WHAT NOT TO PACK

Packing Tips

Remember most residents are sharing approximately 700 square feet with three other students. Consider the room size and that space is limited. We encourage students to pack lightly and purchase additional items after they move in. Stores are conveniently located near campus.

- Consider packing items in smaller containers rather than one large one that may become too heavy to carry.
- Use reusable containers that you can use as storage in your room and pack back up when it is time to move out.
- When possible coordinate with roommate(s) on who brings what. (i.e., TV, microwave, etc.)
- Avoid bringing large furniture items. Apartments and residence halls are fully furnished. If you do bring a large item, be sure to disassemble (if possible) before moving in.
