SECTION II - FINANCIAL MATTERS

C. APPROVAL OF MISCELLANEOUS FEE

Indiana's seven public institutions of higher education have established the Partnership for Statewide Education to deliver undergraduate courses throughout the state via distance education. Each campus will establish an on-site Learning Center to provide services for partnership students. The institutions have agreed to a \$25 per course fee for partnership students to help cover Learning Center costs. The fee is in addition to course tuition and other course fees.

It is recommended that the \$25 fee be approved for immediate implementation.
