UNIVERSITY OF SOUTHERN INDIANA

PRIORITIES OF 2011-2013 OPERATING AND CAPITAL IMPROVEMENT BUDGET REQUESTS

The 2011-2013 Operating Budget Request and Capital Improvement Budget Request for the University of Southern Indiana were developed in response to the critical needs of the institution and the State of Indiana. The University maintains its commitment to provide students with an affordable, quality education and will continue to expand its many partnerships with business and industry, and social, educational, governmental, and health agencies.

The University faces many challenges as it continues to operate with the lowest tuition and fees of all four-year public universities in the state and the lowest appropriation per-FTE-Hoosier student of the four-year residential campuses. The financial support the University receives from the state is critical to provide the programs, facilities, and support services necessary to fund increases in enrollment and the educational requirements for a high quality educational experience.

The University of Southern Indiana seeks support from the State of Indiana for its 2011-2013 Operating and Capital Improvement Budget Requests to fully fund:

- Successfully Completed Credit Hours
- Dual Credit Successfully Completed Credit Hours
- Change in Degree Completion
- On-Time Degree Completion
- Low Income Degree Completion
- Special Repair and Rehabilitation Funding for Three Academic Facilities
- Repair and Rehabilitation Funding

To help achieve the goals of the state and of the region, the University of Southern Indiana requests support of its 2011-2013 Operating and Capital Improvement Budget Requests.
INSTITUTIONAL REQUEST

Full funding of the University of Southern Indiana’s 2011-2013 Operating Budget Request is important to the ongoing growth and development of the campus. The University’s budget request was developed in response to the critical needs of the institution and the State of Indiana. The University maintains its commitment to provide students with an affordable, quality education and will continue to expand its many partnerships with business and industry, and social, educational, governmental, and health agencies.

The University has prioritized the needs it believes are required to maintain current programs, sustain the current pattern of enrollment and support increases in enrollment, and address critical state and regional needs. Details of the operating budget request are included in the 2011-2013 Operating Budget Request and the supporting narrative and budget schedules.

- **Successfully Completed Credit Hours** - In 2009-2011, Indiana adopted the successfully completed credit hours performance funding incentive. The new formula was partially funded in 2009-2011 with the expectation it would be completely phased in during the 2011-2013 biennium. The University requests funding at $4,675 per-FTE-Hoosier student based on the four-year rolling average for an additional 526 full-time equivalent (FTE) students who successfully completed credit hours.

Because of growth in enrollment, an increase in the number of successfully completed credit hours, and because the incentive formulae have not been fully funded, the University’s appropriation per-FTE-Hoosier student continues to fall
behind. The funds provided through the incentive formulae are essential to provide the instruction and support needed for a quality educational experience for USI students.

- **Dual Credit Successfully Completed Credit Hours** - Interest in opportunities for students to earn college credit while still in high school has grown significantly in recent years. More school corporations want to partner with higher education institutions to offer dual credit. State legislation has mandated the availability of dual credit coursework in high schools throughout Indiana. Dual credit successfully completed credit hours are reported separately in the 2011-2013 budget schedules. The University requests funding for an additional 72 full-time equivalent (FTE) students who successfully completed dual credit hours.

- **Change in Degree Completion** - In 2007-2009, Indiana adopted the degree completion performance funding incentive. From 2003-2004 to 2008-2009, the average number of baccalaureate degrees conferred increased from 992 to 1,164. The University requests funding at $5,000 for an additional 129 degrees conferred based on the two-year average.

- **On-Time Degree Completion** - In 2007-2009, Indiana adopted the time to degree performance funding incentive. From 2003-2004 to 2005-2006, the number of baccalaureate degrees conferred in four years increased by .4 percent. The University requests funding at $5,000 for an additional 24 degrees conferred in four years based on the percent change in cohort graduation rate.

- **Low Income Degree Completion** - In 2009-2011, a new performance incentive was partially funded for change in number of degrees awarded to low income students receiving Pell Grants. From 2005-2006 to 2008-2009, the average number of baccalaureate degrees conferred increased from 221 to 265. The University requests funding at $5,000 for an additional 44 degrees conferred based on the two-year average.

- **Maintenance for Current Programs** - The 2011-2013 Operating Budget Instructions request that no assumption be made for Maintenance/Price increases for the biennium. It is important to note that even though no request was made for increased operating costs, the University continues to experience increased costs. In the University’s 2011-2013 Operating Budget Request, the University seeks funding to maintain current programs and implement new initiatives during the biennium.
LINE ITEM APPROPRIATION REQUEST

The University’s 2011-2013 Operating Budget Request includes one line item appropriation for Historic New Harmony.

</tbody>
</table>

The University requests continued funding of the line item appropriation for Historic New Harmony in the 2011-2013 biennium to support the preservation, education, and interpretive programs of this state and national treasure.

CAPITAL BUDGET REQUEST

The University of Southern Indiana requests bonding authorization for one capital project and full funding of the General Repair and Rehabilitation and Infrastructure formulas during the 2011-2013 biennium.

Special Repair and Rehabilitation Project $15,000,000

The University requests $15,000,000 in Special Repair and Rehabilitation funding for the renovation and/or expansion of three academic facilities. As campus buildings continue to age, there is increased need to renovate and rehabilitate the facilities. The three projects include: renovation and expansion of the Physical Activities Center to provide additional classroom and laboratory space for the Physical Education Department and renovation of classrooms and laboratories in the Science Center and the Technology Center. The Physical Activities Center, Science Center, and Technology Center serve thousands of students each year. Core academic programming is offered in each of these facilities. The planned renovation and/or expansion will insure the facilities remain in good physical condition.

General Repair and Rehabilitation and Infrastructure $2,425,000

The University requests full funding of the General Repair and Rehabilitation and Infrastructure formulas to maintain existing facilities, including the infrastructure which supports these facilities, in both years of the biennium. Several general repair and rehabilitation projects totaling $2,425,000 are planned for completion in the 2011-2013 biennium.
CONCLUSION

The University of Southern Indiana requests support from the State of Indiana for its 2011-2013 Operating and Capital Improvement Budget Requests. The funding requested to support successfully completed credit hours, change in degree completion, on-time degree completion, low income degree completion, one capital project, and repair and rehabilitation projects is essential for the University of Southern Indiana to serve the southern Indiana region and to help achieve the goals of the state.
