Indiana
Medical Forensic Examination Providers
2026

For more information on training opportunities, events, and resources, please visit:

www.usi.edu/IndianaSANE

In the absence of a forensically trained provider, patients should be transferred or referred to the nearest trained provider, or another trained provider that is either preferred by the patient or is most convenient for the patient. When making a referral for a medical forensic examination, please call the hospital/healthcare facility before referring the patient to ensure a trained provider is available.

October 2026

This guide is updated quarterly with information provided by the facilities listed herein. There may be changes in availability of services offered without notice. Always call ahead to ensure a trained provider is available prior to referring a patient for care. Please report changes or updates to this guide to the Indiana SANE Training Project or Indiana Statewide SANE Coordinator. Changes or updates may also be provided by completing this survey: https://usisurvey.az1.qualtrics.com/jfe/form/SV_55stsAzxBVZO4iW.

This document is a work product of the Indiana SANE Training Project.
