Undergrad SLO Closing the Loop

The USI SPTM undergraduate program had great success achieving student learning outcomes in the 2024-25 academic year. The program's majors effectively reported on aspects of diversity and inclusion in sport, ethical considerations in sport, and governance concepts within sport. These concepts that are within the sociological aspects of sport were accessed and met. However, the program will place a focus on students successfully identifying, describing, and analyzing the concepts related to the ethical and governmental foundations of Sport Management. Lastly, the program can claim students effectively identified, defined, and understand concepts related to the Sport Management Environment, along with having success within the Sport Management work-environment through integrative experience. The program will look to capitalize on this strength to improve its weakness in other areas of the program (e.g., recruitment).

Operational Effectiveness Goals

| Identify Each Operational Effectiveness Goal and Measurement Tool(s) | Identify the Benchmark (e.g., 80% will achieve a rating of 5) | Data Summary | As 1. 2. 3. 4. | sessment Results: Does not meet expectation Meets expectation Exceeds expectation Insufficient data |

| Measure 3: Internship – 300 hours completed (typically during the student's senior year). | To have 90% of students successfully complete a 300-hour internship their senior year. | 2 |
| Measure 4: Advisory Board | 80% of our Advisory Board members will perceive our course offerings, course assessments, and the program as a whole align with the trends and opportunities in the sport industry. | 3 |

OEG Closing the Loop

The USI Sport Management program achieved all its measures within the operational effectiveness goals for the 2024-25 academic year. This feat is one that is celebrated. With that in mind, it will be the primary focus of the program to repeat this achievement next year; specifically focusing on the retention aspect of the program.
