Need help teaching your child to code?  
Let us help!

Grades 5 - 8

**Description:** The SwI STEM Resource Center is offering an online **Coding for Kids Club** for grades 5 - 8. Students will be introduced to Scratch (a free, online block-based coding language) and Makey Makey kits, a simple piece of invention hardware that connects your computer to the world around you. By combining these two tools, your child can expand their ability to think creatively, reason systematically, and even invent ways to turn everyday items into touchpads.

**Dates:** Each Wednesday for eight weeks beginning September 30, 2020

**Times:** Session One: 1 p.m.; Session Two: 3:30 p.m.; and Session Three: 5 p.m.

**Cost:** \$50/student\* (includes Makey Makey kit for students to keep)

**Registration Deadline:** September 21, 2020

\*Scholarships available for those who qualify. See our website for details.
