in personnel, business, sales, research, and teaching. Students pursue either a Bachelor of Science or a Bachelor of Arts degree. The latter requires 12 hours of foreign language study.

Internships and research experiences are available in some areas.

**Major – Psychology**

**41 credit hours**

**Required courses:** 201-Introduction to Psychology, 3 hrs.; 202-Orientation to a Major in Psychology, 1 hr.; 303-Research Methods and Statistics I, 3 hrs.; 353-Research Methods and Statistics II, 4 hrs.; 497-Capstone in Psychology: History and Systems, 3 hrs.

Two of the following courses: 312-Perception, 3 hrs.; 357-Learning Theory, 3 hrs.; 385-Physiological Psychology, 3 hrs.; 425-Cognitive Psychology, 3 hrs.

Two of the following courses: 261-Lifespan Developmental Psychology, 3 hrs.; 273-Social Psychology, 3 hrs.; 322-Abnormal Psychology, 3 hrs.; 462-Personality, 3 hrs.

**Elective courses:** 15 hours selected from entire list of offerings in psychology, excluding 498 and 499.

**Minor – Psychology**

**18 credit hours**

**Required course:** 201-Introduction to Psychology, 3 hrs.

**Elective courses:** 15 hours of psychology courses, at least six hours at the 300 or 400 level.

**Course Descriptions**

Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

**(PSY prefix)**

201 Introduction to Psychology (3) A survey of basic concepts and methods of psychology as a behavioral science and seeks to develop an understanding of the individual and social forces that influence and direct behavior. Prereq for all other psychology courses. F, Sp

202 Orientation to a Major in Psychology (1) This course is designed to provide an orientation to educational issues and career planning and development for students majoring in psychology. Prereq: C or better in PSY 201. F, Sp

261 Lifespan Developmental Psychology (3) An examination of the theories, methods, and issues of lifespan human development. Biological, intellectual, emotional, linguistic, perceptual, and social aspects of growth and development from birth through old age are explored within the context of current and classical research in the field. Common physiological, familial, and social stresses associated with individual stages of development are reviewed. Prereq: PSY 201. F, Sp

273 Social Psychology (3) A survey of concepts, topics, and research in social psychology. Including research methodology, cognitive dissonance, prejudice, attitudes, persuasion, conformity, attraction, group dynamics, aggression, and altruism. Prereq: PSY 201. F, Sp

298 Human Sexuality (3) Considers sexuality from a broad scientific perspective. Areas covered include sex research and methods, the biological basis of sexuality, sexual behavior, sexuality and the life cycle, sexual problems, and social issues. Prereq: PSY 201. F

303 Research Methods and Statistics I (3) An introduction to the research methods and statistics used by psychologists, with an emphasis on experimentation. Research designs, principles of methodology, and the statistical analysis of results will be emphasized. Prereq: PSY 201, PSY 202, grade of C in math core, plus 6 hours of psychology. F, Sp

312 Sensation and Perception (3) Focuses on physical and psychological aspects of human perception. Study of the senses will consider measurement, methodology, and organizational principles with primary focus on vision. Prereq: PSY 201. F

322 Abnormal Psychology (3) A survey of past and present conceptions of abnormal behavior. Major diagnostic issues, including the role of psychological tests, are discussed. Symptoms, diagnostic criteria, and etiological factors underlying the major disorders are considered, as well as related legal issues. Selected treatments for these disorders are described and evaluated. Disorders considered include anxiety, dissociative, somatoform, psychophysiological, geriatric, affective, schizophrenic, substance abuse/addiction, sexual deviations, disorders of childhood and adolescence, and personality disorders. Prereq: PSY 201. F, Sp

353 Research Methods and Statistics II (4) Advanced topics in the research methods and statistics used by psychologists, with an emphasis on experimentation. Prereq: PSY 303. F, Sp

357 Learning Theory (3) The scientific study of learning over the last one hundred years has produced a sizable body of laws and principles describing how these processes work. This course investigates the ways in which organisms (human and non-human) change their behavior as a result of experience. The course provides the behaviorist perspective on such changes and therefore focuses on respondent and operant conditioning. Prereq: PSY 201, 3 additional hours in Psychology. Sp

361 Child and Adolescent Psychology (3) This course takes an in-depth look at physical, cognitive, and social-emotional development and the inter-relationships of each from conception to adolescence. Topics such as the effects of heredity as well as pre and post-natal environments on growth will be examined in the context of current and classical research in the field. Emphasis will be placed on recent advances in the understanding of forces affecting adaptive and maladaptive development. Prereq: PSY 201. F

362 Clinical Psychology (3) A survey of clinical psychology that considers types of problems, diagnostic instruments, clinical orientations, ethics, and the professional role of the clinical psychologist. Students learn to describe and differentiate among psychodynamic, behavioral, cognitive, humanistic, family and group approaches to treatment.
Discussions, demonstrations, and supervised laboratory experiences provide opportunities to relate theoretical knowledge to interviewing, establishing rapport, and basic record-keeping. Prereq: PSY 201 and either PSY 322 or PSY 462, or permission of instructor.

371 Adulthood and Aging (3) This course involves an in-depth study of adulthood and aging by examining the major theories, research, and issues of psychological development. Topics covered will include personality, cognitive functioning, interpersonal relationships, mental and physical health, and sociocultural context. Prereq: PSY 201. Sp

376 Industrial Psychology (3) Examination of psychological principles applied to personnel decision-making including job analysis, performance appraisal, training, and engineering psychology. Emphasis on the selection (hiring) process, including criterion development, standardized tests, simulation, interviews, selection battery validation, adverse impact, and test fairness. Prereq: PSY 201 and any course in statistics or research methodology. F

381 Psychology of Gender (3) Investigation of the psychological and physiological determinants of gender differences and similarities in behavior with emphasis on development of sex-role identity, interpersonal interactions, achievement and affiliation behavior, sex-typed behavior, socialization and personality perspectives. Prereq: 6 hours in psychology or permission of instructor. Sp

385 Physiological Psychology (3) The study of behavior as influenced by the nervous system. Physiological mechanisms that underlie behaviors such as sensory and motor processes, motivation, emotion, learning, and behavior pathology are emphasized. Biological background is helpful but not required. Prereq: PSY 201. F

400 Special Topics in Psychology (3) Devoted to the study of psychological topics not currently part of the curricular offerings. Topics change with the interests of students and faculty. Students may repeat the course as the topics change. Prereq: PSY 201 and approval of instructor.

425 Cognitive Psychology (3) The study of how the mind processes information. Topics include models of memory, categorization, concept formation, creativity, and imagery with emphasis on language comprehension and problem solving. Prereq: PSY 201 plus nine additional hours in psychology. Sp

462 Personality (3) Critical evaluation and comparison of major personality theories. Includes coverage of key issues in personality research such as person perception and cross-situational consistency. Prereq: PSY 201 and nine additional hours in psychology. Sp

476 Psychometrics (3) The procedures of test planning, item writing, establishing reliability and validation are presented. Interpretation and combination of scores are covered. Representative tests are discussed to illustrate the principles of test construction and interpretation. Prereq: PSY 201, PSY 303, and junior or senior standing.

497 Capstone in Psychology: History and Systems (3) This course provides a rationale and method for studying the history of psychology as a distinct academic and professional discipline. The course also surveys important theoretical systems used to build the science and application of psychology. In addition, the impact of these historical and theoretical precedents upon contemporary research and practice are discussed. Prereq: Senior Standing, PSY 303. F, Sp

498 Internship (3) Provides for a minimum of 150 hours supervised experience related to psychology. Students are expected to arrange internships with approval of instructor, maintain a log of their experiences, and meet regularly with instructor. Assignments are negotiated with the instructor based on the demands of the particular internship experience. Open to juniors and seniors. Grades assigned as Satisfactory or Unsatisfactory only. Credit does not count toward the 41 hours necessary for the psychology major. May be repeated once for a maximum of 6 hours of credit. Prereq: PSY 201, 15 additional psychology hours, and permission of instructor. F, Sp

499 Individual Study in Psychology (1-3) A course intended primarily for individual research in a specific area of psychology. Topics arranged to meet the specific interest of the student and faculty member involved. May be elected on an arranged basis upon approval of the faculty member who is to serve as supervisor of the research. Credit does not count toward the 41 hours necessary for the psychology major. May be repeated once for a maximum of six hours of credit. Prereq: PSY 201 and permission of the instructor. F, Sp

**SOCIODY**

Students interested in sociology may elect a major or a minor as part of the liberal arts program leading to the Bachelor of Arts degree or Bachelor of Science degree. The Bachelor of Arts degree requires 12 hours of a foreign language.

Sociology majors obtain knowledge that helps prepare them for a wide range of careers in human services, criminal justice, business, government, and non-profit organizations. Graduates may use their sociology major as pre-professional preparation for teaching sociology and for conducting social science research. In addition to a sociology degree, the department offers minors in anthropology and criminal justice (see below for details). Six hours of anthropology courses can count towards a major in sociology. Nine hours of sociology courses in the criminal justice minor can count towards the sociology major. In completing a sociology degree, students may concentrate part of their course work in gerontology.

**Major**

**36 credit hours**

**Required courses:** 121-Principles of Sociology, 3 hrs.; 370- Seminar in Sociology, 3 hrs.; 391-Introduction to Sociological Research, 3hrs.; 392-Statistics for Social Research, 3 hrs.; 481-Contemporary Social Thought or 483-Development of Sociological Theory, 3 hrs.

**Four courses from the following list:** 341-Sociology of Medicine, 3 hrs.; 343-Sociology of Death and Dying, 3 hrs.; 345-Simulated Games of Society, 3 hrs.; 370-Seminar in Sociology (different topic than one applied to above required courses), 3 hrs.; 375-Social Change, 3 hrs.; 415-Sociology of the Environment, 3 hrs.; 421-Race and Ethnicity, 3 hrs.; 424-Population, 3 hrs.; 426-Sociology of Deviant Behavior, 3 hrs.; 431-Gender and Society, 3hrs.; 441-Social Movements, 3 hrs., 461-Sociological Issues in
Education, 3 hrs.; 463-Wealth and Poverty, 3 hrs.; 481-Contemporary Social Thought, 3 hrs.; 483-Development of Sociological Theory, 3 hrs.; ANTH 333-Cultural Anthropology, 3 hrs.

Electives: Nine hours of directed sociology electives.

Minor
18 credit hours
Required courses: 121-Principles of Sociology, 3 hrs.; 370-Seminar in Sociology, 3 hrs.; and one 300/400 level sociology course.

Electives: Three three-hour sociology courses as directed by advisor. One course in anthropology can be used toward the minor.

Gerontology Concentration (may be pursued as a sociology major is completed)
15 credit hours

Electives: Six hours from the following: SOC 343-Sociology of Death & Dying, 3 hrs.; SOCW 323-Social Work Practice with the Aged, 3 hrs.; or PSY 261-Lifespan Developmental Psychology, 3 hrs. Other recommended courses for study: SOC 261, 3 hrs.; 421, 3 hrs.; PSY 201, 3 hrs.; BIOL 105, 3 hrs.; 276, 3 hrs.

Course Descriptions
Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

(SOC prefix)

121 Principles of Sociology (3) An examination of social dynamics and consequences of social life. The main topics are culture, social groups, socialization, deviance, social stratification, race relations, gender, and family. It is required of majors and minors. No prereq. F, Sp, Su

200 Special Topics in Sociology (3) This course is a means for the study of selected topics of current interest and importance in sociology. These topics will vary in accordance with the interests of students and faculty. Students may repeat the course without limit as the topic changes. Prereq: SOC 121.

221 Computer Applications in Sociology (3) This course is designed to both teach the basic areas of sociology and increase students’ ability to effectively use the computer. Students work at their own pace through a series of projects in which they collect, organize, and present data in various forms. No prereq.

225 Criminology (3) A consideration of criminality, its nature and extent, particularly in the United States. Includes analysis of the etiology of criminal behavior, the sociology of criminal law, and societal reaction to criminals. Prereq: SOC 121. F, Sp

231 Social Problems (3) Examination of the nature, extent, causes, and effects of selected contemporary social problems, such as gender, sexual behavior, drugs, environment, economic inequality, racial inequality, crime, and education. Prereq: SOC 121. F, Sp

235 Juvenile Delinquency (3) Definitions and interpretations; theories of causation and prevention; organization and functions of community agencies and institutions including police, courts, and probation services. Prereq: SOC 121. F, Sp

251 Principles of Social Psychology (3) A general consideration of human behavior in social situations with particular emphasis on communication processes, socialization, social roles, social self, and social groupings. Prereq: SOC 121.

261 Marriage and Family (3) The course examines research about the family life cycle. The specific areas investigated are sex roles, a history of the American family, dating, sexual behavior, marriage, childbirth, children, the middle-aged, the elderly, divorce, and step-parenting. Prereq: SOC 121. F, Sp

341 Sociology of Medicine (3) The social organization of medical care. The course considers patterns of morbidity and mortality, social epidemiology of disease, social effects of disease, doctor-patient relationships, cost of medical services, hospitalized patients, modes of medical practice, hospital organization, and programs of medical care. Prereq: SOC 121. F

343 Sociology of Death and Dying (3) The social structures and processes involved with death and dying. The course considers different concepts of death, death as a social disease, the demography of death, the determination of death, the funeral industry, the social psychology of dying, dying patients, and the survivors of death. Prereq: SOC 121. Sp

345 Simulated Games of Society (3) The study of society through the use of simulated games. The power structure, the social class system, the justice system, sex roles, different cultures, whole societies, ghettos, economic systems, municipal politics, and national political parties are simulated in classroom games to provide the student with experiential knowledge of these processes. Prereq: SOC 121. F

370 Seminar in Sociology (3) An intensive, small-group discussion of recent research on topics of current interest to sociologists. The seminar format will emphasize critical thinking and discussion. Students may take the course more than once as the reading list changes. No prereq. F, Sp, Su

391 Introduction to Sociological Research (3) An examination of the various methods that sociologists use to conduct research. Course work includes concept formation, sampling, questionnaire construction, content analysis, experiments, and field observations. Students learn how to conceptualize and design their own research project. Prereq: SOC 121, six other hours of sociology courses. F
392 Statistics for Social Research (3) An introductory course in descriptive and inferential statistics. Course work includes probability, univariate statistics, bivariate statistics, and statistical modeling using the SPSS computer analysis software package. Students learn how to write research reports using statistical evidence. Prereq: SOC 121, SOC 391, MATH 108 or MATH 111. Sp

415 Sociology of the Environment (3) A sociological approach to understanding the interaction of society and the natural environment. It focuses on social causes and consequences of environmental problems and mitigating actions taken toward them. It also addresses inequality in the distribution of environmental problems. Several specific cases are studied in detail. Prereq: six hours of sociology or consent of instructor.

421 Race and Ethnicity (3) A sociological exploration of the origins and influence of race, ethnicity, and cultural/national identity in American and international stratification systems. Prereq: six hours of sociology or consent of instructor.

424 Population (3) The quantitative and qualitative aspects of population and population trends in significant areas of the world; emphasis is on cultural implications with some attention to population research techniques. Prereq: six hours of sociology or consent of instructor.

426 Sociology of Deviant Behavior (3) An examination of various concepts of deviant behavior, the nature and prevalence of such behavior, and the theories developed to explain deviance. The course emphasizes the relationship of such behavior to social structure and social processes. Prereq: six hours of sociology or consent of instructor.

431 Gender and Society (3) An exploration of gender patterns. The course focuses on gender differences. It analyzes the causes and the consequences of these differences for social life, including the various social inequalities between males and females that have become institutionalized in American society. Prereq: six hours of sociology or consent of instructor. F, Sp

441 Social Movements (3) Consideration of social movements as attempts to establish a new order of life. Analyzes states of development from inception to the achievement of full institutionalization. Specific social movements are examined such as the labor movement, the women's movement, and racial, religious, and political movements. Prereq: six hours of sociology or consent of instructor.

461 Sociological Issues in Education (3) An examination of current problems and controversies in American education from preschool to college, particularly issues involving quality and equality. The course explores the reciprocal influence between educational institutions and other institutions in American society. No prereq.

463 Wealth and Poverty (3) An examination of social stratification in U.S. society with comparisons to other countries. The course explores different indicators of inequality, the social class system, theories of inequality, poverty, social mobility, and legitimation of inequality. It also explores racial and gender stratification. Prereq: six hours of sociology or consent of instructor.

481 Contemporary Social Thought (3) An examination of several contemporary perspectives on the nature of society. The course focuses on cultural, economic, genetic, and social forces as tools to explain concrete social phenomena. Prereq: six hours of sociology or consent of instructor. Sp

483 Development of Sociological Theory (3) An examination of three theoretical traditions in sociology: Structural-Functionalism, Marxist/Critical, and Historical/Interpretive Sociology. The course explores the historical formation of the significant developments within each tradition along with other classical and contemporary sociological ideas. Prereq: six hours of sociology or consent of instructor. F

489 Independent Study (1-3) An extensive examination of the main sociological ideas on a specific topic. The major paper is a product of critical reading or advanced research. The course may be taken up to six hours. Prereq: nine hours in sociology and consent of instructor. F, Sp

499 Internship in Sociology (3) An opportunity for a job-related experience in the area of sociology. Students will be placed in an agency that reflects their future occupational interests. The course may be taken up to six hours. Prereq: nine hours in sociology and consent of instructor. F, Sp

**ANTHROPOLOGY**

A minor is available in the field of anthropology. The minor consists of 18 credit hours. Coursework is directed toward either cultural anthropology or archaeology. Six hours of anthropology may be applied to a sociology major and three hours to a minor. Six hours must be at the 300–400 level.

**Minor**

18 credit hours

**Required courses:**
- 101-Introduction to Anthropology, 3hrs.;
- 261-Introduction to Archaeology, 3hrs.;
- 333-Cultural Anthropology, 3hrs.

**Electives:** Nine additional hours as directed by an advisor. These courses can be chosen from the list below.

**Course Descriptions**

Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

**(ANTH prefix)**

101 Introduction to Anthropology (3) A survey of the disciplines of anthropology: physical anthropology, archaeology, cultural anthropology, linguistics, and applied anthropology. The nature of language and culture and the processes of biological and sociocultural evolution are major topics examined. No prereq. F, Sp

200 Special Topics in Anthropology (3) A study of selected topics of current interest and importance in anthropology. These topics will vary in accordance with the interests of the students and faculty. Students may repeat the course without limit as the topic changes. No prereq.

251 Peoples of Latin America (3) An introduction to the ethnology and ethnography of modern Latin America with emphases on: the Native-American peoples of the Andean highlands, southern Mexico and Guatemala, and the lowland rainforests; African-American peoples of the Caribbean Islands, the Guianas, and Brazil; the Brazilians and Luso-Brazilian culture; and the Spanish-speaking peoples and Hispanic culture in Cuba, Mexico, and urban Peru. Global issues are addressed including the drug trade and rainforest deforestation. No prereq, ANTH 101 recommended.
255 The Cultures of Asia (3) An introduction to the societies and cultures of Asia: China; Japan; Southeast Asia with emphases on Malaysia, Indonesia, and Vietnam; and Central Asia with special attention to Mongolia, Tibet, and the Turkic-speaking peoples of western China and Kazakhstan. No prereq.

261 Introduction to Archaeology (3) An introduction to archaeological theories, concepts and methods, and their application in the reconstruction of both prehistoric and historic cultures. This course includes laboratory sessions during class periods and a weekend field project. No prereq.

262 Archaeology of North America (3) Designed to introduce students to the cultural history of North America before European conquest, focusing on the processes of social and cultural evolution. No prereq. ANTH 101 or ANTH 261 recommended.

305 Indians of North America (3) The ethnography of Native American cultures through a detailed study of representative tribal units by cultural areas. The course includes an examination of historic Native American cultures from first contact with Europeans to the role of North American Indian populations as an important ethnic group in modern American life. Prereq: ANTH 101 or consent of instructor.

333 Cultural Anthropology (3) A global, comparative study of all aspects of culture. Topics comprise technology, political economy, social organization, gender, religion, values, war, languages, ethnicity, and cultural change. Prereq: ANTH 101, SOC 121, or consent of instructor.

353 Human Origins (3) An examination of the biological bases of human society and culture. This course surveys human evolution from pre-human ancestors to the appearance of Homo-Sapiens. Prereq: ANTH 101.

370 Seminar in Anthropology (3) An intensive, small-group discussion of recent, provocative books on topics of current interest to anthropologists. The seminar format will emphasize critical thinking and discussion. Students may take the course more than once as the reading list changes. Prereq: consent of instructor.

407 Psychological Anthropology (3) Examines theories of the relationship of culture and the individual. Topics covered include cognition and perception, enculturation processes, emotional patterning, “national character,” culture change, and deviant behavior, from a cross-cultural perspective. Prereq: ANTH 101 or SOC 121 or PSY 201.

489 Independent Study in Anthropology (3) An extensive examination of the major anthropological ideas on a specific topic. The major paper is a product of critical reading or advanced research. The course may be taken up to six hours. Prereq: nine hours sociology/anthropology and consent of instructor.

499 Internship in Anthropology (3) An opportunity for work experience in the area of anthropology. For students interested in graduate school, the internship will involve field research. The course may be taken for up to six credit hours with different placements. Prereq: nine hours in anthropology/sociology and consent of instructor.

CRIMINAL JUSTICE

A minor is available in the field of criminal justice. It is intended for students interested in careers in criminal justice or as a supplement to their major. Nine hours of sociology courses in the minor also may count toward a sociology major.

Minor

24 credit hours; 12 of these hours must be at the 300/400 level

Required Courses: SOC 121-Principles of Sociology, 3 hrs.; CRIM 141-Introduction to Criminal Justice, 3 hrs.; SOC 225-Criminology, 3 hrs.

Four courses from the following list: SOC 225-Juvenile Delinquency, 3 hrs.; SOC 426-Sociology of Deviant Behavior, 3 hrs.; CRIM 200-Special Topics in Criminal Justice, 3 hrs.; CRIM 244-Police & Society, 3 hrs.; CRIM 301-Criminal Justice Administration, 3 hrs.; CRIM 302-Criminal Law, 3 hrs.; CRIM 370-Criminal Justice Seminar, 3 hrs.; SOC 370-Seminar: Hate Groups and Hate Crimes, 4 hrs.; CRIM 401-Probation & Parole, 3 hrs.; CRIM 489-Independent Study, 3 hrs.; CRIM 499-Internship, 3 hrs.; POLS 208-Law, Courts & Justice, 3 hrs.; POLS 405-Constitutional Law, 3 hrs.; POLS 406-Constitutional Rights, 3 hrs.

One diversity course from the following list: SOC 421-Race and Ethnicity, 3 hrs.; SOC 431-Gender and Society, 3hrs.; SOC 463-Wealth & Poverty, 3 hrs.

Course Descriptions

Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

(CRIM prefix)

141 Introduction to Criminal Justice (3) A survey of the criminal justice system of the United States. The main topics include the theories of crime, laws and the courts, juvenile justice, policing, and corrections. F, Sp
200 Special Topics in Criminal Justice (3) This course allows for the study of selected topics of current interest and importance in criminal justice. These topics will vary in accordance with the interests of students and faculty. Students may repeat the course without limit, as the topic changes. Prereq: CRIM 141

244 Police & Society (3) This course explores how the various law enforcement agencies interact with society. The main topics include the history of law enforcement in the U.S. and other countries, and current issues and controversies in policing. Prereq: CRIM 141. Sp

301 Criminal Justice Administration (3) Analysis of the public institutions which determine policy and practice in the administration of the criminal justice system. This will include the legislature, the police, the courts, and correctional systems. Prereq: CRIM 141 or SOC 121 and junior level standing. Sp

302 Criminal Law (3) History and development of criminal law as a system of social control; the relationship among criminal laws; and the workings of courts and correctional systems. Prereq: CRIM 141 or SOC 121 and junior level standing. F

370 Seminar in Criminal Justice (3) An intensive, small-group discussion of recent, provocative books on topics of current interest to criminal justice professionals and criminologists. The seminar format will emphasize critical thinking and discussion. Students may take the course more than once as the reading list changes. Prereq: consent of instructor.

401 Probation and Parole (3) The processes of probation and parole in the United States in terms of its historical development, philosophy, and standards; attention is focused on the utilization of parole and probation as tools of social control with special emphasis on the implications of the philosophical impact of probation and parole on field practices. Prereq: CRIM 141 or SOC 121 and junior level standing. F

489 Independent Study in Criminal Justice (3) An extensive examination of the main criminal justice/criminology ideas on a specific topic. The major paper is a product of critical reading or advanced research. The course may be repeated for up to six credit hours. Prereq: nine hours sociology/criminal justice and consent of instructor.

499 Internship in Criminal Justice (3) An opportunity for work experience in the area of criminal justice. For students interested in graduate school, the internship will involve field research. The course may be repeated for up to six credit hours with different placements.

SOCIAL SCIENCE

Associate Degree
65 credit hours
The associate degree program in social sciences is designed for students who anticipate the need for only two years of college education. Basically it reflects the training received in the first two years of a regular four-year program, and a student may, if he or she desires, continue on to a baccalaureate degree. At the same time a student with an associate degree will have the satisfaction of having recognition for his or her efforts, and will be able to produce a tangible certification for prospective employers.

Required University Core Curriculum courses (35 hours): ENG 101, 3 hrs.; ENG 201, 3 hrs.; CMST 101, 3 hrs.; Health/Fitness-1 hr.; MATH 108 or MATH 111, 4 hrs.; Western Culture, 3 hrs.; History, 3 hrs.; Ethics or Arts, 3 hrs.; Science, 3 hrs.; Indiv. Social, 6 hrs.; Global Communities, 3 hrs.

Required social science courses (18 hours): 18 hours in a single area of concentration selected from psychology, sociology, economics, political science, United States history, or world history.

Elective courses: 12 hours.

Social Science Secondary Education
Students seeking a bachelor’s degree in social science and standard certification as a senior high/junior high/middle school (grades 5–12) social studies teacher should contact the chair of the History department (all Social Science Teaching majors must be advised through the History department) early in their education career. In this initial contact, the student will be assigned an advisor to assist in planning the entire four-year program leading to certification. A complete file on each student will be maintained in the dean’s office. Three components comprise each program leading to Indiana certification as a secondary teacher of economics, geography, government, psychology, sociology, United States history, and world civilizations. Program information is found in the History area of the Bulletin.
The USI College of Nursing and Health Professions promotes excellence in its academic programs, faculty, and students, and demonstrates leadership in health care education, research, practice, and community service. The College of Nursing and Health Professions provides students opportunities to prepare for a personally satisfying and financially rewarding health care career.

The College of Nursing and Health Professions offers the following health professions certificate and degree programs:

**Dental Assisting**
- Certificate
- Associate degree

**Dental Hygiene**
- Associate degree
- Bachelor's degree in Dental Hygiene Education

**Health Services and Health Administration**
- Bachelor's degree
- Master's degree

**Nursing**
- Bachelor's degree
  - Four year
  - Accelerated Second Degree
  - RN-BSN
- Master's degree
  - Acute Care Nurse Practitioner
  - Clinical Nurse Specialist
  - Family Nurse Practitioner
  - Nursing Education
  - Nursing Management and Leadership
  - RN-MSN

**Food and Nutrition**
- Bachelor's degree with specialties
  - Dietetics
  - Food Service Management
  - Nutrition and Wellness

**Occupational Therapy**
- Combined bachelor's degree and master's degree

**Occupational Therapy Assistant**
- Associate degree

**Radiologic and Imaging Sciences**
- Associate degree in Radiologic Technology
- Bachelor's degree with specialties
  - Clinical Education
  - Management
  - Sonography

**Respiratory Therapy**
- Associate degree

The following minors are offered by the College of Nursing and Health Professions:

- Gerontology
- Health Services
- Nutrition
- Public Health
- Health Promotion and Worksite Wellness

The College offers a wide array of on-campus, independent study, and online health professions continuing education and specialized certificate programs. A complete listing and schedule of offerings can be viewed on the college Web site health.usi.edu.

All clinical programs are accredited by national agencies representing the profession and/or appropriate state governmental agencies. Program graduates routinely excel on state and national licensing/registry exams and are heavily recruited by healthcare employers.

College faculty are academically prepared, experienced practitioners who are licensed, registered, or certified members of the professions in which they teach. The college provides a caring atmosphere in which students, facul-
ty, and community health care professionals work together to optimize personal and professional development. The college provides educational experiences which prepare students to become competent practitioners and apply for licensure, registration, or certification in their fields.

**Clinical Affiliates**
A wide variety of clinical facilities are utilized in the educational programs of the college. These facilities include Deaconess Hospital, St. Mary's Medical Center, Health South Tri-State Rehabilitation Hospital, Evansville State Hospital, Evansville-Vanderburgh School Corporation, Evansville-Vanderburgh County Public Health Department, Evansville Association for Retarded Citizens, Visiting Nurse Association of Southwestern Indiana, Rehabilitation Center, Planned Parenthood, Southwestern Indiana Adult Mental Health Center, Southwestern Indiana Regional Council on Aging, senior citizens centers, dental offices, physicians' offices, day care centers, nursing homes, extended care facilities, and the University of Southern Indiana dental clinic. A complete listing of clinical affiliates is located in the college office.

**Admission and Progression Requirements**
Students seeking admission to programs in the College of Nursing and Health Professions must apply for admission to the University and submit a separate application to the program of their choice. To ensure the highest quality of student learning experiences, admission is competitive and limited. Students meeting academic requirements must be in good health; eligible for licensure, certification, or registration; and capable of meeting clinical practice requirements. Acceptance into a clinical program is contingent upon an acceptable drug screen and criminal record check. A felony may affect a graduate's eligibility to sit for professional licensure/certification/registration. Additional information about the admission process and timeline is listed on the program Web pages.

Minimum grade requirements for major and other selected courses are identified in student handbooks. Additional information regarding admission criteria and progression requirements is listed in the individual program descriptions that follow and in program student handbooks. Program student handbooks are available online.

**Financial Assistance**
A number of scholarships are designated specifically for students in the College of Nursing and Health Professions. These scholarships are in addition to the scholarships and other financial assistance that is available for all USI students.

**Advising**
Each student is assigned an academic advisor and is expected to confer with the advisor prior to course registration. Meeting degree requirements is each student's responsibility. The College of Nursing and Health Professions' major and minor program requirements are revised periodically. The revised requirements are announced to students enrolled in major courses and published on the College of Nursing and Health Professions Web pages.

**Application for Degree and Diploma Form**
A degree application and diploma form must be filed by students completing course requirements one semester prior to the semester in which the program will be completed. This application may be obtained from the College of Nursing and Health Professions office or online and should be returned to the student's academic advisor for review and approval.

**Nursing**
It takes a special person to be a nurse. Nursing requires caring, commitment, and competence. The professional nurse diagnoses and treats human responses to illness, helps restore wellness, promotes health, and brings comfort to the dying patient. Nursing as an art and science is based on the value of caring and is grounded in scientific, aesthetic, and ethical knowledge. Nursing involves the diagnosis and treatment of human responses in various states of health.

Nurses are employed in hospitals, long-term care facilities, schools, clinics, research facilities, and numerous other community settings. Clinical specialty areas include medical, surgical, maternal-child, and psychiatric nursing. Additional education and experience provide career opportunities in teaching, research, management, and independent practice. Scheduling flexibility, professional development opportunities, and transfer options are customary employment benefits.

The baccalaureate nursing program is designed to prepare the professional nurse as a generalist to plan, implement, and evaluate health care for individuals, families, and groups in institutional and community settings. Completion of the baccalaureate degree provides the foundation for professional practice and graduate study in nursing. Students completing and meeting the requirements for graduation from the baccalaureate nursing program will be eligible to sit for the registered nurse licensure exam.
Nursing faculty members provide students with a rich reservoir of experience as caregivers and educators. Faculty hold advanced degrees in their areas of expertise and share a commitment to the professional development of their students.

In addition to classroom instruction, clinical teaching occurs in local hospitals, nursing homes, home health agencies, clinics, and a number of other agencies. Students gain experience with clients in medical, surgical, psychiatric, maternity, pediatric, gerontology, oncology, operating room, critical care, emergency room, post-anesthesia, and community settings. Clinical practice prepares students for employment in these areas following graduation.

The baccalaureate nursing program is accredited by the Indiana State Board of Nursing and by the Commission on Collegiate Nursing Education, One Dupont Circle, Suite 530, Washington D.C. 20036, 202/887-6791.

In addition to offering the baccalaureate nursing program, the College of Nursing and Health Professions also offers a master of science in nursing program. Specialties in the graduate nursing include Acute Care Nurse Practitioner, Clinical Nurse Specialist, Family Nurse Practitioner, Nursing Education, and Nursing Management and Leadership. Nursing faculty teach in both the undergraduate and graduate nursing programs.

Additional information about the nursing program is available through the College home page at health.usi.edu.

Admission Requirements
Students interested in admission to the USI baccalaureate nursing program must submit an admission application to the USI nursing program in addition to a University admission application. Individuals, prior to their acceptance into the baccalaureate nursing program, are classified as pre-nursing majors. Enrollment in pre-nursing does not assure admission to the nursing major.

Admission to the nursing program is based on academic qualifications and the student’s ability to perform clinical assignments. The number of students admitted to the nursing program is limited by the availability of instructional resources and clinical learning sites. Students applying for the baccalaureate nursing program will be evaluated in the fall semester of their second year of study. Students admitted to the nursing program will enroll in nursing courses in the spring semester of the second year. The requirements for admission to the nursing program and the criteria used to select applicants are listed on the following pages.

**Admission to the nursing program is competitive and based upon the following criteria:**
1. Admission to the University of Southern Indiana
2. Nursing program application information
3. Completion of 30 hours of college credit
4. College GPA of 3.0 on a 4.0 scale
5. A grade of C or better in all science courses, Nutrition 376, English 101, English 201, CMST 101/107, Psychology 201, and Sociology 121 (or other C2 course)
6. SAT or ACT score

**Guaranteed Nursing Program Admission for High School Students**
An advanced guaranteed admission to the nursing program is available to students who have excelled in their high school studies. High school students who meet the following criteria are encouraged to apply for the nursing program guaranteed admission option. To qualify for the guaranteed admission option, students must meet the following criteria:
1. Admission to the University of Southern Indiana
2. Nursing program application information
3. High school GPA of 3.5 on a 4.0 scale
4. Combined SAT score of 1,100 or equivalent ACT score

To maintain the guaranteed admission status, students in their first three semesters of study at USI must meet the following criteria:
1. Complete 30 hours of college credit
2. Maintain a college GPA of 3.0 on a 4.0 scale during the first three semesters of courses
3. Achieve a grade of C or better in all science courses, Nutrition 376, English 101, English 201, CMST 101/107, Psychology 201, and Sociology 121 (or other C2 course)

All students selected for admission to the nursing program must meet clinical agency requirements, present evidence of satisfactory health status, drug screening, and a criminal check. Students must be eligible for RN licensure and be capable of fulfilling clinical practice requirements. Note that a felony conviction may negatively impact a graduate’s eligibility to sit for the registered nurse licensure exam (NCLEX) and to attain state practice credentials.

Year Three
(32 hours)
Students will complete a total of 32 nursing credit hours in year three with 16 credit hours of nursing courses in each semester. All nursing courses in year three include both classroom and clinical learning experiences. A listing of year three nursing courses is posted on the nursing Web page.

Year Four
(29 hours)
Students will complete a total of 29 credit hours in year four. Nursing courses include both classroom and clinical learning experiences. A clinical practicum will be included in the students’ last semester of study. A listing of year four nursing courses is posted on the nursing Web page.

A total of 128 credit hours are required to receive the Bachelor of Science in Nursing degree.

Second Degree Accelerated BSN Program
The second degree accelerated baccalaureate nursing program is designed for those individuals who have previously earned a bachelor’s degree in a field other than nursing. With full-time study, students can complete the program within 16 months. The program requires completion of the following prerequisite courses prior to admission: anatomy and physiology I and II, microbiology, chemistry, nutrition, and statistics.

Admission Requirements
Admission to the second degree accelerated BSN program is based upon academic qualifications and the student’s ability to perform clinical assignments. The requirements for admission to the accelerated BSN program are:

1. Completion of a bachelor’s degree, with a minimum GPA of 3.0 on a 4.0 scale. Applicants with a master’s degree will be evaluated based upon academic achievement in both the bachelor’s and master’s programs.
2. Completion of the following courses: Biology 121, Biology 122, Biology 272, Chemistry 141, Nutrition 376, and HP 402. Equivalent courses from other schools may be transferred to meet the prerequisites requirements. A GPA of 2.7 or higher on the prerequisites is required and a minimum grade of C in each of the courses.
3. Completion of an interview conducted by members of the nursing faculty.
4. Completion of a writing assignment.

Second Degree Accelerated Baccalaureate Nursing Program Curriculum
The sequencing of nursing courses, course descriptions, and credit hours may be found on the Web at health.usi.edu.

RN-BSN Program of Study
A baccalaureate completion program is available for registered nurses who have graduated from another associate degree or diploma school of nursing. No entrance exam is required. Students may transfer up to 36 nursing credit hours. A limit of 64 credit hours may be transferred from a community college.

Registered nurses with an associate degree or diploma may apply for admission to the program and earn a baccalaureate in nursing by completing the required University Core Curriculum and nursing courses. The nursing courses required for the RN-BSN completion option may be completed through a combination of learning enhancement technologies including Internet delivery. Clinical requirements may be met in the student’s community through individualized scheduling. The flexibility of the RN-BSN option gives nurses the opportunity to complete the course requirements in their own community and on their own schedule.
The curriculum is built upon a foundation of biological, physical, and social sciences with acknowledgement and recognition of previously learned knowledge and clinical experiences. No further testing of prior nursing knowledge is required if a nurse holds a valid RN license and is in good standing in their current state of employment. Additional information about the RN-BSN program is available at health.usi.edu.

Admission Requirements
The requirements for admission to the RN-BSN Program include:
1. Completion of an associate degree or diploma from an accredited program in nursing.
2. Unencumbered RN license.
3. Completion of the University and Undergraduate Nursing admission application process.
4. Cumulative grade points average of 2.7 on a 4.0 scale.
5. International students must have a score of 550 on the written TOEFL test, a 213 on the computerized TOEFL test, or a score of 6 or higher on the IELTS.

RN to MSN Program of Study
The RN-MSN program is designed for associate degree or diploma-prepared registered nurses interested in graduate nursing education and preparation for an advanced nursing practice role. The program builds on the student’s prior learning and requires three years of practice experience. Students in consultation with a faculty advisor develop a plan of study that is based on prior learning and the student’s selected graduate study major.

The program of study includes the completion of required undergraduate courses, including all non-nursing courses, an advanced practice nursing role transition course, and selected fourth-year clinical nursing courses. Students, after successful completion of the required undergraduate courses, are provisionally admitted to the graduate nursing program. After successful completion of 12 hours of graduate course credits, credit for the validated undergraduate courses is posted and students are awarded a Bachelor of Science in Nursing degree. Students at this point in their program of study are granted full admission into the graduate program. After successful completion of the remaining required graduate nursing courses, students are awarded an M.S.N. degree. Additional information about the RN-MSN program is available at health.usi.edu.

Admission Requirement
The requirements for admission include:
1. Completion of an associate degree or diploma from an accredited program in nursing.
2. Three years of current practice experience as a registered nurse.
3. Unencumbered RN license.
4. Completion of the University and Graduate Nursing admission application process.
5. Cumulative grade point average of 3.0 on a 4.0 scale in previous academic work.
6. International students must have a score of 550 on the written TOEFL test, a 213 on the computerized TOEFL test, or a score of 6 or higher on the IELTS.

Course Descriptions
A complete listing of nursing course descriptions is available on the Web at health.usi.edu In addition to the required courses, the following elective nursing courses are available.

470 Special Topics in Nursing (1-3) This course provides the opportunity for analysis and synthesis of concepts and research related to special topics in nursing and health care.

472 Home Health Nursing (3) This course focuses on the review of concepts pertinent to general nursing practice within the home environment. It is designed to assist the home health nurse and student nurses to care for clients using a multidisciplinary approach. A theoretical framework relevant to home care will be addressed. Prereq: consent of instructor.

474 Perioperative Nursing (3) This course explores the role of the perioperative nurse focusing on intraoperative nursing care with incorporation of preoperative and postanesthesia care. Theoretical concepts are presented with opportunities for acquiring skills and knowledge of the holistic perioperative nursing provided through classroom lecture, case study discussions, practice skill’s lab, clinical activities, with preceptor/mentor relationships, and independent studies. The clinical focus will be individualized to meet the student’s desired outcome goals. Prereq: consent of instructor.

476 Cardiovascular Surgical Nursing (3) This course is designed to provide the professional critical care nurse with advanced knowledge and research concerning the care of patients undergoing cardiac surgery. The content of the course focuses on state of the art management of cardiac surgery patients. This course also focuses on critical thinking skills through the use of case studies which require direct application of content. The collaborative role of the nurse while participating in the care of the critically ill cardiac surgery patient is emphasized. Teaching methods include lecture, case studies, clinical activities, written assignments, and independent learning activities. Prereq: consent of instructor.

478 Rehabilitation Nursing (3) This course examines the scope of professional nursing practice in the specialty of rehabilitation nursing. Emphasis will be placed on the diagnosis and treatment of individual and group responses to actual or potential health problems as a result of altered functional ability and altered lifestyle.

482 Oncology Nursing (3) This course is designed to provide the student with the opportunity to obtain advanced knowledge of adult oncology nursing. The dimensions of prevention and early detection, diagnosis, treatment, palliation, rehabilitation, and survivorship are studied with diagnostic evaluation, classification, staging, and various treatment modalities for a selected range of malignancies.
484 Health Care Outcomes: Integrating Nursing Case Management and Disease Management (3) This course investigates the concepts of case management focusing on the policy, economic, and care factors that influence positive outcomes for individuals or groups of individuals. Emphasis will be placed on the integration of nursing with case management and disease management concepts.

Dental Assisting
This program offers specialized instruction in dental assisting. The educated dental assistant, working as a valued member of the dental health team, assists the dentist in performing professional duties in the operatory, laboratory, and business office. The student becomes competent in chairside assisting, laboratory procedures, x-ray techniques, and in the duties and responsibilities of the business assistant.

The program requires 11 hours of prerequisites prior to the one academic year (two semesters) of the program. It includes approximately 1,100 hours of lecture, laboratory, and clinical instruction. An optional second year is available which leads to an associate of science with a major in dental assisting. Students who are enrolled must achieve at least a grade of C or better in all courses which directly pertain to their major (prefix DTAS or DTHY). An overall grade point average of 2.0 or better is required for graduation from the program.

Upon successful completion of the program, the student receives a Certificate in Dental Assisting which qualifies the student to sit for the Dental Assisting National Board Certification Examination. The dental assisting program is accredited by the Commission on Dental Accreditation of the American Dental Association, a specialized accrediting body recognized by the Council on Postsecondary Accreditation and by the United States Department of Education. The address of the Commission on Dental Accreditation of the American Dental Association is 211 East Chicago Avenue, Chicago, IL 60611-2678, phone 800/621-8099.

Admission Requirements for Dental Assisting
Students seeking admission to the program must apply for admission to the University before making separate application to the dental assisting program. Students who have a high school diploma or its equivalent, or who are students at any accredited college or university, are eligible to apply for admission. Transfer students will be considered on the basis of review of the individual’s record and transcripts. Students meeting academic requirements also must be in good health, eligible for dental assisting certification, and capable of performing clinical practice requirements.

Admission criteria include:
1. Graduation from an accredited high school college preparatory curriculum with a grade point average of 2.0 or above (4.0 system) or a GED.
2. High school courses that include English, mathematics, science, social studies or foreign language, and keyboarding. Chemistry and biology are strongly recommended.
3. Submission of SAT or ACT scores.
4. Completed dental assisting application accompanied by an official high school transcript and official college/university transcript if applicable.

Students who do not meet these criteria may ask for admission eligibility re-evaluation following successful completion of science and other specified courses required for the Dental Assisting Program. Students currently enrolled in an accredited college or university must submit an official transcript of grades with their application.

Application forms for the dental assisting program may be obtained from the College of Nursing and Health Professions or via the Internet by going to the dental assisting homepage under admission information, health.usi.edu/acadprog/dentasst/dentasst.htm. The completed form must be submitted to the dental assisting program by March 1 of the year the student wishes to enter. However, due to the limited enrollment in this program, applicants are encouraged to apply as soon as possible. A complete set of official high school transcripts and college/university transcripts, if applicable, must be submitted to the Office of Admission as part of the admissions procedure, and a separate official set of transcripts must be submitted with the dental assisting application.

Applicants are required to visit a dental office which employs a dental assistant and observe the functions and responsibilities of a practicing dental assistant. A statement verifying this observation, signed by the dental assistant or dentist, is to be submitted along with other supporting documents by the deadline date.

Equivalency Program
Currently employed non-certified dental assistants who wish to work for certification should contact the director of the dental assisting program. A limited number of special students can be accepted into the program and attend on a part-time basis. Many of the courses required may be completed by taking a comprehensive oral, written, and practical examination on a credit-by-examination basis. Applicants must have a minimum of two years full-time practical experience and must complete the program within five years of starting.
Dental Assisting Curriculum

Prerequisite Courses

ENG 101 Rhetoric & Composition I 3
PSY 201 Intro to Psychology 3
CMST 101 Intro to Public Speaking 3
HP 115 Medical Terminology 2

Course Descriptions

Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

DTAS courses have the following prereq: Admission to the Dental Assisting Program or approval by program director of Dental Assisting.

111 Oral Pathology (1) This course focuses on the general pathological conditions of the oral cavity with implications for the dental assistant. Sp

122 Clinical Science I (5) This course introduces the student to chairside dental assisting procedures with an emphasis on instrument identification and care, tray set-ups, transfer of instruments, and the role of

Dental Hygiene

Dental hygiene involves the use of a process of care to assess oral health status, develop a dental hygiene diagnosis, and plan and implement preventive and therapeutic services to achieve optimum oral health. This process of care is utilized to support the oral health status of individuals in a variety of clinical settings, and groups in community education and healthcare settings.

Career opportunities for licensed dental hygienists are available in dental clinics and practices, administrative and managerial health care, education, and research. The dental hygiene program at the University of Southern Indiana provides a curriculum which includes didactic courses, laboratory and clinical experiences, and community oral health education experiences. This diversity prepares graduates to deliver oral health care services and education in a variety of practice settings.

The dental hygiene program at USI consists of one year of prerequisite courses and two academic years of professional education courses. Completion of these three years
results in an associate of science degree. A fourth academic year is offered which leads to a Bachelor of Science degree with a major in dental hygiene education. Students who are enrolled are required to earn a grade of C or better in all courses to be applied to the dental hygiene degree. An overall grade point average of 2.5 is required for graduation from the program.

Prerequisite courses may be taken at any accredited college or university. Courses completed at another university must be comparable to those offered by USI and must transfer for credit. Prerequisite science courses, (chemistry, and anatomy and physiology I and II), must be completed within five years of entering the dental hygiene program. Dental hygiene, health professions, and nutrition courses completed prior to entering the program must be completed within three years of entering the program. Students seeking admission to the dental hygiene program must make formal application to the program. Admission to the University and completion of the prerequisite courses does not guarantee admission to the dental hygiene program.

Applicants who have graduated from the University's dental assisting program with a grade point average of 3.1 or higher in their major will receive additional credit on their dental hygiene admission score. Dental hygiene courses taken while enrolled in the University of Southern Indiana dental assisting program must be completed within three years of entering the dental hygiene program. The dental hygiene program at the University of Southern Indiana is accredited by the Commission on Dental Accreditation of the American Dental Association, a specialized accrediting body recognized by the Council on Postsecondary Accreditation and by the United States Department of Education. The address of the Commission on Dental Accreditation is American Dental Association, 211 East Chicago Ave, Chicago, IL 60611-2678, phone 800/621-8099.

Admission Requirements
Admission requirements include the following:
1. Graduation from an accredited high school college preparatory curriculum or its equivalent
2. Acceptance to the University of Southern Indiana
3. Completion of the required prerequisite college courses with a minimum grade point average of 2.5 (4.0 scale)
4. Submission of a dental hygiene application accompanied by an official high school transcript and official university transcript(s)
5. Submission of SAT or ACT scores
6. Submission of medical and immunization records
7. CPR certification for healthcare providers
8. Completion of a criminal background check
9. Completion of drug testing

Prospective students must be accepted for admission to USI before being considered for admission to the dental hygiene program. Enrollment in the dental hygiene program is limited and based on academic qualifications. Applicants meeting academic requirements must also be in good health, be eligible for dental hygiene licensure, and capable of fulfilling clinical practice requirements.

Prerequisite courses cannot be taken on pass/fail option. All required courses must be completed by August of the year in which the student plans to enter the dental hygiene program.

Application materials for the dental hygiene program are available in the College of Nursing and Health Professions. The completed application must be submitted to the dental hygiene program by February 1 of the year the student desires admission to the program. Applications received after February 1 will be considered on a space available basis. Official high school and university transcripts must be submitted to the Admission Office and to the dental hygiene program as part of the admissions procedure.

Prerequisite Courses
Chemistry with Laboratory 4
Anatomy and Physiology I 3
Anatomy and Physiology II 3
Medical Terminology 2
Rhetoric and Composition I 3
Introduction to Speech 3
Principles of Sociology 3
Introduction to Psychology 3
Arts and Humanities 6

Baccalaureate Degree
The baccalaureate degree in dental hygiene education prepares dental hygiene clinicians to assume expanded roles in the areas of advanced non-surgical periodontal therapy, higher education, research, and health care management/administration.

A baccalaureate degree in dental hygiene education is available to USI dental hygiene program graduates by enrolling and completing a fourth year. An applicant for this degree who is a non-USI dental hygiene program graduate will be considered on the basis of a review of the individual’s records and transcripts. All applicants must hold a current license to practice dental hygiene from any U.S. state, be certified in CPR for healthcare providers, and submit medical and immunization records.
Sample Dental Hygiene Curriculum

First Year

*Italicized courses are required for the baccalaureate degree. They are not required for the associate degree.

Course Descriptions

Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

203 Dental Radiology (3) This course includes principles of exposing, processing, mounting, evaluating, and interpreting dental radiographs. Biological effects of radiation and protective principles are emphasized. two hours lecture, two hours laboratory. F

208 Dental Materials (3) This course focuses on the study of basic dental materials and their uses. Includes laboratory exercises, identification, manipulation, and use of common materials. two hours lecture, two hours laboratory. F

212 Head and Neck Anatomy (2) This course focuses on head and neck anatomy and physiology to supplement knowledge in general human anatomy. F

214 Oral Embryology and Anatomy (3) This course focuses on the histologic and gross anatomical form of the oral-facial region of the head, including the relationship between the form and function of these structures. F

245 Dental Hygiene Theory and Services I (7) This course introduces the theory of the dental hygiene process of care. Emphasis is on providing the student with an ethical and scientific foundation to use in applying appropriate infection control procedures, introductory client assessment procedures, and basic instrumentation skills. The student will apply these skills in a laboratory setting. Three hours lecture, eight hours laboratory. F

255 Dental Hygiene Theory and Services II (7) This course introduces concepts of supportive dental hygiene therapy including subgingival irrigation, pit and fissure sealants, amalgam finishing and polishing, and pain management. Subgingival debridement through the use of sonic and ultrasonic instrumentation is introduced. Discussion of current clinical issues is included. The clinical component of the course introduces the student to the use of the dental hygiene process of care in implementing individualized care plans for clients with a variety of periodontal and dental conditions. Care plans are developed in collaboration with the student's advising faculty. The use of supportive dental hygiene treatment in providing comprehensive care is introduced. Three hours lecture, 12 hours clinical. Sp

304 Oral Pathology (2) This course covers the general pathological conditions of the head and neck with pertinent implications for the practicing dental hygienist. F

311 Oral Health Education (3) This course concentrates on teaching methodology and techniques for individual and group oral health education. Behavior modification techniques, case studies, and the prepa-
ration and presentation of an educational program are utilized. The course prepares the student to provide individualized oral health instruction utilizing effective teaching techniques and to participate in educational fieldwork in the community. F

312 Community Oral Health (3) This course is designed to provide field experiences for the dental hygiene student in a variety of community facilities. Directed field experiences occur in public and parochial school systems, nursing homes, and a mental health hospital. In addition, the student selects a faculty of choice and assesses, plans, implements, and evaluates an oral health program for the selected population. This course stresses the appreciation and understanding of community oral health and prepares the dental hygiene graduate to assume an active role in developing and implementing community oral health programs. One hour lecture, four hours field experience. Sp

317 Preventive Dentistry (2) This course emphasizes the prevention of dental and periodontal diseases through mechanical plaque control, fluoride therapy, pit and fissure sealants, dietary control, and principles of client education. The effects of tobacco use on oral and general health is included. Tobacco use cessation strategies and their use in oral health education are presented. Sp

321 Periodontics (2) This course reviews the structures of the periodontium and presents the etiology, epidemiology, diagnosis, and surgical and non-surgical treatment procedures of periodontal diseases. F

325 Practice Management and Ethics (3) This course emphasizes on the preparation of the dental professional to assume a responsible role in the private practice environment. Ethics, jurisprudence, office procedures, employment information, and dental office observations are included. Sp

345 Dental Hygiene Theory and Services III (7) This course addresses advanced instrumentation procedures, focusing on the use of adjunctive instruments for root planning and instrumentation procedures used in the non-surgical treatment of moderate to severe periodontal disease. Information is provided regarding the care and clinical management of clients with special needs. Discussion of current clinic issues is included. The clinical component of the course provides the student with increased opportunities to use the dental hygiene process of care in implementing individualized care plans for clients with a variety of periodontal and dental conditions. Increased emphasis is placed on student-directed judgment and decision making in developing and implementing treatment strategies for clients with moderate to severe periodontal disease. The student will initiate treatment of a periodontal case client. Three hours lecture, 12 hours clinical. F

355 Dental Hygiene Theory and Services IV (8) This course presents information on current developments in dental hygiene and dentistry. Also covered will be a review of the Indiana dental law and preparation for the National Board Dental Hygiene Examination, and state/regional examinations. The student will orally present the periodontal case client experience. Discussion of current clinic issues is included. The clinical component of the course emphasizes increased independence of the student in developing and implementing treatment strategies. Increased emphasis is placed on treatment and maintenance of clients who exhibit moderate to severe periodontal disease. The student will complete the implementation of the care plan and evaluation of the periodontal case client. Three hours lecture, 16 hours clinical. Sp

401 Clinical Management I (3) This course provides the student with periodontal client management experiences, focusing on assessment, care planning, implementation of treatment strategies, maintenance, and evaluation. Treatment experiences are integrated into clinic management activities and oral presentations. Evaluation of client treatment by associate degree students enrolled in the dental hygiene program is incorporated. F

402 Clinical Management II (3) This course will utilize a collaborative approach to client treatment management. The baccalaureate degree student will evaluate periodontal treatment strategies developed and implemented by associate degree students. The student will develop both clinical and classroom instructive skills through individually designed education experiences. Sp

Bachelor of Science in Health Services
Bachelor of Science in Health Services graduates are prepared for entry into or advancement in the healthcare field. This degree program is designed to provide educational opportunities for students interested in gaining a knowledge base for positions in healthcare not requiring specialized clinical preparation, or for individuals who have completed a health professions clinical program and wish to increase their knowledge and skills to effectively respond to the rapidly changing needs of the American healthcare delivery system.

The vast system that provides our nation’s healthcare is undergoing revolutionary changes. This degree program strives to provide healthcare providers, insurers, and suppliers with a pool of graduates capable of adapting to and capitalizing on such changes in the methods of care delivery, financing, and information technology in the management of healthcare data. Throughout the curriculum, students are provided with opportunities to develop effective decision-making skills, and to become familiar with a systems approach to healthcare delivery.

The need to remain flexible and responsive to changes resulting from such forces as the growing number of elderly, infectious and chronic diseases, and a market-driven healthcare system financed primarily by managed care arrangements is emphasized. The medical, social, and political impact of these changes is addressed, and major trends in healthcare utilization data are reviewed. Students are encouraged to develop an appreciation for diversity not only in the human element of healthcare, but also in the business arrangements being tested to respond to healthcare reform. Completion of the requirements results in the awarding of the Bachelor of Science in Health Services degree.

Admission Requirements
All applicants must first seek admission to the University by completing an application, having official transcripts of high school and other universities and colleges sent to the University of Southern Indiana and completing all other University admission requirements. Applicants with at least a 2.0 grade point average may make applica-
tion to the Bachelor of Science in Health Services program by completing an admission packet available from the Health Services program director's office.

Health Services Degree Requirements
A candidate for the Bachelor of Science in Health Services degree must meet the general requirements for graduation as outlined in this bulletin and successfully complete the health professions courses required for the major area of study.

Summary of Health Services degree program requirements:
1. Completion of the University Core Curriculum requirements as outlined in this bulletin: a minimum of 50 credit hours.
2. Required courses for Health Services major: 47 credit hours. Health Services majors must achieve a grade of C or better in all Group I Required Courses in order to progress in their program major.
3. A minimum of 124 credit hours.
4. A minimum of 30 credit hours must be taken from the University of Southern Indiana, including the last five hours taken before graduation.
5. A minimum of 42 hours of 300/400 level credit hours.
6. Obtain an average of 2.0 grade point average or better on all work taken at the University of Southern Indiana.

Health Services Major
The 47 credit-hour Health Services major is comprised of 29 hours from Group I and 18 hours from Group II.

Group I Required Courses, 29 credit hours:

Group II Elective Courses, 18 credit hours:
HP 305-Health Promotion and Worksite Wellness I; HP 306-Health Promotion and Worksite Wellness II; HP 314-Audiology and Hearing Impairment; GERO 316-Age Related Body Changes-Illness and Disease; GERO 317-The Long Term Care Continuum; GERO 318-Healthy Aging; GERO 319-Assessment and Management of Alzheimer's Disease; HP 325-Pharmacology; HP 335-Mechanisms of Pathophysiology; HP 355-Human Sexuality; HP 384-Public Health; HP 385-Disease Control; NUTR 376-Principles and Applications in Nutrition; NUTR 378-Nutrition for Fitness and Sports; NUTR 396-Nutrition Throughout the Lifecycle; HP 402-Health Care Research and Statistics; HP 405-Technological Applications; HP 407-Health Promotion and Worksite Wellness Practicum; HP 408-HIV/AIDS: Biological, Medical, Psychosocial, and Legal Perspectives; NUTR 415-Dietary Supplements and Herb Use in Nutrition; GERO 423-Clinical Problems of Older Adults; GERO 425-Health Facilities Administration; HP 431-Health Information and Quality Improvement Management; HP 435-Eastern Medicine; HP 456-Ethics and Health Care in a Pluralistic Society; NUTR 465-Community Nutrition; HP 478-School and Community Health Education Methods; HP 480-Internship in Health Services; HP 484-Environmental Health; HP 485-Epidemiology; HP 486-Public Health Administration; HP 490-Special Topics; HP 492-Transcultural Health Care in the Global Community; HP 497-Ethical and Legal Issues in the Management of Health Services; PHIL 363-Biomedical Ethics; PSY 322-Abnormal Psychology; SOC 341-Sociology of Medicine; SOC 343-Death and Dying.

Many of the courses required for the Bachelor of Science in Health Services degree are available online, and are available to distance education students.

Students who have earned a certificate or degree in a healthcare program of study may request that previously earned credit courses be evaluated for credits to meet the course requirements for Group II courses. Credit for additional courses from Group I may be approved by the program director or the dean upon application accompanied by supporting documents.

Students who have attended health professions education programs which did not provide college credit may be granted professional training and clinical experience credit toward the bachelor's degree on the basis of the completion of a health professions program and work experience. Each candidate will be counseled and evaluated individually for the conferring of credit hours. Factors which will be considered are completed course work and work experience.

Guidelines for conferring credit:
1. Completion of one-year program 15 hours
2. Completion of two or more years program 30 hours
3. Verified work experience one year or more 3 hours
4. Verified work experience two years or more 6 hours
Verified work experience is based upon 2,080 hours per year. A maximum of six credit hours will be granted for work experience.

Electives: Students majoring in Health Services are encouraged to enroll in ACCT 201 and 202, BIOL 121 and 122, CIS 151, CIS 261, CHEM 107, ECON 175, PSY 201, and SOC 121.

### Minor – Health Services

#### 26 Credit Hours

The minor in Health Services will enable students who have majors outside of the healthcare field to gain knowledge of the rapidly changing healthcare delivery system. The health services minor will broaden the student’s knowledge of healthcare and their opportunities for employment in a healthcare setting or related area.

#### Group I Required Courses: 23 Credit Hours

HP 115-Medical Terminology; HP 211-The Health Care Delivery System; GER 315-Health Care Aspects of Gerontology; HP 325-Pharmacology and Therapeutics; HP 365-Alcohol and Drug Abuse, A Health Perspective; HP 411-Health Care Systems Management; HP 421-Financial Management in Healthcare; and HP 497-Ethical and Legal Issues in the Management of Health Services

#### Group II Elective Courses: 3 Credit Hours

Select one course from the following courses: GER 316, GER 317, GER 318, GER 319, HP 305, HP 335, HP 355, NUTR 376, NUTR 378, HP 384, HP 385, NUTR 396, HP 402, HP 405, HP 408, NUTR 415, GERO 423, GERO 425, HP 431, HP 435, HP 456, HP 478, HP 484, HP 485, HP 486, HP 496, HP 498, PHIL 363, PSY 322, SOC 341, or SOC 343

### Minor – Gerontology

#### 21 Credit Hours

The minor in Gerontology will enable students to gain information and knowledge about issues related to older adults and their care. The aging population is projected to increase significantly and will impact all aspects of society, especially the healthcare system.

#### Group I Required Courses: 23 Credit Hours

HP 115-Medical Terminology; HP 211-The Health Care Delivery System; GER 315-Health Care Aspects of Gerontology; HP 325-Pharmacology and Therapeutics; HP 365-Alcohol and Drug Abuse, A Health Perspective; HP 411-Health Care Systems Management; HP 421-Financial Management in Healthcare; and HP 497-Ethical and Legal Issues in the Management of Health Services
Courses for the minor include: HP 211-The Health Care Delivery System; GERO 315-Gerontology; GERO 316-Age Related Body Changes-Illness and Disease; GERO 317-The Long Term Care Continuum; GERO 318-Healthy Aging; GERO 423-Clinical Problems of Older Adults; and GERO 425-Health Facilities Administration

Minor – Health Promotion and Worksite Wellness
21 Credit Hours
The minor in Health Promotion and Worksite Wellness is designed to prepare students in health-related majors to teach health promotion and implement wellness programs in business and industrial settings.

Courses for the minor include: HP 305-Structure and Theory: Worksite Wellness/Health Promotion; HP 306-Evaluation and Application: Worksite Wellness and Health Promotion; HP 402-Health Research and Statistics; HP 407-Health Promotion and Worksite Wellness Practicum; HP 478-School and Community Health Education Methods; HP 484 Environmental Health, AND nine credit hours from the following courses: GERO 318-Healthy Aging; HP 355-Human Sexuality; HP 365-Alcohol and Drug Abuse; HP 435-Eastern Medicine and Alternative Complimentary Healthcare; NUTR 376-Principles and Applications in Nutrition; CMST 410-Health Communication

Minor – Public Health
21 Credit Hours
Public health is concerned with disease prevention and community health promotion. Special attention is directed toward environment issues, epidemiology, and disease control.

Courses for the minor include: HP 211-The Health Care Delivery System; HP 384-Public Health; HP 385-Disease Control; HP 402-Health Care Research and Statistics; HP 484-Environmental Health; HP 485 Epidemiology; HP 486-Public Health Administration.

Course Descriptions
Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

Gerontology (GERO)

315 Health Care Aspects of Gerontology (3) This course focuses on aging and health. Major health problems are identified and treatment strategies are studied. The dimensions of aging are explored. Healthcare issues pertinent to the older adult are discussed. F, Sp, Su

316 Age Related Body Changes: Illness and Disease (3) This course focuses on aging and health. Major health problems are identified and treatment strategies are studied. Prereq: Biol 121, or consent of the instructor. Sp

317 The Long Term Care Continuum (3) This course examines the conceptual framework for creating an ideal integrated continuum of care, as well as information about the components for the continuum as they exist today. Students will examine the various residential options for seniors and will analyze issues of cost, access, and quality for each. Prereq: HP 315 or consent of the instructor. F

318 Healthy Aging (3) This course emphasizes the relationship between aging and healthy lifestyle. Theories of aging and development will be reviewed. The student will learn about the role of nutrition and exercise in the older population. This knowledge will be applied by assessing an older adult's nutritional status and exercise behavior for the purpose of developing an individualized strategy for change. Sp

319 Assessment and Management of Alzheimer's Disease (3) This course focuses on assessment and management of Alzheimer's disease from diagnosis until death. Assessment and strategies identify stage of progression and are the basis for planning effective management. Management is by stage, using retrogenesis theory, and includes interventions related to environment, behavior, interaction, and medication. The course is appropriate for both formal and informal care givers.

423 Clinical Problems of Older Adults (3) This course focuses on major clinical problems of older adults in society. Emphasis is on prevention, early recognition, and management of problems. Environmental, behavioral, physical, and educational approaches are included. F

425 Health Facilities Administration (3) This course focuses on the purpose, organization and management of long-term care facilities and related organizations. The importance of long-term care facilities in the continuum of care for the elderly or developmentally disabled is examined. The typical structure, by functional area, of such a facility is presented, and federal and state regulations by area are reviewed. Contemporary issues and current legislation/regulations impacting the long-term care industry are analyzed. This course assists the student to prepare for successful completion of the federal and state examination leading to licensure as a health facilities administrator. Sp

Health Professions (HP)

115 Medical Terminology For The Health Professions (2) This course focuses on the study of the prefixes, suffixes, and root words commonly found in the field of medicine and health care. F, Sp, Su

211 The Health Care Delivery System (3) This course provides an overview of the health care delivery system from a historical, economical, legal/ethical, and political framework. F, Sp, Su

305 Structure and Theory: Worksite Wellness and Health Promotion (3) This course provides the student with knowledge about health and wellness concepts and strategies to implement them in the workplace. Theoretical models will be the basis used to explore why individuals choose healthy or unhealthy behaviors and what motivates them to change their choices. Effective assessment techniques for the individual and organization will be presented. Utilization of the assessment data to develop an effective health promotion plan will be studied. F

306 Evaluation and Application: Worksite Wellness and Health Promotion (3) This course provides the student with knowledge on the development of a health promotion plan for the worksite. Designing
interventions to meet the needs of the workforce and the organization will be explored extensively. Examination of the evaluation process including methods, data gathering, data analysis, and outcome analysis. Prereq: HP 305. Sp

314 Audiology and Hearing Impairment (3) This course covers topics in basic audiology and hearing impairment. Information covered will be informative for professionals who come in contact with hearing-impaired individuals. Approximately 5 of every 1000 babies are born with significant hearing loss. Hearing loss frequently accompanies other disabilities and is a normal development with the process of aging. Topics to be studied include: types and causes of hearing loss, social and emotional factors related to hearing loss, helpful communication strategies to use with hearing impaired persons, different types of amplification and management of such, and other equipment and services available for those who are hearing impaired. F

325 Pharmacology And Therapeutics (3) This course provides an introduction to modern therapeutic drugs. Dosage forms, sources, prescriptions, and metabolism are covered first, then students study human physiological systems and the most important drugs used to affect these systems. Emergency and new drugs are included. Open to all health professions and biology students. Prereq: Biol 121 or consent of the instructor. F, Sp

335 Mechanisms Of Pathophysiology (3) This course utilizes a systems approach to understand underlying mechanisms of the disease process and how these mechanisms relate to and cause overt signs and symptoms. The content emphasizes normal homeostasis controlling mechanisms and how pathophysiological mechanisms disturb homeostasis and cause dysfunction. Prereq: Biol 121 and Chem 107 or consent of the instructor. F, Sp

355 Human Sexuality: A Health Perspective (3) This course focuses on interdisciplinary approach to the study of individual and societal determinants in the expression of human sexuality in relationship to health. Changing social values, sexual behaviors, contraception, sexually-contracted diseases, and problems in sexual development in relationship to health are explored. F, Sp

365 Alcohol And Drug Abuse: A Health Perspective (3) This course focuses on an interdisciplinary approach to the study of alcohol and drug abuse from a health perspective. Etiological theories and the physiological and social consequences of alcoholism and drug abuse are studied. Current approaches to prevention, identification, and treatment of alcoholism and drug abuse are analyzed. F, Sp

384 Public Health (3) This course introduces the services and measures that are used to safeguard public health. Content included in the course is: history, development and organization of Public Health; an introduction to the scientific concepts and analytical tools used in Public Health; and overviews of the major areas of Public Health intervention. F

385 Disease Control (3) This course provides systematic coverage of the determinants of disease and control methods by major disease groupings, such as respiratory diseases, and animal-associated diseases. Sp

402 Health Care Research & Statistics (3) The course provides students an introduction to research methodology, statistics and critique used in nursing and health professions. Topics will include basic research designs for qualitative and quantitative research. Organization and presentation of data, measures of central tendency and variability, hypothesis testing, correlation, regression, and sampling techniques will be studied. Students will use computer assisted instruction and application software in assignments using health care and epidemiologic data. Emphasis will be placed upon the interpretation and use of research findings in the nursing and health professions research literature. F, Sp

405 Technology Applications In Health Care (3) This course provides an overview of past, current, and future use of technology in healthcare and its impact. The use of computers and related technology in diagnosis, treatment, evaluation, documentation, and reimbursement will be studied. Students will have an opportunity to review use of technology specific to their practice area. Prereq: CIS 151 recommended. Sp

407 Health Promotion and Worksite Wellness Practicum (3) This practicum provides the student with practical experience in needs assessment, individual and organizational assessment, program planning, implementation, evaluation, and problem solving of health promotion programs. The student will complete a program negotiated with the instructor and gain additional experience under the supervision of an experienced health promotion professional. Prereq: HP 305 and HP 306 or permission of instructor. Su

408/508 HIV/AIDS: Biological, Medical, Psychosocial, and Legal Perspectives (3) This course provides a physiological and psychosocial base for health professionals and concerned others to provide care and support to children and adults with HIV disease. Theories and concepts relevant to the disease process and care giving will be examined. Societal issues related to HIV disease will be studied. Sp

411 Health Care Systems Management (3) This course includes an overview of management, administration, decision-making, and organization in health care institutions. Emphasis is placed upon managerial style and application of functions of management to situations in the healthcare environment. F, Sp

421 Financial Management In Healthcare (3) This course provides an overview of financial systems. Selected healthcare financial management concepts including payment incentives, integrated systems, cost management, pricing and marketing, productivity monitoring, insurance coding, and quality improvement will be studied as they relate to various types of healthcare organizations. Selected computer applications to demonstrate budgeting, forecasting, data base integration and variance analysis will be used. Prereq: Acc 201 recommended. F, Sp

431 Health Information and Quality Improvement Management (3) This course provides an overview of health information management. The student will be assisted to learn that the delivery of healthcare services is a complex endeavor that depends extensively on information. Information is needed regarding the patient, the provider, the processes, and outcomes in the delivery of care. Because health services are provided by many individuals, disciplines, and specialists, the information related to these services must be integrated, coordinated, and managed. Key systems for the management of such information will be studied. Sp

435/535 Eastern Medicine and Alternative/Complimentary Health Care (3) This is a course designed to study Eastern Medicine and its influence on complementary healthcare therapies. Emphasis is on historical, cultural, social, research and consumer interest influences on the evolving model of east-west healing and healthcare. Specific modalities will be studied with emphasis on utilization for self-care and their use in healthcare. Implications for changes in healthcare environments and healthcare provider roles will also be analyzed. F, Sp

456 Ethics and Health Care in a Pluralistic Society (3) The course will provide students with an ethical framework for decision-making in the context of a pluralistic society. Models and principles of ethical justification among a diversity of cultures and belief systems will be analyzed. Specific applications are made to concerns in clinical and healthcare management. Topics include the right to healthcare, community health ethics, end-of-life issues, and organizational ethics. Prereq: Junior standing or consent of instructor. F, Sp
478 School And Community Health Education Methods (3) This course focuses on education principles and procedures for health professions and community health teaching. Lesson plan formulation, course organization, teaching strategies, and test construction are studied. F, Sp.

480 Internship in Health Services (1, 2, or 3) This course provides an internship for junior or senior student Health Services majors who meet the eligibility criteria. An opportunity to gain valuable insight and understanding of current topics in the healthcare environment while they assist the healthcare business reach its organizational goals will be provided. Interns will function as a valuable, but student member of a healthcare-related management team. The experience will lead the student to a deeper appreciation of the nature of the healthcare field. Both leadership and team work opportunities will be sought, and the student intern will have a chance to think on their feet while participating in practical workplace situations. The University will work closely with the participating healthcare organization to customize an experience for the intern that meets the needs of the healthcare organization without compromising academic goals or the student's academic progress. Prereq: consent of program director required. Repeatable to a maximum of six credit hours. F, Sp, Su.

484/584 Environmental Health (3) This course introduces various environmental risks to health status, and the role of public health controls in safeguarding at risk populations. These areas include: food production, water purity, wastewater and solid waste handling, arthropod and pest control, air quality, and occupational and industrial hazards to health. F.

485/585 Epidemiology (3) This course introduces the principles and methods of epidemiology used to study health-related issues in populations. Covers models of disease causation and the association of health risk factors. Includes: common epidemiological measures, epidemiologic study designs, disease surveillance, and outbreak investigation. Applies epidemiological principles and methods to health service organizations and clinical settings by developing critical literature review and study design skills. Prereq: HP 40, or PSY 302, or consent of instructor. Sp.

486 Public Health Administration (3) This course describes the setting for public health practice; the structure of public health policies and regulations; and the organizations responsible for public health services. Public health funding and the administration of public health services at the local, state, national, and international levels are reviewed and analyzed. Sp.

490 Special Topics In Health Professions (1, 2 or 3) This is an advanced course for majors in health professions. Special topics are considered. Prereq: consent of faculty required. Repeatable to a maximum of six credit hours. F, Sp, Su.

492 Transcultural Health Care in the Global Community (3) This multi-disciplinary course is designed for students interested in learning about transcultural populations of people and the relationship of culture to health and healthcare. Included in the course will be a visit to examine transcultural health in the global community. Services projects included during the visit will provide clinical and community education opportunities in a variety of sites and will promote interdisciplinar responses to healthcare issues in the cultural context of the community.

496 Marketing In Health Care Organizations (3) This course focuses on healthcare marketing. The increasing complexity of the healthcare system dictates a need for an organized approach to marketing, and one that ties key market issues and needs to a definitive market position, quantifiable objectives, and finally to strategies and actions aimed at achieving the position and objectives. This course allows the student to learn such an organized approach to marketing. A marketing analysis, as a means to introduce the principles and concepts of marketing as applicable to healthcare, will be conducted. F, Sp.

497 Ethical and Legal Issues in the Management of Health Services (3) This course provides the student an opportunity to examine and analyze common occurrences in the management of the healthcare system that are affected by laws, standards, and/or regulations; and which may call into question the ethical decisions leaders in healthcare organizations are frequently required to make. Particular emphasis will be placed on ethical business decisions. The role of ethics committees and institutional review boards will be addressed as they relate to both clinical decisions and the administration of healthcare facilities. F, Sp.

498 Current Concepts In The Health Professions (3) This course examines the issues important to the healthcare professional from a historical, economical, legal/ethical, political, and multi-cultural framework. Professionalism, negotiation, change agent, leadership, role theory, and role strategies are studied in relation to the healthcare professional. Topics will be selected based upon current trends in healthcare. F, Sp.

Bachelor of Science or Bachelor of Arts in Food and Nutrition
The following program has been approved by the University of Southern Indiana and the Indiana Commission for Higher Education. A minor in nutrition is also offered.

The Food and Nutrition degree is designed to prepare graduates for entry into community food and nutrition-related careers including healthcare, business, and industry. The major provides a broad coverage of the interpersonal, conceptual, analytical, and application skills necessary to perform in the food and nutrition-related field. Three specialty tracks are available: dietetics, nutrition and wellness, or food service management.

Dietetics specialty
Dietetics is the science of managing food and nutrition to promote health. Students choosing this specialty will examine nutrition and its application to food and health. Students choosing this track need to be aware of information concerning approval or accreditation of the specialty by the Commission on Accreditation of Dietetic Education (CADE). To become a registered dietitian (R.D.), students must complete a CADE-accredited undergraduate program, complete the Supervised Practice Program, and are then considered registration eligible and can take the national registration exam.
Nutrition and Wellness specialty
The Nutrition and Wellness specialty track will provide students with an understanding of the role of exercise and nutrition in overall wellness. Graduates will be able to work in nutrition and wellness positions in fitness centers, community and public health settings, nutrition marketing, product development, and consumer affairs. With the epidemic growth of obesity and related illnesses, graduates of the specialty will have multiple employment opportunities.

Food Service Management specialty
The Food Service Management courses are designed for students to develop problem-solving skills and creative thinking in food service. During the completion of this specialty track, the students will be provided opportunities to complete food service certifications. Certifications have proven to be an important key element for developing professionalism in the food service industry and a way of recognizing employees and reducing turnover. Nationally recognized certifications will be offered.

Admission Requirements
All applicants must first seek admission to the University by completing an application, having official transcripts of high school and other universities and colleges sent to the University of Southern Indiana, and completing all other University admission requirements. Applicants with at least a 2.0 grade point average may make application throughout the school year to the Bachelor of Science in Food and Nutrition program by completing an admission packet available from the Food and Nutrition program director’s office.

Food and Nutrition Degree Requirements
A candidate for the Bachelor of Science in Food and Nutrition degree must meet the general requirements for graduation as outlined in this bulletin and successfully complete the food and nutrition courses required for the major area of study.

Summary of food and nutrition degree program requirements:
1. Completion of the University Core Curriculum requirements as outlined in this bulletin: a minimum of 50 credit hours. Specific requirements for the University Core Curriculum component of each specialty area are noted in the section following.
2. Complete required nutrition core courses: 29 credit hours.
3. Complete 35-38 credit hours in one of the specialty areas.
4. A minimum of 124 credit hours.
5. A minimum of 30 credit hours must be taken from the University of Southern Indiana, including the last five hours taken before graduation.

6. A minimum of 39 hours of 300/400-level credit hours.
7. Obtain an average of 2.0 grade point average or better on all work taken at the University of Southern Indiana.
8. Achieve a grade of C or better in all core nutrition and specialty nutrition required courses in order to progress.

Major
64-67 credit hours (29 hours in nutrition core plus 35-38 hours in specialty area)

Required Nutrition Core Courses
NUTR 203 Introduction to Food, Nutrition, and Wellness 1
NUTR 285 Management Fundamentals in Food and Nutrition 3
NUTR 376 Principles and Applications in Nutrition 3
NUTR 381 Quantity Food Production and Purchasing with Lab 4
NUTR 384 Principles and Applications in Food Science 3
NUTR 396 Nutrition Throughout the Lifecycle 3
NUTR 397 Nutrition for Health Promotion and Disease Prevention 3
NUTR 415: Dietary Supplements and Herb Use in Nutrition 3
NUTR 465: Community Nutrition 3
NUTR 496: Leadership and Professional Issues in Food and Nutrition 3
Total 29

Food and Nutrition Specialty Area
In the student’s sophomore year, and upon completion of the majority of the core curriculum courses, the student will choose a specialty track.

Dietetics Specialty Courses
HP 115 Medical Terminology 2
NUTR 378 Nutrition for Fitness and Sports 3
NUTR 412 Advanced Human Metabolism 4
NUTR 452 Nutrition and Health Assessment 3
NUTR 451 Nutritional Counseling and Theory 3
NUTR 483 Medical Nutrition Therapy 4
BIOL 272 Medical Microbiology 3
HP 402 Health Care Research & Statistics 3
HP 478 School and Community Health Education Methods 3
CHEM 241 Organic/Biochemistry Principles 4
BIOL 121 Human Anatomy and Physiology I 3
BIOL 122 Human Anatomy and Physiology II 3
Total 38

Required Core Curriculum Courses for dietetics specialty
CHEM 261 General Chemistry I 4
CHEM 262 General Chemistry II 4

Electives: Students specializing in dietetics are required to enroll in CMST 107, MATH 111, SOC 121, PSY 201, PHIL 363 or HP 456

Nutrition and Wellness Specialty Courses
PED 281 Personal Health Science 3
HP 115 Medical Terminology 2
HP 305 Health Promotion and Worksite Wellness I 3
HP 306 Health Promotion and Worksite Wellness II 3
HP 478 School and Community Health Education Methods 3

*University Core Curriculum courses*
This course will focus on understanding the role of nutrition in health promotion and disease prevention. Health promotion and disease prevention theories and guidelines will be discussed. Students will have a better understanding of health and food consumption behaviors of diverse populations by evaluating population-based studies. Nutrition needs and current nutritional therapies for the promotion of health and disease prevention will be determined and translated into food choices and menus for people of diverse cultures and religions. Prereq: NUTR 376 and NUTR 396 recommended. Sp

386 Nutrition Throughout the Lifecycle (3) This course focuses on the nutritional needs of all ages. Child growth and development theories and the understanding and application of nutrition to pregnant and breastfeeding mothers and the growing infant and child are discussed. Nutrition assessment of the pregnant adolescent, managing complications during pregnancy, and children with special healthcare needs are included. It allows for the analysis of nutrient requirements, nutrient utilization, nutrition risk through the integration of physiologic aging, nutrition, and conditions of aging. Prereq: None. F

397 Nutrition in Health Promotion and Disease Prevention (3) This course focuses on understanding the role of nutrition in health promotion and disease prevention. Health promotion and disease prevention theories and guidelines will be discussed. Students will have a better understanding of health and food consumption behaviors of diverse populations by evaluating population-based studies. Nutrition needs and current nutritional therapies for the promotion of health and disease prevention will be determined and translated into food choices and menus for people of diverse cultures and religions. Prereq: NUTR 376 and NUTR 396 recommended. Sp

412 Advanced Human Metabolism (4) This course focuses on understanding the relationship between food and nutrients, the science of chemistry of the living organism, and health. The course stresses the importance of nutrient interactions and regulation of metabolism. The methods used to assess both nutrient requirements and deficiencies will be studied. Prereq: NUTR 376, BIOL 122, and CHEM 241 or CHEM 354. F

415 Dietary Supplements and Herb Use in Nutrition (3) This course focuses on understanding the role of supplements from a nutrition standpoint in maintaining and promoting health. Common supplements used such as: vitamins, minerals, herbs and other substances will be discussed. Emphasis is placed on understanding the history of their use, their proposed mechanisms of action, and safety concerns using the process of a critical review of the literature. Students will analyze the role of these supplements when making nutritional recommendations to individuals and groups. Prereq: NUTR 376 recommended. F

420 Practicum in Food, Nutrition and Wellness (1-3) This course provides junior and senior level students who meet eligibility criteria with the opportunity to gain practical insight into the food and nutrition environments while applying their management knowledge skills. The experience will lead to deeper appreciation and valuable understanding of practical workplace situations. The students will be able to apply their leadership and teamwork skills. Repeatable to a maximum of six hours. Prereq: NUTR 376, NUTR 285, and NUTR 381. F, Sp, Su

Minor – Nutrition

18-19 Credit Hours

The minor in Nutrition will allow students to gain a better understanding of nutrition and its role in achieving optimal health.

Courses for the minor include: one three- or four-hour biology or chemistry core curriculum course, NUTR 376 Principles and Applications in Nutrition; NUTR 378 Nutrition for Sport and Fitness; NUTR 396 Nutrition Throughout the Lifecycle; NUTR 415 Dietary Supplements and Herb Use in Nutrition; and NUTR 465 Community Nutrition

Course Descriptions

Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

Food and Nutrition (NUTR)

203 Introduction to Food, Nutrition, and Dietetics (1) This course provides students with a general overview of practice in food, nutrition, and dietetics. Students gain a beginning understanding of state and national credentialing requirements, certification standards, ethics, and life-long learning needs. Prereq: None. F

285 Management Fundamentals in Food and Nutrition (3) This course focuses on defining and applying management theories and functions in food and nutrition settings. Human, material and facility management will be discussed. Students gain an understanding of the tools available for managing effective and efficient food and nutrition organizations. Prereq: None. Sp

376 Principles and Applications in Nutrition (3) Principles and applications in nutrition emphasize the relationships among the nutrients and how homeostasis relationships are maintained in the healthy person. Students will learn more about themselves and their health in an effort to use this knowledge to improve their health. This knowledge of nutrition will enable the student to personalize information to fit their lifestyle. Special attention to nutrition for the developing human and lectures focusing on nutrition counseling will address the needs of the dental hygiene student and other health professionals seeking concepts in applied nutrition. Prereq: MATH 108 and CHEM 107 recommended. F, Sp, Su

378 Nutrition for Fitness and Sports (3) Nutrition for Fitness and Sport is an overview of the relationship of basic nutrition and energy systems to physical activity and body composition. This course examines popular myths and misconceptions associated with nutrition and performance. Incorporates application of introductory biochemistry. Prereq: MATH 108 recommended. F, Sp

381 Quantity Food Production and Purchasing (4) This course provides application of the principles of nutrition and food production in meal service from both a family social unit and the broad spectrum of food service. This course will focus on different stages of food service from menu planning and recipe conversion through the end result of serving the food. Special consideration will be given to meeting nutritional needs, food safety, cultural diversification, and consumer satisfaction. Purchasing and inventory techniques will be examined. In conjunction with the University of Southern Indiana food service and other food service establishments, this course will include a practicum in management. Includes a laboratory. Prereq: NUTR 285 and BIOL 141 or BIOL 122. F

384 Principles and Applications in Food Science (3) This course will focus on the studies of foods in relation to their composition of physical and chemical properties. This course will include the experimental approach to the study of foods. Throughout this course, sensory evaluation techniques will be utilized. Recipe development and modification will be explored. Includes a laboratory. Prereq: NUTR 376 and NUTR 381. Sp

396 Nutrition Throughout the Lifecycle (3) This course focuses on the nutritional needs of all ages. Child growth and development theories and the understanding and application of nutrition to pregnant and breastfeeding mothers and the growing infant and child are discussed. Nutrition assessment of the pregnant adolescent, managing complications during pregnancy, and children with special healthcare needs are included. It allows for the analysis of nutrient requirements, nutrient utilization, nutrition risk through the integration of physiologic aging, nutrition, and conditions of aging. Prereq: None. F

397 Nutrition in Health Promotion and Disease Prevention (3) This course focuses on understanding the role of nutrition in health promotion and disease prevention. Health promotion and disease prevention theories and guidelines will be discussed. Students will have a better understanding of health and food consumption behaviors of diverse populations by evaluating population-based studies. Nutrition needs and current nutritional therapies for the promotion of health and disease prevention will be determined and translated into food choices and menus for people of diverse cultures and religions. Prereq: NUTR 376 and NUTR 396 recommended. Sp

412 Advanced Human Metabolism (4) This course focuses on understanding the relationship between food and nutrients, the science of chemistry of the living organism, and health. The course stresses the importance of nutrient interactions and regulation of metabolism. The methods used to assess both nutrient requirements and deficiencies will be studied. Prereq: NUTR 376, BIOL 122, and CHEM 241 or CHEM 354. F

415 Dietary Supplements and Herb Use in Nutrition (3) This course focuses on understanding the role of supplements from a nutrition standpoint in maintaining and promoting health. Common supplements used such as: vitamins, minerals, herbs and other substances will be discussed. Emphasis is placed on understanding the history of their use, their proposed mechanisms of action, and safety concerns using the process of a critical review of the literature. Students will analyze the role of these supplements when making nutritional recommendations to individuals and groups. Prereq: NUTR 376 recommended. F

420 Practicum in Food, Nutrition and Wellness (1-3) This course provides junior and senior level students who meet eligibility criteria with the opportunity to gain practical insight into the food and nutrition environments while applying their management knowledge skills. The experience will lead to deeper appreciation and valuable understanding of practical workplace situations. The students will be able to apply their leadership and teamwork skills. Repeatable to a maximum of six hours. Prereq: NUTR 376, NUTR 285, and NUTR 381. F, Sp, Su
Senior Project in Food and Nutrition (3) This course will provide application of the principles of food production and nutrition by designing a menu and serving a meal. Students will focus on assessing needs, planning, implementing, and evaluating a food service meal. Students will utilize their knowledge of food service management and apply food and nutrition principles in a group setting. Prereq: NUTR 285, NUTR 376, and NUTR 381. Sp

Nutrition and Health Assessment (3) This course will focus on the comprehensive scientific assessment of nutrition-related problems throughout the lifespan of both individuals and communities. Students will examine the steps in the assessment process. They will select appropriate assessment methods and interpret findings. Evaluation of the outcomes of assessment and quality improvement will be discussed. Prereq: NUTR 376 and NUTR 397. F

Community Nutrition (3) This course focuses on understanding the role of nutrition in public health. It will allow for an understanding of the tools used to design and implement community nutrition programs that promote and protect the public’s health. Emphases are placed on community nutrition assessment, program planning and evaluation, nutrition policy making and the legislative process. Prereq: NUTR 376 recommended. Sp

Nutritional Counseling and Theory (3) This course focuses on the acquisition of nutrition counseling knowledge and the development of interpersonal skills that would enhance the translation of nutrition knowledge into healthy food choices. Employing a problem-solving model, the course covers counseling strategies and techniques, interviewing methods, psychological theories, life span and cross-cultural considerations for counseling, emotional factors of nutrition, eating disorders, ethics, and professional aspects of practice. Students will be challenged to apply and think critically about different counseling techniques and situations. Appropriate educational materials and documentation methods will be evaluated and developed as needed. Prereq: Recommend PSY 201 and SPCH 107, and NURT 376 or consent of instructor. Sp

Medical Nutrition Therapy (4) This course focuses on understanding the diseases that are modifiable by medical nutrition therapy such as obesity, diabetes, hypertension, and hyperlipidemia across the lifespan. For each disease the pathophysiology, evidence supporting medical nutrition therapy, and dietary treatments will be discussed. Prereq: NUTR 376, BIOL 122 and NUTR 452. Sp

Food Service Operations Management (3) This course will be a systems approach to food service management. Program planning, forecasting, program evaluation, and marketing will be discussed. This course will cover cost control methods that are specific to managing food service operations, including food waste and theft. Prereq: NUTR 285, NUTR 381, and HP 411 or MNGT 201 or MNGT 305. Sp

Leadership and Professional Issues in Food and Nutrition (3) This course will explore current political, regulatory, ethical, training, quality improvement, management, and other important related issues facing food and nutrition professionals. Students will use their educational foundation to investigate, identify, and suggest alternative methods of resolving these problems. The course will examine the leadership roles of food and nutrition professionals. Students will apply this knowledge by investigating current controversial issues in food and nutrition and will develop solutions to these problems. Prereq: NUTR 285 and junior or senior standing. F

Occupational Therapy Program

The occupational therapist is the professional-level practitioner who provides services that include evaluating, developing, improving, sustaining, or restoring skills in ADL, IADL, work, school, play, leisure, and social participation as well as lifestyle redesign.

To comply with the occupational therapy profession’s change in entry-level to postbaccalaureate degree, USI students must complete the Bachelor of Science followed by the Master of Science in Occupational Therapy (MSOT) in a curriculum design known in the occupational therapy profession as a combined BS/MSOT curriculum. USI students must complete the requirements of both degrees to be eligible to take the national certification examination.

At USI students interested in occupational therapy are classified as pre-occupational therapy (PROT) majors until they successfully complete the selection process required for entry into the combined BS/MSOT curriculum. Most PROT students spend the first two years (Y1 and Y2) taking prerequisite courses; essentially, University Core Curriculum courses that provide a broad foundation of science, social science, and humanities. Students complete the selection process to the combined BS/MSOT curriculum between the Y2 fall and spring semesters. Those students who successfully complete the selection process are reclassified as occupational therapy majors and enter the combined BS/MSOT curriculum during the third summer session between Y2 and the third year (Y3).

Once students enter into the combined BS/MSOT curriculum, they take courses for nine sequential school terms (including three summers). In the third and fourth years (Y3 and Y4), students complete the professional component of the combined BS/MSOT curriculum, an integrated didactic and clinical educational program. Y3 and Y4 courses take place on campus except for 26 40-hour weeks of internships and practicum experiences, during which time they are assigned to clinical sites. (To enter the combined BS/MSOT curriculum, occupational therapy majors must agree to comply with the designated student-clinical site matching system.)

The fifth year (Y5) consists of the MSOT curriculum, a graduate program in which occupational therapy majors take courses with credentialed occupational therapists for specialized, more intensive training in the field. The MSOT curriculum prepares students for advanced practice across three roles: a central role of specialization (selected by the student) supported by two required roles,
educator and researcher. Internet-based distance education is the primary method of instructional delivery in the fifth year. In addition to didactic courses, Y5 students complete a 120-hour practicum experience in each of the two required roles and a 250-hour internship in the central role of specialization.

The Occupational Therapy Program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, PO Box 31220, Bethesda, MD 20824-1220. ACOTE’s telephone number c/o AOTA is 301-652-2682. Graduates of this program will be eligible to sit for the Certification Examination for the Occupational Therapist Registered® administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will be an occupational therapist, registered (OTR). Most states require additional credentialing in order to practice; however, state credentials are usually based on the results of the NBCOT certification examination.

**Admission Requirements**

The prospective student must be accepted for admission to USI before completing a separate selection process to this program. For the most current information related to the selection process, call the program at 812/465-1179, e-mail otinfo@usi.edu, or visit the Web site, health.usi.edu/acadprog/ot/index.htm. Student applicants must show capability of fulfilling clinical practice requirements, eligibility for occupational therapy practitioner credentialing, and evidence of satisfactory health status. Please note: A felony conviction (this includes documentation of driving under the influence—DUI) may negatively impact a prospective student's eligibility to sit for the NBCOT certification examination or attain state practice credentials; contact the program for further information.

#### Course Descriptions

Following certain course descriptions are the designations: F, Sp, Su. These indicate the terms (fall or spring semesters, or summer sessions) in which the course is typically offered and are intended as an aid to students planning their programs of study.

### Occupational Therapy (OT)

**151 Orientation to Occupational Therapy (1)** This course provides students with a general overview of occupational therapy history, philosophy, and practice. Students gain a beginning understanding of the value of occupation or purposeful activity in daily life, survey the role of occupational therapy with various populations and in a variety of settings; recognize national and state credentialing requirements, identify occupational therapy association functions at all levels, and recognize AOTA standards, ethics, and policies and their effects on occupational therapy practitioner conduct and patient treatment. F, Sp

**310 Applied Pathophysiology I (3)** This course begins with an introduction to occupational performance (areas, components, and contexts) and an integrated theoretical approach. The course proceeds with an overview of the etiology, clinical course, management, and prognosis of congenital and developmental disabilities, acute and chronic disease processes, and traumatic injuries, and examines the effects of such conditions on functional performance throughout the lifespan as well as explores the effects of wellness on the individual, family, culture, and society. This course has been approved for the one-hour nonactivity requirement of Category B3. Health/Physical Fitness of the University Core Curriculum. Su

**312 Applied Pathophysiology II (5)** Providing a focus in the areas of neurology and orthopedics, this course continues the exploration of the etiology, clinical course, management, and prognosis of congenital and developmental disabilities, acute and chronic disease processes, and traumatic injuries. Emphasis is placed on developing an understanding of the potential effects of such conditions on anatomical structures, physiological processes, and the functional performance of individuals throughout the lifespan, while exploring the effects of health promotion and disability prevention on the individual, family, culture, and society. Developing skills in investigating, formulating, and discussing significant clinical and functional factors of such conditions is emphasized. F

**315 Applied Movement Analysis (3)** This course emphasizes the observation, evaluation, description, and documentation of motion and movement patterns, as well as the structures of human anatomy that suggest what constitutes healthy movement patterns. While the primary focus is on functional and aberrant human movement patterns across the lifespan and within various contexts, students also examine the movement patterns of nonhuman objects. Students begin to develop skills in documentation, evaluation, and analysis, and in using diagnostic data in treatment planning to improve functional task performance. Su

**320 Professional Communication (3)** The emphasis of this course is the development of professional level skills in the areas of listening, speaking, reading, and writing. This course includes skills such as interviewing, group interaction, documentation to ensure accountability and reimbursement of services, critical reading of research and scholarly papers, public speaking, and participation in meetings. Additionally, students learn to utilize single system research design as a strategy to evaluate clinical change. F

**330 Media and Modalities I (3)** This course explores various activities and emphasizes detailed activity analysis of occupational performance, development and planning of activities to address delineated goals, grading and adapting of activities for therapeutic intervention, and evaluation of given activities for effectiveness in goal achievement. F

**331 Media and Modalities II (3)** This course provides a strong orthotics core as well as emphasizes the application of therapeutic intervention for the accomplishment of purposeful activities (occupation) including family/caregiver training, environmental adjustments, orthotics, prosthetics, assistive technology, physical agent modalities, and other technology. Sp

**340 Occupational Performance Components I: Psychosocial Skills (4)** This course emphasizes the identification of appropriate theoretical frameworks, the selection of purposeful activities that incorporate intervention principles, and the provision of therapeutic interventions to enhance the psychosocial occupational performance component. Psychosocial subcomponents include psychological skills (values, interests, self concept), social skills (role performance, social conduct, interpersonal skills, and self expression), and self-management abilities (coping skills, time management, and self control) related across the lifespan and performance contexts. F

**341 Occupational Performance Components II: Sensorimotor Skills (4)** This course emphasizes the identification and exploration of various sensorimotor theoretical frames of references, the selection and specification of purposeful activities that incorporate the concepts of a given frame of reference, and the practice and provision of therapeutic interventions in the sensorimotor occupational performance components. Sensorimotor components include sensory abilities (sensory awareness, sensory processing, and perceptual skills), neuromuscular abilities (reflexes, range of motion, muscle tone, strength, endurance, postural control, postural alignment, soft tissue integrity), and motor abilities (gross motor coordination, crossing the midline, laterality, bilateral integration, motor control, praxis, fine motor coordination/dexterity, visual-motor integration, and oral-motor control), and are related across the lifespan and performance contexts. Sp

**342 Occupational Performance Components III: Cognitive Skills (3)** This course emphasizes the identification of appropriate theoretical frameworks, the selection and specification of purposeful activities that incorporate intervention principles and the provision of therapeutic interventions for cognitive occupational performance components. Cognitive subcomponents (level of arousal, orientation, recognition, attention span, initiation of activity, termination of activity, memory,
sequencing, categorization, concept formation, spatial operations, problem solving, learning, and generalization) are related across the lifespan and performance contents. F

350 Independent Study (1-12) This elective course may be customized for the special interest of the student. Students may complete this independent study by participating in faculty approved supervised service delivery, research projects under the direction of faculty, or another faculty approved project. F, Sp, Su

380 Professional Evaluation (3) This course provides an overview of tests and measurement principles and emphases: 1) evaluation of the need for occupational therapy intervention; 2) the selection, administration, and interpretation of standardized and non-standardized tests and evaluations; 3) interpretation of evaluation in relation to occupational performance (areas, components, and contexts), treatment planning, therapeutic intervention, and age appropriate theoretical frameworks; 4) reevaluation for effect of occupational therapy intervention and need for continued and/or changed treatment; and 5) the appropriate use of the certified occupational therapy assistant in the screening and evaluation process. Sp

397 Professional Practicum Seminar A (2) Along with a 40 clock hour Level I fieldwork experience, this first practicum seminar course provides students opportunities to discuss fieldwork matters and integrate fieldwork with occupational therapy process and practice issues. F, Sp, Su

398 Professional Practicum Seminar B (2) Along with a 40 clock hour Level I fieldwork experience, this second practicum seminar course provides students opportunities to discuss fieldwork matters and integrate fieldwork with occupational therapy process and practice issues. F, Sp, Su

440 Occupational Performance Areas I: Activities of Daily Living and Play/Leisure (4) The emphases of this course are the meaning and dynamics of purposeful activity to enhance lifespan role functioning, particularly in activities of daily living (grooming, oral hygiene, bathing/showering, toilet hygiene, personal device care, dressing, feeding and eating, medication routine, health maintenance, socialization, functional communication, functional mobility, community mobility, emergency response, and sexual expression) and play or leisure activities (exploration and performance). Also emphasized are the interplay of performance components (sensomotor psychosocial, and cognitive), the performance area of work and productive activities, and performance contexts (temporal aspects and environment). Sp

441 Occupational Performance Areas II Work and Leisure (4) The emphases of this course are the meaning and dynamics of purposeful activity to enhance lifespan role functioning, particularly in work and productive activities (home management, care of others, educational activities, and vocational activities). Also emphasized is the interplay of performance components (sensomotor psychosocial, and cognitive), the performance area of activities of daily living and play/leisure, and performance contexts (temporal aspects and environment). F

450 Independent Study (1-12) This elective course may be customized for the special interest of the student. Students may complete this independent study by participating in faculty approved supervised service delivery, research projects under the direction of faculty, or another faculty approved project. F, Sp, Su

460 Professional Issues I (2) This course provides opportunities to understand the necessity of participating in the promotion of occupational therapy through interaction with other professionals, consumers, third party payers, and the public; to assume individual responsibility for planning professional development in order to maintain a level of practice consistent with accepted standards, and to understand environmental and policy issues which impact the provision of occupational therapy services. F

461 Professional Issues II (2) This course provides a continuation of professional issue examination with a focus on the development of leadership abilities. The course emphasizes integration and synthesis of professional coursework with internship experiences. To simulate the timing necessary to integrate professional development into the work environment, certain assignments for this class are due during February and March even though students are completing Level II internship experiences during that time. Sp

470 Occupational Therapy Management (3) Principles of management such as planning, organizing, staffing, coordinating/directing, controlling, budgeting, marketing, and strategic planning are explored on a personal and professional level and applied to the delivery of occupational therapy services in a variety of service models including medical, community, and educational systems. There is an emphasis on the development of supervisory skills for occupational therapy students, certified occupational therapy assistants, and other personnel. F

480 Occupational Therapy Research (3) This course is designed to provide the student opportunities to synthesize the requisite foundation of liberal arts and sciences (including biology, psychology, sociology, English, communications, and ethics) with the professional sequence of occupational therapy coursework. Following an introduction that covers the philosophical underpinnings of inquiry, the importance of empirical research, the two traditions of research including process stages and essential components, basic versus applied research, and rigor in research, students utilize discovery learning in six areas of inquiry: single system design research (with quantitative analysis), qualitative research, action research, focus group research, advanced quantitative research, and survey research. Students enter this course having conducted and presented two research studies (of which at least one utilized a single system design) at the Occupational Therapy Program’s end-of-the-semester conferences as well as having studied both descriptive statistics and nonparametric inferential statistics in previous occupational therapy courses. This course has been approved for Category D: Synthesis of the University Core Curriculum. F

497 Professional Fieldwork A (4) In this Level II fieldwork experience of at least 12 weeks full-time, students synthesize knowledge gained throughout their educational experiences including liberal arts courses (University Core Curriculum) as well as the professional sequence of occupational therapy coursework by delivering occupational therapy services to persons having various levels of occupational performance. For service delivery, students use clinical reasoning, self-reflection, and creativity in their utilization of various occupational therapy theoretical approaches throughout the occupational therapy process. By the end of this internship, the student must function as an entry-level occupational therapist. Fieldwork A must vary from Fieldwork B to reflect a difference in (a) ages across the lifespan of persons requiring occupational therapy services, (b) the setting with regard to chronicity (long term versus short term), and (c) facility type (institutional versus community based). F, Sp, Su

498 Professional Fieldwork A (4) In this Level II fieldwork experience of at least 12 weeks full-time, students synthesize knowledge gained throughout their educational experiences including liberal arts courses (University Core Curriculum) as well as the professional sequence of occupational therapy coursework by delivering occupational therapy services to persons having various levels of occupational performance. For service delivery, students use clinical reasoning, self-
reflection, and creativity in their utilization of various occupational therapy theoretical approaches throughout the occupational therapy process. By the end of this internship, the student must function as an entry-level occupational therapist. Fieldwork B must vary from Fieldwork A to reflect a difference in (a) ages across the lifespan of persons requiring occupational therapy services, (b) the setting with regard to chronicity (long term versus short term), and (c) facility type (institutional versus community based). F, Sp, Su

499 Professional Fieldwork C (2-4) This elective Level II fieldwork placement is designed for the student who wishes an opportunity to gain experience of six to 12 weeks (full-time) in duration in a specialized area of practice. Fieldwork C must vary from Fieldworks A and B. F, Sp, Su

621 Occupational Therapy Educational Strategies A (3) Traditional and electronic methods are emphasized in this course in which the student learns to design and provide formal and informal educational offerings or training related to occupational therapy to consumers and community groups.

622 Occupational Therapy Educational Strategies B (3) Traditional and electronic methods are emphasized in this course in which the student learns to design and provide formal and informal educational offerings or training related to occupational therapy to peers.

627 Occupational Therapy Educator Practicum Seminar (2) Integrated within this course is a 120 clock hour fieldwork practicum experience in which students apply knowledge, values, and skills related to the required educator role. Students also meet in seminar fashion to reflect upon and share their learning experiences, providing additional synthesis of this practicum.

633 Advanced Occupational Therapy Research Strategies (3) In this course students conduct and disseminate scholarly work of the profession including examining, developing, refining, and evaluating the profession’s body of knowledge, theoretical base, and philosophical foundations. Specific tasks involve designing and directing the completion of various studies, including data analysis, interpretation, and dissemination of results; collaborating with others to facilitate studies of concern to the profession; and mentoring novice researchers.

637 Occupational Therapy Researcher Practicum Seminar (2) Integrated within this course is a 120 clock hour fieldwork practicum experience in which students apply knowledge, values, and skills related to the required researcher role. Students also meet in seminar fashion to reflect upon and share their learning experiences, providing additional synthesis of this practicum.

690 Special Topics (3) This course provides opportunities for concentrated study in an emerging, innovative, or specialized area of the occupational therapy profession.

691 Specialized Clinical Reasoning Strategies (3) Students in this course critically examine their own practice and integrate new knowledge using various types of clinical reasoning (narrative reasoning, interactive reasoning, procedural reasoning, pragmatic reasoning, and conditional reasoning) to develop and provide evidence-based specialized occupational therapy services (direct, monitored, consultative), including evaluation, intervention, program planning, and implementation, discharge planning related documentation, and communication.

692 Specialized Evaluation Strategies (3) Providing an advanced study of tests and measurement principles within the centralized role of specialization, this course emphasizes: (a) clinical reasoning aspects; (b) selection, administration, and interpretation of standardized and non-standardized tests and evaluations; (c) interpretation of evaluation results; (d) documentation within an appropriate practice setting; and (e) reevaluation for effect of occupational therapy intervention and need for continued and/or changed treatment.

693 Specialized Intervention Strategies (3) This course provides students with advanced study of intervention principles and practices within their centralized role of specialization. Additional emphases include clinical reasoning aspects, evidence-based service provision, outcomes measurement, best practices, and quality assurance.

698 Specialized Role Internship Seminar (3) Integrated within this course is a 250 clock hour fieldwork internship experience in which students apply knowledge, values, and skills related to their selected central role of specialization. Students also meet in seminar fashion to reflect upon and share their learning experiences, providing additional synthesis of this internship.

699 Occupational Therapy Synthesis (5) This course is designed to provide students opportunities to synthesize their preparation for advanced practice across three roles: a central role of specialization (selected by the graduate student) supported by two required roles, educator and researcher. Resulting in a product such as a research project or innovative scholarly project, this course also emphasizes professional reflection on the process aspect.

Associate of Science with a major in Occupational Therapy Assistant
The Occupational Therapy Assistant Program offers a 74-hour associate degree, which consists of a 25-hour foundation of liberal arts and sciences (50 percent of the USI University Core Curriculum) and 49 hours of occupational therapy assistant courses. Students may enroll full-time or part-time in occupational therapy assistant coursework. Students who select the full-time option take the 25-hour block of University Core Curriculum classes and then enroll in Occupational Therapy Assistant Program coursework to complete the 43-credit-hour didactic component and the six-credit-hour clinical component. In addition to classroom and laboratory hours, this degree includes 16 40-hour weeks of integrated practicum experiences. Full-time students can complete the Associate of Science Degree with a major in Occupational Therapy Assistant in five semesters and one summer. Part-time students may take occupational therapy assistant courses integrated with other required courses. Because of course sequencing, students enrolled on a part-time basis within the Occupational Therapy Assistant Program may require more than five semesters and one summer to complete all required coursework. Part-time students must work closely with an advisor to ensure proper course sequencing.

The Occupational Therapy Assistant Program is accredited by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American
Occupational Therapy Association (AOTA), located at 4720 Montgomery Lane, PO Box 31220, Bethesda, MD 20824-1220, phone: 301/652-2682. Graduates of this program will be eligible to sit for the Certification Examination for the Certified Occupational Therapy Assistant® administered by the National Board for Certification in Occupational Therapy (NBCOT). After successful completion of this exam, the individual will carry the title, Certified Occupational Therapy Assistant (COTA). Most states require additional credentialing in order to practice; however, state credentials are usually based on the results of the NBCOT certification examination.

Admission Requirements
The prospective student must be accepted for admission to USI before completing a separate application to the Occupational Therapy Assistant Program. Student applicants must also show capability of fulfilling clinical practice requirements, eligibility for occupational therapy practitioner credentialing, and evidence of satisfactory health status. Note: A felony conviction may affect a graduate’s eligibility to sit for the NBCOT certification examination or attain state practice credentials; contact the department for further information. For the most current admission information, call the department at 812/465-1140, e-mail otinfo@usi.edu, or visit the Web site, health.usi.edu/acadprog/ota/index.htm.

Course Descriptions
Following certain course descriptions are the designations: F, Sp, Su. These indicate the terms (fall or spring semesters, or summer sessions) in which the course is typically offered and are intended as an aid to students planning their programs of study.

Occupational Therapy (OTA)

*OTA courses are interconnected, therefore sequential completion of the courses is not essential to successful completion of the OTA Program.

Program Entry Courses (PEC) allow faculty and students to structure coursework to meet individual student needs. The four PEC offer a basis for understanding of the principles and basis of occupation and its relationship to performance. Courses following the PEC build on this foundation.

213 Pathophysiology and Conditions I (3) This course provides an overview of the etiology, clinical course, management, and prognosis of congenital and developmental disabilities, acute and chronic disease processes, and traumatic injuries; and examines the effects of such conditions on functional performance throughout the lifespan as well as explores the effects of wellness on the individual, family, culture, and society. Prereq: BIOL 121. F

214 Pathophysiology and Conditions II (3) Providing a focus in the areas of neurology and orthopedics, this course continues the overview of the etiology, clinical course, management, and prognosis of congenital and developmental disabilities, acute and chronic disease processes, and traumatic injuries by examining the effects of such conditions on functional performance throughout the lifespan and by exploring the effects of wellness on the individual, family, culture, and society. Prereq: BIOL 121. Sp

221 Technical Communication (3) The emphasis of this course is the development of skills in the areas of listening, speaking, reading, and writing. These skills include: interviewing; self, dyadic, and group interaction; documentation to ensure accountability and reimbursement of services; critical reading of research; public speaking; and participation in meetings. This course introduces the student to medical terminology used in many of the treatment settings. F (PEC)

231 Therapeutic Media (3) The first half of this course includes a multicultural perspective to emphasize the analysis of activities, the performance and teaching of selected tasks and activities, and the grading and adapting of purposeful activity for therapeutic intervention. The focus of the second half of the course is assistive technology including orthotics and prosthetics. F, Sp. (PEC)

241 Occupational Performance Components I (6) This course examines the occupational therapy process with an emphasis on optimal occupational performance which enhances lifespan role functioning across occupational performance contexts. This course examines the interplay of performance areas and concomitant performance components with a focus on psychosocial skills. F (PEC)

242 Occupational Performance Components II (5) This course examines the occupational therapy process with an emphasis on optimal occupational performance which enhances lifespan role functioning across occupational performance contexts. This course examines the interplay of performance areas and concomitant performance components with a focus on sensorimotor and cognitive skills. Sp
practicum experience, this first practicum course provides students opportunities to discuss fieldwork matters and integrate fieldwork with occupational therapy process and practice issues. F, Sp, Su

298 Practicum Seminar B (2) Along with a 40 clock hour Level I practicum experience, this second practicum course provides students additional opportunities to discuss fieldwork matters and integrate fieldwork with occupational therapy process and practice issues. F, Sp, Su

343 Occupational Performance Areas I (5) This course examines the occupational therapy process with an emphasis on optimal occupational performance which enhances lifespan role functioning across occupational performance contexts. This course examines the interplay of performance components and their effects on subsequent performance areas, particularly activities of daily living and play or leisure. Sp

344 Occupational Performance Areas II (4) This course examines the occupational therapy process with an emphasis on optimal occupational performance which enhances lifespan role functioning across occupational performance contexts. This course examines the interplay of performance components and their effects on subsequent performance areas, particularly work and productive activities. Su

350 Independent Study (1-12) This elective course may be customized for the special interest of the student. Students may complete this independent study by participating in faculty approved supervised service delivery, research projects under the direction of faculty, or another faculty approved project. F, Sp, Su

362 Occupational Therapy Assistant Issues (3) This course will provide opportunities to recognize the necessity of participating in the promotion of occupational therapy through educating professionals, consumers, third party payers, and the public; to assume individual responsibility for planning future professional development to maintain a level of practice consistent with accepted standards; and to understand environmental and policy issues which impact the provision of occupational therapy services. Prereq: departmental consent. Su

372 Management for Occupational Therapy Assistants (3) General management principles such as planning, organizing, staffing, coordinating/directing, controlling, budgeting, marketing, strategic planning are applied to the management of activities service. There is an emphasis on the development of supervisory skills for occupational therapy students, certified occupational therapy assistants, and other personnel. Prereq: departmental consent. Su

397 Technical Fieldwork A (3) While working with persons having various levels of psychosocial, sensorimotor, and cognitive performance components, students have opportunities for synthesis, the integration and application of knowledge gained throughout their educational experiences which include general education/liberal arts courses as well as the sequence of occupational therapy coursework. Students will examine the interplay among occupational performance areas, components, and contexts; develop and expand a repertoire of occupational therapy treatment interventions; and employ clinical reasoning and reflective practice skills. Fieldwork A, a Level II internship of at least 8 weeks (full-time) in duration, must vary from Fieldwork B to reflect a difference in ages across the lifespan of persons requiring occupational therapy services, in the setting with regard to chronicity (long term versus short term disability/disease process), and in facility type (institutional versus community based). Prereq: 39 OTA hours. F, Sp, Su

398 Technical Fieldwork B (3) While working with persons having various levels of psychosocial, sensorimotor, and cognitive performance components, students have opportunities for synthesis, the integration and application of knowledge gained throughout their educational experiences which include general education/liberal arts courses as well as the sequence of occupational therapy coursework. Students will examine the interplay among occupational performance areas, components, and contexts, develop and expand a repertoire of occupational therapy treatment interventions, and employ clinical reasoning and reflective practice skills. Fieldwork B, a Level II internship of at least 8 weeks (full-time) in duration, must vary from Fieldwork A to reflect a difference in ages across the lifespan of persons requiring occupational therapy services, in the setting with regard to chronicity (long term versus short term disability/disease process), and in facility type (institutional versus community based). Prereq: 42 OTA hours (must include OTA 397). F, Sp, Su

Radiologic Technology and Radiologic and Imaging Sciences
The Radiologic Technology and Radiologic and Imaging Sciences programs have been developed to prepare radiographers, radiologic technologists, and sonographers as highly qualified imaging specialists to function in the medical settings. The first year of study provides the prerequisite courses needed to enter the professional study program. Students enroll in radiologic technology courses in the second and third year that prepare them to function as entry-level radiographers and to enroll in fourth year specialized imaging courses. At the completion of the third year, the Associate of Science in Radiologic Technology degree is awarded and the graduates are eligible to sit for the national registry examination. During the fourth year the students enroll in the magnetic resonance imaging and computed tomography specialty, the general sonography specialty, the clinical education specialty, or the radiology management specialty. All fourth year imaging science courses are offered via the Internet with preceptored clinical practice. Registered radiographers who have graduated from another radiologic technology program are eligible to enroll in the advanced imaging specialty courses. Students who have completed an allied health program which is recognized by the American Registry of Diagnostic Medical Sonographers (ARDMS) or the American Registry of Radiologic Technologists (ARRT) are eligible to enroll in the general sonography specialty. Upon completion of the Bachelor of Science in Radiologic and Imaging Sciences specialty courses, the graduates are eligible to sit for the national registry examinations in sonography or magnetic resonance imaging and computed tomography.

Associate of Science in Radiologic Technology
The completion of the Associate of Science in Radiologic Technology Program prepares individuals to function effectively as entry-level radiographers. Radiographers are radiologic technologists who, under the direction of a physician, perform radiologic (x-ray) examinations. Radiographers also assist physicians in the
performance of fluoroscopic and special radiographic procedures. Radiologic examinations are performed in a variety of settings including radiographic rooms, patient rooms, emergency rooms, surgery, and critical care units. The radiographer is responsible for operating the necessary equipment, preparing contrast materials as needed for the procedure, positioning the patient to produce the proper image, caring for the patient during the examination, and evaluating the quality of resulting radiographs. The radiographer must also complete appropriate records and handle finished images. Radiographers are employed by hospitals, medical centers, physicians' offices, clinics, and immediate care centers.

To obtain the knowledge and skills necessary for success in radiography, students must follow a prescribed sequence of academic and clinical courses. University Core Curriculum courses also are required for completion of degree requirements. Core Curriculum and most radiologic technology (RADT) courses are taught on campus. Clinical courses are conducted at health care centers in the immediate tri-state area with rotations to other medical facilities. Most courses are scheduled during the day. Some involve late afternoon and evening hours. To provide comprehensive clinical experiences, students are required to complete occasional weekend assignments and rotate on limited second and third shifts. These rotations occur during the second half of the program.

The Associate of Science in Radiologic Technology program involves 24 months of continuous full-time study during the student’s second and third year program of study. To complete the program, students must pass all required University Core courses and receive at least a C in all RADT courses. University Core courses may be completed on a part-time basis prior to entering the program or they can be transferred from other approved institutions. Students interested in completing core curriculum courses prior to entering the program or transferring credits should contact the program director.

An associate of science degree is awarded to students successfully completing the program in radiologic technology. The program is accredited by the Joint Review Committee on Education in Radiologic Technology, 20 North Wacker Drive, Suite 900, Chicago, IL 60606-2901, phone 312/704-5300, fax 312/704-5304, e-mail JRCERT@aol.com.

Program graduates are eligible to apply for admission to the certifying examination administered by the American Registry of Radiologic Technologists (ARRT). Program graduates may also pursue a bachelor of science degree at the University in Radiologic and Imaging Sciences.

The Bachelor of Science in Radiologic and Imaging Sciences allows the majors to continue study in advance imaging areas including clinical education, radiology management, sonography, or computed tomography and magnetic resonance imaging.

Admission Requirements
Applicants must be accepted for admission to the University before being admitted to the radiologic technology program. A separate application must be submitted for admission to the program. Program application forms may be obtained from the College of Nursing and Health Professions. The completed application form must be received by October 1 of the year the student wishes to enter. A copy of high school and any college or university transcripts must be included with the program application form. Applicants are encouraged to apply early and enroll in pre-radiology University Core Curriculum courses.

Preferred applicant qualifications include:
- A postsecondary grade point average of 2.7 or above (4.0 scale).
- Completion of the required pre-radiology courses.

Students meeting academic requirements must be in good health, capable of fulfilling clinical practice requirements, and eligible for radiologic technology certification. Students who do not meet these criteria may ask for reconsideration or re-evaluation following successful completion of selected science and other faculty-specified courses required for the program.

All qualified applicants are interviewed by the Radiologic Technology Admissions Committee, which consists of the program director, program faculty, and clinical instructors from health care centers in the immediate tri-state area. All interviews are confidential, private, and scheduled by appointment. The committee's decision is conveyed by letter within two weeks following the completion of interviews.

A revision of the Associate of Science in Radiologic Technology and the Bachelor of Science in Radiologic and Imaging Sciences is in process. Consult the Radiologic and Imaging Sciences Web page for the most current curriculum.

*Designated courses in which students must earn a grade of C or better. AS degree in Radiologic and Imaging Sciences completed

Bachelor of Science in Radiologic and Imaging Sciences
This program prepares registered radiographers and registered allied health professionals to function effectively in the advanced imaging specialties of medical sonography, magnetic resonance imaging, or computed tomography. Students may also enroll in the clinical education or radiology management specialties. All the advanced imaging courses are offered as distance education courses.

Radiologic and Imaging Sciences Degree Requirements
A candidate for the Radiologic and Imaging Sciences must meet the following general requirements and complete the Radiologic and Imaging Sciences courses required for the major specialty area of study.

Summary of Radiologic and Imaging Sciences requirements:
1. Completion of the University Core Curriculum as outlined in the current bulletin: 50 credit hours.
2. A grade of C or better in all Radiologic and Imaging Sciences courses.
3. A minimum of 124 credit hours.
4. A minimum of 30 credit hours must be taken at the University of Southern Indiana.
5. A minimum of 39 hours of 300/400-level credit hours.
6. Registered radiographers, registered allied health professionals, and licensed nurses will not be required to enroll in BIOL 121 and BIOL 122 and either a physics or chemistry course. They may satisfy the C3 Science requirement for the University Core Curriculum by completing 8-9 hours of C3 approved courses (at least one course with a lab).
7. Obtain an average of 2.0 grade point average or better on all course work taken at the University of Southern Indiana.

*RADT 375 Clinical V 4
*RADT 382 Radiographic Quality Control 2

*Designated courses in which students must earn a grade of C or better

Upon completion of the third year, students are eligible to sit for the national licensure exam (Registry exam conducted by the American Registry of Radiologic Technologists).

Track 1: Completion of the first three years of the AS in Radiologic Technology program

Track 2: Completion of the University Core Courses and an Allied Health Program recognized by the American Registry of Diagnostic Medical Sonographers (ARDMS) or the American Registry of Radiologic Technologists (AART) (eg. Nursing including a current state license).

Track 3: Completion of the Radiologic and Imaging Sciences Sonography Track program

Fourth Year for Track 1 and 2 students

Students in the fourth year of study choose one of the following specialty areas: General Sonography; Magnetic Resonance Imaging and Computed Tomography; Clinical Education; or Radiologic Management.

Magnetic Resonance Imaging and Computed Tomography Specialty

Fourth Year

Fall Semester

*RADT 411 CT/MRI Physics and Instrumentation 4
*RADT 413 MRI/CT Procedures I 4
*RADT 414 Clinical VII – CT/MRI 3

Spring Semester

*RADT 415 MRI/CT Procedures II 4
*RADT 416 Clinical VIII – CT/MRI 3
SYNTHESIS 3

Summer Semester

*RADT 486 Clinical IX – CT/MRI 3

Clinical Education Specialty

Fourth Year

Fall Semester

*RADT 421 Radiologic and Imaging Sciences Clinical Education or HP 478 School and Community Health Education Methods 3
*RADT 426 Radiologic and Imaging Sciences Practicum II 3
HP 402 Health Care Research and Statistics or HP 411 Health Care System Management 3
Elective Choose any RADT or HP 300-400 level course 3

Spring Semester

*RADT 425 Radiographic Critique 3
Elective Choose any RADT or HP 300-400 level course 3
SYNTHESIS Choose any approved category D course 3

Radiology Management Specialty

Fourth Year

Fall Semester

*RADT 427 Radiology Department Information Systems 3
*RADT 424 Radiologic and Imaging Sciences Practicum I 3
HP 402 Health Care Research and Statistics 3
HP 411 Health Care System Management 3

*Designated courses in which students must earn a grade of C or better
### Spring Semester
- HP 421: Financial Management in Health Care 3
- HP 496: Marketing in Health Care Organizations 3
- Elective: Choose any RADT or HP 300-400 level course 3
- SYNTHESIS: Choose any approved category D course 3

For the specialty tracks: Magnetic Resonance Imaging and Computed Tomography; Clinical Education; or Radiologic Management for a total of 127 credit hours.

#### Allied Health Registry (License)  
plus General Sonography Track

##### Third Year

#### Summer Semester – Sessions I, II, III
- *DMS 312: Introduction to DMS Principles and Procedures 3
- *DMS 333: Sonographic Sectional Anatomy 3
- *DMS 315: Abdominal Procedures 3
- *DMS 316: Sonographic Lab Practice I 3

#### Fourth Year

### B.S. in Radiologic and Imaging Sciences

(Sonography – General/Vascular/Cardiac Specialties) = 129 credit hours

---

### Course Descriptions

#### 196 Orientation to Radiologic and Imaging Sciences

This course provides a general overview of radiologic technology history and practice. Students gain a beginning understanding of the value of radiologic sciences in a healthcare setting, survey the role of radiologic technologists in a variety of settings, recognize national and state credentialing requirements, identify radiologic technology association functions at all levels, and recognize ARRT standards, ethics, and policies and their effects on practicing radiologic technologists’ conduct and patient treatment. F, Sp

#### 197 Introduction to Radiographic Positioning

This course includes general anatomy, terminology, imaging principles, and positioning principles. Positioning methods required for radiographic examinations of the chest and abdomen will be performed. One hour of lecture and one hour of lab activity each day. (Summer I)

#### 198 Clinical Application of Radiology

A 10-week orientation to the hospital. Introduction to radiographic/fluoroscopic rooms, film processing, radiology office and files, hospital nursing units and ancillary departments. General radiographic positioning terminology and chest positioning is included in the first five weeks of the class. (Summer II and Summer III)

#### 211 Introduction to Radiologic Technology

An introduction to the field of radiologic technology with reference to the duties and responsibilities of the radiographer, types of equipment used, and image production. Radiation protection, personnel, and organizational structure are also discussed. (Summer I)

#### 212 Patient Care Procedures I

Provides the student with the concepts of basic nursing procedures in order to maintain patient care that is a continuous, smoothly integrated effort, with due regard to necessary diagnostic and therapeutic techniques. (Summer I)

#### 213 Radiographic Exposure

Studies the principles of radiographic image formation with respect to the variables that affect contrast, density, recorded detail, distortion, radiographic facilities, equipment, chemicals, film, radiographic processing, radiographic artifacts, silver recovery systems, x-ray tubes, tube rating, tube cooling charts, control of secondary radiation, and radiographic grids. F

#### 215 Clinical I (2)

Supervised clinical education allowing students to apply knowledge and essential skills of radiographic positioning and exposure, with emphasis on examinations of the chest and abdomen. Correlates with RADT 213, 216, and 217. (16 hours/week). F

#### 216 Radiographic Procedures I (4)

A detailed study of the anatomy and positioning methods required for radiographic examinations of the chest and abdomen; urinary, gastrointestinal, and biliary systems; upper extremity and shoulder girdle; and lower extremity. One-and-a-half hours of lecture and one hour of lab activity each class day. F

#### 217 Patient Care Procedures II

This course is a continuation of RADT 212. Topics include surgery; medical equipment; pharmacology for radiographers; emergency equipment; ostomy care; catheterization; critical care; enemas and venipuncture. F
218 Radiographic Procedures II (4) A detailed study of the anatomy and positioning methods required for radiographic examinations of the pelvis/hip, spine, ribs, sternum, sacrum, coccyx, SI joints, SC joints, cranium and facial bones. Two hours of lecture and one hour of lab activity each class day. Sp

221 Clinical II (3) A continuation of supervised clinical education. Emphasis on radiographic/fluoroscopic procedures and examinations of the extremities. Introduces special procedures and CT scanning. Correlates with RADT 218, and 222. (16 hours/week) Sp

222 Special Procedures (2) This course is an introduction to cardiovascular, neurological, and other specialized radiographic procedures and imaging equipment including tomography, fluoroscopy, and digital imaging. Sp

224 Advanced Imaging Equipment (2) This course is designed to establish a knowledge base in radiologic, fluoroscopic, mobile, tomographic, and ultrasound equipment requirements and design. Sp

225 Radiologic Physics (3) This course studies the physical principles underlying radiologic technology, with special attention given to the equipment required to generate x-rays, the nature and behavior of x-rays in diagnosis. F

285 Clinical III (4) A 12-week summer session permitting further development of radiographic/fluoroscopic procedures and clinical skills learned during the first year with continued emphasis on skeletal examinations and introduction to skull radiography. Introduction to second shift and weekends. (40 hours/week). Su

301 Sectional Anatomy (2) This course is a study of the regional and topographic anatomy of the various organ systems. The course includes basic cross-sectional anatomy where appropriate. Practical application of knowledge of anatomy will be related to radiographic examinations. F

325 Clinical IV (3) A continuation of supervised clinical education, this course continues to emphasize skeletal examinations and skull radiography. (24 hours/week) F

335 Radiation Biology (2) This course is designed to study the biological effects of radiation at atomic, molecular, cellular, and systemic levels. In addition, short- and long-term somatic and genetic effect, dose limits, and methods of radiation protection for the patient and the technologist are discussed. F

345 Radiographic Pathology (2) Studies the changes that occur with disease in the various systems of the body and the methods of examination and application to radiologic technology. Sp

365 Directed Study (1) This course emphasizes individualized study in the five major areas of diagnostic imaging which include protection; radiographic equipment operation and maintenance; image production and evaluation; radiographic procedures; and patient care procedures. Sp

375 Clinical V (3) Final mastery of all clinical competencies with an introduction to night shift and alternate clinical environments. (30 hours/week). Sp

382 Radiographic Quality Control (2) An introduction to the concepts of quality control and quality assurance in the radiology department. Includes the study of quality assurance tests for radiographic machines and film processors. Sp

387 Clinical Application of Sonography (1) Observation of all clinical duties in an ultrasound department. Basic instruction and introduction provided in the clinical setting. Competencies will be required. (Summer II & Summer III) Su

480 Special Topics in Radiologic and Imaging Sciences (1-3) This course provides the opportunity for analysis and synthesis of concepts and research related to special topics in imaging sciences and health care. Su, F, Sp

411 CT/MRI Physics and Instrumentation (4) This course provides the students with a detailed study of the computed tomography and magnetic resonance imaging physics and instrumentation information. Course topics include principles of operation, system components, image characteristics, image resolution, image quality, scan design for spiral computed tomography, nuclear magnetism, precession of nuclei, larmor frequencies, production of the nuclear magnetic resonance signal, nuclear magnetic resonance pulses, nuclear magnetic resonance decay, production of the magnetic resonance image, magnetic resonance imaging equipment, image quality, image contrast, paramagnetic contrast agents, safety and biological hazards. F

413 Magnetic Resonance Imaging and Computed Tomography Procedures I (4) This course provides the students with a detailed study of the magnetic resonance imaging computed tomography procedures of the head and spine. F

414 Clinical VII – CT/MRI (3) This course provides the students with an introduction to the functions and basic procedures of magnetic resonance imaging and computed tomography. This course includes an overview of the field of MRI/CT, ethics, patient care, professional standards, and the clinical application of imaging skills of the following examinations: routine examinations of the head, skull, neck, cervical spine, thoracic spine, and lumbar spine. All MRI/CT procedures will be performed under the direct supervision of a registered MRI/CT technologist. F, Sp, Su

415 Magnetic Resonance Imaging and Computed Tomography Procedures II (4) This course provides the students with a detailed study of the magnetic resonance imaging physics and computed tomography procedures of the thorax, abdomen, urogenital system, pelvis, hip, and knee. Sp

416 Clinical VIII – CT/MRI (3) This course provides the students with the introduction to the functions of magnetic resonance imaging and computed tomography. The students will perform the following routine examinations: the thorax, abdomen, pelvis, and knee. All MRI/CT procedures will be performed under the direct supervision of a registered MRI/CT technologist. F, Sp, Su

421 Radiologic and Imaging Sciences Clinical Education Methods (3) This course focuses on clinical education principles and procedures for radiology programs. Lesson plan formation, unit plan organization, teaching strategies for the clinical educator, and evaluation methods are studied.

424 Radiologic and Imaging Sciences Practicum I (3) This course will provide students with a practicum in clinical applications within general radiography and radiology management. The student will intern as an assistant clinical instructor or assistant radiologic manager in an accredited radiology clinical site. Concurrent with the clinical practicum the student will participate in classroom instruction or internet delivered instruction. Students will share knowledge with each other concerning positive experiences and difficulties they may have encountered in their clinical practicum. Students will be supervised by clinical instructors and departmental managers. F, Sp
This course focuses on the general guidelines for radiographic critique. The student will critique radiographs on the following regions: chest and abdomen; upper and lower extremities; shoulder; pelvis and hip; cervical, thoracic, and lumbar vertebrae; ribs; and cranium.

This course provides the student with a basic knowledge of cross-sectional abdominal and pelvic sonography. Emphasis is placed on the correct use of all technical and medical terms that are necessary for a complete discussion of sonographic procedures within the abdomen, related clinical symptoms and laboratory tests, normal vs. abnormal sonographic patterns of the anatomy studied, related disease processes, and sonographic protocol for each of the exams covered in the course. Prerequisite: DMS 302 or consent of the instructor.

This course focuses on the current radiology management systems and picture archival medical systems.

This course provides the students with the knowledge, theory, and proficiency in performing the following MRI/CT examinations: skull, head, sinuses, neck, cervical spine, thoracic, and abdominal examinations; thoracic, and lumbar examination; pelvic, hip, and knee. Emphasis is placed on the correct use of all technical and medical terms that are necessary for a complete discussion of sonographic procedures within the abdomen, related clinical symptoms and laboratory tests, normal vs. abnormal sonographic patterns of the anatomy studied, related disease processes, and sonographic protocol for each of the exams covered in the course. Prerequisite: DMS 302 or consent of the instructor.

The course is designed to provide a fundamental background in ethics and law. An introduction to historical perspective, medicine and law, civil liability, negligence, standards of care, informed consent, documentation, risk management, safety issues, whistle blowing, and education will be presented. Topics include misconduct, malpractice, legal and professional standards, Code of Ethics, Code of Professional Conduct for Diagnostic Medical Sonographers, Code of Professional Conduct, and the ASRT scope of practice. The importance of proper documentation and informed consent is emphasized. Prerequisite: Acceptance into the DMS program.

This course provides the student with an introductory study of sonographic physics. Emphasis is placed on the principles of ultrasound and its propagation through tissues, construction of the ultrasound transducer, and the various types of continuous wave and pulse echo imaging modalities. Prerequisite: DMS 302 or consent of the instructor.

This course provides the student with an introductory study of sonographic physics and instrumentation within the practice of general diagnostic medical sonography. Emphasis is placed on the principles of ultrasound and its propagation through tissues, construction of the ultrasound transducer, and the various types of continuous wave and pulse echo imaging modalities. Prerequisite: DMS 316 or consent of the instructor.

This course provides the student with a beginning sonography student with a thorough understanding of the ultrasound department, key terms and definitions pertaining to the field of diagnostic sonography, important laboratory values, and surgical procedures. Students gain a beginning understanding of the value of diagnostic medical sonography in a healthcare setting, survey the role of sonographers in a variety of settings, recognize national and state credentialing requirements, identify sonography association functions at all levels, and recognize ARDMS standards, ethics, and policies and their effects on practicing sonographers' conduct and patient treatment. Prerequisite: DMS 302 or consent of the instructor.

This course provides the student with a basic knowledge of cross-sectional abdominal and pelvic sonography. Emphasis is placed on the sonographic appearance of abdominal and pelvic organs and vessels and their anatomical relationship to each other. Prerequisite: DMS 302 or consent of the instructor.

This course provides the student with a study of the clinical applications within the specialty of abdominal sonography. Emphasis is placed on the correct use of all technical and medical terms that are necessary for a complete discussion of sonographic procedures within the abdomen, related clinical symptoms and laboratory tests, normal vs. abnormal sonographic patterns of the anatomy studied, related disease processes, and sonographic protocol for each of the exams covered in the course. Prerequisite: DMS 302 or consent of the instructor.

This course provides the student with an introductory study of sonographic physics and instrumentation within the practice of general diagnostic medical sonography. Emphasis is placed on the principles of ultrasound and its propagation through tissues, construction of the ultrasound transducer, and the various types of continuous wave and pulse echo imaging modalities. Prerequisite: DMS 316 or consent of the instructor.

This course provides the student with an introductory study of sonographic physics and instrumentation within the practice of general diagnostic medical sonography. Emphasis is placed on the principles of ultrasound and its propagation through tissues, construction of the ultrasound transducer, and the various types of continuous wave and pulse echo imaging modalities. Prerequisite: DMS 316 or consent of the instructor.

This course provides the student with a study of the clinical applications within the specialty of gynecologic sonography. Emphasis is placed on the correct use of all technical and medical terms that are necessary for a complete discus-
DMS 326 Sonographic Lab Practice II (2) This course provides the student with continued preparation in the sonography clinical environment through campus laboratory practice. Students will continue to build on skills introduced in DMS 316 by gaining an understanding of the daily activities within an ultrasound department, necessary skills needed to properly operate diagnostic ultrasound equipment, and proper patient care for sonography exams. Emphasis is placed on the application of skills studied in DMS 323, Obstetric Procedures and DMS 324, Gynecology Procedures. The student will achieve an understanding of clinical and practical experience in support of classroom studies. Prerequisite: DMS 316 or consent of the instructor. F

DMS 327 Clinical Practice I-General (3) Supervised clinical education allowing students to apply knowledge and essential skills of diagnostic medical sonography. Emphasis is placed on the application of skills studied in DMS 315, Abdominal Procedures and DMS 316, Sonographic Lab Practice I. Prerequisite: DMS 316 or consent of the instructor. F

DMS 331 Sonographic Physics & Instrumentation II (3) This course provides the student with a advanced study of sonographic physics and instrumentation within the practice of general diagnostic medical sonography. Emphasis is placed on the principles of continuous wave and Doppler ultrasound, image artifacts, system operation and display, and biological effects of medical sonography. Prerequisite: DMS 327 or consent of the instructor. Sp

DMS 332 Small Parts, Neurosonography, & Specialty Exams (3) This course provides the student with a study of the clinical applications within the areas of small parts, neurosonography, and specialty exams performed in diagnostic medical sonography. Emphasis is placed on the correct use of all technical and medical terms that are necessary for a complete discussion of sonographic procedures, related clinical symptoms and laboratory tests, normal vs. abnormal sonographic patterns of the anatomy studied, related disease processes, and sonographic protocol for each of the exams covered in the course. Prerequisite: DMS 327 or consent of the instructor. Sp

DMS 333 Critique, Clinical Correlation, & Case Analysis (2) This course provides the student with advanced discussions and critical reviews of abdominal, obstetric, and gynecologic ultrasound. Emphasis is placed on correlating underlying pathophysiology with its sonographic presentation, related diagnostic procedures, and the role of ultrasound in the medical diagnostic process. Prerequisite: DMS 327 or consent of the instructor. Sp

DMS 337 Clinical Practice II-General (4) This course is a continuation of supervised clinical education. Emphasis is placed on the application of skills studied in DMS 323, Obstetric Procedures, DMS 324, Gynecology Procedures, and DMS 326, Sonographic Lab Practice II. The course introduces alternate clinical shifts and environments. Prerequisite: DMS 326 and DMS 327 or consent of the instructor. Sp

DMS 347 Advanced Clinical Practice (4) A final mastery of all sonographic clinical competencies within a supervised clinical education setting. Emphasis will be on general skill achievement with introduction to specialized sonographic examinations and procedures. Prerequisite: DMS 337 or consent of the instructor. Su

DMS 351 Clinical Practice III-General (5) A final mastery of all sonographic clinical competencies. Emphasis is placed on improving general sonography skills studied in DMS 327 and DMS 337. This course introduces alternate clinical rotations and surgical applications. Prerequisite: DMS 337 or consent of the instructor. Su

DVT 398 Introduction to Sonographic Vascular Lab (2) This course provides the student with an introduction to the sonographic vascular lab clinical through campus laboratory practice. Students will gain an understanding of the daily activities within a vascular laboratory, necessary skills to properly operate vascular diagnostic ultrasound equipment, and proper patient care for all vascular sonography exams. The student will achieve an understanding of clinical and practical experience in support of classroom studies. Prerequisite: DMS 337 or consent of the instructor. Su

DVT 401 Introduction to Noninvasive Vascular Testing (2) This course provides the student with an introduction to the testing procedures within the specialty of vascular sonography. Emphasis is placed on various types of vascular testing methods, equipment utilized, and conditions warranting vascular examination. Prerequisite: DVT 398 or consent of the instructor. Su

DVT 402 Vascular Anatomy, Physiology & Pathophysiology (3) This course provides the student with an introduction to the vascular anatomy and physiology as it pertains to diagnostic vascular sonography. Emphasis is placed on gross anatomy arterial and venous systems. Topics include vascular physiology and fluid dynamics of the circulatory system. Prerequisite: DVT 398 or consent of the instructor. Su

DVT 421 Noninvasive Diagnosis of Vascular Disease (2) This course provides the student with a study of the disease processes pertaining to diagnostic vascular sonography. Emphasis is placed on clinical signs, symptoms, and laboratory tests of vascular diseases. Topics include patient history, risk factors, contributing diseases, and normal vs. abnormal vascular sonographic patterns of diseases. Prerequisite: DVT 402 or consent of the instructor. F

DVT 422 Introduction to Echocardiography (3) This course provides the student with an introductory study of the clinical applications within the specialty of cardiac sonography. Emphasis is placed on the anatomic and physiologic relationships within the thoracic cavity. Prerequisite: DVT 402 or consent of the instructor. F

DVT 423 Sonographic Vascular Lab Practice I (2) This course provides the student with continued preparation in the vascular sonography clinical environment through campus laboratory practice. Students will continue to build on skills introduced in DVT 398 by gaining an understanding of the daily activities within a vascular lab, necessary skills needed to properly operate vascular diagnostic ultrasound equipment, and proper patient care for all vascular sonography exams. Emphasis is placed on the application of skills studied in DVT 401, Introduction to Noninvasive Vascular Testing. The student will achieve an understanding of clinical and practical experience in support of classroom studies. Prerequisite: DVT 402 or consent of the instructor. F

DVT 426 Clinical Practice I-Vascular (2) Supervised clinical education allowing students to apply knowledge and essential skills of vascular sonography. Emphasis is placed on the application of skills studied in DVT 398, Introduction to Sonographic Vascular Lab and DVT 401, Introduction to Noninvasive Vascular Testing. Prerequisite: DVT 402 or consent of the instructor. F

DVT 431 Vascular Physics & Instrumentation (2) This course provides the student with a study of sonographic physics and instrumentation within the practice of vascular sonography. Emphasis is placed on...
the principles of ultrasound and its propagation through arteries and veins, the use of Doppler as a vascular diagnostic tool, normal and abnormal Doppler signals, and the various types of Doppler equipment used in the practice of vascular sonography. Prerequisite: Admission to DVT program or consent of the instructor. Sp

DVT 432 Advanced Echocardiography (3) This course provides the student with an advanced study of the clinical applications within the specialty of cardiac sonography. Emphasis is placed on echocardiographic evaluation procedures and techniques. Prerequisite: DVT 422 or consent of the instructor. Sp

DVT 436 Critique, Clinical Correlation & Case Analysis (3) This course provides the student with advanced discussions and critical reviews of vascular and cardiac ultrasound. Emphasis is placed on correlating underlying pathophysiology with its sonographic presentation, related diagnostic procedures, and the role of ultrasound in the medical diagnostic process. Prerequisite: DVT 426 or consent of the instructor. Sp

DVT 437 Clinical Practice II-Vascular (4) A continuation of supervised clinical education. Emphasis is placed on the applications of skills studied in DVT 421, Noninvasive Diagnosis of Vascular Disease, and DVT 423, Sonographic Vascular Lab Practice I. Introduces alternate clinical shifts and environments. Prerequisite: DVT 423 and DVT 426 or consent of the instructor. Sp

DVT 438 Clinical Practice III-Vascular (5) A final mastery of all sonographic clinical competencies. Emphasis is placed on improving vascular sonography skills studied in DVT 426 and DVT 437. Introduces alternate clinical rotations and surgical applications. Prerequisite: DVT 437 or consent of the instructor. Su

Respiratory Therapy
This program prepares individuals to function effectively as entry-level respiratory therapists. Respiratory therapists work in a rapidly changing, fast-paced medical environment and possess advanced knowledge for the care and treatment of patients with cardiopulmonary deficiencies and diseases. Respiratory therapy is a health profession whose practitioners function in the diagnosis, treatment, management, and preventive care of patients with medical disorders such as asthma, emphysema, pneumonia, pulmonary edema, croup, bronchitis, and newborn and acute respiratory distress. These professionals utilize their specialized knowledge, clinical expertise, and interpersonal skills to care directly for patients. The respiratory therapist is proficient in the therapeutic use of medical gases, humidification, aerosols, artificial airways, mechanical ventilation, chest physiotherapy, and cardiopulmonary resuscitation.

To obtain required knowledge and skills needed for respiratory therapy, students must follow a prescribed sequence of academic and clinical courses. University Core Curriculum courses also are required for completion of degree requirements. All University Core Curriculum courses and most respiratory therapy (REST) courses are taught on campus. Clinical courses are conducted at various clinical sites including Deaconess Hospital, St. Mary’s Medical Center, Henderson Community Methodist Hospital, Good Samaritan Hospital of Vincennes, Owensboro Mercy Health Systems, and Health South Tri-State Rehabilitation Hospital.

The program involves 24 months of continuous full-time study. To complete the program, students must pass all required University Core Curriculum courses, and maintain at least a C in all REST courses. University Core Curriculum courses may be completed on a part-time basis prior to entering the program, or they can be transferred from other approved institutions. Students interested in completing University Core Curriculum courses prior to entering the program or transferring credits should contact the program director.

An Associate of Science degree in Respiratory Therapy is awarded to students who successfully complete the program. Graduates are eligible to take the examinations (entry-level and registry) given by the National Board for Respiratory Care and become registered therapists (R.R.T.) upon successful completion of the credentialling process. Graduates also may pursue a Bachelor of Science degree in Health Services. The program is approved by the Committee on Accreditation for Respiratory Care, 1248 Harwood Road, Bedford, TX 76021, phone 817/283-2835 and the Commission on Accreditation of Allied Health Education Programs, 515 N. State Street, Suite 7530, Chicago, IL 60610, phone 312/464-5333.

Admission Requirements
Applicants must apply for admission to the University before being admitted to the respiratory therapy program. A separate application must be submitted for admission to the program. Application forms for the respiratory therapy program may be obtained from the College of Nursing and Health Professions or by calling 812/464-1702. The completed form must be submitted to the respiratory therapy program by April 1 of the year the student wishes to enter. Due to limited enrollment in this program, applicants are encouraged to apply as soon as possible. A complete set of official high school and any college/university transcripts must be included with the program application form.

Admission criteria include the following:
1. Satisfactory SAT or ACT score;
2. Graduation in upper third of high school class, with a minimum grade point average of 2.5 or above (4.0 system);
3. Completed respiratory therapy application accompanied by an official high school transcript;

4. High school courses that include algebra, chemistry, physics, anatomy and physiology. Courses in advanced sciences, math, and computer sciences also are recommended.

Students meeting academic requirements also must be in good health, eligible for respiratory therapy certification, and capable of fulfilling clinical practice requirements. Students who do not meet these criteria may ask for reconsideration or reevaluation following successful completion of selected science and other specified courses required for the respiratory therapy program. Students currently enrolled in an accredited college or university must submit an official transcript of grades with the application.

All qualified applicants are interviewed by the respiratory therapy admissions committee. All interviews are confidential, private, and scheduled by appointment. Respiratory therapy program applicants are encouraged to participate in tours at the local hospitals to become familiar with the field. Tours can be arranged by contacting the program director prior to the April 1 deadline.

126 Respiratory Care II (1) Studies infectious diseases, the physiologic basis of mechanical ventilation, and introduces the student to physical diagnosis. Correlates with Respiratory Care II. Sp

205 Respiratory Therapy Procedures V (1) Examines and studies the procedures, techniques, and equipment utilized in the practice of lung physiotherapy, with emphasis on the mechanics of respiration, breathing exercises, and respiratory therapy care techniques. Involves clinical practice. Su

206 Respiratory Therapy Procedures VI (3) Studies, in theory and practice, the operation, handling, and maintenance of respiratory therapy equipment, including tests and maintenance of analyzers, humidifiers, masks, catheters, cannulae, inhalators, nebulizers, respirators, ventilators, and other specialized equipment and mechanical devices. Involves clinical practice. Su

214 Pulmonary Diseases I (3) Examines the etiology, pathophysiology, physical diagnosis, and respiratory care of pulmonary problems, with physician rounds, and examination of selected patients, and discussion of commonly related clinical problems. F

222 Respiratory Pathophysiology II (1) Further explores the structure and function of the diseased lung with physician rounds and discussion of respiratory disorders. Involves clinical practice. Sp

224 Pulmonary Diseases II (1) Further explores respiratory care of pulmonary problems, with weekly physician rounds continued. Correlates with Respiratory Therapy 214. Involves clinical practice. Sp

230 Ethics And Administration (1) Presents the ethics adhered to by health professionals, describing the basic elements of organization and administration. Emphasis is on ethics pertinent to the ill person, with the examination of various hospital organizational structure and function as these relate to the respiratory therapist. F

261 Clinical Applications Of Respiratory Therapy I (3) Examines the relationship between theoretical concepts from the physician's point of view to the clinical practice of the respiratory therapist, with emphasis on emergency care and treatment, blood gas analysis, arterial puncture, and endotracheal intubation. Sp

262 Clinical Applications Of Respiratory Therapy II (2) Continuation of Respiratory Therapy 261, with emphasis on neonatology and pediatric ventilation and intubation. Sp

263 Clinical Applications Of Respiratory Therapy III (2) Continuation of Respiratory Therapy 261 and 262, with emphasis on general, thoracic, and neurosurgical conditions, and as well as spirometry and pulmonary function. Sp

291 Clinical Practice Of Respiratory Therapy Procedures I And III (2) Practical study of the theory and practice of respiratory therapy and the treatment of respiratory diseases. Includes seminar discussions of client problems relevant to respiratory care. F

292 Clinical Practice Of Respiratory Therapy Procedures II And IV (1) Continuation of Respiratory Therapy 291. Sp

293 Clinical Practice Of Respiratory Therapy Procedures V And VI (1) Continuation of Respiratory Therapy 291. Su

294 Clinical Practice Of Respiratory Therapy I (3) Provides experience in the clinical application of respiratory care in the critical care setting. Students also gain experience in other areas of the hospital including the OR, ER, and special care areas. F

295 Clinical Practice Of Respiratory Therapy II (1) Continuation of Respiratory Therapy 294. Sp

391 Clinical Practice Of Respiratory Therapy III (3) Provides experience in clinical respiratory therapy patient care. Emphasizes the assessment and management of patients in critical care and rehabilitation. Su
The Pott College of Science and Engineering consists of five academic departments: biology, chemistry, engineering, geology and physics, and mathematics. Through its departments, the College offers coursework leading to baccalaureate degrees with majors in the following areas: biology, biophysics, chemistry, engineering, geology, industrial supervision, and mathematics. Minor programs are available in most areas listed as majors and in other science-related areas as well, as noted elsewhere in this bulletin. All majors in school programs are assigned faculty advisors who assist with individual planning of each student’s course of study and offer career counseling.

Students who aspire to professional careers requiring additional training beyond the bachelor's degree usually major in biology or chemistry though other majors are possible. Pre-professional curricula (which are not themselves majors) are available in the following areas:

- Pre-Dentistry
- Pre-Forestry
- Pre-Medical Technology
- Pre-Medicine
- Pre-Optometry
- Pre-Osteopathy
- Pre-Pharmacy
- Pre-Physical Therapy
- Pre-Physician Assistant
- Pre-Podiatry
- Pre-Veterinary

Students seeking careers as science teachers at the secondary level select the science teaching major offered by the College. This major includes the science/mathematics content courses along with professional education courses offered through the Bower-Suhreinrich College of Education and Human Services. Specific teacher certification requirements are given elsewhere in this bulletin.

In addition to coursework for its majors and minors, the Pott College of Science and Engineering offers many courses in science and mathematics that students in all majors take to fulfill requirements of the University Core Curriculum, as explained elsewhere.

In keeping with its philosophy that students learn science and engineering best by doing science and engineering, the College offers most of its courses (except mathematics courses) as laboratory-intensive experiences.

**Biology**

The biology curriculum is based on the premise that a biologist, regardless of professional goals, must demonstrate a high degree of competence in several areas of biology. These areas include anatomy, developmental biology, cellular molecular biology, ecology, evolution, genetics, microbiology, physiology, and systematics. In order to achieve maximum benefits from these areas, a thorough knowledge of chemistry, physics, and mathematics is imperative.

Whether a student plans to complete a liberal arts degree and enter graduate school, teach, attend a professional school, or otherwise pursue a career in biology, the same basic biology curriculum is followed.

Curricula, which have proven to be highly successful, also are offered in pre-dentistry, pre-forestry, pre-medical technology, pre-medicine, pre-optometry, pre-osteopathy, pre-pharmacy, pre-physical therapy, pre-physician assistant, pre-podiatry, and pre-veterinary science. Students interested in these pre-professional curricula should contact the biology department chair for complete details.

**Curricula**

The biology program offers one general curriculum for the Bachelor of Science or the Bachelor of Arts degree. Candidates for either degree must successfully complete the University requirements of a minimum of 124 credit hours of credit, including 50 hours of University Core Curriculum course work and the requirements of the biology department. The Bachelor of Arts degree in biology is granted upon completion of 12 hours of a single foreign language, in addition to the requirements for the Bachelor of Science degree. A minor is not required for either the Bachelor of Arts or Bachelor of Science degree in biology.

**Major-Biology, Bachelor of Science or Bachelor of Arts 45 credit hours**

Elective courses: 18 hours selected from the offerings in biology as directed by advisor. Normally not more than four hours of 491 and 492 will apply toward the major. Required prerequisites include MATH 115, 3 hrs., 118, 5
hrs., 241, 3 hrs., or 230, 4 hrs.; PHYS 175/205, 4/5 hrs., 176/206, 4/5 hrs.; CHEM 261, 4 hrs., 262, 4 hrs., and 353/354, 8 hrs.; or 241/321, 7 hrs.

Minor-Biology
25 credit hours

Elective courses: 12 hours as directed by advisor selected from biology courses numbered 200 and above.

Minor-Environmental Biology
25 credit hours

Required courses: BIOL 141-Principles of Biology, 4 hrs., 151-Botany, 3 hrs.; 152-Zoology, 3 hrs., 215-Ecology, 3 hrs.

Elective courses: 12 hours as directed by advisor selected from the following: 305-Aquatic Biology, 4 hrs.; 251-Environmental Conservation, 3 hrs.; 341-Mycology, 4 hrs.; 361-Plant Anatomy and Taxonomy, 4 hrs.; 308-Vertebrate Biology, 4 hrs.; 321-Invertebrate Zoology-4 hrs.; 451-General Ecology, 4 hrs.; GEOL 214-Meteorology, 3 hrs.; GEOL 233-Environmental Geology, 3 hrs.; GEOL 468-Oceanography, 3 hrs.; CHEM 341-Environmental Chemistry, 3 hrs.; CHEM 421-Instrumental Methods of Analysis, 3 hrs.

Science Teaching

Students who wish to become biology/life sciences teachers at the secondary school level should declare the Science Teaching major (described elsewhere in this bulletin) and elect either the single- or dual-licensure option for life science. The content course requirements that lead to teaching licensure in life sciences are as follows:

Course Descriptions

Following certain course descriptions are the designations: F, Sp, Su.

These indicate the semesters fall, spring, summer in which the course is normally offered and are intended only as an aid to students planning their programs of study.

Lecture and laboratory breakdown of courses is indicated at the end of each description.

105 Biology of Human Concern (3) General concepts in the life sciences, stressing those fundamental to life processes and of human concern. This course is not for biology majors and minors. (2 hour lecture, 2 hours lab per week). F, Sp, Su

111 Ethnobotany (3) An examination of human uses of plants and the cultural/societal origins of usage. Plants for medicine and health, food, beverage, protection, aesthetics, and recreation will be discussed. Basic concepts in cell biology, genetics, plant taxonomy/identification, plant anatomy, and plant physiology typical of Introductory Biology for non-majors will be covered. Students also will become familiar with the scientific method. Students may take for credit either BIOL 111 or BIOL 112. Does not apply toward a major or minor in biology. No prereq. (3 hours of lecture per week). Sp

112 Ethnobotany with Lab (4) Examination of human uses of plants and the cultural/societal origins of usage. Plants for medicine and health, food, beverage, protection, aesthetics, and recreation will be discussed. Basic concepts in cell biology, genetics, plant taxonomy/identification, plant anatomy, and plant physiology typical of Introductory Biology for non-majors courses will be covered. Through the lab, students will gain experience that will reinforce concepts from lecture. Students will work through the scientific method and use some of the basic tools used in the study of science. Students may take for credit either BIOL 111 or BIOL 112. There will be opportunities for students to work through open-ended laboratory experiences. Does not apply toward a major or minor in biology. No prereq. (3 hours of lecture, 2 hours lab per week). Sp

114 Understanding Evolution (4) An introduction to the science of biological evolution, from the history of evolutionary thought to the concepts of modern evolutionary theory. Readings, videos, and discussions will examine the processes of organic evolution, the history of life on earth, and the impact that evolutionary thinking has had on the development of the modern Western worldview. The nature and process of science as a way of understanding will be stressed throughout. Students will gain experience with thinking and writing about scientific topics. In the lab exercises, students will apply scientific principles to formulate and answer questions and reinforce concepts introduced in lecture with hands-on experiences. (3 hours lecture, 2 hours lab per week). No prereq. Does not apply toward a major or minor in biology.

121 Human Anatomy and Physiology I (3) An introduction to biological and chemical principles as they apply to the human body. Lectures and laboratory work will cover cellular anatomy and physiology, tissues, and the following systems: integumentary, skeletal, muscular,
nervous, and endocrine. (2 hours lecture, 2 hours lab per week). Prereq: college chemistry strongly recommended or concurrent. F, Sp, Su

122 Human Anatomy and Physiology II (3) A continuation of BIOL 121 consisting of lectures and laboratory work concerning the following systems: respiratory, cardiovascular, lymphatic, digestive, excretory, and reproductive. (2 hours lecture, 2 hours lab per week). Prereq: BIOL 121 required. F, Sp, Su

141 Principles of Biology (4) An introductory survey of the fundamental characteristics and processes of living organisms, including cell structure and function, energetics, genetics, development, evolution, and ecology. Laboratories include both didactic and investigative explorations of these processes. (3 hours lecture, 3 hours lab per week). Prereq: Placement into ENG 100 or higher English writing course, and C or better in Math 100 or placement into higher level college math course, and science major, or consent of instructor. F, Sp, Su

151 Botany (3) Fundamentals of plant structure and function are explored in the context of plant diversity and evolution. Consideration is given to variation in plant morphological and physiological strategies for life in a different environment. A course for majors and minors in biology. (2 hours lecture, 2 hours lab per week). Prereq: BIOL 141. F, Sp

152 Zoology (3) A survey of the adaptations and taxonomic relationships of the major animal phyla with emphasis on evolutionary trends. Primarily for majors and minors in biology. (2 hours lecture, 2 hours lab per week). Prereq: BIOL 141. F, Sp

176 Nutrition (3) A study of the nutrients, their availability in foods, mechanisms of digestion, absorption and assimilation into body tissues. Also included will be a study of special conditions relating to nutrition. Does not apply toward a major or minor in biology. One semester college chemistry recommended. (3 hours lecture per week). Sp

208 Wildlife Biology (3) The course will address basic principles of wildlife ecology and their application in the management of wildlife populations. Topics include population growth, censusing, food habits, predation, harvesting, disease, exotic and endangered species, captive animal management, and conservation. Laboratories will include indoor and outdoor exercises in sampling, habitat evaluation, censusing, and wildlife observation. (2 hours lecture, 2 hours lab per week). F, alternate years.

215 Ecology (3) Introductory survey of the nature and importance of the interactions between organisms and their abiotic and biotic environments. Topics include energy flow, population dynamics, species interactions, community structure and development, and the use of statistics in ecological studies. (3 hours lecture per week). Prereq: BIOL 151 and 152. F, Sp

221 Introduction to Entomology (4) Study of insects, their structure, physiology, taxonomy, development, ecology, economic importance, and their relation to other arthropods. (3 hours lecture, 3 hours lab per week). Prereq: BIOL 152. F

225 Biological Literature and Communication (2) This course is an introduction to scientific communication in biology. Topics covered will include the structure of primary literature in biology and outlets for communication of new knowledge in biology, concepts of basic statistical description and inference relevant to biologists, and methods for using biological databases. Hypothesis testing and the hypothetico-deductive method also will be discussed from both the standpoints of statistics and the epistemological foundations of scientific knowledge. (2 hours lecture per week). Prereq: BIOL 141.

251 Environmental Conservation (3) This course is designed to introduce students to the basic scientific principles needed to understand the interdisciplinary and multinational (multicultural) nature of environmental issues and concerns. Through a series of lectures, discussions, and videotapes the student will be introduced to environmental issues from scientific viewpoints as well as political, economic, social, and philosophical realms. (3 hours lecture per week). F, Sp, Su

272 Medical Microbiology (3) Structure, physiology, and general characteristics of medically important microorganisms. Included will be a study of host defense mechanisms, infections of human systems, control of infection, and development of microbiological techniques. Primarily for students in nursing, dental hygiene, and respiratory therapy. (2 hours lecture, 2 hours lab per week). Prereq: one college chemistry course and one college course in human anatomy and/or physiology or BIOL 152 or equivalent. F, Sp, Su

282 Heredity and Society (3) Introduction to the principles of human heredity, nature, and expression of genetic material. The medical and social implications of genetics are explored. Biology majors may not enroll. Prereq: BIOL 105 and chemistry recommended. (3 hours lecture per week). F

285 Animal Behavior (3) Using biological studies augmented with video clips, the diversity of animal behavior will be explored in the contexts of genetics, environment, ecology, and evolution. Throughout the course, the process of science will be emphasized as a way to understand animal behavior. (3 hours lecture per week). Prereq: one college course in biology

305 Aquatic Biology (4) Dimensions of the physical, chemical, and biological factors of lakes, streams, and estuaries; including the study of benthos and vertebrates with emphasis on identification, classification, anatomy, physiology, and ecology. Indiana species will be emphasized but other important species will be included. Laboratory will be devoted to exploring techniques for evaluation of various aquatic parameters and the identification of organisms. (3 hours lecture, 2 hours lab per week). Prereq: BIOL 151 and BIOL 152. Sp

308 Vertebrate Biology (4) Lecture, laboratory, and field work on vertebrates; including identification, morphology, natural history, and evolution. (3 hours lecture, 2 hours lab per week). Prereq: BIOL 152 or consent of instructor. Sp

321 Invertebrate Zoology (4) Study of the natural history, classification, adaptation, life cycles, physiology, and anatomy of invertebrate animals. (3 hours lecture, 3 hours lab per week). Prereq: BIOL 152 or consent of instructor. On demand.

333 Animal Physiology (4) An in-depth systems approach will be used to study physiological processes in vertebrate animals with an emphasis on mammals. The course will focus heavily on cellular and molecular mechanisms. Laboratories will include the use of living tissues for the purpose of demonstrating concepts covered in the lecture portion of the course. (3 hours lecture, 3 hours lab per week). Prereq: BIOL 152, CHEM 241, or 353 or concurrently, or consent of instructor. F, Sp

334 Cell Biology (3) An examination of the organization, functions, properties, and processes of eukaryotic cells, with selected comparisons to prokaryotic cells. Topics include the structure, flow, and expression of genetic information; the cell cycle; cellular energetics; membrane structure and function including cell signaling and transport; cell compartments and molecular trafficking; and the cytoskeleton and extra cellular structures. (3 hours lecture per week). Prereq: BIOL 141 and CHEM 241 or 353. F, Sp
335 Mechanisms of Pathophysiology (3) A systems approach will be utilized to understand underlying mechanisms of the disease process and how these mechanisms relate to and cause overt signs and symptoms. The content will emphasize normal homeostatic controlling mechanisms, how pathophysiologic mechanisms disturb homeostasis and cause dysfunction. (3 hours lecture per week). Prereq: one course in college physiology, BIOL 334, and one course in college chemistry or consent of instructor. Sp

336 Plant Physiology (4) The course probes the major questions of plant physiologic and biochemical function at the sub cellular, cellular, tissue, and whole-plant levels of organization. Attention also is paid to the role of plant physiological response to the biotic and abiotic environment. Lecture areas include photosynthesis, carbon balance, transport processes, mineral nutrition and biochemical defense; laboratory investigations will combine classic demonstrations of plant physiological principles with modern and investigative studies. (3 hours lecture, 3 hours lab per week). Prereq: BIOL 151. Co-requisite: Chemistry 241 or 353 or consent of instructor. Sp

341 Mycology (4) Comparative study of the major groups of fungi. Survey will include morphological, ecological, and taxonomic aspects of plant parasitic, mycorrhizal, human pathogenic, and saprophytic fungi. Laboratory work will include local field trips, specimen identification, and experience in culturing various types of fungi. (2 hours lecture, 4 hours lab per week). Prereq: BIOL 151 or consent of instructor. F, alternate years.

342 Comparative Chordate Anatomy (4) Lecture and laboratory studies of the functional morphology of chordates, with emphasis on the concept of homology. (2 hours lecture, 3.5 hours lab per week). Prereq: BIOL 152. F

361 Plant Anatomy and Taxonomy (4) Studies on the variation within, and the relationships among selected orders and families of vascular plants represented in the Indiana flora. Microanatomy of plants will be emphasized. (2 hours lecture, 4 hours lab per week). Prereq: BIOL 151. F, alternate years.

371 Tropical Biology (3) An extensive course designed to acquaint the student with natural biological interactions in aquatic and terrestrial environments. The course consists of a period of field study in an area remote from the local campus. Orientation prior to and following the course. Prereq: BIOL 151 and 152 or consent of instructor. S

375 Microbiology (3) The structure, physiology, identification, and significance of bacteria including an introduction to related organisms and immunology. (3 hours lecture per week). Prereq: BIOL 151 or BIOL 152, and CHEM 262 and BIOL 376 concurrently. F

376 Laboratory in Microbiology (2) Principles and laboratory techniques used in the isolation, cultivation, and identification of bacteria. Prereq: BIOL 375 concurrently. (4 hours lab per week) F

378 Virology (3) A survey of the structural mechanisms of replication and pathogenic mechanisms of bacterial, plant, insect, and animal viruses. (3 hours lecture per week). Prereq: BIOL 272 or 334 or consent of instructor. F

382 Genetics (4) The cellular and molecular basis of gene transmission, expression, interaction, mutation, mapping, and regulation. Includes laboratory investigations using molecular and classical techniques. (3 hours lecture, 3 hours lab per week). Prereq: BIOL 334 and CHEM 241 or 353. BIOL 375 recommended. F, Sp

422 Immunology (3) An introduction to the concepts and applications of immunology. The course emphasizes the structure, function, regulation, and development of the immune system. Immunopathology is included. (3 hours lecture per week). Prereq: BIOL 334 or consent of instructor. Sp

431 General Endocrinology (3) The glands of internal secretion, including their structure, biochemistry, and physiology. (3 hours lecture per week). Prereq: BIOL 333; CHEM 241 or 354 recommended. F

434 Macromolecules and Metabolism (4) Biological molecules, enzymology, intermediary metabolism, and regulation of biochemical processes from a functional context. The cellular and molecular basis of selected diseases and treatment are included. (4 hours lecture per week). Prereq: CHEM 241 or 354; BIOL 334. F

436 Molecular Biology Techniques (4) A project-oriented laboratory course focusing on the isolation, manipulation, analysis and expression of nucleic acids using molecular biology techniques. Techniques vary among projects and typically include DNA restriction, subcloning, PCR, primer design, blot analysis, and introductory bioinformatics. Other techniques are used when appropriate. Other techniques are used when appropriate. (2 hours lecture, 6 hours lab per week). Prereq: BIOL 382, CHEM 354 or 241, or consent of instructor. On demand.

442 Histology (4) This course consists of in-depth studies dealing with microscopic structures of principal animal tissues. (2 hours lecture 4 hours lab per week). Prereq: BIOL 152. F

451 Advanced Ecology (4) This course will cover advanced topics in ecology as determined by the interest of the instructor. Potential topics include behavioral ecology, microbial ecology, physiological ecology, and population ecology. Laboratories will provide opportunities to collect and analyze data germane to lecture topics. (3 hours lecture, 3 hours lab per week). Prereq: BIOL 215, or consent of instructor. F

461 Developmental Biology (4) An introduction to the cellular and molecular processes underlying the development of vertebrates and other organisms, with emphasis on morphogenesis, pattern formation, and gene action in development. Laboratory exercises include both classical and embryological and modern molecular techniques. (3 hours lecture, 3 hours lab per week). Prereq: BIOL 334, 382. Sp

465 Plant Growth and Development (4) An examination of plant growth and development. Factors that affect development of the plant will be studied. The role of growth regulators, the environment, and genetics in plant growth regulation will be emphasized. The laboratory will have a strong investigative component. (3 hours lecture, 3 hours lab per week). Prereq: BIOL 151, 382 or consent of instructor (alternate years).

481 Organic Evolution (3) A discussion of the science of evolution and how evolutionary theory can explain the diversity of life on earth. Topics include evidence for macroevolution, the history of evolutionary thought, adaptation, population genetics, speciation, and human evolution. (3 hours lecture per week). Prereq: BIOL 215; junior status in science or consent of instructor. F, Sp

482 Molecular Biology (3) Advanced topics in gene structure, expression, regulation, maintenance, and modification. Examples selected from eukaryotic, prokaryotic, and viral systems. Topics include the mapping, analysis, and manipulation of genes; the analysis and expression of genomes and proteomes; and molecular genetic applications in forensics, agriculture, industry, and medicine. (3 hours lecture per week). Prereq: BIOL 334, 382, and CHEM 241 or 354, or consent of instructor. Sp
490 Undergraduate Teaching (1) A course designed to give practical experience to biology majors in teaching a laboratory class. Duties involve preparation and set-up prior to class and answering student questions during the laboratory session. Design and administration of laboratory tests as well as grading homework will be a component of preparation. Students will be expected to attend staff meetings as appropriate for the course assignment. Hours do not apply to the University Core Curriculum or the biology major. Prereq: consent of department chair. F, Sp, S

491 Special Topics in Biology (1-4) A course for biology majors in which special topics are considered in an individual or seminar format. Consent of instructor required. F, Sp, S

492 Special Problems in Biology (1-3) Course consists of individual undergraduate research in an area of common interest to student and instructor. Consent of instructor required. F, Sp, S

493 Biology Colloquium (2) This course will train students with research results to communicate those results to the scientific community as professionals. The focus of the course will be on rapid communication methods used in professional conferences and meetings. Oral and poster presentation methods will be covered. The culmination of this course will be a colloquium in which student participants will present their research to the biology department and the University at large. (Two hours of lecture per week). Prereq: BIOL 492 or corequisite.

495 Senior Seminar in Biology (1) A seminar course in selected topics of current biological interest. Consent of instructor required. On demand.

Pre-Professional Areas
Pre-professional curricula are tailored to the student’s previous background and experience. Specific information about these curricula can be obtained from the chair of the Department of Biology. Biology majors enrolled in these curricula are assigned advisors in the Department of Biology.

Pre-Dentistry Pre-Pharmacy
Pre-Forestry Pre-Physical Therapy
Pre-Medical Technology Pre-Physician Assistant
Pre-Medicine Pre-Podiatry
Pre-Optometry Pre-Veterinary
Pre-Osteopathy

Medical Technology Curriculum
The medical technology curriculum consists of three years (approximately 100 hours) of pre-professional courses at the University plus, upon competitive acceptance, one year (12 months) of professional course work and clinical experience in an accredited medical technology program. Upon acceptance into and successful completion of the professional year, the University confers a baccalaureate degree and the student is eligible to take the national American Society of Clinical Pathology (ASCP) board exam. A student choosing not to apply to the professional program or who is not admitted to the program may complete a biology major for the baccalaureate degree. The University has an affiliation with Good Samaritan Hospital, Vincennes, Indiana, and Owensboro Mercy Health System, Owensboro, Kentucky.

Students who have completed a baccalaureate degree and pre-medical technology prerequisites can apply to any accredited medical technology program in the country. There are approximately five in Indiana.

Pre-professional required courses: BIOL 141-Principles of Biology, 4 hrs.; 151-Botany, 3 hrs.; 152-Zoology, 3 hrs.; 215- Ecology, 3 hrs.; 333-Principles in Physiology, 4 hrs.; 334-Cell Biology, 3 hrs.; 375-Microbiology, 3 hrs.; 376-Laboratory in Microbiology, 2 hrs.; 382-Genetics, 4 hrs.; 422-Immunology, 3 hrs.; 481-Organic Evolution, 3 hrs.; CHEM 261-General Chemistry I, 4 hrs.; 262-General Chemistry II, 4 hrs.; either 353-Organic Chemistry I, 4 hrs., 354-Organic Chemistry II, 4 hrs., or 241–Organic Biochemistry and 321-Quantitative Analysis I, 3 hrs.; MATH 230 or 241, 3 or 4 hrs.; PHYS 175-General Physics I, 4 hrs.; 176-General Physics II, 4 hrs.; Psychology 201-Introduction to Psychology, 3 hrs.; plus approximately 32 hours of accredited medical technology courses. Students must complete the University Core Curriculum requirements for graduation. Recommended courses: BIOL 335, 431, or 434, Computer Information Systems 151.

Elective courses: Sufficient courses to meet requirements for graduation.

Chemistry
Chemistry serves not only the students who wish to prepare themselves for industrial work or graduate study in chemistry, but also those who wish to satisfy the science requirements in the University Core Curriculum for the baccalaureate degree; to meet pre-professional requirements in many fields such as medicine, dentistry, engineering, pharmacy, and nursing; or to fulfill the requirements in chemistry for certification as secondary school teachers in the state of Indiana. Professional and pre-professional programs are designed to develop a strong background in the basic areas of chemistry.

Curricula
With the addition of 50 credit hours in the University Core Curriculum, the following curriculum comprises a four-year pattern. Students are encouraged to demonstrate a second-year foreign language competency.

Major (Industrial-Graduate Study)
ACS Approved Degree
47 credit hours
Required courses: 118-Freshman Chemistry Seminar I,
0.5 hrs.; 119-Freshman Chemistry Seminar II, 0.5 hrs.; 218-Sophomore Chemistry Seminar I, 0.5 hrs.; 219-Sophomore Chemistry Seminar II, 0.5 hrs.; 261-General Chemistry I, 4 hrs.; 262-General Chemistry II, 4 hrs.; 318-Junior Chemistry Seminar I, 0.5 hrs.; 319-Junior Chemistry Seminar II, 0.5 hrs.; 321-Quantitative Analysis, 3 hrs.; 353-Organic Chemistry I, 4 hrs.; 354-Organic Chemistry II, 4 hrs.; 418-Senior Chemistry Seminar I, 0.5 hrs.; 419-Senior Chemistry Seminar II, 0.5 hrs.; 421-Instrumental Methods of Analysis I, 3 hrs.; 422- Instrumental Methods of Analysis II, 3 hrs.; 431-Biochemistry I, 4 hrs.; 441-Inorganic Chemistry, 4 hrs.; 461-Physical Chemistry I, 4 hrs.; 462-Physical Chemistry II, 4 hrs.; 499-Introduction to Research in Chemistry, 2 hrs.

NOTE: Additional electives in chemistry are recommended. Each student will complete the requirements for the major by taking courses which will best benefit individual needs as determined by counsel with an advisor.

Other required courses include: MATH 230, 4 hrs.; MATH 330, 4 hrs.; PHYS 205, 5 hrs.; PHYS 206, 5 hrs.; BIOL 141, 4 hrs.; BIOL 334, 3 hrs.

Major (Pre-Professional, Medical, Dental, Teaching, etc.) Non ACS Approved Degree
42 credit hours
Required courses: 118-Freshman Chemistry Seminar I, 0.5 hrs.; 119-Freshman Chemistry Seminar II, 0.5 hrs.; 218-Sophomore Chemistry Seminar I, 0.5 hrs.; 219-Sophomore Chemistry Seminar II, 0.5 hrs.; 261-General Chemistry I, 4 hrs.; 262-General Chemistry II, 4 hrs.; 318-Junior Chemistry Seminar I, 0.5 hrs.; 319-Junior Chemistry Seminar II, 0.5 hrs.; 321-Quantitative Analysis, 3 hrs.; 353-Organic Chemistry I, 4 hrs.; 354-Organic Chemistry II, 4 hrs.; 418-Senior Chemistry Seminar I, 0.5 hrs.; 419-Senior Chemistry Seminar II, 0.5 hrs.; 421-Instrumental Methods of Analysis I, 3 hrs.; 422- Instrumental Methods of Analysis II, 3 hrs.; 431-Biochemistry I, 4 hrs.; 441-Inorganic Chemistry, 4 hrs.; 461-Physical Chemistry I, 4 hrs.; 462-Physical Chemistry II, 4 hrs.; 499-Introduction to Research in Chemistry, 2 hrs.

Other required courses may include: MATH 230, 4 hrs.; MATH 330, 4 hrs.; PHYS 205, 5 hrs.; PHYS 206, 5 hrs.; GEOL 161, 4 hrs.; GEOL 162, 4 hrs.; GEOL 341, 3 hrs.; and GEOL 481, 4 hrs.; BIOL 141, 3 hrs.; BIOL 151, 3 hrs.; BIOL 152, 3 hrs.; BIOL 215, 3 hrs.; and BIOL 251, 3 hrs.

Minor
26–27 credit hours

Elective courses: Selected electives from chemistry offerings as directed by advisor to bring total hours to 26–27 hours.

Chemistry (Teacher Certification)
Students who wish to become chemistry teachers at the secondary school level should declare the Science Teaching major (described elsewhere in this catalog) and elect either the single- or dual-licensure option for chemistry. The content course requirements that lead to teaching licensure in chemistry are as follows:

Single Licensure Option
CHEM 261 General Chemistry I 4
CHEM 262 General Chemistry II 4
CHEM 353 Organic Chemistry I 4
CHEM 354 Organic Chemistry II 4
Students may enroll in Chemistry 103 or 107, but not both, for a continuation of CHEM 261 with this introductory chemistry class. Selected principles and applications of inorganic, physical, organic, and biochemistry with laboratory experiments illustrating the principles covered. Prereq: working knowledge of algebra. (3-1) F, Sp, Su

175 Survey of Chemical Concepts (4) A broad introduction to chemical concepts selected to enhance the background of beginning science majors. Prereq: high school chemistry or consent of instructor. (3-1) F

218/219 Sophomore Chemistry Seminar I and II (1) This two-semester sequence is a continuation of CHEM 118/119. A more in-depth study of the chemical literature will be presented. Seminar speakers will provide expertise in a variety of chemical disciplines. Students will be responsible for minor presentations in addition to preparation of summaries and reports on various topics. Prereq: CHEM 119, (.5) 218F and 219Sp

241 Organic/Biochemistry Principles (4) The major emphasis is on introductory principles of organic and biochemistry. Prereq: CHEM 261 and CHEM 262 or equivalent. (4-0) Sp

261 General Chemistry I (4) A systematic study of the essential nomenclature, hypotheses, theories, and laws of chemistry necessary for chemistry majors and minors. Some of the topics presented in the course include stoichiometry, atomic structure, thermochemistry, solu-
tions, crystal structure, and gas laws. Prereq: MATH 111I or 118 or CHEM 175 or consent of instructor. (3-1) F, Sp, Su

262 General Chemistry II (4) A continuation of CHEM 261 with some laboratory work in qualitative analysis. Some of the topics presented include kinetics, equilibrium, ionic equilibrium, thermodynamics, electrochemistry, nuclear and organic chemistry. Prereq: CHEM 261 or equivalent. (3-1) F, Sp, Su

318/319 Junior Chemistry Seminar I and II (1) Students will use online data bases such as Dialog, Scifinder, and STN to research chemical literature and patents in order to prepare scientific manuscripts, posters, and seminars. In addition students will attend seminars by outside professionals and write reports on presentations. Prereq: CHEM 219, (.5) 318F and 319Sp

321 Quantitative Analysis (3) The principles and techniques of gravimetric, volumetric, spectrophotometric, and electrochemical analysis are developed in lecture and laboratory. Prereq: CHEM 262 or consent of instructor. (2-1) Sp, Su

341 Environmental Chemistry (3) A combination field, lecture, demonstration, and laboratory course to study the collection, analysis, and effects of chemicals in the environment. Prereq: CHEM 321 and CHEM 353, or consent of instructor. (2-1) F, odd-numbered years

351 Polymer Chemistry (3) A study of the physical chemistry of macromolecules; standard methods of polymer synthesis; chemical kinetics; and characterization and processing methods. Prereq: CHEM 354 and CHEM 461 or consent of instructor. (2-1) Sp, odd-numbered years

353 Organic Chemistry I (4) A development of the fundamentals of aliphatic and aromatic organic chemistry with special emphasis on structure and mechanism. Structure, nomenclature, and physical properties of all organic functional groups are included. Prereq: CHEM 262. (3-1) F, Sp, Su

354 Organic Chemistry II (4) A continuation of CHEM 353 including cyclic and aromatic compounds. Prereq: CHEM 353. (3-1) F, Sp

418/419 Senior Chemistry Seminar I and II (1) A continuation of CHEM 318/319. In addition, students will prepare resumes and applications and learn about selecting a graduate or professional school and interviewing skills. Prereq: CHEM 319, 418. (.5) 418F and 419Sp
421 Instrumental Methods of Analysis I (3) This course introduces students to the instruments and techniques currently used for chemical analysis. CHEM 421 emphasizes spectrophotometric methods and chromatographic methods of analysis. Laboratory work provides students with experience using the instrumental techniques described in this course. Prereq: CHEM 321, 354, and PHYS 206. (2-1) F

422 Instrumental Methods of Analysis II (3) CHEM 422 is a continuation of Instrumental Methods of Analysis I with an emphasis on electronics, electroanalytical analysis, mass spectrometry, and advanced instrumental methods. Laboratory work provides students with experience using the instrumental techniques described in this course. Prereq: CHEM 421. (2-1) Sp

431 Biochemistry I (4) Biochemistry of amino acids, proteins, nucleic acids, lipids, carbohydrates, and the actions of enzymes. Encompasses chemical properties and techniques involved in the study of these macromolecules and their monomeric units. Prereq: CHEM 354, BIOL 334, or consent of instructor; recommended CHEM 321. (3-1) F

432 Biochemistry II (4) Continuation of 431 including major metabolic pathways with emphasis on energy considerations and interrelationships of the pathways; inorganic metabolism, acid-base balance and hormones. Prereq: CHEM 431. (3-1) Sp

441 Inorganic Chemistry (4) Introduction to the chemistry of all the elements, developed from the principles governing atomic structure and bonding, with special emphasis on transition metal and organometallic chemistry. Prereq: CHEM 354 and 461 or consent of instructor. (3-1) Sp

453 Advanced Organic Chemistry (3) Advanced course in organic chemistry in which selected topics will be examined. Prereq: CHEM 354. (2-1) Sp, even years

461 Physical Chemistry I (4) Introduction to kinetic molecular theory, chemical thermodynamics, and kinetics. Students will explore the development of these theories from fundamental principles using multivariable calculus. Selected results from statistical mechanics also will be included. Laboratory work is designed to engage students in practical application of these theories and to expand their understanding of formal scientific communication. Prereq: CHEM 321, MATH 330, and PHYS 206. MATH 335 is recommended but not required. (3-1) F

462 Physical Chemistry II (4) Introduction to the theory of quantum mechanics including its applications to spectroscopy. As a continuation of 461 this course also will contain selected topics in thermodynamics and statistical mechanics. Students will explore the development of quantum mechanics from fundamental postulates using multivariable calculus. Laboratory work is designed to engage students in practical application of theoretical principles and to expand their understanding of formal scientific communication. Prereq: CHEM 461. MATH 335 is recommended but not required. (3-1) Sp

490 Undergraduate Teaching Experience in Chemistry (1-3) Course designed to provide students with practical exposure to and experience with the college teaching profession. Students will work closely with individual faculty to learn and experience first-hand the range of duties performed by college professors in chemistry. Students will assist faculty in activities such as laboratory instruction, exam preparation, grading, and development of course materials and exercises. Intended for academically-talented chemistry majors who aspire to careers in the professorate or high school teaching. Tuition waiver provided. Prereq: Junior or senior standing plus consent of supervising instructor and department chair. This course does not satisfy any requirement in the Core Curriculum and will not be counted toward the chemistry major. F, Sp, Su

499 Introduction to Research (1-2) May be repeated up to 8 hours. Original problems in experimental and theoretical chemistry. Prereq: consent of instructor and approval of department chair. F, Sp, Su

Geosciences (Geology, Geography)
Our world is outside. Geology is the scientific study of the Earth. It is an applied, heavily field-oriented science that seeks to understand how the Earth works, the changes that the Earth has undergone, and the potential changes in the Earth's future. Geologists are trained to investigate issues and problems of concern to society, and knowledge of geology is essential for making informed decisions about regulation, protection, and development of our natural environment. The geology major also is designed to develop observational, reasoning, and analytical skills that students can apply throughout life.

Physical Geology (GEOL 161) is a four-credit course including laboratory and field studies. It satisfies a part of the Core Curriculum requirement in science, and serves as the gateway course to the geology major. The geology program exposes students to the spectrum of earth materials and processes and the techniques of Earth study, including rocks and minerals, fossils, landslides and subsidence, erosion, soils, mountains and mountain building, earthquakes, volcanism, surface water and ground water, environmental remediation, oil and gas exploration, oceanography, weather and climate, air photo interpretation, geographic information systems, and other sub disciplines. The practice of geology also draws heavily upon knowledge gained from study of chemistry, physics, biology, and mathematics. Because of this broad training, our graduates are well prepared for careers both directly and indirectly related to geology. Some career options require a graduate degree, and USI geology faculty encourage students to continue their education beyond the bachelor’s degree.

Requirements for Geology Major
44 credits in geology distributed as:
35 credit hours of required geology courses
9 credit hours of additional geology courses
Plus 23-25 credits of supporting requirements as listed following:

Required Geology Courses
GEOL 161 Physical Geology
GEOL 162 Historical Geology
GEOL 261 Advanced Physical Geology
GEOL 301 Mineralogy
GEOL 302 Igneous and Metamorphic Petrology
GEOL 315 Paleontology
GEOL 316 Sedimentation and Stratigraphy
GEOL 345 Structural Geology
GEOL 481 Advanced Environmental Geology – Synthesis course
Nine additional credit hours of 300- or 400-level geology courses must be selected to reach the required total of 44 credit hours. A six- to eight-credit-hour Summer Field Geology course completed at another school can be used to satisfy part of this requirement.

A maximum of four credit hours of GEOL 390 can be counted toward completion of the geology major.

Supporting requirements for Geology major
PHYS 175 or 205  Gen. or Inter. Physics I
PHYS 176 or 206  Gen. or Inter. Physics II
CHEM 261   General Chemistry I
CHEM 262   General Chemistry II
MATH 230   Calculus I

Three additional credit hours in science or math must be selected in consultation with an advisor to reach the required total of 23-25 credit hours in supporting requirements for the geology major.

Students also must complete the University required 124 credit hours, including the University Core Curriculum and a minimum of 39 credit hours of 300- or 400-level courses.

Requirements for a Geology Minor
26 credit hours
GEOL 161  Physical Geology
GEOL 162  Historical Geology
GEOL 261  Advanced Physical Geology
GEOL 301  Mineralogy
GEOL 316  Sedimentation and Stratigraphy

Seven additional credit hours of 300- or 400-level geology courses must be selected to reach the required total of 26 hours.

Required Course for Geography Minor
25 credit hours
GEOG 112  Earth Systems
GEOG 214  Meteorology
GEOG 330  World Geography
GEOL 161  Physical Geology
GEOL 131  Geology, the Environment and Society

Six additional credit hours of 300- or 400-level courses in anthropology, economics, history, or political science must be selected to reach the required total of 25 credit hours.

Geology and Geography Courses that Satisfy University Core Requirements
GEOL 101  Prehistoric Life (C3)
GEOL 113  Landscapes and Geology of North America (C3)
GEOL 131  Geology, the Environment and Society (C3)
GEOL 132  Volcanoes and Eruptions (C3)
GEOL 161  Physical Geology (C3)
GEOL 162  Historical Geology (C3)
GEOL 234  The Oceans: Past, Present, and Future (C3)
GEOL 481  Advanced Environmental Geology (D)
GEOG 112  Earth Systems (C3)
GEOG 215  Climatology (C3)
GEOG 330  World Geography (C5)

Earth/Space Science (Teacher Certification)
Students who wish to become earth/space science teachers at the secondary school level should declare the Science Teaching major (described elsewhere in this bulletin) and elect either the single- or dual-licensure option for earth/space science. The content course requirements that lead to teaching licensure in earth/space science are as follows:

Single Licensure Option
GEOL 161  Physical Geology 4
GEOL 162  Historical Geology 4
GEOL 234  Oceanography 3
GEOL 301  Mineralogy 4
GEOL 315  Paleontology 4
GEOL 407  Geomorphology 4
or
GEOL 441  Hydrogeology 4
or
GEOL 481  Advanced Environmental Geology 4
GEOG 214  Meteorology 3
ASTR 271  General Astronomy 4
CHEM 175  Survey of Chemical Concepts 4
or
CHEM 261  General Chemistry I 4
PHYS 175  General Physics I 4
or
PHYS 205  Intermediate Physics I 5
MATH 230  Calculus I 4
Elective chosen from any 300- or 400-level GEOL course and/or
ASTR 471  Observational Astronomy 4
At least one elective chosen from among the following (3/4/5):
GEOG 214  Meteorology 3
MATH 271  Principles of Statistics 3
MATH 330  Calculus II 4
PHYS 176  General Physics II 4
PHYS 206  Intermediate Physics II 5
CHEM 262  General Chemistry II 4
ANTH 261  Introduction to Archaeology 3
BIOL 141  Principles of Biology 4
Any 300-level GEOL course
TOTAL 49/52

Dual Licensure Option
GEOL 161  Physical Geology 4
GEOL 162  Historical Geology 4
GEOL 315  Paleontology
or
GEOL 316  Sedimentation and Stratigraphy 4
GEOG 214  Meteorology 3
ASTR 201  General Astronomy 4
Directed 300- and 400-level electives in the Geosciences 2
TOTAL 24
Course Descriptions

Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

Lecture and laboratory breakdown of courses is indicated at the end of each description. For example, (3-1) indicates three credit hours lecture, one credit hour laboratory. Courses labeled as UCC meet the requirements of the University Core Curriculum.

Geography

112 Earth System Science (3) The study of the whole Earth as a system of many interacting parts including the solar system; the Earth’s internal systems and landforms; ocean, atmospheric and climatic systems; and global ecosystems. Applies scientific method to the study of changes within and between these systems. No prereq. (3-0) UCC, F

114 Geology, the Environment, and Society (3) A geographic study of production; transportation; and exchange. Emphasis is placed on the origin, distribution, use, and trade of natural resources. Open to freshmen with consent of instructor. (3-0), on demand.

130 World Geography (3) An interpretation of human activities in selected world regions. Designed to assist students in acquiring certain basic ideas and supporting facts about contemporary world geography. The course surveys the importance, geographical characteristics, and basic problems of the major regions of the world. (3-0) UCC, F

Geology

101 Prehistoric Life (3) Scientific study of the history of life on earth with emphasis on higher vertebrate groups such as reptiles and mammals. Discussion of current theories of dinosaur habitats and mass extinction. No prereq. (3-0) UCC, F

115 Landscapes and Geology of North America (3) A study of the geography and geology of North American landscapes with special reference to the United States. Factors in landscape development, including climate, vegetation, erosion, glaciation, tectonics, and human influences are explored in the context of specific landform. No prereq. (3-0) UCC, F

131 Geology, the Environment, and Society (3) An examination of the controls on human activity by geology, and the impact of humans on natural geologic processes. This course is a survey of fundamental geologic processes and associated hazards (earthquakes, tsunamis, eruptions, flooding, landslides) and topics such as pollution and land-use planning. The course provides an opportunity to discuss, from a geologic perspective, the ramifications of and potential solutions to problems associated with Earth’s resources (energy, minerals, water). No prereq. (3-0) UCC, F

132 Volcanoes and Eruptions (3) An introduction to volcanoes, their occurrence, different styles of eruption, and the processes that control volcanic activity, emphasizing the impacts of volcanism, both beneficial and destructive, to human beings and the global environment. No prereq. (3-0) UCC, F

161 Physical Geology (4) Lecture and laboratory studies of the materials, internal structure, and surface features of the Earth, and the processes which have shaped them. No prereq. (3-1) UCC, F, Sp

162 Historical Geology (4) Lecture and laboratory studies of the evolution of the earth and its life forms. Techniques used to interpret Earth and life history. The concept of geologic time. Prereq: GEOL 161. (3-1) UCC, Sp

234 The Oceans: Past, Present, and Future (3) Origin and history of the oceans, including evolution of ocean basins and sea water; causes and effects of oceanic circulation; interaction of oceans and climate; the oceans as a habitat for life; and challenges of protecting oceanic environments. Problems in exploiting the oceans for mineral wealth and food. Effects of global warming and rising sea level. Prereq: GEOG 112 or GEOL 161, and working knowledge of basic chemistry and biology. UCC (3-0)

261 Advanced Physical Geology (3) Application of fundamental physical geology skills for majors. In this course we will focus on the observation, interpretation, and analyses of Earth materials, topographic maps, aerial photographs, geological maps, and other spatial geological data. These skills will be applied to different geological landscapes. The course has a strong field component and emphasis on written and oral communication skills in the geosciences. Prereq: GEOL 161 (2-1) UCC, F

301 Mineralogy (4) Systematic lecture and laboratory study of minerals, including their chemical composition, atomic structure, physical properties, and conditions of formation. Laboratory emphasizes crystallography, optical properties, and hand specimen identification of common rock-forming and economic minerals. Prereq: GEOL 161, CHEM 261, or consent of instructor. (3-1) F

302 Igneous and Metamorphic Petrology (4) Classification, composition, texture, and origin of igneous and metamorphic rocks. Hand specimens and thin section studies. Prereq: GEOL 301. (3-1) Sp

315 Paleontology (4) Study of geologically important fossil groups, including macroscopic invertebrates, micro fossils, and trace fossils, emphasizing classification paleoecology and biostratigraphy. Laboratory stresses identification of fossils in hand specimen and under the microscope. Prereq: GEOL 161. (2-2) F

316 Sedimentology and Stratigraphy (4) Lecture and laboratory study of composition, texture, description lithologic classification, correlation, and paleoenvironmental interpretation of sediments and sedimentary rocks. Use of subsurface data including cores and geophysical well logs. Laboratory includes thin section and field studies. Prereq: GEOL 162, GEOL 261. (3-1) Sp

341 Hydrology (3) Study of the hydrologic cycle with emphasis on precipitation analysis; determination of evaporation and infiltration quantities; and calculation of surface runoff. Includes unit hydrograph and flood analysis, streamflow routing, and statistical analysis of hydrologic events. Prereq: ENGR 375 Fluid Mechanics or consent of instructor. (2-1) Sp

345 Structural Geology (4) Descriptive, kinematic, and dynamic analysis of geologic structures. Structural interpretation of geologic maps. Tectonic processes responsible for deformation of rocks. Structural provinces. Prereq: GEOL 162, GEOL 261, MATH 115 or higher. (3-1) Sp

351 Field Geology (4) Practice of important field techniques in geology field analysis of geologic materials and structures, and construction of geologic maps. Emphasis is on problem recognition, data gathering, and interpretive analysis. Prereq: GEOL 162. (3-1) F
390 Geological Field Excursion (1-3) The integrated application of geological knowledge to a specific field example. Approximately five weeks of literature investigation of a geological terrain will be followed by a field trip to the selected area. Excursions will vary in length from one weekend to week-long. The course is intended for geology majors, and students will need to cover expenses. Prereq: GEOL 162, GEOL 261, or concurrent registration and consent of instructor. A maximum of four credit hours of GEOL 390 may be counted toward completion of the geology major. (X-O) F, Sp, S

407 Geomorphology (4) Discussion of surface processes and landforms created by those processes. Emphasis on the evolution of landforms and the interpretation of their origins. Major topics include tectonism, volcanism, weathering and pedological applications, fluvial, eolian, coastal, karst, and glacial processes. Course includes semester-long research project applying geomorphological concepts to topics in geomorphology. Prereq: GEOL 162, GEOL 261 and GEOL 302, or permission of instructor. Recommended: GEOL 316. (3-1) F

411 Geology of Soils (4) Lecture and laboratory studies of the influence that weathering, erosion, landform, topography, climate, flora and fauna, parent material, ground water, and time has on soil development. Soil classification, profiles, composition, chemistry, fertility, and engineering properties and uses. Prereq: GEOG 112 or GEOL 131,161, any college chemistry course. Recommended: GEOL 307. (3-1), on demand.

414 Petroleum Geology (3) Lecture and laboratory exercises concerning the nature and occurrence of oil and natural gas in the earth's crust. Laboratory exercises stress the practical application of lecture material in hydrocarbon exploration and economic evaluation. Prereq: GEOL 161, 162. (2-1), on demand.

415 Coal Geology and Exploration (3) The geology of coal, including environments of deposition, coal petrology, and distribution. Techniques of coal exploration, drilling, geophysical logging, mapping, and economic analysis. Prereq: GEOL 161 and a course in computer programming. On demand.

421 Introduction to Geophysics (3) Survey of geophysical problems and techniques, including lecture, laboratory exercises, and literature studies. Prereq: GEOL 161, MATH 230, PHYS 176 or 206. (2-1), on demand.

441 Hydrogeology (4) The behavior and properties of water in the geologic environment. Emphasis on subsurface water, including studies of flow patterns, chemistry, behavior in various geologic materials, and pollution problems. Prereq: GEOL 161, GEOL 261, CHEM 261, MATH 230, or consent of instructor. (3-1) F

445 Plate Tectonics and Crustal Evolutions (3) The nature of continents and oceans, their current tectonic movements, and the record they provide of past tectonic movements. Includes methods to determine relative and absolute plate motion, historical account of plate tectonic theory, and application of plate tectonics to the origin and development of mountain belts. Prereq: GEOL 345 and consent of instructor. (3-0), on demand.

455 Global Quaternary Environmental and Geologic Change (3) This class seeks to describe and understand the changes in global and regional geologic systems and climate that occurred during the Quaternary by investigating the types of data available, the methods of data acquisition, dating techniques and methods, and the interpretations drawn from the acquired data. Prereq: GEOL 316, 407. Recommended: GEOL 315, GEOG 214 or 215 (3-0) Sp

465 Introduction to GIS (3) Survey of computer-based techniques in the storage, retrieval, analysis, and representation of spatially distributed data. Emphasis is on application of GIS technology to problems such as geologic hazard mapping, surface runoff and erosion, contaminant transport, population density, and environmental impact assessment. Prereq: GEOL 161 or GEOL 112, or MATH 230 (2-1), on demand.

475 Remote Sensing and Image Analysis (3) Elements of airborne and space borne remote sensing systems, including aerial photography, radar, thermal, and multi Spectral. Emphasis on use of remotely sensed images for geological mapping, environmental monitoring, resource assessment, and land use. Prereq: GEOL 112 or GEOL 161, PHYS 176 or 206. (2-1), on demand.

481 Advanced Environmental Geology (4) Selected topics dealing with environmental geology, Earth resources, and land use. The course is conducted as group discussions centered on current and classical literature followed by field experiences. Extensive individual investigation is required. Prereq: GEOL 162 and consent of instructor. GEOL 441 is recommended. (3-1) F, Sp, Su

490 Seminar in Geology (1-3) Selected topics of current interest in the geologic community. Prereq: consent of instructor. F, Sp, Su

499 Independent Research (1-4) Individual research problems in an area of common interest to student and instructor. May involve field and laboratory activities, as well as literature surveys. Final report required. Prereq: consent of instructor. F, Sp, Su

**Engineering**

The Bachelor of Science in Engineering degree is a practical, flexible engineering program which requires a solid foundation in mathematics, physics, chemistry, and communications as well as the engineering science core. A total of 127 hours are required in the four-year B.S. in Engineering program. Fifteen hours of mathematics through Differential Equations, and 14 hours of chemistry and physics are required. All engineering students also must complete the University core requirement (35 hours). At least 60 hours of engineering courses are required – 33 hours of engineering core classes including Design I and II, Statics, Dynamics, Strength of Materials, Electrical Circuits and Fluid Mechanics, and 30 hours of engineering electives which can be taken in three areas of interest: civil, electrical, or mechanical.

An engineering student can be enrolled in either the four-year or five-year tracks, depending on the student’s mathematical proficiency at the time of entrance to the program. The five-year track is for students who enter USI not prepared for Math 230 (Calculus I) in their first semester. This track comprises 138 to 141 hours, adding five hours of mathematics courses necessary to raise the student’s mathematical abilities to a required level and six to nine hours of engineering courses designed to improve their problem solving skills. If a prospective student is not prepared for Math 111 or 118 (College
Algebra), he or she is placed in the pre-engineering program and advised by the University Division advisors.

The engineering degree program was developed using the guidelines for engineering established by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (EAC/ABET). According to these guidelines, the program must have produced graduates prior to requesting an accreditation visit. It is anticipated this will occur in 2006. If accreditation is granted, the program will be accredited in the fall of 2007 and all graduation classes prior to this date will be considered to have graduated from an accredited engineering program.

In addition to full course offerings in the daytime, courses in the engineering curricula are regularly offered at night to accommodate students whose personal schedules limit their access to daytime course offerings. A cooperative education program also is available to students enrolled in engineering. The co-op experience is designed to assist the student in developing an understanding of human relationships and in learning to work with others as a member of an engineering team. Individual growth is enhanced by the realization that, in addition to demonstrating theoretical knowledge, one also is learning to become an integral part of the working interrelationship between the academic and professional worlds. On the job and at the University, the co-op student obtains first-hand knowledge of professional practices, expectancies, and opportunities. At the same time, the student is offered a realistic test of career interest and aptitude. Participation in this program enables the student to make a more intelligent selection of a position after graduation.

In accord with the University’s transfer policy (found in the undergraduate admission requirements and regulations section) the faculty of the engineering department examine on a case-by-case basis the transcripts of students transferring from other institutions. Failure to achieve a grade of C or better in a required engineering course at another institution will necessitate repeating the course. Petition for permission to waive any program requirements must be approved by the chair of the engineering department. After admission into the engineering program, required engineering courses may be taken at another institution for transfer of credit only when approved in advance by both the student’s advisor and the department chair.

### The Engineering Curriculum

A student majoring in engineering must satisfactorily complete the following required engineering courses for the Bachelor of Science in Engineering:

<table>
<thead>
<tr>
<th>Course</th>
<th>Title</th>
<th>Credits</th>
</tr>
</thead>
<tbody>
<tr>
<td>ENGR 101</td>
<td>Engineering Orientation</td>
<td>0</td>
</tr>
<tr>
<td>ENGR 107</td>

</tr>
<tr>
<td>ENGR 491</td>
<td>Senior Design</td>
<td>3</td>
</tr>
</tbody>
</table>

Prerequisites for the engineering courses are listed in the catalog and the USI Web site. In addition, at least 30 hours of engineering technical electives are required. At least 23 hours of upper-division courses (300-400 level) must be incorporated into the electives. The engineering electives must include courses that have at least 10 design credits. A minimum 2.0 grade point average must be attained in the engineering core classes.

#### Depth:

An engineering student must complete at least one design sequence in a selected emphasis – civil, mechanical, or electrical. This design sequence will consist of at least three consecutive courses in analysis and design, culminating in a 400-level project design experience. The senior design course (ENGR 471 and ENGR 491) will subsequently build on this experience by incorporating the design elements with other realistic constraints - such as economic, environmental, safety, and ethical factors, as well as social impact.

#### Breadth:

An engineering student may elect classes from any of the three areas - civil, mechanical, or electrical. These classes will be determined with the help of an engineering advisor, and will allow the student the opportunity to gain a breadth of study in more than one emphasis. Regardless of the path selected, the design experience must be completed.

The goals and objectives of the Bachelor of Science in Engineering program are as follows:

- Provide a practice-oriented curriculum incorporating theory and its application to practical engineering problems.
• Prepare students for entry level professional engineering positions, as well as for professional licensure and continuing education.
• Provide students with problem-solving, design and communication skills needed for professional success and advancement in their engineering careers.
• Prepare students with sufficient breadth of knowledge in related skills, including communications, ethics, project management, economics, teamwork and leadership.
• Provide an academic environment that encourages and facilitates learning and retention.

Course Descriptions

Engineering Core

101 Engineering Orientation (0) 1 hour lecture. Presentation and discussion of current professional engineering topics by faculty and guest lecturers. Student club meetings also are held during this class period. Required of all new full-time engineering students. No prereq.

107 Introduction to Design I (2) 6 hours lab. This course is the first in a two-course design sequence. It introduces first-year engineering students to engineering and design by previewing core engineering topics such as mechanics, circuits, and thermodynamics. The course also introduces students to computer programming using Visual Basic. Prereq: MATH 230 or consent of instructor.

108 Introduction to Design II (2) 6 hours lab. This course is the second in a two-course design sequence for first-year engineering students. The course focuses on team-oriented, hands-on engineering projects using both reverse and forward design. Students will use both Microsoft Project to manage projects and AutoCAD for the computer-aided design of projects. Students also will document and defend their projects. Prereq: ENGR 107.

225 Thermodynamics (3) 3 hours lecture. Introduction and application to the laws of thermodynamics; analysis of closed and open systems; introduction to heat transfer, Carnot principle, engine power plants, and refrigeration applications. Prereqs: PHYS 205 and MATH 230.

235 Statics (3) 3 hours lecture. Fundamentals of engineering mechanics including forces acting on bodies at rest as they apply to equilibrium of coplanar force systems, analysis of frames and trusses, non-coplanar force systems, friction, centroids, and moments of inertia. Emphasis is placed on drawing a free-body diagram, determining the equilibrium equations, and developing a logical scheme for complete analysis of an engineering statics problem. Prereqs: PHYS 205. Co-requisite: Math 330.

255 Electric Circuits (4) 3 hours lecture, 3 hours lab. Introduction to electric circuit theory and analysis for engineering majors. Topics covered include D.C. Circuits, A.C. Circuits, mesh and nodal analysis, Norton's and Thevenin's equivalent circuits, source conversions, impedance calculations, maximum power transfer, phasor and sinusoidal steady state responses. Prereqs: MATH 230 and PHYS 206.

275 Dynamics (3) 3 hours lecture. Kinematics and kinetics of particles and rigid bodies using vector analysis. Topics include: Force, mass, acceleration, work and energy, Impulse and momentum. Prereqs: ENGR 235 and MATH 230.

335 Engineering Economics (3) 3 hours lecture. This course is designed to provide information on the scope and application of various numerical techniques and evaluation criteria for making economic decisions. Interest rates, cash flows, depreciation, and tax implications will be covered. Methods such as present worth, annual worth, future worth, and rate-of-return will be used to make comparisons between alternatives. Prereqs: Sophomore standing and either MATH 215 or MATH 230.

355 Strength of Materials (4) 3 hours lecture, 3 hours lab. A study of stress-strain relationship for axial, torsion, shearing and bending loads; deflection of beams; connections; combined loadings; statically indeterminate members, and plane stress. The laboratory experience will include material testing to determine physical and mechanical properties that will reinforce the principles studied. Prereqs: ENGR 235 and MATH 230.

375 Fluid Mechanics (3) 2 hours lecture, 3 hours lab. Fundamentals of fluid mechanics including application of Bernoulli's equation for incompressible flow, hydrostatic forces on gates, dynamics of fluid flow, friction loss and drag, sizing of pipes and pumps, and turbo machinery. The laboratory portion requires students to design experiments to evaluate specific fluid principles and concepts with subsequent completion to reinforce the understanding of the material. Prereqs: ENGR 235 and MATH 330.

435 Engineering Statistics (3) 3 hours lecture. Calculus-based examination of descriptive and inferential statistics. Topics covered include population and sample data analysis, discrete random variables, continuous random variables, frequency distributions, probability, hypothesis testing, analysis of variance, regression, and correlation. Computer applications for problem solution are required. Prereqs: ENGR 107, MATH 335 and junior standing.

491 Senior Design (3) A course which provides an opportunity for synthesis of technical, professional, and general knowledge for engineering students. Design problems provided by industrial sponsors are studied by
small teams of students to develop solutions using engineering design, while considering realistic constraints such as economic factors, safety, reliability, aesthetics, ethics, and social impact. Formal written and oral reports to faculty, industrial sponsors, and invited guests are required. Prereq: senior standing in engineering and consent of department chair.

Engineering Electives

221 Surveying (3) 2 hours lecture, 3 hours lab. Care and use of tapes, level, transit, electronic distance measuring equipment and data collector; differential leveling, traversing, closure and area computations, reduction and plotting of field notes of topographic surveys. Prereqs: ENGR 107 and MATH 230.

222 Route Surveying (3) 2 hours lecture, 3 hours lab. Geometry of highway location; simple, circular, compound, reverse, vertical, and spiral curves; field problems; super elevation, grading and earth movement; global positioning system. Prereq: ENGR 221.

321 Soil Mechanics (3) 2 hours lecture, 3 hours lab. Physical and index properties of soil, soil classification, soil-water interaction, stress, settlement, and shear strength will be studied. Laboratory experiments will include Atterberg Limits, grain size analysis, shear strength, consolidation, and Proctor tests. Prereq: ENGR 355.

323 Transportation Engineering (3) 3 hours lecture. Introduction to transportation and the planning of transportation systems. Highway and airfield design criteria. Operational characteristics of transportation systems. Prereqs: ENGR 222 and ENGR 321.

324 Construction Materials and Estimating (4) 3 hours lecture, 3 hours lab. A study of aggregates, concrete, steel, wood, and asphaltic materials, including concrete mix design. Additional subject matter covered will be characteristics, capabilities and operating costs of equipment; estimation of construction costs; field inspection practices and responsibilities. Prereq: ENGR 355.

325 Structural Analysis (4) 3 hours lecture, 3 hours lab. Classification of structures, loads, reactions, shear and moment diagrams, trusses, framed structures, influence lines, moving loads, deflections, and analysis of statically indeterminate structures, including moment distribution. Prereq: ENGR 355.

422 Reinforced Concrete Design (4) 3 hours lecture, 3 hours lab. Design of reinforced concrete structures for bending, shear and diagonal tension, axial load and bending, development lengths and splices, including retaining walls and reinforced concrete foundations. Prereq: ENGR 325.

426 Steel Design (4) 3 hours lecture, 3 hours lab. Design of steel structures for tension members, beams and columns, bolted and welded connections, including plate girders using the latest LRFD specifications. Prereq: ENGR 325.

427 Geotechnical Engineering Design (3) 3 hours lecture. Topics that will be studied include bearing capacity, isolated and combined footing design, lateral earth pressure, retaining wall design, pile and pier design, slope stability, and design of foundations for seismicity. Professional and ethical responsibility and legal ramifications of design problems will also be considered. Prereq: ENGR 321.

428 Environmental Engineering and Design (4) 3 hours lecture, 3 hours lab. Study of environmental systems, water/air/solid resources, environmental legislation, and design of pollution control equipment. Topics include legislation review, water chemistry, water treatment, wastewater treatment, air pollution abatement, solid waste management, and hazardous waste treatment. Prereqs: ENGR 375 and CHEM 261.

429 Water Resources (4) 3 hours lecture, 3 hours lab. Study of the hydrologic cycle. Topics include precipitation analysis, infiltration analysis, groundwater flow, unit hydrograph development, hydrologic probabilities, and flow measurement. This course will consider both design of water use and water excess management facilities. Prereq: ENGR 375.

241 Digital Logic (3) 2 hours lecture, 3 hours lab. This course teaches the basics of digital logic by using computer simulations and circuit construction in laboratory experiments. Binary, octal, and hexadecimal number systems are investigated, and basic logic gates (AND, OR, NAND, NOR, and INVERTER) are discussed. Flip-flops, multiplexers, and various memory devices and their uses in logic circuitry are studied. Prereqs: MATH 111 and MATH 112, or MATH 118 or sophomore standing in engineering program.

343 Discrete Electronic Devices (3) 2 hours lecture, 3 hours lab. This course introduces the three basic discrete devices: the diode (both pn and zener), the bipolar junction transistor, and the field effect transistor. Device modeling, biasing techniques, frequency response, h parameters and amplifier design are discussed. Prereq: ENGR 255.

344 Integrated Circuits (3) 2 hours lecture, 3 hours lab. This course addresses integrated circuits such as operational amplifiers, 555 timers, silicon-controlled rectifiers and associated triggering devices, and their uses in electronic circuits. Emphasis is placed on circuit construction and communication skills by the use of class projects and associated technical reports and oral presentations. Prereq: ENGR 343.

345 Advanced Electrical Circuits (3) 3 hours lecture. Advanced electrical circuits elective course for engineering majors. Topics covered include polyphase circuits, complex frequency and Laplace Transform, s-domain circuit analysis, series and parallel resonance, and Fourier frequency analysis. Course stresses network theorems, solution of time and frequency-domain problems. Course coverage includes transient analysis by classical and transform methods as well as basic concepts of steady-state AC circuit analysis. Prereqs: ENGR 255 and MATH 330.

347 Microcomputer Engineering (3) 2 hours lecture, 3 hours lab. An introduction to the concepts of microcomputers and microcontrollers including system architecture, addressing modes, assembly language programming, fixed point arithmetic, data structures and stacks, subroutines, high-level compilers, and integrated development environments. Prereq: ENGR 241 or consent of instructor.

439 Electrical Machines (3) 2 hours lecture, 3 hours lab. D.C. motors and generators, induction and synchronous motors, and generators for single-phase and three-phase systems are studied; course emphasis is on common applications, principles of operation, and performance characteristics. Prereq: ENGR 345.

443 Linear Control Systems (3) 3 hours lecture. A study of the fundamental concepts of linear automated control of physical systems. The course includes the following areas of study: mathematical modeling, block diagrams, frequency response analysis, root-locus analysis, time-domain analysis, stability analysis, compensation techniques, controller design, and interface transducers. Prereq: ENGR 345.

445 Signals and Systems (3) 2 hours lecture, 3 hours lab. Classification, analysis, and design of systems in both the time- and frequency-domains. Continuous-time linear systems: Fourier Series, Fourier Transform, bilateral Laplace Transform. Discrete-time linear systems: difference equations,

447 Microprocessor Systems Design (3) 2 hours lecture, 3 hours lab. This course involves the design of firmware and hardware for microprocessor-based systems, including analog and digital interfaces, system architecture, memory system design, I/O structure and handshaking protocols, interrupts, timers, parallel and serial subsystems, and analog-to-digital conversion. Prereq: ENGR 347 or consent of instructor.

448 Software Engineering (3) 2 hours lecture, 3 hours lab. An introduction to software engineering principles, with emphasis on the methods, processes, tools, and metrics needed to develop quality software products and systems. Prereq: Junior standing in engineering or consent of instructor.

449 Electrical Power (3) 2 hours lecture, 3 hours lab. Fundamental concepts of power system analysis, transmission line parameters, basic system models, steady state performance, network calculations, power flow solutions, fault studies, symmetrical components, operating strategies and control. Prereq: ENGR 349.

362 Manufacturing Systems (3) 2 hours lecture, 2 hours lab. An introduction to the design and implementation of contemporary manufacturing systems. Single and multiple station, manual, mixed mode, automated, and flexible manufacturing systems are covered. Numerical analysis of these systems to determine production rates, product cost, defect rates, and efficiency will be performed. In the laboratory students will learn to program and operate various types of production hardware including robots and CNC machines. Prereq: Junior standing in engineering or consent of instructor.

363 Vibrations (3) 2 hours lecture, 3 hours lab. An introduction to vibration theory, including the modeling and analysis of oscillatory phenomena found in linear discrete and continuous mechanical systems. This course will introduce noise and vibration control as an application of vibrations theory. A hands-on laboratory will greatly enhance the learning experience and bridge the gap between theory and practice. Prereq: ENGR 275 and MATH 433.

364 Engineering Materials (3) 3 hours lecture. The design and analysis of mechanical systems considering theories of static failure, fatigue, impact loading, and fracture mechanics; with a special emphasis placed on material selection. Prereq: ENGR 355.

365 Modeling Dynamic Systems (3) 3 hours lecture. Introduction to unified approach to lumped-element modeling and analysis of mechanical, electrical, hydraulic, and mechatronic systems. Topics include graphical modeling using bond graphs; formulation of state-space equations; analysis of linear systems; determination of time and frequency domain response of such systems to transient and periodic inputs, block diagram representation of dynamic system using Laplace Transforms; and integration into feedback control systems. Prereq: ENGR 255, ENGR 275, and MATH 433.

465 Fluid/Thermal Design (3) 2 hours lecture, 3 hours lab. Application of the fundamental principles of heat transfer and fluid flow in the engineering analysis and design of fluid thermal systems (piping layouts, air conditioners, heat exchangers, power plants, solar and wind power, compressors, etc.). Prereq: ENGR 375 and ENGR 463.

466 Machine Design (3) 2 hours lecture, 2 hours recitation. Engineering design and analysis of machine elements, including screws, fasteners, gears, bearings, brakes and flexible elements. Emphasis is on design applications. Prereq: ENGR 355 and ENGR 464.

103 Principles of Problem Solving (3) 2 hours lecture, 2 hours lab. This course will introduce students to engineering laboratory methodologies and procedures, technical writing, and design. Fundamental mathematical tools to conduct experiments will be emphasized such as error analysis, unit conversions, statistics, and graphical analysis. Prereq: MATH 118 or consent of instructor.

471 Engineering Design and Analysis (3) 3 hours lecture. Application of the professional method to the formulation and design solution for real-world, industry-type problems. Student teams will utilize their knowledge of engineering principles as well as social and economic issues to develop, analyze, and evaluate proposed designs using experimental, computer, and numerical techniques. Prereq: Senior standing in engineering and consent of faculty advisor.

482 Industrial Control Systems (3) 2 hours lecture, 3 hours lab. This course covers the analysis and design of modern industrial control systems. Continuous control concepts such as loop stability and error minimization are examined through the study of proportional, integral, derivative, and advanced control algorithms and process loop tuning methods. Discrete control concepts are explored through the application of programmable logic controller situations. PC-based data acquisition and instrumentation systems are also developed. Prereq: Junior standing in engineering or a related discipline.

499 Research (1-3) Research in Engineering conducted under faculty supervision. Prereq: Consent of instructor and department chair.
Industrial Supervision
Baccalaureate Degree

The Industrial Supervision Program has been developed to prepare a high quality professional supervisor of employees in an industrial setting. The program is a blend of a basic technical core, the business core courses, and a series of technical and management course designed to produce graduates for a variety of supervisory positions in industrial enterprises. Industrial Supervision graduates are prepared to seek employment as foremen, plant/maintenance supervisors, production supervisors, project coordinators, quality control specialists, technical service and sales representatives, technical writers, and many other related positions.

FIRST YEAR

First Semester
- ENG 101 Rhet. & Comp. I* 3
- MATH111 College Algebra 4
- Technical Elective 3
- Technical Elective 3
- SPCH 101 Intro. to Speech* 3

Second Semester
- ENG 201 Rhet. & Comp. II* 3
- MATH112 Trigonometry 2
- CIS 151 Computer Applications 3
- CHEM 175 Survey of Chem. 4
- PSY 201 General Psychology* 3
- UCC B3* 1

SECOND YEAR

First Semester
- MATH 215 Survey of Calculus 4
- ACCT 201 Accounting Principles I 3
- PHYS 175 General Physics I 4
- ECON 208 Prin. of Microeconomics* 3
- Technical Elective 3

Second Semester
- ENG 210 Technical Writing 3
- ACCT202 Accounting Prin. II 3
- DSCT 265 Business Statistics 3
- ECON209 Prin. of Macroeconomics* 3
- Technical Elective 3
- UCC Elective 3

THIRD YEAR

First Semester
- MNGT 305 Principles of Mngt. 3
- PHYS 176 General Physics II 4
- Technical Elective 3
- Technical Elective 3
- Technical Elective 3

Second Semester
- DSCT 351 Intro. to Op. Research 3
- Technical Elective 3
- Technical Elective 3
- UCC Elective 3
- UCC Elective 3

FOURTH YEAR

First Semester
- ENGR 482 Engr. Organization & Man. 3
- Technical Elective 3
- ACCT 315 Cost Accounting 3
- DSCT 445 Operations Management 3
- UCC Elective 3
- UCC B3* 1

Second Semester
- Capstone Project 3
- ENGR 335 Engineering Economics 3
- Technical Elective 3
- UCC Elective 3
- UCC Elective 3

Mathematics

All students who enroll in math classes at USI are given an opportunity to increase their level of mathematical knowledge, to improve their analytical and problem-solving skills, and to develop an appreciation for the applicability of mathematics. Since the mathematical requirements of the student population differ depending on the individual's particular educational goals, the Department of Mathematics has designed a variety of programs of study as well as specific courses to meet these needs. Programs are offered for students in three distinct areas: students seeking a major or minor in mathematics or mathematics teaching, science teaching with dual certification in mathematics, or an elementary education major seeking licensure in elementary and junior high/middle school mathematics; students requiring a course to satisfy the mathematics component of the University Core Curriculum; and students completing a program of study outside the Department of Mathematics, but having one or more mathematics requirements within their major.

Students are only permitted to enroll in those courses for which they have successfully fulfilled all of the prerequisites. After a student has completed a course successfully, he or she may not enroll in a prerequisite course without the approval of the chair of the department. Entering freshmen may take advanced placement tests and receive credit by examination in certain specified courses. For further information, students should contact the Office of Admission.
The mathematics component of the University Core Curriculum may be satisfied by a number of courses or by successfully passing a proficiency exam. A passing score on the proficiency exam fulfills the UCC math requirement; however, academic credit hours are not earned by passing this exam. This exam is administered by appointment through Academic Skills for a nonrefundable fee and may be taken only once.

Degree Programs
Students majoring in mathematics are assigned an advisor from the tenured faculty of the department and are required to consult with this advisor before each registration period. The Bachelor of Science degree is granted to those students who follow the prescribed program. Students desiring a Bachelor of Arts must meet the foreign language requirements plus the requirements of the prescribed program. Throughout the remainder of this section the reference to upper-level courses relates to courses numbered 250 or above, with the exception of Math 391 and Math 392 and the 600-level graduate courses.

Major (Mathematics)
39 credit hours
The curriculum leading to a degree in mathematics is rooted in a foundation of calculus, mathematical logic, probability, linear algebra, abstract algebra, and a study of the history of mathematics. The student's selection of electives from analysis, statistics, discrete mathematics, differential equations, and other topics allows for diversity of specialization. These topics introduce students to a broad range of mathematical concepts and ideas that challenge their intellectual skills. Experiences from several of these courses provide an entry view into the applicability and power of mathematics to a variety of problems.

Required courses:
MATH 230 Calculus I 4
MATH 253 Principles of Mathematical Logic 3
MATH 330 Calculus II 4
MATH 335 Calculus III 4
MATH 412 Modern Abstract Algebra I 3
MATH 413 Linear Algebra 3
MATH 438 Theory of Probability 3
MATH 492 History of Mathematics 3

One course selected from the following:
MATH 410 Introduction to Analysis 3
MATH 432 Advanced Calculus 3
MATH 433 Differential Equations 3

Elective courses:
Nine hours selected from the upper-level course offerings in mathematics as directed by advisor.

Minor (Mathematics)
21 credit hours
Required courses:
MATH 230 Calculus I 4
MATH 330 Calculus II 4
MATH 335 Calculus III 4

Elective courses:
Nine hours selected from the upper-level offerings as directed by advisor.

Teacher Certification
Major (Mathematics with Teacher Certification)
39 credit hours
Students desiring a major in mathematics with teacher certification must complete the same basic required courses as the math major plus Math 323, College Geometry, and nine credit hours of upper-level electives. Students must also satisfy the requirements for admission to the teacher education program as well as the requirements for state certification. The curriculum has been designed to prepare the student to teach in a standards-based environment.

Required courses:
MATH 230 Calculus I 4
MATH 253 Introduction to Mathematical Logic 3
MATH 323 College Geometry 3
MATH 330 Calculus II 4
MATH 335 Calculus III 4
MATH 412 Modern Abstract Algebra I 3
MATH 413 Linear Algebra 3
MATH 438 Theory of Probability 3
MATH 492 History of Mathematics 3

Elective courses:
Nine hours selected from the upper-level offerings in mathematics as directed by advisor.

Students also must take MATH 391, The Teaching of High School Mathematics; this methods course is in addition to the 39 credit hours needed for the major.

Minor (Mathematics with Teacher Certification)
27 credit hours
A student desiring a mathematics minor with teacher certification must complete the following:

Required courses:
MATH 230 Calculus I 4
MATH 253 Principles of Mathematical Logic 3
MATH 323 College Geometry 3
MATH 330 Calculus II 4
MATH 335 Calculus III 4
MATH 412 Modern Abstract Algebra I 3
or
MATH 413 Linear Algebra 3
MATH 438 Theory of Probability 3
MATH 492 History of Mathematics 3
Minor (Elementary and Junior High/ Middle School Mathematics)  
24 credit hours  
Required courses:  
MATH 106 Introduction to Mathematical Concepts for Teachers  3  
MATH 206 Mathematical Concepts for Elementary, Junior High and Middle School Teachers  3  
MATH 226 Concepts in Geometry and Measurement for Elementary, Junior High, and Middle School Teachers  3  
MATH 115 Precalculus  3  
or  
MATH 118 College Algebra and Trigonometry  5  

Elective courses:  
12 credit hours selected from the following:  
MATH 215 Survey of Calculus  3  
MATH 230 Calculus I  4  
MATH 241 Principles of Statistics  3  
MATH 253 Principles of Mathematical Logic  3  
MATH 323 College Geometry  3  
MATH 330 Calculus II  4  
MATH 492 History of Mathematics  3  

Mathematics Courses for Prospective Teachers  
24 credit hours  
Required courses:  
MATH 106 Introduction to Mathematical Concepts for Teachers  3  
MATH 202 Mathematical Concepts for Early Elementary Teachers (4)  
MATH 226 Concepts in Geometry and Measurement for Elementary, Junior High, and Middle School Teachers  3  
MATH 392 The Teaching of Elementary School Mathematics  3  

Elective courses:  
12 credit hours selected from the following:  
MATH 215 Survey of Calculus  3  
MATH 220 Calculus I  4  
MATH 241 Principles of Statistics  3  
MATH 253 Principles of Mathematical Logic  3  
MATH 323 College Geometry  3  
MATH 330 Calculus II  4  
MATH 492 History of Mathematics  3  

Course Descriptions  
Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.  

100 Intermediate Algebra (3) Concepts from elementary algebra, functions, properties of exponents, operations with polynomials, rational and algebraic expressions and solutions to equations and inequalities. Prereq: GENS 097 (grade of B or better) or satisfactory placement score. This course does not satisfy the A2 category of the University Core Curriculum. F, Sp, Su  

101 Intermediate Algebra Supplement (1) This course is a supplement to MATH 100; topics include concepts from elementary algebra. Concurrent enrollment in the corresponding section of MATH 100 is required. This supplemental course is mandatory for students who have not been successful (C or better) in MATH 100 after having attempted it twice or for students who were placed into GENS 097 and did not pass it on the first attempt. This course does not satisfy the A2 component of the University Core Curriculum. F, Sp.  

106 Introduction to Mathematical Concepts for Teachers (3) This course is the first in a series designed to prepare early elementary, elementary, and middle school teachers to teach mathematics. Understanding of mathematical concepts and processes is stressed. Topics include introduction to problem solving, counting, geometric shapes, the four basic operations on whole numbers, number theory, and introduction to fractions. The use of manipulatives and technology will support learning and teaching in these and other topics studied. Enrollment is only open to students in early elementary, elementary, special education, junior high, and middle school programs. Prereq: MATH 100 (grade of C or better) or satisfactory placement score. This course does not satisfy the A2 category of the University Core Curriculum. F, Sp, Su.  

108 Survey of Mathematics (4) A survey of contemporary topics in mathematics designed to introduce students to thinking processes developed in mathematics. Scientific calculators will be used. This course satisfies the A2 component of the University Core Curriculum. Prereq: MATH 100 (grade of C or better) or satisfactory placement score. F, Sp, Su.  

111 College Algebra (4) Topics to be emphasized include polynomials, rational algebraic expressions, graphs, inequalities, theory of equations, and matrices. Special attention is given to functions and the utilization of appropriate technology. This course satisfies the A2 component of the University Core Curriculum. Prereq: MATH 100 (grade of C or better) or satisfactory placement score. F, Sp, Su.  

112 Trigonometry (2) Emphasis is placed upon trigonometric functions, their properties and graphs, identities, and solutions of triangles and trigonometric equations. This course does not satisfy the A2 component of the University Core Curriculum. Prereq: MATH 100 (grade of C or better) or satisfactory placement score. F, Sp, Su.  

115 Pre-Calculus Mathematics (3) Advanced topics in algebra plus selected topics in trigonometry and elementary functions (polynomials, rational, algebraic, exponential, logarithmic, and trigonometric) are studied with emphasis upon notation, properties, operations, and graphs of functions and their inverses. This course satisfies the A2 component of the University Core Curriculum. Prereq: MATH 111 (grade of C or better) or satisfactory placement score. Students with minimal knowledge of trigonometry may enroll concurrently in MATH 110. F, Sp, Su.  

118 College Algebra and Trigonometry (5) This course is designed for students planning to enroll in MATH 230, Calculus I. The study of functions (polynomial, rational, exponential, logarithmic, algebraic, and trigonometric) forms the foundation for this course. This course will promote the development of algebraic and analytic skills as well as conceptual understanding. This course satisfies the A2 component of the University Core Curriculum. Prereq: MATH 110 (grade of C or better) or satisfactory placement score. F, Sp, Su.  

122 Analytic Geometry (4) Emphasis is placed on two- and three-dimensional coordinate geometry, lines, circles, conic sections, planes, spheres, cones, and basic properties of vectors. This course satisfies the A2 component of the University Core Curriculum. Prereq: MATH 111 and MATH 112 (grades of C or better), or satisfactory placement score. F, Sp.  

202 Mathematical Concepts for Early Elementary Teachers (4) This course extends the fundamental concepts studied in MATH 106 and focuses on the topics for early elementary students. These include concepts and processes in advanced counting, the four basic operations,
angles and other geometrical concepts beyond shapes, elementary fractions, decimals, probability, and statistics. The use of manipulatives and technology will support learning and teaching in these and other topics studied. Enrollment is open only to students in elementary programs. Prereq: MATH 106 (grade of C or better). This course satisfies the A2 category of the University Core Curriculum. Sp

206 Mathematical Concepts for Elementary, Junior High, and Middle School Teachers (3) This course contains fundamental concepts in mathematics selected for the elementary and/or junior high/middle school programs. Included will be the examination of problem-solving processes and strategies, decimals, integers, real numbers and selected topics in algebra, statistics and probability. The use of manipulatives and technology will support learning and teaching in these and other topics. Enrollment is open only to students in elementary, special education, junior high, and middle school programs. Prereq: MATH 106 (grade of C or better). This course satisfies the A2 category of the University Core Curriculum. F, Sp, Su

215 Survey of Calculus (3) An introduction to calculus and its applications in business, economics, and the social sciences. Not applicable to the mathematics major or minor; this course is applicable to the elementary and junior/middle school math minor. This course satisfies the A2 category of the University Core Curriculum. Prereq: MATH 111, MATH 115 or consent of instructor. F, Sp, Su

226 Concepts in Geometry and Measurement for Elementary, Junior High, and Middle School Teachers (3) This course covers fundamental concepts in geometry and measurement for teachers in the elementary and/or junior high/middle school programs. It is taught with a contemporary approach to problem solving in geometry and measurement. The use of manipulatives and technology will support learning and teaching in these and other topics studied. Enrollment is open only to students in elementary, special education, junior high, and middle school programs. Prereq: MATH 206 (grade of C or better). F, Sp, Su

230 Calculus I (4) The theory of limits, differentiation, successive differentiation, the definite integral, indefinite integral, and applications of both the derivative and integral. This course satisfies the A2 category of the University Core Curriculum. Prereq: MATH 115 (grade of C or better), MATH 118 (grade of C or better), satisfactory placement score, or consent of instructor. F, Sp, Su

241 Principles of Statistics (3) A terminal course for non-mathematics majors and minors. Tabular and graphical representation of statistical data, measures of central tendency and dispersion, probability, sampling, statistical inference, simple correlation, and regression. Prereq: MATH 106, MATH 111, or equivalent. Sp

253 Principles of Mathematical Logic (3) Includes introductory topics in mathematical logic, combinatorics, analysis, mathematical proof, and problem solving. This course satisfies the A2 category of the University Core Curriculum. Prereq: Satisfactory placement score or MATH 111. May be taken concurrently with MATH 230. F, Sp

323 College Geometry (3) An introduction to the foundations of geometry. Topics from finite, Euclidean, and non-Euclidean geometries are explored. Properties of polygons, convexity, and various geometric shapes are explored. Prereq: 15 hours of mathematics or consent of instructor. F

330 Calculus II (4) Integrating and differentiating transcendental functions, applications of the integral, numerical integration techniques, and infinite series. This course satisfies the A2 category of the University Core Curriculum. Prereq: MATH 230 (grade of C or better). F, Sp, Su

331 Mathematical Models with Applications (3) Techniques from algebra, calculus, probability, and other areas of mathematics are employed to solve problems arising in the biological, physical, and social sciences. Prereq: MATH 230 or consent of instructor.

335 Calculus III (4) Vectors in two and three dimensions, surfaces and space curves, partial differentiation, multiple integration with applications of each. This course satisfies the A2 category of the University Core Curriculum. Prereq: MATH 330 (grade of C or better) or consent of instructor. F, Sp

353 Discrete Mathematics (3) Topics in discrete methods, combinations, graph theory, and finite algebraic structures will be studied. The applications of these topics in computer science, physical and life science, as well as in social sciences makes the course valuable for students in many majors. Prereq: MATH 230 or consent of instructor.

391 The Teaching of High School Mathematics (3) The materials, devices, and methods of teaching mathematics in the high schools. Prereq: 18 hours in the major or minor. F

410 Introduction to Analysis (3) A study of the real number system as a complete ordered field, completeness properties and their equivalences, function of a single real variable, continuity, differentiability, uniform continuity, and Riemann integral. Prereq: MATH 335.

411 Theory of Numbers (3) The transition between problem-solving mathematics and mathematics which develops a theory. This course is rich in material useful for the secondary and elementary teacher. Prereq: 15 hours of mathematics or consent of instructor.

412 Modern Abstract Algebra I (3) Sets, functions, relations, number systems, theory of groups, including discussion of morphisms, quotient groups, and solvable groups. Prereq: 15 hours of mathematics or consent of instructor. F

413 Linear Algebra (3) Systems of linear equations, vector spaces, basic properties of matrices and determinants, linear transformations on a vector space, and canonical representations of a linear transformation. Prereq: 15 hours of mathematics or consent of instructor.

414 Modern Abstract Algebra II (3) Rings, integral domains, fields, quaternion rings, including discussion of characterizations of integers, embedding theorems, polynomials, and extension fields. Prereq: MATH 412.

426 Point Set Topology (3) Definition and properties of a topological space; continuous functions, and homeomorphisms, various topological properties such as compactness, separation, and connectedness; metric spaces. Prereq: 15 hours of mathematics or consent of instructor.

432 Advanced Calculus (3) Functions of several variables, transformations, multiple integrals, line and surface integrals, infinite series. Prereq: MATH 335.

433 Differential Equations (3) Solutions to and applications of linear differential equations of order n and linear systems of differential equations. Prereq: MATH 335 (may be taken concurrently). Sp

434 Advanced Differential Equations (3) Solutions to non-linear and partial differential equations with an emphasis on numerical methods and techniques utilizing orthogonal functions. Prereq: MATH 433.
437 Numerical Analysis (3) (Dual listed as CS 437) A survey of current methods in numerical analysis. Topics will include polynomial approximation and interpolation, numerical differentiation and integration, numerical solutions of differential equations, functional approximation, solution of linear and nonlinear equations, and matrix methods for inverse and eigenvalue problems. Prereq: MATH 335.

438 Theory of Probability (3) Probability theory as applied to mathematical models of random events, independent and dependent events, numerical-valued events, mean and variance of a probability law, normal and poison probability laws, and random variables. Prereq: MATH 335. F

441 Mathematical Statistics (3) Basic empirical and theoretical frequency distributions, analysis of variance, elementary sampling theory, hypothesis testing, confidence intervals, statistical inference, correlation, and regression. Prereq: MATH 335 and 438. Sp

492 History of Mathematics (3) An examination of the historical development of the main concepts, techniques, and areas of mathematics along with the originating cultures and key personalities. The course may be taken during the professional semester. Prereq: 12 hours of mathematics courses in the major or consent of the instructor. Sp

499 Special Topics in Mathematics (1-3) By consent of instructor and approval of the chair of the mathematics department. F, Sp

**Physics**

Physics describes such phenomena as electricity, light, sound, magnetism, forces, energies, and heat. Since physics is the study of the most basic laws of nature, it is useful to all well-educated individuals, as well as being required of all science majors. Beginning physics is taught at three different levels at the University in order to accommodate students with diverse backgrounds and goals. The physics program culminates in either a minor or a secondary education certification in physics.

**Minor (Physics)**

24 credit hours

Elective courses: 11 hours selected from upper-division course offerings in physics as directed by advisor.

**Physics (Teacher Certification)**

Students who wish to become physics teachers at the secondary school level should declare the Science Teaching major (described elsewhere in this bulletin) and elect either the single- or dual-licensure option for physics. The content course requirements that lead to teaching licensure in physics are as follows:

**Single Licensure Option**

<table>
<thead>
<tr>
<th>Course</th>
<th>Credits</th>

**Course Descriptions**

Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

Lecture and laboratory breakdown of courses is indicated at the end of each description. For example (3-1) indicates three credit hours lecture, one credit hour laboratory. (One credit hour of lab usually equals two contact hours.)

**Astronomy**

201 General Astronomy (4) An introduction to the basic concepts in astronomy. Use of the telescope and exercises in uranography are stressed. No prereq. Sophomore standing (3-1)

**Physics**

101 Introduction to the Physical Sciences (3) Lectures and demonstrations of physics at a primarily conceptual level. Basic problem solving and the scientific method are introduced. Topics covered include Newton’s laws, energy, momentum, light, electricity, magnetism, thermodynamics, fluids, and selected topics from modern physics. (3-0)

175 General Physics I (4) Review of metric system and vectors, the laws of motion and applications, work and energy, states of matter and molecular properties, heat and thermodynamics. Calculus is not employed in the course. Prereq: MATH 111 and 112; or MATH 115; or MATH 118; or placement test into MATH 230. (3-1)

176 General Physics II (4) Wave motion and acoustics, electrostatic fields and potentials, electric current and circuit theory, magnetic fields, optics and the wave properties of light, atomic and nuclear physics. A continuation of PHYS 175. Prereq: grade of C or better in PHYS 205. (4-1)

205 Intermediate Physics I (5) An initial study of the phenomena and concepts of classical and modern physics in the areas of mechanics including energy and momentum principles and heat and thermodynamics, with applications involving elementary calculus. An integrated laboratory serves to develop associated skills in measurement. Required of physics majors, minors, and pre-engineering students. Prereq: MATH 230. (4-1)

206 Intermediate Physics II (5) A continuation of PHYS 205 in the areas of wave motion, acoustics, optics, electrostatics, circuit electricity, magnetism, and modern physics. Required of physics majors, minors, and pre-engineering students. Prereq: PHYS 205, MATH 230. Grade of C or better in PHYS 205. (4-1)
207 Intermediate Physics I Excluding Laboratory (4) PHYS 207 is identical with PHYS 205 except the laboratory is excluded. This is intended for students who have previously acquired credit for the general physics laboratory by having completed course 175 or who have the equivalent in laboratory experience. (4-0)

208 Intermediate Physics II Excluding Laboratory (4) PHYS 208 is identical to PHYS 226 except the laboratory is excluded. This is intended for students who have previously acquired credit for the general physics laboratory by having completed course 176 or who have the equivalent laboratory experience. (4-0)

311 Electric Circuit Theory (2) Direct current circuit theory. Alternating current circuit theory utilizing both methods of phasers and complex numbers. Problem solving is emphasized. Prereq: PHYS 206, MATH 230. (2-0)

314 Electronics Laboratory (3) Experimentation will be devoted to fundamental measurements of properties of electronic elements and electronic circuits. Circuits for rectification, amplification, signal generation, and logic function will be included. (0-3)

351 Scientific Programming in BASIC (1) The application of the BASIC language to scientific problems. The class will be scheduled as a single two-hour recitation in which both lecture and programming practice will be employed. Prereq: MATH 230 or consent of instructor. (2-0-1)

352 Scientific Programming in FORTRAN (2) The application of the FORTRAN language to scientific problems. The class will be scheduled as a single two-hour recitation in which both lecture and programming practice will be employed. Prereq: MATH 330, concurrent registration, or consent of instructor. (0-0-2)

361 Modern Physics (3) Physics of the 20th century. Atomic and nuclear phenomena and basic theories. An introduction to quantum mechanics is included. Prereq: PHYS 206, MATH 330. (3-0)

371 Analytical Mechanics (3) Theory and application of Newtonian mechanics using vector calculus methods. Topics include particle dynamics, energy and momentum principles, multiparticle systems. Problem solving is emphasized. Prereq: PHYS 205, MATH 330. (3-0)

381 Electromagnetic Fields (3) Formulation of the basic theory of electric and magnetic vector fields. Electrostatic and magneto static fields in free space and in material media, and the formulation of Maxwell’s equations are included. Prereq: PHYS 371, MATH 330. (3-0)

401 Physics and Human Thought (3) The course will cover some of the important ideas in physics and their relationship to other areas of human thought, e.g., philosophy, literature, and art. These relationships will be made through readings from works that have a direct connection to physics. The emphasis will be on learning the physical principles and their significance. The physical theories that will be covered include Newton’s laws, energy conservation, the second law of thermodynamics, special relativity, and quantum mechanics. These theories will be framed in the context of the times in which they developed. The course will involve both the solving of “traditional physics problems” and the writing of essays relating the ideas developed in the problems to a wider context. Prereq: MATH III or equivalent and PHYS 101 or equivalent. (3-0)

409 Theoretical Mechanics (3) Advanced methods in mechanics and higher theoretical formulations. Matrix and tensor methods are developed. Topics include rigid body mechanics, relativistic mechanics, Lagrangian and Hamiltonian formulations. Prereq: PHYS 371, MATH 433. (3-0)

419 Electromagnetic Theory (3) Theory of the electromagnetic field from the standpoint of Maxwell’s equations. Plane waves, radiation theory, and the relativistic formulation are included. Prereq: PHYS 381, MATH 432. (3-0)

429 Quantum Mechanics (3) Fundamental physical theory pertaining to the microstate of matter. Topics include quantum mechanical solutions for the harmonic oscillator, the hydrogen atom, and the angular momentum states. Prereq: PHYS 361, MATH 433. (3-0)

439 Thermodynamics (3) The first and second laws of thermodynamics; formulations, interpretations, and applications. The kinetic theory of gases and an introduction to the statistical mechanics. Prereq: PHYS 371, MATH 330. (3-0)

450 Advanced Problems in FORTRAN Programming (1) The application of the FORTRAN language to individual projects related to the individual’s field of study. Prereq: MATH 330 or concurrent registration. (1-0)

471 Observational Astronomy (3) Lectures and practicum in the observation and understanding of the mechanics of the celestial sphere. Identification of the visible constellations, location, and observation of the planets, Messier objects, and solar and lunar studies. The orientation and use of the equatorial telescope will be emphasized. Two hours lecture and two hours laboratory. Prereq: Astr. 271, MATH 112 or 115. (2-1)

490 Special Topics in Physics (1-3) Advanced course for physics students; Prereq: consent of instructor.

499 Research (1-2) Advanced project in physics, done under instructor supervision. Prereq: consent of instructor.

Biophysics

The Biophysics major is a highly flexible program that allows students to obtain training in biophysics as well as other complimentary subjects in the sciences. Although the program may include several science areas, it also permits the student to study one area in depth.

Major-Biophysics

74 credit hours

Requirements to earn a Bachelor of Science degree with a major in biophysics:

Synthesis (3 hours) in consultation with advisor.

Research (3 hours) in consultation with advisor.
26 hours minimum chosen from the following list in consultation with advisor. One course each must be from Biology and Physics.

BIOL 333 Animal Physiology 4
BIOL 334 Cell Biology 3
BIOL 336 Plant Physiology 4
BIOL 342 Comparative Chordate Anatomy 4
BIOL 382 Genetics 4
BIOL 434 Macromolecules and Metabolism 4
BIOL 436 Molecular Biology Techniques 4
BIOL 482 Molecular Biology 3
PHYS 361 Modern Physics 3
PHYS 381 Electromagnetic Fields 3
PHYS 419 Electromagnetic Theory 3
PHYS 439 Thermodynamics 3
CHEM 321 Quantitative Analysis 3
CHEM 351 Polymer Chemistry 3
CHEM 353 Organic Chemistry I 4
CHEM 354 Organic Chemistry II 4
CHEM 421 Instrumental Methods of Analysis I 3
CHEM 422 Instrumental Methods of Analysis II 3
CHEM 431 Biochemistry I 4
CHEM 432 Biochemistry II 4
CHEM 433 Advanced Organic Chemistry 4
CHEM 461 Physical Chemistry I 4
CHEM 462 Physical Chemistry II 4
MATH 331 Mathematical Models w/Applications 3
MATH 335 Calculus III 4
MATH 413 Linear Algebra 3
MATH 432 Advanced Calculus 3
MATH 433 Differential Equations 3
MATH 437 Numerical Analysis 3

Minor-Biophysics
24 credit hours
Requirements to earn a minor in biophysics are:
Complete 24 hours of advisor approved electives at the 300/400 level from the list below. One course each must be from Biology and Physics.

BIOL 333 Animal Physiology 4
BIOL 334 Cell Biology 3
BIOL 336 Plant Physiology 4
BIOL 342 Anatomy 4
BIOL 382 Genetics 4
BIOL 434 Macromolecules and Metabolism 4

CHEM 431 Biochemistry I 4
CHEM 432 Biochemistry II 4
CHEM 433 Advanced Organic Chemistry 4
CHEM 461 Physical Chemistry I 4
CHEM 462 Physical Chemistry II 4

Science Teaching Major (Teacher Certification)
Students who wish to prepare for careers as science teachers at the secondary school level should choose the Science Teaching major. This major is designed to meet the Indiana Professional Standards Board (IPSB) requirements for teaching licensure in one or more of the following areas: life sciences, earth/space sciences, chemistry, and physics.

The Science Teaching major is comprised of coursework in three areas:
1. The University Core Curriculum requirements that all USI students must fulfill.
2. The professional education requirements that students in all teacher education programs must fulfill (see Bower-Suhreinrich College of Education and Human Services).
3. The science and mathematics courses required to provide the content knowledge necessary for achievement of teaching licensure.

A minimum of 51 credit hours in a content area is required for the Science Teaching major. Within the Science Teaching major, students may opt for either single or dual certification/licensure. Students who seek licensure in a single science area are required to explore that content area in depth by fulfilling the single licensure program requirements for that area. Students who prefer dual certification/licensure take coursework in two content areas (either both in science, or one in science and one in mathematics) and explore these in less depth than is required for the single licensure option. Students should choose either the single or dual licensure option in keeping with their ultimate career goals, and should do so as early as possible in their undergraduate degree program. If the required courses in a student’s chosen program for either the single or dual licensure option total less that 51 hours, then the student must take directed elective courses to bring the total number of credit hours in a content area to 51. Specific content course requirements for the single- and dual-licensure options in each area (life sciences, earth/space sciences, chemistry, and physics) are listed in this bulletin with the academic department that offers the content coursework. The dual licensure content requirements for mathematics are the same as those listed elsewhere in this bulletin for the Mathematics Teaching minor.
The course requirements listed under the dual licensure option for each licensure area are considered to be the minimum content background necessary to meet IPSB certification requirements in that area. Therefore, students who do not pursue the Science or Mathematics Teaching major, but who wish to seek teaching certification in one of the science areas or mathematics, must fulfill, at a minimum, the content course requirements indicated for the dual licensure option in that area.

Science Teaching Minor for Elementary or Junior High/Middle School Science
24 credit hours
A minor in Science Teaching that is designed specifically to meet the needs of prospective elementary or junior high/middle school teachers. This minor is open only to students majoring in Elementary Education.

Required courses: Biology 141, 4 hrs. and 251, 3 hrs.; Chemistry 175 or 261, 4 hrs.; Physics 175, 4 hrs. or 205, 5 hrs.; Geology 161, 4 hrs. Directed electives to complete a minimum of 24 hours.
Bachelor of General Studies
The Bachelor of General Studies (BGS) degree program is designed to serve students who wish to pursue a broadly defined and/or individually designed baccalaureate program. BGS students will work closely with an advisor to design a program of study to meet individual educational and career objectives. The flexibility of the BGS degree will enable students to tailor educational experiences to meet personal goals, broaden their appreciation of the arts and sciences, enhance career skills and competencies, and increase career opportunities and choices.

Requirements for the Degree
The degree program consists of 124 credit hours as defined below. Other general academic and program requirements include:

- All University general admission requirements, academic policies, and academic standards for other baccalaureate degree programs apply to the BGS program.
- All students seeking the degree Bachelor of General Studies must fulfill University Core Curriculum requirements as part of the required 124 hours. Core Curriculum requirements are listed elsewhere in this bulletin.
- At least 30 of the 124 hours must be at the upper division (300-400) level.
- A minimum of 30 hours of credit toward the degree must be earned at USI.
- At least 21 hours of credit must be earned through coursework after the student has been admitted to the BGS program.
- Students seeking admission to the BGS program should make application to the USI Admission Office. Following acceptance to the University, a second, separate application must be made to the BGS program. A personal interview is required prior to admission to the BGS program.
- Up to six hours of credit may be awarded for an occupational experience (occupational internship). The internship must occur after admission to the program.
- Individualized Studies Option: BGS students who select the individualized studies option will work closely with an advisor to design a program of study to meet individual educational and career objectives. This flexible program enables students to create their own “major” utilizing courses from two or more academic disciplines. Previous hours earned at other institutions will be evaluated according to USI transfer policies.
- Applied Studies Option: This option is for students who have completed a formal associate degree program or have considerable college credit.
- Up to 64 hours may be transferred from associate degree programs, depending on the transferability of specific courses or programs. For technical degrees and/or certificates, credit may be awarded as a block (not a recognition of individual courses for transfer). The amount of credit awarded will be determined by the BGS committee, but may not exceed 45 hours.
- A 30-hour interdisciplinary concentration must be selected from a list of approved programs. Those currently approved include technical studies, information technology studies, and organizational communication studies.

30

*One course may count as a core curriculum requirement, the other may be used to satisfy the concentration requirement.

For additional information, contact Extended Services at 812/464-1863 or visit www.usi.edu/extserv/bgs/index.asp.

**Course Descriptions**

**GENS 490 General Studies Internship (1-6)** is designed to recognize the value of experiential learning activities and work experience relevant to the individual’s program. Each student, as directed by a faculty member, and with consultation from the Bachelor of General Studies (BGS) director, will develop a project that demonstrates the integration of prior educational and work experience with University coursework into a unified and meaningful whole. The number of hours of credit to be awarded will be determined by the faculty member, but may not exceed six. Credit will be awarded only after the student has been admitted to the BGS program.

**GENS 498 Personal & Professional Development (3)** This capstone course satisfies the University Core Curriculum’s Category D: Synthesis for students pursuing the Bachelor of General Studies. Others may enroll for elective credit. This course is an interdisciplinary study of adult human development and self. Theories of psychosocial, cognitive, moral, and faith development are examined and compared with the student’s personal history and career development in the form of a professional portfolio and a thematic autobiography. The assigned Applied Research Project draws from the student’s critical thinking and information processing skills in identifying a contemporary problem in an organization, gathering pertinent information for analysis, and choosing an appropriate solution. Prereq: PSY 201, senior standing and consent of instructor.

**Reserve Officers Training Corps (ROTC)**

The ROTC program builds students’ leadership expertise, communication and decision-making skills, as well as self-confidence, all of which can be applied immediately while still in college or upon graduation from college. The leadership and management skills taught in ROTC are in high demand in the civilian market as well as in the military.

Instruction and training given both in the classroom and at Army installations range from strategic studies to tactical exercises and include subjects from air-land battle doctrine to rappelling, marksmanship, military history, and operational considerations. New lieutenants have options for the job (branch) in which they will work. Educational delays may be requested for graduate school in medical fields and in law. All grades received for Military Science courses are included in cumulative grade point ratios.

For more information call 812/461-5304 or 812/461-5302.

**Course Descriptions**

**MS 101 Fundamental Military Concepts (1)** The course introduces the student to the basic officer competencies and establishes a firm foundation for their continued study in higher ROTC courses. Instructs basic life skills pertaining to personal fitness and interpersonal communication skills. Students will be introduced to the US Army values, national values, and expected ethical behavior. Students will be exposed to the unique duties and responsibilities of officers and the expectations of selfless service, dedication and duty to the nation. Designed to introduce the basic soldier skills and introduce squad level tactical operations. Attention is devoted to development of leadership potential through practical exercises both in and out of the classroom. No prereq. F

**MS 102 Basic Leadership (1)** Examines the leadership process as affected by individual differences and styles, group dynamics and personality behavior of leaders. Will introduce a generic model of problem solving. Teaches the basic skills that underlie effective problem solving in different work environments. Instructs how to relate the problem-solving model and basic problem solving skills to the resolution of military problems. Students will experience an introduction of fundamental leadership concepts, and examine factors that influence leader and group effectiveness. Designed to teach the basic soldier skills and squad level tactical operations. Student involvement in briefings and hands on practical exercises. Attention is devoted to development of leadership potential through practical exercises both in and out of the classroom. No prereq. Sp

**MS 201 Advanced Leadership and Management (2)** Develops basic leadership abilities and management skills through instruction and hands on practical exercises. Introduces principles and techniques of effective written and oral communication. Teaches practical leader skills and examines the principle of subordinate motivation and organizational change. Student will apply leadership and problem solving to a complex case study/simulation. Class is designed to develop individual team skills, decision-making abilities, test basic tactical proficiency skills as well as improving planning and organizational skills both in
Further develops and develops leadership skills by focusing on conventional basic squad and small unit tactics and introduces students to the basic tactical principles of maneuver. Examines the roots of national and Army values, and better citizenship. Allows students to apply principles of ethical decision-making and resolve ethical issues in case studies. Examines the legal and historical foundations, duties and function of the Army officer. Special attention is devoted to development of leadership potential through practical exercises both in and out of the classroom. No prerequisite. F

MS 202 Leadership, Tactics and Officership (2) Course is designed for those students who contract with Army ROTC to continue their military studies in pursuit of a commission as an officer into the Army following graduation from college. Course focus is to build cadet leadership competencies in preparation for attendance and successful completion of ROTC Leader Development and Assessment Course, Ft. Lewis, Washington. Focus will center on advanced self-development through the Leadership Development Program, and an advanced-learning environment of doctrinal leadership and tactical operations at the small unit level. Cadets will plan and conduct individual and collective skill training for offensive operations, and a Field Training Exercise during the spring semester. Cadets will be exposed to the developmental counseling program throughout the course period. Prerequisite: MS 301 and departmental approval. Sp

(SENIOR YEAR)

MS 401 Leadership, Management and Ethics (3) Course is designed to develop, train and transition the advanced course graduate from cadet to lieutenant for service as an officer. Course will study Army staff organizations, how they function and the processes of the Army's hierarchy organizational structure. Students will learn in depth counseling responsibilities/methods, officer and non-commissioned officer evaluation report development, officer evaluation report support form development, and training plan development. Course analyzes the legal aspects of decision-making and leadership in action. Course will expose cadets to the foundations of leadership, operational law, and the key aspects of the Uniformed Code of Military Justice. Cadet will receive training on basic leadership responsibilities to foster an ethical command climate and how to meet moral obligations, as well as leader responsibilities to accommodate subordinate spiritual needs. Prerequisite: Departmental approval. F

MS 402 Transition to Lieutenant (3) Continued advanced development and transition of the advanced camp graduate from cadet to lieutenant for service as an officer. Course is a follow-on module to the MS 401 class. Course will expose cadets to the in depth study of leadership, operational law, and the key aspects of the Uniformed Code of Military Justice, with a hands on approach with interactive scenarios being utilized in class. Students will undergo hands on training and instruction in Joint Ethics regulations, Joint strategic level operations, study of Army administrative and logistics management, in depth counseling techniques and duty at first military assignment. Course will cover the Army's training philosophy, METL development, equipment readiness, and rules of engagement during deployment operations. Students will also receive training in personal awareness financial planning. Prerequisite: MS 401 and departmental approval. Sp

MS 499 Military Science Independent Study (1-4) An opportunity to investigate a topic of particular interest to the student under the supervision of a faculty member. Requires extensive reading, research, analysis, and writing. F, Sp
UNIVERSITY DIVISION

Dr. Charles Harrington, Ph.D., Assistant Vice President for Academic Affairs
Stephanie Hamington, M.S., Director of University Division

The University Division coordinates a variety of academic programs and services, including academic support services for all USI students and academic advising for students without a declared major or classified as non-degree seeking, guest, high school agreement, or conditionally admitted. The Division comprises University Division Advising, Academic Skills, and the English as a Second Language International. For additional information visit www.usi.edu/Uni_Div/index.asp

University Division Advising
Students who are undecided about a major enroll temporarily in University Division instead of enrolling in an academic major. University Division academic advisors offer guidance to those uncertain about their educational, career, and lifetime goals. Located in Education Center Room 1142, advisors are available to students 8 a.m. to 4:30 p.m., Monday through Friday. Call 812/465-1606.

Students are encouraged to declare an academic major as soon as possible. Students must declare a major before the first semester of their junior year. Transferring from University Division to an academic department can occur at any time during the exploratory period. Although, some departments or programs may have requirements to be met first.

Regular academic advising is particularly important for the long-term academic success of students currently exploring multiple career options. Therefore, all University Division students are required to see an academic advising prior to registration for each semester. Students in University Division receive specialized academic advising and are encouraged to participate in one or more career exploration experiences offered on campus. These services include individual career counseling through the Career Counseling office, the GENS 111 Career Planning course, and other resources.

Like all baccalaureate degree-seeking students, University Division students spend much of their first four semesters completing University Core Curriculum courses, the nucleus of a liberal arts education. These courses help students become better problem solvers, better citizens, and more thoughtful human beings. These requirements and the special academic advice University Division students receive establish a strong foundation for advanced study and encourage students to use their curiosity and enthusiasm to inquire into many realms of knowledge. University Division seeks to help students become more flexible, to see relationships among disciplines of study, and to develop the basis for lifelong learning and work.

Conditionally admitted students meet regularly with University Division advisors and take an academic support course (GENS 101—Freshman Seminar) to help them make a successful transition from secondary education to university work.

Course Descriptions
101 Freshman Seminar (1) This course helps freshmen adjust to the university work load and environment. It includes intensive instruction and practice in study skills, geared to the whole spectrum of learning styles. Students discover what resources are available to help them, discuss issues of values and behavior in the college setting, and learn to take responsibility for their own learning. The course is highly interactive and employs a variety of teaching styles. Open to University Division students only. It is a graded course.

Academic Skills
The mission of Academic Skills is to provide support services, classes, and learning assistance programs to enhance student success and the educational process at USI. Located in the Education Center, Room 1111, office hours are Monday through Friday from 8 a.m. to 4:30 p.m. Peer tutoring is available from 8 a.m. until 6 p.m. on Monday, 8 a.m. to 4:30 p.m. Tuesday through Thursday, and 8 a.m. until noon on Friday. In addition, writing consulting is available in the Writers’ Room, ED 1102, from 9 a.m. until 6 p.m. on Monday, 9 a.m. to 3 p.m. Tuesday through Thursday, and 9 a.m. until noon on Friday.

Placement Testing
Academic Skills administers math and foreign language placement tests by appointment, and any required placement testing must be completed prior to advising and registration. Photo identification is required to test. Appointments can be scheduled by contacting Academic Skills at 812/464-1743 between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Students with disabilities requesting special accommodations must be registered with the Counseling Center, 812/464-1867, at least two weeks prior to scheduling an appointment for placement testing.

Math—The Department of Mathematics has mandatory placement for all entry-level mathematics courses. Placement into an appropriate course is determined by a mathematics placement test; therefore it is extremely important that one’s best effort be given in taking this test.
Some students may be exempt from taking the math placement test, based on the following:

- Math SAT score of at least 640 or Math ACT score of at least 29
- High school GPA of at least 3.0 (on a 4.0 scale) and Math SAT score of at least 600 or Math ACT score of at least 26

A student exempt from placement testing may select the math course, with the assistance of an advisor, which best meets the requirements of his or her program of study.

**Nontraditional Students**—Because students who enter courses at the proper level are more successful in college than students who take a course that is too easy or one that is too difficult, the Department of Mathematics recommends all nontraditional students take placement tests. Placement tests do not affect admission to the University; the results of the placement tests are used only to assist students in selecting the appropriate entry-level math course. Starting in the right course helps students succeed academically, which ultimately will save them time and money.

**Transfer Students**—The Department of Mathematics will exempt transfer students from placement testing who provide evidence of successful completion of prerequisite courses or the appropriate Math SAT or ACT score.

**Foreign Language**—Placement testing is recommended for students who studied French, German, Spanish, Japanese, or Latin in high school. The Foreign Language placement test allows students who studied a foreign language in high school to enroll in a course ranging from the second to the fifth semester of language study. Achieving a grade of B or better in the course in which they are placed earns credit for all preceding courses. Students requesting Japanese or Latin placement should contact the Department of Foreign Languages (812/461-5203); French, German, and Spanish placement tests are given by Academic Skills (812/464-1743).

**English**—The Department of English has mandatory placement for all introductory writing courses (GENS 098, ENG 100 and 101). Placement into an appropriate writing course is determined by a student’s high school GPA and Verbal SAT/ACT score. Students who don’t have a high school GPA or SAT score will be automatically placed into English 100. Transfer students’ English placement also will be based upon their transfer credit evaluation.

**Tutoring**

Academic Skills strives to provide the best services possible to help students succeed. Tutoring is available in a variety of subjects including accounting, algebra, biology, calculus, chemistry, economics, history, physics, psychology, Spanish, study skills, and writing. Students interested in becoming tutors should visit Academic Skills for more information.

**Supplemental Instruction (SI)**

SI provides students with an opportunity to study in a group with a successful, experienced student leader. Three voluntary study sessions per week are offered for specific classes that have proven to be difficult. By participating in SI study sessions, students can improve grades while learning effective study strategies that make efficient use of their study time, and, at the same time, make friends who also have strong academic goals.

**ACHIEVE**

ACHIEVE is an early-warning system that helps faculty intervene when students are headed for probable failure. Weeks three, four, and five of the semester represent the first critical period when instructors observe students with low-skill levels, poor attendance, missed assignments, and limited note-taking activity. At the request of instructors, the ACHIEVE representative will contact students and provide early intervention strategies to help them achieve success.

**Success Series Workshops**

Success Series workshops are 30-minute learning experiences held in a relaxed atmosphere intended to provide an intellectual break from the pressure of the academic day. Offered in the Education Center, Success Series workshops cover a wide variety of study skills including Noteworthy Notetaking, Kiss the Test Anxiety Away, Memory Markers, Thesis Therapy, The 250 Rule, and Thinking about Thinking.

**General Studies (GENS) Classes**

Academic Skills offers general studies (GENS) courses designed to prepare students to meet the demands of college-level work.
Course Descriptions

Two ESL (English as a Second Language) three-hour, non-degree credit courses.

095 ESL Writing (3) This course is designed for students whose primary language is not English. It is a discussion/practice composition course. Focus is on organization and development of information in paragraphs and short essays with emphasis on correct sentence structure. Students will have weekly written assignments.

096 ESL Reading (3) This course is designed for students whose native language is not English. It will enable these students to improve their reading comprehension of academic materials. Class activities include an in-depth discussion of reading selections and frequent written assignments.

Three non-degree credit courses are open to all students who wish to improve their basic skills.

097 Algebra Review (3) This non-credit course begins with a review of fractions, then moves quickly to the language of algebra including order of operations, exponents, positive and negative numbers, linear equations, polynomials, and factoring. A computer component called MyMathLab is used as a supplement in this course. Calculators are not allowed. Credit in this course will not apply to a degree. Students whose math placement scores meet the University's established readiness level for this course may enroll only with the permission of the Academic Skills coordinator.

098 Strategies for Writers (3) This non-credit course provides students opportunities to write and revise college writing assignments. Students will engage in the writing process by practicing strategies for inventing, focusing, organizing, developing, and revising their work, as well as by learning editing strategies for standard grammar and usage. Emphasis will be placed on the early stages of the writing process (generating ideas and planning) and on considering the audience for and purpose of writing. Credit in this course will not apply to a degree. Students whose high school GPA and SAT or ACT scores meet the University's established readiness level for GENS 097 may enroll. Students whose math scores are below the University's established readiness level for this course may enroll only with the permission of the Academic Skills coordinator.

099 Strategies for College Reading (3) This course emphasizes mastery of reading strategies to develop content literacy, vocabulary, and self-assessment. The focus on active reading is accomplished by examining cognitive and metacognitive influences on learning using various readings, including textbook chapters, essays, and Internet documents. Students will employ strategies such as identifying topic, stated and implied main ideas, supporting details, and paragraph organization to become efficient critical readers. Some sections also are offered using computers in the classroom as a tool for communication and research. The goal is that students will develop awareness and master the use of specific reading strategies for improving vocabulary, comprehension, and reading efficiency in preparation for the demands of college level-reading. Credit for this course will not apply to a degree. Students whose high school GPA and SAT or ACT scores meet the University's established level of readiness for GENS 099 may enroll in this course.

The courses scheduled each semester for students in all degree programs for elective credit are:

105 College Study Strategies (1) This course helps incoming freshmen, current students in need of better study skills, and adults re-entering or contemplating re-entry to formal education assess their current approach to studying. It offers suggestions and practice to improve study methods. The course topics include time management, notetaking from lectures and textbooks, exam preparation, listening skills, memory, concentration, test anxiety, and organization. Course is open to all students for elective credit.

111 Career Planning (1) Confusion about career planning occurs among undergraduates as well as among individuals who have entered the working world. This course benefits any student who is undecided about a career choice. The course is designed to increase self-awareness, familiarize participants with informational resources available to help in career planning, and provide individualized assistance with career decision-making. Course is open to all students for elective credit.

151 Applied Content Reading (3) In order to be successful in college, students must be able to read, comprehend, synthesize, and process large amounts of information. This course introduces active and critical reading strategies that will enable the student to learn to predict, connect, question, organize, and evaluate information. Furthermore, the student will develop a repertoire of reading techniques that will be applied to other content areas and will encourage flexibility and efficiency in reading across the academic disciplines. The student whose high school GPA and SAT or ACT scores meet the University's established level of readiness may enroll in this course.

199 Select Topics in Study Strategies (1) This course focuses on an intensive study of specialized topics in study strategies such as vocabulary, speed reading, critical thinking, and PRAXIS 1 Preparation. Course is open to all students and repeatable with change in course content.

English as a Second Language International

The University has partnered with English as a Second Language International (ESLI) to provide intensive English programs for international students who need to satisfy English proficiency requirements before enrolling in University degree programs. For additional information, call 812/461-5362 or visit www.usi.edu/uni_div/esli/.
The Office of Graduate Studies, located in the Byron C. Wright Administration Building, serves graduate students and a graduate faculty whose primary goals are the advancement of scholarship, research, and creative activity. It is through the encouragement and support of these goals that the institution contributes to the development of knowledge and the professional preparation of its graduate students.

Instruction through formal directed study, seminars, and independent research provides graduate students with ample opportunities to acquire advanced knowledge. Programs are designed to improve the students’ professional and scholarly abilities.

The primary responsibilities of the Office of Graduate Studies are to maintain and enhance the quality of graduate programs and to facilitate research and creative activity. The Graduate Council, the legislative and administrative body for graduate programs of the University, sets policies and regulations governing graduate work. The Graduate Council conducts the business of the faculty having to do specifically with graduate education, including development, direction, and implementation of graduate programs.

Accreditation and Affiliation
The University is accredited through the master’s level by the North Central Association of Colleges and Schools (NCA), 30 North LaSalle, Suite 2400, Chicago, Illinois 60602, telephone 312/263-0456, and is a member of the Council of Graduate Schools and the Midwestern Association of Graduate Schools.

Graduate Degree Programs
The University has authorization to confer the following graduate degrees: Master of Arts in Liberal Studies, Master of Business Administration, Master of Health Administration, Master of Public Administration, Master of Science in Accountancy, Master of Science in Education, Master of Science in Industrial Management, Master of Science in Nursing, Master of Science in Occupational Therapy and Master of Social Work.

Graduate Academic Fields

College of Business
• Accountancy
• Business Administration

Bower-Suhrheinrich College of Education and Human Services
• Elementary Education
• Secondary Education
• Social Work
• Transition to Teaching-Elementary
• Transition to Teaching-Secondary
• Educational Leadership

Pott College of Science and Engineering
• Industrial Management

College of Liberal Arts
• Liberal Studies (Interdisciplinary with Pott College of Science and Engineering)
• Public Administration

College of Nursing and Health Professions
• Acute Care Nurse Practitioner
• Clinical Nurse Specialist
• Family Nurse Practitioner
• Health Administration
• Nursing Educator
• Nursing Management and Leadership
• Occupational Therapy

Post-baccalaureate certificate programs are offered in Health Professions Education and Health Professions Management.

Admission
Admission to Graduate Studies
All requests concerning admission to graduate study should be addressed to the following office:
Office of Graduate Studies
University of Southern Indiana
8600 University Boulevard
Evansville, Indiana 47712
812/465-7015
E-mail: gssr@usi.edu
Web site: www.usi.edu/gradstud/

Application for admission must be made using the online form or on official application forms provided by the Office of Graduate Studies. All application credentials become the property of the University and are not returned to the student.

Initial Steps by Applicants
A student seeking admission to graduate study must submit the following materials to the Office of Graduate Studies:
• All requested application materials, including a
completed application form available online at www.usi.edu/gradstud/admit.asp, accompanied by a $25 non-refundable one-time graduate application fee made payable to USI, at least one month prior to entry date sought. Some programs require an earlier submission date.

• One official transcript from each undergraduate and graduate institution attended. Transcripts and other educational records are official if the issuing institution sends them directly to the Office of Graduate Studies. Failure to submit official transcripts from every institution will delay admission. Course work from one institution reported as transfer credit on another school’s transcript does not constitute an official transcript.

• All other admission credentials required by the particular program for which admission is sought.

Regular Admission Requirements
The following standards have been established for regular admission to a program of graduate study leading to the master’s degree:

• Graduation with a bachelor’s degree (minimum cumulative GPA 2.5) from a college or university accredited by the North Central Association of Colleges and Schools or a comparable association.

• A minimum grade-point average of 3.0 in all courses taken at the graduate level at all schools attended.

• An undergraduate record that provides adequate preparation to begin graduate study.

• Satisfactory performance on the Graduate Record Examination, PRAXIS test, or Graduate Management Admissions Test when required.

• Any other requirements for admission that have been established and approved by the Graduate Council.

Conditional Admission
Admission to graduate study on a conditional basis may be granted. One or more of the following factors may be involved when conditional admission is granted:

• A student who has undergraduate deficiencies in the area in which graduate work is desired may be granted conditional admission to graduate study. Undergraduate work needed to make up deficiencies may be a necessary part of the student’s program. Such work will not carry graduate credit, nor will it count as credit toward a graduate degree. In general, graduate-level courses taken to make up deficiencies will not apply toward the minimum number of hours required for the degree.

• University seniors who qualify for enrollment in a limited amount of graduate work may be granted conditional admission.

• When a student’s credentials have not yet been reviewed, conditional admission may be granted.

• Students whose native language is not English may be admitted on the condition that evidence of adequate English proficiency is provided prior to registration.

• The student whose preparation, academic record, or program requirements do not merit regular admission may be granted conditional admission.

• Students admitted conditionally must receive a B average in their first six hours in the graduate program. A student admitted conditionally who earns an Incomplete in the first two courses must remove the Incomplete before enrolling in additional coursework.

Admission Requirements for International Students
International students are subject to all requirements for admission to graduate studies. Application for admission should be made at least six months prior to the date of anticipated enrollment. Admission credentials must include:

• An application for admission.

• Payment of the application fee.

• Official Academic Records.

Submit an official or certified true copy of all grade reports, diplomas, and academic records attesting to the completion of undergraduate or graduate work to the Office of Graduate Studies. The records should show a complete list of courses taken, grades received and any diplomas or certificates earned. They should also state the number of credits awarded for each course or the number of hours of classroom, lecture, and laboratory for each course, and should include information about the school’s grading scale.

Where the college or university routinely issues academic records in English, those documents can be accepted. Otherwise, course-by-course English translations of all foreign language educational documents must accompany the originals. The format of the translation should follow the same format as the foreign language original. The accuracy of the translation must be certified either by an appropriate officer at the issuing educational institution; by an appropriate government officer at the Ministry of Education, consulate, or embassy of the country; or by an international credential evaluation service.

Transcripts and other educational records are official only if the issuing institution, government officer, or evaluation service sends them directly to the Office of Graduate Studies. Course work from one institution
reported as transfer credit on another school’s transcript does not constitute an official transcript.

- Verification of English competency.

English competency is established by achievement of a minimum score of 500 on the paper-based TOEFL (Test of English as a Foreign Language) or 173 on the computer-based TOEFL or 6 on the IELTS (International English Language Testing System) test. All foreign-born applicants whose primary spoken language is not English must provide official test scores before being admitted; these scores must be less than two years old. Official test results should be sent to the Office of Graduate Studies at the time of application.

**Exception:** International students whose native language is English or who have graduated from an American university in which the language of instruction is English are not required to demonstrate language proficiency. Information about the TOEFL administration dates and registration procedure may be obtained from TOEFL Services, Educational Testing Service, P.O. Box 6151, Princeton, New Jersey 08541-6151, USA; telephone 609/771-7100. The Web address is www.toefl.org.

**Non-degree Status/Special Student Admission**

Students who hold a bachelor’s or higher degree from an accredited institution and wish to take graduate course work for credit may take up to six hours before they must be admitted to a program. Students wishing to apply for this status must submit necessary application credentials and the one-time non-refundable $25 graduate application fee payable to USI and be approved for admission by the appropriate department/college and by the director of Graduate Studies. Official transcripts are required of all undergraduate and graduate course work attempted. Have each registrar send transcripts directly to the Office of Graduate Studies, USI, 8600 University Boulevard, Evansville, IN 47712-3596. The Graduate Studies office must receive the transcripts by the end of the first semester the student is enrolled in graduate course work.

The University assumes no responsibility for the transfer of graduate work to any other university. The student should ascertain transferability of credit with the degree-granting institution prior to enrolling at the University of Southern Indiana.

**University Seniors**

A senior student at the University with an overall grade point average of 3.0 or higher who is enrolled in his/her last semester of undergraduate work may be granted conditional admission to enroll in a limited amount of graduate course work.

**Residence Classification for Fee Purposes**

In-state residence requires a bona fide permanent domicile in excess of 12 months. Holders of degrees from the University who at the time of graduation were residents of the State of Indiana shall, for the purpose of subsequent registrations in the University, be classified as residents of Indiana. Physical presence in Indiana for the predominant purpose of attending a college, university, or other institution of higher education, shall not be counted in determining the 12-month period of residence. The Office of Graduate Studies, 812/465-7015, can answer questions regarding residence classification.

**Non-Resident Fees**

In addition to the combined fees required of all students, those who are not residents of the State of Indiana must pay additional non-resident fees for on-campus study during the regular academic year and summer sessions.
Graduate Financial Assistance
Student financial assistance includes scholarships, loans, assistantships, and student employment under the Work Study program.

Application for Financial Assistance
To have financial assistance processed in a timely manner and to be considered for all types of assistance, students must file the Free Application for Federal Student Aid (FAFSA) prior to March 1 preceding the academic year for which aid is being requested. The academic year begins in fall and ends in spring.

While the Free Application for Federal Student Aid (FAFSA) covers fall through the following summer, summer aid requires special processing. The summer is made up of three sessions but classes may meet for five, 10, or 15 weeks. Since the summer is the same length as a regular semester, it has the same enrollment requirements. Half-time is at least five credit hours. Stafford loans and many private loans require at least half-time enrollment.

A separate Stafford Loan request form is required for summer. And since eligibility for most programs depends on how much aid was used during the past academic year, it is recommended that students meet with their financial aid counselors to determine summer eligibility for financial assistance well before summer registration in April.

Summer Work Study is available for both enrolled and non-enrolled students. Non-enrolled students must be registered for the upcoming fall semester. Students may work full-time during periods of non-enrollment but a percentage of earnings from these periods will be used to meet students' need in the upcoming academic year. Thus summer employment can reduce students' eligibility for certain programs during the academic year.

The Free Application for Federal Student Aid (FAFSA) is available in the USI Student Financial Assistance Office. Write or call for more information. The FAFSA is also available online at www.fafsa.ed.gov.

Transfer Students
Students who have attended another college within a three-month period prior to enrolling at USI must have their records checked on the National Student Loan Data System by USI staff before aid may be disbursed. All transfer students must have final academic transcripts evaluated. Mid-year transfers can expect delays in Stafford Loan processing due to final transcripts arriving after the start of the semester.

Enrollment Status/Credit Level
To be considered a full-time graduate student for the purpose of receiving most financial aid requires that the student be enrolled in required graduate courses totaling at least nine credit hours during each semester including summer. A load of five credit hours of graduate course work during a semester is the minimum amount for consideration as a half-time graduate student.

NOTES: Assistance may be reduced for less than full-time enrollment. Assistance may be withdrawn for less than half-time enrollment. Only credits which are required for successful completion of the student's degree program may be counted in the determination of enrollment status. Students who receive aid for courses which are not required for graduation will be directed to repay all or a portion of such aid. Scholarship recipients are responsible for knowing and complying with the rules specific to each scholarship program.

Financial Responsibility
Students who do not receive a financial aid notification letter prior to billing must pay their fees by the due date in order to retain the classes for which they are registered. The Bursar's Office offers, for an additional fee, an installment payment plan that utilizes monthly payments.

Most types of aid will appear as a credit against fees on the bill sent prior to the start of classes. Some aid types, such as Work Study, require special procedures and will not appear on the bill. Estimated aid that appears on the bill may be deducted from the total fees. If no payment is required, students must sign and return their bills by the due date to ensure that classes will be reserved and not canceled. Students should contact the Student Financial Assistance Office if they have questions about financial aid credits on their bills.

Reasonable Academic Progress
Graduate students who receive financial assistance at the University of Southern Indiana must maintain reason-
able academic progress toward the achievement of their degree. This policy sets the minimum standards for evaluating reasonable academic progress for graduate-level federal and state financial aid programs.

Enrollment in Graduate Program
Financial aid recipients must take only courses which apply to their graduate program. Students enrolled in pre-requisite classes may qualify for senior class (under-graduate level) Stafford Loan limits for a maximum of 12 months. In these special cases, the completion rate and minimum cumulative grade point average of this policy apply. Special students and guest students are not eligible for financial assistance.

Cumulative Grade Point Average
Financial aid recipients are required to maintain a minimum grade point average as they progress toward achievement of their degree. Graduate and prerequisite students will be evaluated as follows:

- **New prerequisite students** – Must be taking only classes that are required prerequisites and graduate-level courses required for the intended major. Courses must be approved by graduate advisor and copy of approval submitted to the Student Financial Assistance office before first term begins.

- **New graduate students** – Must be admitted to Graduate Studies in a specific degree program.

- **Transfer graduate students** – Must have minimum transfer graduate point average of 3.0 and be admitted to Graduate Studies in specific degree program.

- **Continuing and readmission graduate students** – Must have minimum USI graduate cumulative grade point average of 3.0 and be in “good standing” as a graduate student.

**NOTE:** Certain courses (e.g., business courses numbered 501) do not automatically produce a graduate grade point average. A grade point average from such courses will be manually calculated to determine financial aid eligibility.

Successful Completion Rate
Financial aid recipients are required to successfully complete all credits attempted each term. Attempted credits are defined as the total number of hours in which the student is enrolled on the first day of classes in any term. No allowance is made for withdrawals in the first week of class. Graduate students who fail to successfully complete all credits attempted will be placed on probation or have aid eligibility suspended.

Successful completion of 50 percent but less than 100 percent of attempted credits in a term or semester will result in probation. A successful completion rate of less than 50 percent in a term or semester will result in suspension of aid eligibility.

Graduate students are limited to 56 attempted credits including transfer graduate credits and survey courses (e.g., business courses numbered 501) in pursuit of a master’s degree. Students pursuing second and subsequent graduate degrees are limited to 101 attempted credits including credit given for prior graduate studies.

Transfer Credits
Graduate credits accepted by USI from other institutions will be used in both the completion rate and cumulative GPA evaluations. While the cumulative GPA will be determined by the Registrar using only credits attempted at USI, credits transferred to USI will count as credits attempted and credits earned.

Incompletes and Course Repeats
Incomplete grades must be converted to a passing grade by the end of the following regular term (fall or spring). Incompletes which remain beyond the following term will be considered failing grades for financial aid purposes. Graduate courses in which the minimum grade requirement is not met may be repeated only one time for financial aid purposes. Each occurrence on the academic transcript of a repeated course counts toward the maximum attempted credit limit stated under “Successful Completion Rate.”

Probation
Reasonable academic progress will be evaluated at the end of the Fall, Spring, and Summer. Probation with continuing financial assistance will be imposed for students who do not comply with this policy (except in cases of a one-term, less-than-50 percent successful completion rate in which immediate suspension applies). Students placed on probation will have one semester to establish reasonable academic progress. Reasonable academic progress for students on probation requires the student to achieve a 3.0 minimum cumulative grade point average and a two term successful completion rate of at least 75 percent of attempted credits. For example, if a student attempts nine credits and successfully completes six and then enrolls in nine credits the following term, the student must successfully complete at least eight credits in the second term with a minimum cumulative GPA of 3.0 to avoid suspension of aid eligibility.
Suspension
Students who fail to establish reasonable academic progress after being placed on probation for one semester will have their financial aid eligibility suspended until they comply with this policy. (Note: A one-term successful completion rate of less than 50 percent also will result in suspension.)

Mitigating Circumstances
If a student’s failure to maintain reasonable academic progress is a result of illness, family circumstances, or other conditions beyond the student’s control, the student may appeal to the Financial Assistance Advisory Committee for a waiver of this policy. All such appeals must be submitted within 60 days of the end of the term in question and documentation by a third party (e.g. doctor, counselor, or attorney) will be required when applicable. Appeals should be sent to the following address:

Advisory and Appeals Committee
Student Financial Assistance
University of Southern Indiana
8600 University Boulevard
Evansville, IN 47712

Students will receive a written response to their appeal within 45 days. Appeals submitted less than 30 days prior to the start of a term for which assistance is desired may not be processed before tuition and fees are due. Students must be prepared to pay their tuition and fees pending the outcome of their appeal.

No financial assistance, including Stafford Loans, will be reinstated for prior terms in which the student was not in compliance with this policy.

Institutional Refund Policy for Financial Aid Recipients
Students who withdraw from the University or change enrollment status during the fee refund period will be required to restore refunded fees to the financial aid account from which the money originated. The full amount of fee refunds will be used to repay student aid accounts until all student aid is reimbursed.

Students who withdraw from or cease attendance at the University prior to the 10th week in fall or spring may be required to repay a portion of any financial aid which exceeded actual fees and books. Summer session refunds are calculated on the length of individual class schedules using the 60 percent point of the enrollment period as the cutoff for refunds to the financial aid programs. The current refund policy for financial aid recipients is available in the Student Financial Assistance Office.

General Eligibility Requirements for Federal Student Aid
To receive Federal Work Study and Stafford Loans, a student must meet the following general requirements and additional program-specific requirements. A federal aid recipient must:
• Be a U.S. citizen or eligible non-citizen.
• Be registered for the draft with Selective Service if required by current law.
• Have a high school diploma or GED.
• Have financial need for all but Unsubsidized Stafford Loans.
• Attend a school that is eligible to participate in one or more federal aid programs.
• Be enrolled at least half-time (except for Federal Work Study).
• Be working toward a degree, approved certificate, or teacher’s certification.
• Be making reasonable academic progress, and not be in default on a Title IV or Higher Education Act (HEA) student loan, or owe a repayment of a Title IV or HEA grant received for attendance at any institution.

Federal Financial Aid Programs
• Federal Work Study (FWS)
• Federal Stafford Loans (subsidized and/or unsubsidized interest)

For more information, or to receive an application packet for financial assistance, contact:

Student Financial Assistance

Toll-free 800/467-1965

University Scholarships, Grants, and Employment Reciprocity
Thanks to the Indiana Commission for Higher Education and the Kentucky Council on Higher Education, a reciprocal agreement between Kentucky and Indiana provides an opportunity for the residents of Daviess, Hancock, Henderson, and Union counties in Kentucky to attend the University of Southern Indiana while paying “in-state” tuition and fees. Students who begin a program under the Reciprocity Agreement will be permitted to complete the program after the agreement expires contingent upon continuous enrollment in all regular terms. An eligible student:
• Must be accepted and enrolled at USI.
• May enroll in any undergraduate or graduate degree program.
• May enroll on a full-time or part-time basis.
• Shall be subject to the same admission standards as resident students.
• Shall be assessed tuition and fees at resident student rates.

**Child of Disabled or Deceased Veteran (CDV).** State universities in Indiana waive tuition and certain fees for children of a service-connected disabled or deceased veteran. The veteran must be classified as an Indiana veteran by the Indiana Department of Veterans Affairs and have received an honorable discharge. The student must be classified by USI as an Indiana resident for tuition purposes. USI waives applicable fees for a total of four years of study (124 credit hours) under the CDV program including study at other state universities. This benefit is available for both undergraduate and graduate study.

Applications are available in the Student Financial Assistance Office and on the USI Web page. Applications must be certified by the Indiana Department of Veteran Affairs in Indianapolis.

**Child of POW/MIA.** State universities in Indiana waive all instructional fees for the child of any person who was a resident of Indiana at the time of entry into the U.S. Armed Forces and was classified as a prisoner of war (POW) or missing in action (MIA) after January 1, 1960. Eligible children must have been born before or during the time the parent served as a POW or was declared MIA. Contact the Student Financial Assistance Office for applications and information.

**Child of Indiana Police Officer or Firefighter Killed in the Line of Duty.** State universities in Indiana waive tuition and certain fees for the children of Indiana police officers or firefighters killed in the line of duty. USI waives tuition and lab fees for a maximum of 124 credit hours of study through age 23. This benefit may be used for undergraduate or graduate study. This benefit is available for both undergraduate and graduate study. Contact the Student Financial Assistance Office for more information.

**Graduate Assistantship.** Students admitted to a graduate program and enrolled in a minimum of five graduate credit hours per semester may qualify for a limited number of graduate assistantships. In addition to pursuing a formal program of graduate study, a graduate assistant performs professional duties and assumes responsibilities commensurate with his/her educational background and experience. A graduate assistant receives a fee waiver and is paid wages for work performed. Applications are available in the Office of Graduate Studies.

**Student Employment.** In addition to Federal Work Study, the University employs students as part-time employees. Contact the Career Services and Placement Office in the Orr Center for information about non-Work Study student employment as well as off-campus opportunities.

**Limitation on Participation.** When institutional and/or state programs provide for payment of the same fees (e.g., tuition), the Student Financial Assistance Office will coordinate the assistance so that it does not exceed the charges that are to be paid. Tuition-specific financial aid may not be applied to other charges or refunded to students.
Fees and Expenses

Contingent, Student Service, and Academic Facilities Fees
Indiana residents who are graduate students pay a combined contingent, student service, and instructional facilities fee of $194.52 per credit hour.*

Non-Resident Fees
Non-resident graduate students pay an additional $189.70 per credit hour.*

NOTE: Registered students must remit payment by the due date on their billing statement. (Fees may be paid by using MasterCard, VISA, or Discover credit card, personal check, money order, or cash.)

Other mandatory fees include:
- University Services Fee (eight or more credit hours per semester) $30.00
- University Services Fee (more than three and fewer than eight credit hours per semester) $22.75
- University Services Fee (three or fewer hours per semester)
- University Services Fee Summer $10.00
- Transportation and Parking Fee (eight or more credit hours per semester) $35.00
- Transportation and Parking Fee (more than three and fewer than eight credit hours per semester) $28.00
- Transportation and Parking Fee (three or fewer credit hours per semester) $21.00

*NOTE: Fees are set annually and students should expect fees to increase slightly.

Refunds and Special Fees

Application Fee. Students submitting an application for graduate studies, programs, non-degree seeking or guest status must remit a $25 non-refundable one-time application fee made payable to USI.

Breakage Fee. A breakage fee is charged in various laboratories for laboratory equipment which is either non-usable or which is not returned in good condition.

Change of Schedule Fee. A student who initiates a change of schedule will pay a fee of $15.

Computer Lab Fee. A charge of $35 is made to all students enrolling in selected laboratory/studio courses. These charges and courses are identified at each registration period.

Health Professions Insurance. Students enrolled in courses that involve coursework with direct patient care are assessed a $15 fee.

Distance Learning Fee. Students who are enrolled in distance education courses are assessed a fee of $10 per credit hour. Distance education courses may also have additional fees that are course specific.

Late Registration Fee. A fee of $25 will be assessed to a student who fails to complete registration including payment of fees on the dates and within the hours specified in the published procedure for registration for any semester or summer term.

Parking Fine. The Office of Safety and Security may assess fines for parking and traffic violations in accordance with University of Southern Indiana traffic regulations.

Replacement of Eagle Access Card Fee. A fee of $10 will be charged to students who apply for a replacement student ID card, called the Eagle Access Card.

Supervised Teaching Fee. Students who have not completed 40 credit hours of work at the University of Southern Indiana may be charged an additional special fee of $12 per credit hour when registering for supervised teaching courses.

Refund Policy (fall and spring semesters). Students who drop one or more courses during the first week of a semester will receive a 90 percent refund of fees; during the second week an 80 percent refund; during the third week of a semester a 70 percent refund; during the fourth week of a semester a 60 percent refund. No refund will be made for courses dropped thereafter. This policy is applicable to both class schedule changes and withdrawals from the University.

Refund Policy (summer sessions). Students dropping courses or withdrawing from the University on the first or second day of summer session classes will receive a 90 percent refund; on the third or fourth day of classes an 80 percent refund; on the fifth or sixth day of classes a 70 percent refund.
refund; on the seventh or eighth day of classes a 60 percent refund. No refund will be given for dropped courses or withdrawals after the eighth day of summer session classes.

Academic Information and Policies

General Requirements
A master’s degree is awarded to a student upon completing an approved graduate curriculum, earning a minimum of 30 credit hours of graduate credit, and conforming to all rules and regulations of the Office of Graduate Studies. A comprehensive project or thesis may be required in some programs.

The degree requirements of certain programs may exceed those of the Office of Graduate Studies noted above. The student should contact the appropriate program director for information about specific program requirements.

Academic Year
The University's academic year includes two semesters and three five-week summer sessions. The academic calendar is published for each term in the Schedule of Classes.

Regulations
The University reserves the right to amend or otherwise change the requirements regarding admission, and to drop, add, or change the arrangement of courses, curricula, the requirements for retention, graduation, degrees, and other regulations of the Office of Graduate Studies. Such regulations shall be effective whenever determined by the appropriate faculty and administrative bodies; they may govern both old and new students. The University Code of Conduct describing policies covering the general behavior of students is published in Student Rights and Responsibilities in this bulletin. It also is available from the Office of Student Life.

Enrollment and Registration
Registration for graduate work that is to be applied toward a degree requires a valid current admission to a graduate program.

When all conditions for registration have been met, students can pick up registration materials. Graduate students must consult with advisors and have courses approved. The registration process will take place as outlined in the Schedule of Classes for each semester or summer term.

Auditing Graduate Classes
Only appropriate undergraduate courses may be open for audit. Graduate courses are not appropriate for audit. No graduate course may be audited.

Student Load
1. During a regular semester the full-time course load of any combination of graduate and undergraduate courses is 12 credit hours. When exceptional situations prevail, the student may request permission to enroll for additional hours. Such permission must have the approval of the advisor, the program director and the director of Graduate Studies. A student enrolled in fewer than nine hours of graduate work is classified as a part-time student.

2. During a summer term of five weeks, a full-time graduate load may range from four to six credit hours, with six being the maximum. Persons enrolled in organized courses of less than five weeks duration may earn no more than one credit hour for each week in residence. Under no circumstances will a student be permitted to earn more than six credit hours of graduate or any combination of graduate and undergraduate credit during a summer term of five weeks.

Enrollment Status for Financial Aid
See the section on Graduate Financial Assistance for enrollment minimums for eligibility for assistance.

Course Numbering System
Courses bearing the catalog number 500 or higher carry graduate credit. Courses numbered in the 500 series usually have 400-series counterparts that are open to undergraduate students. Excluding exceptional circumstances, courses numbered 600 and higher are open to graduate students only.

Residence, Transfer, and Extension Credit
1. The Office of Graduate Studies may accept for transfer as many as 12 credit hours of credit earned at other colleges and universities accredited for master's or higher-level study by the North Central Association of Colleges and Secondary Schools or a comparable regional accrediting association. The total average in such study must be B or above and no grade lower than B will be accepted. All transfer work must be approved in advance by the student's graduate advisor and by the director of Graduate Studies.

2. Within the Office of Graduate Studies limit noted in item 1, each graduate program determines the number of transfer hours acceptable. The Office of Graduate Studies will accept no more than those determined acceptable by the respective graduate program. The student must consult the appropriate graduate program director for such information. All transfer hours must be appropriate to the particular program in which the student is enrolled.
3. Correspondence study will not count toward a graduate degree at this University, and such credit cannot be transferred from another institution.

Progress toward Degree
During the period of study leading to the master's degree, a graduate student must show evidence of sound scholarship. The following standards must be met to retain good standing as a graduate student:

1. Maintain a B average or better in all graduate work (higher GPA may be required in certain programs).

2. Maintain continuous enrollment in graduate work. Any student admitted to graduate studies and to a graduate program who has not enrolled and received graduate credit for work at USI for a period of longer than one calendar year from his or her last enrollment must reapply to the program.

3. Complete degree requirements, including a minimum of 30 hours of graduate credit, within seven years of enrollment in the first course(s) counting for degree credit in the program or retake or validate courses exceeding this time limit.

A student who fails to meet these standards or others specified by individual graduate programs may be placed on probation, suspended from graduate study, or dismissed from the University. The director of Graduate Studies and the Graduate Council will determine appeals of those decisions in such matters.

Retention
A student admitted to graduate study must maintain a grade average of B (3.0) or better in all graduate work. A student whose grade point average drops below 3.0 will be placed on probation and may be suspended from graduate study.

Probation and Dismissal Policy
The degree requirements of certain programs may exceed those of the Office of Graduate Studies. The student should contact the appropriate program director for information about specific program requirements.

1. Graduate program GPA (GPGPA)* below 3.0
Upon dropping to a GPGPA below 3.0, a student is placed on academic probation. The director of the student's graduate program is responsible for notifying the student of such action. A student may remain on probation for up to 12 credit hours of graduate work. If after these additional hours of graduate work have been completed the GPGPA is not 3.0 or above, the student shall be academically dismissed.

*Graduate Program GPA: A cumulative grade point average of all USI graduate courses taken (courses numbered 500 and higher) except graduate survey prerequisite courses in the MBA program.

2. GPGPA below 2.5
If the GPGPA drops below 2.5, a student shall be academically dismissed unless it is possible to bring the GPGPA up to 2.5 in no more than six additional hours of graduate work.

3. Appeal Option
A student who is academically dismissed may appeal that dismissal to the appropriate graduate faculty committee within his or her program of study. The reason for the appeal should be stated clearly in writing.

Interruption of Program
Any student admitted to a program of graduate study who has not been continuously enrolled and receiving graduate credit each semester of the academic year must apply for readmission in the Office of Graduate Studies. The student will be required to follow the regulations in effect at the time of readmission.

Time Limitation
In order to count toward a master's degree, course work must be completed within seven years of a student's enrollment in the first course(s) counting for degree credit in the program. For courses that exceed this time limit, students must either validate the previous credit or retake the course(s) to meet degree requirements. A faculty member identified by the director of the graduate program sets validation requirements.

Validating Course Work
To validate a course, the student files a validation petition form obtained from the director of the graduate program. The form is filed in the student’s program office until the student completes the validation requirements. When the course has been validated, the graduate program director files the completed form with the Office of Graduate Studies and it becomes part of the student's permanent file.

Class Attendance
A student is expected to attend all classes. It is the responsibility of an instructor to inform the student of
the consequences of absence from class. It is the responsibility of the student to keep instructors informed regarding absences from classes.

A student who knows of necessary class absences should consult instructors prior to the absence. A student who misses classes is not excused from the obligations to instructors. Instructors are expected to provide the student with an opportunity to meet class commitments, when absences are for good and proper reasons. Further, instructors are expected to maintain attendance records and to report excessive absences to the Office of the Registrar.

Administrative Withdrawal for Non-Attendance
Students who are absent one-half or more of the class meetings without excuse during weeks two through four of a semester will be notified by letter to their permanent address of the possibility of their being administratively withdrawn from their class. The students so notified will be given until the end of the seventh week (mid-term) to meet with their instructors to resolve the situation. The instructor of the class may complete the process of an administrative withdrawal of the student (at mid-term) if the situation is not resolved.

General Student Policies

Policies on student behavior, plagiarism, falsification of records, and other non-academic policies may be found in the Student Life section.

Grading
The following grading standards apply to graduate work:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Type of Graduate Work</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Excellent</td>
</tr>
<tr>
<td>B+</td>
<td>Above average</td>
</tr>
<tr>
<td>B</td>
<td>Average</td>
</tr>
<tr>
<td>C+</td>
<td>Below average (minimal passing grade for</td>
</tr>
<tr>
<td></td>
<td>graduate credit)</td>
</tr>
<tr>
<td>C</td>
<td>Below average</td>
</tr>
<tr>
<td>F</td>
<td>Failure</td>
</tr>
</tbody>
</table>

In computing scholastic averages, the following point ratios are used: A = 4.0, B+ = 3.5, B = 3.0, C+ = 2.5, C = 2.0. An average of at least 3.0 is required to remain in good standing. This is to be considered the minimum graduate program requirement and may be higher in specific programs.

In general, incomplete grades may be given only at the end of a semester or term to those students whose work is passing but who have left unfinished a small amount of work – for instance, a final examination, a paper or a term project – which may be completed without further class attendance, or to students who have unfinished theses or graduate research projects. Course instructors may, at the time the incomplete is given, place a time limit for removal of an incomplete grade. The instructor must submit to the Registrar's Office a statement describing the work to be completed by the student receiving an incomplete grade. In the event that the instructor from whom a student received an incomplete grade is not on campus, the disposition of a case involving an incomplete grade resides with the appropriate chairperson or dean.

An In Progress (IP) final grade is given in graduate project classes that require enrollment in the same class in successive semesters. An IP grade means the student cannot receive credit for the course under any circumstances without re-enrollment in the course.

A withdrawal (W) is given when a student officially withdraws from a course during the automatic W period (see Withdrawal from the Semester/Term) and the W also is given if the student is passing at the time of withdrawal after the automatic W period has ended. A W means the student cannot receive credit for the course under any circumstances without re-enrollment in the course.

Grade Point Average (GPA)
The grade point average is a numerical value which is obtained by dividing the number of grade points earned by the number of hours attempted. This average is computed at the end of each term, both for the term and on a cumulative basis. The grade of A represents four points for each hour of credit; B+ three and one-half points; B three points; C+ two and one-half points; C two points. No points are recorded for an F, although the hours attempted are included in the computations. No points are recorded for an S or U, and the hours attempted are not included in the computations.

Course Repeat
Graduate courses taken at the University may not be replaced for possible grade point average improvement. The grades received of all repeated courses will remain on the transcript and will be used for grade point average computation.

Academic Grievance
If a student has a possible grievance with a faculty member, the procedures for filing a grievance are outlined in the student code of conduct in the Student's Rights and Responsibilities: A Code of Student Behavior section in this bulletin.
Schedule Changes
Students wishing to alter their original schedule, whether by personal incentive or by school directive, must do so officially by the procedure outlined below. **Those who do not assume this responsibility may jeopardize their record with the possibility of incurring an F in a course not properly dropped and/or not receiving credit in a course improperly added. Merely not attending a course does not automatically remove the course from the student’s record.**

Schedule Changes-Academic Year
1. **Prior to the start of the term (100 percent credit):**
   a. After early registration and through the published bill due date, a student may add or drop courses in person at the Office of the Registrar by submitting a Change to Early Registration Schedule form. Only the student’s signature is required. Students may also add or drop courses online via MyUSI. Refer to the Schedule of Classes for processing information.
   b. A student who completes the early registration and fee payment process will have an additional opportunity to make schedule changes. Refer to the Schedule of Classes for available dates. Only the student’s signature is required.

2. **During the first week of the term (90 percent credit):**
   a. A student may add or drop full term courses online via MyUSI. Each time a schedule revision to add a class is initiated, a $15 fee is charged.* Refer to the Schedule of Classes for processing information.
   b. A student may add or drop courses in person at the Office of the Registrar by submitting a Schedule Adjustment form. Only the student’s signature is required. Each time a Schedule Adjustment form to add a class is initiated, a $15 fee is charged.*

3. **Beginning the second week of the term, through the end of the week before final exams (80 percent credit or less):** Online schedule changes via MyUSI are not available beyond the first week of the term. A student may add or drop courses in person by submitting a Change of Class Schedule form to the Office of the Registrar. The form requires the signatures of the instructor of each course being dropped or added, the student’s academic advisor, and the student. **NOTE:** Only in exceptional circumstances will students be allowed to add a course after the first week of the term. Each time a Change of Class Schedule form to add a class is initiated, a $15 fee is charged.*

**Grading:** No grade is recorded for classes dropped prior to the second week of the term. A student who completes a Change of Class Schedule procedure beginning the second week of the term through the ninth week of the term will receive a W for all courses dropped. A student who completes a Change of Class Schedule procedure during the 10th week of the term through the last day of classes before final exam week will receive the grade W if passing at the time the course is dropped. However, if failing at the time the course is dropped, the student will receive a grade of F.

**Note:** courses meeting less than a complete term have different dates. Contact the Office of the Registrar for these dates.

*Fees/Refunds: The fees and expenses section of this bulletin details refunds for dropped courses. Fees for added courses or refunds for dropped courses will be billed/refunded by the Cashier's Office. Courses which meet less than a complete term have different refund dates. Contact the Office of the Registrar for these dates.

Schedule Changes-Summer Sessions
1. **Prior to the start of the term (100 percent credit):**
   After early registration and through the published bill due date, a student may add or drop courses in person at the Office of the Registrar by submitting a Change to Early Registration Schedule form. Only the student’s signature is required. Students may also add or drop courses online via MyUSI. Refer to the Schedule of Classes for processing information.

2. **During the first two days of the term (90 percent credit):**
   a. Students may add or drop full-term (five-week) courses online via MyUSI. Each time a schedule revision to add a class is initiated, a $15 fee is charged.* Refer to the Schedule of Classes for processing information.
   b. A student may add or drop courses in person at the Office of the Registrar by submitting a Schedule Adjustment form. Only the student’s signature is required. Each time a Schedule Adjustment form to add a class is initiated, a $15 fee is charged.*

3. **Beginning the third day of the term, through the last day of class before the final exam (80 percent credit or less):** Online schedule changes via MyUSI are not available beyond the first two days of the term. A student may add or drop courses in person by submitting a Change of Class Schedule form to the Office of the Registrar. The form requires the signa-
tures of the instructor of each course being dropped or added, the student’s academic advisor, and the student.

**NOTE:** Only in exceptional circumstances will students be allowed to add a course after the first two days of the term. Each time a Change of Class Schedule form to add a class is initiated, a $15 fee is charged.*

**Grading:** No grade is recorded for classes dropped prior to the third day of the term. A student who completes a Change of Class Schedule procedure beginning the third day of the term through the third week of the term will receive a W for all courses dropped. A student who completes a Change of Class Schedule procedure during the fourth week of the term through the last day of classes before the final exam will receive the grade W if passing at the time the course is dropped. However, if failing at the time the course is dropped, the student will receive a grade of F. Note: cross-term courses and courses which meet less than a complete term have different dates. Contact the Office of the Registrar for these dates.

**Fees/Refunds:** The fees and expenses section of this bulletin details refunds for dropped courses. Fees for added courses or refunds for dropped courses will be billed/refunded by the Cashier’s Office. Cross-term courses and courses which meet less than a complete term have different refund dates. Contact the Office of the Registrar for these dates.

**Withdrawal from the Semester/Term**

Students who must withdraw from the semester/term must do so officially by the procedure outlined below.

Those who do not assume this responsibility may jeopardize their record with the possibility of incurring an F in a course not properly dropped. Merely not attending a course does not automatically remove the course from the student’s record.

** Withdrawal from the Semester/Term-Academic Year**

1. **Prior to the start of the term (100 percent credit):**
   - After early registration and prior to the start of the term, a student may withdraw from all classes in person by submitting a Change to Early Registration Schedule form. Only the student’s signature is required. Until the form is processed by the Office of the Registrar, the student is still registered in the courses. Students may also withdraw online via MyUSI. Refer to the Schedule of Classes for processing information.

2. **Beginning the first day of the term, through the end of the week before final exams (90 percent credit or less):** Students may withdraw from the term using a Withdrawal From All Classes form. Only the student’s signature is required. The completed form must be returned to the Office of the Registrar for processing. Until all steps in the procedure have been completed, a student is still enrolled in the courses. During the first week of the term only, students also may withdraw online via MyUSI. Online withdrawals are not available beyond the first week of the term. Refer to the Schedule of Classes for processing information.

**Grade Determination:** A student who completes a Withdrawal From the Semester/term procedure beginning the first day of the term through the ninth week of the term will receive the grade of W for all courses dropped. Students who complete the Withdrawal From the Semester/Term procedure during the tenth week of the term through the last day of classes preceding final exam week will receive the grade of W if passing at the time of withdrawal. However, if failing at the time of withdrawal, the student will receive a grade of F. Note: courses meeting less than a complete term have different dates. Contact the Office of the Registrar for these dates.

**Financial Aid:** If a student receives financial aid but is unsure of the impact a Withdrawal From the Semester/Term will have on that financial aid, it is recommended that the student contact the Student Financial Assistance Office. Students with a Stafford Loan must complete an exit counseling session with the Student Financial Assistance Office (www.usi.edu/finaid). Failure to complete the exit counseling session will prevent the release of the student’s academic transcript.

**Withdrawal from the Semester/Term-Summer Sessions**

1. **Prior to the start of the term (100 percent credit):**
   - After early registration and prior to the start of the term, a student may withdraw from all classes in person by submitting a Change to Early Registration Schedule form. Only the student’s signature is required. Until the form is processed by the Office of the Registrar, the student is still registered in the courses. Students may also withdraw online via MyUSI. Refer to the Schedule of Classes for processing information.

2. **Beginning the first day of the term, through the end of the week before final exams (90 percent credit or less):** Students may withdraw from the term using a Withdrawal From All Classes form. Only the student’s signature is required. The completed form must be returned to the Office of the Registrar for processing. Until all steps in the procedure have been completed, a student is still enrolled in the courses. During the first week of the term only, students also may withdraw online via MyUSI. Online withdrawals are not available beyond the first week of the term. Refer to the Schedule of Classes for processing information.
2. Beginning the first day of the term, through the last day of classes before the final exam (90 percent credit or less*): Students may withdraw from the term using a Withdrawal Form. Only the student’s signature is required. The completed form must be returned to the Office of the Registrar for processing. Until all steps in the procedure have been completed, a student is still enrolled in the courses. During the first two days of the term only, students may also withdraw online via MyUSI. Online withdrawals are not available beyond the first two days of the term. Refer to the Schedule of Classes for processing information.

Grade Determination: A student who completes a Withdrawal From the Semester/Term procedure beginning the first day of the term through the third week of the term will receive the grade of W for all courses dropped. Students who complete the Withdrawal From the Semester/Term procedure during the fourth week of the term through the last day of classes before the final exam will receive the grade of W if passing at the time of withdrawal. However, if failing at the time of withdrawal, the student will receive a grade of F.

Financial Aid: If a student receives financial aid but is unsure of the impact a Withdrawal From the Semester/Term will have on that financial aid, it is recommended that the student contact the Student Financial Assistance Office. Students with a Stafford Loan must complete an exit counseling session with the Student Financial Assistance Office (www.usi.edu/finaid). Failure to complete the exit counseling session will prevent the release of the student's academic transcript.

*Fees/Refunds: The fees and expenses section of this bulletin details refunds made upon withdrawal from the semester/term. Refunds for dropped courses will be made by the Cashier's Office.

Elimination from a Program

Inappropriate professional conduct is grounds for termination of admission. Students may be eliminated from a graduate program “for cause” by the director of Graduate Studies on the basis of recommendation from the advisor, graduate committee (if one exists), and graduate program director. “For cause” includes professional judgment of the graduate faculty of the program involved and the director of Graduate Studies that the student does not meet the academic or professional standards required for a student earning a graduate degree in that area.

Workshop Credits

Individual degree programs set the number of credit hours earned in workshop courses applicable toward the master's degree. As a general rule, no more than eight credit hours of workshop credit will be accepted. The student's graduate program director and the Office of Graduate Studies must approve petitions for more than eight hours.

Graduation

A candidate for graduation should file with the Registrar's Office a formal application for graduation and a diploma form no later than the third week of the semester preceding his or her final semester before May commencement. The application for graduation may be obtained from the student’s graduate program director. The diploma form may be obtained at the Registrar's Office.

Petition Procedures

Students wishing to request an exception to any of the policies of the Office of Graduate Studies should contact that office for information about petition procedures.

Second Master's Degree

A student with a master's degree from an accredited institution may be admitted to a second master's degree program at USI. The appropriate graduate program director may accept up to 12 hours of credits, and in consultation with the student, will advise on the remaining hours of the program. The limitation of seven years (see Time Limitation) does apply on these remaining hours. All regular requirements for the master's degree program also must be met.

Library Fines

Library fines are assessed for overdue books.

Encumbrance

Students who have a financial obligation to the University will have their future registrations encumbered and their records, transcripts, and diploma will not be released until the obligation has been met.

Transcript Fee

There is no fee charged for transcripts of record issued.
Program Objectives
The Master of Arts in Liberal Studies (MALS) provides a postgraduate credential for individuals who seek personal enrichment and whose careers would be enhanced by a formal course of graduate study, but who prefer an interdisciplinary approach. The program is a viable alternative for educators seeking professional development and for meeting state license renewal requirements. In sum, the program provides an opportunity for individuals from a variety of careers to acquire graduate-level skills and knowledge from the perspective of several academic disciplines. The program could be an appropriate step toward further degree work in doctoral interdisciplinary programs, as well as traditional doctorates that prefer interdisciplinary master's work.

Admission Requirements
To be considered for admission to the MALS program, the applicant must submit:

- An application to Graduate Studies.
- $25 non-refundable application fee.
- One official transcript from each undergraduate and graduate institution attended. Transcripts and other educational records are official if the issuing institution sends them directly to the Office of Graduate Studies. Failure to submit official transcripts from every institution will delay admission. Course work from one institution reported as transfer credit on another school's transcript does not constitute an official transcript.

In addition to the regular requirements for admission to graduate study at USI, admission to the MALS program requires the following:

- A resume.
- A written statement of candidate interest (500 words).
- Recommendations by three individuals who know the candidate well (recommendation forms are provided by the Office of Graduate Studies).
- An interview with MALS faculty.

Because of the interdisciplinary, nontraditional nature of the program, the GRE exams are not required. Students should submit all materials to the Office of Graduate Studies at least one month prior to the entry date sought. An interview will be arranged after all other materials are on file.

Curriculum
The Master of Arts in Liberal Studies degree requires 33 credit hours of graduate-level work (as follows):

I. Core Courses 9 hours
   A. Humanities Seminar 3 hours
   B. Social Science Seminar 3 hours
   C. Science Seminar 3 hours

II. Individual program of courses 18 hours

III. Capstone Experience 6 hours
    A. Capstone Project (Option 1)
    B. Capstone Courses (Option 2)

Total 33 hours

The core courses are required of all students. The Capstone Experience part of the program has two options. Students must maintain a grade average of B (3.0) or better in the program. At least two of the three core courses must be completed with final grades of B or better. No course with a grade lower than C (2.0) will be counted toward the degree.

I. Core Courses (9 hours)
   Each core course emphasizes the analysis of a major liberal arts and sciences topic or theme. The rigor of this analysis will be in keeping with a graduate-level seminar. Ample opportunity will be provided for seminar participants to discuss practical applications of their new knowledge.

II. Individual Program of Courses (18 hours)
   A member of the graduate faculty, typically the program director, will consult with each student about appropriate courses to include in an 18-hour individual program of study. Choices can be made from among graduate-level courses offered in the areas of the sciences, social sciences, and humanities, and in some instances, courses from other graduate programs. Independent Study courses are available in some circumstances, and up to 12 hours of appropriate work from other institutions, including graduate level Distance Education courses, could count toward the degree.

III. Capstone Experience (6 hours)
   In addition to working with the student in developing a coherent course of study, the graduate advisor also will help the student decide on the appropriate Capstone Experience.
A. Capstone Project. About midway through the program, each student who chooses this option should have proposed a project topic and have had that topic approved by the graduate advisor. The project must be of a nature to warrant six hours of graduate credit. Each project will be thoroughly evaluated and approved by at least two members of a committee consisting of the student’s advisor and two other members of the graduate faculty. In general, the projects should yield a written piece of work, although products such as artistic creations and computer programs also may be acceptable. Interested students will be encouraged to develop capstone projects, which could contribute in some meaningful way to the community. The project will stress problem solving and knowledge application and synthesis. Students under this option may also write and present two essays for formal examination. These essays would be similar to a more traditional master’s thesis and would normally consist of revised and expanded work from previous courses.

B. Capstone Courses. This option consists of six hours of Capstone courses: the Capstone Elective and the Capstone Graduating Seminar. The Capstone Elective can be any approved 600-level course and is taken in the semester preceding or in the semester that the student is taking the Capstone Graduating Seminar. Students completing the degree with the project option can take the Graduating Seminar, with permission of the program director, as an elective. For those students completing the degree with the Capstone Courses option, the Capstone Graduating Seminar is taken in the final semester.

Master of Business Administration
812/464-1926

Program Objectives
The University of Southern Indiana Master of Business Administration (MBA) degree is a graduate program designed to develop strategic, behavioral, and technical competencies that enable individuals to be superior performers in their business environment. Upon completion of the MBA program, graduates will have developed their capabilities in several major areas, including:

• An in-depth understanding of the functional fields of business and their interrelationships in complex organizations.
• Experience with applied quantitative and behavioral tools of business analysis and decision making.
• Understanding applied quantitative, qualitative, and behavioral tools of business analysis and decision making.
• The ability to think critically and creatively within a global business context.
• A heightened sense of ethical considerations in decision making within the business world.
• Improved communication and decision-making skills through utilization of information technology.

Accreditation
The USI MBA program is accredited by AACSB International – The Association to Advance Collegiate Schools of Business, the most prestigious accreditation available to Schools of Business throughout the world. All courses are taught by academically qualified faculty (holding the highest degrees available in their fields) who, through their scholarly work and consulting activities, are at the forefront of their disciplines.

Admission Requirements
The MBA program seeks students of demonstrated aptitude and scholarship. To be admitted to the MBA program, applicants must have an undergraduate GPA of 2.5 or higher and attain a minimum required score on the Graduate Management Admission Test (GMAT). An applicant’s Graduate Management Admission Test (GMAT) score, undergraduate academic achievement, leadership potential, and professional work experience are considered when making admission decisions. Those applicants whose native language is not English must also meet USI’s graduate studies requirements on the Test of English as a Foreign Language (TOEFL) or (International English Language Testing System (IELTS) unless they hold a bachelor’s or higher degree from a United States institution of higher education.

To be considered for admission to the MBA program, the applicant must submit:

• An application to Graduate Studies.
• $25 non-refundable application fee.
• One official transcript from each undergraduate and graduate institution attended. Transcripts and other educational records are official if the issuing institution sends them directly to the Office of Graduate Studies. Failure to submit official transcripts from every institution will delay admission. Course work from one institution reported as transfer credit on another school’s transcript does not constitute an official transcript.
• GMAT score.
• A summary of all professional experience.
All admission materials should be submitted to the Office of Graduate Studies, University of Southern Indiana, and should be received at least one month prior to the entry date sought. No admission decisions will be made until all required documents have been received.

Admission Requirements for International Students

International students are subject to all requirements for admission to the Master of Business Administration program. Application for admission should be made at least six months prior to the date of anticipated enrollment.

Admission credentials must include:

• An application for admission.
• Payment of the application fee.
• Official Academic Records. Submit an official or certified true copy of all grade reports, diplomas, and academic records attesting to the completion of undergraduate or graduate work to the Office of Graduate Studies. The records should show a complete list of courses taken, grades received and any diplomas or certificates earned. They should also state the number of credits awarded for each course or the number of hours of classroom, lecture, and laboratory for each course, and should include information about the school’s grading scale.

Where the college or university routinely issues academic records in English, those documents can be accepted. Otherwise, course-by-course English translations of all foreign language educational documents must accompany the originals. The format of the translation should follow the same format as the foreign language original. The accuracy of the translation must be certified either by an appropriate officer at the issuing educational institution; by an appropriate government officer at the Ministry of Education, consulate, or embassy of the country; or by an international credential evaluation service.

Transcripts and other educational records are official only if the issuing institution, government officer, or evaluation service sends them directly to the Office of Graduate Studies. Course work from one institution reported as transfer credit on another school’s transcript does not constitute an official transcript.

• Verification of English competency. English competency is established by achievement of a minimum score of 500 on the paper-based TOEFL (Test of English as a Foreign Language) or 173 on the computer-based TOEFL or 6 on the IELTS (International English Language Testing System) test. All foreign-born applicants whose primary spoken language is not English must provide official test scores before being admitted; these scores must be less than two years old. Official test results should be sent to the Office of Graduate Studies at the time of application.

Exception: International students whose native language is English or who have graduated from an American university in which the language of instruction is English are not required to demonstrate language proficiency.

Information about the TOEFL administration dates and registration procedure may be obtained from TOEFL Services, Educational Testing Service, P.O. Box 6151, Princeton, New Jersey 08541-6151, USA; telephone 609/771-7100. The Web address is www.toefl.org.

Curriculum

The USI MBA curriculum is designed to provide the educational foundation crucial for success in today’s dynamic business world. Courses are taught by academically qualified faculty who, through their scholarly work and consulting activities, are at the forefront of their disciplines.

A. Foundation Skills

All candidates for admission to the MBA program must demonstrate proficiency in computer skills. Proficiency may be established by successfully completing college level course work within five years of admission to the MBA program or by passing a proficiency exam provided through the MBA office.

Exceptions to this policy may be made within the following guidelines:

Students may, under the guidance of the MBA director, be allowed to take selected MBA courses concurrently with establishing proficiency in computer skills.

B. MBA Survey Courses (up to 18 credit hours)

Students whose undergraduate educational preparation does not include accounting, economics, finance, marketing, operational research, or statistics must take the appropriate survey courses:

<table>
<thead>
<tr>
<th>Course Code</th>
<th>Course Title</th>
</tr>
</thead>
<tbody>
<tr>
<td>ACCT 501</td>
<td>Survey of Accounting</td>
</tr>
<tr>
<td>DSCI 501</td>
<td>Survey of Operations Research</td>
</tr>
<tr>
<td>ECON 265</td>
<td>Elementary Statistics</td>
</tr>
<tr>
<td>ECON 501</td>
<td>Survey of Economics</td>
</tr>
<tr>
<td>FIN 501</td>
<td>Survey of Finance</td>
</tr>
<tr>
<td>MKTG 501</td>
<td>Survey of Marketing</td>
</tr>
</tbody>
</table>

All survey courses must be completed prior to taking the corresponding core class and/or more than 12 hours of the graduate core. Credit in the survey courses may not
be counted toward the MBA degree and will not be factored into the Graduate Program Grade Point Average (GPGPA). All survey courses must be passed with a grade of C or better.

C. Graduate Core - 30 credit hours
The USI MBA curriculum is designed to provide the educational foundation crucial for success in today’s dynamic business world. For most students with undergraduate business degrees the MBA program consists of 10, three-hour courses. Students with degrees in fields other than business may need to take up to 18 hours of survey courses to prepare them for the following core classes:

- ACCT 601 Seminar in Management Accounting
- BLAW 618 Legal and Social Environment of Business
- CIS 601 Information Systems and Technology
- DSCI 601 Quantitative Methods for Business Decisions
- ECON 601 Business Economics & Forecasting
- FIN 601 Financial Management & Markets
- MKTG 601 Marketing Strategies
- MNGT 601 Organizational Behavior and Human Resource Management
- MNGT 611 Leadership Skills Development
- MNGT 681 Strategic and International Management

D. Retention
No more than two grades below a B in graduate courses (600-level) will be accepted toward the MBA degree. Upon receipt of the third grade below a B in any course or combination of courses taken for graduate credit, the student will be academically dismissed from the program.

A student who is academically dismissed may appeal to the College of Business Graduate Committee.

Students must maintain at GPGPA of 3.0 to remain in good standing in the program. In the event that a student’s GPGPA falls below 3.0, the student will be placed on academic probation. See the Graduate Studies section of the Bulletin for details on academic probation.

What can an MBA degree do for me?
Some of the major reasons for obtaining a USI MBA include:
- Enhancing management training for someone with a technical background and a desire to broaden career opportunities into managerial ranks.
- Providing career change and/or advancement opportunities.
- Providing a professionally challenging and intellectually stimulating experience.
- Furthering one’s interpersonal skills, opening new doors, and preparing effective managers.
- Interacting with students from diverse backgrounds, creating stimulating classroom experiences, and promoting invaluable networking opportunities.

Effective Business Leaders
The USI Master of Business Administration Program (MBA) focuses on preparing individuals to become effective business leaders. The curriculum is designed to develop behavioral, technical, and strategic competencies that enable individuals to be superior performers in their business environment. In addition, we are committed to providing educational experiences that prepare students to effectively engage in issues at the intersection of business and society such as ethical business practices, globalization, and technological change.

Through the use of experiential exercises and activities that foster, enhance, and develop essential managerial and leadership skills, students gain valuable experience with the challenging problems confronting organizations of the 21st century. The MBA program is more than just an education; it is an experience that will have a long-lasting impact on students as they graduate and begin or continue their professional careers.

Program Flexibility
We are aware that acquiring an MBA degree requires a major commitment of time and effort on the student’s part. Given the great value attached to the MBA degree hard work is to be expected. The MBA degree requires the completion of 30 hours of graduate-level coursework for students with undergraduate business degrees. Part-time students with undergraduate business degrees can expect to complete the program within three years. Full-time students may complete the program within two years.

USI’s MBA program is specifically designed to meet the unique needs of the working professional. To meet the needs of our students USI provides:

- Convenient evening classes for the working professional; classes start at 6 p.m.
- Prerequisites courses for non-business undergraduate majors.
- Survey courses offered online.
- A summer course schedule to help expedite progress through the program.
- Flexible advising and administrative assistance.
The College of Nursing and Health Professions offers a Master of Health Administration (MHA) advanced degree online with selected on-campus weekend meetings. Students can complete the program in seven semesters over a two-and-one-half-year period.

The MHA Program prepares students for a wide variety of leadership positions in the fast-growing public and private healthcare sectors, including careers as executive and middle-level managers, planners, policy analysts, and consultants. Typical healthcare opportunities include positions in hospitals, long term care facilities, physician practices, health insurance, pharmaceutical companies, consulting firms, government, and local or regional public health agencies.

The mission of the Master of Health Administration program at the University of Southern Indiana is to educate students for leadership roles in health care for the 21st century. The program aspires to produce leaders who use community and research data for evidence-based decision making, and are change hardy. They balance high levels of integrity with the concern for organizational success.

The program uses the open learning model of Internet delivery to provide the knowledge, attitudes, and skills necessary for the assumption of these roles. Application of theory to the practice of health care administration is a key element in the program's course offerings. Because of this delivery model, graduates of this program will contribute to the provision of high quality, cost-effective, and accessible health care.

Accreditation
The Master of Health Administration Program intends to seek voluntary accreditation from the Commission on Accreditation of Healthcare Management Education (CAHME). The Commission is recognized by the U.S. Department of Education as the accrediting agency for master's level health administration programs in the United States and Canada. Since the Commission's review process is rigorous and selective, successful accreditation will assure that the program’s standards are comparable to the best in the country.

Program Goals for Students
Graduates of the MHA program should be able to:

1. Integrate planning and marketing principles into program administration to achieve optimum organizational performance.
2. Provide sound financial management of health organizations under alternative financing mechanisms.
3. Effectively manage health care personnel in diverse health care settings.
4. Collect, analyze, and apply both business and health information for evidence-based decision making.
5. Conduct statistical, quantitative, qualitative, and economic analysis to assist in decision making.
6. Analyze legal and ethical issues and take appropriate action.
7. Integrate knowledge of organizational and governmental policy formulation into their decision making.
8. Adapt to change effectively.
9. Analyze and apply the epidemiological principles to assess the health status of populations.
10. Integrate the determinants of health and illness and health risks of diverse populations into evidence-based decision making.
11. Analyze the effectiveness of the health care delivery system.
12. Employ systems thinking as a mechanism to assist others to manage across organizational boundaries.
13. Evaluate and appropriately apply business and health outcomes, measures, and measures for process improvement.
14. Display the servant leader model in their leadership style.
15. Demonstrate skills in synthesis of information, oral and written communication, team leadership, and mentoring.

Admission Requirements
Applicants are considered for entrance in the fall semester of each year. All application materials must be received by the program no later than August 1. Consideration for admission to the MHA Program requires that students submit evidence of the following:

- Completion, prior to entering the MHA Program, of a baccalaureate degree from an accredited college or university.
- Achievement of a minimum undergraduate grade point average (GPA) of 3.00 on a 4-point scale. Results of post-graduate academic studies may also be considered at the discretion of the MHA Admissions Committee.
- Recent academic exposure to the fundamental principles of economics, statistics, and accounting is desired prior to matriculation.
- Familiarity with the Internet and word processing,
spreadsheet, database, and presentation software.

• Completion of the Graduate Record Examination (GRE) or the Graduate Management Aptitude Test (GMAT).
• Work experience, ideally a minimum of two years in the health care field.
• A record of any awards or honors earned, community service, memberships in professional organizations, continuing education programs attended, presentations made, and research and/or publications.
• Three references, two work-related and one personal.
• Acceptable written and oral communication skills

• Students from Non-English Speaking Countries Only: Satisfactory TOEFL score – 500 for non-computerized tests and 173 for computerized tests or score of 6 or higher on IELTS.

The following provide support for admission consideration:
The following items must be forwarded to the Office of Graduate Studies:

University of Southern Indiana
Office of Graduate Studies
8600 University Blvd.
Evansville, IN 47712

• A completed USI Application for Admission to Graduate Studies.
• A $25 application fee made out to the University of Southern Indiana.
• One official transcript from each undergraduate and graduate institution attended. Transcripts and other educational records are official if the issuing institution sends them directly to the Office of Graduate Studies. Failure to submit official transcripts from every institution will delay admission. Course work from one institution reported as transfer credit on another school’s transcript does not constitute an official transcript

The following items must be forwarded to the MHA Program:

University of Southern Indiana
College of Nursing and Health Professions
Master of Health Administration Program
8600 University Blvd.
Evansville, IN 47712

• A completed USI Master of Health Administration Program Application for Admission and supporting materials. Supporting materials include curriculum vitae, an essay and three references. Refer to the application form for detailed information on these items.
• GRE or GMAT score. Designate the MHA Program director as the recipient of scores to be forwarded by the testing service. The school code for the GRE is 1335. The school code for the GMAT is 1438.
• Three to four weeks after submission of the MHA Application for Admission, contact the program director at 812/461-5217 to make an appointment for a personal advising session.

Additional Information
Periodically, the student will receive postcard reminders regarding application completeness. This will continue until all materials have been received. The student’s application will NOT be considered complete until all required application materials have been received by the Office of Graduate Studies and the Master of Health Administration Program.

Master of Public Administration
812/461-5203

Program Objectives
The Master of Public Administration (MPA) is the primary graduate degree sought by current and future administrators in government agencies, not-for-profit organizations, and heavily regulated private corporations. The curriculum consists of twelve graduate courses. Courses emphasize practical applications of skills and knowledge relevant to problems confronting administrators working in government agencies and not-for-profit organizations in southwestern Indiana. Since most MPA students are working professionals attending school part-time, most courses meet one evening each week during fall and spring semesters. Some courses are also offered in the summer or can be taken online as distance education courses.

Graduates of the program acquire the knowledge and skills necessary to be creative, ethical, analytical, and visionary leaders. Specific competencies that will be mastered by students earning the MPA Program follow.

- Become knowledgeable of the laws, rules, norms, and traditions that shape the internal structure, efficiency, and innovativeness of public sector organizations.
- Be able to formulate creative solutions to problems confronting government agencies and not-for-profit organizations.
- Obtain knowledge of how institutions in the public sector shape and are shaped by economic, social, and political environments.
- Acquire practical skills and knowledge bases necessary for the management of public sector organizations: grant writing, budgeting, public speaking, human relations, public relations, electronic communication, and report writing.
- Master an understanding of how key concepts and theories can be used to formulate practical solutions to problems associated with public and non-profit administration.
- Gain knowledge of data bases, Web sites, printed material, and other information-based resources pertaining to the management of public sector organizations.
- Learn how to gather and analyze qualitative and quantitative data relevant to decision making in public organizations.
- Understand the ethical consequences of decisions made by managers in the public sector.

Admission Requirements
Applicants must hold an undergraduate degree (any major is acceptable) with a 2.7 GPA on a 4.0 scale and submit the materials listed below.

- A completed USI Graduate Studies Application form.
- A $25 application fee.
- One official transcript from each undergraduate and graduate institution attended. Transcripts and other educational records are official if the issuing institution sends them directly to the Office of Graduate Studies. Failure to submit official transcripts from every institution will delay admission. Course work from one institution reported as transfer credit on another school’s transcript does not constitute an official transcript.
- Completed MPA Personal Information Form.
- Analytic Writing Sample (described in the MPA Personal Information Form).
- Two Completed Reference Forms: completed reference forms must be sent directly from the reference to the USI Graduate Studies Office.
- Official results of Graduate Management Aptitude Test (GMAT) or the General Test of the Graduate Record Exam (GRE). Scores must be no older than five years.
- International Students Only: Official results of the TOEFL with a minimum score of 550 on the paper-based test or 213 on the computer-based test. A minimum score of 6 on the IELTS also may be accepted.

Curriculum
The program will comprise of 36 credit hours (12 courses) of coursework leading to a Master of Public Administration degree. To ensure that they have an appropriate foundation of professional field experience, pre-service students must participate in a 150 clock-hour specialized internship for three additional credit hours.

Courses Required of all Students
PA 601 Organizational Behavior
PA 603 Technology Issues in Public Administration
PA 606 Public Personnel Administration
PA 609 Budgeting
PA 611 Leadership Skills
PA 614 Organizational Communication
PA 615 Legal Aspects of Public Administration
PA 618 Research Methods in Public Administration
PA 631 Fundraising and Volunteer Administration
PA 632 Public Administration
PA 644 Process Analysis
PA 653 Ethics in Public Administration

Possible Substitutions
PA 502 Gender, Communication, and Culture for PA 614
Master of Science in Accountancy
812/464-1926

Program Objectives
The Master of Science in Accountancy (MSA) program is designed to build upon knowledge obtained at the baccalaureate level. The program will further students’ personal and professional development by providing additional depth in accounting, systems, and other business topics selected to meet each student’s interest.

For those interested in sitting for the Certified Public Accountant exam, this degree fulfills the 150-hour state requirement of university education effective for Indiana, Illinois, and Kentucky.

Accreditation
The MSA program is accredited by AACSB International — The Association to Advance Collegiate Schools of Business.

Admission Requirements
Individuals who are interested in applying for the Master of Science in Accountancy program must first make application to the USI Office of Graduate Studies. Applicants must be admitted to graduate study under the University Graduate Policies and then must be accepted into the MSA program in the College of Business by the MSA Program Director. MSA applicants must achieve an acceptable score on the standardized Graduate Management Admission Test (GMAT). Requests for application materials should be addressed to the Office of Graduate Studies.

To be considered for admission to the MSA program, the applicant must submit to the Office of Graduate Studies:

• A completed USI Graduate Application Form.
• A $25 non-refundable application fee made payable to USI.
• One official transcript from each undergraduate and graduate institution attended. Transcripts and other educational records are official if the issuing institution sends them directly to the Office of Graduate Studies. Failure to submit official transcripts from every institution will delay admission. Course work from one institution reported as transfer credit on another school’s transcript does not constitute an official transcript.
• GMAT scores.
• Brief summary of prior work experience.

An official score for the Test of English as a Foreign Language (TOEFL) or International English Language Testing System (IELTS) is required of applicants whose native language is not English, unless they hold a bachelor’s or higher degree from a United States institution of higher education.

All admissions materials must be received by the Office of Graduate Studies at least one month prior to entry date sought. Transcripts will be accepted as official only when sent by the registrar of the institution to the Office of Graduate Studies.

Admission to the Master of Science in Accountancy program involves the review of multiple factors such as the undergraduate grade point average and GMAT performance. In addition, leadership potential, as evidenced by professional work experience, may be considered in the admission decision.

Candidates for the Master of Science in Accountancy program with an undergraduate accounting degree should have the appropriate preparation. Prospective students with degrees in business disciplines other than accounting must complete the following accounting foundation courses unless they satisfactorily have completed the undergraduate equivalent of these courses:

ACCT 303 Intermediate Accounting I
ACCT 311 Tax Accounting I
ACCT 315 Cost Accounting
ACCT 415 Auditing

Prospective students with non-business degrees must complete the accounting foundation courses listed above and the following business foundation courses unless they satisfactorily have completed the undergraduate equivalents:

ACCT 501 Survey of Accounting
ECON 265 Elementary Statistics
ECON 501 Survey of Economics
FIN 501 Survey of Finance
MKTG 501 Survey of Marketing

Incoming students are expected to have satisfactory competency in computer skills. Competency may be established by (1) having earned a grade of C or higher in a college level micro-computer applications course or (2) work experience as approved by the program director.
Curriculum
The Master of Science in Accountancy program requires the completion of 30 credit hours:

- 15 hours in accounting with an emphasis on the needs of practicing accountants.
- Three hours in business law.
- Three hours in finance.
- Nine hours of electives.

The accounting course work must include at least 15 credit hours in courses reserved exclusively for graduate students. All elective course work must be approved by the student’s graduate advisor and must fit the student’s objectives and career plans. Therefore, the elective part of the program should not be a random choice but should reflect a well-planned addition to each student’s program.

The following courses are required of all Master of Science in Accountancy candidates:

**Accounting core courses (15 hours):**
ACCT 601 Seminar in Management Accounting
ACCT 602 Seminar in Financial Accounting
ACCT 603 Seminar in Federal Taxation
ACCT 604 Seminar in Accounting Information Systems
ACCT 605 Seminar in Auditing

**Business core courses (6 hours):**
BLAW 618 Legal and Social Environment of Business
FIN 601 Financial Management and Markets

**Elective courses (9 hours):**
MBA Courses
ACCT 698 Accounting Internship

Retention
No more than two grades below a B in graduate courses will be accepted toward the MSA degree. Upon receipt of the third grade below a B in any course or combination of courses taken for graduate credit, the student will be academically dismissed from the program.

A student who is academically dismissed may appeal to the College of Business Graduate Committee.

Master of Science in Education
812/464-1858

Program Objectives
The Master of Science in Education degree programs involve advanced study designed to enhance the knowledge and skills of teachers in elementary, middle, junior high, and senior high schools. Programs are offered in elementary and secondary education. The programs blend studies of educational theory with analysis of current issues and practices in teaching. Students explore the ways in which knowledge and skills developed in the programs enhance classroom experience.

**Degree Requirements**
- Admission to candidacy for the degree. Candidacy application to be completed after 18 credit hours of coursework.
- Completion of 33 credit hours of coursework with a grade point average of 3.0 or higher. Note: Students in the secondary education program must maintain a minimum 3.0 GPA in both teaching area(s) and professional education courses.
- Approval by the advisor of the completed summative graduate performance project.
- Completion of a formal application for graduation.

**Master of Science in Education**
**Elementary Education Program**

Program Objectives
Students in this program learn to plan and evaluate curriculum for elementary schools and classrooms. They learn to analyze current issues and trends in education in light of educational research and historical and philosophical foundations of education. They learn to interpret educational research and to use research to improve teaching and learning. They develop an understanding of social forces and other factors which shape elementary school curriculum and of the process of curriculum development and change in elementary education. Students learn to plan and implement interdisciplinary learning experiences. They learn to analyze and evaluate teaching styles and methods and to make judgments about the appropriateness of specific teaching methods for achieving various learning outcomes. Students in the program are expected to use and evaluate emerging educational technologies and to use technology to access information sources.

Admission Requirements
Applicants must be admitted to graduate study under University graduate policies and then be accepted into the MS in Education—Elementary Education Program by the Department of Teacher Education. Admission to the Elementary Education Program requires the following:

- Graduation with an overall GPA of 3.00 or higher with a bachelor's degree from a regionally-accredited college or university.
- Minimum GPA of 3.0 in all courses taken at the graduate level at all schools attended.
- Standard teaching license for elementary grades.
- Completed application and information forms.

A student who fails to meet one or more of the criteria may be granted probationary admission.

Curriculum

**Master Teacher Studies**
Teachers expand their knowledge and skills related to the teaching/learning process through courses that integrate technology into the learning environment, encourage teacher action research, investigate historical and philosophical influences in education, explore new trends in curriculum, and examine evaluation in education. (12 hrs.)

- EDUC 565 Computers in the Curriculum
- EDUC 601 Research in Education
- EDUC 603 Historical and Philosophical Influences in Education
- EDUC 614 Elementary School Curriculum (or EDUC 588 Middle School)

**Teaching and Learning Focus**
Teachers need an opportunity to enhance their professional skills in current teaching areas, expand their knowledge in new areas, and also explore cutting edge issues and trends in education. Students can select from courses in a wide range of areas such as thinking skills, technology, children’s literature, inclusion, and content area offerings (9 hrs.).

- Approved Elective 1
- Approved Elective 2
- Approved Elective 3

**Reflective Teacher Researcher**
(Students must complete Master Teacher Studies courses prior to enrolling in this section.)

Teachers develop reflective teaching practices, emphasize interdisciplinary approaches to the teaching/learning process, and conduct action research as the culminating experience in their program. (12 hrs.)

- EDUC 641 Communication Skills
- EDUC 642 Mathematics and Science
- EDUC 643 Social Studies and Global Awareness
- EDUC 674 Integrating Research Seminar in Elementary Education

---

**Master of Science in Education**

**Secondary Education Program**

**Program Objectives**
Students in this program learn to analyze current issues and trends in education in light of educational research and historical and philosophical foundations of education. They learn to interpret educational research and to use research to improve teaching and learning. They learn to plan and evaluate curriculum and to implement new programs and practices in their classrooms. They learn to analyze and evaluate teaching styles and methods and to make judgments about the appropriateness of specific teaching methods in given subject areas and for specific objectives of instruction. Through experiences in the program, students learn to examine societal influences on education and to consider these influences in planning educational change. Students in the program are expected to use and evaluate emerging educational technologies and to use technology to access information sources.

**Admission Requirements**
Applicants must be admitted to graduate study under University graduate policies and then be accepted into the MS in Education—Secondary Education Program by the Department of Teacher Education. Admission to the MS in Education—Secondary Education Program requires the following:

- Graduation with an overall GPA of 3.00 or higher with a bachelor’s degree from a regionally accredited college or university.
- Minimum GPA of 3.0 in all courses taken at the graduate level at all schools attended.
- Standard teaching license in subject area in which graduate study is available at USI.
- Completed application and information forms.

A student who fails to meet one or more of the criteria may be granted probationary admission.

**Curriculum**

**Master Teacher Studies**
Teachers expand their knowledge and skills related to the teaching/learning process through courses that integrate technology into the learning environment, encourage teacher action research, investigate historical and philosophical influences in education, explore new trends in curriculum, and examine evaluation in education. (15 hrs.)

- EDUC 565 Computers in the Curriculum
- EDUC 601 Research in Education
Teaching and Learning Focus
Teachers need an opportunity to enhance their professional skills in current teaching areas, expand their knowledge in new areas, and also explore cutting edge issues and trends in education. Students are required to take a minimum of six hours in one licensed subject area. (12 hrs.)

Approved Teaching Area Course 1
Approved Teaching Area Course 2
Approved Elective 1
Approved Elective 2

Reflective Teacher Researcher
(Students must complete Master Teacher Studies courses prior to enrolling in this section)

Teachers develop reflective teaching practices and conduct action research as the culminating experience in their program. (6 hrs.)

EDUC 631 Analysis of Instruction
EDUC 671 Integrating Research Seminar in Secondary Education
Master Teacher Studies

Transition To Teaching – Elementary
812/464-1858

Program Overview
The Elementary Transition to Teaching (T-3) Partnership, a challenging and innovative graduate teacher licensure partnership, is a cooperative effort between the University of Southern Indiana Department of Teacher Education and the Evansville-Vanderburgh School Corporation. The purpose of the partnership is to recruit highly qualified individuals to the elementary teaching profession. The partnership seeks candidates who are dedicated to learning the craft of teaching children at the 1-6 grade levels, and who have experiences that would make them a strong fit within elementary classrooms of the 21st century. The partnership enables participants to obtain teacher licensure in elementary education after completing an intensive one-year internship/course sequence. This program is only open to career changers, or those individuals who have at least three years work experience in a field other than education.

The partnership places teacher interns in Evansville-Vanderburgh public schools, where they function as full-time members of the professional teaching staff (serve as instructional assistants in a classroom with a certified teacher of record). While the primary responsibility of each candidate is to act as a teaching assistant in the assigned classroom, the candidates also observe and assist in classrooms on a regular basis, team-teach, and, in the spring, complete their teaching internship requirement. Candidates will complete the necessary course work (24 credit hours) required for teacher licensure through courses offered during school breaks, evenings, and summer sessions. The partnership begins during the middle of July and is a full-time commitment through the following June.

The T-3 Partnership serves a community of vastly diverse backgrounds, cultures, and economic conditions. Through this diversity, The T-3 Partnership provides an opportunity for nontraditional candidates to come together to learn from each other and to promote the school’s theme, “Shaping Tomorrow’s Teachers.” The faculty involved in the partnership, the candidates we work with, and the community we serve share a common bond and vision toward building a school environment committed to academic excellence through a nurturing and caring environment that enables candidates to become all they can be both now and in the future.

This program is designed for a person with a bachelor’s degree seeking to obtain Indiana grade 1-6 teaching licensure. The program will consist of day experiences and late afternoon/evening classes. Intensive field experiences are an integral part of the program. Early involvement includes classroom observations. A 15-week supervised student teaching experience occurs during the spring semester. Throughout the program, candidates are supported by well-qualified, trained mentors who are experienced classroom teachers.

Licensure is awarded upon successful completion of 24 credit hours of program experiences. Candidates are encouraged to continue with an additional 15 credit hours leading to the Master of Science in Education degree.

Admission Requirements
Applicants must complete the PRAXIS I before April 1 so the information can be returned to the school in time for the application process. Failure to have passing or completed PRAXIS I scores by the program deadline will result in an automatic removal from consideration for the program. Prior to being considered for candidacy, all applicants must complete the following steps:

- Application to Graduate Studies.
• One-time $25 graduate application fee.
• One official transcript from each undergraduate and graduate institution attended. Transcripts and other educational records are official if the issuing institution sends them directly to the Office of Graduate Studies, 8600 University Boulevard, Evansville, IN 47712. Failure to submit official transcripts from every institution will delay admission. Course work from one institution reported as transfer credit on another school’s transcript does not constitute an official transcript.
• Undergraduate degree in a field other than teaching with a minimum overall 3.00 GPA (on a 4.0 scale).
• Updated Immunizations records (required for admission to programs at USI).
• Completed Praxis I.
• Completed application essays.
• Obtain an Indiana license for substitute teaching.
• Commitment to full-time program for a 12-month period, including teaching assistantship, observation hours, and teaching expectations (fall and spring semesters).
• Recommendation of interview panel.
• Satisfactory performance on application essay.

Curriculum

Program Model: Exploration, Analysis, and Synthesis Phases

The T-3 Partnership requires candidates to be full-time participants in an intensive, yearlong program. The program consists of three phases: the exploration phase (summer session III), the analysis phase (fall semester and spring semester) and the synthesis phase (student teaching experience during spring semester). Candidates must successfully complete the exploration phase of the program before beginning work on the analysis and synthesis phases.

Exploration Phase (summer session III)
Candidates will be required to complete all of the coursework for the exploration phase and receive a B or better in order to have the ability to continue into the analysis and synthesis phases of program completion. Program admission also requires that an admission packet be completed, which includes (1) acceptable disposition evaluations from exploration coursework, (2) grade verification for overall and specific course performances from the exploration phase, (3) speech and hearing evaluation, (4) exploration phase artifacts from exploration coursework, and (5) a recommendation from the department.

Analysis Phase (fall and spring semesters)
Candidates will be required to complete all of the exploration phase coursework and receive departmental approval prior to beginning the analysis phase. The analysis phase of the USI Teacher Education program focuses on the domains of Knowledge of Curriculum and Knowledge of Pedagogy. While candidates deepen their understanding of themselves as teachers, their understanding of students, and their understanding of the role of schools, they develop the professional knowledge base that will enable them to work effectively in classrooms with students. Drawing upon proficiency guides, curriculum materials, standards documents, and other resources, candidates will plan, implement, and assess instruction.

The field component takes on a new emphasis in the analysis phase. Candidates become more active participants in designing and facilitating classroom environments and experiences. Also, this coursework will emphasize multiple perspectives, which will encourage the candidate to reflect on educational practices. Finally, candidates in analysis coursework will review the causes and effects of philosophies, methods, and actions upon students, the classroom context, the school, parents, the community, and society.

Synthesis Phase (spring semester)
Candidates will be required to complete all of the analysis phase coursework and receive departmental approval prior to beginning the synthesis phase. The synthesis phase of the USI Teacher Education program focuses on the integration of all five areas of the reflective teacher model. While candidates deepen their understanding of themselves as acting teachers, their understanding of students, and their understanding of the role of schools, they develop the professional performance base that will enable them to become master teachers.

During the spring semester candidates will enroll in three graduate-level courses. Two of the courses meet in the evenings. One of the courses is for student teaching. For 10 weeks candidates will practice student teaching in primary and intermediate grades.

After successful completion of the courses and field experiences, and passing scores on Praxis II exam (in major subject areas), candidates will be recommended for licensure, and may pursue employment as elementary teachers. Whether employed or not, candidates may continue to take the necessary evening and summer courses (15 credit hours) to be awarded the Master of Science in Education. The degree requires a minimum 3.00 GPA. No course grades less than B will be accepted.
Program Overview

The Secondary Transition to Teaching program is a challenging, innovative, graduate-level teacher licensure program. The purpose of the program is to recruit highly qualified individuals to the secondary teaching profession. The program seeks candidates who are dedicated to learning the craft of teaching young people at the 9-12 grade levels, and who have experiences that would make them a strong fit within secondary classrooms of the 21st Century. The program enables candidates to obtain teacher licensure in secondary education after completing an intensive, full-time, two-semester, 18 credit-hour course/field-experience sequence. With the subsequent completion of an additional 18 credit hours of graduate-level courses, the candidate can earn the Master’s Degree in Secondary Education.

The Secondary Transition to Teaching program may admit candidates who have bachelor’s degrees with the following majors: art, biology, chemistry, earth science (geology and/or geography), English, French, German, history, mathematics, physics, political science, and Spanish. Candidates are encouraged to check on license eligibility prior to application to the program.

A cohort of candidates will be admitted on a competitive basis, for each fall semester. During the fall semester candidates will enroll in three graduate-level courses which meet in the evenings on Tuesdays, Wednesdays, and Thursdays. During the day candidates will observe high school classes in the candidates’ major subject areas and serve as paid substitute-teachers in high schools.

After successful completion of the courses and field experiences, and passing scores on Praxis II exam, candidates will be recommended for licensure, and may pursue employment as high school teachers. Whether employed or not, candidates may continue to take the necessary evening and summer courses (18 credit hours) to be awarded the Master of Science in Education. The degree requires a minimum 3.00 GPA. No course grades less than B will be accepted.

Admission Requirements

Applicants must complete the PRAXIS I before April 1 so the information can be returned to the school in time for the application process. Failure to have passing or completed PRAXIS I scores by the program deadline will result in an automatic removal from consideration for the program. Prior to being considered for candidacy, all applicants must complete the following steps:

- Application to Graduate Studies.
- One-time $25 graduate application fee.
- One official transcript from each undergraduate and graduate institution attended. Transcripts and other educational records are official if the issuing institution sends them directly to the Office of Graduate Studies, 8600 University Boulevard, Evansville, IN 47712. Failure to submit official transcripts from every institution will delay admission. Course work from one institution reported as transfer credit on another school’s transcript does not constitute an official transcript.
- Undergraduate degree in a field other than teaching with a minimum overall 3.00 GPA (on a 4.0 scale).
- Updated Immunizations records (required for admission to programs at USI).
- Completed Praxis I.
- Completed application essays.
- Obtain an Indiana license for substitute teaching.
- Commitment to full-time program for a 12-month period, including teaching assistantship, observation hours, and teaching expectations (fall and spring semesters).
- Recommendation of interview panel.
- Satisfactory performance on application essay.
Curriculum
Program Model: Exploration, Analysis, and Synthesis Phases
The T-3 Partnership requires candidates to be full-time participants in an intensive, yearlong program. The program consists of three phases: the exploration phase (summer session III), the analysis phase (fall semester and spring semester) and the synthesis phase (student teaching experience during spring semester). Candidates must successfully complete the exploration phase of the program before beginning work on the analysis and synthesis phases.

Exploration Phase (summer session III)
Candidates will be required to complete all of the coursework for the exploration phase and receive a B or better in order to have the ability to continue into the analysis and synthesis phases of program completion. Program admission also requires that an admission packet be completed, which includes (1) acceptable disposition evaluations from exploration coursework, (2) grade verification for overall and specific course performances from the exploration phase, (3) speech and hearing evaluation, (4) exploration phase artifacts from exploration coursework, and (5) a recommendation from the department.

Analysis Phase (fall and spring semesters)
Candidates will be required to complete all of the exploration phase coursework and receive departmental approval prior to beginning the analysis phase. The analysis phase of the USI Teacher Education program focuses on the domains of Knowledge of Curriculum and Knowledge of Pedagogy. While candidates deepen their understanding of themselves as teachers, their understanding of students, and their understanding of the role of schools, they develop the professional knowledge base that will enable them to become master teachers.

During the spring semester candidates will enroll in three graduate-level courses. Two of the courses meet in the evenings. One of the courses is for student teaching. For 10 weeks candidates will practice student teaching, in their subject areas, in high school settings.

After successful completion of the courses and field experiences, and passing scores on Praxis II exam (in major subject areas), candidates will be recommended for licensure, and may pursue employment as elementary teachers. Whether employed or not, candidates may continue to take the necessary evening and summer courses (18 credit hours) to be awarded the Master of Science in Education. The degree requires a minimum 3.00 GPA. No course grades less than B will be accepted.

Educational Leadership Program
812/464-1858

Program Overview
The University of Southern Indiana's program in educational leadership prepares educators to serve as building administrators in P-12 schools. The program addresses a regional need to increase the number of individuals qualified to serve as principals. Data compiled for the Indiana Principal Leadership Academy (May 2001) by the Indiana Department of Education, the Indiana Professional Standards Board, and the Indiana School Boards Association indicate a shortage of qualified persons for this role.

By completing the educational leadership program, teachers enhance their credentials so they can assume the challenging and rewarding responsibilities of a Principalship. They position themselves to work with and have a greater impact on all members of the education community – fellow educators, students, parents, community leaders, and policy makers.

The USI Department of Teacher Education worked with area school administrators to design a top-quality educational program that incorporates the Indiana Professional Standards Board standards for building administrators. The curriculum combines classroom learning with field experiences to give prospective building administrators an understanding of theory and application in the school setting.

Admission Requirements
Admission is a two-step process. Students must be admitted to USI Graduate Studies and then be accepted into the educational leadership program. Cohort groups of candidates begin the program in the fall. The program can be completed in 15 months with candidates taking two courses in the fall semester, two in the spring semester, three during the summer session, and the culminating internship in the final (fall) semester.

Admission requirements for those who have an earned master’s:
• Must have a cumulative GPA of 3.2 on graduate course work.
• Must have a cumulative GPA of 3.0 on undergraduate course work.
• Show evidence of two years of teaching experience.
• Obtain admission to graduate school through the USI Office of Graduate Studies.
• File an application for admission for the educational leadership program in the Teacher Education department.
• Request two letters of recommendation from administrators, program directors, or comparably qualified individuals.
• Sign an agreement of understanding regarding the requirements for administrative licensure.

Upon the receipt of the above materials, applications will be promptly reviewed and applicants will be notified by mail of the decision.

Curriculum
The program includes the following eight courses for a total of 24 credit hours:

Master of Science in Industrial Management
812/464-1877

Program Objectives
The graduate degree program in industrial management is designed to accommodate either of two objectives: increasing the breadth of an individual’s education in various technical fields related to industrial management; or increasing the depth of education in a single technical specialty related to industrial management. The program should meet the needs of the employed individual who either seeks additional knowledge in subject areas that were not covered in his or her undergraduate degree program or desires to extend the knowledge acquired as an undergraduate or through employment experience. The primary purpose of the program is to provide knowledge of management concepts and modern technical innovations as applied to technically based enterprises.
Admission Requirements
This master’s degree program is intended for engineers, technologists, and scientists who are currently employed and who expect to be working in managerial positions which involve responsibility for manufacturing, design, production, and material-handling functions in a variety of technical and industrial enterprises. Applicants who have completed an undergraduate degree program in engineering or engineering technology with a GPA of 2.5 or better (on a 4.0 scale) will be admitted unconditionally. Applicants who have completed undergraduate degree programs in other areas will be considered for admission, but a preparatory phase of up to 18 credit hours may be required in order to prepare properly for the graduate program coursework. Courses required in the preparatory program can be tailored to meet the needs and objectives of individual students.

Because this degree program is intended primarily for employed individuals, all course offerings are made available in the evenings. Students can expect to enroll in a maximum of two courses per semester for the fall and spring semesters and one course during the summer. Thus, it is possible to complete the program in two calendar years assuming continuous enrollment at the maximum level. However, it is more realistic to expect that three calendar years will be required to complete the degree requirements.

Curriculum
The degree requirements include 33 credit hours of coursework. A core of 15 credit hours comprising courses in industrial management, project management, operations systems analysis and modeling, analytical techniques for economic evaluation, and capstone graduate project are required of all students. An additional 18 credit hours of approved supporting or elective courses complete the course requirements. Elective courses allow specialization in areas such as industrial safety, ergonomics, manufacturing systems analysis, decision sciences, marketing, and finance.

The elective course offerings and potential areas of specialization will permit students to tailor the program to meet specific professional development objectives without compromising relevance to current and prospective occupational responsibilities.

All core courses and required preparatory courses must be completed at the University of Southern Indiana unless a waiver is granted upon admission to the program. Elective courses may be offered in cooperation with other institutions or may be completed at other institutions provided that approval is obtained in advance from the student’s graduate study advisor.

II. Electives
Electives may be chosen from the following list to augment the core curriculum in any combination which meets the student’s needs for career advancement, provided that in no case may the combination of core courses and chosen electives for any student include more than 15 credit hours of courses from among the offerings of the College of Business.

Electives may be chosen from graduate courses not listed below, provided that the chosen courses are approved in advance by the student’s faculty advisor and by the MSIM program director.

Master of Science in Nursing
812/465-1154

Program Objectives
The College of Nursing offers a graduate program leading to the Master of Science in Nursing (M.S.N.) degree. The objectives of the program are to prepare nurses at an advanced practice level who demonstrate professional leadership and foster a research climate in the practice of
nursing. The graduate of the master's degree program is a clinician, administrator, or educator who can:

- Synthesize knowledge and concepts from nursing, the sciences, and humanities as a foundation for advanced nursing practice.
- Integrate critical thinking and independent judgment to manage and provide advanced nursing practice with diverse populations.
- Participate in systematic inquiry and applied research to improve nursing care and enhance nursing as a profession.
- Integrate into the role of the advanced practice nurse knowledge of the legal, socioeconomic, political, cultural, and ethical forces that affect patient care and the health care environment.
- Function as an advocate, leader, and change agent to plan, implement, and evaluate health care in collaboration with other healthcare professionals, consumers, and policy makers.
- Provide leadership in maintaining and promoting the professional values of caring, integrity, accountability, competence, collegiality, and life long learning.

The graduate nursing program is accredited by the Commission on Collegiate Nursing Education, One Dupont Circle, Suite 530, Washington D.C. 20036, 202/887-6791.

Specialties
The MSN degree at the University of Southern Indiana offers the following specialty areas: Acute Care Nurse Practitioner (ACNP), Clinical Nurse Specialist (CNS), Family Nurse Practitioner (FNP), Nursing Education (NE), and Nursing Management and Leadership (NML).

Acute Care Nurse Practitioner (ACNP):
The Acute Care Nurse Practitioner acquires knowledge and experience to provide direct health care services to adults across the lifespan for the purposes of health promotion, health protection, disease prevention, and management of common acute and chronic illnesses. The acute care nurse practitioner works in a variety of clinical settings that include, but are not limited to, acute care hospitals, long term care facilities, physician offices, urgent care centers, and ambulatory care centers. The population in acute care nurse practitioner practice consists of adults over the age of 18 years through the elderly. The acute care nurse practitioner focuses on adults across the lifespan experiencing acute and episodic chronic health problems. There are a total of 42 credit hours in the specialty with 705 clinical hours.

The acute care nurse practitioner graduate is prepared to:

1. Synthesize knowledge from nursing theories, the humanities, and evidence-based scientific clinical guidelines to guide assessment of health status of adults across the lifespan.
2. Demonstrate advanced practice clinical decision making, integrating critical thinking, to interpret patient and diagnostic test data and formulate differential diagnoses and a plan of care for adults across the lifespan.
3. Design and implement a mutually agreed upon management plan and therapeutic interventions with adult patients and families across the lifespan.
4. Evaluate and revise the documented management plan based on patient/family findings, problems and expected outcomes of treatment.
5. Apply adult assessment methodologies and research findings to improve and evaluate the care of adult patients and families across the adult lifespan.
6. Advocate for patients and families to provide cost-effective, culturally competent, ethical, quality care in and across health care settings.
7. Model responsibility for continued professional development, integrity, accountability, competence, and credentialing as an acute care nurse practitioner.

Clinical Nurse Specialist (CNS)
The Clinical Nurse Specialist is an advanced clinician holding a master's degree who functions as an expert clinician, leader, researcher, case manager, and consultant. The clinical nurse specialist acquires knowledge and experience to provide services to adults across the lifespan in health promotion, disease prevention, and management of common acute and/or chronic illnesses. The clinical nurse specialist works in a variety of clinical settings that include acute care hospitals, long term care facilities, and physician offices. There are a total of 39 credit hours in the specialty with 525 clinical hours.

The clinical nurse specialist graduate is prepared to:

1. Initiates expert outcome-oriented nursing therapeutics for adult patients.
2. Manage the integration and coordination of patient care services across the health care continuum.
3. Design and implement patient and staff education programs for promotion of positive health care outcomes.
4. Consult and collaborate with members of the health care team to support the delivery of quality patient care.
5. Utilize research methodology and findings to investigate, promote, and evaluate nursing therapies that produce positive patient care outcomes.
6. Model responsibility for continued professional development, integrity, accountability, competence, and credentialing as an acute care nurse practitioner.

Family Nurse Practitioner (FNP)
The family nurse practitioner acquires a broad base of knowledge and experience to provide direct health care services to people of all ages for the purposes of health promotion, health protection, disease prevention, and management of common acute and chronic illnesses. The family nurse practitioner focuses on care of patients and families, and functions primarily in ambulatory care settings. The population in primary care family practice includes newborns, infants, children, adolescents, pregnant and postpartum women, adults, and the elderly. There are a total of 42 credit hours in the specialty with 665 clinical hours.

The family nurse practitioner graduate is prepared to:

1. Synthesize knowledge from nursing theories, the humanities, and evidence-based scientific clinical guidelines to guide assessment of health status for patients of all ages.
2. Demonstrate advanced practice clinical decision making, integrating critical thinking, to interpret patient and diagnostic test data and formulate differential diagnoses and a plan of care for patients and families across the lifespan.
3. Design and implement a mutually agreed upon management plan and therapeutic interventions with patients and families across the lifespan.
4. Evaluate and revise the documented management plan based on patient/family findings, problems and expected outcomes of treatment.
5. Apply family assessment methodologies and research findings to improve and evaluate the care of adult patients and families across the adult lifespan.
6. Advocate for patients and families to provide cost-effective, culturally competent, ethical, quality care in and across health care settings.
7. Model responsibility for continued professional development, integrity, accountability, competence, and credentialing as a family nurse practitioner.

Nursing Education (NED)
The Nursing Education specialty prepares the nurse to be an educator in schools of nursing or health care institution with skills in curriculum development and implementation, teaching strategies for the classroom and clinical setting, and measurement of student and program outcomes. There are a total of 39 credit hours in the specialty.

The nursing education graduate is prepared to:

1. Integrate the roles of faculty scholarship, teaching, and service.
3. Facilitate relationships between students and clinical agencies demonstrating an expertise in nursing and the ability to influence change.
4. Advocate for students and develop mutual respect through advising, counseling, understanding diversity, conveying a sense of caring, and serving as a preceptor and role model.
5. Integrate into the role of a faculty member participation in institutional committees and leadership to the school, institution, and the profession.
6. Disseminate knowledge of teaching expertise through publication and presentation of innovative teaching methods and outcomes of scholarly work.
7. Integrate innovative and creative teaching strategies that consider increasing use of technology in education, changing perspectives on teaching and learning, and the needs of a global society.

Nursing Management and Leadership (NML)
The Nursing Management and Leadership specialty prepares the nurse to assume a nursing management or leadership role in the health care environment. Emphasis will be placed on the integration of finance, business management, information management, and marketing resources management evaluation into the nursing management and leadership roles. There are a total of 39 credit hours in the specialty.

The nursing management and leadership graduate is prepared to:

1. Integrate critical thinking skills in complex, multi-dimensional nursing management and leadership situations through the use of economic, finance, marketing, and administration theories and principles.
2. Analyze the use of management and leadership principles and quality management skills in the health care organizations.
3. Advance nursing knowledge through research in nursing management, leadership, and health care policy.
4. Incorporate global influences and the use of information and communication technology into the nursing management and leadership role.
5. Integrate legal and ethical standards, professional values, and lifelong learning into the nursing management and leadership role.
Admission Requirements
Each student submits an application to both the Office of Graduate Studies and the Graduate Nursing Program. Applications are not reviewed until all materials have been received by the Graduate Nursing Admissions and Progression Committee. Applicants must be admitted to graduate study before their materials can be reviewed by the Graduate Nursing Admissions and Progression Committee. (See Office of Graduate Studies, Admission to Graduate Studies.)

Part-time study options are available. Students must contact the Graduate Nursing Office, by e-mail or phone, for an individual advising session four weeks after submitting admissions materials. The minimum criteria for admission to the Graduate Nursing Program are as follows:

- A baccalaureate degree in nursing from an accredited school.
- Minimum baccalaureate grade point average (GPA) of 3.0 on a 4.0 scale.
- Satisfactory completion of a course in undergraduate statistics.
- Unencumbered RN license.
- One year full time or 2,000 hours of clinical practice as a registered nurse within the last five years.
- International students must have a minimum score of 550 on the written TOEFL test or 213 on the computerized TOEFL test or 6 on the IELTS.
- Successful completion of the application process to both the Office of Graduate Studies and the Graduate Nursing Program.

RN to MSN Program
Nurses with associate degrees or diplomas who meet admission requirements may enroll in the RN-MSN Program. This program is designed for nurses with three years of nursing experience who have the professional goal of a Master of Science in Nursing degree. Through an individualized assessment, a planned study program will result in the achievement of both B.S.N. and M.S.N. degrees. The program is designed to build on prior learning and validation of professional expertise.

Admission Requirements for the RN to MSN Program:
- Completion of an associate degree or diploma from an accredited program in nursing.
- Three years of current clinical experience as a registered nurse.
- Unencumbered RN license.
- Completion of a USI Graduate Nursing Program application.
- Cumulative grade point average of 3.0 on a 4.0 scale in previous academic work.
- Completion of a USI undergraduate admission application.

After completion of the undergraduate portion of the program, to be considered for admission to the graduate level courses of the RN-MSN program, the applicant must submit to the Office of Graduate Studies:

- A completed USI Graduate Application Form.
- A $25 non-refundable graduate application fee made payable to USI.
- One official transcript from each undergraduate and graduate institution attended other than USI. Transcripts and other educational records are official if the issuing institution sends them directly to the Office of Graduate Studies. Failure to submit official transcripts from every institution will delay admission. Course work from one institution reported as transfer credit on another school’s transcript does not constitute an official transcript.

Curriculum
To achieve the M.S.N. degree, all students complete the nursing core courses. Students choosing the ACNP, CNS, FNP, and NE options also complete clinical core courses. Additional courses required in each specialty are indicated.

Graduate nursing clinical practice requirements may be completed in the student’s own geographic area. Each student is responsible for identifying preceptors and clinical sites. Approval of each preceptor and clinical site must be obtained from faculty prior to beginning clinical hours. Students may be required to visit campus in order to demonstrate clinical competency. Faculty will also validate clinical competency through site visits and/or conference calls with preceptors and students. A written agreement with each agency is required prior to initiating clinical experiences.

Master of Science in Occupational Therapy  
812/465-1179

Program Objectives  
The purpose of the Master of Science in Occupational Therapy (MSOT) curriculum is to prepare graduates for employment in shifting practice arenas of health care, education, industry, and community. The MSOT curriculum prepares students for advanced practice across three roles: a central role of specialization (selected by the student) supported by two required roles, educator and researcher. This graduate program is designed to meet the advanced training needs of prospective students entering by one of two routes: OTS-Entry or OTR-Entry.

Admission Requirements  
The OTS-Entry route is intended for individuals who wish to become occupational therapists. To comply with the occupational therapy profession’s change in entry-level
to postbaccalaureate degree, USI students must complete the Bachelor of Science (occupational therapy major) followed by the Master of Science in Occupational Therapy (MSOT) in a curriculum design known in the occupational therapy profession as a combined BS/MS curriculum. USI students must complete the requirements of both degrees to be eligible to take the Occupational Therapist Registered® Certification Examination, administered by the National Board for Certification in Occupational Therapy (NBCOT). For specifics about the combined BS/MS curriculum in occupational therapy, please see the Occupational Therapy Program (undergraduate) component of the College of Nursing and Health Professions section in this publication.

The OTR-Entry route is designed for credentialed occupational therapists. The MSOT, designated by the occupational therapy profession as a postprofessional (advanced) master's degree, provides occupational therapists opportunities to gain advanced knowledge and practice skills. Occupational therapists wishing to enroll in the MSOT curriculum must be accepted for admission by Graduate Studies. In addition, an individual wanting entry into the MSOT-only aspect of the Occupational Therapy Program must provide proof of initial certification as an occupational therapist; eligibility for state credentialing as an occupational therapist; and graduation from an ACOTE or WFOT accredited baccalaureate occupational therapy curriculum, showing a minimum academic performance of a 3.0 GPA (on a 4.0 system). For the most current information related to MSOT admission, call the program at 812/465-1179, e-mail otinfo@usi.edu, or visit the Web site, health.usi.edu/acadprog/ot/index.htm.

To be considered for admission to the graduate level courses of the MSOT program, the applicant must submit to the Office of Graduate Studies:

- A completed USI Graduate Application Form.
- A $25 non-refundable graduate application fee made payable to USI.
- One official transcript from each undergraduate and graduate institution attended other than USI.

Transcripts and other educational records are official if the issuing institution sends them directly to the Office of Graduate Studies. Failure to submit official transcripts from every institution will delay admission. Course work from one institution reported as transfer credit on another school's transcript does not constitute an official transcript.

Students may enroll in the MSOT curriculum on a part-time or full-time basis. Internet-based distance education, the primary method of instructional delivery for the MSOT curriculum, makes the curriculum accessible and convenient for occupational therapists who live and work in rural areas or at a distance from southern Indiana. In addition to didactic courses, MSOT-only students complete a 120-hour practicum experience in each of the two required roles and a 250-hour internship in the central role of specialization.

**Curriculum**

MSOT Outcomes With Corresponding Courses:

To design and provide formal and informal educational offerings related to occupational therapy as a peer/consumer educator (required role).

**Master of Social Work**

812/464-1843

**Program Objectives**

The mission of the University of Southern Indiana MSW program is to produce professional advanced practice clinical social workers who promote growth and empowerment of clients in a dynamic multidimensional social context. The University's service region is a fast-developing area, experiencing a change from a primarily agrarian environment in the 1960s to a suburban and urban center. The principal economic base for the workforce includes industrial manufacturing and service positions. The MSW program prepares students to utilize the systems model for planned change through generalist and advanced social work practice. In response to evolving
community needs the department has developed a solid clinical concentration and an optional School Social Work Specialization program.

Four MSW program goals have been derived based on the mission statement and are listed below.

1. To provide preparation for professional social work practice at the master’s level through a foundation of generalist skills and knowledge for first-year students and specialized clinical skills and knowledge for the second-year and advanced-standing level students.
2. To prepare graduates to deliver social services in a variety of settings with a range of diverse client populations and be informed consumers of research, practice evaluation and the application thereof.
3. To provide quality teaching, academic inquiry, scholarship, service to the University, and service to the region that reflect the values and ethics of the social work profession.
4. To serve the University service area and MSW graduates by providing research consultation, community services, and professional development to individuals, organizations, institutions, and communities related to human need.

The Department of Social Work offers both a full-time and part-time graduate program leading to the Master of Social Work (M.S.W.) degree. The MSW program is fully accredited by the Council on Social Work Education.

The program offers four tracks: a full-time two-year track, a part-time four-year track, an advanced standing track, and a part-time advanced standing track. The part-time tracks are offered in alternating years. Applicants for the advanced standing programs must have a Bachelor of Social Work (BSW) degree from a Council on Social Work Education accredited program. Students must apply to a specific “track” (e.g., two year full-time) and must stay on that track in order to complete a program of study leading to the M.S.W. degree.

Admission Requirements
All requests concerning admission to the MSW program should be addressed to the Social Work Department, University of Southern Indiana, 8600 University Boulevard, Evansville, Indiana 47712. Send a message to SocWork@usi.edu or telephone 812/464-1843 to request information. Students are mailed a packet, which includes instructions for applying to Graduate Studies, the MSW program application, and a program brochure. A student also may receive information from the Web page at www.usi.edu/socialwork.

Each student will be applying to both the Office of Graduate Studies and the Social Work Department. Therefore, a student should submit applications to both. Students must be admitted to Graduate Studies before they are eligible for admission to the Social Work program. Admission decisions for the MSW program are based on a review of past academic performance, relevant work and/or volunteer experience, letters of recommendation, a personal statement, written academic or professional work, and an admission interview when required. January 12 is the deadline for submission of the application. When the application deadline falls on a weekend, the application will be due the next business day. Applications are reviewed when all materials have been received by the Social Work Department MSW Admissions Committee. Students should note the MSW program admits students in the fall semester only. The minimum criteria for admission to the MSW program are as follows:

1. Admission to Graduate Studies is considered the first step in the process for applying to the MSW program.
2. An earned bachelor’s degree from an accredited college or university.
3. Students transferring from other graduate programs must submit evidence of good standing (verification forms available from the Social Work Department) from that program.
4. Completion of the following prerequisite requirements with a grade of C or better in each course. (Applicants may enroll in these courses during the time in which their MSW applications are being evaluated; however, the prerequisite requirements must be met by the first day of the semester a student begins the program. All offers of admission are conditional upon the completion of these prerequisites. Any exceptions are handled on an individual basis.)
   a. Eighteen hours of social/behavioral sciences completed with a minimum of: one Introduction to Psychology course, one Introduction to Sociology course, and one Introduction to Political Science/American politics course or American National Government course.
   b. A human biology course or evidence of completed course content in human biology is required, i.e., knowledge of how we develop as human organisms throughout the life cycle. Subject matter may have been covered in one or several courses. Applicants are required to specify those courses that have included such content.
   c. One social work research foundation course and one social work statistics foundation course. The statistics course must cover the portion of the research
process involving quantitative manipulation and analysis of data. The course should cover descriptive and inferential statistics. Courses in research methods and/or tests and measurements usually will not fulfill the statistics prerequisite. (The research and statistics courses must have been completed within 10 years of beginning the MSW program. Research and statistics courses from other disciplines will be evaluated on an individual basis.)

d. A 3.0 grade point average in all prerequisites. (A grade no lower than C in any prerequisite will be accepted.)
e. Prerequisite course content older than 10 years will be reviewed for currency. Applicants may be required to validate these courses to ensure the applicant is prepared for the MSW program of study. An applicant can have a course validated by submitting a course description from the catalogue during the year in which the course was taken and, if possible, a course syllabus.
f. Deficiencies in these prerequisites must be rectified before the student is eligible to be fully admitted into the MSW program.

5. An overall 2.8 grade point average on a 4.0 scale on all undergraduate work completed; or a 3.0 grade point average on the last 60 credit hours, or equivalent, taken in the undergraduate program. (Rare exceptions may be made on a case-by-case basis.)

6. Evidence of writing skills compatible with graduate-level standards. All written products submitted will be evaluated.

7. Evidence of potential to develop into a sound professional social worker. (A personal interview and/or additional evaluative data may be required of applicants.)

8. International students will be required to meet additional requirements, e.g., a score of 550 on the paper-based TOEFL (Test of English as a Foreign Language) or 213 on the computer-based TOEFL, an official or certified true copy of all grade reports, diplomas, and academic records attesting to the completion of undergraduate work; Supplemental Information Form for international students which includes a financial summary stating amounts and sources of support for the duration of study; and an international student transfer form if attending another school in the United States.

9. Successful completion of the application process.

NOTE: The program does not grant academic credit for life or work experience in lieu of social work course or field content. It is the applicant’s responsibility to provide all required materials to the Social Work Department by the application deadline.

Advanced Standing Requirements

Students who have earned undergraduate degrees in social work from programs accredited by the Council on Social Work Education (CSWE) may be eligible for advanced standing. To be considered, they must have met the requirements listed above, and the following additional requirements must be met:

• Graduation within the last seven years with a BSW from an undergraduate program accredited (or admitted to candidacy) by the Council on Social Work Education. A student who is in a program admitted to candidacy must submit one copy of all social work course syllabi for review.

• An overall 3.0 grade point average on a 4.0 scale on all undergraduate work completed; or a 3.0 grade point average in the last 60 credit hours, or equivalent, taken in the undergraduate program. (Rare exceptions may be made on a case-by-case basis.)

• Applicants must have satisfactorily completed a minimum of 400 hours of generalist based field instruction in direct practice with individuals, families, groups, and communities under appropriate social work supervision.

Advanced standing students will have transcripts and/or program content evaluated to determine if foundation content has been met. Students may be required to present copies of course descriptions, course syllabi, and/or assignments in order to document that appropriate content has been covered in their previous course of study.

Indiana Public Law 11-1994 and MSW Admission

In order to fully comply with Indiana Public Law 11-1994 (conviction of sexual offenses against children), the Social Work Department will conduct a criminal history check of students requesting admission to the Master of Social Work program. This check will be conducted at the point of admission and upon entering the field placement. A student who has been convicted of sex offenses against children as identified in P.L. 11-1994 will not be granted admission to or allowed to continue in the Master of Social Work program.

Individuals who were convicted of such crimes outside of the state of Indiana are required to report their intent to reside more than seven days in the area within Indiana to local law enforcement authorities having jurisdiction in the area of intended residence.
Application Review

Admission decisions for the MSW program are based on evidence of:

- Demonstrated academic competency through previous academic work.
- A commitment to social work values and ethics.
- A basic understanding of the social work profession.
- Emotional maturity, stable mental/emotional processes.
- Good writing skills (the written materials submitted are evaluated on punctuation, spelling, grammar, syntax, organization, and the ability to clearly express ideas).
- Critical thinking and analytic ability, including evidence of good judgment.
- Relevant work and/or volunteer experience.
- Successful completion of required course prerequisites.
- Potential to develop into a sound professional social worker (a personal interview and/or additional evaluative data may be required of applicants).
- References (students are encouraged to review the reference form and select individuals who will be able to answer a majority of the questions asked. References from faculty, supervisors in employment or volunteer positions and individuals with professional knowledge of social work or human services are preferred).

Applications are not reviewed until all materials have been received by the Social Work Department. Students will be notified when the application is complete. A student may be fully admitted to the program due to completion of all requirements, admitted on a conditional status, or admitted on a probationary status. A student who is denied admission may appeal in writing to the Admissions Committee. If the appeal is denied by the committee, the applicant may appeal the decision to the chair of the Social Work Department. All information submitted during the application process becomes the property of the Social Work Department and will be kept confidential.

Curriculum

Descriptions of the curriculum design for each of the four tracks for MSW students are as follows:

1. Full-time two-year track,
2. Full-time advanced standing track,
3. Part-time four-year evening track, and
4. Part-time advanced standing evening track.
6. Electives

1. Full-Time Two-Year Track (61 credit hours)

General Electives
Electives, when offered, may be taken in addition to the required courses.

- SOCW 500 Special Topics in Social Work
- SOCW 621 Introduction to Family Systems
- SOCW 625 Social Work Practice with Children and Adolescents
- SOCW 627 Social Work Practice with the Elderly
- SOCW 629 Social Work Practice and Disability
- SOCW 632 Social Work Practice with Persons with Serious Mental Illness
- SOCW 634 Social Work Practice with Substance Abusers and Their Families
- SOCW 638 Minority Groups and Cultural Issues in Social Work
- SOCW 645 Foundations of Occupational Social Work
- SOCW 656 Behavioral Intervention in Social Work Practice
- SOCW 658 Cognitive Approaches to Intervention in Social Work
- SOCW 664 Crisis Intervention
- SOCW 666 Assessment in Clinical Social Work Practice
- SOCW 668 Human Sexuality: Sexology, Clinical Issues, and Interventions
- SOCW 670 Advanced Seminar in Community Planning and Organization
- SOCW 699 Independent Study

School Social Work Specialization Program
The following courses are offered as a part of the School Social Work Specialization Program. The School Social Work Specialization will require completion of seven courses and completion of the MSW. Two of the seven courses will be taken in the Department of Education, and five of the seven courses will be taken in the Social Work Department. Students who elect to complete the specialization program will take 12 credit hours in addition to the number of hours required by their MSW track.

- EDUC 511 Foundations and Legal Issues of Exceptionality
- EDUC 690 Special Topics in Education: Administrative Policies and Procedures
- SOCW 625 Social Work Practice with Children and Adolescents
SOCW 642 Foundations of School Social Work
SOCW 652 Family and Marital Therapy
SOCW 611 Field Placement in a School Setting — All students are expected to do a field placement and seminar as part of the MSW program. School social work students are required to complete their field placement in a school setting which normally runs for the K-12 (August-May) school year. (Coincides with school academic year and requires 600 hours.) Field placement hours may vary based on the state in which the student wants to be licensed.

SOCW 612 Graduate Field Placement Seminar II (Coincides with K-12 school academic year.)

(NOTE: SOCW 611, 612, and 652 are required of the MSW program.)
GRADUATE STUDIES COURSE DESCRIPTIONS

Following certain course descriptions are the designations: F, Sp, Su. These indicate the semesters fall, spring, summer in which the course is normally offered and are intended as an aid to students planning their programs of study.

COLLEGE OF BUSINESS

Accounting

ACCT 501 Survey of Accounting (3) A survey of basic accounting techniques for graduate students who have not previously had an accounting course. May not be counted toward the 30 hours required for the M.B.A. degree. Non-MBA students require permission from their program director. No prereq. F

ACCT 601 Seminar in Management Accounting (3) A study of management accounting and its use to aid in planning, controlling, and evaluating operations. Prereq: ACCT 501 or equivalent. Sp

ACCT 602 Seminar in Financial Accounting (3) A seminar course devoted to the conceptual and theoretical aspects of financial accounting, the economic environment of accounting, and the application of the conceptual framework to practice problems.

ACCT 603 Seminar in Federal Taxation (3) This course provides an in-depth study of selected taxation issues faced by business entities. A review of Internal Revenue Code provisions and regulations will be made on those topics that are relevant to today's tax professional but generally beyond the scope of undergraduate taxation courses.

ACCT 604 Seminar in Accounting Information Systems (3) An examination of current issues related to accounting information systems that are confronting the accounting profession.

ACCT 605 Seminar in Auditing (3) Examination of current trends in auditing and analysis of major issues confronting the auditing profession.

ACCT 698 Accounting Internship (3) A cooperative work-study program designed to create a work situation where advanced business/accounting courses are made meaningful as a result of the perspective gained from professional experience. Grades assigned as Satisfactory or Unsatisfactory only. This class is restricted to students who are recent graduates or who are changing careers. No more than three credit hours of internship credit may be applied toward the degree requirements.

ACCT 699 Independent Study (1-3) Independent study of a topic or problem in accounting not otherwise covered in the curriculum. Prereq: consent of MSA director.

Administrative Systems/Vocational Business Education

ASBE 571 Principles and Philosophy of Vocational Education (3) Philosophy and principles, and objectives of vocational education related to the needs of the beginning vocational teacher. Consideration of the various service areas, including wage-earning and non-wage earning vocational areas, as a foundation for further study.

ASBE 581 In-School Laboratory Program in Vocational Education (3) One of a series of courses that helps in the development of those special techniques and knowledge needed to teach and coordinate vocational business, marketing, or interdisciplinary cooperative education programs. The examination, study, identification, and development of components of vocational education and their relationships and inter-relationships between the LEA and the business community along with the development of specific In-School and School-to-Work related programs will be discussed.

ASBE 598 Techniques of Coordinating Cooperative Education (3) One of a series of courses that helps in the development of those special techniques and knowledge needed to teach and coordinate vocational business, marketing, or interdisciplinary cooperative education programs. Discusses the duties and responsibilities of a cooperative vocational education coordinator, the development of a coordinator's manual, and his/her relationships to the school, parents, students, advisory committee, business, industry, and government.

ASBE 603 Workshop in Economic Education (3) Covers basic economic concepts and includes teaching techniques that can be used to integrate these concepts into various courses in the school curricula. Designed for teachers who are not specialists in economics.

ASBE 690 Special Topics (1-3) A study of contemporary topics or innovative developments in business and/or economic education.

ASBE 695 Special Topics: Faculty in the Factory Internship (3) This course focuses on arranged student/teacher internship experiences that identify the SCANS (Secretary's Commission on Achieving Necessary Skills) competencies in the workplace. Curriculum materials and instructional strategies are developed for the infusion of SCANS competencies into Tech Prep and academic curricula. Prereq: consent of instructor.

Business Law

BLAW 618 Legal and Social Environment of Business (3) A study of the interaction of business with legal institutions, emphasizing both positive law and ethical concerns. The course focuses on those contemporary legal and social issues facing today's business decision-makers. Sp

Computer Information Systems

CIS 601 Information Systems and Technology (3) This course explores alternative approaches to managing the resources (computers, networks, software, data, and people) that organizations utilize in applying information technology (IT). It focuses upon the role of the user-manager in identifying opportunities (and avoiding pitfalls), developing applications, and creatively using IT to improve personal and organizational performance. F

CIS 699 Independent Study (1-3) Supervised study or research in a specific area in computer information systems. Prereq: consent of MBA director.

Decision Science

DSCI 501 Survey of Operations Research (3) An introduction to basic concepts and techniques of Operations Research in solving business problems and facilitating sound decisions. Spreadsheet applications such as Excel and QM for Windows will be introduced. Some of the topics include resource allocation techniques such as linear programming, network models, decision analysis and queuing models. Prereq: College Algebra. Sp

DSCI 601 Quantitative Methods for Business Decisions (3) The course focuses on the concepts and techniques used to manage resources required to produce the goods and services of an organization, including the design, operation, control, and updating of operational systems. The course also addresses concepts used to solve business problems and facilitate sound managerial decisions, including linear programming and extensions, network modeling, project management, and multicriteria analysis. Prereq: DSCI 501 or equivalent. F
DSCI 699 Independent Study (3) Supervised study or research in a specific area of decision sciences. Prereq: consent of MBA director.

Economics

ECON 501 Survey of Economics (3) A survey of micro and macro economic principles for MBA students who have not had the two economic principle classes at the undergraduate level. May not be counted toward the 30 hours required for the M.B.A. degree. Non-MBA students require permission from their program director. F

ECON 601 Business Economics and Forecasting (3) A study of economic concepts and tools useful to managers of business firms. Topics include optimization, demand, production and costs, market structure, pricing behavior, risk analysis, benefit cost analysis, estimation of economic relationships, and business cycles and forecasting. Prereq: ECON 501 or equivalent. Sp

ECON 699 Independent Study (1-3) Supervised study or research in a specific area of economics. Prereq: consent of MBA director.

Finance

FIN 501 Survey of Finance (3) An accelerated course in financial management designed for the first year MBA student who has little preparation in the subject. Provides the student with the basic analytical skills necessary for making corporate funding and expenditure decisions. May not be counted toward the 30 hours required for the M.B.A. degree. Non-MBA students require permission from their program director. Prereq: ACCT 501 or equivalent. Sp

FIN 601 Financial Management and Markets (3) A comprehensive coverage of financial theories and their application to provide the MBA student with a basic understanding and appreciation of corporate finance. Prereq: FIN 501 or equivalent. Sp

FIN 699 Independent Study (1-3) Supervised study or research in a specific area of finance. Prereq: consent of MBA director.

Management

MNGT 601 Organizational Behavior and Human Resource Management (3) A study of individual, group, and organizational factors influencing behavior in an organization, as well as human resource management topics such as selection, performance management, compensation and reward systems, career development, diversity management, and employment law. Format will involve extensive discussion and experiential learning. F

MNGT 611 Leadership Skills Development (3) A highly interactive and experiential class focusing on the development of management and leadership skills. The class focuses on developing a student's professionalism in the following areas: oral, written, and interpersonal communication, group dynamics, team building, creative problem solving, information and communication technology, change management skills, and the roles of leaders in a dynamic work environment. No prereq. F, Sp

MNGT 681 Strategic and International Management (3) Includes the development of an executive managerial perspective. The primary purposes of the course are to develop the ability to analyze complex corporate problems from a global perspective, and an awareness of the impact of changing business conditions and government policies on global organizations. Examines the globalization of industries and firm competitiveness. The format of the class involves the use of cases to assist students in the application of theory. Prereq: ACCT 601, ECON 601, FIN 601, MKTG 601, and MNGT 601. Sp

MNGT 699 Independent Study (3) Supervised study or research in a specific area of management. A study of cases to develop overall managerial perspective, the ability to analyze complex corporate problems, and an awareness of the impact of changing business conditions and government policies. Prereq: consent of MBA director.

Marketing

MKTG 501 Survey of Marketing (3) A general survey of marketing management. Focus on the management of the marketing efforts of the individual firm. Emphasis on the areas of product, pricing, distribution, and promotional strategies. May not be counted toward the 30 hours required for the MBA degree. Non-MBA students require permission from their program director. No prereq. Sp

MKTG 601 Marketing Strategies (3) Analysis and control of the key marketing variables to develop successful strategic marketing plans. Emphasis on the major components of marketing strategy: establishment of overall corporate objectives; analysis of strategic business units; identification of creative alternatives; and examination of company, target market, and competitors. Views strategy formulation from the global and managerial perspectives. Examines significant marketing strategies and applies them to practical analysis of established marketing cases dealing with new and established product management, pricing, channels, and promotional aspects. Prereq: MKTG 501 or equivalent. F

MKTG 699 Independent Study (1-3) Supervised study or research in a specific area of marketing. Prereq: consent of MBA director.

BOWER-SUHRHEINRICH COLLEGE OF EDUCATION AND HUMAN SERVICES

Physical Education

PED 502 Teaching Difficult Topics in Health (3) This course will introduce and provide an opportunity to practice pedagogical approaches for health topics historically challenging to teach children in grades K-12. The basis for understanding behavioral, environmental, and political influences on health education in the school system will be addressed.

PED 592 Contemporary Issues in Sport and Exercise (3) This course will enable students to integrate information from their educational experiences to critically examine and analyze contemporary issues in sport and exercise from an interdisciplinary perspective. Current issues, trends, and challenges will be presented with the intent of provoking thought and stimulating debate so that students may identify their role in the resolution of issues.

PED 601 Physical Training for Optimal Performance (3) This course will provide information regarding the methodologies and results of aerobic and anaerobic physical training in various internal and environmental physical conditions, for young, middle-aged, and elderly men and women. The basis for training under certain nutritional, psychological, and physical regimens will be described and evaluated.

Social Work

SOCW 500 Special Topics in Social Work This course will provide students exposure to a variety of selected topics of current interest and importance in social work. These topics will change with the interests of the faculty and students. No prereq.
SOCW 503 The Social Welfare System (3) Examines the philosophical and ideological and historical foundations of contemporary social welfare issues and policies from a global systems perspective. The course includes consideration of the influence of various political perspectives on the conceptualization of the welfare state. The emergence and the evolution, as well as contemporary issues facing the profession and the social and economic justice implications of policies on selected populations are discussed. In addition to considering policy alternatives, students will acquire skills in assessing social impact of social welfare policies in family and community systems as well as skills in tracing the historical development of contemporary social welfare policies at the U.S. federal and state levels. Prereq: admission to the MSW program. F

SOCW 504 Human Behavior and the Social Environment (HBSE) I (3) This course provides foundation knowledge about bio-psych-social cultural aspects of individual, family, and small group systems. Within this framework, emphasis is placed on issues related to human diversity and social justice. A holistic systems conceptual approach is used to demonstrate their relationship to larger social systems. Social systems; life-process development; culture and ethnicity; stress, coping and adaptation; and major social issues over the life span are emphasized in this course. Students will also learn about an overall framework or model for integrating concepts, understanding human beings in society, and optimizing human functioning in society. Prereq: admission to the MSW program. F

SOCW 505 Human Behavior and the Social Environment (HBSE) II (3) This course provides an integrative focus of examining the interrelatedness of human physical, psychological, and social systems. Concepts related to culture, social stratification, environmental stress, disability, trauma, and ethnicity are presented in relation to their impact on human systems. Adaptation related to growth and development of the individual is presented with an emphasis on understanding the physical, emotional and social forces that affect human growth and development. Prereq: admission to the MSW program, and SOCW 503 and 504. Sp

SOCW 506 The Foundation of Social Work Practice (3) This course provides foundation knowledge at the graduate level about generalist social work practice. The course examines the wide range of knowledge and skills needed for collaborative work with individuals, families, groups, organizations and communities to promote planned change and enhance client empowerment. Using a systems perspective, the course focuses on work within social service agencies, including effective use of supervision and consultation, and critical thinking skills. Social work values and ethical decision making is presented by introducing students to the NASW Code of Ethics as an essential component of professional social work practice. Prereq: admission to the MSW program, and SOCW 503 and 504. Sp

SOCW 507 Social Work Research Seminar (3) This course builds upon the foundation of basic undergraduate research courses. Emphasis is placed on the continued development at the graduate level of critical analytical skills related to application of basic concepts in research methodology including problem formulation, research design, sampling, measurement and data analysis. The course will focus on quantitative and qualitative methods and familiarize students with the computer-based system for data entry and analysis. The course prepares students to be consumers and producers of social work research so that they can apply evidence-based interventions to diverse clinical settings and populations at risk and to utilize sound ethical principles related to research. Prereq: admission to the MSW program. F, Sp

SOCW 508 Micro Systems: Practice with Individuals, Groups, and Families (3) This course focuses on the development of knowledge, values, and skills needed for social workers at the graduate level to practice with individual and small group systems. Particular consideration is given to examining the theories within a generalist framework for social work practice. Ethical principles, methodologies, and techniques are included as they relate to contemporary professional practice. Socio-cultural membership, gender, racial and ethnic factors, abilities and other human diversity issues are studied as variables impacting the provision of social services to individuals, families and small group systems. The role of research in social work practice evaluation is covered. Prereq: admission to the MSW program, SOCW 503, 504, and 506. Sp

SOCW 509 Macro Systems: Institutional and Community Systems (3) Examines the theoretical frameworks that shape the foundation for social work generalist practice with organizations and communities. Built upon a liberal arts perspective of community and society, the course provides advanced knowledge about social work's professional relationships with organizations and communities. The course emphasizes skills to enhance competent macro practice with diverse populations regarding age, culture, class, ethnicity, disability, gender, national economic justice. Prereq: admission to the MSW program, SOCW 503, 504, and 506. Sp

SOCW 510 Social Welfare Policy and Service (3) Provides a framework for social welfare policy analysis with special attention to the state policy making process and the impact of policy on persons that may be disadvantaged by poverty and other forms of oppression. The course emphasizes culturally competent policy practice and advocacy related to diverse populations regarding age, culture, class, ethnicity, disability, gender, national origin, race, religion, and sexual orientation. Policy practice skills related to policy formulation development, implementation, and evaluation will be addressed. Prereq: admission to the MSW program, SOCW 503 and 504. Sp

SOCW 511 Graduate Field Placement I (3) Provides a “generalist” social work practice experience in a community based social service agency under the direct supervision of an agency based field instructor in consultation with social work faculty. Generalist practice is broadly defined; the parameters for practice are determined by the identified client needs, mission, and function of the agency and the level of training of the student. Typical roles of the student include: advocate, broker, educator, community organizer, group worker and individual counselor. Typical tasks: preparing psychosocial histories, developing service plans and implementing interventions congruent with the multi-variant client needs. Skills expected include the ability to communicate empathy, genuineness, positive regard and the ability to utilize a planned change process throughout the generalist model. Prereq: admission to the MSW program and completion of SOCW 503, 504, 505, 506, 507, 508, 509, 510, and permission of the director of field education. Su

SOCW 512 Integrated Field Placement Seminar I (1) Taken concurrently with the field placement, this seminar integrates theory and skills from the classroom with the agency based field experience. “Generalist” social work practices as demonstrated in a variety of agency settings is evidenced by students sharing their field experiences and receiving feedback on their own application of generalist practice knowledge. Prereq: admission to the MSW program, and completion of SOCW 503, 504, 505, 506, 507, 508, 509 and 510 and permission of the director of field education. Su

SOCW 601 Clinical Specialization I: Clinical Assessment and Differential Diagnosis (3) This advanced course will focus on the clinical process of assessment and diagnosis from the perspective of social work practice. Students will discuss major frameworks for organizing assessment data and formulating diagnostic understanding, with a view on the utility for clinical practice in varied settings with diverse populations. The Diagnostic and Statistical Manual of Mental Disorders (DSM) and other schemes for assessing and understanding human
behavior, psychopathology, and mental disorders will be demonstrated and critically examined. Prereq: admission to the MSW program and completion of all 500-level core classes or advanced standing status. F

SOCW 602 Clinical Specialization II: Clinical Planning and Treatment Process (3) Building upon SOCW 601, this advanced course provides an in-depth consideration of the clinical process of treatment planning and intervention in social work practice. The case study method will be utilized to discuss the application of assessment, treatment planning with a well-defined clinical focus, and evidenced-based intervention strategies to a variety of complex treatment concerns across diverse populations. Advanced case management and multidisciplinary collaboration are also covered. The development and application of advanced clinical reasoning is a major goal. The complexities of ethical, legal, and professional issues for clinical practice will be examined. Prereq: admission to the MSW program, completion of all 500-level core classes, or advanced standing status and SOCW 601. Sp

SOCW 603 Administration and Policy Specialization I: Human Services Management I (3) This course will focus upon developing the skills and knowledge needed by Masters level social workers who move into management/administrative roles within a culturally diverse and changing social service environment. The course will include content on the changing trends in the social service sector, the administrator's role, management theory, management in public sector organizations, strategic planning, and culturally and ethically competent management within social service agencies. Additionally, policy analysis as it affects the organization and clients will be examined with a special emphasis on social and economic justice and diversity. Prereq: admission to the MSW program, completion of the foundation curriculum or advanced standing status. F

SOCW 604 Administration and Policy Specialization II: Human Services Management II (3) This course will build upon the content in Human Services Management I. It continues to develop the skills and knowledge needed by social work human service managers within a changing diverse culture. Content will focus on human resource management to include development of skills and knowledge in the areas of leadership, supervision, staff development, structure, authority, funding, budgeting, grant writing, contracting, marketing and inter-organizational relationships. Human relations skills and knowledge including program/team development and conflict management will be emphasized with a focus on social and economic justice and diversity. Prereq: admission to the MSW program, completion of all 500-level core courses, or advanced standing status and SOCW 603. Sp

SOCW 605 Practice Evaluation (3) Practice evaluation refers to research strategies and designs used by social workers to assess the impact and effectiveness of social work interventions. The course prepares the social work practitioner for the systematic evaluation of direct services and treatment interventions. Specifically the course examines the theoretical and practical applications of outcome and process research. It also examines the use of qualitative and single system research designs in the context of the advanced clinical concentration curriculum. Prereq: SOCW 507. F, Sp

SOCW 608 Paradigms of Clinical Practice (3) Provides content on contemporary theoretical paradigms and techniques of advanced clinical social work practice. This course builds on the foundation established in the generalist practice classes taught in the first year MSW graduate curriculum. The focus is on the application of theoretical models to a variety of populations including clinical interventions with individuals, groups, couples, and family systems. Prereq: admission to the MSW program and completion of all 500-level core classes or advanced standing status. F

SOCW 609 Evaluating Social Work Practice (3) This course provides a broad base of knowledge pertaining to policy and practice with diverse populations regarding age, culture, class, ethnicity, disability, gender, national origin, race, religion, sexual orientation and international groups. Institutional, historical, and cultural barriers to equality are explored, with their implications for policy and practice within a global context. Micro and macro level implications of strength and resilience and the valuing of diversity will be addressed. Students will demonstrate an understanding of the impact of diversity and equality on human systems and social policy. Prereq: admission to the MSW program and completion of the foundation curriculum or advanced standing status. Su

SOCW 610 Human Diversity, Inequality, and Social Work (3) This course provides a broad base of knowledge pertaining to policy and practice with diverse populations regarding age, culture, class, ethnicity, disability, gender, national origin, race, religion, sexual orientation and international groups. Institutional, historical, and cultural barriers to equality are explored, with their implications for policy and practice within a global context. Micro and macro level implications of strength and resilience and the valuing of diversity will be addressed. Students will demonstrate an understanding of the impact of diversity and equality on human systems and social policy. Prereq: admission to the MSW program and completion of the foundation curriculum or advanced standing status. Su

SOCW 611 MSW II Graduate Field Placement (2-4) Provides a “clinical” or otherwise “specialized” social work practice experience in a community based agency under the direct supervision of an agency based field instructor who has expertise in the specialization. While anchored in the liberal arts foundation, generalist model and values that distinguish social work as a discipline, this advanced practicum is both specialized and rigorous in its demands for interventions grounded in sound science, technical skill and the art of therapeutic practice. The MSW II placement provides opportunities for clinical activities building on the generalist foundation. Its emphasis is on the student developing a “therapeutic” style of practice while acquiring expertise within the specialization offered by the field agency. The ratio of generalist and clinical activities vary, depending upon the professional development needs of the individual student and the mission of the agency. Specializations may be defined by the problem, such as chemical dependency; the population, e.g., children and families; practice areas such as mental health or school social work and expertise in use of a particular intervention model. Prereq: admission to the MSW program, completion of all graduate foundation classes below SOCW 611, and permission of the director of field education. F, Sp

SOCW 612 MSW II Integrated Field Placement Seminar (1-2) Taken concurrently with SOCW 611, this seminar integrates theory and skills from the classroom with an agency based field experience. Therapeutic or clinical social work practices reflecting a variety of theoretical bases are demonstrated as students share their field experiences and receive feedback on their own application of specialized practice knowledge. Prereq: admission to the MSW program, completion of all graduate foundation classes below SOCW 611, and permission of the director of field education. F, Sp

SOCW 621 Introduction to Family Systems (3) Examines the family as a contemporary social institution. Consideration is given to historical, cross-cultural perspectives in exploring the range of issues the contemporary family must cope with. The course also examines the various therapy approaches to dealing with family issues and dysfunction. Skill in working with various family problems and configurations will be developed based on these theories. Various family systems including nuclear, single parent, blended and multigenerational families will be examined. Prereq: admission to the MSW program and completion of all graduate foundation classes or advanced standing status. Sp

SOCW 625 Social Work Practice with Children and Adolescents (3) Examines the development and behavior of children and adolescents in relation to the ability to function in their roles in society, including in the family, with peers, schools or other systems. Assessment or functioning and interventions congruent with the child/adolescents’ needs are explored. Consideration will be given to the impact of the environmental context in which problems manifest, including community or organizational cultures and policy; socio-economic factors or other aspects of human diversity. Prereq: admission to the MSW program and completion of all graduate foundation classes or advanced standing status. Sp
SOCW 627 Social Work Practice with the Elderly (3) This course focuses on the social worker's role with aging individuals, groups, and communities. Development of knowledge and skills of intervention appropriate for both community and institutional services will be emphasized. Prereq: admission to the MSW program and completion of all graduate foundation classes or advanced standing status.

SOCW 629 Social Work Practice and Disability (3) This course examines a broad array of disability-related issues including various definitions of disability, the experience of disability, frameworks for understanding disability, services for persons with disabilities, the practice implications of public policy, role options for social workers, and practice considerations. Innovative social work practice, with an emphasis on a social construction model directed at inclusion-integration rather than a medical model emphasizing restoration will be emphasized. Prereq: admission to the MSW program.

SOCW 632 Social Work Practice with Persons with Serious Mental Illness (3) Examines the role of the social worker with persons with serious mental illnesses. Includes an examination of various etiological theories, cultural and family issues, community-based services, and evidence-based knowledge needed to plan, deliver, and evaluate services for this population. Prereq: admission to the MSW program.

SOCW 634 Social Work Practice with Substance Abusers and Their Families (3) This course will focus on the knowledge and skills essential to a range of social work roles and practice modalities with substance abusers and their families. Students learn to identify and critique the central issues that are addressed in the process of assessment and treatment intervention with this population. Special issues related to children and adolescents, family systems, ethnic groups, gay men and lesbians, elderly, disabled, and dually diagnosed are explored. Selected social policy and service delivery issues and research findings are considered. Prereq: admission to the MSW program.

SOCW 638 Minority Groups and Cultural Issues in Social Work Practice (3) Focuses on assisting students in developing a cultural and ethnic-sensitive approach to their practice. It also emphasizes the identification and use of different theoretical models of practice that can be effective in intervention with minority individuals, families, groups, and communities. Prereq: admission to the MSW program and completion of the foundation curriculum or advanced standing status and SOCW 610.

SOCW 642 Foundations of School Social Work (3) This advanced practice specialization course exposes the students to the field of school social work. The focus will be on the role of the social worker in the school. This includes provision of evidence-based direct service, consultation, advocacy, program development and evaluation, evaluation of one's own practice and service delivery, and liaison with families and community systems. Emphasis is placed on cultural competency and inter-professional/inter-disciplinary collaboration in the provision of school social work services. Prereq: admission to the MSW program and completion of the 500-level core classes or advanced standing status. F, Su

SOCW 645 Foundations of Occupational Social Work (3) This course is designed to expose the student to the emerging field of Occupational Social Work and the role of the social worker in the field. Various roles of graduate level social workers in the field will be examined including counselor, trainer/educator, mediator, program developer, and organizer. Models of occupational social work knowledge and skills needed for practice will also be examined. Prereq: admission to the MSW program.

SOCW 652 Family and Marital Therapy (3) This course provides theoretical models for understanding how families and couples function. It also examines approaches for assessing and treating families and couples. Expertise in working with various family and marital problems and configurations will be developed. Issues in working with diverse family systems in relation to therapeutic strategies and the social worker are explored. Prereq: admission to the MSW program and second year or advanced standing status. F, Su

SOCW 656 Behavioral Interventions in Social Work Practice (3) Focuses on the clinical applications of behavioral therapy to include social learning and cognitive therapies. Students will be exposed to the use of behavioral approaches relevant to the practice of social work. Prereq: admission to the MSW program and second year or advanced standing status.

SOCW 658 Cognitive Approaches to Intervention in Social Work Practice (3) This course provides an overview of the theoretical frameworks underlying cognitive approaches to clinical intervention. Content will be presented to enhance the intervention repertoire of the clinical social work practitioner with change concepts and techniques from cognitive approaches. Prereq: admission to the MSW program and second year or advanced standing status.

SOCW 660 Advanced Group Therapy in Social Work (3) This group course will focus on the development of therapeutic groups in social work practice. In particular, it is about working with people in small groups in a way that is therapeutic, growing, producing, and life enhancing. It teaches social work practitioners how to do clinical social work with groups, how to integrate small-group theory and how to apply therapeutic group principles. The brief focal group therapy model is introduced and applied to various client populations such as those dealing with spouse abuse, incest, depression, post-traumatic stress disorder, and addictions. Prereq: admission to the MSW program and second year or advanced standing status.

SOCW 664 Crisis Intervention (3) Focuses on the identifying crisis as a process and the subsequent interventions used by social work practitioners to influence various crises. Students are expected to acquire competence in responding to crisis situations on primary, secondary and tertiary levels. Prereq: admission to the MSW program and second year or advanced standing status.

SOCW 666 Test and Measurement Issues in Clinical Social Work Practice (3) The course exposes students in social work to a variety of assessment tools used by social workers to evaluate practice intervention and to assess clients. Students will become familiar with the psychometric issues appropriate to evaluating assessment instruments, the implementation of assessment instruments with clients, and the interpretation of the results. Prereq: admission to the MSW program and second year or advanced standing status, SOCW 507 and 605.

SOCW 668 Human Sexuality: Sexology, Clinical Issues, and Interventions (3) Explores current research based knowledge in regard to human sexuality, including the sexology of erotic orientation, the cultural contexts of human sexual behavior and meaning of sexuality in context of the whole person. Interviewing skills and treatment approaches specialized to sexual issues, dysfunctions, including sexual anomalies, will be presented. Prereq: admission to the MSW program and second year or advanced standing status.

SOCW 670 Advanced Seminar in Community Planning and Organization (3) Comparative analysis of major theoretical models dealing with understanding and promoting change in organizing communities and society. The course will examine the history and develop-
ment of community organizing, critically evaluate research findings about community planning and organization, and promote the development of new models to advance social and economic justice. Prereq: admission to the MSW program.

SOCW 671 Social Work Management in the Clinical Setting (3)
This course examines theories and methods of social work administration in a clinical setting. It is organized around traditional management functions (planning, resource acquisition, budgeting, organizing, staffing, leading, and evaluating), and highlights performance in the areas of client outcomes, productivity and efficiency, resource acquisition and management, staff well-being, and strategic planning as ongoing process within the clinical setting. Particular attention will be given to the mental health and related policies that affect the social work administrator who functions within a clinical setting. This course is a requirement for students in the clinical concentration. Prereq: admission to the MSW program and second year or advanced standing status. Su

SOCW 692 Advanced Graduate Social Work Project (3) In this course, the students are expected to independently implement an integrative research project and summarize findings. This project will build upon knowledge developed in prior course work. It requires students to demonstrate an understanding of social work practice, use their knowledge of social research methodology and to utilize critical thinking appropriate to a graduate level professional social worker. Prereq: admission to the MSW program and completion of the foundation curriculum or advanced standing status. Su

SOCW 699 Independent Study (1-3) Independent study of a topic relevant to the professional discipline of social work that is not otherwise covered in the curriculum. Prereq: consent of the MSW program director.

Teacher Education

EDUC 511 Foundations and Legal Issues Related to Exceptional Needs (3) Examines the fundamentals for provision of special education service delivery including legal and societal aspects. Develops skills and dispositions for experiences based on disability characteristics and extent of handicap. Field experience required. Prereq: EDUC 306.

EDUC 512 Evaluation and Exceptionality: Assessment, Interpretation, and Instructional Design (3) Explores the purpose(s) of assessment, selection of criteria, administration techniques, needs for accuracy in scoring, determination of validity of interpretation and application of data for instructional design and implementation. The development of assessment skills, awareness of legal and ethical issues, and collaboration will be emphasized. Concurrent registration in EDUC 513 and 521 required.

EDUC 513 Learning Strategies for Students with Exceptional Needs (3) Examines teaching methods appropriate for students with exceptional needs. Emphasis is placed on all phases of the instructional process based on assessment of student needs, developmental plans, appropriate implementation and evaluation of effective instruction. Concurrent registration in EDUC 512 and 521 required.

EDUC 514 Inclusive Philosophy and Educational Practices (3) Emphasizes individualized educational experiences for all students through adaptations/accommodations in general, modified or alternative curriculum appropriate to a student’s unique needs both academically and socially. Concurrent registration in EDUC 515 and 522 required.

EDUC 516 Partnerships: Family, School, Community, and Exceptionality (2) Studies the coordination of school, home, and community resources for the educational, physical and social growth of children with exceptional needs. Communication strategies will be emphasized to create cooperative collaborative partnerships. Concurrent registration with supervised teaching and EDUC 528 required.

EDUC 517 Transition and Exceptionality (3) Examines student transition between school settings and community environments. Develops skills in working with students and their parents to encourage advocacy and self-determination.

EDUC 521 Exceptional Needs: Practicum I (3) Introduces observation, instruction and evaluation skills in effective assessment and implementation of effective individualized education plans/programs for academic success. Concurrent registration with EDUC 512 and 513 required.

EDUC 522 Exceptional Needs: Practicum II (3) Introduces observation, instruction and evaluation skills in effective assessment and implementation of effective individualized education plans/programs for success in academic and nonacademic environments. Concurrent registration with EDUC 514 and 515 required.

EDUC 523 Collaborative Partnerships (3) This course defines, studies, and applies the skills necessary for teaching collaboratively. It presents a paradigm that adheres to the belief that close working relationships between teachers serving the same students are an absolute necessity. Emphasis will be placed on the need for close communication between professionals, the challenges of scheduling and instructional coordination, and interpersonal problem solving. Field experiences required.

EDUC 524 Supervised Teaching: Exceptional Needs: Elementary-Primary (6) Engages in the professional role of special educator, with qualified supervision, in an appropriate program placement including students with exceptional needs at Elementary-Primary level. Concurrent registration in EDUC 516 and 528 required.

EDUC 525 Supervised Teaching: Exceptional Needs: Elementary-Intermediate (6) Engages in the professional role of special educator, with qualified supervision, in an appropriate program placement including students with exceptional needs at Elementary-Intermediate level. Concurrent registration in EDUC 516 and 528 required.

EDUC 526 Supervised Teaching: Exceptional Needs: Middle School/Jr. High (6) Engages in the professional role of special educator, with qualified supervision, in an appropriate program placement including students with exceptional needs at Middle School/Junior High level. Concurrent registration in EDUC 516 and 528 required.

EDUC 527 Supervised Teaching Exceptional Needs: Secondary School (3-6) Engages in the professional role of special educator, with qualified supervision, in an appropriate program placement including students with exceptional needs at Secondary level. F Sp

EDUC 528 Synthesis Seminar: Professional Issues in Exceptional Needs (1) Utilizes reflective processing and mentoring during supervised teaching experiences to support successful professional performance. Concurrent registration with supervised teaching and EDUC 516 required.

EDUC 538 Synthesis Seminar in Special Education (3) Capstone Seminar in Special Education. A preprofessional course which provides a synthesis of interdisciplinary knowledge and pedagogical practices. Integrates knowledge from the University Core Curriculum, subject area coursework, and professional education core. This course also examines case studies which present issues faced by teaching professionals in school settings.

EDUC 540 Current Trends in Reading (3) The teaching of reading undergoes a variety of changes based on the social and political climate.
This course offers the opportunity for students to explore trends and issues that are currently impacting the teaching of reading. Topics that may be explored: New instructional programs, state mandates in reading instruction, changing state and national standards, phonics instruction.

EDUC 541 Young Adult Literature (3) Course provides an overview of literature for adolescents and young adults. Participants will critique these materials and design plans for incorporating all genres of young adult literature in middle school and high school classrooms.

EDUC 542 Advanced Children's Literature (3) Course provides an opportunity for classroom teachers and media specialists to explore recently published books and non-print materials for children in Pre-K through grade 6. Participants will critique these materials and design plans for incorporating all genres of children's literature in their classrooms.

EDUC 555 Diagnostic Teaching of Reading (3) Emphasizes diagnostic teaching in which teachers assess reading during instruction. A model of diagnostic decision-making is presented that encourages the teacher of reading to view assessments and instruction as interacting and continuous processes. A variety of formal and informal assessment measures are studied for their assessment and instructional value.

EDUC 561 Microcomputer Applications for Educators (3) Examines ways computers can be used as productivity and instructional tools in educational settings. Applications include word processing, spreadsheets, databases, and utility programs. No prereq.

EDUC 565 Computers in the Curriculum (3) Focuses on the integration of technology into the school curriculum. Explores educational and management software, productivity tools, emerging technologies (e.g., CD-ROM, laserdisc, multimedia/hypermedia, telecommunications), instructional strategies, key issues and trends related to computer technology in the teaching/learning environment. Prereq: EDUC 561 or equivalent strongly recommended, but not required. F, Sp, Su

EDUC 566 Authoring Educational Multimedia Resources (3) Focuses on the systematic design and development of educational software and multimedia resources. Students plan instructional sequences, and then apply computer programming and coursework design skills to the development of informational, instructional, and constructional resources. Internet, laserdiscs, CD-ROM, CD-audio, digitized audio, digitized still and motion video, and scanned images are incorporated into multimedia projects. Interdisciplinary, multimedia thematic units also are developed. Prereq: EDUC 214, 565, or equivalent.

EDUC 567 The Internet in Education (3) Focuses on the process of connecting learners with remote resources as primary or secondary means of learning. Examines the systematic design and development of distance learning environments (e.g., video, computer, and Internet-based delivery systems) with special consideration to learner needs and varied communication channels. Students plan and design instructional sequences, then apply distance learning techniques that address issues such as the need for real-time vs. delayed interaction. The evolving roles of technology, faculty, and learners are discussed. The course will be taught using the technologies demonstrated in class. Prereq: EDUC 214, 565, or equivalent.

EDUC 568 Advanced Instructional Technology (3) Focuses on technical and management skills needed to coordinate the technology program in a school. Technical topics include analyzing computer and networking environments (i.e., wiring, services, hardware, software), advanced instructional development, and conducting technology installation, maintenance, repair, and upgrades. Job and development and technical troubleshooting will be explored. Management topics include technology planning, implementation, and evaluation; staff development; facilities design; budgeting; and grant writing. Prereq: EDUC 214, 565, or equivalent.

EDUC 569 Special Topics in Computer Education (1-3) Course is devoted at each offering to the study of a contemporary topic or innovative development in computer education. Semester hour(s) credit available for each offering and education faculty determines course requirements. Course repeatable for maximum five hours credit. Prereq: consent of instructor. F, Sp

EDUC 588 Junior High/Middle School Curriculum (3) A study of the development and organization of instructional programs to meet the needs of early adolescents. Considers theories and processes for developing and evaluating curriculum for middle level students. Prereq: EDUC 601 or EDUC 603, or both courses if student has already taken a course from the advanced studies component.

EDUC 590 Special Topics in Education (1-3) Study of a contemporary topic or innovative development in education. No prereq.

EDUC 601 Research in Education (3) Introduces the field of educational research. The course emphasizes the understanding of quantitative and qualitative research, teacher action-research, and the evaluation of research reports. F, Sp, Su

EDUC 603 Historical and Philosophical Influences in Education (3) Examines the nature and functions of formal education through a historical survey of educational development and a study of major philosophers whose thinking has influenced educational practice. F, Sp, Su

EDUC 604 School and Society (3) Examines the interactions between cultures, their social norms and values, and their goals for education. Studies the roles of schools as preservers of cultures, preparers for participation in societies, and contributors to social progress. Analyzes the complex social, political, and economic characteristics that influence modern schools and the educational implications of these factors. No prereq.

EDUC 605 Moral Dimensions of Schooling (3) Examines ethical theories and how they contribute to understanding the moral influence of schools and teachers. The course emphasizes the unintentional moral education that is embedded in what teachers say and do even when they are not intending to act as moral agents. Prereq: EDUC 601 and 603.

EDUC 607 Issues in Reading, Diversity, and Exceptional Needs (3) Examines approaches for improving adolescent/young adult literacy in various content areas. Emphasis on strategies for teaching students with a wide range of abilities in culturally diverse settings. Enrollment restricted to Secondary Transition to Teaching.

EDUC 611 Secondary School Curriculum (3) Examines the philosophical and societal bases for the development of curriculum theories and practices in education. This course also analyzes curriculum issues relevant to teaching in contemporary secondary schools.

EDUC 614 Elementary School Curriculum (3) Analysis of curriculum development in elementary schools, with emphasis on sources of curriculum, models of curriculum development, and processes of curriculum change. Examination of trends and issues, including equal access and multicultural education. Prereq: EDUC 601 or 603, or both courses if student has already taken a course from the advanced studies component.
EDUC 615 Integrated Curriculum I (3) One of the analysis courses in the Elementary Transition to Teaching program, this course examines the theoretical views of cognitive development with a focus on how children acquire, organize, and apply knowledge. Integrated methods and developmentally appropriate activities for working with diverse and exceptional populations are emphasized. Also examines strategies to develop working partnerships with parents. Guided field experience required. Enrollment restricted to Transition to Teaching candidates.

EDUC 616 Integrated Curriculum II (3) One of the analysis courses in the Elementary Transition to Teaching program, this course examines the theoretical views of multiculturalism in education. Integrated methods and developmentally appropriate activities in math and sciences are emphasized. Guided field experience required. Enrollment restricted to Transition to Teaching candidates.

EDUC 621 Measurement and Evaluation in Education (3) Examines knowledge and skills in the construction, use and evaluation of measurement instruments and evaluation procedures in educational settings. Prereq: EDUC 601 or 603, or both courses if student has already taken a course from the advanced studies component.

EDUC 622 Assessment in Education (3) Examines the impact of testing and assessment. Reviews accountability movements, standardized testing, and high stakes assessment systems as they affect the roles and power of teachers and administrators. Students will learn to construct normative and criterion referenced assessments, and learn their utility in aligning curriculum and activities with K-12 content standards. Field experience may be required. Enrollment restricted to Transition to Teaching Candidates.

EDUC 623 Child Development and Elementary Education (3) The initial course in the Elementary Transition to Teaching program, this course introduces candidates to current theories of child development in the areas of physical/motor, psychosocial (cultural influences), and cognitive/language/literacy development of children ages birth to 12 years. Focuses on the integration of research findings and theories of growth and development and educational psychology in early childhood and elementary practice. Guided field experience may be required. Enrollment restricted to Transition to Teaching Candidates.

EDUC 624 Seminar in Adolescent Development (3) Examines human development during the age range from 13 to 19. Guided field experience may be required. Enrollment restricted to Transition to Teaching Candidates.

EDUC 631 Analysis of Instruction (3) Analyzes recent research literature regarding the improvement of instruction. Students examine research articles regarding teacher reflection, teacher effectiveness, cooperative learning, designing instruction to meet the needs of different learning styles, instruction to promote student constructions of meaning, instructional processes leading to portfolio assessment. Students write a review of literature in a chosen area.

EDUC 641 Literacy Programs in the Classroom (3) A study of ways teachers can sustain a balanced literacy program in their classrooms for all students. Topics for course will be flexible depending on teachers' needs and interests; however, in general, the topics covered will include current innovations in the fields of reading (i.e., 4-block instruction, incorporating standards, comprehension strategies, using literature circles), writing (i.e., writing process, writing assessment through writing traits and rubrics, choosing writing prompts), listening, and speaking. Emphasizes instructional practices and activities for use in the classroom.

EDUC 642 Interdisciplinary Processes in Mathematics and Science (3) A study of curricular themes and instructional methods in mathematics and science for elementary teachers. Strategies for integration and accompanying materials will be examined. Interdisciplinary activities will be developed. Prereq: EDUC 601, 603, and 614.

EDUC 643 Interdisciplinary Processes in Social Studies and Global Awareness (3) An investigation of the theoretical foundations for incorporating social studies, global awareness, and multicultural education into the integrated curriculum. Consideration for diverse learning needs and styles of children will be addressed within a multicultural framework. Analyzes implications of both the global perspective and pluralistic nature of American society. Prereq: EDUC 601, 603, and 614.

EDUC 651 Supervised Teaching in the Elementary School (3) Engages in the professional role of elementary educator, with qualified supervision, in an appropriate program placement. Enrollment only by permission of Director of Field Experiences in Education.

EDUC 652 Supervised Teaching in the Secondary School (3) Engages in the professional role of secondary educator, with qualified supervision, in an appropriate program placement. Enrollment only by permission of Director of Field Experiences in Education.

EDUC 671 Integrating Seminar in Secondary Education (3) A culminating, research-oriented seminar which integrates professional knowledge, professional skills and subject area knowledge. Students conduct a school-based research project, based on professional literature, and write a research report. Includes a supervised field experience. Prereq: completion of 24 hours in the MS secondary education program, including EDUC 631. F, Sp

EDUC 674 Integrating Research Seminar in Elementary Education (3) A culminating, research-oriented seminar that integrates professional knowledge and professional skills. Students conduct a school-based research project, based on professional literature, and write a research report. Includes a supervised field experience. Prereq: completion of 24 hours in the MS elementary education program, including EDUC 631. F, Sp

EDUC 681 Foundations of Principalship (3) Explores Indiana Professional Standards Board standards for building level administrators. Examines issues of day-to-day planning. Analyzes the formation, development, nurturance, and celebration of school and community partnerships. Reviews strategies and outcomes of school marketing.

EDUC 682 Issues in Educational Leadership (3) Integrates a study of current topics with legal, philosophical, and ethical considerations in a pluralistic society.

EDUC 683 Leadership in the Principalship (3) Focuses on theory and practice in school improvement, school culture, conflict management, and stakeholder communication. Examines employee relations and hiring. Reviews effective use of technology. Applies basic principles in data collection and analysis.

EDUC 684 Legal Aspects of School Administration (3) Examines court decisions and case law affecting building-level administrators in the areas of students' rights, disability rights, personnel, due process, privacy, and legal and contractual obligations. Relates government regulation and policy formation. Reviews ethical concerns in relation to the spirit of the law.

EDUC 685 Curriculum and Learning for Educational Leaders (3) Identifies common themes in curricular development that apply across all levels. Examines curriculum and learning in relation to student achievement, school improvement, and educational leadership.
EDUC 686 Management in the Principalship (3) Focuses on issues of time management, goal setting, strategies planning, and school politics. Emphasizes practical solutions in authentic contexts.

EDUC 687 School Fiscal and Facility Management (3) Examines budgeting, accountancy, fundraising, grant writing, business partnerships, safety and security, health, physical plant, transportation, and community use of facilities.

EDUC 688 Internship for School Leaders (3) Provides practical experience in the day-to-day activities of the building-level administrator. Intended as a synthesizing capstone for all prior educational leadership course work and field experiences.

EDUC 689 Special Topics in Educational Leadership (3) Examines topics germane to educational leadership but not included in the regular graduate course offerings. Topics will vary with offering and course may be repeated up to six hour maximum.

EDUC 690 Special Topics in Education (1-3) Study of a contemporary topic or innovative development in education. No prereq.

EDUC 699 Supervised Research (1-3) Advanced research in a specific area of education. Topics arranged to meet the needs and interests of the student, subject to availability of graduate faculty to supervise the research. Repeatable for maximum of six credit hours. No prereq.

**COLLEGE OF LIBERAL ARTS**

**English**

ENG 515 History of Rhetoric (3) An understanding and comparison of various movements in the history of rhetoric, with particular emphasis on the relationship between rhetorical strategy and one’s image of man and on historical events which influenced rhetoric. The course aims to increase the scope of students’ understanding of rhetoric and help them apply this knowledge to their own writing and their evaluation of the writing of others. No prereq.

ENG 517 History of the English Language (3) A chronological study of the recorded history of the English language from the ninth century to the present. Detailed study of major changes in phonology, lexicon (morphology and semantics), and syntax. Attention to the notion and practice of standard English and to the development and current state of dialects in the U.S.A. Format will include lecture and discussion. No prereq.

ENG 524 Chaucer (3) A study of the major works of Geoffrey Chaucer, particularly The Canterbury Tales and Troilus and Criseyde, with attention to the language and times of Chaucer. Format will include lecture and discussion. No prereq.

ENG 535 Fiction to 1875 (3) A study of English and American prose fiction (principally the novel) before the late 19th-century change to modern realism and naturalism. The course includes the great Victorians and Americans through Hawthorne and Melville with relevant continental backgrounds. No prereq.

ENG 536 Fiction from 1875 to 1930 (3) A study of English and American prose fiction of the realist, naturalist, and early modern periods. The course includes such writers as James, Twain, Crane, Conrad, Lawrence, Joyce, and others, with major continental figures as well. No prereq.

ENG 537 Contemporary Fiction (3) A study of English and American prose fiction from approximately 1930 to the present, with continental backgrounds. No prereq.

ENG 538 Twentieth Century Southern Literature (3) A study of the literature produced by American southern writers from ca. 1920 to the present. No prereq.

ENG 544 Literature in the Secondary Schools (3) A course designed for graduate students who are seeking additional study on the issues related to the teaching of literature in grades 5-12, including censorship, literary literature, multicultural literature, the ethics of reading, and the connections between reading and the other language arts: writing, speaking, and listening.

ENG 548 Literary Criticism and Theory (3) A study of literary criticism and theory, both classic texts and contemporary trends. Readings from Plato to poststructuralism. Examination of traditional approaches such as psychological, Marxist, formal, as well as such diverse contemporary approaches as feminist criticism, structuralism, and reader-response criticism. No prereq.

ENG 599 Seminar in Literature and Language (3) An advanced topics course, with subject matter varying from semester to semester. Not to be taken more than once by master’s degree candidates without prior permission of the English Department. No prereq.

ENG 602 Writing Portfolios (3) A composition course designed for area teachers emphasizing issues related to the teaching of writing in the secondary schools. No prereq.

**History**

HIST 500 Special Studies in History (1-3) Historical studies offered in conjunction with special activities and events such as seminars, conferences, fieldwork, and research. No prereq.

HIST 519 Communal Societies in America (3) A study of the principles, practices, historical development, and contributions of communal societies in America from 1663 to the present. Emphasis on Shakers, Harmony Society, Mormons, Owenites, Brook Farm, Oneida, Hutterites, Theosophists, and recent communitarians. No prereq.

HIST 539 History of Indiana (3) A survey of the history of Indiana from early to modern times. No prereq.

HIST 598 Graduate Seminar in U.S. History (3) A graduate research course in selected fields of American History.

HIST 599 Graduate Seminar in European History (3) A graduate research course in selected fields of European History.

HIST 604 The American West (3) Participants in this course will study how Americans view and interpret their nation's history with particular attention to the American West. Topics will include the frontier experience, regionalism, and cultural diversity. Writings, films, photographs, music, and art will be basic course materials. Interpretations of major historians will be considered. A humanities core course in the MALS program. No prereq. Cross-listed as LBST 604.
Journalism

JRN 581 Public Affairs Reporting (3) A course that polishes the communications skills of journalism teachers and student publication advisors. Course work, writing assignments, and class lectures and discussions will focus on the covering of local and state government, the judicial system, local and state legislative processes and regional agencies. Assignments include an in-depth research paper on an issue or topic of current interest. Prereq: consent of instructor.

Liberal Studies

LBST 550 Special Studies in Liberal Arts (1-3) Liberal studies in conjunction with special activities and events such as seminars, conferences, fieldwork, lecture series, research, and travel. Repeatable, but only a total of three hours may apply to the 33 hours required in the MALS degree. Credit varies, and the instructor together with the director of the MALS program will determine the amount of credit. Prereq: consent of the instructor.

LBST 590 Interdisciplinary Topics in Liberal Studies (3) A seminar in which students will draw upon their educational experiences to develop interdisciplinary responses to a problem or issue in contemporary life. Course parallels LIBA 497 in the undergraduate curriculum and will be offered in concert with sections of that class but with additional requirements suitable for the awarding of graduate credit. No prereq.

LBST 601 Language (3) A study of the complex abstract system that links meanings with sounds and symbols. Beginning with the question “what is language?” this course explores all aspects of language study, including how children learn language; how languages change; how regional dialects vary. It provides an interdisciplinary survey of basic concepts and applications to understand the subconscious knowledge speakers have. The course will provide an opportunity for students to upgrade their interdisciplinary academic writing skills if necessary. A humanities core course in the MALS program.

LBST 602 Nature and Nurture (3) An introduction to the neurogenetic revolution currently gaining momentum in the biological and social sciences. The course examines research and theory from the fields of evolutionary psychology, behavioral genetics, and behavioral endocrinology as challenges to the anti-biological perspectives on human social behavior found in traditional social science. Such issues lend themselves well to the most important purpose of the course: developing the skills, worldview, and values of a critical thinker. A social sciences core course in the MALS program. No prereq.

LBST 603 American Values: Contemporary Debate (3) An examination of current controversies involving the evolution and effects of values in American culture, including equality, materialism, personal responsibility, and rights. Explores the relationships between cultural and economic forces with respect to such social problems as poverty, crime, racial friction, and family disorganization. A social sciences core course in the MALS program. No prereq. Cross-listed as SOC 603.

LBST 604 The American West (3) Participants in this course will study how Americans view and interpret their nation’s history with particular attention to the American West. Topics will include the frontier experience, regionalism, and cultural diversity. Writings, films, photographs, music, and art will be basic course materials. Interpretations of major historians will be considered. A humanities core course in the MALS program. No prereq. Cross-listed as HIST 604.

LBST 605 Temporality in the Sciences (3) An intensive analysis of the role of time in the development of science. An interdisciplinary study assuming several distinct temporalities that form a nested hierarchy proceeding from the level of electromagnetic radiation to the mind of man. Investigates each temporality and its contribution to our overall understanding of the physical world. A science core course in the MALS program. No prereq. Cross listed as GEOL 605.

LBST 606 After Darwin (3) A study of the consequences of Charles Darwin’s theories as they pertain to the humanities including history, literature, philosophy, religion, and civics. Includes a discussion of the methodologies of humanities research. A humanities core course in the MALS program. No prereq.

LBST 607 Metals Through the Ages (3) The development of metallurgy and the use of metals against the backdrop of history. Properties of metals and the challenges facing people as metals came into use over time. Mining, mining activities, and trade of metals. No prereq.

LBST 608 Cathedrals (3) The objective of this course is to develop an understanding of and an appreciation for the relationships among art, architecture, music, spirituality, sociology, economics, science, and technology by studying the cathedrals and other great churches of medieval Europe. A science core course in the MALS program. No prereq.

LBST 609 Readings in Contemporary Science and Mathematics (3) This course is designed to introduce graduate students who are not necessarily scientists to the literature of modern science and mathematics. Students will select, read, report on and discuss books from reading lists provided by the instructor in five different areas of science and mathematics. This course can be taken as the science core requirement or as an elective for the Master of Arts in Liberal Studies program or an elective in the Master of Science in Education program. No prereq.

LBST 610 Capstone Course, Graduating Seminar in Liberal Studies (3) The objective of this course is to give students in the MALS program an opportunity to create a meaningful synthesis of their core courses and electives. The organizing topics for this course can be varied. This course along with one other 600 level elective constitutes one of the options for the final six hours of the MALS called the Capstone Experience.

LBST 680 Topics in Liberal Studies (3) Examination of topics germane to the liberal arts but not included in the regular graduate course offerings. Specific topics will vary from semester to semester and will be announced in the schedule of course offerings. No prereq.

LBST 690 Independent Work in Liberal Studies (1-3) Directed study or research in a specific area of liberal studies. Topic of investigation is selected to meet the needs and interests of the student, subject to the availability of graduate faculty to supervise the work. Not to be taken more than twice by master’s degree candidates without prior permission of graduate advisor. No prereq.

LBST 697 Capstone Project in Liberal Studies I (3) The first of two courses involving intensive study of a topic within liberal studies, selected with the student’s faculty advisor and approved by the members of the MALS faculty advisory committee. Combined with the LBST 698, the study should yield a written work of sufficient length and quality to warrant a total of six hours of graduate credit, although projects such as artistic creations, computer programs, theatrical productions, and community service programs also may be acceptable. Final grade recorded as satisfactory or unsatisfactory only. Prereq: acceptance to MALS program; permission of student’s graduate advisor.

LBST 698 Capstone Project in Liberal Studies II (3) The second of two courses involving intensive study of a topic within liberal studies, selected with the student’s faculty advisor and approved by the mem-
Political Science

POLS 512 The Politics of Education (3) Major political actions that relate to education, with emphasis on school boards, state legislatures, federal grants, and interest groups. Issues include community control, educational power, and financial decision-making. No prereq.

Public Administration

PA 502 Gender, Communication, and Culture (3) This course combines cognitive and experiential approaches to gender and culture as they relate to interpersonal communication, group and organizational communication public communication and mass media. Students will analyze gender conflict and identity, as well as develop a critical perspective of gender presentations in culture. No prereq.

PA 601 Organizational Behavior (3) A study of individual, groups, and organizational factors influencing the operation of government agencies and nonprofit organizations. No prereq.

PA 603 Technology Issues in Public Administration (3) Addresses policy, security, organizational and decision-making issues created by the increasingly sophisticated information and communication technologies used by public and nonprofit managers. The goal of this course is to improve the manager’s ability to use information technology resources to improve organizational productivity. A basic overview of computer tools will be provided along with an overview of emerging technologies. No prereq.

PA 606 Public Personnel Administration (3) The purpose of this course is to examine public personnel issues. Specifically, issues related to personnel/human resource management, employee motivation, evaluation, promotion/demotion, training, benefits, wages and salaries, as well as disciplinary policies and various legal aspects relating to public sector employment. No prereq.

PA 609 Budgeting (3) An examination of the budget process in government agencies and nonprofit organizations. No prereq.

PA 611 Leadership Skills in Public Administration (3) An examination of leadership skills relevant to the management of government agencies and non-profit organizations. No prereq.

PA 614 Interpersonal Communications within Organizations (3) This course provides a review of the research and applied approaches to organizational communications. This course includes an examination of the process of selecting appropriate communication channels, a consideration of the ways in which meaning, both verbal and nonverbal, is conveyed, and an exploration of ways in which communication can help alleviate typical interpersonal problems within organizations. No prereq.

PA 615 Legal Aspects of Public Administration (3) The purpose of this course is to examine legal issues relating to Public Administration. Many legal topics will be addressed in depth, such as public sector affirmative action, implementation of the Americans with Disabilities Act, whistle-blowing protections, public employee privacy and free speech in the workplace. More generally, this course will look at legal aspects and legal challenges to agency, regulations, policy implementation, and laws pertaining to the public sector. No prereq.

PA 618 Research Methods in Public Administration (3) An examination of social science research methodologies relevant to the management of government agencies and non-profit organizations. No prereq.

PA 631 Fundraising and Volunteer Administration (3) Analysis of fundraising strategies and the management of volunteers in government agencies and nonprofit organizations. No prereq.

PA 632 Public Administration (3) Analysis of administrative procedures and policy issues in government agencies and nonprofit organizations. No prereq.

PA 644 Process Analysis in the Public Sector (3) An examination of strategic management in government agencies and non-profit organizations. No prereq.

PA 653 Ethics in Public Administration (3) Examination of the ethical problems and conflicts encountered by government officials, nonprofit administrators, and other public administrators. Students in this course will contemplate a variety of topics including values and ethics, situational ethics, and individual and organizational ethics. No prereq.

Sociology

SOC 603 American Values: Contemporary Debates (3) An examination of current controversies involving the evolution and effects of values in American culture, including equality, materialism, personal responsibility, and rights. Explores the relationships between cultural and economic forces with respect to such social problems as poverty, crime, racial friction, and family disorganization. A social science core course in the MALS program. No prereq. Cross-listed as LBST 603.

Spanish

SPAN 518 Spanish American Poetry (3) The major figures and movements in Spanish-speaking America. The course will apply a variety of critical approaches (comparative, biographic, sociological, psychological, structuralist, etc.) to the analysis of poetic texts. No prereq.

SPAN 521 20th Century Mexican Novel (3) 20th century Mexican novel from the revolution to the present. No prereq.

SPAN 554 Golden Age Drama (3) Study of verse dramas that illustrate the dramatic techniques and universal themes prevalent in Spain (1600-1700). No prereq.

SPAN 556 Don Quixote (3) Detailed analysis of Cervantes' novel. Life and times of the author. Importance of the work to the development of the novel as an art form. No prereq.

SPAN 576 Realism and Naturalism in the Nineteenth-Century Spanish Novel (3) Analysis of the artistic theories of Realism and Naturalism as experienced in the nineteenth-century Spanish novel and selected critical writing. Prereq: consent of instructor.
COLLEGE OF NURSING AND HEALTH PROFESSIONS

Health Administration

MHA 621 The Health Services System (3) This course allows students the opportunity to analyze the current organizational arrangements and patterns for the provision and financing of health care services in the United States. Topics include the health care process and factors which affect need, access and use of services; factors affecting the supply and distribution of health professionals and health facilities; factors related to health care costs; quality assessment and quality assurance; the impact of legal and regulatory actions; technology evaluation; and financing of care through private health insurance and government programs. Emphasis will be placed on current trends in the organization, financing and delivery of health care, including managed care, health care reform, mergers, consolidations, and integrated delivery systems. As well, the inter-related nature of all aspects of the health care delivery system will be illustrated throughout the course. First year. F

MHA 622 Biostatistics and Epidemiology (3) Course provides the statistical and epidemiological basis for the science-based evaluation of health data and services. In order to make objective administrative decisions, proper interpretation and analysis of information is essential. This course addresses statistical tools used in the evaluation of data and potential sources of statistical error. Likewise, epidemiological methods used to infer relationships between factors and outcomes are addressed including the major threats to study validity. Specific areas covered include data types and sources, statistical tests commonly used in the health field, sampling error, study designs and associated issues, bias within studies, and the effect and control of other factors that may affect results. Additional topics include: data based decision-making, analytic approaches, and the use of meta-analysis in health services. Course will include a critical review of health data from research or the literature and the development of a study design directed at administrative issues in health services. First year. F

MHA 623 Operations and Control Systems Research in Health Care Organizations (3) Provides framework for decision-making for both operating and control systems in the health care environment. Emphasizes basic modeling techniques and examples of actual hospital applications. Students study health care information systems and operations research techniques. First year. Sp

MHA 624 Applied Economic Analysis in Health Care (3) Examines economic theory and the concepts of production, distribution, supply, demand and utilization of individual and public health care resources. Focuses on the relevance of economic analytic techniques, and their application to processes of resource allocation. Emphasis is also placed on the economic analysis of public policy development. First year. Sp

MHA 625 Marketing and Competitive Strategies in Health Care (3) Concepts of marketing and competitive strategies are applied to health care settings. Topics include health consumer behavior, market segmentation and targeting, medical staff relations, forecasting service demand and analysis of the competitive environment using market research, new product development, product pricing and distribution, advertising and public relations, personal sales techniques, and strategy formulation. Emphasis is placed on methodologies for developing organizational strategic plans using the marketing approach. First year. Su

MHA 626 Legal and Ethical Issues in Health Care (3) Legal issues related to the organization and delivery of health care will be examined, along with the ethical and moral considerations associated with the management of health care facilities and the provision of health services. Topics include government regulation of health care facilities and occupations, civil rights regulations regarding diversity, fraud and abuse, institutional and personal liability for negligence and malpractice, patient consent requirements, termination of care, confidentiality of medical information, medical staff credentialing, peer review of care, utilization review, and managed care regulations. Treatment of ethical and moral issues will emphasize the understanding of diverse viewpoints and methods for resolving conflicting moral obligations. Concerns arising from potential conflicts between legal and moral obligations are also investigated. First year. Su

MHA 631 Individual and Group Behavior in Health Care Organizations (3) Provides theory, knowledge and skills from organizational psychology and organizational behavior to understand and effectively manage individuals and groups in health care organizations. Traditional and contemporary issues in power and conflict resolution, organizational development, decision-making and group dynamics, performance appraisal and compensation, work stress, and discrimination are discussed. Second year. F

MHA 632 Administration of Health Care Organizations (3) Theories of administrative practice are examined and applied to the complex human relationships existing in healthcare facilities. Special attention is paid to the physician-management relationship, policy development, decision making, and strategic planning. Second year. F

MHA 633 Human Resources and Labor Relations Management in Health Care (3) Concepts in human resources management as applied to health services organizations are presented. Topics include the relationship between human resources management and general management, the nature of work and human resources, compensation and benefits, personnel planning, recruitment and selection, training and development, employee appraisal, and discipline. Labor relations topics focus on the history of the labor movement; legal regulations related to labor; union structure and formation; the analysis of union contracts; the collective bargaining process; grievance and arbitration; and the problems of managing with and without a contract. Second year. Sp

MHA 634 Financial Management in Health Care Organizations (3) Principles of financial management and insurance are integrated and applied to health care. Methods of public and private financing for a variety of providers and services are examined. Costing concepts are applied to the financial control of health care operations and managed care contracts. Strategic financial planning, financial statement analysis, and budgeting are also covered. Students use spreadsheet software to complete assignments that model actual health care practice. Second year. Sp

MHA 635 Seminar in Health Care Administration (3) As the integrative capstone course for the Master of Health Administration student, emphasis is placed on developing problem-solving skills in multi-faceted scenarios taken from actual situations. Learning goals include the assimilation of new information from various sources, including the current literature and research; preparing appropriate solutions within a team environment; and exhibiting leadership among peers. Second year. Su

MHA 636 Administrative Effectiveness in Health Care Settings (3) This course is designed to prepare students for distinctiveness and success in the employment market. Emphasis is on developing management skills, including communications, public speaking, negotiating, mediating, using political strategies, problem solving, time management, and team building. Other topics include stress management, career planning, personal marketing, and effective interpersonal relationships. Second year. Su

MHA 641 Health Care Administrative Residency (3) The administrative residency provides exposure to all facets of a health care organi-
zation. The student will present a meaningful end product to the host organization at the culmination of the experience. The structure of the residency is flexible, and varies with the student’s interests, the preceptor’s priorities, and the needs of the organization. Third year. F

Health Professions

HP 535 Eastern Medicine: Integrative Complementary Health Care (3) This course facilitates the study of Eastern medicine and its influence on integrative/complementary health care therapies. Emphasis is on the historical and social influences of the evolving model of east-west healing and health care. Specific modalities will be studied with emphasis on research support for efficacy, self care and use in contemporary health care practices. Implications for changes in health care concepts and health care provider roles will also be discussed.

HP 584 Environmental Health (3) Introduces various environmental risks to health status, and the role of public health controls to safeguarding at-risk populations. These areas include: food production, water purity, wastewater and solid waste handling, anthropod and pest control, air quality, and occupational and industrial hazards to health. F

HP 585 Epidemiology (3) Introduces the principles and methods of epidemiology used to study health related issues in populations. Covers models of disease causation and the association of health risk factors. Includes common epidemiological measures, epidemiological study designs, disease surveillance, and outbreak investigation. Applies epidemiological principles and methods to health service organizations and clinical settings by developing critical literature reviews and study design skills. Prereq: a course in statistics. Sp

HP 671 Curriculum Development for the Health Professions Educator (5) This course focuses on curriculum development and the role of the health professions educator. The role of faculty and health care facility educator specialists are studied. Curriculum development designs and models are evaluated. Current issues influencing curriculum development in higher education and health professions are emphasized. F

HP 672 Teaching Strategies for the Health Professions Educator (5) This course focuses on the assessment of learning needs and the development and implementation of learning experiences in the classroom and clinical setting. The theoretical foundations of teaching and learning, selection of appropriate teaching strategies for classroom, simulated laboratory and clinical instruction, use of multimedia learning resources, and the concept of distributive learning are emphasized. Experience in developing and implementing learning experiences for the education of health professions is provided. Sp

HP 673 Evaluation Strategies for the Health Professions Educator (5) This course focuses on the process of evaluation in the education of health professions educators. Evaluation models and concepts related to the measurement of outcomes in classroom and clinical instruction are introduced, as well as those related to program evaluation. Legal and ethical issues related to student evaluation are discussed. Current issues related to the evaluation of outcomes in education are emphasized. Su

Nursing

NURS 570 Special Topics in Nursing (1-3) This course studies special topics in nursing and health care.

NURS 574 Perioperative Nursing (3) This course explores the advanced role of the perioperative nurse focusing primarily on intraoperative nursing care which includes traditional, endoscopic, and laser surgical procedures in specialty areas and same-day surgery preparation and post-anesthesia care. Critical thinking and decision making skills in perioperative nursing will be enhanced through client teaching, management, and clinical research topics.

NURS 576 Cardiovascular Surgical Nursing (3) This course integrates advanced knowledge and research concerning the care of patients undergoing cardiac surgery for the professional critical care nurse. The course focus is on innovative management of cardiac surgery patients and critical thinking skills with emphasis on the collaborative role of nurses as they participate in the care of the critically ill cardiac surgery patient.

NURS 578 Rehabilitation Nursing (3) This course examines the scope of professional nursing practice in rehabilitation nursing. Emphasis on the diagnosis and treatment of individual and group responses to actual and potential health problems resulting from altered functional ability and altered lifestyle.

NURS 582 Oncology Nursing (3) This course examines the advanced knowledge of adult oncology nursing including the dimensions of prevention and early detection, diagnosis, treatment, palliation, rehabilitation, and survivorship are studied with diagnostic evaluation, classification, staging, and various treatment modalities for a selected range of malignancies.

NURS 612 Advanced Nursing Research (3) This course establishes the foundation for participating in research and the significance of research to nursing including quantitative and qualitative methodologies. Students critique nursing research and develop a research or project proposal. F

NURS 613 Theoretical Basis for Advanced Practice Nursing (3) This course is an introduction to the application of theory in nursing research and practice. Studies include philosophy and methods, pioneers in nursing theory, and selected non-nursing theories related to nursing practice and the nursing profession. F

NURS 614 Advanced Practice Nursing and Health Care Issues (3) This course examines issues relevant to advanced practice nursing and the health care delivery system including advanced practice roles, legal aspects of practice, scope of practice, credentialing, concepts of authority, power, and leadership, ethical aspects of practice, cultural sensitivity, continuous quality improvement, economics of health care delivery, legislative and policy-making activities, and allocation of health care resources. Sp, Su

NURS 615 Advanced Nursing Research II (3) This course synthesizes scholarly concepts in nursing practice including initiating or participating in a research project, developing and implementing an innovative scholarly project, or other faculty-student directed activities. Prereq: NURS 612 and NURS 613. Sp

NURS 616 Management of the Client in the Health Care Systems (3) This course examines organizational behavior and role competencies related to advanced practice nursing in health care including managed care, case management, integrated care systems, professional leadership, change theory, conflict theory, practice management, and computer literacy. Emphasis will be placed on the different health care environments currently utilizing advanced practice nurses. Sp, Su

NURS 617 Advanced Concepts of Pathophysiology (3) This course explores the physiological and pathological base for the advanced practice nurse to provide care to children and adults with acute and/or chronic illness. Examines theories and concepts relevant to pathophysiological processes. F, Su
NURS 618 Advanced Health Assessment for Advanced Practice Nurses (3)
This course provides didactic instruction and clinical practice in physical assessment, developmental screening, history taking, nursing, and medical diagnosis. Teaching methods include lecture, independent study, laboratory, and clinical practice. Prereq: Nurs 622. Su

NURS 621 Clinical Pharmacology for Nurse Educators (3)
This course is designed to provide the graduate nursing education student with knowledge of pharmacological agents and herbal therapies used in the treatment of adults, adolescents, and young children. Emphasis is placed on indications, mechanism of action, adverse reactions, patient teaching, and appropriate dosages of drugs. Through the use of a variety of instructional methods, this course prepares students to implement, monitor, and evaluate effective patient pharmacological therapy. Prereq: Nurs 617. F (Approval Pending)

NURS 622 Clinical Pharmacology for Advanced Practice Nurses (3)
This course is designed to provide the advanced practice nursing student with knowledge of pharmacological agents and herbal therapies used in the treatment of adults, adolescents, and young children. Emphasis is placed on indications, mechanisms of action, adverse reactions, and appropriate dosages. Through the use of variety of instructional methods, this course prepares students to design, implement, monitor, and alter effective patient pharmacological therapy. Prereq: Nurs 617. F

NURS 624 Economic Policies in Nursing and Health Care (3)
This course applies economic theories and analytic techniques to resource allocation in nursing and health care. Emphasis is placed on indications, mechanisms of action, adverse reactions, and appropriate dosages. Through the use of variety of instructional methods, this course prepares students to implement, monitor, and alter effective patient pharmacological therapy. Prereq: Nurs 617. F

NURS 625 Marketing and Competitive Strategies in Nursing and Health Care (3)
This course explores concepts of marketing and competitive strategies applied to nursing and health care organizations. Emphasis is placed on methodologies for developing nursing and organizational strategic marketing plans. Su

NURS 627 Nursing Informatics (3)
This course examines concepts and issues surrounding technology and information management are presented. Factors that influence information technology, database management, and information systems will be analyzed. Su

NURS 628 Advanced Health Assessment for Nurse Educators (3)
This course provides didactic instruction and clinical practice in history taking and physical assessment with a focus on enhancing assessment skills required by nurse educators. Teaching methods include lecture, independent study, laboratory, and clinical practice. Prereq: Nurs 621. Sp

NURS 631 Individual and Group Behavior in Nursing and Health Care Organizations (3)
This course presents organizational behavior theories and effective management strategies to lead individuals and groups in health care organizations. Traditional and contemporary issues including power, conflict resolution, organizational development, decision-making and group dynamics will be discussed. F

NURS 632 Administration of Nursing and Health Care Organizations (3)
This course examines and applies administrative theories to complex human relationships existing in nursing and health care. The course focuses on the nature and make up of organizations, structuring and coordinating work, and the influence of complex sys-
NURS 655 Primary Care Nursing of Families II (6) This course continues to expand the clinical management of children, adults, and elders within a family framework. Includes theoretical concepts related to the management of families with acute or chronic health care crises. The clinical focus is on the role of the nurse practitioner in primary care management including health promotion, illness prevention, assessment, treatments for acute and chronic illnesses, and education. Emphasizes role development, including interdependent and independent practices. Prereq: NURS 654. Sp.

NURS 656 Family Nurse Practitioner Practicum (6) This course provides an intensive clinical experience in the family nurse practitioner role. Selected preceptorships are designed to maximize individual student learning needs and provide a comprehensive experience to develop expertise in caring for individuals and families. Prereq: NURS 655. Su.

NURS 671 Curriculum Development for the Nurse Educator (5) This course focuses on curriculum development and the role of the nurse educator. The roles of faculty and health care facility educator specialists are studied. Curriculum development designs and models are evaluated. Current issues influencing curriculum development in higher education and health professions are analyzed. F.

NURS 672 Teaching Strategies for the Nurse Educator (5) This course focuses on the assessment of learning needs and the development and implementation of learning experiences in the classroom and clinical setting. The theoretical foundations of teaching and learning, selection of appropriate teaching strategies for classroom, simulated laboratory and clinical instruction, use of multimedia learning resources, and the concept of distributive learning are emphasized. Experience in developing and implementing learning experiences for the education of nursing professionals is provided. Sp.

NURS 673 Evaluation Strategies for the Nurse Educator (5) This course focuses on the process of evaluation in the education of nurses. Evaluation models and concepts related to the measurement of outcomes in classroom and clinical instruction are introduced, as well as those related to program evaluation. Legal and ethical issues related to student evaluation are discussed. Current issues related to the evaluation of outcomes in nursing education are emphasized. Su.

NURS 674 Management of Acutely Ill Adults I (6) This course focuses on the management of adult clients who are acutely/critically ill or experiencing an exacerbation of a chronic health problem. The clinical focus is on the role of the acute care nurse practitioner working with a multidisciplinary team across settings to facilitate and accelerate the patient’s return to optimal health. Prereq: NURS 613, 614, 616, 617, 618, and 622. F.

NURS 675 Management of Acutely Ill Adults II (6) This course continues the focus on the management of adult clients who are acutely/critically ill or experiencing an exacerbation of a chronic health problem. The clinical focus is on the role of the acute care nurse practitioner working with a multidisciplinary team across settings to facilitate and accelerate the patient’s return to optimal health. Prereq: NURS 674. Sp.

NURS 676 Management of Acutely Ill Adults III (6) This course continues the focus on the management of adult clients who are acutely/critically ill or experiencing an exacerbation of a chronic health problem. The clinical focus is on the role of the acute care nurse practitioner working with a multidisciplinary team across settings to facilitate and accelerate the patient’s return to optimal health. Prereq: NURS 675. Su.

Occupational Therapy

OT 581 Occupational Therapy Research Fundamentals I (3) Students in this course first complete an introductory unit that covers the philosophical underpinnings of inquiry, the importance of research, the two traditions of research including process stages and essential components, basic versus applied research, and rigor in research. Students then utilize discovery learning (b) to develop foundations for evidence-based clinical reasoning: descriptive and nonparametric inferential statistics, critical reading and analysis of research papers, and information dissemination in various scholarly formats and (b) to apply three inquiry strategies: basis single system, quantitative focus groups, and survey research.

OT 582 Occupational Therapy Research Fundamentals II (3) In this course students utilize discovery learning (a) to build on foundations of evidence-based clinical reasoning: advanced quantitative analysis with an emphasis on parametric inferential statistics, critical reading and analysis of research papers, and information dissemination in various scholarly formats (b) first complete an introductory unit that covers the philosophical underpinnings of inquiry, the importance of research, the two traditions of research including process stages and essential components, basic versus applied research, and rigor in research. Students then utilize discovery learning (a) to develop foundations for evidence-based clinical reasoning: descriptive and nonparametric inferential statistics, critical reading and analysis of research papers, and information dissemination in various scholarly formats and (b) to apply six inquiry strategies: advanced single system design, case study method, action research, outcome evaluation, qualitative focus group research, and other forms of qualitative research.

OT 621 Occupational Therapy Educational Strategies A (3) Using traditional methods are emphasized in this course in which the student learns to design and provide formal and informal educational offerings or training related to occupational therapy to consumers and community groups.

OT 622 Occupational Therapy Educational Strategies B (3) Electronic methods are emphasized in this course in which the student learns to design and provide formal and informal educational offerings or training related to occupational therapy to peers.

OT 627 Occupational Therapy Educator Practicum Seminar (2) Integrated within this course is a 120 clock hour fieldwork practicum experience in which students apply knowledge, values, and skills related to the required educator role. Students also meet in seminar fashion to reflect upon and share their learning experiences, providing additional synthesis of this practicum.

OT 683 Advanced Occupational Therapy Research Strategies (3) In this course students conduct and disseminate scholarly work of the profession including examining, developing, refining, and evaluating the profession’s body of knowledge, theoretical base, and philosophical foundations. Specific tasks involve designing and directing the completion of various studies, including data analysis, interpretation, and dissemination of results; collaborating with others to facilitate studies of concern to the profession; and mentoring novice researchers.

OT 687 Occupational Therapy Researcher Practicum Seminar (2) Integrated within this course is a 120 clock hour fieldwork practicum experience in which students apply knowledge, values, and skills related to the required researcher role. Students also meet in seminar fashion to reflect upon and share their learning experiences, providing additional synthesis of this practicum.
OT 690 Special Topics (3) This course provides opportunities for concentrated study in an emerging, innovative, or specialized area of the occupational therapy profession.

OT 691 Specialized Clinical Reasoning Strategies (3) Students in this course critically examine their own practice and integrate new knowledge using various types of clinical reasoning (narrative reasoning, interactive reasoning, procedural reasoning, pragmatic reasoning, and conditional reasoning) to develop and provide evidence-based specialized occupational therapy services (direct, monitored, consultative), including evaluation, intervention, program planning, and implementation, discharge planning related documentation, and communication.

OT 692 Specialized Evaluation Strategies (3) Providing an advanced study of tests and measurement principles within the centralized role of specialization, this course emphasizes: (a) clinical reasoning aspects; (b) selection, administration, and interpretation of standardized and non-standardized tests and evaluations; (c) interpretation of evaluation results; (d) documentation within an appropriate practice setting; and (e) reevaluation for effect of occupational therapy intervention and need for continued and/or changed treatment.

OT 693 Specialized Intervention Strategies (3) This course provides students with advanced study of intervention principles and practices within their centralized role of specialization. Additional emphases include clinical reasoning aspects, evidence-based service provision, outcomes measurement, best practices, and quality assurance.

OT 698 Specialized Role Internship Seminar (3) Integrated within this course is a 250 clock hour fieldwork internship experience in which students apply knowledge, values, and skills related to their selected central role of specialization. Students also meet in seminar fashion to reflect upon and share their learning experiences, providing additional synthesis of this internship.

OT 699 Occupational Therapy Synthesis (5) This course is designed to provide students opportunities to synthesize their preparation for advanced practice across three roles: a central role of specialization (selected by the graduate student) supported by two required roles, educator and researcher. Resulting in a product such as a research project or innovative scholarly project, this course also emphasizes professional reflection on the process aspect.

POTT COLLEGE OF SCIENCE AND ENGINEERING

Biology

BIOL 536 Molecular Biology Techniques (4) A project-oriented laboratory course in purifying, manipulating, and analyzing DNA using biotechnology techniques. Techniques include DNA cloning and expression, gene library construction and screening, PCR amplification of DNA, and DNA sequencing. Prereq: CHEM 254 or 321, BIOL 334, 375, and 376, or consent of instructor.

BIOL 651 Topics in Biology for Teacher Preparation and Enhancement (1-4) A special topics course for advanced teacher preparation and for in-service teacher enhancement. Advances in biological concepts, processes, methods, or issues. Focus on new advances in knowledge, hands-on experiences, the interface of scientific knowledge with topics of daily life and environmental concern, or ethical issues raised by new advances in biology. Subject matter will vary from semester to semester when the course is offered. Prereq: consent of instructor.

BIOL 691 Graduate Topics in Biology (1-4) Advanced independent study course for biology graduate majors in which topics on the broad interrelationships of biology with other sciences are considered. Prereq: consent of instructor.

Chemistry

CHEM 518 Seminar and Chemical Literature (2) A study of the chemical literature. The preparation of a scientific manuscript and the presentation of a seminar.

CHEM 521 Instrumental Methods of Analysis I (3) A study of principles and applications of instrumental analysis including an introduction to error analysis and absorption and emission spectroscopy. Techniques include UV, IR, NMR, atomic absorption, and emission. Prereq: CHEM 253, 321.

CHEM 522 Instrumental Methods of Analysis II (3) A continuation of CHEM 521 with emphasis on electronics, chromatographic techniques, and electro analytical methods. Prereq: CHEM 253, 321.

CHEM 541 Inorganic Chemistry (3) Introduction to the chemistry of all the elements, developed from the principles governing atomic structure and bonding, with special emphasis on transition metal and organometallic chemistry. A special research project is required.

CHEM 553 Organic Qualitative Analysis (3) The development of the qualitative procedures and techniques used in organic chemistry. Prereq: CHEM 254.

CHEM 558 Topics in Organic Chemistry (2) An advanced course in organic chemistry that considers special topics. Prereq: CHEM 254; recommended CHEM 462.

CHEM 651 Topics in Chemistry for Teacher Preparation and Enhancement (3) This is a special topics course for advanced teacher preparation and for in-service teacher enhancement. An emphasis is placed on basic concepts and problem-solving techniques needed for teaching chemistry in high school. The course focuses on new advances in knowledge, hands-on experiences, the interface of scientific knowledge with topics of daily life and environmental concern, or ethical issues raised by new advances in chemistry. Subject matter may vary from semester to semester when the course is offered. Prereq: consent of instructor.

Geography

GEOG 575 Remote Sensing and Image Analysis (3) A study of elements of airborne and space-borne remote sensing systems, including aerial photography, radar, thermal, multi-spectral. Emphasis on use of remotely sensed images for environmental monitoring, resource assessment, land use, and terrain analysis.
Geology

GEOL 605 Temporality in the Sciences (3) An intensive analysis of the role of time in the development of science. An interdisciplinary study assuming several distinct temporalities that form a nested hierarchy proceeding from the level of electromagnetic radiation to the mind of man. Investigates each temporality and its contribution to our overall understanding of the physical world. A science core course in the MALS program. Cross listed as LBST 605.

Industrial Management

IM 531 Industrial Safety (3) 3 hours lecture. A study of Occupational Safety and Health Regulations, and their effect on industrial management and engineering. Accident investigation, liability, workers' compensation and hazard control will be studied with emphasis on safety management techniques and planning. Prereq: graduate standing or consent of instructor.

IM 601 Special Studies in Industrial Management (1-3) Directed study of topics in industrial management conducted in a seminar setting. Reading and writing assignments are based on current technical and professional literature in the field of industrial management. Guest lecturers and invited experts from government and industry complement the assigned readings and seminar discussions. credit hours awarded for each offering of this course will be determined in advance based on the course requirements established by the instructor. Prereq: graduate standing or consent of instructor.

IM 602 Operations Systems Analysis And Modeling (3) 3 hours lecture. Application of linear programming and optimization algorithms in analyzing and solving operations and manufacturing decisions in modern technological enterprises. Emphasis is directed at linear programming, queuing theory, waiting line models, systems analysis, and computer simulation applications for enhancing the productivity and efficiency of modern technological enterprises. Prereq: MATH 215 Survey of Calculus or equivalent, IM 603 Survey of Statistics or equivalent, or approval of graduate advisor.

IM 603 Survey of Statistics (3) 3 hours lecture. An introduction to basic principles and steps involved in planning and conducting statistical studies. Surveys statistical concepts to assist in the decision making process. Topics include probability, probability distributions, hypothesis testing, regression analysis, analysis of variance, reliability, life testing, and control charts. Prereq: graduate standing or consent of instructor.

IM 604 Manufacturing Systems Analysis (3) 3 hours lecture. This course examines concepts and techniques in manufacturing and operations management. Primary emphasis of the course is development of a system of manufacturing "laws" that relate various measures of plant performance, such as throughput, cycle time, work-in-process, variability, and quality into a consistent framework for evaluating classical operations management techniques as well as evolving new strategies. Analytical tools used include probability and statistics, queuing models, and simulation. Exercises and case studies examine both concepts and methods. Prereq: MATH 215 Survey of Calculus or equivalent, IM 603 Survey of Statistics or equivalent, or approval of graduate advisor.

IM 611 Principles and Practices of Project Management (3) 3 hours lecture. An examination of the fundamental principles of management with emphasis on project management in technical enterprises. Lectures, case studies, and role-playing exercises are used to enable students to develop an understanding of key management concepts and provide opportunities to employ and evaluate a variety of project management techniques in typical industrial settings. Time management strategies, problem-solving techniques, and decision-making tools are emphasized. Prereq: graduate standing or consent of instructor.

IM 614 Interpersonal Communications within Organization (3) 3 hours lecture. This course provides a review of the research and applied approaches to organizational communication. The course includes an examination of the process of selecting appropriate communication channels, a consideration of the ways in which meaning, both verbal and nonverbal, is conveyed, and an exploration of ways in which communication can help alleviate typical interpersonal problems within organizations. Prereq: graduate standing or consent of instructor.

IM 621 Human Factors in Design (3) 3 hours lecture. Study of the methods for designing the interface between humans and machines. Emphasizes the use of anthropometrical data and consideration of environmental factors for designing improvements of industrial and office workspace. Prereq: graduate standing or consent of instructor.

IM 625 Principles of Computer-Aided Design and Manufacturing (3) 3 hours lecture. Theory and practice in the operation of several micro and mini computer-based CAD systems for the generation of engineering documentation. Generation of symbols and shape descriptions using geometric primitives in both two- and three-dimensional systems. Discusses the application of CAD to manufacturing and the management problems associated with CAD technology. Prereq: TECH 121 - Engineering Modeling and Documentation or equivalent experience.

IM 635 Computer-Aided Design and Manufacturing Applications (3) 3 hours lecture. A project-oriented course in computer-aided design and manufacturing. Emphasizes development of a working knowledge of how CAD/CAM processes can be applied to various engineering disciplines and how CAD/CAM changes the nature of the management function in engineering. Uses two- and three-dimensional software. Orientation to the software is a continuation of IM 625. Prereq: IM 625 - Principles of Computer-Aided Design and Manufacturing.

IM 641 Principles and Practices of Quality Management (3) 3 hours lecture. Application of fundamental principles of quality management in analyzing and solving operations and manufacturing decisions in modern technological enterprises. Emphasis is directed at the management and control of quality to provide an environment for continuous improvement. Topics to be examined are quality philosophies, Total Quality Management, continuous improvement, Baldridge Award and criteria, ISO Standards, quality control, quality improvement, reliability management, six sigma, design of experiments, quality measurement tools, and quality function deployment. Prereq: graduate standing and IM 603 Survey of Statistics or equivalent or approval of graduate advisor.

IM 651 Economic Evaluation of Industrial Projects (3) 3 hours lecture. An intensive examination of the principles and applications of analytical techniques for evaluating capital investments, equipment replacements, production costs, and alternative investment and expenditure proposals in which the time value of money is a primary consideration. Includes study of present worth and rate of return analyses, depreciation and depletion, replacement analysis, benefit-cost analysis and methods for incorporating tax considerations in economic evaluation decisions. Prereq: graduate standing and IM 603 Survey of Statistics or equivalent or approval of graduate advisor.

IM 652 Industrial Management (3) 3 hours lecture. An examination of the fundamental concepts of management in industrial settings with emphasis on the relationships among types of industrial work, types of organizational structure, and managerial responsibilities. Includes study of organizational alternatives, time management, budgeting, cost accounting and financial management, negotiation and conflict resolution, quality control and resource allocation. Prereq: graduate standing or consent of instructor.
IM 671 Graduate Project (3)  An industrial management project relevant to the student’s area of specialization selected by the student, subject to approval by the student’s advisor. The project must be completed, a report written, and oral presentations prepared and delivered in order to complete the course requirements. Prereq: consent of advisor.

IM 691 Leadership Project (3)  A leadership project or series of case studies relevant to the student’s area of specialization and drawn from industry. Selection by the student subject to approval by the student’s advisor. The project or case study must be completed, a report written, and oral presentations prepared and delivered in order to complete the course requirements. All other coursework must be completed before this course is started. Prereq: consent of advisor.

IM 698 Individual Study in Industrial Management (1-3)  Supervised study or research in a specific area of industrial management. Subjects for investigation are selected to meet the needs and interests of the student, subject to the availability of graduate faculty to supervise the work. Not repeatable for graduate credit. Credit hours to be awarded for successful completion of the required investigations will be determined in advance by the graduate faculty member supervising the student’s work. Prereq: graduate standing or consent of instructor.

Mathematics

MATH 601 Using the Graphing Calculator in the School Curriculum (1)  In this 24-hour workshop participants will develop a better understanding of graphing technology while considering the following topics: domain, range, linear and quadratic functions, common solutions, inequalities, extreme values, slope, translations, rational and trigonometric functions, asymptotes, statistical menus and data, exponential and logarithmic functions. Problem solving and programming will be included throughout.

MATH 603 Fundamental Concepts of Algebra (3)  The conceptual framework of algebra, recent developments in algebraic theory and advanced topics in algebra for teachers and curriculum supervisors. Prereq: 24 hours of math, including calculus.

MATH 604 Fundamental Concepts of Geometry (3)  The conceptual framework of many different geometries, recent developments in geometric theory, and advanced topics in geometry for teachers and curriculum supervisors. Prereq: 24 hours of math, including calculus.

MATH 605 Problem Solving in Mathematics (3)  Theory and practice in mathematical problem-solving; exploration of a variety of techniques; and finding solutions to problems in arithmetic, algebra, geometry, and other mathematics for teachers of mathematics and curriculum supervisors. Prereq: 24 hours of math, including calculus.

MATH 611 Introduction to Analysis for Secondary Teachers (3)  A study of continuity, differentiability and integrability of a function of a real variable particularly as these properties appear in the secondary school mathematics curriculum. Prereq: at least an undergraduate minor in mathematics.

MATH 614 Basic Topics in Mathematics for the Elementary Teacher (3)  For the elementary teacher who needs to have a better understanding of mathematical content. Sets, numerical systems and algorithms for computation are studied in conjunction with a logical but non-rigorous development of the real numbers.

MATH 621 Using Technology in the School Curriculum (3)  This course was designed to facilitate the teacher of mathematics in the use of technology. Graphing utilities and calculator based laboratories through the study of the following topics: domain, range, linear and quadratic functions, common solutions, inequalities, extrema, slope, translations, rational and trigonometric functions, asymptotes, statistical menus, regression equations, data collection and analysis, parametric equations, exponential and logarithmic functions, problem solving and programming.

MATH 624 Intermediate Topics in Mathematics for the Elementary Teacher (3)  Topics included are an intuitive study of geometric figures, measurement, basic algebra and functions, and the rudiments of statistics and probability. Designed for the elementary teacher who needs a better understanding of mathematical content.

MATH 638 Fundamental Models in Statistical Inference (3)  This class emphasizes the study of probability models that form the basis of standard statistical techniques. Statistical techniques considered include inferences involving measures of central tendency and measures of variability, linear regression model estimation and goodness of fit hypothesis testing. Prereq: at least an undergraduate minor in mathematics.
Office of Alumni and Volunteer Services

In cooperation with the Alumni Association, this office coordinates a variety of programs and services to benefit alumni and students. Anyone who has completed one semester's work on the campus is entitled to membership in the USI Alumni Association. Active Alumni Association members play a leading role in the success of USI through career networking, mentoring, recruiting, and volunteering.

This office is the liaison with the Student Alumni Association (SAA), which provides a link for students to work with the Alumni Association. SAA is a student-run organization committed to promoting and supporting the establishment of traditions at USI. Members have an opportunity to network with alumni and gain valuable leadership skills while working on SAA programs and activities.

Volunteering at USI has something for everyone—it is a rewarding way to share talents and abilities or develop new skills. Volunteers could be students, faculty, staff, student organizations, or members of the community. Many volunteer opportunities are available within the University as well as in the Evansville community. Volunteers could assist with one-time events, short-term assignments, ongoing commitments, or on call as needed.

Volunteers are welcome to participate in the One-on-One tutoring program. This program pairs adult tutors with children in the Evansville-Vanderburgh School Corporation and the Metropolitan School District of Mt. Vernon. Any adult working or living in the Evansville area is welcome to participate.

The newest addition to this office is the USI Parents & Families Association. The purpose of the USI Parents & Families Association is to build a beneficial relationship between parents, families, and the University. Call 812/465-1215 to learn more about these programs and services.

Career Counseling Center

Students who have not yet defined a career goal or who are having doubts about their originally declared academic major can benefit from the services of the Career Counseling Center.

Designed to assist the more than 40 percent of new freshmen who enter the University each fall without a declared major, the Career Counseling Center also assists upperclass students who are researching or reassessing their career objectives.

Services provided include personal career counseling, assessment of career-related interests, computerized career testing and information, job shadowing with alumni, and a variety of other individualized services specially designed to provide career search assistance to each student who visits the center.

Students who have a clearly defined career goal have been found to be more successful in the classroom than their peers who are uncertain about their goals. The mission of the Career Counseling Center is to support student success by providing help in selecting a major and a career that best fit the personality, values, and interests of each individual student.

The Career Counseling Center also recommends beginning freshmen enroll in a credit class (GENS1111 - Career and Life Planning) designed to provide career guidance in a group setting.

The Career Counseling Center is located adjacent to the lobby of the Robert D. Orr Center, room OC 1005. Students can schedule appointments by calling 812/465-1136.

Career Services and Placement

An integral part of the University, the Career Services and Placement Office complements and supplements curricular programs by offering employment assistance to students and active alumni from all academic disciplines.

Upon admittance to the University, undergraduates may receive job referrals to both on- and off-campus positions through the Job Locator Service. Part-time jobs and summer employment opportunities listed with this office allow all students, regardless of financial need, to earn money to support their education.

Professional Practice Programs offer an opportunity for students to integrate classroom learning with career-related work experience in both the public and private sector. Although most are paid positions, the primary value of a cooperative (co-op) education or internship experience is the opportunity to clarify career goals, gain practical experience, and establish contacts with professional colleagues.

The co-op program offers two distinctly different patterns of study and work: alternate and parallel. The alternate pattern requires students to alternate semesters of full-time work with semesters of full-time study. The parallel pattern offers part-time work experience over an extended
period of time while the student maintains a minimum
academic load. Internships are of shorter duration than
a co-op assignment and normally are completed near the
end of a student’s college tenure. Because each program
option has benefits to different students, programs are
individually tailored to meet student and employer needs.

To be eligible for participation in most co-op or intern-
ship opportunities, a student must have a grade point
average (GPA) of at least 2.0 and must have completed
at least 32 credit hours. Transfer students must have
attended the University for one full semester.
Requirements for students from certain academic
disciplines are more stringent, requiring that particular
classes be completed before eligibility can be met.

Students who have completed, or who will be completing,
a degree program within the next calendar year may
receive instruction in professional job search strategies.
Workshops emphasize the identification of individual
marketable skills and assist with resume preparation and
interviewing techniques. For students who are interested
in a more extensive study of goal setting, professional
development and the mechanics of the employment
search, a one-credit-hour course (ASBE 401) is also
available. Although tailored for College of Business
students, this course is open to seniors from any
academic discipline.

Those who anticipate utilizing the programs offered by
the Career Services and Placement Office in conducting
their professional job search should register with the
office within two semesters prior to graduation. Once
registered, graduates are referred to vacancies relevant to
their areas of interest, in addition to having the opportu-
nity to meet employer representatives during recruiting
events on campus, and having access to the Internet and
notices listed on the USI Career Services Web page.

During the Supervised Teaching experience, teaching
majors will receive information on registering with the
Career Services Office. Students who earn a degree
or complete a teacher certification program from the
University of Southern Indiana are eligible to establish
a placement file with the office.

The Career Resource Center contains printed materials
covering such diverse topics as career and occupational
information, job search techniques, and recruiting
events. Computers also are available in the Career
Resource Center to be utilized for resume writing and
job research activities.

Information regarding the Graduate Record Examination
(GRE), frequently required for admission to graduate
programs, may be obtained by contacting Career Services
and Placement or the Graduate Studies Office.

Center for Communal Studies
The Center for Communal Studies in the School of
Liberal Arts is a research facility and international
clearinghouse that assists classes, students, faculty and
visiting scholars with the subject of communal utopias.
The Center facilitates meetings, seminars, publications,
and networking among scholars and communities.
The Center coordinates its work with the extensive
Communal Studies Collection in the Special Collections
Department of Rice Library, which provides a rich base
for undergraduate and graduate research.

The Center for Communal Studies Lecture Series brings
noted communal scholars and communitarians to share
their knowledge and experience on campus each semester.
The Center Prize is awarded annually to an undergraduate
or graduate student who submits the best scholarly paper
or project on a communal theme by the previous
December 15.

Office of Development
The Office of Development is responsible for developing,
coordinating, and implementing a comprehensive fund-
raising program for the University of Southern Indiana.
One of its primary responsibilities is to provide staff
assistance and guidance for the USI Foundation, founded
in 1968 as the official gift-receiving agency of the
University. As an Indiana not-for-profit (501)(C)(3)
corporation, the USI Foundation promotes, receives,
invests, and disburses gifts for the benefit of the
University.

Evansville Center for Medical Education
The Evansville Center for Medical Education of the
Indiana University School of Medicine is a part of the
Indiana Statewide Medical Education System, in which
the regular medical curriculum of the first two years is
offered. Each student admitted to the Indiana University
School of Medicine is assigned to one of nine campuses.
Campus preference is honored as closely as possible.

Facilities for teaching and research include classrooms
and teaching laboratories and faculty offices and research
laboratories. The facilities are located on the third floor
of the Health Professions Center. The curriculum consists of
courses in gross and microscopic anatomy, biochemistry,
physiology, microbiology, the patient-doctor relationship,
and neurobiology in the first year and pharmacology, medical genetics, biostatistics, introduction to medicine, and general and systemic pathology in the second year.

The opportunity is available in the third year to spend the required one-month Family Medicine Clerkship in Evansville.

Likewise, fourth-year students in the School of Medicine also may spend a portion of the senior year in electives based in hospitals and clinical facilities in Evansville.

Specific inquiries about the center programs may be addressed to the Office of the Dean, Indiana University School of Medicine, Indianapolis, Indiana 46223, or may also be made to the assistant dean and director, Evansville Center, on this campus.

Extended Services www.usi.edu/extserv
Extended Services coordinates academic outreach activities of the University. Its mission is to extend the resources of the University through education and training programs, assessment activities, consulting, and related services that assist in the educational, human resource, and economic development of southern Indiana. Components of Extended Services are:

Academic and Community Outreach Services
Bachelor of General Studies Program – The Bachelor of General Studies (BGS) program is designed for working adults who want to complete a baccalaureate degree that builds on their previous education, training, and work experience. It requires completion of the standard 124 credit hours, including the Core Curriculum, but allows flexibility in program design. Call 812/464-1879 for additional information or visit the Web site at www.usi.edu/extserv/bgs/index.asp.

The College Achievement Program (CAP) is a cooperative program between the University of Southern Indiana and participating high schools which allows highly motivated high school junior and senior students to take regular college courses in their own high schools at a reduced rate of tuition. Courses are taught by carefully selected high school faculty who are trained in special workshops by USI faculty members. Available courses include freshman-level English, history, computer information systems, economics, and health professions survey courses. Call 812/465-1274 for additional information or visit the Web site at www.usi.edu/extserv/cap/index.asp.

Off-Campus Credit Courses are offered each fall and spring at Castle High School and the National Guard Armory, located at Vann Avenue and the Lloyd Expressway on Evansville’s east side. Several other sites are utilized on a periodic basis, with most off-campus courses being applicable to the core curriculum or to the special needs of the nearby population. Call 812/464-1879 for additional information or visit the Web site at: www.usi.edu/extserv/offcampus.asp.

The Reserve Officers Training Corps (ROTC) program builds students’ leadership expertise, communication and decision-making skills, as well as self-confidence, all of which can be applied immediately while still in college or upon graduation from college. The leadership and management skills taught in ROTC are in high demand in the civilian market as well as in the military. Instruction and training given both in the classroom and at Army installations range from strategic studies to tactical exercises and include subjects from air-land battle doctrine to rappelling, marksmanship, military history, and operational considerations. New lieutenants have options for the job (branch) in which they will work. Educational delays may be requested for graduate school in medical fields and in law. All grades received for military science courses are included in cumulative grade point ratios. For more information call 812/461-5304 or 812/461-5302.

Continuing Education manages off-campus credit courses at seven sites in southwestern Indiana and a wide variety of noncredit programs and services. There are more than 10,000 noncredit registrations annually. Selected courses and seminars carry Continuing Education Units (CEUs) or other measures of continuing education achievement for various professionals including accountants and social workers. The University maintains a permanent file of all continuing education hours granted.

Nursing and Health Professions continuing education includes a variety of programs offered in diverse formats including via the Internet and videotape as well as face-to-face on campus. USI is an approved provider of continuing education for nurses and nursing home administrators; continuing education offerings for other health professionals are submitted for approval on a program-by-program basis.

School, Family, and Children’s Programs include week-long summer courses for school-age children, study skills and test preparation for middle and high school students, parenting skills development courses,
and skill-building courses for teachers. Staff is available to consult with businesses and organizations on development of child care systems and work/life policies.

**Noncredit Programs and Conferences** are continuing education programs for people of all ages, educational backgrounds, and areas of interest. Programming includes swimming lessons for children, arts and leisure activities for adults, and many diverse personal development opportunities. Schedules are released each year in early January, early May, and late August. Conference planning and management services for on-campus departments and community organizations are available throughout the year.

For information on any continuing education program call 812/464-1989 or visit www.usi.edu/extserv.

The mission of the **Southern Indiana Japanese School** is to provide academic programs, especially in Japanese language and culture, mathematics, and the sciences, for Japanese children in the region. These programs are designed to keep Japanese children current with their peers in Japan. Located at USI's Eastside Center, SIJS operates primarily on Saturdays with occasional special after-school activities. SIJS is operated by USI Extended Services in cooperation with a Board of Directors made up of executives from Japanese companies doing business in the Tri-State. Call 812/471-1210 or visit www.usi.edu/extserv/japaneseschool.

**Children's Center/Summer Enrichment Camp.**
The Children's Center is a state-licensed and National Association for the Education of Young Children (NAEYC) accredited facility open all year to the preschool children (ages two-six years) of USI students and employees. The goal of the Children's Center program is to provide a happy, healthy environment where each child can grow emotionally, socially, and intellectually. Individual expression, small- and large-group interaction, creative play, music, art, drama, and physical activities are encouraged. Both full-time and part-time enrollments are available. Call 812/464-1869 or visit the Web site at www.usi.edu/childcenter for further information. Summer and spring break school-age child care is available for ages seven through 11. Call 812/465-1274 for school-age care information.

**Professional Development and Business Services**
The Organizational and Professional Development Group (OPD) provides the region's manufacturing, service, and health care organizations with performance improvement services including organizational assessment, on-site customized training, and business consulting. Utilizing the resources of the University, the OPD group can develop state-of-the-art computer-based or multi-media training, as well as more traditional formats. The OPD group provides the link between USI's academic resources and the needs of the business community. OPD also offers non-credit public training, including certificate programs, leadership conferences, ISO and QS implementation programs, and other business and professional development workshops. To meet job-specific needs, OPD offers certificate programs for human resource professionals, quality personnel, safety personnel, supply-chain managers, office professionals, and those in supervision. The Management program co-sponsored with the American Management Association, the Certificate in Quality Management, the Management Diagnostic Center (MDC) offers individualized assessment and recommendations for those advancing in supervision. On-site and customized programs for employers are available in most business, professional, and technical areas, as is preparation for ISO/QS-9000 certification.

Computer training in popular applications is available and can lead to the Certificate in Computer Proficiency. USI also partners with Automated Office Solutions, Inc., to offer the popular Microsoft® Certified Systems Engineer credential. Customized computer application training is available at USI or on site for organizations with suitable facilities.

Management and program coordination services are available to professional groups. Current partners include the Institute of Supply Management (ISM) and The Tri-State World Trade Council (TSWTC). ISM is a progressive association with a mission to provide national and international leadership in purchasing and materials management, particularly in the area of education, research, and standards of excellence. TSWTC is a nonprofit organization promoting a shared interest in the development of international trade in the Tri-State area. The council informs, advises, assists, and represents its members with the purpose of furthering international trade. Many council programs are open to USI students, often at no charge.

For information on professional development programs and business services, call 812/464-1816 or visit: www.usi.edu/extserv/profdev.
Regional Heritage Development

Historic New Harmony (HNH) preserves and interprets the rich and diverse heritage of New Harmony, Indiana, the home to two historic communal societies of the early 19th century. An outreach program of the University, HNH offers award-winning interpretive tours, education programs, exhibits, and special events. Faculty have the opportunity for research in a number of disciplines. Students gain experience through internships in areas such as arts management, marketing, history, education, geography, and historic preservation. Historic New Harmony is a unified program of the University of Southern Indiana and the Indiana State Museum and Historic sites. Call 812/682-4488 or visit: www.newharmony.org for more information.

Historic Southern Indiana (HSI) is a historically distinctive region, consisting of the 26 counties between U.S. Highway 50 and the Ohio River. HSI also is a heritage-based outreach program of USI that coordinates and facilitates the efforts of an alliance of people committed to identifying, protecting, enhancing, and promoting the cultural, historical, natural, and recreational resources of southern Indiana. Major initiatives include collaborative promotion, scenic byways, hospitality training, interpretation development, and school enrichment programs. Historic Southern Indiana provides applied research opportunities for faculty and internships for students. Call 812/465-7014 or visit www.usi.edu/hsi for more information.

Food Service

The University food service, managed by Sodexho Services, operates four retail outlets in the University Center seating 450 on the first floor of the University Center. The Eagles Nest is home to the Sub Connection, Burger King, and Pete's Arena. The Loft, located on the second floor of the University Center, offers dining facilities with seating for 300 people. The Loft serves a wide variety of home-style lunch and dinner items seven days a week.

Students and staff on tight schedules or in classes in one of the outer buildings on campus can purchase Starbucks' coffees, a variety of fresh-baked goods, salads and sandwiches, and other convenience food items at Café a la Cart in the Health Professions Center. A coffee house in Rice Library will open after construction of the building in fall of 2006 and offer gourmet coffees, cappuccinos, and espressos along with baked pastries.

A full-service convenience store, Eagle Xpress C-Store, is open at the O'Daniel Apartments Student Service Center, offering standard convenience store services, as well as sub sandwiches made to order. For additional information, visit the Web site located at www.usi.edu/food/INDEX.asp. The Web site includes a complete description of services, monthly menus for The Loft, ongoing promotions or specials, and employment opportunities.

Catering services for University-sponsored events on or off campus are available through Sodexho Services. For more information call the Catering Services manager at 812/465-1692.

Instructional Technology Services (ITS)

For information or to schedule any of the services provided, contact ITS by phone at 812/465-7182 or 800/813-4238 (outside Evansville); e-mail instrtech@usi.edu; or visit ITS online at the Web, instrtech.usi.edu/. Visit USI Distance Education at www.usi.edu/distance.

Audio-Visual Equipment – Instructional Technology Services provides audio-visual equipment to faculty and staff for classroom or other academic use. To avoid scheduling conflicts, 48-hour notice is strongly recommended for video and computer projection equipment and 24-hour notice for all other equipment. Some equipment items may be requested on a semester-loan basis. A limited supply of multimedia equipment also is available for off-campus use where the purpose of the equipment loan is aligned with University goals and the duration of the loan is less than one week. Requests for multimedia equipment should be made using the online request form at instructech.usi.edu/equipmentorders.asp.

Faculty/Staff Training Lab and Testing Support – Instructional Technology Services provides eight multimedia computer workstations with a presentation screen for faculty/staff training purposes. These workstations allow users to copy or make their own CD-ROMs to meet instructional or training needs. Workstation software includes Microsoft Outlook, Excel, Word, PowerPoint™, Front Page for Web design, Paint Shop Pro for photograph and electronic graphic editing, Respondus for test creation, SPSS, and Easy CD Creator. Any department, academic unit, individual faculty, or USI staff member may schedule the use of the lab and/or make arrangements for an ITS training facilitator. For groups larger than eight persons, training may be scheduled in the 14-workstation Extended Services Training Lab housed within the ITS complex. ITS also provides the Scantron automated test-scoring machine (assistance is available) and Scantron forms.
Instructional Design and Online Course Development – Instructional Technology Services provides instructional design assistance for faculty to incorporate technology into their courses and departmental curricula. Faculty members are invited to make appointments with ITS instructional design staff to discuss individual course needs. ITS partners with the USI Center for Teaching and Learning Excellence to host presentations, symposia, and workshops as well as the Institute for Online Teaching and Learning, an intensive training program for faculty developing online courses.

Blackboard Course Management Software – Instructional Technology Services operates and supports Blackboard course management software which allows course materials and information to be shared on the Internet in a virtual classroom setting. Blackboard is an easy-to-use program for instructors to conduct course activities online such as posting syllabi and course handouts, sharing video clips of lectures, guest speakers or demonstrations, utilizing PowerPoint presentations, sending and receiving student papers, posting grades, generating class announcements or e-mail messages, maintaining a class calendar and tasks, generating online quizzes, and managing their own course discussion board. Students also can collaborate in online group workspace, create their own Web pages, and meet classmates in their course chat rooms. Visitors may preview the software at blackboard.usi.edu.

Distance Learning, Teleconferencing, and Related Services – Instructional Technology Services coordinates programs broadcast through IHETS (Indiana Higher Education Telecommunications System). Designated areas are specially equipped for this purpose, complete with teleresponse (talk-back) capability. A satellite television receive system allows the University to participate in selected teleconferences. Two-way, interactive videoconferencing also is available through Instructional Technology Services, including full technical support for conference connections worldwide. This videoconferencing technology offers a unique collaborative tool for faculty and students by connecting the University to a variety of experts and peers in cities across the globe. Conferencing services provided through Instructional Technology Services also allow USI faculty an opportunity to store a wealth of notes, data, and images in a readily accessible and compact format for ready retrieval both in and out of the classroom.

Production Services – Instructional Technology Services provides a variety of media production capabilities for academic and University-related activities. Assistance is available in the design and development of instructional media, including audio and video production, multimedia presentations including transparencies, slides, and MS PowerPoint™, CDROM creation, Web design, and videoconferencing. Photographic copywork, image and slide scanning, and film-processing services also are available.

Videoconferencing Services – The University uses videoconferencing technology to deliver courses and programs and to facilitate meetings where participants are in two or more locations. Videoconferencing services are available to faculty and staff as well as external groups and individuals. The technology offers faculty and students a cost-effective way to meet with a variety of experts and peers in cities across the globe. In most instances, participants see and hear each other on television monitors. ITS staff can connect meeting participants by satellite television, ISDN and IP video. The department equips and maintains distance learning classrooms and other multi-purpose videoconferencing rooms and coordinates programs broadcast through IHETS (Indiana Higher Education Telecommunications System).

Video Rentals – Instructional Technology Services maintains a videotape catalog collection to assist faculty in locating instructional materials. Due to increased videotape use and equipment availability, many titles formerly available only on film now are offered in videotape formats. Videotape rentals are provided at no charge to the user for all scheduled classes. Rental requests should be received by Instructional Technology Services at least six weeks prior to presentation date to assure availability.

Distance Education – USI Distance Education offers courses and programs via technology such as CD-ROM, Internet, videoconferencing, videotape, or other digital media. These technologies allow students to enroll in courses that better fit their time or travel needs. The USI Distance Learning Center serves both faculty and students on- and off-campus. USI Distance Education consults
with public groups, other schools, business, and industry to develop a wide range of adult programs in continuing education, non-credit courses, certificate programs, and special programs for K-12 teachers and students including dual-credit college and high school courses.

USI coordinates its distance education course offerings with other Indiana colleges and universities through the Indiana Partnership for Statewide Education and the Indiana College Network. The Indiana College Network Web site at www.icn.org provides useful information to students wishing to take distance education courses offered by USI and other institutions. Details about USI Distance Education are available at www.usi.edu/distance or by contacting Instructional Technology Services at 800/813-4238.

**Technology Training and Testing Services** – This office arranges in-service programs on media-related topics through Instructional Technology Services for faculty and student groups. On request, faculty can be introduced, instructed, and updated on the use of instructional media and equipment including the design and operation of Web sites to supplement traditional courses and to develop distance learning courses and programs. The department houses the Scantron automated test-scoring machine (assistance is available). Forms for use with the Scantron are available through Instructional Technology Services.

**Library Services**

The David L. Rice Library supports and extends the academic programs of the University by providing research and instructional materials as well as recreational and general interest materials. During regular semesters the library is open over 90 hours a week, including evening and weekend hours. When the library building is closed, access to the online catalog and hundreds of Internet links selected and organized to assist in finding high quality information on a variety of topics remains available through the library’s Web site: www.usi.edu/library/library.asp. Remote access to electronic databases is also available via the Web for currently enrolled students and currently employed faculty and staff. The Web site is the most current source for library hours, special notices, services, and staff contact numbers.

During the summer of 2006 the library will move into an attractive new building, offering four floors of substantially expanded student study space with tables, carrels and comfortable seating; 30 group-study rooms; two labs for instruction and student use; and greater visibility for such media as music CDs, videos, and DVDs. Additionally, the building provides classrooms on the lower level and casual seating in the coffee shop area at the front of the building. As with the current building, wireless access will be available, and in addition to PCs at workstations, laptops may be checked out for use in the library.

The library’s collection of over 300,000 volumes is available in open stacks, so that users have easy access to most resources. Approximately 4,000 books are added each year along with electronic resources, audio-visual materials, and other formats. Assistance in identifying, locating, using and evaluating resources in many formats and topics is available at the Reference Desk during most open hours. In addition to in-person visits, users may contact the library’s Reference staff by telephone or e-mail.

The library has access to over 12,000 full-text journals via the Web and receives nearly 600 print periodicals and newspapers. Electronic resources are accessible within the library, from other computers on campus, and remotely to authorized users. Microform is one of several print formats; coverage ranges from recent government reports to 1850s newspapers. Digital microform reader/printers are located on the main level, as are photocopiers for other print materials and printers with Internet connections. A casual reading area with a collection of books for recreational reading is located on the entry level.

The library’s integrated online system is Endeavor’s Voyager, a system used by hundreds of academic libraries. This system is used for ordering, receiving, cataloging, and checking out materials as well as for identifying the library’s holdings. By connecting to other systems, the library is able to use shared cataloging records from OCLC, a national bibliographic utility with over 55 million records; WorldCat is the public access database for these records. OCLC also facilitates the library’s borrowing of items from many participating libraries, and the library uses special software to enhance and expedite this interlibrary loan process. Eligible USI students and faculty may arrange for interlibrary loan service at the circulation counter on the library’s main level.

Other aspects of the library’s integrated online system include a checkout system that allows students and staff with a library-barcoded University Eagle Access Card to check out materials easily. The library user may search the online catalog by author, title, keyword, or subject, and identify an item’s location and availability. If an item is already checked out by someone else, in most cases a request may be made to hold that item for a specified time. Users may renew books online prior to the due date unless an item is overdue or on hold for someone else. In the new
building the security and inventory system will include self-check machines to speed the check-out process.

As the variety and complexity of sources in many formats increases along with the necessity for evaluating their worth, formal library class instruction has become even more essential. Instructors may schedule sessions tailored to individual course needs for their classes with a library assignment by contacting the Instructional Services librarian. This instruction is usually provided in a lab on the main level, so that hands-on learning is possible. The lab is reserved for these classes, but evenings, weekends, and other times when classes are not scheduled, the lab is open for general student use.

The University Archives and Special Collections preserves materials related to the University’s history as well as some distinctive collections. Two major collections are the Mead Johnson & Company Archives and the Blair collection of photographs documenting the Southern Indiana region from the late 1800s. Also included is a collection on communal societies, information on historic and contemporary intentional communities. Another specialized library collection is government documents; USI is a partial federal government depository library. The documents cover a variety of subjects from career information to the environment and consumer guidance.

Other collections include teaching materials, children’s books, and textbooks, used by education majors but equally useful to anyone needing basic information on many subjects. There are also collections of music CDs, spoken word, VHS tapes and DVDs, which may be checked out by USI students and staff. Until the move into the new building these are housed in the Learning Resources Center on the lower level; in the new building the audio-visual materials will be on the entry level while the children’s books and textbooks will be on the 4th floor.

Many things will be arranged differently in the new building, but all collections should be easier to identify and use because of more attractive and spacious arrangements. Staff will continue to be available at the Reference and Circulation counters to provide assistance to library users.

Office of News and Information Services
The News and Information Services Office prepares and distributes official news releases pertaining to the University and works with news media representatives to generate news coverage for USI, its faculty and students, and higher education in general. This office provides editorial and creative development assistance to offices and offers project guidance and coordination to ensure publications are completed according to grammar and composition rules and the University’s style and standards. The office publishes University Notes, USI Magazine, Speakers Bureau directory, and maintains a media experts listing of faculty and administrative staff. A photojournalist in the office takes photographs and keeps photo records of campus events and personalities for campus publications, the USI Web site, and promotion efforts.

Office of Printing Services
Printing Services houses a full service shop coordinating the production of publications from initial idea to the last staple. Booklets, stationery, brochures, business cards, and invitations are examples of items produced by Printing Services for the University community. All publications, whether prepared in house or outsourced, must be reviewed by the director for quality, content, logo/wordmark usage, and postal regulations. Any off-campus printing or copying must have prior authorization from the director. For assistance with design and printing, contact the Printing Services office at extension 1954 or e-mail the director. Located in the Publishing Services Center on Clarke Lane near Reflection Lake, office hours are from 8 a.m. to 4:30 p.m.

Graphic Design – Publications are designed by a professionally-trained in-house staff using current state-of-the-art design technology and software. Pieces are produced with purpose, quality, and economy in mind. Adherence to strict postal requirements are designed into mail pieces. Paper, ink color, publication size, and other details are established by the director and customer prior to design or printing.

Printing and Bindery – Printing Services is USI’s inplant reprographic facility offering a full range of services. State-of-the-art digital equipment is used for the prepress print production work. The press area features one color to multi color offset printing capability. A variety of bindery equipment, such as a guillotine-style cutter, folder, stitcher, drill, and more, complete the process prior to delivery of projects to University customers.

Turnaround Time – Turnaround time for a printing project should be discussed with the director in the earliest part of the planning stage. Allowing realistic production time early prevents delays in final product delivery. In general, four to eight weeks will cover most printing projects, however, each project is unique and schedules will vary based on specific requirements. Printing Services will make every effort to accommodate emergency situations.
Copy Center – The University maintains a centralized copier program managed by Printing Services. Large volume (more than 10 copies of each original), specialty photocopying, and high-quality color copying are handled through the USI Copy Center in the Publishing Services Center. University offices can access Copy Center’s high-speed copier as a network printer device from each workstation, improving turnaround time and quality. Simple step-by-step instructions can be obtained from Copy Center. Hours are 8 a.m. to 5 p.m. Monday through Thursday and 8 a.m. to 4:30 p.m. on Friday during spring and fall semesters, and from 8 a.m. to 6 p.m. the first two weeks of the semester, midterm week, and finals week. In summer sessions and during breaks, hours are 8 a.m. to 4:30 p.m.

Digital satellite copiers, both standard and color, are conveniently located throughout campus for faculty and staff and are activated by assigned confidential codes. These copiers are networked allowing approved department users to also access them from their desktops, benefiting from digital quality and a new level of convenience and confidentiality. Designated student copiers are activated by coin or Eagle Access cards. With the permission of departments, students may also access departmental copiers using the wide stripe on their Eagle Access cards (which deducts from their Flex account). All photocopier purchase and installation is coordinated by Printing Services.

Variable Data Printing technology is available in the Copy Center. The Xerox DocuTech 6115 digital high-speed copier features specialized software for variable data printing to assist departments in producing custom letters or other forms of personalized communication from a digital database.

Questions about photocopying and variable data printing should be directed to the Copy Center supervisor at extension 1889.

General guidelines can be found on the back of the Printing Services requisition form, and on the Web site.

Security & Parking
The Safety & Security Department maintains 24-hour, seven-day-a-week coverage of the campus. Security duties include traffic control, security of physical assets, and safety of all employees, students, and guests of the campus. In addition, all security staff are trained as first responders, as well as in other emergency procedures. Emergency telephones, which ring directly to Security, are located throughout the campus. Security officers operate a free escort service to O’Daniel and McDonald Apartments and to the parking lots 24 hours a day. The campus number to call in case of emergency is 7777.

The University of Southern Indiana strives to create and maintain a safe and secure environment on all properties it owns and sites it leases or manages for official activities. The University believes that members of the University community can assist in keeping themselves from harm by using safety precautions and by knowing as much as possible about the frequency and type of security breaches which occur on University property. To that end, the University Safety and Security Department records and annually publishes statistics on crime and security matters, and the University provides timely warnings of crimes or incidents, which may be considered a threat to the University community.

A copy of the annual statistical report can be requested from the Safety and Security Office at 812/464-1845.

Parking Procedures
Non-restricted parking in USI’s campus lots is available to commuters and visitors on a first-come, first-served basis. Campus lots have few restrictions, and those areas with restrictions have them posted.

Campus Apartments, O’Daniel South, O’Daniel North, McDonald West, McDonald East, have restricted parking. Parking spaces in campus apartments are reserved for residents of each complex. Apartment residents are not permitted to park in campus lots between 6 a.m. and 3 p.m. on class days. Visitors to campus apartments must park in visitor areas only.

Office of Special Events and Scheduling Services
The office of Special Events plans and implements major events on campus that are fundamental to the image of the University. These events emphasize University growth, recognition and appreciation of the accomplishments of students, prospective students, faculty, employees, youth programming, functions recognizing special friends and donors of the University, student academic honors convocations, legislative support, USI Foundation meetings, Board of Trustees meetings, and commencement exercises. Special Events markets USI as a summer conference site to student and professional groups seeking meeting, recreational, sleeping, and dining facilities for multi-day conferences.
The office of **Special Events** encompasses the offices of Scheduling Services, Conference and Meeting Planning, and facility management responsibility for the University Center.

The office of **Scheduling Services** interfaces with student, faculty, administrative staff, and off-campus groups' meeting/event sponsors to reserve space on campus for their events. This office reserves the most appropriate space for each event based on location, anticipated attendance, and time of year and day. This office establishes reservations for and maintains the University's Master Calendar events to ensure continuity of traditional annual events on campus. This office maintains a record of all scheduled University-related events.

The office of **Conference and Meeting Planning** plans and serves the programs in the University Center and on campus that emphasize student development, education, social and economic growth, and civil and cultural awareness for traditional college-age students, summer conference programs, and off-campus events sponsored by community groups. Additionally, Conference and Meeting Planning supports outreach programs of short duration presented by the University for non-credit college students in Southwestern Indiana. The objective of this office is to provide quality planning assistance plus room set-up accommodations, audio-visual equipment, and a high level of on-site support to these events.

The majority of events are held in the University Center located in the heart of the USI campus. The UC plays a vital role in serving the activity, meeting, and dining needs of students, faculty, staff, alumni, community, and the tri-state area. In the management capacity of the University Center, the department's goal is to consistently maintain the integrity and quality of the facility and furnishings to provide a convenient and pleasant environment for all activities.

The office of Special Events and Scheduling Services maintains a calendar of major events scheduled in the Evansville community. When contemplating an event, sponsors may call this office to avoid scheduling conflicts.

For additional information, call 812/464-1930.

**Office of Veterans' Affairs**

This office monitors the frequent changes that are made to the laws governing veterans' educational assistance programs. Staff work with prospective and enrolled students who are veterans, servicepersons, dependents, and survivors of veterans and other eligible persons to keep them informed of the changes, as well as the eligibility and entitlement provisions of the various programs available. There are 11 educational assistance programs and the basic eligibility criteria usually vary from one to another. The office also serves as the contact office for "Operation: Expanded Horizons," a statewide effort to recruit recently discharged military servicepersons to enter higher education.

This is the certifying office for the enrollment of persons training under the veterans' programs. All veterans, servicepersons, dependents and survivors of veterans, and anyone else who may be eligible for veterans' assistance should contact this office. Students receiving Veterans Administration educational benefits must make contact with this office each semester to begin or continue their certification of enrollment process to the Veterans Administration Regional Office.

This office also evaluates, for possible University credit, military courses, workshops, and training completed while in service. Those wishing to have their military experiences evaluated for possible university credit must bring an original/certified copy of their DD214 to the office.

Students wishing to have their military training, workshops, and experience evaluated for possible University credit must bring an original/certified copy of their DD214 to this office. This also is the University contact office for “Operation: Expanded Horizons,” a statewide effort to recruit recently discharged military service members to higher education.

**Administration and Faculty**

A list of current administration officers, staff, and faculty is available online at www.usi.edu/advance/bulletin/adminfaculty.asp
Preface

Higher education plays a vital role in developing future leaders by providing students with educational opportunities both in and outside the classroom. As an institution of higher education, the University of Southern Indiana is a learning community dedicated to excellence. All USI students are presented with rights, privileges, and opportunities by choosing to become a part of the USI community.

In order for USI community members to live and learn in harmony, they must assume responsibility for their actions and respect the rights of others. Students, faculty, staff, and alumni make a commitment to furthering the mission of the University of Southern Indiana.

The University of Southern Indiana expects and requires all of its students to develop, adhere to, and maintain high standards of scholarship and conduct. The Student Rights and Responsibilities: A Code of Student Behavior is the guiding document for USI community standards, and outlines all rights and responsibilities afforded to USI students.

1.0 Purpose and Application

The University of Southern Indiana is charged by the State of Indiana with the responsibility for the development and administration of institutional policies and rules governing the role of students and their behavior. Student Rights and Responsibilities: A Code of Student Behavior contains statements of those University regulations and policies relevant to the academic and co-curricular experience.

The University community is not a sanctuary from the law and all students of the University are subject to federal, state, and local law. This document forms the basis for student behavioral expectations in the USI community and the greater community at large. The standards of conduct apply to students while on University-owned or controlled property, when attending University-sponsored events off campus, or when such conduct involves the security or integrity of the University community.

In addition, the University is a forum for the free expression of ideas. The development and enforcement of these standards of behavior is designed to foster students’ personal, social, and ethical development. These standards serve to promote the protection of the rights, responsibilities, and health and safety of the USI community, so that its members may pursue educational goals.

1.1 Student Rights and Responsibilities

The following statement of students’ rights and responsibilities is intended to reflect the base upon which the Student Rights and Responsibilities: A Code of Student Behavior document is built.

Students Rights

- A student has the right to participate in a free exchange of ideas, and there shall be no University policy that in any way abridges the rights of freedom of speech, expression, petition, and peaceful assembly in accordance with applicable federal, state, and local laws.
- Each student has the right to be free from discrimination, including harassment, on the basis of race, color, national or ethnic origin, religion, sex, disability, age, sexual orientation, or veteran status in accordance with applicable federal, state, and local laws.
- A student has the right to personal privacy except as otherwise provided by law and University policy, and this will be observed by students and University authorities alike.
- Each student subject to disciplinary action arising from alleged violations of the Student Rights and Responsibilities: A Code of Student Behavior will be assured procedural due process. In judicial proceedings, the student will be guaranteed due process, and the burden of proof will rest with those bringing the charges.

Students Responsibilities

- A student has the responsibility to be fully acquainted with the published Student Rights and Responsibilities: A Code of Student Behavior in its entirety and to comply with the policies as well as all federal, state, and local laws.
- A student has the responsibility to recognize that student actions reflect upon the individuals involved and upon the entire University community.
- A student has the responsibility to recognize the University’s obligation to provide an environment conducive to learning.

Students Relation to University Community

The University of Southern Indiana, as an institution of higher education, and any division or agency which exercises direct or delegated authority for the institution, has rights and responsibilities of its own, including:

- To provide opportunities for students of the University to present and debate public issues.
• To require persons on University-owned or controlled property to present appropriate identification.
• To establish reasonable standards of conduct for all persons on the campus in order to safeguard the educational process and to provide for the safety and welfare of its students, visitors, and University property.
• To restrict students of the University from using its name, its finances, or its physical and operating facilities for commercial activities, except in cases involving registered student and faculty groups as provided for in policies governing use of the campus facilities and fund-raising activities.
• To provide, for registered student groups of the University, the use of campus facilities under the policies of the campus

Students Relation to External Community
Students attending the University take on responsibilities not only of campus citizenship but also community citizenship. When community standards are not respected and upheld by students, conflicts between students and other community members may result. Such conflicts are destructive to relationships in the community and detrimental to the image of the University, as well as to the reputation of the student body.

1.2 Changes to the Code
The dean of students is charged with maintaining and updating of the Student Rights and Responsibilities: A Code of Student Behavior which is updated annually and printed biannually in conjunction with the USI Bulletin.
Student Rights and Responsibilities: A Code of Student Behavior also is published on the University of Southern Indiana Web site.

Any changes to the Student Rights and Responsibilities: A Code of Student Behavior between publication dates will be disseminated to students in the following manner:
• An official announcement will be posted to the following locations:
  • University of Southern Indiana Web site (www.usi.edu)
  • USI Dean of Student’s Web site (www.usi.edu/stl)
  • MyUSI (www.usieagles.org)
  • The Shield, the student newspaper of USI
• All currently admitted students will be e-mailed an update notice to their official University e-mail address directing them to the Web site for changes or deletions to the Student Rights and Responsibilities: A Code of Student Behavior.

2.0 Community Standards
Students are expected to do one or more of the following when in the presence of a potential code violation: a) personally confront the violation; b) bring the violation to the awareness of a staff member; c) leave the scene of the violation, if not responsible for the space in which the violation is occurring.

2.1 Alcohol and/or Drug Use
2.1.1 Alcohol on USI Property
The manufacture, sale, transfer, purchase, transportation, possession, or consumption of an alcoholic beverage anywhere on University-owned or controlled property (including University-owned or leased vehicles, regardless of location), is prohibited by the University; exceptions are granted by the president or his/her designee.

2.1.2 Alcohol at Student Organization Events
Recognized USI student organizations planning off-campus events where alcohol may be served must adhere to the guidelines established by the University. See appendix C.

2.1.3 Being Under the Influence of Alcohol
Being under the influence of alcohol is a violation of this code when a person is on University-owned or controlled property, or at a USI-sponsored or supervised function, and: 1) endangers, or may endanger, the safety of others, property, or themselves; or 2) causes a disturbance.

2.1.4 Driving Under the Influence of Alcohol or Other Drugs
Driving while under the influence of alcohol or illicit drugs on University-owned or controlled property or in association with any other USI-sponsored or supervised organizations or activities is prohibited.

2.1.5 Drug Related Violations
Being under the influence, possessing, manufacturing, exchanging, distributing, purchasing, using, or selling illegal drugs or any controlled substance, including marijuana, abuse of over-the-counter drugs, inhalants, etc., except pursuant to a physician’s/dentist’s prescription, or possessing paraphernalia for drug use on University-owned or controlled property or at USI sponsored or supervised events is prohibited.
2.2 Attempts to Commit and/or Complicity in Prohibited Acts
2.2.1 Attempts
Attempts to commit acts prohibited by the standards of this Code of Student Behavior may be sanctioned to the same extent as if one had committed the prohibited acts.

2.2.2 Complicity in Prohibited Acts
Knowingly encouraging or assisting others to commit such acts that are prohibited by this code may be sanctioned to the same extent as if one had committed the prohibited act.

2.3 Violations of Law
The University reserves the right to address any alleged violations of federal, state, and local law occurring on or off campus, including other University campuses.

2.4 Property Violations
2.4.1 Property violations include but are not limited to criminal violations such as burglary, robbery, theft, trespassing, and vandalism.

2.4.2 Theft or removal of University property and/or furnishings including but not limited to furniture, artwork, plants, electronics, window screens, and signs from their designated locations is prohibited.

2.5 Aggressive or Abusive Behavior/Physical or Verbal
2.5.1 Physical Abuse
Physical abuse is prohibited and includes but is not limited to unauthorized touching, use of physical force, violence, or intoxicants or other substances to restrict the freedom of action or movement of another person or to endanger the health or safety of another person.

2.5.2 Threatening Behavior
Behavior that involves an expressed or implied threat, the use of words inherently likely to provide an immediate violent reaction when directed toward a specific individual, or any behavior that has the purpose or reasonably foreseeable effect of creating a hostile environment by, but not limited to, interfering with another individual’s personal safety, safety of property, academic efforts, employment, or participation in University-sponsored activities and causes that person to have a reasonable apprehension that such harm is about to occur, is prohibited.

2.5.3 Intimidation
Intimidating or threatening any person(s) with bodily harm while on University-owned or controlled property, or in connection with sponsored or supervised University activity on or off campus is prohibited.

2.6 Disorderly Conduct/Indecent Behavior
Disorderly, lewd, indecent, or obscene conduct is prohibited, including the expression of such on University-owned or controlled property or at University-sponsored or supervised events, on or off campus.

2.6.1 The essential element to disorderly conduct is intentionally causing or recklessly creating a risk of public inconvenience, annoyance, or alarm without proper authority, such as by fighting or engaging in violent behavior, making unreasonable noise, obstructing vehicular or pedestrian traffic, disturbing a lawful assembly, streaking, etc.

2.6.2 Lewd, indecent, or obscene behavior is behavior that flagrantly flaunts community standards with respect to sexuality.

2.7 Endangerment of Individuals or the Safety of Individuals
2.7.1 Initiating or circulating a report or warning concerning an impending bombing, fire, or other emergency or catastrophe knowing that the report is false; making a false report concerning a fire or that a bomb or other explosive has been placed in any University building or elsewhere on University-owned or controlled property; or knowingly transmitting such a false report to an official or an official agency is prohibited.

2.7.2 Willful failure to comply with orders issued by any University personnel under emergency procedures or directives during a tornado, fire, fire drill, bomb threat, earthquake, or other natural disaster is prohibited.

2.7.3 Tampering with any fire protection sign or device or any other emergency equipment including but not limited to fire extinguishers, fire hoses, smoke/heat detectors, and other alarm systems, for reasons other than an actual emergency, except when done with the reasonable belief that such an emergency exists, is prohibited.

2.7.4 Damaging or attempting to damage property or structures on University-owned or controlled property by fire or any other incendiary device is prohibited.

2.8 Stalking
Willfully, maliciously, and repeatedly following or harassing another person in a manner that would cause a reasonable person to feel frightened, intimidated, threatened, harassed, or molested is prohibited.
2.9 Sexual Harassment
As part of its commitment to equal opportunity, the University of Southern Indiana prohibits sexual harassment among members of the educational community which include employees and students, including student-to-student and other peer sexual harassment.

This policy is in compliance with federal regulations implementing Title VII of the Civil Rights Act of 1964 and Title IX of the Education Amendments of 1972. Sexual harassment is defined as: "Unwelcome or unwanted advances, requests for sexual favors, or other verbal or physical conduct of a sexual nature on or off campus when:

- submission to or toleration of such conduct is made explicitly or implicitly a term or condition of an individual's employment, academic standing; or
- submission to or rejection of such conduct is used as a basis for an employment or academic decision affecting such individual; or
- such conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance, or creating an intimidating, hostile, or offensive environment for work or learning.

See Sexual Harassment Policy, Appendix D.

2.10 Sexual Imposition
Sexual imposition is much broader than the traditional concept of rape. Sexual imposition is prohibited and involves sexual acts or sexual contacts with others that can involve compelling a victim to submit to sexual acts or contacts by force or threat of force, use of intoxicants to impair substantially the victim's power to give consent, engaging in such acts when there is reasonable cause to believe the other person suffers from a mental state which renders him or her incapable of understanding the nature of the contact, or when the victim is a minor.

The abuse of alcohol or other substances does not relieve individuals of their responsibilities to themselves or others.

2.11 Weapons/Explosives/Hazardous Materials
The transfer, sale, use of, possession of weapons, including but not limited to: firearms, ammunition, bombs, explosives, clubs, dirks, martial arts weapons, sling shots, bows and arrows, sabers, swords, knives with blades in excess of three (3) inches except kitchen knives used in the preparation and/or serving of food, war souvenirs, incendiary devices, fireworks, paintball guns, pellet guns, BB guns, stun weapons, tasers, or look-alikes, dangerous chemicals or fuels, or other destructive devices or substances, are not allowed on University-owned or controlled property unless permission for possession and/or use has been authorized by an appropriate University official. Duly-licensed officers of the law are exempt from this policy. For authorization, contact the Department of Security.

2.12 Animals
Animals, defined as domesticated pets, may be on campus under the following conditions:

- The animal is part of a classroom demonstration—the animal should be brought on campus immediately before the class and removed from campus immediately after class. The animal must be on a leash or carrying case when in transit.
- The animal is a service animal. Service animal means an animal that a person who is impaired by: (1) blindness or any other visual impairment; (2) deafness or any other aural impairment; (3) a physical disability; or (4) a medical condition; relies on for navigation, assistance in performing daily activities, or alert signals regarding the onset of the person's medical condition. The University reserves the right to ask for verification of training that has been provided, as well as the nature of the services being performed. The University may require that the animal undergo additional training, or be removed from the property, if it does not meet the service animal description, or if it has become disruptive.
- With permission of the president or his/her designee.
- Animals may be “exercised” on campus as long as they are on a leash. Any animal brought on University-owned or controlled property must be immunized against rabies and meet local immunization requirements.
- Animals other than tropical fish are prohibited in student residences. Fish are allowed in the residence halls and apartments as long as they are well maintained and aquariums hold no more than 20 gallons of water.

2.13 Computer Related Inappropriate Behavior
- Unauthorized use, sharing, lending, or borrowing of an account is prohibited.
- Using the computer facilities for purposes other than those for which the account was issued is prohibited.
- Storing game programs on allocated disk space or
private tape, except when authorized in writing by the Computer Center director or the director’s designee, is prohibited.

- Using the University’s computer systems for commercial purposes without written authorization of the Computer Center director or the director’s designee is prohibited.
- Copying, altering, or destroying the files or output of another individual without the express permission of that individual is prohibited.
- Contact the Computer Center for additional Data Communications and Computer Use policies and procedural guidelines.

The entire policy can be viewed at www.usi.edu/computer/policy.asp

2.14 Telephone and Related Equipment Abuse

- Intentionally making telephone call(s) to or from the University for the purpose of abusing, threatening, annoying, or harassing another person is prohibited.
- Charging, or causing to be charged, any long distance or other toll telephone calls to University telephone accounts without proper authorization is prohibited.
- Damage or destruction to the University’s telephone system and any of its telephone instruments or equipment is prohibited.
- Using or abusing telephone equipment, lines, or accounts belonging to the University or to University employees, students, and/or faculty without authorization, or for purposes other than those originally granted authorization, is prohibited.

2.15 Identification/Failure to Comply

2.15.1 Failure to produce either a University identification card or a driver’s license upon request by any University official including but not limited to USI security officers, Residence Life area coordinators and resident assistants, and program sponsors in the performance of their duties, is prohibited.

2.15.2 Failure to comply with the instructions or directions of University officials in the performance of their duties is prohibited. Such acts may include but are not limited to intentionally, knowingly, or recklessly obstructing or delaying any University proceedings, failing to cooperate with an investigation, fleeing a University official, and/or failing to comply with assigned University behavior sanctions.

2.15.3 Bribery The offering, giving, receiving, or soliciting of anything of value to influence the official decision or action of a University employee or official, or a person in a position of trust or influence, is prohibited.

2.16 Deception/Falsification/Misrepresentation

2.16.1 Dishonest behavior is prohibited. Dishonest behavior includes but is not limited to falsely accusing another individual of inappropriate behavior; possessing, manufacturing, using, or furnishing false identification; and forgery, alteration, misuse, or unauthorized destruction of any University document, record, or identification. Such documents include but are not limited to student identification cards, parking permits, transcripts, charge slips, meal cards, receipts, grade reports, etc.

2.16.2 Representing a University entity falsely and/or committing or using the resources of any University entity without proper authorization is prohibited.

2.16.3 Making false accusations of inappropriate behavior under this code against another individual; providing false information or falsified evidence with the intent of harming another individual; attempting to intimidate witnesses and/or altering or destroying evidence necessary to conflict resolution pending with the University is prohibited.

2.16.4 Failing to keep the Office of the Registrar (Orr Center) notified of current local, permanent, and e-mail addresses, or providing a false or fictitious address(es) for the purpose of evading University responsibilities, is prohibited.

2.17 Interference with University Judicial Process

Interfering with the discipline procedures or outcomes including but not limited to falsification, distortion, or misrepresentation of information before a hearing officer or hearing panel; knowingly initiating a complaint without cause; harassment and/or intimidation of any member of a hearing panel, witness(es), or University personnel before, during, or after a proceeding; failure to comply with the sanction(s) imposed by either a hearing officer or hearing board, are prohibited.

2.18 Gambling

Gambling for money or other things of value on University-owned or controlled property on or at University-sponsored activities is prohibited, except as permitted by federal, state, and local law.
2.19 Bad Debts/Financial Responsibility

2.19.1 Payment All students must pay in full any debts to USI, including but not limited to tuition/fees, room and board charges, long distance telephone bills, and library fines. Any failure to meet these obligations may result in a denial of registration or graduation privileges, denial of occupancy and/or continued occupancy of any University housing accommodation, or a refusal to forward an official transcript, unless the student has filed for bankruptcy or the debt has been discharged under federal bankruptcy laws.

2.19.2 Financial Aid Misuse/Abuse Misusing financial aid through fraud or abuse is prohibited.

2.19.3 Student Organization/Individual Debt USI bears no responsibility for the financial obligations of individual students or student organizations. Any debts incurred, either on or off campus by students or student groups, will be the responsibility of the student or the organization and its leadership. In the event an organization dissolves and is no longer in existence, the individuals holding leadership positions at the time the debt was incurred will maintain responsibility for settling outstanding debts.

2.20 Smoking
Smoking is prohibited inside all facilities at the University of Southern Indiana. This includes inside University housing facilities and University-owned or leased vehicles. Smoking is permitted in open-air facilities, unless otherwise noted.

2.21 Classroom Disruption
Behavior a reasonable person would view as substantially or repeatedly interfering with the instructor’s ability to teach the class or the ability of other students to benefit from the instructional program is prohibited.

2.22 Misuse of Propriety Information
Unauthorized use of information or misuse of information, in whatever form, proprietary to the University or a University official, employee, or student is prohibited. “Proprietary” means property in which the University or its employee(s) and/or student(s) have a legal interest. This includes but is not limited to copyrightable materials, patents, trademarks, and service marks. See University of Southern Indiana Intellectual Property policy in full at www.usi.edu/HR/handbook/HBR8.03/HBSectionF8.03.doc.

2.23 Traffic and Parking Regulations
The University Board of Trustees approves University traffic/parking regulations and fines. The complete regulations are published in a separate brochure entitled “University of Southern Indiana Motor Vehicle and Parking Regulations” which may be obtained from the Department of Security or via the USI Web site at www.usi.edu. Some of those regulations are listed here: Non-restricted parking in USI’s campus lots is available to most commuters and visitors on a first-come, first-served basis. Campus lots have few restrictions, and those with restrictions have them posted. Restrictions for University housing residents and their guests are listed in the motor vehicle brochure, and can be obtained at the Residence Life Center or Security Office.

2.24 Sales/Solicitation
Unauthorized sales, canvassing, peddling, soliciting, distribution, or posting of any written or printed material by University individuals or organizations is not permitted on University-owned or controlled property without the written permission of the president or his/her designee. This includes the use of electronic mail and Web page solicitations. Students and/or student groups seeking authorization should contact the Dean of Students Office.

2.25 Student Organizations
Behavior that conflicts with regulations established by the University for student organizations is prohibited, including but not limited to misappropriation of funds, misuse of property, improper registration or misrepresentation of an organization or group, abuse of student election regulations, or failure to abide by University policies, procedures, and regulations. The complete policy is located at www.usi.edu/sdv/index.asp or at the Office of Student Development Programs. See Appendix C.

2.26 Unauthorized Use
Unauthorized entry into or use of any University building, facility, vehicle, equipment room, or area is prohibited. This includes unauthorized possession or use of University keys, computers, lock combinations, or pass codes.

2.27 University Housing Safety and Security Efforts
Due to the nature of the University housing environment, safety and security standards have been established. All students will be held accountable for their behavior in University housing. Non-University housing students will be referred to a University hearing officer for action. All students and their guests need to cooperate with efforts to establish a secure campus by complying with policies and cooperating with residence hall staff.
The complete University housing policies can be obtained at the Residence Life Department, or via the Web at www.usi.edu/res. See Appendix C.

3.0 Academic Policies

3.1 Definitions of Academic Dishonesty

The benchmarks of any great University are high academic standards for both faculty and students. For this reason, truth and honesty are necessary to a University community. The University expects both students and faculty to adhere to these principles and to foster them daily. Put simply, this expectation requires each student to do his or her academic work without recourse to unauthorized means of any kind. Both students and faculty are expected to report violations of academic dishonesty. Faculty should explain the special hazards regarding academic honesty in their discipline. Faculty also should plan and supervise academic work carefully so honest effort will be encouraged. All of the prohibitions mentioned below also apply to the use of electronic, photographic, Internet-based, and other media for intellectual and artistic expression.

A. Cheating

A student must not intentionally use or attempt to use unauthorized materials, information, or study aids in any academic exercise.

1. A student must not use external assistance during any examination unless the instructor has specifically authorized such assistance. This prohibition includes but is not limited to the use of tutors, books, calculators, notes, formula lists, cues on a computer, photographs, and symbolic representations. Prohibition also includes transmission of information on any recording or communication device, such as cellular telephone, Internet appliance, digital camera, audio recorder, or personal digital assistant.

2. A student must not copy from another student’s work, including but not limited to a test paper, project, product, performance, or electronic document or file.

3. A student must not take a test for someone else or permit someone else to take a test for him or her. A student must not knowingly allow another student to copy one’s work in a test.

4. A student must not submit during the same semester substantial portions of the same academic work for credit or honors more than once without permission from all of the instructors who may be involved. In the event a student seeks to submit in a current course a substantial portion of the same academic work submitted in a previous course, only the current instructor need approve.

5. A student must not allow others to conduct research or to prepare any work for him or her without advance authorization from the instructor. This prohibition includes but is not limited to submitting another’s work as one’s own, or using commercial term-paper companies, or files of past papers maintained in a residence hall or apartment.

6. Several people must not collaborate on a single project and turn in multiple copies, all represented implicitly or explicitly as individual work.

B. Fabrication

A student must not intentionally falsify or invent any information or citation in an academic exercise.

C. Plagiarism

A student must not intentionally adopt or reproduce ideas, words, or statements of another person without acknowledgment. A student must give due credit to the originality of others and properly reference the following:

1. Quoting another person’s actual words;
2. Using another person’s ideas, opinion, or theory;
3. Borrowing facts, statistics, or other illustrative material, unless the information is common knowledge.

D. Interference

A student must not steal, change, destroy, or impede another student’s work. Impeding another student’s work includes but is not limited to theft, defacement, or mutilation of common resources so as to deprive others of the information they contain.

E. Facilitating Academic Dishonesty

A student must not intentionally or knowingly help or attempt to help another to commit an act of academic dishonesty.

3.2 Penalties and Procedures Related to Academic Misconduct

An act of academic misconduct, even a first offense, places the student in jeopardy of the most severe form of sanction—expulsion from the University.
A. A faculty member who has observed an act of dishonesty or has other evidence that a student has committed an act prohibited in Section 3.01 shall initiate the process of determining whether the student is in violation of the policy. No penalty shall be imposed until the student has been informed of the charge, has been informed of the evidence on which it is based, and has been given an opportunity to respond.

B. If the faculty member finds by a preponderance of the evidence the student to be in violation of the academic honesty policy, he or she may assess a penalty affecting the specific project, paper, or test in which the act is found to have occurred. The student may appeal this penalty to the department chair.

1. If the faculty member wishes to impose a more severe academic penalty (for example, to give a course grade of "F"), he or she will review the incident with the department chair prior to the imposition of the penalty. If the chair concurs with the penalty, the student may appeal to the dean of the school in which the course is taught.

2. In the event the department chair is the instructor of the course, he or she will review the incident with the dean prior to the imposition of the penalty. If the dean concurs with the penalty, the student may appeal to the vice president of Academic Affairs.

3. In the event the dean is the instructor of the course, he or she will review the incident with the vice president of Academic Affairs (VPAA) prior to the imposition of the penalty. If the VPAA concurs with the penalty, the student may appeal to the VPAA’s designee.

C. In all cases where a penalty has been imposed, the faculty member will file the Academic Dishonesty Report Form with the department chair who will forward the report to the dean with a copy to the Office of the Dean of Students. If the student is not enrolled in the school or institution in which the course is offered, the dean of that school or institution will provide a copy of the report to the dean of the school in which the student is enrolled or to the institution of record.

D. If the department chair and/or dean of the school or institution in which the student is enrolled believe that further action is warranted, additional penalties may be imposed. The department chair may remove the student from the academic major, following review and approval by the dean; the student may appeal this penalty to the vice president of Academic Affairs. The dean may remove the student from the academic school, following review and approval by the vice president of Academic Affairs; the student may appeal this penalty to the Student Academic Grievance Committee.

E. Any appeal by a student of a decision herein must be made within 14 calendar days of notification of the decision.

3.3 Degree Revocation/Delayed Degree Conferral
A student’s degree may be revoked or the date of conferral may be delayed. In cases where the confirmation of the degree is delayed, the deciding body may allow the student to participate in commencement exercises.

Definition
It is the policy of the University of Southern Indiana that degrees may be delayed or revoked when:

- The time period of the disciplinary sanction assigned extends beyond the date of graduation.
- Evidence is presented which verifies that a degree was erroneously conferred when all requirements had not been satisfied at the time the degree was granted.
- Evidence is presented which verifies that a degree had been erroneously conferred as a result of an act of academic dishonesty.

4.0 Judicial Process

4.1 Purpose
The Student Rights and Responsibilities: A Code of Student Behavior has established complaint resolution procedures in order to better serve students, faculty, and staff. The purposes of the complaint resolution procedures include:

- To provide for the education and personal growth of the student;
- To provide for fair inquiries concerning alleged violations of the Student Rights and Responsibilities: A Code of Student Behavior;
- To determine through fair procedures whether or not any individual student has actually violated a regulation in the Student Rights and Responsibilities: A Code of Student Behavior;
• To allow for consideration of extenuating or mitigating factors where a violation has been found to exist; and
• To determine a conflict resolution that will be appropriate and will also help the student involved make a constructive response toward self-discipline.

The focus of the complaint resolution procedures shall be to determine whether a student is responsible or not responsible for the violations of which the student is accused.

4.2 Student Rights in the Complaint Resolution Process

4.2.1 Violation of Policy
A student is considered to have violated the Student Rights and Responsibilities: A Code of Student Behavior when the student:
1. Admits to the violation; or
2. Is found in violation of one or more provisions of the Student Rights and Responsibilities: A Code of Student Behavior.

4.2.2 Burden of Proof
The burden of proof will rest upon the person or entity bringing the complaint (complainant).

4.2.3 Judicial Process
Students found violating any University policy, including student organization and Residence Life policies, will be subject to the University Judicial Process. See Appendix B for University housing policies and Appendix C for student organizations and activities policies.

4.2.4 Presentation of Information Relevant to the Complaint Resolution Process
Charged students and complainants will be given every reasonable opportunity to present their information, including questions and presentation of additional testimony, during the complaint resolution proceedings. Students have the right against self-incrimination.

4.2.5 Standard of Proof
The standard of proof will be “more likely than not” University policy has been violated.

4.2.6 University Advisor
The student and the complainant each have the right to an advisor. The student's advisor must be a member of the University community—student, faculty, administrator, staff, coach, etc. The role of the advisor is to provide support and to assist in preparing for the hearing. Since the complaint resolution process is not a civil or criminal court hearing, the advisor's role is not that of an attorney representing you. This person may not address the hearing officer or hearing board or ask questions of any witnesses. For assistance in securing an advisor, contact the Office of the Dean of Students.

4.2.7 Witnesses
Witnesses, including the student accused of violating policy, are permitted in all complaint resolution proceedings. Witnesses may present information on behalf of the student or the complainant. It is the responsibility of the student or the complainant to secure their witnesses or witness statements. Witnesses may be questioned by the hearing officer or hearing board members, by the complainant and by the student. Witness(es) will be asked to provide information concerning only the violation(s) being adjudicated. Since the complaint resolution process does not have the authority to subpoena, witness statements may be submitted in place of having witness(es) present during the hearing.

4.2.8 Complaint Resolution Proceeding Environment
All complaint resolution proceedings are closed to the public. Only individuals involved in the situation may be present. Involved individuals may include:
• Hearing officers and/or hearing board members
• Student accused of violating University policy
• Complainant
• Advisor
• Witnesses*

* Witnesses will remain only for the duration of their own testimony.

4.3 Initiation, Investigation, and Disposition of Complaints

4.3.1 Documentation/Reporting Alleged Violations of University Policy
Any alleged violation should be reported as soon as possible following the discovery of the suspected inappropriate behavior. Any potential violations of University policy may be reported in the following manner:
• A report may be filed with USI Department of Security.
• A report may be filed with the USI Department of Residence Life.
• A report may be filed with the USI Dean of Students Office.

Any student, faculty, staff member, or guest of the University of Southern Indiana may officially report an
alleged violation of University policy as outlined in the
Student Rights and Responsibility: A Code of Student
Behavior.

4.3.2 Notification
Generally within ten (10) working days of receipt of the
complaint, the dean of students or his/her designee will
notify charged student. This notification will include:

- The nature of the alleged inappropriate behavior.
- The date, time, and place of the alleged inappropriate behavior.
- The source of the complaint.
- A summary of evidence to be presented.
- The sanction(s) applicable if found in violation of
  the Student Rights and Responsibilities: Code of Student
  Behavior;
- A description of the preservation and the release of
  information from the conduct record; and
- A notice that a decision will be made in the student’s absence if the student chooses not to appear
  at the hearing, and failure to appear will be considered in reaching a decision whether or not the
  behavior code has been violated.

4.4 Student Behavior Resolution Procedures
4.4.1 Judicial Authority
The dean of students is charged with the development
and administration of the University of Southern
Indiana student judicial process. Under the supervision
of the dean of students, the following individuals will be
charged with the execution of judicial proceedings:

- Assistant Director for Judicial Affairs—Residence Life
- Director of Residence Life
- Director of Student Development Programs
- Additional staff members in the University community as deemed appropriate and as trained by the
  dean of students

The aforementioned individuals may conduct meetings
and hearings with students who may have violated any
University policy, including those found in the Student
Rights and Responsibilities: A Code of Student Behavior, USI
University housing community standards (Appendix B),
and USI student organization policies (Appendix C).

University Hearing Board—this board is comprised of
two students in good standing with USI, one University
faculty member, one University administrator, and the
dean of students or his/her designee to serve as the hear-
ing board chair. These individuals are appointed and
trained by the dean of students. When the University
hearing board is convened, the dean of students or
his/her designee will comprise the board as stated above
by members of the University hearing board pool:

- Five students residing in University housing
- Five students who live off campus
- Three faculty members
- Three administrative staff members

4.4.2 University Judicial Process
Most complaints are resolved via the administrative
hearing process. An administrative hearing involves the
student, the administrative hearing officer, and any other
individuals necessary to determine whether the student is
in violation of University policy. Advantages of an
administrative hearing include a more timely resolution
of the conflict and the involvement of fewer individuals.

An administrative hearing may also become necessary for
those times when the full University hearing board is
unable to meet. In such instances where the University
hearing board would normally be convened, the dean of
students or his/her designee will conduct the administra-
tive hearing.

4.4.3 Administrative Hearing Process
Students will meet with one of the individual profession-
also staff members designated to conduct University stu-
dent complaint resolution proceedings. The University
hearing board will not conduct administrative hearings.
Student rights will be reviewed by the hearing officer
with the student.

Charges will be reviewed with the student. At this time,
students can indicate whether they believe they are
responsible for the policy violation(s) or not responsible
for the policy violation(s).

In cases involving potential suspension or expulsion from
the University, the student may request a hearing before
the University hearing board (see 4.4.5).

A student will be given the opportunity to present
his/her version of events to the administrative hearing
officer and respond to any of the materials associated
with the violation.

The administrative hearing officer may ask questions of
the student and any witnesses.

The administrative hearing officer will deliberate over
the information and will make every attempt to reach a decision within five (5) business days from the date of the meeting as to whether or not the student is responsible or not responsible for the violation(s).

The student will be notified of the outcome in writing. Any sanctions associated with the outcome will be included in the written notification.

The appeals process will be outlined and included in the notification of outcome.

4.4.4 Hearing Procedures
A student will meet with the University hearing board. Charges will be reviewed with the student. At this time, the student can confirm whether he/she believe they are responsible for the policy violation(s) or not responsible for the policy violation(s).

A tape recording of the hearing is made for the purpose of retaining a verbatim record of the proceedings. Should there be no appeal filed within the allotted time, the tape will be erased.

The University representative or complainant bringing charges against the student will present his/her testimony to the University hearing board.

The student will be given the opportunity to respond to the charges and to present materials associated with the violation.

The complainant and accused shall have the opportunity to present witnesses/witness statements to the University hearing board.

The complainant and accused may ask questions of the witnesses through the chair of the University hearing board.

The University hearing board members may ask questions of the witnesses, the student, and the University representative or complainant.

The complainant and accused may summarize evidence and testimony through closing statements. The complainant bears the burden of proof and will go first.

The University hearing board will deliberate over the information and reach a decision generally within five (5) business days as to whether or not the student is responsible or not responsible for the violation(s).

Students will be notified of the outcome in writing by the chair person of the board. Any sanctions associated with the outcome will be included in the written notification. Additionally, the appeals process will be outlined and included in this notification.

4.4.5 Conflict of Interest
No member of the hearing board or no judicial officer who has a conflicting interest in a particular case may conduct a judicial hearing for said situation. Hearing board members and judicial officers with conflicting interests must recuse themselves from the proceedings. Either the student or the complainant may challenge a member of the hearing board or a judicial officer in writing with the dean of students. In cases where the dean of students’ involvement is questioned, the challenge would be forwarded to the vice president for Student Affairs.

4.5 Findings
An administrative hearing officer or the University hearing board will reach one of the following findings at the conclusion of the hearing:

- Charges Dropped: If the alleged conflicts prove to be unfounded, no action will be taken against the student. All written materials will be retained for seven years and then destroyed.
- Not in Violation/Not Responsible: The finding of the facts of the case found that it was NOT “more likely than not” that the student was responsible for the violation(s). No action will be taken against the student. All written materials pertaining to that charge will be retained for one year and then destroyed.
- In Violation: The finding of the facts of the case found that it was “more likely than not” that the student was responsible for the violation(s). Sanctions, restrictions, and/or stipulations can be imposed (see 4.6).

4.6 Sanctions, Restrictions, and Stipulations
4.6.1 Sanctions
Sanction(s) is/are a consequence(s) placed upon a student when responsibility for a violation(s) of specified University policy(ies) has been determined. In assigning a sanction(s) for inappropriate student behavior, the presiding entity will consider:

- Facts of the case as presented by the accuser(s) and the accused,
- Type and severity of offense,
- Degree of involvement by accused, extenuating circumstance, and
- Previous incidents of inappropriate behavior committed by the individual(s) accused.
The following is a list of possible sanctions:

- **Warning (Written):** A student may be given a written warning. A written warning is a letter that makes a matter of record any incident in violation of the code. Subsequent code violations will normally result in more severe sanctions.

- **Probation:** Probation is a specified period of review and observation during which the student must demonstrate the ability to comply with University policies, and any other sanctions as outlined above and/or conditions which have been imposed in writing. The specific terms of the probation will be determined on a case-by-case basis. Notification may be given to other University officials as necessary. Probation may be supervised or unsupervised. Further inappropriate behavior may result in additional sanctions to be assigned, including suspension or expulsion.

- **Suspension:** A written notification of the termination of student status and exclusion from further enrollment for a specific period of time not less than one academic semester and not to exceed two academic years.

A student who has been suspended must vacate campus within the time frame established.

The notice will include the conditions for readmission which must be met prior to application for readmission. An interview with the dean of students or his/her designee will be required prior to acceptance of the student's application for readmission.

The student's eligibility for any refund of tuition/fees will be subject to the University's normal withdrawal policy.

The student must leave University residences and may not be on University-owned or controlled property or attend University events.

Suspension is a matter of permanent record. A permanent record indicates that student behavior files may be retained indefinitely.

Emergency Suspension: A student may be temporarily and immediately suspended, pending a hearing, when the student's actions or threats of action indicate a serious threat to themselves or to others, property, or to the normal operation of the University. No hearing will be required before the emergency suspension is imposed; however, a review of the emergency suspension will be held within five working days following the notification. The adjudication process will proceed in a timely manner.

Expulsion: A written notification that the student is permanently ineligible to return to the University. The student must leave University residences and may not be on University owned or controlled property or attend University events. Petitions for re-enrollment will not be accepted. The expulsion will be recorded on the student's transcript as “May Not Register” and is a matter of permanent record.

### 4.6.2 Restrictions and Stipulations

Restrictions and stipulations are concurrent actions which may be imposed by the administrative hearing officer or the University hearing board in addition to a sanction.

Educational Requirements: A provision to complete a specific educational requirement designed to promote the education and development of the student while maintaining the integrity of the academic environment. The provision will be clearly defined. Such educational requirements may include but are not limited to meeting with University staff, completion of an alcohol education program, reflection paper, reports, behavioral agreements, etc.

Community/University Service: A student may be assigned to complete a specified number of hours of community/University service.

Restitution: A student may be required to repair or pay the cost for the repair or replacement of any property damaged by the student. This sanction can be imposed by itself or in addition to other sanctions.

Confiscation: Goods used or possessed in conflict with USI policies, including but not limited to falsified information or identification, will be confiscated and may not be returned to the student.

Restriction of Access/Removal from University Housing: A student or other person(s) may be removed from and/or have access restricted to specified campus facilities, or portions of specified campus facilities, including relocation in, or removal from Residence Life facilities, for a specific period of time.

Loss of privileges: A student may be denied the privilege to:

- Be an active participant in and/or to be in attendance at any or all public events sponsored by USI or by student, and/or
- Represent USI in specified matters, and/or
- Hold office in any or all USI registered organizations, and/or
- Visit with guests during regular Residence Life visitation periods, and/or
- Receive institutional financial aid, and/or
• Participation in extra or co-curricular activities, and/or
• Employment at the University.

Participation in a Specific Program: A student may be required to participate in a specific program(s), such as counseling, public service, and alcohol and/or other drug education program, an educational class, or other program participation as assigned. Failure to participate as directed may result in the imposition of additional sanctions, including suspension or expulsion.

4.6.3 Biased Motivated Offenses
Any offense that is motivated by bias may result in stronger penalties. An offense motivated by bias is any offense wherein the accused intentionally selects the alleged victim because of the alleged victim’s race, creed, color, religion, national origin, gender, age, marital status, sexual orientation, public assistance status, or inclusion in any group protected by federal, state, and local law.

4.7 Appeals
Students found in violation of the Student Rights and Responsibilities: A Code of Student Behavior may appeal. An appeal from any decision, either administrative hearing or University hearing board, must be made in writing within two business days following the date the sanction is assigned and written notice is received by the student. The person to appeal to will be specified in the decision letter.

4.7.1 Format of Appeal
An appeal shall be written and contain the student’s name, the date of the decision or action, and the reason(s) for the appeal. The appeal letter must specify in detail one or more of the following basis for appeal:

• Student’s/student organization’s rights were violated as a result of failure of due process (specify right believed to have been violated),
• Decision is arbitrary (no basis in University policy for decision) or capricious manner (the finding is against the substantial weight of the evidence),
• Significant new evidence is available that could change the outcome, and/or
• The appropriateness of the sanction is in question.

4.7.2 Suspension of Original Sanction Pending Appeal Review
A properly filed notice of appeal suspends the imposition of sanctions until the appeal is decided, unless, in the discretion of the dean of students, the continued presence of the student on the campus poses a serious threat to themselves or to others, property, or to the normal operation of the University.

4.7.3 Individuals Reviewing Appeals
The appeal will be reviewed by the appropriate appellate officer. For administrative hearing appeals, the following system is used:

• For appeals in University housing, the appeals officer will be the assistant director for Judicial Affairs. In such instances where the assistant director for Judicial Affairs is the administrative hearing officer, the director of Residence Life will review the appeal.
• For appeals of any other staff member within the Division of Student Affairs, the dean of students will review the appeal.
• For appeals of dean of student decisions, the associate vice president for Student Affairs will review the appeal.
• For appeals of the University hearing board, the Appeals Commission will review the appeal. The commission is comprised of the following members: SGA chief justice (student), SGA Court of Appeals representative (student), one faculty representative, one administrative staff representative, and the vice president for Student Affairs or his/her designee. The vice president for Student Affairs or his/her designee will serve as the chair of the commission and vote only in case of a tie. The chair of the commission will notify the student the outcome of the appeal.

4.7.4 Appeal Review Process
The appellate officer will review the written letter of appeal from the student and determine if one of the basis for appeal is present. If it is, a hearing of the appeal will be granted. The appellate officer shall review:

• The response from the hearing officer/body.
• Materials presented at the original hearing, and if available the recorded transcript of the hearing.

Appeals shall be decided upon the record of the original proceedings and upon the written briefs submitted by the parties. Decisions of the judicial bodies will be given great deference by the appellate decision maker. After reviewing these materials, the appellate officer may decide to do one of the following:

• Affirm the finding and the sanction imposed.
• If specified errors occurred, remand to the original decision makers to reverse the error, change the procedures, consider new evidence that could not have been discovered by a properly diligent accused before or during the original hearing, substitute new adjudicators, or otherwise repair the grounds that gave rise to the appeal.
• Affirm the finding and reduce, but not eliminate or increase the sanction if found to be grossly disproportionate to the offense.
• Cases may only be dismissed if the finding is held to arbitrary and capricious.

A crucial point in the appeals process is the shifting of the burden of proof. At the initial hearing, the burden of proof lies with the complainant. Once there is a finding of responsibility, the burden shifts to the petitioner. The decision on the appeal will generally be made within ten (10) business days of receipt of the appeal, but may take longer during University recesses or in the event of complex cases.

4.8 Student Behavior Records
In accordance with the Family Educational Rights and Privacy Act (Public Law 93-380), conduct records are considered to be “educational record” and all student behavior records are confidential and may not be disclosed in whole or in part except as provided by law or by the written authorization of the student. This disciplinary record will be separate from the student’s academic record, but will be considered a part of the student’s educational record and will be retained in the Dean of Students office and/or other offices as authorized by the dean of students. Students have the right to inspect and review the materials contained in their conduct record subject to office procedures.

When a student is expelled from the University, the dean of students shall place on the student’s permanent academic record the words “May Not Register.”

4.9 Student Behavior Record Retention and Destruction
4.9.1 Sanctions Less than Suspension or Expulsion
In cases in which students are found in violation and receive a sanction of less than suspension or expulsion, records related to the hearing will be retained for a period of seven (7) years from the date of the incident. Student disciplinary files may be retained indefinitely at the discretion of the dean of students or his/her designee. Disciplinary records may be voided by the dean of students for good cause, upon written petition. Factors considered in review of such petition shall include:
• The present demeanor of the student;
• The conduct of the student subsequent to the violation;
• The nature of the violation and the severity of the damage, injury, or harm resulting from it.

4.9.2 Suspension or Expulsion
In cases where students are found in violation and receive a sanction of suspension or expulsion, students’ disciplinary files will be considered permanent records. A permanent record indicates that student disciplinary files may be retained indefinitely.

4.9.3 Student Organization Records
Student organizations are considered to have a continuing relationship with the University of Southern Indiana so long as the organization maintains its official recognition status with USI. Records of behavioral conflicts involving student organizations will be retained for seven (7) years following the date of the incident with the dean of students, or his/her designee.

APPENDIX A
PARENTAL/GUARDIAN DRUG AND ALCOHOL NOTIFICATION POLICY

A.1 Background
This policy action was made possible as a result of an amendment to the Federal Educational Rights and Privacy Act (FERPA) in 1998. Prior to this amendment, universities were prohibited by law from releasing disciplinary records of students 18 years of age or older without their written consent. The amendment provides the opportunity, should a University choose, to notify the parents of students under the age of 21.

A.2 Goal
It is the goal of the University of Southern Indiana to expand the partnership between parents/guardians and the University in encouraging students to make healthy, responsible decisions about alcohol and other drugs.

A.3 Details of Notification
If a student under the age of 21 is found responsible for a violation of the University code of conduct drug and/or alcohol policy, Residence Life Judicial Affairs or the Dean of Students Office will notify the student’s parents/guardians in writing. This notification will detail the fact that the student has been found responsible for an
alcohol or drug violation. The notification is designed to inform parents/guardians that the violation has occurred and to encourage discussion between parents/guardians and their student regarding acceptable behavior in the USI community setting. Written notice will not include specific details of the incident(s), circumstances surrounding the violation(s), or the specific disposition of the case. Parents/guardians interested in specific information are encouraged to discuss the case with their student. If questions remain, parents/guardians are encouraged to contact the notifying office.

A.4 Direct Contact
When there is reason to believe that a student’s health and well being are in jeopardy or that they have placed other members of the University community at risk, the dean of students or his/her designee may contact the parents/guardians directly.

A.5 Consideration
An integral part of the conduct adjudication process will be the discussion concerning notification of the parents/guardians. Consideration will be given to situations where notification may be detrimental to the student or family.

APPENDIX B
University Housing Policies

Listed below are excerpted policies from the Residence Life contract. All USI students are responsible for adhering to all University housing policies. For a complete listing, see the Department of Residence Life or via the Web at www.usi.edu/res/contract.asp

B.1 Alcohol
On-campus housing is “dry,” therefore, the manufacture, sale, transfer, purchase, transportation, possession, or consumption of an alcoholic beverage on University property is prohibited.

The following actions are prohibited by the University of Southern Indiana:

Excessive Amounts of Alcohol
Kegs or other high-volume containers and/or large quantities of alcohol or alcohol containers are prohibited. Excessive amounts of alcohol include but are not limited to 72 ounces or more/person of beer or wine and 10 ounces or more/person of hard liquor. The judicial officer may use empty containers as well as full containers when determining whether an excessive amount was found.

Parties
Using your apartment (or allowing others to use it) for alcohol parties may result in contract termination.

Contributing to the Delinquency of a Minor
Contributing to the delinquency of a minor is prohibited. Violators may be prosecuted under federal, state, and local laws. Students may face contract termination if found responsible.

Alcohol Advertising
Public advertisements of alcohol products are prohibited. This includes any signs or advertisements that are visible from public areas, alcohol signs, or other inappropriate displays or objects visible from outside your apartment.

Alcohol Containers
Alcohol containers are prohibited. This includes containers kept as decoration and those containers that are put in the garbage or are lying about the apartment.

Student Intoxication
Intoxicated individuals will face disciplinary sanctions under this policy. University staff will determine whether a person is intoxicated based on the behavior of the person at the time of the incident. University staff will not accept responsibility for intoxicated individuals.

Golden Tower Apartments
Any student over the age of 21 may possess and consume alcohol within their apartment. All other alcohol policies apply. When apartments are occupied by students under the age of 21, occupants and guests are prohibited from possessing or consuming alcohol.

B.2 Candles
Candles, lit or unlit, incense, etc. are prohibited in any residence life facility, including Golden Tower Apartments.

B.3 Children
Parents are responsible for the supervision of their children at all times. Parents will be held responsible for any damage or misuse of property caused by their children. Children under the age of 16 cannot be left unattended. Babysitting is prohibited in University housing. Adults will be held responsible for policy violations of children.

B.4 Drugs and Drug Paraphernalia
Possessing, using, selling, or being under the influence of drugs is prohibited and will result in contract termination. This includes but is not limited to marijuana (stems, leaves, buds, residue), hashish, cocaine, narcotic drugs, ecstasy, methamphetamine, and acid. Any prescription drug not found in the original container with the resident name on the bottle also is a violation of the drug policy. Any paraphernalia, which is anything used in drug usage whether residue is present or not, is prohibited.
B.5 Decorations
Decorating your apartment or residence hall suite is encouraged, as this is considered your "home away from home." However, please be considerate to the community and the facility by adhering to the following guidelines for decorations:

B.6 Exterior Decorations
– Exterior alterations or decorations are not permitted in University housing with the exception of holiday decorations for a designated period. Unauthorized items found outside any building, door, or apartment will be confiscated and disposed of according to University policy.

Sidewalk chalk, spirit foam, shoe polish, paints, or other methods used for writing on the exterior of the buildings are prohibited.

Large potted plants or trees are not permitted in front of apartments or residence hall suites. These obstacles inhibit quick access for police, fire, and medical emergency personnel.

Clothing, bathmats, rugs, towels, or other items may not be hung over the balconies in University housing.

Lawn furniture is not to be left unattended in front of apartments or in hallways or stairwells. When not in use, all lawn furniture must be taken inside the apartment or suite.

University furniture is not to be taken outside of the apartment or suite. If University furniture is found outside of the apartment or suite, you will be charged to replace those items.

Bicycles must be stored in designated bicycle racks within University housing. Do not lock your bicycle on the balcony or posts attached to the building. The University is not responsible for stolen or damaged bicycles.

Gas and/or charcoal grills are not permitted in University housing apartments or suites.

B.7 Exterior Decorations–Events
Residence Life realizes the important role holidays and important events play in the lives of our residents as well as the variety and diversity the celebration of different events brings to our community. As such, exterior decorations are encouraged in Residence Life for a variety of different events, provided the following guidelines are adhered to:

Placement of live Christmas trees or other live garland in any part of housing is prohibited, as it is a fire hazard. Artificial trees are permitted inside an apartment or suite.

B.8 Interior Decorations
Interior decorations may not block air vents or cover fire protection equipment or peepholes in University apartments or suites.

Window coverings must be the provided mini-blinds.

Cloth curtains, solar film, or white posterboard also are permitted. No cardboard, aluminum foil, cellophane, or other window coverings are permitted on windows.

Large nails, staples, screws, wall anchors, poster putty, or tape on walls or doors inside or outside the apartment are prohibited.

Removing mounted fixtures from walls or ceiling is prohibited.

Any renovations or changes to the apartment are prohibited.

Private door locks on any exterior or interior door are prohibited.

Dartboards are prohibited.

Residents may not paint or wallpaper walls or ceilings in apartments or suites.

B.9 Cleanliness of Apartment/Room
As a member of the housing community, you are expected to maintain a healthy and clean living environment within your apartment/room. Upon receiving a complaint of an unclean living environment, Residence Life staff will inspect the apartment.

B.10 Cohabitation
Living or staying for any pattern of time in an apartment or suite without an official contract for that particular space will be considered cohabitating. Cohabitation is
defined as a person staying in an apartment or suite for more than three consecutive nights, or other patterned behavior that is intended to allow an individual to stay beyond visitation hours.

B.11 Cooking (Residence Halls)
Cooking in rooms with an open flame or exposed element is prohibited. Electrical appliances such as electric skillets, woks, electric grills, George Foreman grills, hot pots, coffee makers without automatic shutoff feature, or other appliances that can be used to prepare raw foods are prohibited. Students will be asked to remove the appliance.

B.12 Quiet and/or Courtesy Hours
Violation of quiet and/or courtesy hours is considered disorderly conduct. Courtesy hours are always in force. Community residents and/or Residence Life staff reserve the right to ask people to observe courtesy hours at all times. Quiet hours are:

- Sunday–Thursday, 10 p.m.-8 a.m.
- Friday–Saturday, midnight-8 a.m.

24-hour quiet begins the night before final exams are administered.

B.13 Door Propping
Students found propping open exterior doors in McDonald East apartments, Golden Tower Apartments, or residence halls may face contract termination as this is a security risk for the entire community. Propped doors that are not able to be attributed to an individual may be prorated among all the residents of that building. Residents living in the McDonald East apartments may not open the sealed sliding glass doors.

B.14 Guests
The maximum capacity of any two-bedroom apartment or residence hall suite is eight persons, including both residents and guests. This number has been established by the State Fire Marshall's office. All residents are responsible for the behavior of their guests.

B.15 Guest Registry
Any guest staying in University housing must be registered with the Department of Residence Life. Guests must be registered by going to the Residence Life Web site at www.usi.edu/res. Unregistered guests will be asked to leave University housing. Guests must be at least 16 years of age.

B.16 Solicitation
No one is allowed to solicit door-to-door without the approval of the director of Residence Life or his/her designee. Commercial solicitations of funds, services, or membership are prohibited. Individual students may invite a vendor to visit the apartment or suite to conduct business. Solicitation for certain worthy causes that are determined to be in the best interest of the University community may take place in the Residence Life Center.

B.17 Trash
Residents are responsible for the removal of trash and garbage in and around their apartment or suite. All trash must be disposed of in provided dumpsters within University housing. Leaving trash outside apartments is prohibited and will result in a $50 fine/resident. Trash that is not attributed to an individual may result in fines being prorated among the residents of the building or floor where the trash was found. Charges will be assessed to student accounts.

B.18 Visitation
Hours of visitation are as follows:
- Residence Halls, O’Daniel and McDonald Apartments: Sunday through Thursday: 8 a.m.–Midnight. Friday and Saturday: 8 a.m.–2 a.m.
- Golden Tower Apartments: 24-hour visitation

Appendix C
Student Organizations and Activities

C.1 Definitions of Student Organizations
1. Student organizations or student committees are groups in which the membership is (1) composed of University students, faculty and staff; (2) entirely responsible for the conduct of various sponsored activities as well as the daily affairs of the group. Student organizations may extend membership to non-students. The inclusion of faculty and staff is defined in the role of an advisor, not a voting member. The University registers two types of student organizations:
   a. A “recognized” University student organization; one that successfully completes the registration requirements and receives annual financial support from University sources; and
   b. A “registered” independent student organization; one that successfully completes the registration requirements and receives no annual financial assistance.
2. Residence hall, fraternity, and sorority governing bodies are considered student organizations and are expected to complete the registration process before facilities other than their own specific living unit can be used. Additional regulations for the establishment and operation of fraternity and sorority groups are available in the Office of Student Development Programs. In order to be a recognized fraternity or sorority at USI, the organization must be affiliated with a national Greek organization and have received approval for inclusion in the fraternal system from one of the Greek governing boards. (Federal law through Title IX permits fraternities and sororities to remain single gender organizations provided there is equal opportunity to join similar organizations.)

3. Groups such as faculty-initiated academic interest groups, faculty/student governing committees, musical organizations, athletic teams, and theatrical activities are not student, but University organizations. As such, they are directed or chaired by a regular University staff member responsible to the academic or administrative authorities. Membership in University organizations is subject to various internal requirements and regulations. The University staff member, by virtue of his or her expertise, is responsible for directing the organization. Students, however, have the right to participate in the organization's decision-making process. Registration of such groups is not required; however, they are subject to general University procedures, for example, non-discrimination, fundraising, outdoor event, and license policies.

C.2 Conditions of Membership
In selecting its membership, no organization may discriminate on the basis of race, color, national or ethnic origin, religion, sex (except for single-sexed social sororities and fraternities and residence halls exempted from Title IX), disability, age, sexual orientation, or veteran status in accordance with federal, state, and local laws. Officers of the organizations are held responsible for seeing that this condition is met. Exceptions must be obtained in writing from the Office of Student Development Programs.

C.3 Eligibility for Co-Curricular Participation
The major concern of the University of Southern Indiana for its students is their academic achievement. One mark of academic achievement is orderly progress toward a degree. Students are encouraged to complete a minimum of twelve (12) hours of course work each semester. Each student is therefore advised to balance a desire to progress in a systematic fashion toward a degree and the desire and ability to participate and/or lead in co-curricular activities. After a student has assessed the abilities and interests he/she may have, the student may then choose to participate or not (taking into consideration the qualifications required by the various activities and organizations). To assume leadership, elective and/or appointive positions, the student must meet the University requirements listed below:

1. Specific Requirements: The minimum requirements that the University sets for students to assume elective and appointive positions in co-curricular activities include enrollment and continuance in a minimum of nine (9) hours of USI course work, the absence of academic or disciplinary probation, and a cumulative grade point average (GPA) of 2.0 or greater. Additional requirements: Organizations or groups may make, with the consultation of the Office of Student Development Programs, such additional eligibility requirements as they deem necessary. These additional requirements cannot be in conflict with the University policies on discrimination.

2. Athletic Requirements: NCAA and athletic conference rules will govern participation in intercollegiate athletics.

3. Compliance Requirements: The above stated requirements must be met in order to:
   a. apply or receive consideration for an appointive or elective office;
   b. campaign for an elective office;
   c. hold an elective or appointive office;
   d. receive special honors;
   e. receive an appointment to serve on an all-campus (student or faculty-student) committee or governing-organization (RHC, IFC, Panhellenic, etc.), or on the staff of any University or student publication.

4. Individuals should be aware of their eligibility status at all times. They shall inform the concerned organizations of their status when seeking or desiring to continue in positions of leadership as described above.

5. Each University or student organization, with the assistance of the advisor, is responsible for compliance with these requirements.

6. Waiving requirements: Any student who does not meet the aforementioned requirements and is still interested in an appointive or elected position can request a review by the director of Student Development Programs or designated representative. Any student wishing to appeal a decision regarding
eligibility to be an officer must do so in writing to the
director of Student Development Programs.

C.4 Funding of Registered Organizations

1. Banking Arrangements

Student organizations may elect to deposit their funds
with the University through the USI Business Office. If an organization elects to deposit funds off campus, the University’s tax exempt status should not be used in obtaining financial services. Organizations are required to follow all federal, state, and local laws.

2. Expending Funds

a. Registered independent student organizations may expend their monies for organizationally related activities. All expenditures are subject to review by the University, who retains the right to question the propriety of the expenditure.

b. Registered “recognized” University student organizations, expenditure of funds is subject to purchasing policies and regulations.

3. Student Government Association Allocations

a. Registered student organizations (RSOs) can apply for University funds from the Student Government Association (SGA). All organizations receiving funding must agree to: (a) abide by State regulations in all purchasing and budget control activities; (b) expend funds only for University-related purposes; and (c) obtain a University agency account.

b. RSO funds must be used to promote a diverse array of use, facilitate intellectual engagement, encourage collaboration between students and student groups, and/or foster campus community. All funded program/events must be open to the University and free to all students who pay the activity fee. Applying RSOs must meet the following criteria to qualify for RSO funds:

1) RSOs must not discriminate based upon race, color, national or ethnic origin, religion, sex (except for single-sexed social sororities and fraternities and residence halls exempted from Title IX), disability, age, sexual orientation, or veteran status in accordance with federal, state, or local laws.

2) RSOs must not knowingly present false documents or information to SGA

Applying RSOs will not be awarded money from the RSO fund for any of the following:

1) Repayment of debt
2) Living-group rent
3) Activities that make a direct contribution to a political campaign or religious organization
4) Any activity that is specifically designed to raise funds for the operation of the organization
5) Gifts, excluding speaker or performer honorariums
6) The duplication of materials, supplies, or services that the University will provide for at no cost to the organization
7) Any beauty pageants or participation therein

c. Funding stipulations and regulations are subject to change at the discretion of the Student Government Association.

4. Vice President for Student Affairs Programming Grant

The vice president for Student Affairs has available funds which can be applied for by registered student organizations, students making academic presentations, and departments within Student Affairs. These programming grants are not to be considered permanent organizational funding. The purpose of the grant program is to provide the opportunity for registered student organizations and departments to present quality programming for the USI community, as well as assist students with their academic endeavors. These funds are intended to be one-time only program grants. The vice president for Student Affairs will make final allocation decisions.

5. Unexpended Balances of Inactive Student Organizations

Any student organization that does not register for two (2) consecutive years will have the funds in its University agency account, which is managed by the Treasurer’s Office, transferred to the vice president for Student Affairs program grant account unless arrangements have been made with the USI Business Office.

6. Entertainers, Speakers, and Performers

a. Information on acts, both local and national, who may be available for entertainment at social events, is located in the Office of Student Development Programs. It is strongly recommended that any student organization or group wishing to engage entertainment groups contact the Office of Student Development Programs for specific advice as to the contracting procedures. Any registered student organization entering into a contractual relationship must have prior approval from the organization’s advisor before asking for the contract and must have the advisor authorize the contract on behalf of the organization, following all contractual procedures as required by the University.
b. Arrangements for speakers and performers are to be made in keeping with the University speaker and performer policy.

C.5 Registration of Student Organizations

1. When any group of students wishes to engage in sustained activities and/or programs and use facilities on a regular basis, registration of the group as a student organization is required. The Office of Student Development Programs shall rule when there is a question as to whether a given organization intends to engage or is engaging in a sustained program. A student organization wishing to conduct a sustained program must be registered in order to:
   a. Use University facilities;
   b. Be listed in University publications and newsletters;
   c. Use the University name in publicity and press releases;
   d. Use University logos and trademarks;
   e. Apply for and expend University funds as distributed through the Student Government Association or University departments;
   f. Apply for and occupy office space in the University Center;
   g. Participate in Student Development Programs activities and conferences as an organization;
   h. Participate in any information fairs;
   i. Apply for University recognition for organizational achievement.

2. The purpose of the registration procedure is to guarantee that organizations enjoying the above privileges of association with the University do the following:
   a. State their purpose, officers, advisor, and activities;
   b. Keep with the mission of the University.

3. Registration does not imply that the viewpoints of the organization are those of the University.

4. Procedures: A group wishing to be registered as a student organization must complete the appropriate registration forms provided by the Office of Student Development Programs. The following information must be completed.
   a. Name of organization (no organization shall register a name identical to or closely similar to the name of a currently registered organization nor can the University of Southern Indiana precede any organization name);
   b. A constitution of the organization, which includes a declaration of the purposes, goals, activities, etc., must be submitted. University of Southern Indiana policies supercede those of an organization’s constitution or by-laws;
   c. A list of officers or official representatives of the organization;
   d. Registration attests that the local organization agrees:
      1) To provide equal opportunity to all students;
      2) To prohibit discrimination against any member or prospective member because of age, disability, ethnic origin, marital status, race, religious commitment, sex, or sexual orientation;
      3) To promote the realization of equal opportunity through affirmative action. Certain groups, such as social fraternities and sororities, governing organizations in single-sex residence halls, and other organizations specifically exempted from Title IX of the Education Amendments of 1972, may rightfully exclude men or women.
   e. The name of a faculty or staff advisor (part-time faculty and staff qualify as advisors if they are not simultaneously pursuing a graduate degree). Advisors must actively participate in the organization and regularly attend meetings of the organization. In case of severe hardship, the Student Development Program Advisory Committee is authorized to waive this requirement for a reasonable period of time.
   f. The national organization’s constitution and/or by-laws must be on file in the Office of Student Development Programs.

5. Registration certifies that local organizations affiliated with a national organization must have a local constitution and/or by-laws that are in accordance with and do not conflict with University of Southern Indiana policies and procedures. National constitutions/by-laws imposed upon the local organization may not conflict with the University of Southern Indiana policies and procedures. If there is any question involving any of the above-stated conditions in the Procedures section, the registration of the group seeking to register will not be completed until it is referred to the Office of Student Development Programs for review.

6. In order to be a registered fraternity or sorority at USI, the organization must be affiliated with a national Greek organization and have received approval for inclusion in the fraternal system from one of the Greek governing boards. (Federal law through Title IX permits fraternities and sororities to remain as single sex organizations provided there is equal opportunity
to join similar organizations.)

7. To keep the organization’s registration current, it must be renewed in the Office of Student Development Programs by the third Friday of each semester. This renewal consists of providing names of current officers or representatives, advisor, and any other relevant information. Should this renewal of registration not occur, all privileges extended to the organization will be withdrawn.

8. Termination of Registration: The Office of Student Development Programs reserves the right to cancel registration of any organization that fails to observe the understanding outlined in this section. Furthermore, it shall be assumed that an organization is no longer registered if it fails to complete these requirements.

9. Appeal of Registration Procedures: Decisions concerning registration denial may be challenged by submitting a written statement to the Office of Student Development Programs. The director of Student Development Programs will review the statement in light of the guidelines established herein. If the challenge is validated by the director of Student Development Programs, the organization will be registered. If the challenge is not validated by the director of Student Development Programs, the challenging party may refer the statement directly to the Student Development Programs Advisory Committee.

C.6 Student Organization Responsibility for Activities and Events

Student groups and organizations planning and carrying out their activities and conducting their affairs bear the responsibility for doing so in accordance with University regulations as well as state and local laws. Student organizations will be held responsible for the behavior of their members or guests when the actions of these individuals evolve from or are associated with the organization or an activity related to the organization. The extent to which an organization will be held responsible for the actions of individual members or guests will be determined in accordance with the following guidelines.

1. Definition of an Activity Related to an Organization:
   An activity is considered to be related to an organization when one of the following circumstances exists:
   a. The activity being sponsored was planned in an official meeting of the organization.
   b. The activity is a registered event with the Office of Student Development Programs.
   c. The context of the activity indicated that it was the product of the organization per se. This includes but is not limited to: the activity was held on organization property, the presence of one or more of the group’s officers, the presence of 25 percent or more of the group’s members, promoting or financing the event, or the presence of organized entertainment.

2. The parent organization shall be responsible for the actions of new members or other subgroups carrying official status.

3. Events or activities that include numbers of non-members also are the responsibility of the group or organization in question. Appropriate measures must be employed to prevent or deal with infractions and problems involving nonmembers (see section 4.b, and section 1 below).

4. Infractions: Each group or organization has the responsibility and is expected to deal with individuals allegedly in violation of University regulations or laws by referring such individuals to the Department of Security, the Office of Dean of Students, the Department of Residence Life, and/or the Office of Student Development Programs. Circumstances that do not constitute violation of University policy or law, but that may be violations of organizational regulations may be dealt with internally by the organization.
   a. Each group or organization is expected to refer such individual(s) to the appropriate University authorities. The Department of Security should be contacted immediately for any issue involving public safety. The Office of Student Development Programs should be contacted for any organizational-constitution violations. Referral should be made to the Office of Student Development Programs and/or the Office of Dean of Students for violations of the Code of Student Behavior and/or University judicial action.
   b. The group or organization must show good faith in referring individual(s) who may be responsible for violating University policy or any federal, state, or local laws. The degree to which the group or organization carries out this overall responsibility will have bearing on the extent to which it may be held accountable for the actions of the individual(s). Members and non members of a group at an activity related to an organization are included in the expectation of the group’s responsibility and appropriate measures must be employed to prevent or deal with problems and/or violations.
c. When (1) sufficient preventive measures have not been employed and/or (2) action to refer individual cases to appropriate authorities has not been taken, the student organization may be held accountable for violations.

C.7 Student Organization Responsibilities for Events Involving Alcohol

The University of Southern Indiana Alcohol and other Drug Policies are consistent with the educational and non-punitive philosophy that governs the Student Rights and Responsibilities: A Code of Student Behavior. The code emphasizes personal responsibility and is intended to facilitate individual student growth and development. To help reduce the incidence and prevalence of alcohol use that may adversely affect the quality of an individual’s experiences at the University of Southern Indiana, abstinence is encouraged. No alcohol may be brought to or distributed at any event on campus without permission of the president or his/her designee. Kegs and other containers used for distributing alcoholic beverages are not permitted anywhere on campus or in organized student housing. Students of legal age who choose to drink off campus are expected to handle alcohol in a low risk manner and behave responsibly. The following procedures have been established to emphasize the shared responsibility of the host organization and individuals attending social events or activities related to an organization. These procedures are intended to reduce risks associated with social events and to assure compliance with University policies as well as state and local laws concerning the use of alcohol and other drugs.

1. Registration

Any social event that is to be held on University property or in organized student housing by one or more student organizations must be registered. Student organizations register social events through the student scheduler. All social events must be registered at least two weeks prior to the date of the event. Student organizations may be required to have a designated faculty advisor or authorized sponsor present at the event. In addition, a representative from the registering office may meet with the organization leader(s) to plan procedures in accordance with these guidelines for the event. Social events will not be permitted unless complete compliance with these procedures, University policies, and state and local laws can be assured to the best of the ability of the hosting group(s). Additional regulations may apply to social fraternities and sororities.

2. Off-Campus Social Events

Any registered student organization that sponsors a social event away from campus is obligated to adhere to all University policies and federal, state, and local laws. It is the responsibility of the sponsoring group(s) to institute measures to assure that minors do not consume alcoholic beverages at off-campus social events.

3. Violations

If University policies, federal, state, and/or local laws are violated during or as a result of a social event, the sponsoring group(s) will be considered responsible and held accountable for the violation(s). The group must understand that other potential legal liabilities may also occur for the organization, individual students, officers, guests, and advisors. Littering, infringing upon the rights of others, and abuse of public or private property are also examples of violations of this policy. Other possible violations of University policy will include but are not limited to the following:

a. Failure to register functions
b. Construction of unauthorized structures
c. The failure to use required entrances and exits properly
d. The consumption of alcohol by individuals who are under the legal age
e. The providing of alcohol to any person under 21 years of age
f. Failure to provide adequately trained and identified marshals to supervise the event
g. Conducting "spontaneous" social functions, activities, or events
h. Exceeding the maximum number of guests at any given time
i. Failure to comply with the policies regarding sound system and sound ordinances
j. Failure to adhere to clean-up plans
k. Failure of responsible members to attend all training sessions if deemed necessary.

NOTE: All groups should remember that these are minimum standards of care that should be exercised in all social events. Depending on the scope of activities, additional measures may be deemed necessary by the group/University to ensure a safe and enjoyable activity.

C.8 Solicitation and Fundraising

1. The buildings and grounds owned by the Board of Trustees of the University of Southern Indiana exist for, and are exclusively devoted to, the organized and
approved University program of higher education. As such, they are committed to being used for the non-profit, tax-exempt use of the official program of the University. Therefore, private unsolicited business activities are not permitted on University premises. However, in certain limited areas, the University contracts with private firms to provide needed on-campus services for students, faculty, and staff that contribute to the accomplishment of the University’s educational purposes.

2. Apart from prohibiting profit-making commercial business activities, the University also regulates, within limits, under separate policies, and consistent with the above policy, any use of its buildings and grounds for solicitation, including fundraising activities. Fundraising activities must not violate state law by including a drawing, raffle, lottery, game of chance, or any scheme for distribution of prizes among persons who are paying for a chance to obtain a prize.

3. Policy on Sales and Solicitation
   a. No canvassing, peddling, soliciting, distributing, or posting of any written or printed material by non-University individuals or organizations is permitted on the grounds or in the buildings or on equipment or networks owned/operated by the University without the written permission of the president. Such solicitations that are prohibited include the use of electronic mail and Web page solicitations. Any activity in violation of this policy should be reported to the Office of the Dean of Students.

   b. Students and employees are not permitted to solicit, canvas, or peddle any items, distribute or post any unauthorized material within the buildings or through equipment or networks owned/operated by the University or on the grounds of the University without the written permission of the president or designate. Such solicitations that are prohibited include the use of electronic mail and Web page solicitation. Any activity that violates this policy should be reported to the Office of the President.

   c. Approved solicitations include the annual United Way campaign and various USI Foundation and University solicitations. Other activities may be approved for projects and/or programs that are of direct interest and value to the University. Students and employees may donate as generously as they wish, as the University does not imply any obligation on the part of the individual employees to contribute. Contributions to charitable and welfare programs and activities are entirely matters of individual discretion.

   d. Sales and solicitations are permitted by officially registered campus organization only if they are for the general benefit of the University and/or the community and have received authorization of the president or a designate. Application for approval for sales and solicitations events (including athletic events and events held in Residence Life areas) may be initiated with the student scheduler. Generally, sales and solicitations are limited to three days in a 30-day period and not more than twice a semester. Authorization to sell on campus does not constitute an endorsement by the University of either the product sold or the service rendered. The University of Southern Indiana and the USI Foundation do not recognize fundraising efforts using games of chance, such as raffles, door prizes, half-pots, or bingo as methods for raising charitable funds. Neither the University nor the USI Foundation is a qualified organization licensed by the Indiana Department of Revenue, Charity Gaming Division, to conduct such activities. Student groups and University support groups are encouraged to solicit funds in other ways. For information, contact the director of Development.

   e. Sales and soliciting groups or individuals are expected to adhere to the following regulations:
      1) The use of sound equipment (tv, stereo, amplifiers, public address system) is restricted; permission to use such must be obtained from Scheduling Services.
      2) Groups must display a printed sign no smaller than 18” x 24” signifying the name of the organization hosting the sale or solicitation.
      3) For-profit entities must have a retail sales permit available at the scheduled activity. A currently enrolled student representing the sponsoring group or organization must be present at all times.
      4) Groups or individuals must have written confirmation for the scheduled event available at the scheduled event.
      5) Space in the University Center may be reserved. The University Center may be used by registered student organizations for conducting campus-wide elections, distributing literature relating to student organizations, recruiting membership for student organizations, and activities, sales, and solicitations.

4. Fundraising Policy
   All members of the University community—faculty, administrators, clerical/support staff, and students—have a responsibility within the framework of their
positions to participate in University fundraising from private sources within the program coordinated by the USI Foundation office.

a. The president of the University is the official spokesperson on all fundraising matters. The director of development/president of USI Foundation, in concert with other administrative units, will assess University needs, identify possible private sources for funds to meet those needs, prepare plans for soliciting private sector funds, and direct the personnel and financial resources available through the office toward obtaining resources to meet those needs.

b. All University efforts in private fundraising will be coordinated through the USI Foundation. Under this policy, guidelines for private fundraising are:

1) University personnel and students desiring to solicit private funds or call attention to specific needs shall submit in writing the needs, ideas, recommendations, and proposals to be reviewed and approved by respective administrators, deans, chairpersons, and appropriate vice presidents.

2.) After review by the appropriate vice president, the proposal shall be submitted to the director of Development/president of USI Foundation. The USI Foundation will not proceed with any proposal or recommendation for soliciting private funds without approval of an appropriate vice president and the president.

3) If the proposal or recommendation receives approval through channels and is determined to be in concert with the general purposes and missions of the University, and if funds are not available within current resources, development staff will try to obtain private funds.

4) Approved proposals or recommendations will be included in the development plan for the University.

5) When appropriate, faculty members, deans, chairpersons, administrators, and students will be called on to assist development staff in identifying University needs, expressing these needs, preparing proposals on potential private funds sources, and generally striving to obtain resources for the University’s identified unmet needs.

c. This policy will apply to all private fundraising proposals and activities by all personnel and students of the University.

d. For purposes of this policy, private funding sources are individuals, alumni, friends, businesses, foundations, and other sources except local, state, and federal governmental agencies supported by tax-appropriated dollars.

5. Fund Raising for Student Organizations

a. Sales must be scheduled through, and approved by the student scheduler. This includes fundraisers such as bake sales and discount cards.

b. Ideally, only two groups at a time will hold sales in any one area.

c. When scheduling a fundraising activity, an organization must request all tables and other equipment that will be needed. Costs associated with setups other than at the UC will be charged to the organization.

d. Special rules exist for bake sales. A copy of the Health Department regulations is available at the Office of Scheduling Services.

6. Sponsorship Fundraising Policy

a. Each reserving company MUST be sponsored by a REGISTERED student group or organization. The sponsoring group will then contact the student scheduler to reserve space and any necessary equipment. Fundraising companies may NOT make reservations.

b. Space is not provided on a sub-lease basis. Sponsoring group or organization MUST have a representative present for the duration of the function.

c. Reserved space will be limited to three days a week in a 30-day period and no more than twice a semester per company.

d. Space will be assigned as follows: Under the UC conference center or on the UC mall and, if weather dictates otherwise, tables and chairs will be set up inside, around the perimeter of the Eagles Nest. Table space indoors will be limited.

C.9 Priorities for Use of University Buildings and Facilities

University groups and officially registered student organizations may use University facilities on a space-available basis to hold meetings or conduct activities consistent with the objectives of that organization.

1. Definition of Facilities

a. The facilities of the University include all buildings and grounds owned or leased by the University. Space within the buildings and grounds is of three types (1) Dedicated, (2) Semi-public, and (3) Public.

b. Dedicated – Dedicated space is defined as space used
primarily to serve and support the educational, cultural, living, and recreational functions of the University. Although such areas may be used by the public, University functions have priority. Examples of such space are: classrooms, laboratories, libraries, student housing, restricted facilities, and intramural and athletic fields.

c. Semi-public – The semi-public space areas are defined as space available for use by internal and external individuals and groups on a reservation only basis. Normally, non-University organizations will pay for the use of such space. Examples of such space are meeting rooms and lecture rooms in academic buildings and the University Center.

d. Public – The public space areas are defined as those which accommodate traffic flow, and facilities of the University open to the public. These areas are defined to include sidewalks, campus streets and drives, entrances to buildings, lobbies and corridors in classroom and office buildings, and semi-public facilities and common areas in student housing and the University Center.

2. Use of Facility

a. Dedicated Space–General Instructional Space

1) General classroom areas in academic buildings, including large lecture rooms, are not assigned to any specific academic area. These areas are under the jurisdiction of the Registrar's Office for assignment of regularly scheduled classes. Reservations for meetings, study groups, and other temporary uses by student organizations are to be made by calling the student scheduler.

2) General instructional space such as athletic fields, University Center, conference rooms, Physical Activities Center, and the buildings constituting Bent Twig Outdoor Education Environment may be reserved by student organizations through the student scheduler.

b. Semi-public Space

1) Student Activities Space – General student activities space is available in the University Center. Space for social events, such as dances, movies, organizational meetings, and other activities will be coordinated with the student scheduler.

2) Lobby Areas and Other Semi-public Space – Reservations for use of lobby areas and semi-public space areas must be made with and approved by the student scheduler. The University reserves the right to deny the use of areas if it is determined that access by the group is disrupting the normal operation of the facility or the University.

c. Public Space

1) General Buildings and Ground Space

a) Every person with legitimate business at the University has the privilege of free access to public areas of the buildings and grounds during hours when they are open; such hours are determined by the president or his/her designee. These areas include sidewalks, closed streets, entrances to buildings, corridors in classroom and office areas, library reading rooms, and common areas.

b) The president or his/her designee may deny this privilege of free access to an individual or group which disrupts the normal operation of the University.

2) Reservation of Space – Public area space as defined by this policy may be reserved by registered student, faculty, or staff organizations. Soliciting for monetary reasons, or selling, will not be permitted in the public areas except in cases of student groups whose activities are approved through the Office of Scheduling Services or other University organizations as approved by the president or his/her designee.

3. Right of Use of Space

a. Use of space for purposes other than those for which it has been designated will not be allowed. Neither individuals nor groups will be permitted to interrupt the use of space, after it has been duly assigned, without permission of the president or a University official designated by the president.

b. If, after observing the situation, the person in charge of a facility or function determines that a situation is no longer peaceful and orderly, he should:

1) Request, not direct, the individual(s) to desist from activities causing the disturbance and allow a reasonable time for such action to occur. In the event efforts at persuasion fail, he/she should inform the Department of Security of the nature of the disturbance and remain on the scene, except for extreme cases, until the security officers arrive, at which time emergency procedures will be initiated; or
2) Elect, when personal safety or well-being will be endangered by direct involvement with the demonstrators, to inform immediately the Department of Security, who will in turn implement approved emergency procedures.

c. Agencies coming to the campus to recruit students for employment must make reservations for space and schedule with the Office of Career Services and Placement. Personal interviews will be scheduled in the Office of Career Services and Placement or in semi-public areas if the facilities of the office do not accommodate the demand.

4. Reservation Procedures

The following procedures apply to reservations requested by or for individual faculty, staff, or students; registered student organizations; or non-University entities:

a. Indoor Space: Those requesting a reservation of an indoor University facility/space should contact the Office of Scheduling Services and follow any policies and procedures established for that site.

b. Outdoor Space: Those requesting a reservation of an outdoor University facility/space must complete a reservation form and submit the form to the Office of Scheduling Services. The reserving organization must be in good standing with the Office of Student Development Programs. If approved by that office, then that office shall provide a copy of the approved request to the organizer, and shall forward other copies of the reservation to the Office of Student Development Programs and the Department of Security for approval.

1) Programs on USI grounds involving amplification will begin no earlier than 3 p.m. on Fridays and no earlier than 10 a.m. on Saturdays and Sundays. All events must conclude by Midnight of the same day in which they begin.

2) Only one program involving amplification (voice, music, etc.) may be scheduled on USI grounds during any one-weekend period unless approved by the Office of Student Development Programs. Friday is considered a weekend event.

3) Student organizations must have a minimum amount of $200 on deposit within their University agency account upon approval for the event. (Office of Student Development Programs may require an increased deposit for some events.)

4) Events involving the use of amplification must add a standard clause on all contracts, which will give the sponsoring organization the right to request the artist/provider to reduce the volume output. All contracts must be approved by the Office of Student Development Programs.

5) The student organization scheduling the program is accountable for the performance and volume output of the participating artists and/or individuals. If requested by an appropriate University official, the responsible student organization designee will be expected to reduce the volume output. Failure to do so may result in immediate termination of the scheduled event and subsequent use of USI grounds by the sponsoring organization and artists involved.

6) Outdoor events will require security. This cost will be the responsibility of the sponsoring organization. USI Security will determine such security requirements in conjunction with Student Development Programs and Scheduling Services.

7) Arrangements for set-ups (including but not limited to staging, electrical needs, tables, chairs, portable restrooms), tear downs, cleaning, and damage repairs are at the expense of the sponsoring organization. Physical Plant in conjunction with Office of Student Development Programs and Scheduling may estimate the associated costs.

8) Any event that is a fundraiser and/or will be providing/selling food or items must abide by the USI Fundraising Policy for Student Organizations and/or any Board of Health requirements/policies.

9) All proposals for outdoor events must have a contingency plan in the event of bad weather or other unforeseen circumstances.

10) Event must be approved before publicity for the event is distributed.

11) University of Southern Indiana and the Office of Student Development Programs are not responsible for charges incurred by sponsoring organization (including but not limited to Physical Plant charges, off campus vendors, food service, or contracted obligations).

c. Approval Subject to Review: At all times, any reservation approval is conditioned upon full compliance with all University policies and all reservation requirements. The University reserves the right to disapprove the request of any entity that fails to comply with University policies or federal, state, or local laws, or which has damaged University facilities at any time.

d. Fundraisers: Fundraisers sponsored by Registered Student Organizations must be approved by the
Office of Scheduling Services no later than two weeks before the event is to take place. The fundraising form is available in the Office of Scheduling Services. All funds must be deposited in the student organization account.

6. Additional Facility Use Policies
   a. Alteration of University Property: Alteration or physical modification of property owned or leased by the University is not permitted. To prevent damage to University infrastructure, Physical Plant must approve the erection of tents or any temporary structures.
   b. Decorations: The organizer must have decorations approved and/or facilities inspected for safety in advance by Physical Plant or the facility official.
   c. Property Damage: Any group or individual that causes damage to University property must pay any charges necessary to return the property to its original state; University employees, students or organizations also may be subject to disciplinary action.
   d. Organizer Arrangements: The organizer shall be responsible for addressing issues such as special power requirements, access to restrooms, adequate waste receptacles, and inclement weather sites. Many campus buildings are closed after hours and on weekends/holidays; therefore, power and restrooms are not readily available. If waste receptacles are overflowing after an event, the requestor/sponsoring group will be charged the additional cleanup costs incurred by the department that operates the facility/outdoor space. The organizer shall be solely responsible for any and all costs arising from or relating to any event and by requesting to use University facilities agrees to pay all such charges.
   e. Publicity, handouts, etc.: All publicity, handouts, printed materials, etc. are governed by University policies and procedures.

7. Sound Regulations on Campus and Respect for Others
   a. Noise Disturbances to be Avoided: University entities and non-University entities must respect others’ rights by not creating noise disturbances on the campus or around residences. The sound regulations apply to outdoor campus events that may potentially cause noise disturbances regardless of whether or not amplified sound is used (e.g., outdoor music performances).
   b. End of Semester Policy: Outdoor events which could create noise disturbances on campus will not be approved after the last day of classes through the end of finals each fall and spring semester.
   c. Notification to Others: Event organizers are responsible for notifying parties potentially affected by their event sound levels or activities.

8. Procedures for Use of Facilities By Student Organizations
   a. Any registered student organization may use University facilities for open or closed meetings or performances subject to University policies regarding use of University facilities and outdoor space.
   b. If an off-campus speaker or performer is to be invited to address an open meeting of a registered student organization, the faculty/staff advisor, or in the absence of an advisor, a faculty member, must give his or her approval prior to the time an invitation is extended and publicity is released. The University administration may properly inform an organization concerning its views on any proposed meeting to which an off-campus speaker or performer has been invited but will leave the final decision concerning the meeting to the organization and its advisor.
   c. Publicity and communications concerning any meeting shall clearly identify the sponsoring organization and shall carefully avoid any stated or implied University sponsorship. In all open meetings at which an off-campus speaker will speak, a tenured faculty member shall serve as moderator and a reasonable period shall be reserved for questions from the audience.
   d. An invitation to a speaker does not necessarily imply approval or disapproval of the speaker or his or her views by either the University or the student organization. In case a request for the use of a University facility by a registered student organization cannot be granted, it is the responsibility of the University officer to whom the request was made to notify promptly in writing the organization making the request stating the reasons for the denial.
   e. Speakers may be invited to campus to discuss political issues. Registered student organizations may solicit memberships and dues at meetings. However, political party membership may not be supported or opposed, money may not be raised for projects not directly connected with a University activity, and private business may not be conducted in University facilities.

9. Service Charges
   a. Any special services provided by the Physical Plant or other departments will result in appropriate charges to the users groups.
b. Ordinary maintenance requirements—(i.e., scheduled refinishing of floors, painting, etc.)—will be assumed by the University even though this schedule may be advanced due to the extra use of such facilities.

c. Scheduling should take place sufficiently in advance of the using date to permit necessary adjustments and arrangements. Two weeks is the normal time required for activities requiring special services. It is expected that major events will be scheduled as far in advance of the activity date as possible.

10. Use of University Center facilities

a. Room Reservation: Requests to use meeting rooms in the University Center will be honored for officially registered student organizations, University departments, non-University official guests, and official guests of the University (as approved by the Office of Scheduling Services). The reservations should be made at least 24 hours prior to the event. Larger events must be scheduled at least two weeks in advance. University scheduled classes for credit may not be held in the University Center.

b. Groups reserving rooms in the University Center are granted exclusive use of such rooms for the time period reserved.

c. Non-University Entities: Non-University entities may request to reserve space in the University Center, subject to the approval of the vice president for Advancement or designee and all applicable University policies.

d. Information Tables: Requests to use information/display tables in the University Center will be honored by students, student organizations, and University departments. The Office of Scheduling Services will make all arrangements.

1) All table activities must carry the identification of the sponsoring organization.

2) A representative of the sponsoring organization must be present at the table at all times.

3) Promotions may take the form of ticket sales, collection of funds, handing out of literature, etc.

4) Tables must be kept neat and orderly. Materials must be removed at the end of each day.

5) All table activities are limited to the confines of the table. Traffic flow through the hallways cannot be restricted. Information table activities cannot interfere with the rights of others operating other information tables.

6) Loud and boisterous activity will not be allowed.

7) Fundraising activities must be approved prior to reserving an information table. Fundraising is the collection of money in any form for any reason. The Office of Scheduling Services in accordance with University regulations must approve fundraising activities in any form.

8) Non-University related groups may reserve information/display table space if:

a) The use of the booth would result in a service to the University community that is needed and is of measurable benefit, i.e., telephone service, etc.

b) The use of information/display table space is a recruitment of students and sponsored through the Career Services and Placement Center, the U.S. Armed Forces recruiting teams, or other government agencies sponsored by the Career Services and Placement Center.

11. Temporary Food Stands

Temporary food stands are permitted for three consecutive days, no more than twice a semester. All Vanderburgh/Indiana State Health Requirements must be followed. A copy of the health code is available in the Office of Scheduling Services.

C.11 Information Materials, Publicity/News Releases, and Advertising

1. Campus Posting Policies

a. Posting on campus is restricted to University campus groups, organizations, University departments, students, faculty, and staff. Space is not available for commercial advertising by non-University firms or organizations unless a request is received in writing and permission is granted in writing by the Office of the Dean of Students. All posting is limited to those activities open to the student body and for those events that bear some direct relationship to the educational purpose of the University and/or that provide an exceptional or beneficial service to students, faculty, and staff not normally available.

b. All posting must have the name of the sponsoring group or organization, be in English or have an English translation on the same posting, and follow the posting guidelines and procedures. No posting of flyers or literature on car windows, light poles, sidewalks, building doorways, trash cans, or unapproved locations. Violations to the campus posting policy should be reported to the Office of the Dean of Students.
2. Posting Guidelines and Procedures

a. Bulletin Boards

1) All flyers and posters may be placed on bulletin boards and must meet the guidelines stated in the first paragraph of this policy. They are not to exceed 22" X 30" and must be secured by using pushpins or thumbtacks on bulletin boards. Bulletin boards and posting areas are defined for use as follows:

2) Bulletin boards identified as “designated” or “General University Posting Areas” are available for posting to the following: University campus groups, organizations, University departments, students, faculty, staff, and approved non-University firms or organizations. To obtain a current listing of all designated or “General University Posting Areas,” contact the student scheduler.

3) Bulletin boards identified as “restricted” are under the jurisdiction of a school, department, or administrative office and are restricted to their use only. University campus groups, organizations, and University departments may request permission to use these bulletin boards by the appropriate school, department, or administrative official.

4) Groups or individuals using designated bulletin boards may bring 25 copies to the Office of Scheduling Services (UC 213) to be posted by a member of the Scheduling staff.

5) An open posting area is available for posting by anyone, without permission. The open posting area is located on the northwest corner of the Orr Center.

b. Banners

Banners may be hung by registered student organizations and University departments on the UC conference center facing the Orr Center or on the Library facing south. Banner space on the University Center is to be reserved with the student scheduler and is available on a first-come, first-served basis. All banners must meet the following guidelines: no larger than a twin-sized sheet, cannot contain wood or metal, and utilizes approved weights (anchors), such as balloons filled with sand (available free of charge in the Office of Scheduling Services). Anchors must hold the banner straight but must not present a risk to people or property. Within 72 hours of the completion of the event, the banner must be removed or it will result in Physical Plant charges.

c. Staked Signs

Staked signs may be utilized by registered student organizations and University departments. Staked signs, maximum size of 18" X 24", are allowed in lawn areas along the sidewalks and roadways as long as they do not block or overhang onto a walkway, driveway, or street. Staked signs are not permitted in landscaped areas. Only directional signs for campus events may be posted in the boulevard median with approval from the vice president for Advancement. Permanent signs and A-frame signs are not permitted on University premises. Within 72 hours of the completion of the event, all staked signs must be removed or it will result in Physical Plant charges.

d. Table Tents

Table tents may be utilized by registered student organizations and University departments. To place table tents, permission must be obtained through the student scheduler.

e. Chalking

Chalking may be utilized by registered student organizations and University departments and is allowed on outdoor concrete sidewalk areas that are exposed to the weather and can be easily washed away by rain. Physical Plant charges for cleanup in areas not exposed to rain may be incurred. Use only brands of chalk identified as sidewalk chalk on the label. Designs with lewd content or designs that can be changed into lewd content are not permitted. All chalking must meet the campus posting policy.

f. Windows

The windows by the main entrance to the UC, both under the conference center and facing the Orr Center, plus the three windows closest to the Orr Center on the Library can be painted to promote events on campus by registered student organizations and University departments. Contact the student scheduler to reserve any of these windows. Events advertised must be open to all USI students. Windows can only be painted with washable paint and the organization or department is responsible for cleaning any ground spills and window cleaning on the final day of the reservation. Failure to clean the window or ground spills will result in Physical Plant charges.

g. Handbills/flyers

Registered student organizations, University departments, and approved non-University firms and organizations may distribute literature/handbills on
campus if in compliance with the campus posting policy, in addition to the following:
1) individuals distributing do not hawk, shout, or accost individuals;
2) the distribution may not obstruct pedestrian or vehicular traffic;
3) literature or handbills discarded on the ground in the general area of distribution are to be picked up by sponsoring group;
4) the distribution of material is not in an area reserved by another organization nor does it impede another scheduled activity or event.

C.12 License Program Policy
The University of Southern Indiana seeks to manage the use of its logo and image and to benefit financially from the marketing of that image. To that end, a licensing program has been developed which establishes a framework for consistently applying the license policy to activities associated with the licensing of the University name and emblem.

1. Vendor Approval Process
a. All manufacturers of clothing and promotional items which use the logo, the image, or the words University of Southern Indiana are expected to comply with the policy. Upon receipt of a vendor’s application and an application fee, the director of Procurement and Distribution Services will review the application and respond to the vendor.
b. Vendors will be required to submit quarterly production reports and royalty payments to the University. Vendors will submit drawings of proposed licensed materials for approval prior to production.

2. Exceptions
a. Exceptions to the fee are made for University uniforms for employees and athletic teams. This would include practice uniforms and other outfits required for travel or sport participation.
b. Additionally, University letterhead, envelopes, and invitations used by University departments are not subject to licensing.

3. Operational Responsibility
a. The Director of Procurement and Distribution Services is charged with operational responsibility of the licensing program, including processing of license applications, identification of license infringement, communication to licensed and non-licensed vendors, and coordination of internal reporting.
b. Internally, all purchases of named or emblematic material must be approved by the Procurement department and purchased from licensed vendors. University purchasing standards will apply to such purchases.
c. Vendors wishing to use named and emblematic material must use camera-ready art available in the Procurement and Distribution Services. Any modification of logo or type style on the logo would be rare and must be approved in advance by the vice president for Advancement.

4. Rebate Program
University departments which use licensed materials directly benefiting the University may request, from the Licensing Program Office, a rebate of licensing fees. Items which are purchased for resale or other commercial benefit are not eligible for the rebate, nor are any items purchased by student organizations, student clubs, or University-related support groups. Departments which share in the licensing revenue distribution (currently the Athletics department and student affairs programs) also are not eligible for the rebate program. A Request for Rebate form can be obtained from the Licensing Program Office and submitted for processing.

C.13 Student Conference Guidelines
1. Every student attending a conference on behalf of a registered student organization is acting as a representative of the University of Southern Indiana. To that end, courtesy and respect for others must be demonstrated at a conference. Mature, professional conduct is expected of every student. The University of Southern Indiana recommends that the student organization advisor or staff attend the conference to provide guidance and support to student delegates.

2. The following guidelines have been established, and all students traveling on behalf of the University are expected to adhere to these guidelines:
a. Students are responsible for their behavior and will be held accountable while traveling on behalf of the University.
b. University of Southern Indiana does not condone underage consumption of alcohol at University sponsored/supported/affiliated functions. Representatives of the University of Southern Indiana are expected to abide by the laws of the state which they are in.
c. Use of controlled substances is strictly prohibited under any circumstances.
d. Respect should be shown at all times for others and all non-personal property.

e. If an advisor or student leader feels any student has not adhered to these guidelines and has behaved in a manner which is unprofessional, illegal, or irresponsible, that student could face judicial charges upon return to campus.

C.14 Student Travel Procedures

Completion of a Travel Request and Field Trip Notification form shall be required for all trips using University vehicles and/or receiving University funding. This document should be forwarded to the Office of Dean of Students for approval.

Vehicle reservations shall be the responsibility of the trip coordinator.

Meal allowances for students traveling as a representative of the University shall be at a student per diem rate. Check with the USI Travel Office for current rates.

Appendix D

Sexual Harassment Policy

As part of its commitment to equal opportunity, the University of Southern Indiana prohibits sexual harassment among members of the educational community which includes employees and students, including student-to-student and other peer sexual harassment.

This policy is in compliance with federal regulations implementing Title VII of the Civil Rights Act of 1964 and Title IX of the Education Amendments of 1972. Individuals concerned about violations of this policy should request assistance from the University's director of Human Resources/Affirmative Action officer, the Counseling Center, the Dean of Students, USI Campus Security, USI Residence Life, or an appropriate administrator. When administrators or supervisors become aware of occurrences of sexual harassment, they are responsible for reporting it to the director of Human Resources/Affirmative Action officer and ensuring the offensive behavior will cease and not be repeated. Attempts should be made to resolve the situation either informally or formally. A procedure is in place to appeal the decision of the director of Human Resources/Affirmative Action officer.

See the related section of the Guidelines on Sexual Harassment policy, Consensual Relationships, Section F1, IV of the University of Southern Indiana Handbook. A copy of this policy may be requested from the Office of the Dean of Students, Human Resources, or is available at the USI Web site at www.usi.edu/HR/handbook/HBR8.03/HBSectionF8.03.doc.

The complete University Guidelines on Sexual Harassment can be found in the University Handbook, F1, at: www.usi.edu/HR/handbook/index.asp.
