SUBJECT: 20-20-33110-03140
Atheneum Auditorium AV System Upgrade / Due 11-14-19/2PM/Local Time

Addendum #2

This addendum forms a part of and modifies bidding requirements that pertains to the above mentioned project.

The projector needs the proper lens, which should be clear based on the narrative.

See attached for answers to questions submitted.

All bidders shall acknowledge receipt of this addendum on the bid proposal form.

Questions & Answers

1. Are you locked into the AMX Control System or would you consider an upgraded alternative?
Yes.
2. If it must be the existing AMX System, do you have the uncompiled codes for the current system?
No.
3. What is the distance from the video screen to the video projector location?
(This will determine the proper lens required to fill the existing screen)
57'9".
4. Lots of movies (especially new feature films) have content made for 7.1 – 7.3 surround sound. With that said, would you consider an upgrade from 5.1 to 7.1-7.3 surround sound?
Yes.
5. What make and model number is the existing video projector ?
(This will give us an idea as to which level of video projectors to bring to the demo – 8K, 10K, 12K, etc.)
Mitsubishi WD8200U.
6. Do you have a copy of the AMX Program and TP file that we could look at?
The awarded vendor should be able to offload the code from the current AMX.
7. During my site visit it was mentioned that the theater may be used or will be used for presentations. Will there be any need for automation programming for this function or will the system be controlled manually through the touch panel?
Manually.
8. Will this facility be used for "Film Festival" style events and are there any special considerations we should be aware of?
Probably and no.
