Executive Summary

The final report of student financial aid activity in 2017-2018 contains summary and program-specific data of all student aid programs administered by Student Financial Assistance. Key indicators contained in the 2017-2018 report are:

Service Profiles
Student Financial Assistance served 13,281 prospective and returning students of which 12,044 filed a Free Applications for Federal Student Aid (FAFSA) for need-based assistance. Financial assistance was packaged for 11,478 students, each of whom received an award letter detailing all federal, state, USI Foundation and USI Institutional awards. Student Financial Assistance disbursed assistance to 7,825 enrolled students resulting in 19,806 awards totaling almost $80.7 million. This is a substantial increase from the prior year, primarily due to increases in all federal programs excluding the federal Nursing Stipend, and most state programs. Institutional scholarships also realized a significant increase.

Federal Pell Grant Program

The Federal Pell Grant Program, which is one of seven federal aid programs, is the cornerstone of aid packages for exceptionally needy students. The number of Pell Grant recipients increased 2.7 percent following a 3.7 percent decrease in 2016-2017. Total Pell Grant dollars increased 10.6 percent following a 4.3 percent decrease in the prior year. The new Federal Year-Round Pell Grant program, which was implemented summer 2018, accounts for a substantial portion of the funding increase along with a higher percent of eligible students. The Year-Round Pell Grant program allows students who exhaust their annual Pell Grant eligibility during the academic year (fall/spring), and attend at least halftime in the summer, to receive additional Pell Grant funds for summer attendance.

State Funds

Total Indiana funding was up 20.4 percent in 2017-2018 following a 0.5 percent increase in 2016-2017. The increase can be attributed to an increased number of students qualifying for the Indiana Higher Education Award as well as the implementation of the new summer program, Fast Track. The Fast Track program, which is similar to the Federal year-round Pell Grant program, allows students who have exhausted their annual state awards during the academic year (fall/spring) and attend at least halftime in the summer, to use some of their future eligibility for summer courses.

Changes in funding levels are summarized by source below:

Federal Direct Loan Program

Aggregate borrowing for Direct Stafford Student Loan recipients among the Class of 2018 baccalaureate graduates averaged $21,478. Among 2018 masters’ and doctoral degree recipients, aggregate borrowing averaged $33,960, including both graduate and undergraduate borrowing. These figures are based on borrowing while enrolled at USI.

There are on-going efforts nationally, in Indiana and here at USI to reduce the three-year Cohort Default Rates (CDR). As can be seen in the chart below, our efforts continue to keep USI’s three-year CDR to significantly less than the national and state averages and lower than the average for four-year public institutions.
A three-year summary of Federal FY Cohort Default Rates appears below:
